In permitting a nonsectarian invocation, the City does not intend to proselytize, advance, or disparage any faith or belief. Neither the City nor the City Council endorses any particular belief or form of invocation.

REORDERING OF AND ADDITIONS TO THE AGENDA

PUBLIC COMMENT

Three (3) Minute speaking time limit, speaking once, unless upon motion, such time is extended by the legislative body.

Any person may request to address a legislative body during a public meeting. Speakers are limited to three (3) minutes, speaking once, on both on- and off- agenda items, unless, upon motion, such time is extended by the legislative body. Such statements shall only be allowed during the Public Comment portion of the agenda. If there are any public hearings scheduled, individuals will be given an additional opportunity to comment under said items. Speakers are not permitted to yield their time to another speaker. Public comment is limited to 30 minutes at each meeting, with the ability to extend if the legislative body so chooses by majority vote.

To ensure that the public is able to participate, the City may provide a variety of ways in which the public can submit their comment: in person, email, phone call, mail and any other method which may become available. Methods of participation may be subject to change during other such times when a State of Emergency, Health Order or State Executive Order limits in-person participation.

5. Public Comments Received

MEMBER STATEMENTS/REPORTS

CITY MANAGER AND CITY ATTORNEY STATEMENTS

PUBLIC HEARINGS

Public hearings shall conform to the protocol established to conduct of public meetings, proceedings, and business in the City of Glendora. Following presentation of the staff report, the applicant/appellant will be allowed ten (10) minutes in which to make a presentation. Following the presentation of the applicant/appellant public testimony share be called, each speaker is limited to three (3) minutes, speaking once. The Presiding Officer may permit a five (5) minute rebuttal/summation by a representative of applicant/appellant. The public hearing will then be closed, and no member of the public shall be allowed to speak further unless, upon motion, and the public hearing is reopened by the governing body. Any person desiring to provide testimony during a Public Hearing item shall make his/her presence known to the Presiding officer. Speakers are entitled to submit written or other graphic evidence. All such evidence presented shall be retained by the City Clerk as part of the Clerk's record.

PLEASE NOTE: If you challenge any of the proposed action(s) in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City Council at, or prior to, the public hearing.

6. A Public Hearing to Consider a Resolution Approving the Issuance of Bonds for the Purpose of Financing and/or Refinancing Certain Revenue Bonds for Emanate Health and Affiliates

Recommended Action for the City Council:

Conduct a public hearing under the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) in connection with the proposed bonds by the California Statewide Communities Development Authority (CSCDA) in amount not to exceed $90,000,000 for the purpose of financing and/or refinancing certain revenue bonds for Emanate Health; and

— 1. Adopt a City Council Resolution entitled, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, APPROVING THE ISSUANCE OF THE CALIFORNIA STATEWIDE COMMUNITIES DEVELOPMENT AUTHORITY REVENUE BONDS (EMANATE HEALTH) SERIES 2025 IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED $90,000,000 FOR THE PURPOSE OF FINANCING AND/OR REFINANCING THE ACQUISITION, CONSTRUCTION, EQUIPPING, IMPROVEMENT, RENOVATION, REHABILITATION AND/OR REMODELING (INCLUDING BY REIMBURSING EXPENDITURES MADE FOR SUCH PURPOSES) OF HOSPITAL, HEALTH CARE AND RELATED FACILITIES AND CERTAIN OTHER MATTERS RELATING THERETO."

7. A Public Hearing to consider adopting Resolutions approving the Engineer's Report and confirming a diagram and assessment for the City of Glendora Landscape Maintenance District Number 1 for Fiscal Year 2025/26

Recommended Action for the City Council:

Conduct Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary consider the following:

— 1. Adopt a City Council Resolution entitled, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER'S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1"; and

— 2. Adopt a City Council Resolution entitled, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26."

8. A Public Hearing to consider adopting Resolutions approving the Engineer's Report and confirming a diagram and assessment for the City of Glendora Streetlight Maintenance District Number 1 for Fiscal Year 2025/26

Recommended Action for the City Council:

Conduct Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary consider the following:

— 1. Adopt a City Council Resolution entitled, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER'S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1"; and

— 2. Adopt a City Council Resolution entitled, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26."

CONSENT CALENDAR

Items on the Consent Calendar will be enacted by one motion without individual discussion. There will be no separate discussion of these items unless a member of the governing body requests specific item(s) be removed from the Consent Calendar for separate action. Items removed from the Consent Calendar will be considered after the Consent Calendar is approved. Anyone wishing to address a Consent Calendar item should do so during the Public Comment Period.

9. City of Glendora and Glendora Successor Agency Investment Report for May 2025

Recommended Action for the City Council and Glendora Successor Agency:

— 1. Receive and file the Monthly Investment Activity Report for May 2025.

10. Authorize Reallocation of Previously Approved State Homeland Security Program Sub-recipient Agreement for Grant Year 2021 Funds to Meridian Vehicle Barriers

Recommended Action for the City Council:

— 1. Authorize the Reallocation of the Previously Approved Funds for the 2021 State Homeland Security Program Subrecipient Agreement with County of Los Angeles for $72,000 from Flock ALPR cameras to Meridian vehicle barriers, and,

— 2. Authorize the Purchase of 3 vehicle barriers and deployment equipment from Meridian Rapid Defense Group based in Pasadena, CA for $72,000, including taxes and fees.

11. Approval of the State Homeland Security Program (SHSP) Subrecipient Agreement for Grant Year 2023 with the County of Los Angeles, and Authorization to Enter into Agreements with Flock Group, Inc. and Axon Enterprise, Inc. for the Acquisition and Development of Additional Stationary and Mobile Automated License Plate Reader (ALPR) Systems

Recommended Action for the City Council:

— 1. Approve the 2023 State Homeland Security Program Subrecipient Agreement with County of Los Angeles;

— 2. Approve a two-year agreement with Flock Group, Inc., for the use of eleven (11) additional automated license plate readers in the amount of $71,050;

— 3. Approve a 31-month agreement with Axon Enterprise, Inc., for the expansion of our existing Fleet 3 cameras, activating the existing automated license plate readers technology in eighteen (18) patrol vehicles in the amount of $33,278.94; and

— 4. Approve an increase in estimate revenues and a supplemental appropriation in the FY2024-25 Midcycle Budget from Grants Fund 280 in the amount of $100,000.

12. Authorize the transition of City Cellphone services from Verizon Wireless to T-Mobile

Recommended Action for the City Council:

— 1. Authorize the Information Technology to transition the City's cellphone service provider from Verizon Wireless to T-Mobile, utilizing already budgeted funds.

13. Approve expenditure in the amount of $86,113.70 for the replacement of the engine in Water Division vehicle No. 304, Kenworth T880 Vactor hydro-excavator

Recommended Action for the City Council:

— 1. Approve the expenditure of $86,113.70 for the replacement of the engine in Water Division Vehicle No. 304 (Kenworth T880 Vactor hydro-excavator).

14. Approval of Amendment No. 3 to the Agreement for Contractual Services between CSG Consultants, Inc. and the City of Glendora Dated July 13, 2021 for Building Plan Review and Inspection Services

Recommended Action for the City Council:

— 1. Approve an Amendment No. 3 to the Contract Services Agreement with CSG Consultants, Inc., extending the contract term by one year and increasing the contract amount by $385,000; and

— 2. Authorize the City Manager to execute the agreement.

15. Award Professional Contract Services Agreement to JMDiaz, Inc. (JMD) in an amount not to exceed $221,000 for services related to providing professional engineering and land development services

Recommended Action for the City Council:

— 1. Award Professional Contract Services Agreement to JMDiaz, Inc. (JMD) in an amount not to exceed $221,000 for services related to providing professional engineering and land development services; and

— 2. Authorize the City Manager to execute.

UNFINISHED BUSINESS

16. Approval of a Facility Use Agreement between the City of Glendora, Glendora Unified School District and Glendora American Little League

Recommended Action for the City Council:

— 1. Approve the Facility Use Agreement between the City of Glendora, Glendora Unified School District and Glendora American Little League; and

— 2. Authorize the City Manager or his designee to execute the agreement, including making non-substantive changes.

17. City Facility Capital Needs Update, Funding Options, and Election Timelines

Recommended Action for the City Council:

— 1. Receive a report on capital needs of City facilities, options to fund those needs, and election timeline; and

— 2. Provide direction to staff, as necessary.

NEW BUSINESS

18. Short Range Transit Plan

Recommended Action for the City Council:

— 1. Authorize staff to proceed with the phased implementation of the Short Range Transit Plan, including service redesign, capital improvements, and technology upgrades, contingent upon the acquisition of necessary fleet and infrastructure resources;

— 2. Direct staff to identify and pursue grant funding and other financial opportunities at the local, regional, state, and federal levels to support implementation, including vehicle procurement, bus stop enhancements, and technology systems;

— 3. Authorize staff to initiate procurement planning for transit vehicles, bus stop amenities, and related capital improvements, subject to available funding; and

— 4. Authorize staff to make necessary adjustments to the new routes as needed based on ongoing ridership trends and community feedback.

19. First Reading and Introduction of an Ordinance Updating the City's Fire Hazard Severity Zone Map

Recommended Action for the City Council:

— 1. Introduce for first reading an Ordinance entitled, "AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GLENDORA ADOPTING THE OFFICIAL FIRE HAZARD SEVERITY ZONE MAP PREPARED BY THE CALIFORNIA DEPARTMENT OF FORESTRY AND FIRE PROTECTION AND THE OFFICE OF THE STATE FIRE MARSHAL FOR LOCAL RESPONSIBILITY AREAS WITHIN THE CITY, PURSUANT TO CALIFORNIA GOVERNMENT CODE SECTIONS 51175-51189."

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Community Development**	**DISTRICT(S):**	**Citywide**

SUBJECT: **A Public Hearing to Consider a Resolution Approving the Issuance of Bonds for the Purpose of Financing and/or Refinancing Certain Revenue Bonds for Emanate Health and Affiliates**

RECOMMENDATION

That the City Council:

Conduct a public hearing under the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) in connection with the proposed bonds by the California Statewide Communities Development Authority (CSCDA) in an amount not to exceed $90,000,000 for the purpose of financing and/or refinancing certain revenue bonds for Emanate Health; and

1. Adopt a City Council Resolution entitled, “A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, APPROVING THE ISSUANCE OF THE CALIFORNIA STATEWIDE COMMUNITIES DEVELOPMENT AUTHORITY REVENUE BONDS (EMANATE HEALTH) SERIES 2025 IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED $90,000,000 FOR THE PURPOSE OF FINANCING AND/OR REFINANCING THE ACQUISITION, CONSTRUCTION, EQUIPPING, IMPROVEMENT, RENOVATION, REHABILITATION AND/OR REMODELING (INCLUDING BY REIMBURSING EXPENDITURES MADE FOR SUCH PURPOSES) OF HOSPITAL, HEALTH CARE AND RELATED FACILITIES AND CERTAIN OTHER MATTERS RELATING THERETO.”

STRATEGIC FOCUS AREAS

Not Applicable

EXECUTIVE SUMMARY

On behalf of Emanate Health (the “Borrower”), the City Council is being requested to hold a public hearing to consider approval of a resolution granting the CSCDA authorization and direction to issue tax-exempt bonds (the “Bonds”) to finance and/or refinance capital projects with respect to certain healthcare facilities located in the City of Glendora (the “City”) for Emanate Health and its affiliates (the “Project”).

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

The Tax Equity and Fiscal Responsibility Act (TEFRA) is a federal tax legislation intended to increase revenue through the issuance of tax-exempt bonds. Pursuant to TEFRA and the Internal Revenue Code of 1986, federal law requires a public hearing in connection with the proposed issuance of revenue bonds by the CSCDA. CSCDA may not approve the bond financing unless and until the City Council approves the bond issuance after conducting a public hearing (referred to as a “TEFRA hearing”).

TEFRA mandates a public accountability procedure involving the legislative body of a local agency in which a proposed project (to be funded with tax-exempt bonds) is located. The TEFRA hearing is intended to provide members of the community an opportunity to speak on behalf or against the proposed project. Once the TEFRA hearing has been conducted, the City Council is then asked to adopt a resolution approving the issuance of tax-exempt bonds for the Project.

DISCUSSION

Pursuant to Section 147(f) of the Internal Revenue Code of 1982, the Bonds for the Project will be issued by the CSCDA and must be approved by the City due to the Project's location within the territorial limits of the City of Glendora.

The CSCDA is a California joint exercise of powers authority established in 1988 and organized under the laws of the State of California (specifically, California Government Code Section 6500 and following), and is sponsored by the League of California Cities and the California State Association of Counties. Over 530 California cities, counties, and special districts, have entered into and executed the Agreement to become a member of the CSCDA, including the City, for the sole purpose of issuing revenue bonds for the financing of projects that promote economic development.

The CSCDA's mission is to provide local governments and private entities access to low-cost, tax-exempt financing for projects that provide a tangible public benefit, contribute to social and economic growth, and improve the overall quality of life in local communities throughout California. Since inception, the CSCDA has issued more than $70 billion in tax-exempt debt completing more than 1,600 financings, including approximately $40 billion in qualified 501(c)(3) bonds for more than 300 nonprofit organizations throughout California.

Each financing completed by the CSCDA has been structured so that the local agency completing the TEFRA hearing process has "no liability" with respect to the issuance of bonds or the repayment of any debt service relating to such bonds. More importantly, the local agency completing the TEFRA hearing process is not a party to any of the financing documents relating to the issuance of the bonds nor is it named in any of the disclosure documents describing the bonds or the proposed financing. The City of Glendora has no financial obligation and incurs no financial liability for the issuance of the Bonds.

The proceeds from the sale of the Bonds related to the City are expected to be used to for the following projects:

- **2244 East Route 66, Glendora, CA 91740**
  - Medical Administrative Office Renovation. The project is the interior renovation of an existing 19,325-square-foot building to include façade and site improvements to facilitate relocation of Emanate Health business office. The new office will include 12 private offices, mezzanine, an open area with 76 cubicles and various support spaces. Approximately 5,105 square feet of the building will remain as a shell space for future development.

- **415 West Carrol Street, Glendora, CA 91790**
  - Pediatrics and OBGYN Clinic Remodel. The project is a remodel of an existing building, encompassing 12,000 square feet, converting it into a medical office building. The first floor will be dedicated to providing OBGYN care and includes 13 exam rooms, 1 treatment room, 1 ultrasound room and support spaces. While the second floor will serve pediatric care patients and includes 12 exam rooms, 1 treatment room and support spaces.

- **250 South Grand Avenue, Glendora, CA 91741**
  - Medication and Anesthesia Automated Dispensing Equipment. This project involves system-wide upgrades to medication and anesthesia dispensing equipment. Specifically, Omnicell is used as an automated medication dispensing system in hospitals to improve efficiency and reduce errors in medication management. It automates tasks like dispensing medications, managing inventory, and tracking usage, allowing pharmacists and nurses to focus on patient care. Automated Dispensing Cabinets provide visibility of stock to prevent overstocking, waste, stock outs, automatic restock based on defined triggers. Omnicell's Digital Ecosystem delivers data intelligence with descriptive (MedXpert) and predictive and prescriptive (Insights) analytics.

The financing also encompasses projects in the cities of West Covina and Covina who are conducting their TEFRA hearings and approvals on June 17, 2025.

FISCAL IMPACT

The City will not be a party to the financing documents. Repayment of the Bonds will not be secured by any form of taxation, or be an obligation of the City. The Bonds will not represent or constitute an obligation of the City, general or otherwise. Pursuant to the governing California statutes, the City will not be responsible for the repayment of the Bonds the CSCDA issues on behalf of the Borrower.

