

About FacilitySight

What is FacilitySight?

FacilitySight is the intelligence platform for the spaces where people gather. It captures what manual counts never could: when people arrive, how long they stay, and which spaces they actually use. One platform gives facility leaders real-time occupancy visibility, automated reporting, and environmental monitoring, accessible from any device.

The Problems We Solve

**Staffing by
Guesswork**

**Budget Requests
Without Evidence**

**Underutilized
Spaces**

**No Real-Time
Visibility**

Everything Included at One Price

FacilitySight combines software, sensors, and support into a single subscription. No hidden fees, no per-feature add-ons.

- **Real-Time Occupancy:** Live headcounts at every entrance and zone so you always know exactly how many patrons are in each space.
- **Safety Alerts:** Real-time alerts from FEMA, NOAA, and NWS geo-targeted to each location, plus occupancy threshold warnings for fire code compliance.
- **Automated Reporting:** Reports generated and delivered on your schedule, ready for state reporting, board packets, and budget season. Pre-built templates and one-click export to PDF, CSV, or email mean no manual assembly required.
- **Environmental Monitoring:** Temperature, humidity, CO2, air quality, noise, and vape detection across all facilities in one view. Proactive alerts notify staff before conditions become complaints or compliance issues.
- **Forecasting:** A 60-day prediction model that uses historical patterns, day-of-week trends, and weather to help you staff with confidence.
- **Ask FacilitySight:** Get instant answers from your data in plain English. "When is my busiest hour?" "How many visitors came in last Tuesday?"

Testimonials

FacilitySight has been a valuable tool for understanding daily patron flow and how our building is being used. The setup was straightforward, and post purchase support has been excellent. The team is responsive, helpful, and quick to answer questions.

Shawn Fry

Director
Gallatin County Public Library

We love having FacilitySight. We can more accurately track our patron visits and meeting room usage and pull historical reports, which are vital for sharing information with our community and for our state reporting.

Callie Cortner

Director
Library, Arts, & Community Engagement
Miami Public Library

Our Promise

We're confident you'll love FacilitySight, and our team is here to make sure of it. But if it's not the right fit, you have 90 days to walk away with a full refund.

Warranty and Lifespan

Every sensor includes a **minimum 2-year** warranty with continuous health monitoring. We don't believe in planned obsolescence. If your hardware is running, we support it. No forced upgrades, no end-of-life cutoffs.

Installation Options

Self-Installation

If your team includes IT staff or a trusted technician, we provide everything needed to get up and running. Step-by-step guidance, pre-configured sensors, and direct access to our support team throughout the process.

Assisted Installation

Prefer a hands-off setup? We'll connect you with a certified installer from our nationwide network of local providers. Same quality installation, no burden on your staff.

The Platform

FacilitySight unifies occupancy, environmental, and safety data into a single platform accessible from any device. Whether you manage one building or many, every insight lives in one place.

Always Real-Time

Live headcounts at every entrance and zone update continuously with sub-second latency. See exactly how many patrons are in each space at any moment. No manual resets, no guessing, no refreshing.

99.9%

Uptime SLA
Guarantee

Prioritizing Safety

FacilitySight aggregates emergency alerts from FEMA, NWS, and NOAA, geo-targeted to each of your locations. Occupancy warnings help support fire code compliance, and staff are notified within **seconds**, not minutes or hours. Environmental sensors also monitor air quality, CO levels, and vape detection so invisible threats are caught before they become incidents.

Powerful Reporting

Reports are generated and delivered automatically. Pre-built templates, flexible scheduling, and one-click export to PDF, CSV, or email. No manual assembly required. The average facility manager saves over **16 hours per month** by replacing manual report assembly with FacilitySight.

Privacy & Security Built In

FacilitySight is built on a privacy-first foundation. Our platform is SOC 2 compliant with enterprise-grade encryption and role-based access controls.

- **Anonymous by Design:** Our sensors detect presence and movement, never faces and never identities. No images are captured or stored.
- **Your Data Stays Yours:** We never sell your data. Full stop. You own it, you control it, and you decide who sees it.
- **Secure Infrastructure:** All data is encrypted in transit and at rest with role-based permissions so only authorized staff can access sensitive information.

Schedule a Demo or Request a Quote

Every facility is different. Let us put together a custom quote based on your building, your goals, and your budget. No obligation, no pressure.
