## Rabbit PDE4A5 Antibody BIOTIN

Catalog Number: PD4A5-BIOTIN

### General Product Information

|                                 |                                                                                                                                                                                   |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product</b>                  | PDE4A5 Antibody BIOTIN                                                                                                                                                            |
| <b>Description</b>              | BIOTIN-Conjugated cAMP specific phosphodiesterase 4A variant pde46 Antibody                                                                                                       |
| <b>Verified Applications</b>    | CM, ELISA, ICC, IF, IHC, IP, WB                                                                                                                                                   |
| <b>Species Cross Reactivity</b> | Human, Mouse, Rat                                                                                                                                                                 |
| <b>Immunogen</b>                | Synthetic cyclic peptide specific only for PDE4A5 protein. N-terminal sequence modified to achieve desired antigenicity and linker for covalent coupling to blue carrier protein. |

### Physical Properties

|                            |                                                      |
|----------------------------|------------------------------------------------------|
| <b>Quantity</b>            | 100 µg                                               |
| <b>Volume</b>              | 200 µl                                               |
| <b>Form</b>                | BIOTIN-Conjugated                                    |
| <b>Immunoglobulin</b>      | IgG                                                  |
| <b>Concentration</b>       | 0.50-1.50 mg/ml IgG in antibody stabilization buffer |
| <b>Purification Method</b> | Affinity Purified                                    |
| <b>Clonality</b>           | Polyclonal                                           |
| <b>Conjugate</b>           | BIOTIN                                               |
| <b>Storage</b>             | Store at -20°C for long term storage.                |

### Application Protocol

|                                               |               |
|-----------------------------------------------|---------------|
| <b>ELISA</b>                                  | 1:10,000      |
| <b>Immunohistochemistry</b>                   | 1:150-1:250   |
| <b>Immunocytochemistry/Immunofluorescence</b> | 1:150-1:250   |
| <b>Immunoprecipitation</b>                    | 1:200         |
| <b>Western Blot</b>                           | 1:500-1:1,000 |