RESOLUTION CC 2025-____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, APPROVING THE ISSUANCE OF THE CALIFORNIA STATEWIDE COMMUNITIES DEVELOPMENT AUTHORITY REVENUE BONDS (EMANATE HEALTH) SERIES 2025 IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED $90,000,000 FOR THE PURPOSE OF FINANCING AND/OR REFINANCING THE ACQUISITION, CONSTRUCTION, EQUIPPING, IMPROVEMENT, RENOVATION, REHABILITATION AND/OR REMODELING (INCLUDING BY REIMBURSING EXPENDITURES MADE FOR SUCH PURPOSES) OF HOSPITAL, HEALTH CARE AND RELATED FACILITIES AND CERTAIN OTHER MATTERS RELATING THERETO

THE CITY COUNCIL
City of Glendora, California

WHEREAS, Emanate Health, a California nonprofit public benefit corporation (the "Corporation"), has requested that the California Statewide Communities Development Authority (the "Authority") participate in the issuance of one or more series of revenue bonds in an aggregate principal amount not to exceed $90,000,000 (the "Bonds") for the acquisition, construction, equipping, improvement, renovation, rehabilitation and/or remodeling of hospital, health care and related facilities (the "Facilities") to be owned and operated by the Corporation or one of its affiliates (the "Project") and located within the City of Glendora (the "City"), the City of Covina and the City of West Covina; and

WHEREAS, pursuant to Section 147(f) of the Internal Revenue Code of 1986 (the "Code"), the issuance of the Bonds by the Authority must be approved by the City because a portion of the Facilities are located or to be located within the territorial limits of the City; and

WHEREAS, the City Council of the City (the "City Council") is the elected legislative body of the City and is one of the applicable elected representatives required to approve the issuance of the Bonds under Section 147(f) of the Code; and

WHEREAS, the Authority has requested that the City Council approve the issuance of the Bonds by the Authority for the purposes of financing and/or refinancing the Project in order to satisfy the public approval requirement of Section 147(f) of the Code and the requirements of Section 9 of the Amended and Restated Joint Exercise of Powers Agreement, dated as of June 1, 1988 (the "Agreement"), among certain local agencies, including the City; and

WHEREAS, the Authority is also requesting that the City Council approve the issuance of any refunding bonds hereafter issued by the Authority for the purpose of refinancing the Bonds which financed the Facilities (the "Refunding Bonds"), but only in such cases where federal tax laws would not require additional consideration or approval by the City Council; and

WHEREAS, pursuant to Section 147(f) of the Code, the City Council has, following notice duly given, held a public hearing regarding the issuance of the Bonds, and now desires to approve the issuance of the Bonds by the Authority.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. The City Council hereby approves the issuance of the Bonds and Refunding Bonds by the Authority for the purposes of financing and/or refinancing the Project. It is the purpose and intent of the City Council that this resolution constitute approval of the issuance of the Bonds and Refunding Bonds by the Authority and of the financing and/or refinancing of the Project, for the purposes of (a) Section 147(f) of the Code by the applicable elected representative of the issuer of the Bonds and the governmental unit having jurisdiction over the area in which the Facilities are located or are to be located, in accordance with said Section 147(f) and (b) Section 9 of the Agreement.

SECTION 2. The City Clerk shall certify to the passage and adoption of this resolution and shall enter the same in the Book of Original Resolutions.

SECTION 3. The officers of the City are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they deem necessary or advisable in order to carry out, give effect to and comply with the terms and intent of this resolution and the financing transaction approved hereby.

APPROVED and **PASSED** by the City Council of the City of Glendora this ____ day of June, 2025.

I further certify that said Resolution was published as required by law in a newspaper of general circulation in the City of Glendora, California on the 24th day of June, 2025.

Dated:

_____

KATHLEEN R. SESSMAN,
City Clerk/Communications Director

NOTICE OF PUBLIC HEARING
YOU MAY BE AFFECTED BY THE FOLLOWING:

NOTICE IS HEREBY GIVEN that a public hearing will be held as required by Section 147(f) of the Internal Revenue Code of 1986 in the City Council Chambers of City Hall, 116 E. Foothill Boulevard, Glendora, California, on Tuesday, June 24, 2025 at 7:00pm.

A public hearing will be held with respect to the proposed issuance by the California Statewide Communities Development Authority (the "Issuer") of qualified 501(c)(3) bonds, as defined in Section 145 of the Code, for hospital or other health care and related facilities in one or more series in an amount not to exceed $90,000,000 (the "Bonds"). Proceeds of the Bonds in an amount not to exceed $13,000,000 is expected to be used to finance and/or refinance the acquisition, construction, equipping, improvement, renovation, rehabilitation and/or remodeling (including by reimbursing expenditures made for such purposes) of hospital, health care and related facilities located generally at 2244 East Route 66, 415 West Carrol Street, and 250 South Grand Avenue, each in Glendora, California. The facilities are to be owned and operated by Emanate Health or one of its affiliates, each a nonprofit public benefit corporation and an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986.

The remainder of the proceeds of the Bonds will be used by Emanate Health or one of its affiliates to finance or refinance projects located in the City of Covina and the City of West Covina.

The Bonds will be special limited obligations of the Issuer payable solely from the loan repayments to be made by Emanate Health to the Issuer, and certain funds and accounts established by the bond indenture for the Bonds.

Interested persons wishing to express their views on the issuance of the Bonds or on the nature and location of the facilities proposed to be financed and/or refinanced may attend the public hearing and submit comments using one of the following methods:

OPTION 1: E-MAIL
Public comments can be submitted via email to publiccomment@cityofglendora.gov with the subject "Public Comment". The City Clerk will read emails received out loud (up to 3 minutes) into the public record if received in real time and prior to the commencement of Public Comment Period or Public Hearing. Otherwise, it will be read into the record at the end of the meeting.

OPTION 2: MAIL
Public comments may be mailed to 116 E. Foothill Boulevard, Glendora, California 91741 ATTN: City Clerk's Department-Public Comment. The City Clerk will read public comments received out loud (up to 3 minutes) into the public record if received before [5 p.m.] on the date of the meeting. Otherwise, public comments will be considered late correspondence and incorporated into the meeting minute record.

In compliance with the American with Disabilities Act, if you need special assistance to participate in the meeting, please contact the City of Glendora's City Clerk's Office at (626) 914-8210. Notification 48 hours prior to the June 24, 2025 City Council meeting will enable the City to make reasonable arrangements to ensure accessibility to the meeting.

If you challenge this action(s) in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered at, or prior to, the public hearing.

Additional information concerning the above matter may be obtained from and written comments should be addressed to City Clerk, City of Glendora, 116 E. Foothill Blvd, Glendora, California, 91741 or by email at city_clerk@cityofglendora.gov.

PUBLIC HEARING TO CONSIDER A RESOLUTION APPROVING THE ISSUANCE OF BONDS FOR FINANCING AND/OR REFINANCING CERTAIN REVENUE BONDS FOR EMANATE HEALTH

COMMUNITY DEVELOPMENT

CITY COUNCIL

JUNE 24, 2025

TIFFANY CHEW, ECONOMIC DEVELOPMENT AND HOUSING MANAGER

REQUEST

- City Council conduct a Tax Equity and Fiscal Responsibility Act (TEFRA) public hearing to fund revenue bonds for Emanate Health to be used for capital projects located in the City of Glendora.

- There is no fiscal impact to the City. Section 147(f) of the Internal Revenue Code requires any issuance of private revenue bonds be approved by the local government entity within which the project is located.

PROPOSED PROJECTS

- 2244 East Route 66 – Medical Administrative Office Renovation
- 415 West Carrol Street – Medical Clinic Remodel
- 250 South Grand Avenue – Medical Equipment Upgrades

PUBLIC NOTICE

- JUNE 12, 2025 – Notice was published in the San Gabriel Valley Examiner.

RECOMMENDATION

That the City Council:

1. Adopt a City Council Resolution entitled, “A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, APPROVING THE ISSUANCE OF THE CALIFORNIA STATEWIDE COMMUNITIES DEVELOPMENT AUTHORITY REVENUE BONDS (EMANATE HEALTH) SERIES 2025 IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED $90,000,000 FOR THE PURPOSE OF FINANCING AND/OR REFINANCING THE ACQUISITION, CONSTRUCTION, EQUIPPING, IMPROVEMENT, RENOVATION, REHABILITATION AND/OR REMODELING (INCLUDING BY REIMBURSING EXPENDITURES MADE FOR SUCH PURPOSES) OF HOSPITAL, HEALTH CARE AND RELATED FACILITIES AND CERTAIN OTHER MATTERS RELATING THERETO.”

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Public Works**	**DISTRICT(S):**	**3, 5**

SUBJECT: **A Public Hearing to consider adopting Resolutions approving the Engineer's Report and confirming a diagram and assessment for the City of Glendora Landscape Maintenance District Number 1 for Fiscal Year 2025/26**

RECOMMENDATION

That the City Council:

Conduct Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary consider the following:

1. Adopt a City Council Resolution entitled, “A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER’S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1”; and
2. Adopt a City Council Resolution entitled, “A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26."

STRATEGIC FOCUS AREAS

Goal 2: Maintain Financial Stability and Sustainability (MFSS)

Goal 5: Improve and Maintain the City’s Infrastructure and Facilities (IMCIF)

EXECUTIVE SUMMARY

The City levies and collects special assessments each fiscal year to fund landscape maintenance and repairs in Landscape Maintenance District No. 1 (the District), which currently consists of seven zones. Resolution 03-20 allows for six of the seven zones to be adjusted annually as high as the preceding year’s Consumer Price Index (CPI) ratio for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers, up to a maximum of 5%, without being considered a rate increase that would require a Proposition 218 hearing. The March 2024 to March 2025 CPI ratio was 3.02%, and the levies for the seven zones allowing an increase will be adjusted by this amount. The zone with no CPI-adjustment allowance will remain the same.

At their regular meeting on May 13, 2025, in accordance with Section 22624 of the California Streets and Highways Code, City Council adopted three resolutions which initiated the proceedings for the annual assessment levy, approved the preliminary engineer’s report, and stated its intention to levy the assessment.

As a last step before submitting the assessments to Los Angeles County for placement on property tax bills, staff now recommends that City Council open and conduct a public hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary adopt the resolutions approving the engineer’s report, and confirming a diagram and assessment for the District.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

The Landscaping and Lighting Act of 1972 permits cities to establish assessment districts for the purpose of installing and/or constructing new public improvements, or servicing and maintaining certain existing public improvements within the proposed district. The City of Glendora established its first Landscape and Streetlight Maintenance District in 1976.

California Proposition 218 of 1996, also known as the “Right to Vote on Taxes Act,” amended the California Constitution and limited the methods by which local governments can create or increase taxes, fees and charges without taxpayer consent. With regard to assessment districts, Proposition 218 requires a property-owner protest hearing to determine whether there is an objection from a majority of property owners subject to an assessment increase.

City Council adopted Resolution 03-20 on February 25, 2003 following a Proposition 218 ballot proceeding, which allows for six of the seven current zones to be adjusted annually as high as the March to- March CPI ratio for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers, up to a maximum of 5%. Such an adjustment for these six zones is thus not considered a rate increase, and City council may levy the annual assessment without further approval by the property owners. The assessment rate for Zone 5 may not be adjusted by the CPI.

At its May 13, 2025 meeting, in accordance with Section 22624 of the California Streets and Highways Code, City Council adopted the following three resolutions:

- Resolution CC 2025-08 – initiating the proceedings for the annual assessment.
- Resolution CC 2025-09 – approving the preliminary engineer’s report.
- Resolution CC 2025-10 –stating the City’s intention to levy the assessment and set a place and time for a public hearing.

DISCUSSION

The District consists of seven zones, with six that may be adjusted annually as high as the March-to-March CPI ratio for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers in an amount not to exceed 5%. CPI for March 2025 was 340.678 compared to 330.670 for March 2024, which allows for a rate adjustment of 3.02% per Equivalent Benefit Unit (EBU). Below are the landscape improvements and levies for each zone.

Benefit Zone	Improvements	FY 2024/25 Levy/EBU	FY 2025/26 Levy/EBU	Increase
Zone 1 – Highland Dr. & Oak Knoll Dr.	35,750 sq. ft. of groundcover, shrubs & trees.	$522.37	$538.13	$15.76
Zone 4 – Glendora Mountain Rd. & E. Palm Dr.	55,860 sq. ft. of groundcover, shrubs & trees.	$373.35	$384.61	$11.26
Zone 5 – E. Hampton St. & E. Gladstone St./S. Sunflower Ave.	5,600 sq. ft. of groundcover, shrubs & trees, divided by the wash.	$75.00	$75.00	$0 (No CPI)
Zone 7 – N. Loraine Ave. & E. Palm Dr.	Three median islands on N. Loraine Ave. with 5,400 sq. ft. of groundcover.	$40.57	$41.80	$1.23
Zone 8 – Glendora Mountain Rd. & Boulder Springs Dr.	22,380 sq. ft. of groundcover, shrubs & trees.	$221.66	$228.35	$6.69
Zone 12 – Glendora Bougainvilleas & 437 E. Bennett Ave.	23 trellised bougainvillea plants.	$145.91	$150.31	$4.40
Zone 16 – Hidden Springs Ln.	8,800 sq. ft. of shrubs & groundcover, including one median island on Fountain Springs Ln. & one median island on Hidden Springs Ln.	$57.90	$59.65	$1.75

Tonight’s Public Hearing and adoption of the resolutions approving the engineer’s report and confirming a diagram and assessment for the District are the last necessary steps before submitting the assessments to Los Angeles County before the August deadline, providing a final opportunity to receive public testimony regarding the proposed levies. City Council will accept all public comments and written protest regarding the District and annual levy and assessments, and based on those may order amendments to the report, or confirm it as submitted. The assessments as approved are then submitted to the Los Angeles County Auditor/Controller for inclusion on the property tax roll for each parcel.

FISCAL IMPACT

Use of Landscape Assessment Fund 203 and collected levies are restricted for paying the annual costs of the District's operations and maintenance. Any unspent funds are reserved for potential future annual shortages between the levy and maintenance costs or capital improvements. Zones operating at a deficit are subsidized as needed by the General Fund. All EBUs within Glendora's District are individual parcels.

Benefit Zone	EBUs	Maximum Levy	O & M Costs	Subsidy* (Other Funds)
Zone 1 – Highland Dr. & Oak Knoll Dr.	10	$5,381	$6,795	$1,414
Zone 4 – Glendora Mountain Rd. & E. Palm Dr.	31	$11,923	$25,505	$13,582
Zone 5 – E. Hampton St. & E. Gladstone St./S. Sunflower	8	$600	$4,995	$4,395
Zone 7 – N. Loraine Ave. & E. Palm Dr.	33	$1,379	$6,345	$4,966
Zone 8 – Glendora Mountain Rd. & Boulder Springs Dr.	33	$7,535	$9,685	$2,149
Zone 12 – Glendora Bougainvilleas & 437 E. Bennett Ave.	85	$12,776	$19,145	$6,369
Zone 16 – Hidden Springs Ln.	126	$7,515	$13,405	$5,889
Totals	**326**	**$47,111**	**$85,875**	**$38,764**

* LMD 1 has been operating at a deficit for over ten years and is subsidized as needed by the General Fund. The estimated subsidy for FY 2025/26 is $38,764 which is approximately 45% of the operations and maintenance cost.

The estimated revenue and appropriations will be included in the Fiscal Year 2025-2027 Two-Year Proposed Budget.

ENVIRONMENTAL DETERMINATION

This activity is not a "project" as defined by Section 21065 of the Public Resources Code or Sections 15060(c)(2), 15060(c)(3), and 15378 of the CEQA Guidelines.

ENGINEER'S REPORT AFFIDAVIT

City of Glendora

Landscape Maintenance District No. 1

Annual Levy of Assessments for

Fiscal Year 2025/2026

City of Glendora,

County of Los Angeles, State of California

As part of the Resolution of Intention packet presented for the consideration of the Glendora City Council, this Report and the enclosed budgets, diagrams, and descriptions outline the improvements, estimated expenses and annual assessments to be collected on the County tax rolls in Fiscal Year 2025/2026 for the Landscape Maintenance District No. 1, which includes each lot, parcel, and subdivision of land within said District, as the same existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Los Angeles County Assessor's maps for a detailed description of the lines and dimensions of each parcel within the Landscape Maintenance District No. 1 and incorporates all subsequent subdivisions, lot-line adjustments, or parcel changes therein. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this _____ day of _____, 2025.

Introduction

The City of Glendora, County of Los Angeles, State of California (the "City"), under the provisions of the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the "1972 Act") and the provisions of the California Constitution Article XIII D (the "Constitution"), annually levies and collects special assessments for the City's maintenance assessment district designated as:

Landscape Maintenance District No. 1

(hereafter referred to as the "District"), and established the maximum assessments determined to be necessary to support and maintain various landscaping improvements that will provide special benefits to properties within the District which includes all lots and parcels of land within the District.

In accordance with the 1972 Act, the District utilizes benefit zones ("Zones") to address variations in the nature, location, and extent of the improvements that provide special benefits to parcels in the District. Within the boundaries of the District, parcels are assigned to various Zones each of which is associated with a set of improvements and/or type of improvements that provide special benefit to properties within that Zone.

As of Fiscal Year 2025/2026, the District is comprised of seven zones.

