## Dopamine D5 Receptor Antibody

Catalog Number: PC-D5R

### General Product Information

|                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product</b>               | Dopamine D5 Receptor                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Description</b>           | Affinity Purified D(1B) dopamine receptor antibody,D(5) dopamine receptor antibody,D1 beta dopamine receptor antibody,D1B dopamine receptor antibody,D1beta dopamine receptor antibody,D5 dopamine receptor antibody,DBDR antibody,Dopamine D5 receptor antibody,Dopamine receptor D1B antibody,dopamine receptor D5 antibody,DRD 1B antibody,DRD 5 antibody,DRD1B antibody,DRD1L2 antibody,DRD5 antibody,DRD5_HUMAN antibody,MGC10601 antibody, Antibody |
| <b>Verified Applications</b> | WB                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

### Physical Properties

|                            |                                                                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Quantity</b>            | 100 µg                                                                                                                                                                                     |
| <b>Volume</b>              | Inquire                                                                                                                                                                                    |
| <b>Form</b>                | Western Blot Positive Control                                                                                                                                                              |
| <b>Immunoglobulin</b>      | IgG                                                                                                                                                                                        |
| <b>Concentration</b>       | The concentration is set so that 20 µl per lane in Western and blotted with corresponding affinity purified antibody will give a clean band with a high signal to noise ration on the gel. |
| <b>Purification Method</b> | Affinity Purified                                                                                                                                                                          |
| <b>Clonality</b>           | Polyclonal                                                                                                                                                                                 |
| <b>Storage</b>             | -20°C for long term storage.                                                                                                                                                               |

### Application Protocol

|                     |               |
|---------------------|---------------|
| <b>Western Blot</b> | 1:500–1:2,000 |
|---------------------|---------------|
