Employment History

Sr Android Developer, Farmacia San Pablo, Mexico City

2020 − PRESENT

E-commerce app for one of the largest pharmaceutical companies based in Mexico.

- Several improvements in UI and UX which led to raise one point on store score.
- Successfully release a refactor to App-gallery which led to another 8 k+ installations.
- Significantly reduce app crashes after I started to manage the Google Play console.

Android Freelance, Freelance, Mexico City

OCTOBER 2019 − MAY 2020

- Successfully completed 20+ freelance Android jobs in one of biggest platforms for LATAM (Workana) with score 4.7 out of 5.0.
- I reached top 10 in ranking for all LATAM

Sr Android Developer, RoadTrack , Mexico City

SEPTEMBER 2015 − DECEMBER 2019

App development for GMC Onstar System to connect with your vehicle.

- Improved core system and tracking, delivering at least 15% faster responses from vehicle to app.
- Greatly reduce app crashes after implementing core improvements