Report Content and Annual Proceedings

This Engineer's Annual Report (the "Report") has been prepared pursuant to Chapter 1, Article 4 and Chapter 3 of the 1972 Act, and presented to the City Council for their consideration and approval of the proposed improvements and services to be provided within the District and the levy and collection of annual assessments related thereto for Fiscal Year 2025/2026.

This Report outlines the District structure, the improvements, and the proposed assessments to be levied in connection with the special benefits the properties receive from the maintenance and servicing of the District improvements for Fiscal Year 2025/2026. The annual assessments to be levied on properties within the District provide funding for the continued operation and maintenance of the landscaping improvements within the District and zones of benefit ("Zones") established herein, which provide special benefits to the properties within the District and each respective Zone.

To adequately provide and fund the landscaping improvements constructed and installed in connection with the development of properties within the District for Fiscal Year 2025/2026, the City Council has determined that it is appropriate and, in the public's, best interest to levy annual assessments on the County tax rolls for the benefit of properties therein to fund the estimated special benefit improvement costs that are considered necessary to maintain and service the improvements.

Each Zone outlined in this Report is a reflection of the various improvements and the types of improvements and services to be provided by the District for the properties that are directly associated with and benefit from those improvements. The net annual cost to provide the improvements in each Zone is based on the various improvements and the types of improvements and services to be provided by the District for the properties that are directly associated with and benefit from those improvements and the net cost of providing those improvements and services are allocated to the benefiting properties within the Zones using a weighted method of apportionment (refer to Assessment Methodology in Section II, Method of Apportionment) that calculates the proportional special benefit and assessment for each parcel as compared to other properties that benefit from the District improvements and services. The improvements to be

provided by the District and the assessments described herein are made pursuant to the 1972 Act and the provisions of the California Constitution and the District shall incorporate each parcel that receive special benefits from those improvements.

The estimated cost of the improvements and the proposed annual assessments budgeted and assessed against properties within the District and each respective Zone may include, but are not limited to the estimated expenditures for regular annual maintenance and repairs; incidental expenditures related to the operation and administration of the District; the collection of funds for operational reserves or for periodic maintenance and improvement rehabilitation projects; deficits or surpluses from prior fiscal years; and revenues from other sources as authorized by the 1972 Act. Each parcel is to be assessed proportionately for only those improvements, services and expenses for which the parcel receives special benefit. Each fiscal year, the City shall establish the District's assessments based on an estimate of the costs to maintain, operate and service the improvements for that fiscal year and available revenues including fund balances, general benefit contributions, any additional contributions from other revenue sources, and the assessment limits established for the District and Zones.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Los Angeles County Assessor's Office. The Los Angeles County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for the District assessments.

At a noticed annual Public Hearing, the City Council will accept all public comments and written protests regarding the District and the annual levy of assessments. Based on those public comments and written protests, the City Council may order amendments to the Report or confirm the Report as submitted. Following final approval of the Report and confirmation of the assessments the Council will, by Resolution, order the improvements to be made and confirm the levy and collection of assessments for Fiscal Year 2025/2026 pursuant to the 1972 Act. The assessments as approved will be submitted to the Los Angeles Auditor/Controller to be included on the property tax roll for each parcel.

As required by the 1972 Act, this Engineer's Report describes the improvements to be provided, maintained and serviced by the District, an estimated budget for the District improvements, and the proposed assessments to be levied upon each assessable lot or parcel within the District for Fiscal Year 2025/2026.

If any section, subsection, sentence, clause, phrase, portion, zone, or subzone of this Report is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining provisions of the Report and each section, subsection, subdivision, sentence, clause, phrase, portion, zone, or subzone thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases, portions, zones, or subzones might subsequently be declared invalid or unconstitutional.

I. Plans and Specifications

IMPROVEMENT AUTHORIZED BY THE 1972 ACT

- As applicable or may be applicable to this District, the 1972 Act defines improvements to mean one or any combination of the following:
- The installation or planting of landscaping.
- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities.
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.
- Incidental expenses associated with the improvements including, but not limited to:
- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
- The costs of printing, advertising, and the publishing, posting, and mailing of notices;
- Compensation payable to the County for collection of assessments;
- Compensation of any engineer or attorney employed to render services;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.
- The 1972 Act defines "Maintain" or "maintenance" to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:
- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

ZONES OF BENEFIT

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing various landscaping improvements, including the acquisition, construction, installation, maintenance, and servicing of those improvements and related facilities. In addition, to ensure an appropriate allocation of the estimated costs to provide various improvements based on proportional special benefits, landscaping districts often times include benefit zones ("Zones") as authorized pursuant to Chapter 1 Article 4, Section 22574 of the 1972 Act:

"The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements."

While the California Constitution requires that "*The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement…*"; it is reasonable to conclude that certain landscaping improvements may benefit the majority of the parcels within a district if not all properties, while other improvements may only provide special benefits to specific parcels, developments or portions of the district (particularly in larger districts). In addition, some improvements within a district and/or the costs associated with various public improvements are identified as providing some measure of general benefit and because these general benefit costs cannot be assessed, the overall cost of those improvements may be proportionately allocated as both special benefits and general benefit.

In accordance with the 1972 Act, it has been determined that it is appropriate and necessary to establish benefit zones (Zones) within this District to be designated in the table above. The boundaries, of each Zone is established based on the location, extent and types of improvements or similarities in the types of improvements being maintained through the District assessments as well as the particular and distinct benefits the various developments and properties derive from those improvements based on proximity to those specific improvements and the nexus between the development of the properties that required or facilitated the installation of those improvements. While some improvements may be specifically associated with specific development areas or parcels within the District, many improvements may reasonably be considered shared improvements because the overall development of the properties in the area required or necessitated those improvements. In such cases, the special benefits and cost of providing such improvements are proportionately shared by parcels in each Zone.

The net annual cost to provide the improvements for each Zone is allocated to the benefiting properties within that Zone using a weighted method of apportionment (refer to Assessment Methodology in Section II, Method of Apportionment) that calculates the proportional special benefit and assessment for each parcel as compared to other properties that benefit from the District improvements and services. The following is a brief description and summary of the Zones and improvements associated within each Zone. A visual depiction of the location and extent of the improvements and Zone boundaries are provided in the District Diagrams of this Report.

IMPROVEMENTS AND SERVICES WITHIN THE DISTRICT

The purpose of the District is to fund the maintenance and servicing of parkway landscape improvements installed in connection with development of properties within the District.

There are seven (7) zones where the landscape is managed under the Landscape Maintenance District No. 1. These properties were included in the District as a condition of development to

maintain the parkway areas. At the time, in lieu of the homeowner association maintaining the public landscape, the developer agreed to be a part of the District and pay the annual assessment.

The territory within the District consists of all lots or parcels of land within the City of Glendora. The purpose of this District is to provide in part through annual assessments, funding for the ongoing operation, maintenance, and servicing of landscaping improvements and services in various areas throughout the City. Improvements currently provided within the District generally include but are not limited to:

> Landscape improvements such as mowing, pruning, shaping, and trimming of shrubs and trees, edging of ground cover areas, pest and weed control, supporting, and replacing trees as required, maintenance of tree wells, fertilization, mulching, watering, maintenance of sprinkler systems, disease, insect, and rodent control.

In accordance with the 1972 Act, the District utilizes Zones to address variations in the nature, location, and extent of the improvements that provide special benefits to parcels in the District. Within the boundaries of the District, parcels are assigned to benefit zones each of which is associated with a set of improvements and/or type of improvements that provide special benefit to properties within that Zone.

In Fiscal Year 2025/2026 the District was comprised of the following:

Zone No.	Location
1	TR. 29765 / Highland / Oak Knoll
4	TR. 33489 / GMR-Palm
5	TR. 34114 / Hampton / Sunflower
7	TR. 37637 /Loraine-Palm
8	TR. 43011 / GMR-BS
12	TR. 44069 / Glen Bougainvillea's & 437 E. Bennett
16	Hidden Springs

DESCRIPTION OF IMPROVEMENTS

As authorized by the 1972 Act, the improvements provided by the District and associated with each Zone incorporate various landscaping improvements that are maintained and serviced for the benefit of real property within the District. The maintenance of the landscape improvements may also include various appurtenances that may include but is not limited to entry monuments; various types of fencing; retaining walls; ornamental lighting or other ornamental fixtures; signage; and irrigation, drainage, and electrical equipment. The work to be performed within each respective Zone may include but is not limited to (as applicable), the personnel, materials, equipment, electricity, water, contract services, repair and rehabilitation of the improvements and incidental expenses required to operate the District and provide the improvements and services for each Zone. The improvements provided within the District and for which parcels receive special benefits are generally described in the following.

LANDSCAPE IMPROVEMENTS

Zone 1, Highland and Oak Knoll – Landscape assessment area consisting of approximately 35,750 sqft of ground cover, shrubs and trees.

Zone 4, Glendora Mountain Road and Palm Drive – Landscape assessment area consisting of approximately 55,860 sqft of ground cover, shrubs and trees.

Zone 5, Hampton and Gladstone – Landscape assessment area consisting of approximately 5,600 sqft of ground cover, shrubs and trees, divided by the wash.

Zone 7, North Lorraine and Palm Drive – Landscape assessment area consisting of three (3) median islands on Lorraine with approximately 5,397 sqft of ground cover.

Zone 8, Glendora Mountain Road and Boulder Springs – Landscape assessment area consisting of approximately 22,378 sqft of ground cover, shrubs and trees.

Zone 12, Glendora Bougainvilleas & 437 E. Bennet – Landscape assessment area consisting of twenty-three (23) trellised bougainvillea.

Zone 16, Hidden Springs (Glendora Mountain Road and Sierra Madre) – Landscape assessment area consisting of approximately 8,800 sqft of shrubs including one (1) median island on Fountain Springs Lane and one (1) median island on Hidden Springs Lane with ground cover.

II. Method of Apportionment

Legislative Authority and Provisions

1972 Act

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, including the acquisition, construction, installation and servicing of landscaping improvements and related facilities. The 1972 Act requires that the cost of these improvements be levied according to benefit rather than assessed value:

Section 22573 defines the net amount to be assessed as follows:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

Section 22574 provides for zones as follows:

"The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements."

The formulas used for calculating assessments and the designation of Zones as established herein reflect the composition of parcels within the District and the improvements and activities to be provided, and have been designed to fairly apportion the cost of providing those improvements based on a determination of the proportional special benefits to each parcel, consistent with the requirements of the 1972 Act and the provisions of Article XIII D of the California Constitution (Proposition 218).

California Constitution

The costs to operate and maintain the District improvements are identified and allocated to properties within each Zone within the District based on special benefit. The improvements provided and for which properties are to be assessed are identified as local landscaping improvements and related amenities that were installed in connection with the development of the properties and/or would otherwise be required for the development of properties within each respective Zone. The District assessments and method of apportionment is based on the premise that these improvements would otherwise not have been required without the development or planned development of those parcels.

Article XIII D Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XIII D Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIII D Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

BENEFIT ANALYSIS

The improvements provided by this District and for which properties are assessed have been identified as necessary, desired and/or required for the orderly development of the properties within the District to their full potential, consistent with the development plans and applicable portions of the City's General Plan.

SPECIAL BENEFIT

The ongoing maintenance of landscaped areas within the District provide aesthetic benefits to the properties within each respective Zone and a more pleasant environment to walk, drive, live, and work. The primary function of these landscape improvements and related amenities is to serve as an aesthetically pleasing enhancement and green space for the benefit of the immediately surrounding properties and developments for which the improvements were constructed and installed and/or were facilitated by the development or potential development of properties within the Zones. These improvements are an integral part of the physical environment associated with the parcels in each Zone and while some of these improvements may in part be visible to properties outside the Zone, collectively if these Zone improvements are not properly maintained, it is the parcels within the Zone that would be aesthetically burdened. Additionally, the street landscaping in these Zones serves as both a physical buffer between the roadways and the properties in the District/Zone and serve as a pleasant aesthetic amenity that enhances the approach to the parcels. As a result, the maintenance of these landscaped improvements provides particular and distinct benefits to the properties and developments within each Zone.

GENERAL BENEFIT

In reviewing the location and extent of the specific landscaped areas and improvements to be funded by District assessments and the proximity and relationship to properties to be assessed, it is evident these improvements were primarily installed in connection with the development of properties in each respective Zone or are improvements that would otherwise be shared by and required for development of properties in those Zones. It is also evident that the maintenance these improvements and the level of maintenance provided has a direct and particular impact (special benefit) only on those properties in proximity to those improvements and such maintenance beyond that which is required to ensure the safety and protection of the general public and property in general, has no quantifiable benefit to the public at large or properties outside each respective Zone.

ASSESSMENT METHODOLOGY

To calculate and identify the proportional special benefit received by each parcel and ultimately each parcel's proportionate share of the improvement costs it is necessary to consider not only the improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Article XIIID Section 4a reads in part:

"…The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

Landscaping improvements, like most public improvements, provide varying degrees of benefit (whether they be general or special) based largely on the extent of such improvements, the location of the improvements in relationship to properties associated with those improvements. To establish the proportional special benefit and ultimately the assessment obligation for each parcel, these factors need to be addressed and formulated in the method of apportionment by the use of benefit zones that reflect the extent and location of the improvements in relationship to the properties, as well as the specific use of the property and characteristics that reflects each parcel's proportional special benefit as compared to other properties that benefit from those same improvements.

The method of apportionment (method of assessment) developed for this District is based on the premise that each of the property to be assessed receives a particular and distinct benefit (special benefit) from the improvements, services and facilities to be financed by the District assessments and to assess benefits equitably it is necessary to calculate each property's relative share of the special benefits conferred by the funded improvements and service. The Equivalent Benefit Unit (EBU) method of assessment is utilized in this District and establishes a basic unit of benefit (base value) and then calculates the benefit derived by each assessed parcel as a multiple (or a fraction) of that basic unit. This EBU method of apportioning special benefits is typically seen as the most appropriate and equitable assessment methodology for districts formed under the 1972 Act, as the benefit to each parcel from the improvements are apportioned as a function of comparable property characteristics The base value and assessment formula utilized in each Zone may be different, but is established for each Zone to reflect the improvements and properties that benefit from those improvements utilizing property characteristics that may include but is not limited to the type of development (property land use), property's development status, and size of the property (acreage or units).

To assess benefits equitably, it is necessary to relate the different type of parcel improvements to each other. The Equivalent Benefit Unit method of apportionment uses the single-family home as the basic unit of assessment. A single-family residential property equals one Equivalent Benefit Unit ("EBU"). Every other land-use is converted to EBUs based on an assessment formula that equates the property's specific development status, type of development (land-use), and size of the property, as compared to a single-family residential property ("SFR").

Assessable parcels within each Zone are determined to receive the same special benefit from the improvements due to their similarity in size and use and their similar proximity to the improvements. Therefore, each assessable Residential parcel in a Zone is assigned 1 EBU.

Single-Family Residential -- This land use classification is defined as a fully subdivided residential home site with or without a structure. This land use may include, but is not limited to subdivided residential tract lots, condominiums, or other individual residential units or subdivided lots assigned an Assessor's Parcel Number. As previously noted, the single family residential parcel has been selected as the basic value for calculation of assessments and each is assigned 1.00 Equivalent Benefit Unit.

MAXIMUM PERMISSIBLE ASSESSMENT

Proposition 218 requires the City to ballot property owners to obtain consent for the increased assessment exceeding the anticipated maximum permissible increase per assessment formula, for example Consumer Price Index (CPI) increase.

The table below shows the list of the Zones in the District, and indicates for each zone whether an inflation adjustment is being included in the Zone assessment.

Zone No.	Location	CPI Adjustment
1	TR. 29765 / Highland / Oak Knoll	Yes
4	TR. 33489 / GMR-Palm	Yes
5	TR. 34114 / Hampton / Sunflower	No
7	TR. 37637 /Loraine-Palm	Yes
8	TR. 43011 / GMR-BS	Yes
12	TR. 44069 / Glen Bougainvilleas & 437 E. Bennett	Yes
16	Hidden Springs	Yes

As adopted by the City Council through Resolution 03-20, the maximum authorized assessment rate may be adjusted annually as high as the ratio between the March-to-March CPI for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers not to exceed 5%.

CPI for March 2024 was 330.671. CPI for March 2025 is 340.648. This results in a ratio of 1.03017 which equates to a percent of 3.02%. The inflator for this District is not to exceed 5%. The maximum assessment rates for the six areas with an CPI inflator identified above will be increased by this percentage from the maximum assessment rate for the prior year. The Maximum Assessment Rate will remain the same for the zone that does not have an inflator.

III. Estimate of Costs

Calculation Of Assessments

An assessment amount per Equivalent Benefit Unit (Assessment per EBU) is calculated by:

Taking the "Total Annual Expenses" (Total budgeted costs) and subtracting" Funding Adjustments". These various "Funding Adjustments" may include, but are not limited to:

- "District Fund Contribution", represents an amount of available existing funds from the being applied to pay a portion of the expenses for the fiscal year.
- "Contribution or Other Revenue Sources", represents an amount that is included to subsidize any shortfalls for Zones in the District.

These adjustments to the total annual expenses result in the net amount to be assessed "Balance to Levy".

Total Annual Expenses – Funding Adjustments = Balance to Levy

The amount identified as the "Balance to Levy" is divided by the total number of EBUs of parcels that receive special benefit to establish the Assessment Rate ("Assessment Per EBU"). This Assessment Rate is then applied back to each parcel's individual EBU to calculate the parcel's proportionate special benefit and assessment amount for the improvements.

Balance to Levy / Total EBU = Assessment Per EBU (Assessment Rate)

Assessment Per EBU x Parcel EBU = Parcel Assessment Amount

Zone Budgets And Assessments

The zone budgets and assessments outlined on the following page for the District are based on the City's estimate of the expenses and related funding necessary for the operation, maintenance and servicing of the District improvements identified in Part I of this Report for the zones in the District for Fiscal Year 2025/2026.

Refer to the Assessment Roll included herein as Part IV for the individual assessment amounts proposed to be levied and collected for each parcel in Fiscal Year 2025/2026.

ASSESSMENT RANGE FORMULA

Any new or increased assessment requires certain noticing and meeting requirements by law. The Brown Act defines the terms "new or increased assessment" to exclude certain conditions. These certain conditions included "any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed."

Recognizing that the cost of maintaining the improvements will increase over time due to inflation, the maximum assessment for some of the zones may be increased by the Consumer Price Index (CPI) each year.

The adoption of the maximum assessment rates and the Assessment Range Formula described herein does not mean that the annual assessments will necessarily increase each fiscal year, nor does it absolutely restrict the assessments to the adjustment maximum assessment amount. Although the maximum assessment rates that may be levied shall be adjusted (inflated) by CPI each year, the actual amount to be assessed will be based on the Balance to Levy for that fiscal year. If the calculated assessment is less than the adjusted maximum assessment, then the calculated assessment may be approved by the City Council for collection. If the calculated assessment (based on the proposed budget) is greater than the adjusted maximum assessment for that fiscal year, then the assessment would be considered an increased assessment and would require property owner approval through a protest ballot proceeding before imposing such an increase. Otherwise, it would be necessary to reduce the budget or provide a contribution from the City to reduce the Balance to Levy (amount to be assessed) to an amount that can be supported by an assessment rate less than or equal to the maximum assessment rate authorized for that fiscal year.

IV. Assessment Roll

The Assessment Roll reflects all properties currently identified within the District and their assessment amount(s) for Fiscal Year 2025/2026. Each parcel listed on the Assessment Roll is currently shown and illustrated on the County Assessor's Roll and the County Assessor's Parcel Number Maps (APN maps). These records are, by reference, made part of this Report and shall govern for all details concerning the description of the lots or parcels. All assessments presented on the assessment roll are subject to change as a result of parcel changes made by the County including parcel splits, parcel merges or development changes that occur prior to the County Assessor's Office securing the final roll and generating tax bills for Fiscal Year 2025/2026.

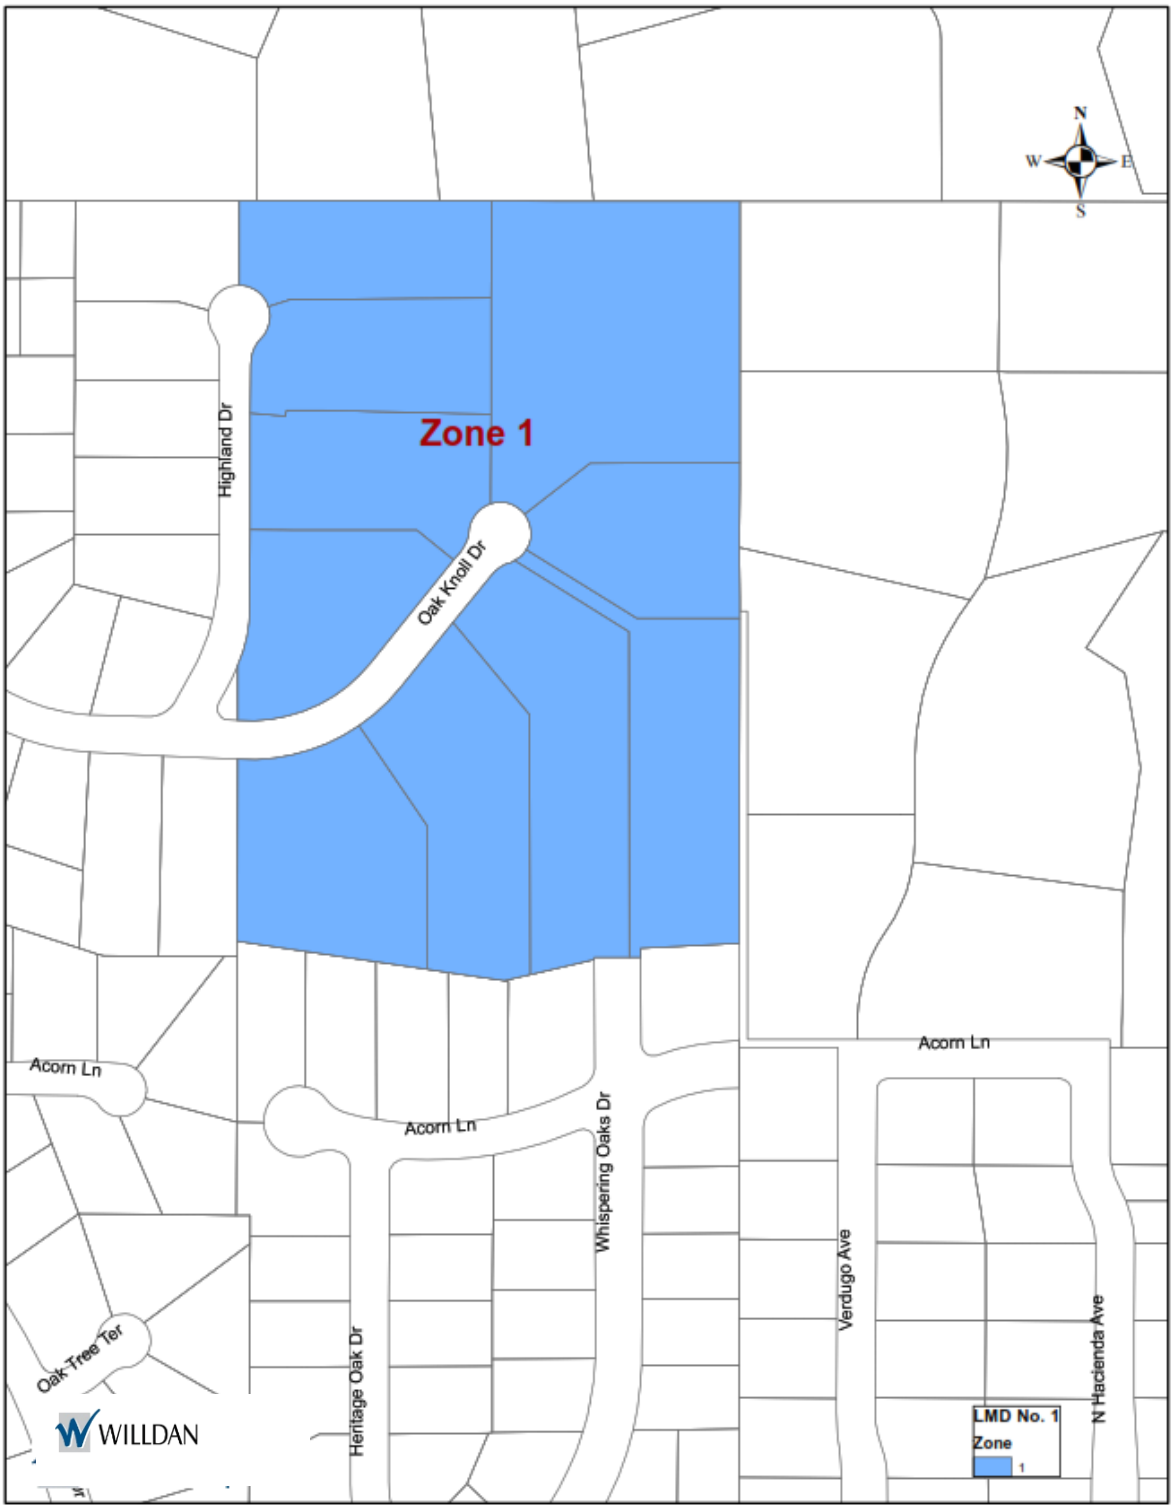
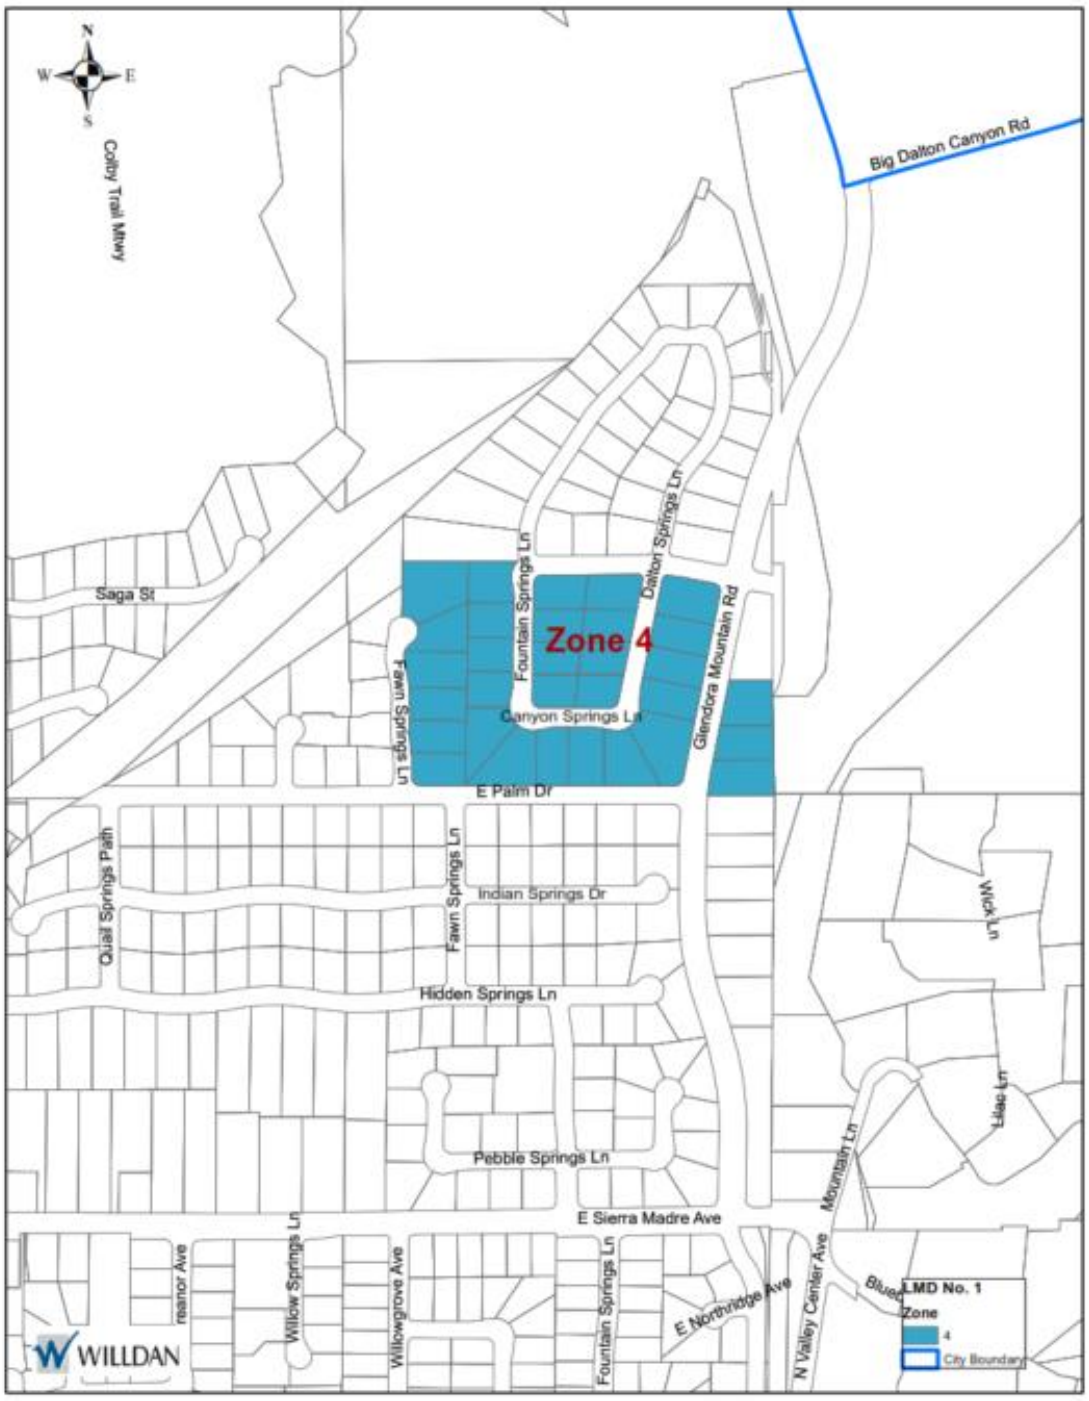
V. District Diagrams



Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Los Angeles County Assessor's map for the year in which this Report is prepared.

The land use classification for each parcel has been based on the Los Angeles County Assessor's Roll. A listing of parcels assessed within this District, along with the proposed assessment amounts, has been submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.



Reference is hereby made to the Los Angeles County Assessor's Parcel Maps for a detailed description of the lines and dimensions of each parcel within the Landscape Maintenance District No. 1 including all subsequent subdivisions, lot-line adjustments, or parcel changes therein.

RESOLUTION CC 2025-____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER'S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1

THE CITY COUNCIL
City of Glendora, California

WHEREAS, by Resolution CC 2025-08, the City Council initiated proceedings to levy the Fiscal Year 2025-26 assessment in connection with City of Glendora Landscape Maintenance District No. 1 (the "District") (formerly known as "City of Glendora Landscaping & Lighting District No. 1") pursuant to the Landscaping and Lighting Act of 1972 (California Streets & Highways Code Section 22500 *et seq.*) (the "Assessment Law"); and

WHEREAS, a report of the City Engineer, entitled "City of Glendora Engineer's Report Landscape Maintenance District No. 1, Engineer's Annual Report Fiscal Year 2025/2026" (the "Report") is on file in the Office of the City Clerk and available for public inspection; and

WHEREAS, the City Council has carefully examined and reviewed the Report as filed and desires to approve the Report as filed.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The City Council finds that the Report meets all requirements of Article 4 of Chapter 1 of the Assessment Law.

SECTION 3. The Report is hereby approved as filed, without modification.

SECTION 4. The City Clerk shall certify to the passage and adoption of this Resolution and shall enter the same in the Book of Original Resolutions.

PASSED, APPROVED AND ADOPTED by the City Council of the City of Glendora this __ day of _____, 2025.

RESOLUTION CC 2025-____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26

THE CITY COUNCIL
City of Glendora, California

WHEREAS, by its Resolution No. 2025-10, adopted on May 13, 2025 (the "Resolution of Intention"), the City Council declared its intention to levy an assessment for Fiscal Year 2025-26 in connection with the City of Glendora Landscape Maintenance District No. 1 (the "District") pursuant to the Landscaping and Lighting Act of 1972 (California Streets & Highways Code Section 22500 *et seq.*) (the "Assessment Law"); and

WHEREAS, as directed by the Resolution of Intention, the City gave notice of a Public Hearing, scheduled for June 24, 2025; and

WHEREAS, on June 24, 2025, the City Council held a full and fair public hearing with respect to the Fiscal Year 2025-26 levy of the proposed assessment at which all interested persons were permitted to give oral testimony and written protests; and

WHEREAS, the City Council desires to move forward with the levy of the assessment in connection with the District for Fiscal Year 2025-26

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. That upon the conclusion of the Public Hearing, written protests filed, and not withdrawn, did not represent property owners owning more than fifty per cent (50%) of the area of assessable lands within the District. Therefore, the City Council overrules all objections and protests.

SECTION 3. The Diagram and Assessment contained in the Report entitled "City of Glendora Engineer's Report Landscape Maintenance District No. 1, Engineer's Annual Report Fiscal Year 2025/2026" (the "Report"), which is on file in the Office of the City Clerk and incorporated herein by reference, is hereby approved pursuant to Section 22631 of the Assessment Law.

SECTION 4. The adoption of this Resolution constitutes the levy of the assessment within the District for Fiscal Year 2025-26.

SECTION 5. The City Clerk shall certify to the passage and adoption of this resolution and shall enter the same in the Book of Original Resolutions.

SECTION 6. The City Clerk is hereby directed to forward a copy of this Resolution to the County of Los Angeles for the submittal of the assessments.

A PUBLIC HEARING TO CONSIDER RESOLUTIONS APPROVING THE ENGINEER'S REPORT & CONFIRMING DIAGRAMS & ASSESSMENTS FOR LANDSCAPE MAINTENANCE DISTRICT NO. 1 FOR FY 2025-26

PUBLIC WORKS
GLENDORA CITY COUNCIL
JUNE 24, 2025
VALERIE VELASQUEZ-SANTOYA, ASSISTANT PUBLIC WORKS DIRECTOR

LANDSCAPE MAINTENANCE DISTRICTS

Background

- Landscape Maintenance District No. 1 established in 1976
- 7 benefit zones funded by property tax assessments
- Resolution 03-20 allows annual CPI increase up to 5% for six zones
  - March 2024 to March 2025 CPI: 3.02%

Annual Renewal Process Required

- Process initiated on May 13, 2025 with City Council adoption of 3 Resolutions

Public Hearing - Final step of Renewal

- Adopt Resolutions to:
  1. Approve the Final Engineer's Report for FY 2025/26
  2. Confirm the Diagram and Assessments for LMD No. 1 for FY 2025/26

BENEFIT ZONES

Zone	Location	Current Levy	Proposed Levy	Increase
1	Highland & Oak Knoll (35,750 sq ft) Ground Cover, Shrubs & Trees	$522.37	$538.13	+$15.76
4	Glendora Mtn Rd & Palm (55,860 sq ft) Ground Cover, Shrubs & Trees	$373.35	$384.61	+$11.26
5	Hampton & Gladstone/Sunflower (5,600 sq ft) Ground Cover, Shrubs & Trees, divided by the wash	$75.00	$75.00	$0 No CPI
7	Loraine & Palm (3 medians, 5,397 sq ft) Ground Cover at 3 Medians on Loraine	$40.57	$41.80	+$1.23
8	Glendora Mtn Rd & Boulder Springs (22,378 sq ft) Ground Cover, Shrubs & Trees	$221.66	$228.35	+$6.69
12	Bougainvilleas & Bennett (23 plants) Twenty-Three (23) Trellised Bougainvillea	$145.91	$150.31	+$4.40
16	Hidden Springs Ln. (8,800 sq ft incl. medians) Shrubs and Ground Cover at 1 Median on Fountain Springs Ln & 1 Median on Hidden Springs Lane	$57.90	$59.65	+$1.75

FY 2025 CPI ratio: 3.02%

Glendora

Total Levy and Maintenance Costs

Zone	Location	EBUs	Max. Levy	O & M Costs	Difference
1	Highland & Oak Knoll (35,750 sq ft)	10	$5,381	$6,795	($1,414)

*LMD 1 is subsidized by the General Fund and Water Operations Fund.

RECOMMENDATION:

THAT THE CITY COUNCIL:

Open and Conduct a Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary, consider the following:

1. **Adopt A City Council Resolution Entitled,** "A RESOLUTION OF THE CITY COUNCIL APPROVING THE ENGINEER'S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1;" AND
2. **Adopt A City Council Resolution Entitled**, "A RESOLUTION OF THE CITY COUNCIL CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA LANDSCAPE MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26."

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Public Works**	**DISTRICT(S):**	**Citywide**

SUBJECT: **A Public Hearing to consider adopting Resolutions approving the Engineer's Report and confirming a diagram and assessment for the City of Glendora Streetlight Maintenance District Number 1 for Fiscal Year 2025/26**

RECOMMENDATION

That the City Council:

Conduct Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary consider the following:

1. Adopt a City Council Resolution entitled, “A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER’S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1”; and
2. Adopt a City Council Resolution entitled, “A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26.

STRATEGIC FOCUS AREAS

Goal 2: Maintain Financial Stability and Sustainability (MFSS)

Goal 5: Improve and Maintain the City’s Infrastructure and Facilities (IMCIF)

EXECUTIVE SUMMARY

The City of Glendora funds a portion of public street lighting costs through its Streetlight Maintenance District No. 1 (the District). Resolution 06-60 allows for the assessments to be adjusted annually as high as the change in the Consumer Price Index (CPI) during the preceding year for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers without being considered a rate increase that would require a Proposition 218 hearing. The March 2024 to March 2025 CPI ratio was 3.02%, and the levies for the District will be adjusted by this amount.

At the regular City Council meeting on May 13, 2025, in accordance with Section 22624 of the California Streets and Highways Code, the City Council adopted three resolutions which initiated the proceedings for the annual assessment levy, approved the preliminary engineer’s report, and stated its intention to levy the assessment.

As a last step before submitting the assessments to Los Angeles County for placement on property tax bills, staff now recommends that City Council open and conduct a Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary, adopt the Resolutions approving the Engineer’s Report, and confirming a diagram and assessment for the District.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

The Landscaping and Lighting Act of 1972 permits cities to establish assessment districts for the purpose of installing and/or constructing new public improvements, or servicing and maintaining certain existing improvements within the proposed district. The City of Glendora established its first Landscape and Streetlight Maintenance District in 1976.

California Proposition 218 of 1996, also known as the "Right to Vote on Taxes Act," amended the California Constitution and limited the methods by which local governments can create or increase taxes, fees and charges without taxpayer consent. With regard to assessment districts, Proposition 218 requires a property-owner protest hearing to determine whether there is an objection from a majority of property owners subject to an assessment increase.

The City Council adopted Resolution 06-60 on July 25, 2006, following a Proposition 218 ballot proceeding, which reformed the District and allowed for the maximum assessment rate to be adjusted annually as high as the preceding year's CPI ratio for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers. Based on the County's due date of August for placement on property tax bills each fiscal year, it was determined that a March-to-March CPI ratio be utilized in place of June to allow enough time for the two required meeting dates. Such an adjustment is thus not considered a rate increase, and the City Council can levy the annual assessment without further approval by the property owners.

At its regular meeting on May 13, 2025, in accordance with Section 22624 of the California Streets and Highways Code, City Council adopted the following three resolutions:

- Resolution CC 2025-11 – initiating the proceedings for the annual assessment.
- Resolution CC 2025-12 – approving the preliminary engineer's report.
- Resolution CC 2025-13 – stating the City's intention to levy the assessment and set a place and time for a public hearing.

DISCUSSION

The District includes 2,996 public streetlights, with 2,744 owned by Southern California Edison (SCE), and 252 owned by the City. Private streetlights such as those owned by homeowners' associations within gated communities, public streetlights that are obsolete and no longer in service, public safety lights positioned atop traffic signals, or traffic signals themselves are not funded by the District. The City assumes certain costs for maintaining and servicing safety lights and traffic signals as a general benefit expense, and District funds are only used to maintain and service the "special" benefit portions of public streetlights.

Parcels within the District are divided into two different "Benefit Zones." Benefit Zone B includes parcels within gated communities that are served by no public lighting other than perimeter lighting, and Benefit Zone A includes all other parcels in the District.

Each Benefit Zone A parcel where a single-family residence (Low-Medium Dwelling Density) is located is assigned 1.000 Equivalent Benefit Unit (EBU). Multi-family residences are assigned EBUs based on relative densities of all residential properties in the District at the time of formation. On average each acre of land in the City devoted to single-family residential use contained 3.871 dwelling units, while each acre of multi-family use contained 13.136 dwelling units. As such, each multi-family residence in Benefit Zone A of the District is assigned 0.295 EBU.

Parcels on non-residential Benefit Zone A properties are assigned EBUs based on average parcel size in comparison to single-family residential properties and are assigned 3.871 EBU per acre. Undeveloped parcels receive significantly less "special" benefit than developed parcels. While they receive security benefits, they typically have less need for protection from property crimes than developed parcels, and their traffic and access benefits are reduced due to minimal use. Undeveloped Benefit Zone A properties are thus assigned one-third of the EBUs that would be assigned to developed parcels of similar size, or 1.290 EBU per acre.

Parcels in Benefit Zone B derive the same types of benefits as parcels in Benefit Zone A, but only on their perimeters, and so these benefits are less. They are in turn only assigned 5% of the EBUs of similarly developed parcels in Benefit Zone A.

The District assessment rate may be adjusted annually as high as the March-to-March CPI ratio for the Los Angeles-Long Beach-Anaheim Area for All Urban Consumers. CPI for March 2025 was 340.648 compared to 330.671 for March 2024, which equates to a rate adjustment of 3.02% per EBU. The assessment rate in FY 2024/25 was $49.14 per EBU, and with the CPI adjustment, will be $50.63 per EBU in FY 2025/26.

Land Use	Assessment Rate	
	Benefit Zone "A"	Benefit Zone "B"
Single Family Residence	$50.93 / Unit	$2.53 / Unit
Multi-Family Residence	$14.93 / Unit	$0.75 / Unit
Non-Residential	$195.98 / Acre	$9.82 / Acre

Undeveloped Land	$65.31 / Acre	$3.29 / Acre

The Public Hearing and adoption of the resolutions approving the engineer's report and confirming a diagram and assessment for the District are the last necessary steps before submitting the assessments to Los Angeles County before the August deadline, providing a final opportunity to receive public testimony regarding the proposed levies. City Council will accept all public comments and written protest regarding the District and annual levy and assessments, and based on those may order amendments to the report, or confirm it as submitted. The assessments as approved are then submitted to the Los Angeles County Auditor/Controller for inclusion on the property tax roll for each parcel.

FISCAL IMPACT

Revenue

Item	Amount
101 General Fund Contribution (General Benefit)	$67,348.39
255 Gas Tax Fund Contribution (General Benefit)	$671,000.00
District Levy (Special Benefit and Operational Reserve)	$550,308.61
Total Revenue	**$1,288,657.00**

Expenses

Item	Amount
Direct Costs (All maintenance and service)	$1,159,050.00
Indirect Costs (Professional engineering services & County administration fee)	$13,702.00
Operational Reserve Collection	$115,905.00
Total Expenses	**$1,288,657.00**

ENGINEER'S REPORT AFFIDAVIT

City of Glendora

Streetlight Maintenance District No. 1

Annual Levy of Assessments for

Fiscal Year 2025/2026

City of Glendora,

County of Los Angeles, State of California

As part of the Resolution of Intention packet presented for the consideration of the Glendora City Council, this Report and the enclosed budgets, diagrams, and descriptions outline the lighting improvements, estimated expenses and annual assessments to be collected on the County tax rolls in Fiscal Year 2025/2026 for the Streetlight Maintenance District No. 1, which includes each lot, parcel, and subdivision of land within said District, as the same existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Los Angeles County Assessor's maps for a detailed description of the lines and dimensions of each parcel within the Streetlight Maintenance District No. 1 and incorporates all subsequent subdivisions, lot-line adjustments, or parcel changes therein. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this _____ day of _____, 2025.

PART IV — ASSESSMENT ROLL 17

PART V — DISTRICT DIAGRAMS 18

Introduction

The City of Glendora, County of Los Angeles, State of California (the "City"), under the provisions of the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the "1972 Act") and the provisions of the California Constitution Article XIII D (the "Constitution"), formed the City's maintenance assessment district designated as:

Streetlight Maintenance District No. 1

(hereafter referred to as the "District"), and established the maximum assessments determined to be necessary to support and maintain various lighting improvements that provide special benefits to properties within the District which includes all lots and parcels of land within the District.

As of Fiscal Year 2025/2026, the District is comprised of two zones, "A" and "B".

Report Content And Annual Proceedings

This Engineer's Annual Report (the "Report") has been prepared pursuant to Chapter 1, Article 4 and Chapter 3 of the 1972 Act, and presented to the City Council for their consideration and approval of the lighting improvements and services to be provided within the District and the levy and collection of annual assessments related thereto for Fiscal Year 2025/2026.

This Report outlines the District structure, the lighting improvements, and the proposed assessments to be levied in connection with the special benefits the properties receive from the maintenance and servicing of the District lighting improvements for Fiscal Year 2025/2026. The annual assessments to be levied on properties within the District provides funding for the continued operation and maintenance of the lighting improvements within the District and zones of benefit ("Zones") established herein, which provide special benefits to the properties within the District and each respective Zone.

To adequately provide and fund the lighting improvements constructed and installed in connection with the development of properties within the District for Fiscal Year 2025/2026, the City Council has determined that it is appropriate and, in the public's, best interest to levy annual assessments on the County tax rolls for the benefit of properties therein to fund the estimated special benefit improvement costs that are considered necessary to maintain and service the lighting improvements. The net cost of providing lighting improvements and services are allocated to the benefiting properties within the Zones using a weighted method of apportionment (refer to Assessment Methodology in Section II, Method of Apportionment) that calculates the proportional special benefit and assessment for each parcel as compared to other properties that benefit from the District lighting improvements and services. The lighting improvements provided in the District and the assessments described herein are made pursuant to the 1972 Act and the provisions of the California Constitution and the District shall incorporate each parcel that receive special benefits from those lighting improvements.

The estimated cost of the improvements and the proposed annual assessments budgeted and assessed against properties within the District and each respective Zone may include, but are not limited to the estimated expenditures for regular annual maintenance and repairs; incidental expenditures related to the operation and administration of the District; the collection of funds for operational reserves or for periodic maintenance and improvement rehabilitation projects; deficits or surpluses from prior fiscal years; and revenues from other sources as authorized by the 1972 Act. Each parcel is to be assessed proportionately for only those improvements, services, and expenses for which the parcel receives special benefit. Each fiscal year, the City shall establish the District's assessments based on an estimate of the costs to maintain, operate, and service the lighting improvements for that fiscal year and available revenues including fund balances,

general benefit contributions, any additional contributions from other revenue sources, and the assessment limits established for the District and Zones.

The word "parcel," for the purposes of this Report, refers to an individual property assigned its own Assessor's Parcel Number ("APN") by the Los Angeles County Assessor's Office. The Los Angeles County Auditor/Controller uses Assessor's Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for the District assessments.

At a noticed annual Public Hearing, the City Council will accept all public comments and written protests regarding the District and the annual levy of assessments. Based on those public comments and written protests, the City Council may order amendments to the Report or confirm the Report as submitted. Following final approval of the Report and confirmation of the assessments the Council will, by Resolution, confirm the levy and collection of assessments for Fiscal Year 2025/2026 pursuant to the 1972 Act. The assessments as approved will be submitted to the Los Angeles Auditor/Controller to be included on the property tax roll for each parcel.

As required by the 1972 Act, this Engineer's Report describes the improvements to be provided, maintained and serviced by the District, an estimated budget for the District lighting improvements, and the proposed assessments to be levied upon each assessable lot or parcel within the District for Fiscal Year 2025/2026.

If any section, subsection, sentence, clause, phrase, portion, or zone of this Report is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining provisions of the Report and each section, subsection, subdivision, sentence, clause, phrase, portion, or zone thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases, portions, or zones might subsequently be declared invalid or unconstitutional.

Part I — Plans and Specifications

Improvements And Services Authorized By The 1972 Act

- As applicable or may be applicable to this District, the 1972 Act defines improvements to mean one or any combination of the following:
- The installation or construction of public lighting facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing lighting improvement otherwise authorized pursuant to this section.
- Incidental expenses associated with the lighting improvements include, but are not limited to:
- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment;
    - The costs of printing, advertising, and the publishing, posting, and mailing of notices;
    - Compensation payable to the County for collection of assessments;
    - Compensation of any engineer or attorney employed to render services;
    - Any other expenses incidental to the construction, installation, or maintenance and servicing of the lighting improvements;
    - Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5;
    - Costs associated with any elections held for the approval of a new or increased assessment.
- As generally defined by the 1972 Act, the improvements and the associated assessment for each Zone may include the following:
- The maintenance and operation of streets and sidewalks within the District, including the maintenance and servicing of streetlights, traffic signals, and appurtenant facilities located in and along public streets, roadways, and rights-of-way in the City.
- "Maintenance" means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the streetlights, traffic signals and appurtenant facilities, including repair, removal or replacement of all or part of any streetlights, traffic signals, or appurtenant facilities and the cleaning, sandblasting and painting of streetlights, traffic signals, and appurtenant facilities to remove or cover graffiti.
- "Servicing" means the furnishing of electric current or energy, gas or other illuminating agent for the streetlights, traffic signals, and appurtenant facilities.

LIGHTING IMPROVEMENTS AND SERVICES WITHIN THE DISTRICT

FACILITIES MAINTAINED AND SERVICED

Streetlights

Presently the public streetlights in the City of Glendora public streets can be classified into two types:

- Southern California Edison (SCE) owned system; and,
- City owned system.

For both types, the service is provided by SCE. The rate structure for SCE owned streetlights falls under LS-1 and the rate structure for the City owned streetlights falls under LS-2. All the rate structures are generated by SCE and are subject to change.

Both the streetlighting maps of SCE and the City's records regarding public streetlights are on file and available for public inspection at the Office of the City Clerk.

All currently operating public streetlights within the City are included as facilities in connection with the District. Not included are: (i) private streetlights, such as those provided by homeowner's associations within gated communities, (ii) public streetlights that are obsolete and no longer in service (commonly known within the City as "Antique Streetlights") and (iii) safety lights positioned atop traffic signals, along with the traffic signals themselves.

The Improvements include all appurtenant facilities to each public streetlight.

The public streetlights in the City are on an ownership basis (LS-1 or LS-2). However, the cost of maintaining and furnishing electricity for all the public streetlights in the City are paid by the City to SCE. As shown in the table below, only a small percentage (7.8%) of total public streetlights are owned by the City. In the tables below HP represents Sodium Vapor lamp and MV represents Mercury Vapor lamp.

INVENTORY OF PUBLIC STREET LIGHTS – RATE BASED

Lamp Type	5HP	7HP	10 HP	15 HP	20 HP	25 HP	40 HP	17 MV	40 MV	70 MV	Incandescent 1000L	92W Series	485W Series	Total
Lumen	4000	5800	9500	16000	22000	27500	50000	7900	21000	41000	1000	1000	6000	
City owned – LS2	-	2	-	11	57	42	4	52	14	17	47	4	2	252
SCE owned – LS1	9	2,007	292	92	339	1	3	-	-	-	1	-	-	2,744
TOTAL	9	2,009	292	103	396	43	7	52	14	17	48	4	2	2,996

Inventory of the public streetlights by lamp type (lumen) and location (local/arterial) are listed in the table below:

INVENTORY OF PUBLIC STREET LIGHTS – LOCATION BASED

Lamp Type	5HP	7HP	10 HP	15 HP	20 HP	25 HP	40 HP	17 MV	40 MV	70 MV	Incandescent 1000L	92W Series	485W Series	Total
Lumen	4000	5800	9500	16000	22000	27500	50000	7900	21000	41000	1000	1000	6000	
Local Streets	9	1968	243	67	76	17	-	52	-	-	48	4	-	2,484
Arterials / Main Streets	0	41	49	36	320	26	7	-	14	17	-	-	2	512
TOTAL	**9**	**2,009**	**292**	**103**	**396**	**43**	**7**	**52**	**14**	**17**	**48**	**4**	**2**	**2,996**

Note: This information is based on the data given in SCE monthly bills and in the streetlights map of SCE.

In 2021, LA County turned over 33 streetlights to the City of Glendora. The total inventory of lamps currently does not include the 33 additional streetlights.

Safety Lights

Safety lights are public lights positioned atop traffic signals at intersections for vehicular safety and related appurtenances. Costs for furnishing electric current for safety lights in the City are paid by the City to SCE and are not currently funded by the District. For regular maintenance, repairs and replacement, the City staff or sub-contractors are used.

Traffic Signals

Traffic signals are public lights at intersections that govern and facilitate the flow of traffic and related appurtenances. Costs for furnishing electricity for safety lights in the City are paid by the City to SCE and are not currently funded by the District. The City is responsible for regular maintenance, repairs, and replacement. To provide better traffic follow and ensure safety, the City conducts traffic studies and installs new traffic signals at intersections depending on congestion and warrant studies conducted per California Manual on Uniform Traffic Control Devices (MUTCD) guidelines.

TYPES OF MAINTENANCE AND SERVICING

Maintenance

Maintenance includes the furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any Improvement, including repair, removal and replacement of all or part of any of the public lighting facilities after any incident, removal of graffiti, regular painting and general maintenance.

Servicing

Servicing includes the furnishing of electric current or energy for the public lighting facilities or for the lighting or operation of appurtenant facilities.

Part II — Method of Apportionment

Legislative Authority and Provisions

1972 Act

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, including the acquisition, construction, installation and servicing of lighting improvements and related facilities. The 1972 Act requires that the cost of these improvements be levied according to benefit rather than assessed value:

Section 22573 defines the net amount to be assessed as follows:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

Section 22574 provides for zones as follows:

"The diagram and assessment may classify various areas within an assessment district into different zones where, by reason of variations in the nature, location, and extent of the improvements, the various areas will receive differing degrees of benefit from the improvements. A zone shall consist of all territory which will receive substantially the same degree of benefit from the improvements."

The formulas used for calculating assessments and the designation of Zones as established herein reflect the composition of parcels within the District and the improvements and activities to be provided, and have been designed to fairly apportion the cost of providing those improvements based on a determination of the proportional special benefits to each parcel, consistent with the requirements of the 1972 Act and the provisions of Article XIII D of the California Constitution (Proposition 218).

California Constitution

The costs to operate and maintain the District improvements are identified and allocated to properties within each Zone within the District based on special benefit. The improvements provided and for which properties are to be assessed are identified as local lighting improvements and related amenities that were installed in connection with the development of the properties and/or would otherwise be required for the development of properties within each respective Zone. The District assessments and method of apportionment are based on the premise that these improvements would otherwise not have been required without the development or planned development of those parcels.

Article XIII D Section 2d defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XIII D Section 2i defines Special Benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."

Article XIII D Section 4a defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

BENEFIT ANALYSIS

The lighting improvements provided by this District and for which properties are assessed have been identified as necessary, desired and/or required for the orderly development of the properties within the District to their full potential, consistent with the development plans and applicable portions of the City's General Plan.

In order to allocate special benefits for the lighting improvements to individual parcels, it is necessary to classify the streets in the City by difference in use and by difference in public street lighting, as described below.

Arterials are the main thoroughfares of public streets and serve as the principal network for through-traffic flow in the City. The City of Glendora Community Plan 2025 under "Circulation Elements" defines arterials, as "The primary function of an arterial roadway is to provide for regional, sub regional and intercity travel". Arterials take the substantial portion of the total traffic volume and operate at relatively high average speeds of travel. Considering the high traffic volume and relatively high-speed limits, these streets maintain the highest level of luminance. The City's arterials are listed below.

ARTERIAL

NAME	STRETCH
Route 66	Barranca to Cataract
Grand Avenue	Meda to Arrow
Arrow Highway	Barranca to Valley Center
Glendora Avenue	Route 66 to Bennett
Glendora Avenue	Arrow to Gladstone
Foothill Blvd.	Valencia to Vista Bonita
Lone Hill Avenue	Gladstone to Route 66
Auto Center Drive	Lone Hill to FWY 210
Sunflower Avenue	Arrow to Claraday
Bonnie Cove Ave	Arrow to Gladstone
Base Line Road	Grand to Fuchsia

All the streets in the City other than those classified as arterials are classified as ***local streets***. In general, these are the roadways used primarily for direct access to residential and non-residential property. In terms of the public lighting system, local streets maintain a lower level of luminance. This is consistent with the traffic volume and average speed of travel.

SPECIAL BENEFITS

Street lighting in the District is primarily useful for illuminating the local streets that provide access to the properties in the District as well as the sidewalks and parking lanes associated with those

properties. Traffic circulation in local areasis largely the result of local traffic to and from these properties by the property owners and guests, it is reasonable to assume that these properties derive a particular and distinct benefit from the streetlighting that support the safe access to the properties and essentially all pedestrians and parking vehicles in the lit areas will, after dark, be directly associated with the assessed properties. As a result, the maintenance of these lighting improvements is a particular and distinct benefit to the properties and developments within the District and the Zones therein.

The benefits derived from the lighting improvements are discussed briefly as follows according to the type of facility.

While it is recognized that streetlights and traffic signals serve in part to enhance traffic safety, installation and construction of these improvements are for the most part, required by the development of properties within the district these type of lighting improvements provide benefits to those properties, as described below.

PUBLIC STREET LIGHTS

- *Access Benefit*

  Public streetlights improve ingress to and egress from properties by illuminating access to properties from dusk to dawn. Access Benefit is independent of actual use and is not related with the frequency of usage. It can be equated with the facility of emergency vehicles to access the properties, irrespective of whether the emergency vehicles use the access or not.

- *Security Benefit*

  Public streetlights help reduce vandalism against properties and criminal acts on properties between dusk to dawn. Police reports clearly show that more crimes are committed in darkness or relatively poorly illuminated areas.

- *Traffic Benefit*

  Public streetlights improve safety and facilitate the flow of traffic to and from properties between dusk to dawn. It is a well-accepted fact that traffic safety is considerably reduced in darkness. Various studies have concluded that good quality street lighting reduces the accident rate by increasing the visibility as vehicle headlights are inadequate for high-speed traffic.

SAFETY LIGHTS

Safety lights are located on top of traffic signals at intersections. These lights enhance traffic safety and facilitate smooth traffic flow, thus providing Traffic Benefit only.

TRAFFIC SIGNALS

Traffic signals are located on intersections only. Their function is to enhance traffic safety and facilitate smooth traffic flow, thus providing Traffic Benefit.

ARTERIAL LIGHTS

Arterial lights compose the principal network for through traffic for the entire City. At the same time, they serve the properties located along the street in a similar manner as local street to facilitate the traffic flow and safety on arterials, a high level of luminance is used. It is appropriate to distribute the Improvement Benefit on the arterials between General and Special Benefits which is over and above the level of Traffic benefit provided by public streetlights.

Certain parcels included in the District are located within gated communities. The City does not provide public streetlights within such communities. However, the City does provide perimeter public street lighting along streets that form the entry points to such communities. These properties receive the same types of access, security and traffic benefits as other parcels in the District, but obviously not to the same extent.

ARTERIAL PUBLIC
STREET LIGHT LUMEN DISTRIBUTION

Lamp Type	Number of Lamps	Lumen Yield per Lamp	Total Lumen Yield	Lumen up to 9,500	Over 9,500 Lumen
5HP	0	4,000	0	0	0
7HP	41	5,800	237,800	237,800	0
10 HP	49	9,500	465,500	465,500	0
15 HP	36	16,000	576,000	342,000	234,000
20 HP	320	22,000	7,040,000	3,040,000	4,000,000
25 HP	26	27,500	715,000	247,000	468,000
40 HP	7	50,000	350,000	66,500	283,500
17 MV	0	7,900	0	0	0
40 MV	14	21,000	294,000	133,000	161,000
70 MV	17	41,000	697,000	161,500	535,500
Incandescent 1000L	0	1,000	0	0	0
92W Series	0	1,000	0	0	0
485W Series	2	6,000	12,000	12,000	0
TOTAL	**512**		**10,387,300**	**4,705,300**	**5,682,000**

GENERAL BENEFIT

LIGHTING GENERAL BENEFIT

The City assumes certain cost for maintaining and servicing safety lights and traffic signals as a general benefit expense, and District funds are only used to maintain and service the special benefit portions of public streetlights.

Arterial lights on the other hand have a distribute benefit between general and special as explained earlier, as they compose the principal network for through traffic for the entire City while serving the properties located along the street in a similar manner as local streets. The benefits generated by the public streetlights are also a partial general benefit. To facilitate the traffic flow and safety on arterials, a high level of luminance is used. The portion of benefit which is allocated to General Benefit is directly proportional to the high level of luminance and illuminance provided on the arterials.

ARTERIAL
BENEFIT CLASS DISTRIBUTION

Description	Benefit Class	Total Lumen Yield	Benefit Distribution
Lumen up to 9,500	**Special**	4,705,300	53.95%
Lumen over 9,500	**General**	5,682,000	46.05%
Total		**10,387,300**	**100.00%**

BENEFIT ZONES

Section 22574 of the 1972 Act permits the designation of benefit zones within any individual assessment district if "by reasons or variations in the nature, location, and extent of the improvements, the various areas will receive different degrees of benefit from the improvement." There are two benefit zones in the District. Benefit Zone "A" outside non-gated communities and Benefit Zone "B" parcels within gated communities that are served by no public lighting other than perimeter lighting.

Part V. of this report includes an Assessment District Diagram for FY 2025/2026 showing the boundaries of the District.

ASSESSMENT METHODOLOGY

To calculate and identify the proportional special benefit received by each parcel and ultimately each parcel's proportionate share of the improvement costs it is necessary to consider not only the lighting improvements and services to be provided, but the relationship each parcel has to those improvements as compared to other parcels in the District.

Article XIII D Section 4a reads in part:

"…The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement or the maintenance and operation expenses of a public improvement or for the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel."

Lighting improvements, like most public improvements, provide varying degrees of benefit (whether they be general or special) based largely on the extent of such improvements, the location of the lighting improvements in relationship to properties associated with those improvements. To establish the proportional special benefit and ultimately the assessment obligation for each parcel, these factors need to be addressed and formulated in the method of apportionment by the use of benefit zones that reflect the extent and location of the lighting improvements in relationship to the properties, as well as the specific use of the property and characteristics that reflects each parcel's proportional special benefit as compared to other properties that benefit from those same improvements.

The method of apportionment (method of assessment) developed for this District is based on the premise that each of the property to be assessed receives a particular and distinct benefit (special benefit) from the lighting improvements, services, and facilities to be financed by the District assessments and to assess benefits equitably it is necessary to calculate each property's relative share of the special benefits conferred by the funded lighting improvements and service. The Equivalent Benefit Unit (EBU) method of assessment apportionment is utilized in this District and establishes a basic unit of benefit (base value) and then calculates the benefit derived by each assessed parcel as a multiple (or a fraction) of that basic unit. This EBU method of apportioning special benefits is typically seen as the most appropriate and equitable assessment methodology for districts formed under the 1972 Act, as the benefit to each parcel from the lighting improvements are apportioned as a function of comparable property characteristics The base value and assessment formula utilized in each Zone may be different, but is established for each Zone to reflect the lighting improvements and properties that benefit from those lighting improvements utilizing property characteristics that may include but is not limited to the type of development (property land use), property's development status, and size of the property (acreage or units).

For the purposes of this Engineer's Report, an EBU is the quantum of benefit derived based on a single-family residential parcel. The single-family residential parcel has been selected as the basic value for calculation of assessments since this land use represents over 98% of the parcels in the District. Thus, the "benchmark" property (the single-family residential parcel) derives one EBU of benefit and is assigned 1.00 Equivalent Benefit Unit.

The following outlines the land use classifications that are associated with or may be associated with the parcels in the District and the proportional Equivalent Benefit Units established for those land use classifications.

BENEFIT ZONES

Section 22574 of the 1972 Act permits the designation of benefit zones within any individual assessment district if "by reasons or variations in the nature, location, and extent of the improvements, the various areas will receive different degrees of benefit from the improvement."

There are two benefit zones in the District. Benefit Zone "A." contain all parcels outside a gated community and Benefit Zone "B" includes parcels within gated communities that are served by no public lighting other than perimeter lighting.

Part V. of this report includes an Assessment District Diagram for FY 2025/2026 showing the boundaries of the District.

ALLOCATION OF SPECIAL BENEFIT TO ASSESSED PARCELS

Section 22573 of the 1972 Act states that "The net amount to be assessed upon lands within an assessment district may be proportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefit to be received by each such lot or parcel from the improvements."

For the purpose of preparing this Engineer's Report, land use and parcel size are considered together. Los Angeles County Assessor data was used to obtain the parcel size. Land use classification was taken from the Los Angeles County Assessor Data and was further categorized based on the dwelling unit densities as described in the Glendora General Plan under "Housing Element Update 2008-2014".

As mentioned above, there are two distinct benefit zones in the Maintenance District depending on the degree of benefit received from the lighting improvements. Special Benefit is allocated to the parcels based on the number of Equivalent Benefit Units ("EBUs") assigned to each parcel. This section describes the methodology used to assign Equivalent Benefit Units ("EBUs") to the parcels in Benefit Zone "A" and Benefit Zone "B".

ALLOCATION OF SPECIAL BENEFIT TO PARCELS IN BENEFIT ZONE "A"

Special Benefit is composed of Access Benefit, Security Benefit and Traffic Benefit. All of these benefits can be related to parcel size as well as land use. Special Benefit is allocated to all of the assessed parcels in terms of EBUs, reflecting the relative amount of Special Benefit allocable to each parcel.

Each parcel in Benefit Zone "A" on which a single-family residence (Low-Medium Dwelling Density) is located, is assigned a 1.000 EBU. To determine the corresponding amount of EBUs for multi-family residence, relative densities of all of the residential properties in the Assessment District were analyzed.

At the time of district formation, on average each acre of land in the City devoted to Single Family Residential use contains 3.871 dwelling units, while each acre in Multi-Family use contains 13.136 dwelling units. By comparing the densities of single-family residence with the multi-family

residence in the Assessment District designates an EBU of 0.295 to each multi-family residence in the District.

Any property other than residential is considered "Non-residential". This includes, but is not limited to, Commercial, Industrial, Manufacturing, Retail Businesses, Medical Facilities, Churches, Cemeteries, railroad properties, City-owned properties, State or County owned properties and so on.

Parcels on non-residential properties are assigned EBUs based on parcel size in comparison with the EBUs assigned to residential properties. In Benefit Zone "A", a single-family residence is assigned 1.000 EBU, meaning that an acre developed in the average single-family density contain 3.871 EBUs. To provide equivalency for the assessment against non-residential parcels, each parcel is assigned 3.871 EBUs per acre.

Undeveloped parcels receive significantly less Special benefit than developed parcels. While such parcels receive Security Benefits, they typically have less need for protection from property crimes than developed parcels. Furthermore, Traffic Benefit and Access Benefit are reduced, due to minimal current use of undeveloped parcels. Therefore, undeveloped parcels are assigned EBUs per acre equal to one-third of EBUs that would be assigned to developed parcels of similar size.

Pursuant to Proposition 218, no exemption is taken for the properties owned by the City, or by the State, or by the Federal government or by any other agency. Every parcel in the Maintenance District is assessed. The assigned EBUs for Benefit Zone A are summarized in the table below.

EBUs By Land Use In Benefit Zone "A"

LAND USE	ASSIGNED EBUs
Single Family Residence	1.000 per Unit
Multi Family Residence	0.295 per Unit
Non-Residential	3.871 per Acre
Undeveloped	1.290 per Acre

Allocation of Special Benefit to Parcels in Benefit Zone "B"

As mentioned earlier, for the new developments, public streetlights were installed outside the gated community as condition of development to provide extra access, security and traffic benefits to the properties located inside the gated communities. Such parcels are assigned to Benefit Zone "B."

The parcels in Benefit Zone "B" derive the same types of benefits (access, security and traffic) from this perimeter lighting as parcels in Benefit Zone "A" derive from the public street lighting serving those parcels. However, because perimeter lighting is somewhat removed from the Zone "B" Parcels as compared with the lighting for Zone "A" Parcels, and because Zone "B" parcels are often served by privately owned and operated streetlights located directly in from of the parcels, these benefits are less than those received by Zone "A" Parcels. We determine that a parcel in Zone "B" receive 5% of the special benefit as a similarly developed parcel in Zone "A".

The assigned EBUs for Benefit Zone B are summarized in the table below.

EBUs BY LAND USE IN BENEFIT ZONE "B"

LAND USE	Benefit Zone "B" Percentage	Benefit Zone "B" EBUs
Single Family Residence	5.0 %	0.050 /Unit
Multi Family Residence	5.0 %	0.015 /Unit
Non-Residential	5.0 %	0.194 /Acre
Undeveloped	5.0 %	0.065 /Acre

Note: Zone B EBUs are 5% of the EBUs in Zone A

ASSESSMENT RANGE FORMULA

As approved by the property owners in July 2006, the maximum authorized assessment rate may increase annually, so that the ratio between the new authorized assessment rate and the rate for the initial year, is as high as the ratio between the then most recently published Consumer Price Index ("CPI") for all urban consumers for the Los Angeles-Long Beach-Anaheim for All Urban Consumers and such index published in June 2006.

Restated, the maximum assessment rate may increase each fiscal year based on the annual change in the CPI, during the preceding year, for All Urban Consumers, for the Los Angeles-Long Beach-Anaheim areas.

Based on the County due date of August each fiscal year it has been determined that a March CPI be utilized in place of June to allow enough time for the two required meeting dates (Intent Meeting and 10-day noticed Public Hearing). An analysis providing annual increase is available upon request. The CPI for the month of March 2025 is determined as 340.648, while the CPI for the month of March 2024 was 330.671. This results in a ratio of approximately 1.03017, or an increase of 3.02%.

ZONE A

The maximum assessment rate for FY 2024/2025 was $49.14 per EBU. Multiplied by 3.017%, the maximum assessment rate for FY 2025/2026 is in turn $50.63 per EBU. The initial rate set for the District was $31.47.

ZONE B

Maximum Assessment is five (5) percent of the designated maximum assessment rate for Zone A as stated in the table below.

MAXIMUM ASSESSMENT RATES

LAND USE	ASSESSMENT RATE	
	Benefit Zone "A"	Benefit Zone "B"
Single Family Residence	$ 50.63/ Unit	$ 2.53 / Unit
Multi-Family Residence	$ 14.93 / Unit	$ 0.75 / Unit
Non-Residential	$ 195.98 / Acre	$ 9.82 / Acre
Undeveloped	$ 65.31 / Acre	$ 3.29 / Acre
The amounts shown here are rounded to the nearest cent.		

ASSESSMENT DISTRIBUTION AMONG THE PARCELS BY USE

Parcels to be included in the Streetlight Maintenance District No. 1 are identified from the last Fiscal Year (FY 2024/2025) Secured Property Tax Roll of the County of Los Angeles based upon the tax rate areas of the City. Any change in the parcel number and land use received from the County Assessor's office from the no-match list will be corrected accordingly.

All the parcels are assigned to Benefit Zone "A" or Benefit Zone "B" on the basis previous identified on pages 11 and 12.

Part III – Estimate of Costs

Calculation Of Assessments

An assessment amount per Equivalent Benefit Unit (Assessment per EBU) is calculated by:

Taking the "Total Annual Expenses" (Total budgeted costs) and subtracting the "Total General Benefit Expenses" (Lighting General Benefit Expenses), to establish the "Total Special Benefit Expenses";

Total Annual Expenses – General Benefit Expenses = Special Benefit Expenses (Direct, Administrative and Incidental)

To the resulting "Special Benefit Expenses", various "Funding Adjustments" may be applied that may include, but are not limited to:

- "Additional City Funding", represents general benefit contribution from General Fund or Gas Tax Fund.
- "Reserve Fund Transfer/Deduction", represents an amount of available existing funds from the "Operational Reserve Fund Balances" being applied to pay a portion of the Special Benefit Expenses for the fiscal year.

These adjustments to the Special Benefit Expenses result in the net special benefit amount to be assessed "Balance to Levy";

Special Benefit Expenses - Funding Adjustments = Balance to Levy

The amount identified as the "Balance to Levy" is divided by the total number of EBUs of parcels that receive special benefit to establish the Assessment Rate ("Assessment Per EBU"). This Assessment Rate is then applied back to each parcel's individual EBU to calculate the parcel's proportionate special benefit and assessment amount for the lighting improvements.

Balance to Levy / Total EBU = Assessment Per EBU (Assessment Rate)

Assessment Per EBU x Parcel EBU = Parcel Assessment Amount

Note: The maximum assessments and proposed assessments for Fiscal Year 2025/2026 outlined in this Report are intended to fully support the expenses identified as "Special Benefit Expenses". Consequently, there are no "Funding Adjustments" reflected in the budgets the "Balance to Levy" is equal to the total "Special Benefit Expenses."

Zone Budgets And Assessments

The zone budgets and assessments outlined on the following page for the District are based on the City's estimate of the expenses and related funding necessary for the operation, maintenance and servicing of the District lighting improvements identified in Part I of this Report for Zone A and Zone B for Fiscal Year 2025/2026.

Refer to the Assessment Roll included herein as Part IV for the individual assessment amounts proposed to be levied and collected for each parcel in Fiscal Year 2025/2026.

ZONE BUDGETS & ASSESSMENTS, FISCAL YEAR 2025/2026

Streetlight Maintenance District Budget FY2025/2026	
DIRECT COSTS	
Annual Lighting Operation & Maintenance Expenses	$1,159,050.00
Total Direct Cost	**$1,159,050.00**
ADMINISTRATION	
District Administration	
Professional Services	$11,260.00
County Administration Fee	2,442.00
Total Administration	**$13,702.00**
Incidental Expenses	
Operational Reserve Collection	$115,905.00
Total Incidental	**$115,905.00**
TOTAL DIRECT COST, ADMINISTRATION & INCIDENTAL	**$1,288,657.00**
LEVY ADJUSTMENTS (General Benefit)	
General Fund Contribution	($67,348.39)
Gas Tax Fund Contribution	(671,000.00)
Reserve Fund Contribution/Collection	0.00
Total Levy Adjustments	**($738,348.39)**
BALANCE TO LEVY	**$550,308.61**
Total Parcels	9,581
Total Charged Parcels	9,568
Total EBUs	10,864.26
Maximum Assessment Rate Per EBU	**$50.63**
Reserve Fund Beginning Balance June 30, 2025	**$573,187**
Reserve Fund Transfer In	**115,905**
Reserve Fund Transfer Out	**0**
Reserve Fund Ending Balance June 30, 2026	**$689,092**

Part IV — Assessment Roll

Due to the number of parcels in the District, the Assessment Roll for Fiscal Year 2025/2026 (a listing of the parcels to be assessed within this District along with the assessment amounts) has been filed with the City Clerk in an electronic format and is, by reference, made part of this Report. The proposed Assessment Roll shall be available for public inspection in the City Clerk's Office during normal office hours.

The Assessment Roll reflects all properties currently identified within the District and their assessment amount(s) for Fiscal Year 2025/2026. Each parcel listed on the Assessment Roll is currently shown and illustrated on the County Assessor's Roll and the County Assessor's Parcel Number Maps (APN maps). These records are, by reference, part of this Report and shall govern for all details concerning the description of the lots or parcels. All assessments presented on the assessment roll are subject to change as a result of parcel changes made by the County including parcel splits, parcel merges or development changes that occur prior to the County Assessor's Office securing the final roll and generating tax bills for Fiscal Year 2025/2026.

Part V — District Diagrams

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the Los Angeles County Assessor's map for the year in which this Report is prepared.

The land use classification for each parcel has been based on the Los Angeles County Assessor's Roll. A listing of parcels assessed within this District, along with the proposed assessment amounts, has been submitted to the City Clerk, under a separate cover, and by reference is made part of this Report.

Reference is hereby made to the Los Angeles County Assessor's Parcel Maps for a detailed description of the lines and dimensions of each parcel within the Streetlight Maintenance District No. 1 including all subsequent subdivisions, lot-line adjustments, or parcel changes therein.

RESOLUTION CC 2025-____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER'S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1

THE CITY COUNCIL
City of Glendora, California

WHEREAS, by Resolution CC 2025-11, the City Council initiated proceedings to levy the Fiscal Year 2025-26 assessment in connection with City of Glendora Streetlight Maintenance District No. 1 (the "District") pursuant to the Landscaping and Lighting Act of 1972 (California Streets & Highways Code Section 22500 *et seq.*) (the "Assessment Law"); and

WHEREAS, a report of the City Engineer, entitled "City of Glendora Engineer's Report Streetlight Maintenance District No. 1, Engineer's Annual Report Fiscal Year 2025/2026" (the "Report") is on file in the Office of the City Clerk and available for public inspection; and

WHEREAS, the City Council has carefully examined and reviewed the Report as filed and desires to approve the Report as filed.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The City Council finds that the Report meets all the requirements of the Assessment Law and Article XIIID of the California Constitution.

SECTION 3. The Report is hereby approved as filed, without modification.

SECTION 4. The City Clerk shall certify to the passage and adoption of this Resolution and shall enter the same in the Book of Original Resolutions.

PASSED, APPROVED AND ADOPTED by the City Council of the City of Glendora this __ day of _____, ____.

RESOLUTION CC 2025-____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26

THE CITY COUNCIL
City of Glendora, California

WHEREAS, by its Resolution No. 2025-13, adopted on May 13, 2025 (the "Resolution of Intention"), the City Council declared its intention to levy an assessment for Fiscal Year 2025-26 in connection with the City of Glendora Streetlight Maintenance District No. 1 (the "District") pursuant to the Landscaping and Lighting Act of 1972 (California Streets & Highways Code Section 22500 *et seq.*) (the "Assessment Law"); and

WHEREAS, as directed by the Resolution of Intention, the City gave notice of a Public Hearing, scheduled for June 24, 2025; and

WHEREAS, the City Council desires to move forward with the levy of the assessment in connection with the District for Fiscal Year 2025-26

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, DOES HEREBY RESOLVE AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. That upon the conclusion of the Public Hearing, written protests filed, and not withdrawn, did not represent property owners owning more than fifty per cent (50%) of the area of assessable lands within the District. Therefore, the City Council overrules all objections and protests.

SECTION 3. The Diagram and Assessment contained in the Report entitled "City of Glendora Engineer's Report Streetlight Maintenance District No. 1, Engineer's Annual Report Fiscal Year 2025/2026" (the "Report"), which is on file in the Office of the City Clerk and incorporated herein by reference, is hereby approved pursuant to Section 22631 of the Assessment Law.

SECTION 4. The adoption of this Resolution constitutes the levy of the assessment within the District for Fiscal Year 2025-26.

SECTION 5. The City Clerk shall certify to the passage and adoption of this resolution and shall enter the same in the Book of Original Resolutions.

SECTION 6. The City Clerk is hereby directed to forward a copy of this Resolution to the County of Los Angeles for the submittal of the assessments.

PASSED, APPROVED AND ADOPTED by the City Council of the City of Glendora this __ day of _____, ____.

A PUBLIC HEARING TO CONSIDER RESOLUTIONS APPROVING THE ENGINEER'S REPORT & CONFIRMING A DIAGRAM & ASSESSMENT FOR STREETLIGHT MAINTENANCE DISTRICT NO. 1 FOR FY 2025-26

PUBLIC WORKS
GLENDORA CITY COUNCIL
JUNE 24, 2025
VALERIE VELASQUEZ-SANTOYA, ASSISTANT PUBLIC WORKS DIRECTOR

STREETLIGHT MAINTENANCE DISTRICT NO. 1

Background

- District includes 2,996 public streetlights (2,744 SCE-owned, 252 City-owned)
- Private lights and traffic signals excluded
- Resolution 06-60 allows annual CPI increase
    - March 2024 – March 2025 CPI: 3.02%

Annual Renewal Process Required

- Process initiated on May 13, 2025 with City Council adoption of 3 Resolutions

Public Hearing - Final step of Renewal

- Adopt Resolutions to:
    1. Approve the Final Engineer's Report for FY 2025/26
    2. Confirm the Diagram and Assessments for SMD No. 1 for FY 2025/26

FY 2025/2026 ASSESSMENT/LEVY RATES

2025 CPI of 3.02%

Maximum 2024/2025 Assessment = $49.14 per EBU
Maximum 2025/2026 Assessment = $49.14 x 3.02% = $50.63 per EBU

Land Use	FY 2025-2026 Levy	
	Benefit Zone A	Benefit Zone B
Single Family Residence	$50.63 / Unit	$2.53 / Unit
Multi-Family Residence	$14.93 / Unit	$0.75 / Unit
Non-Residential	$195.98 / Acre	$9.82 / Acre
Undeveloped	$65.31 / Acre	$3.29 / Acre

Amounts shown are rounded to the nearest cent.

TOTAL LEVY AND MAINTENANCE COSTS

Expenditures

Item	Amount
Direct Costs	$1,159,050.00
Indirect Costs	$13,702.00
Operational Reserve*	$115,905.00
Total Expenditures:	**$1,288,657.00**

Revenues

Item	Amount
Total Levy	$550,308.61
General Fund (101)	$67,348.39
Gas Tax Fund (255)	$671,000.00
Total Revenue:	**$1,288,657.00**

*Estimated Operational Reserve as of June 30, 2026: $689,092

RECOMMENDATION:

THAT THE CITY COUNCIL:

Open and Conduct a Public Hearing, accept evidence and testimony presented, and in the absence of testimony to the contrary, consider the following:

1. **Adopt A City Council Resolution Entitled**, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA APPROVING THE ENGINEER'S REPORT FILED WITH RESPECT TO THE FISCAL YEAR 2025-26 LEVY OF THE ASSESSMENT IN CONNECTION WITH CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1;" AND
2. **Adopt A City Council Resolution Entitled**, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GLENDORA CONFIRMING THE DIAGRAM AND ASSESSMENT FOR THE CITY OF GLENDORA STREETLIGHT MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2025-26."

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Finance**	**DISTRICT(S):**	**Citywide**

SUBJECT: City of Glendora and Glendora Successor Agency Investment Report for May 2025

RECOMMENDATION

That the City Council and Glendora Successor Agency:

1. Receive and file the Monthly Investment Activity Report for May 2025.

STRATEGIC FOCUS AREAS

Goal 2: Maintain Financial Stability and Sustainability (MFSS)

EXECUTIVE SUMMARY

The City's book value of cash and investments for May 2025 totaled $119,958,879. This is an increase of $2,677,073 (2.28%) compared to the previous month. This increase is primarily due to vehicle license fee revenues totaling $3,825,176.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

Pursuant to Section 19 of the City's FY 2024-25 Investment Policy, a monthly investment report must be provided to the City Council to provide a clear picture of the status of the current portfolio.

DISCUSSION

As prescribed in the Investment Policy for FY 2025, the attached investment report provides a listing of individual securities held at the end of the reporting period by authorized investment category, the average life and final maturity of all investments listed, coupon rate, discount or earnings rate, Par Value, Market Value and Book Value of each investment in the portfolio, including funds managed for the City by third parties.

In the month of May, there were five investment purchases (consisting of Federal Agency Securities, United States Treasury Notes, and Certificates of Deposit) totaling $3,140,000. There were six securities that matured at $8,516,000, resulting in neither a gain nor loss.

FISCAL IMPACT

There is no fiscal impact associated with the recommended action.

ENVIRONMENTAL DETERMINATION

Not applicable.

CITY OF GLENDORA
INVESTMENT REPORT SUMMARY
May 31, 2025

Pursuant to California Government Code Section 53600 et seq. and Section 16 of the City of Glendora's Investment Policy, a monthly investment report must be provided to the City Council providing a clear picture of the status of the current investment portfolio. Included in the report are several specific items relating to portfolio holdings including, but not limited to, investment type, par value, market value, book value, coupon rate and yield to maturity.

The report is in conformity with the City's Investment Policy and California Government Code 53601. Per the policy, the report reflects pooled cash from all city funds. It does not reflect any restrictions associated with how each individual fund can be utilized. This information is provided through other financial reports that include the budget, Annual Comprehensive Financial Report and other financial reports available through the website.

The objective of the City investments is to provide safety of principal and liquidity, while then providing a return on investments. (Section 4 of the policy). All brokered transactions are held by a third-party custodian designated by the Treasurer. (Section 14 of the policy). There is currently one custodial account, which is UBS.

Below is a comparison of the average monthly yield and interest received from prior years for the same month, along with a visual graph:

May	FY 2023	FY 2024	FY 2025
Interest	$156,407	$165,392	$230,390
Average Monthly Yield	1.98%	1.86%	2.34%

I hereby certify that the investments are in compliance with the investment policy adopted by the City Council. The investment portfolio provides sufficient funds to meet the budgeted expenditures over the next six months.

Disclosures Applicable to Accounts at UBS Financial Services Inc.

This section contains important disclosures regarding the information and valuations presented here. All information presented is subject to change at any time and is provided only as of the date indicated. The information in this report is for informational purposes only and should not be relied upon as the basis of an investment or liquidation decision. UBS FS account statements and official tax documents are the only official record of your accounts and are not replaced, amended or superseded by any of the information presented in these reports. You should not rely on this information in making purchase or sell decisions, for tax purposes or otherwise.

UBS FS offers a number of investment advisory programs to clients, acting in our capacity as an investment adviser, including fee-based financial planning, discretionary account management, non-discretionary investment advisory programs, and advice on the selection of investment managers and mutual funds offered through our investment advisory programs. When we act as your investment adviser, we will have a written agreement with you expressly acknowledging our investment advisory relationship with you and describing our obligations to you. At the beginning of our advisory relationship, we will give you our Form ADV brochure(s) for the program(s) you selected that provides detailed information about, among other things, the advisory services we provide, our fees, our personnel, our other business activities and financial industry affiliations and conflicts between our interests and your interests.

In our attempt to provide you with the highest quality information available, we have compiled this report using data obtained from recognized statistical sources and authorities in the financial industry. While we believe this information to be reliable, we cannot make any representations regarding its accuracy or completeness. Please keep this guide as your Advisory Review.

Please keep in mind that most investment objectives are long term. Although it is important to evaluate your portfolio's performance over multiple time periods, we believe the greatest emphasis should be placed on the longer period returns.

Please review the report content carefully and contact your Financial Advisor with any questions.

Client Accounts: This report may include all assets in the accounts listed and may include eligible and ineligible assets in a fee-based program. Since ineligible assets are not considered fee-based program assets, the inclusion of such securities will distort the actual performance of your accounts and does not reflect the performance of your accounts in the fee-based program. As a result, the performance reflected in this report can vary substantially from the individual account performance reflected in the performance reports provided to you as part of those programs. For fee-based programs, fees are charged on the market value of eligible assets in the accounts and assessed quarterly in advance, prorated according to the number of calendar days in the billing period. When shown on a report, the risk profile and return objectives describe your overall goals for these accounts. For each account you maintain, you choose one return objective and a primary risk profile. If you have questions regarding these objectives or wish to change them, please contact your Financial Advisor to update your account records.

Performance: This report presents account activity and performance depending on which inception type you've chosen. The two options are: (1) All Assets (Since Performance Start): This presents performance for all assets since the earliest possible date; (2) Advisory Assets (Advisory Strategy Start) for individual advisory accounts: This presents Advisory level performance since the Latest Strategy Start date; If an account that has never been managed is included in the consolidated report, the total performance of that unmanaged account will be included since inception.

Time-weighted Returns for accounts / SWP/AAP sleeves (Monthly periods): The report displays a time weighted rate of return (TWR) that is calculated using the Modified Dietz Method. This calculation uses the beginning and ending portfolio values for the month and weighs each contribution/withdrawal based upon the day the cash flow occurred. Periods greater than one month are calculated by linking the monthly returns. The TWR gives equal weighting to every return regardless of amount of money invested, so it is an effective measure for returns on a fee based account. All periods shown which are greater than 12 months are annualized. This applies to all performance for all assets before 09/30/2010, Advisory assets before 12/31/2010 and SWP sleeves before 04/30/2018.

Time-weighted Returns for accounts / SWP/AAP sleeves (Daily periods): The report displays a time weighted rate of return (TWR) that is calculated by dividing the portfolio's daily gain/loss by the previous day's closing market value plus the net value of cash flows that occurred during the day, if it was positive. The TWR gives equal weighting to every return regardless of amount of money invested, so it is an effective measure for returns on a fee based account. Periods greater than one day are calculated by linking the daily returns. All periods shown which are greater than 12 months are annualized. For reports generated prior to 01/26/2018, the performance calculations used the account's end of day value on the performance inception (listed in the report under the column "ITD") and all cash flows were posted at end of day. As a result of the change, the overall rate of return (TWR) and beginning market value displayed can vary from prior generated reports. This applies to all performance for all assets on or after 09/30/2010, Advisory assets on or after 12/31/2010, SWP/AAP sleeves on or after 04/30/2018 as well as all Asset Class and Security level returns.

Money-weighted returns: Money-weighted return (MWR) is a measure of the rate of return for an asset or portfolio of assets. It is calculated by finding the daily Internal Rate of Return (IRR) for the period and then compounding this return by the number of days in the period being measured. The MWR incorporates the size and timing of cash flows, so it is an effective measure of returns on a portfolio.

Annualized Performance: All performance periods greater than one year are calculated (unless otherwise stated) on an annualized basis, which represents the return on an investment multiplied or divided to give a comparable one year return.

Cumulative Performance: A cumulative return is the aggregate amount that an investment has gained or lost over time, independent of the period of time involved.

Net of Fees and Gross of Fees Performance: Performance is presented on a "net of fees" and "gross of fees" basis, where indicated. Net returns do not reflect Program and wrap fees prior to 10/31/10 for accounts that are billed separately via invoice through a separate account billing arrangement. Gross returns do not reflect the deduction of fees, commissions or other charges. The payment of actual fees and expenses will reduce a client's return. The compound effect of such fees and expenses should be considered when reviewing returns. For example, the net effect of the deduction of fees on annualized performance, including the compounded effect over time, is determined by the relative size of the fee and the account's investment performance. It should also be noted that where gross returns are compared to an index, the index performance also does not reflect any transaction costs, which would lower the performance results. Market index data maybe subject to review and revision.

Benchmark/Major Indices: The past performance of an index is not a guarantee of future results. Any benchmark is shown for informational purposes only and relates to historical performance of market indices and not the performance of actual investments. Although most portfolios use indices as benchmarks, portfolios are actively managed and generally are not restricted to investing only in securities in the index. As a result, your

Disclosures Applicable to Accounts at UBS Financial Services Inc. *(continued)*

portfolio holdings and performance may vary substantially from the index. Each index reflects an unmanaged universe of securities without any deduction for advisory fees or other expenses that would reduce actual returns, as well as the reinvestment of all income and dividends. An actual investment in the securities included in the index would require an investor to incur transaction costs, which would lower the performance results. Indices are not actively managed and investors cannot invest directly in the indices. Market index data maybe subject to review and revision. The benchmark index is selected from among the indices for which UBSFS has licensing agreements with the index provider. UBSFS does not have licensing agreements for all available indices. The benchmarks may vary from those used by the Money Manager or those listed in the prospectus. Further, there is no guarantee that an investor's account will meet or exceed the stated benchmark. Index performance information has been obtained from third parties deemed to be reliable. We have not independently verified this information, nor do we make any representations or warranties to the accuracy or completeness of this information.

Blended Index - For Advisory accounts, Blended Index is designed to reflect the asset categories in which your account is invested. For Brokerage accounts, you have the option to select any benchmark from the list.

For certain products, the blended index represents the investment style corresponding to your client target allocation. If you change your client target allocation, your blended index will change in step with your change to your client target allocation.

Blended Index 2 - 8 - are optional indices selected by you which may consist of a blend of indexes. For advisory accounts, these indices are for informational purposes only. Depending on the selection, the benchmark selected may not be an appropriate basis for comparison of your portfolio based on its holdings.

For alternative investments and strategies that are highly customized, such as Concentrated Equity Solutions (CES), benchmarks are broad market indices included for general reference and are not intended to show comparative market performance or potential portfolios with risk or return profiles similar to your account. Benchmark indices are shown for illustrative purposes only.

Custom Time Periods: If represented on this report, the performance start date and the performance end date have been selected by your Financial Advisor in order to provide performance and account activity information for your account for the specified period of time only. As a result, only a portion of your account's activity and performance information is presented in the performance report, and, therefore, presents a distorted representation of your account's activity and performance.

Net Deposits/Withdrawals: When shown on a report, this information represents the net value of all cash and securities contributions and withdrawals, program fees (including wrap fees) and other fees added to or subtracted from your accounts from the first day to the last day of the period. When fees are shown separately, net deposits / withdrawals does not include program fees (including wrap fees). When investment return is displayed net deposits / withdrawals does not include program fees (including wrap fees). For security contributions and withdrawals, securities are calculated using the end of day UBS FS price on the day securities are delivered in or out of the accounts. Wrap fees will be included in this calculation except when paid via an invoice or through a separate accounts billing arrangement. When shown on Client summary and/or Portfolio review report, program fees (including wrap fees) may not be included in net deposits/withdrawals. PACE Program fees paid from sources other than your PACE account are treated as a contribution. A PACE Program Fee rebate that is not reinvested is treated as a withdrawal.

Deposits: When shown on a report, this information represents the net value of all cash and securities contributions added to your accounts from the first day to the last day of the period. On Client Summary Report and/or Portfolio Review Report, this may exclude the Opening balance. For security contributions, securities are calculated using the end of day UBS FS price on the day securities are delivered in or out of the accounts.

Withdrawals: When shown on a report, this information represents the net value of all cash and securities withdrawals subtracted from your accounts from the first day to the last day of the period. On Client summary and/or portfolio review report Withdrawals may not include program fees (including wrap fees). For security withdrawals, securities are calculated using the end of day UBS FS price on the day securities are delivered in or out of the accounts.

Dividends/Interest: Dividend and interest earned, when shown on a report, does not include income on securities that have been lent out & does not reflect your account's tax status or reporting requirements. Use only official tax reporting documents (i.e. 1099) for tax reporting purposes. The classification of private investment distributions can only be determined by referring to the official year-end tax-reporting document provided by the issuer.

Change in Accrued Interest: When shown on a report, this information represents the difference between the accrued interest at the beginning of the period from the accrued interest at the end of the period.

Change in Value: Represents the change in value of the portfolio during the reporting period, excluding additions/withdrawals, dividend and interest income earned and accrued interest. Change in Value may include programs fees (including wrap fees) and other fees.

Fees: Fees represented in this report include program and wrap fees. Program and wrap fees prior to October 1, 2010 for accounts that are billed separately via invoice through a separate account billing arrangement are not included in this report.

Performance Start Date Changes: The Performance Start Date for accounts marked with a '^' have changed. Performance figures of an account with a changed Performance Start Date may not include the entire history of the account. The new Performance Start Date will generate performance returns and activity information for a shorter period than is available at UBS FS. As a result, the overall performance of these accounts may generate better performance than the period of time that would be included if the report used the inception date of the account. UBS FS recommends reviewing performance reports that use the inception date of the account because reports with longer time frames are usually more helpful when evaluating investment programs and strategies. Performance reports may include accounts with inception dates that precede the new Performance Start Date and will show performance and activity information from the earliest available inception date.
The change in Performance Start Date may be the result of a performance gap due to a zero-balance that prevents the calculation of continuous returns from the inception of the account. The Performance Start Date may also change if an account has failed one of our performance data integrity tests. In such instances, the account will be labeled as 'Review Required' and performance prior to that failure will be restricted. Finally, the Performance Start Date will change if you have explicitly requested a performance restart. Please contact your Financial Advisor for additional details regarding your new Performance Start Date.

Closed Account Performance: Accounts that have been closed may be included in the consolidated performance report. When closed accounts are included in the consolidated report, the performance report will only include information for the time period the account was active during the consolidated performance reporting time period.

Disclosures Applicable to Accounts at UBS Financial Services Inc. *(continued)*

Important information on options-based strategies: Options involve risk and are not suitable for everyone. Prior to buying or selling an option investors must read a copy of the Characteristics & Risks of Standardized Options, also known as the options disclosure document (ODD). It explains the characteristics and risks of exchange traded options. The options risk disclosure document can be accessed at the following web address: www.optionsclearing.com/about/publications/character-risks.

Concentrated Equity Solutions (CES) managers are not involved in the selection of the underlying stock positions. The Manager will advise only on the options selection in order to pursue the strategy in connection with the underlying stock position(s) deposited in the account. It is important to keep this in mind when evaluating the manager's performance since the account's performance will include the performance of the underlying equity position that is not being managed. CES use options to seek to achieve your investment objectives regarding your concentration stock position. Options strategies change the potential return profile of your stock. In certain scenarios, such as call writing, the call position will limit your ability to participate in any potential increase in the underlying equity position upon which the call was written. Therefore, in some market conditions, particularly during periods of significant appreciation of the underlying equity position(s), the CES account will decrease the performance that would have been achieved had the stock been held long without implementing the CES strategy.

Portfolio: For purposes of this report "portfolio" is defined as all of the accounts presented on the cover page or the header of this report and does not necessarily include all of the client's accounts held at UBS FS or elsewhere.

Percentage: Portfolio (in the "% Portfolio / Total" column) includes all holdings held in the account(s) selected when this report was generated. Broad asset class (in the "% broad asset class" column) includes all holdings held in that broad asset class in the account(s) selected when this report was generated.

Tax lots: This report displays security tax lots as either one line item (i.e., lumped tax lots) or as separate tax lot level information. If you choose to display security tax lots as one line item, the total cost equals the total value of all tax lots. The unit cost is an average of the total cost divided by the total number of shares. If the shares were purchased in different lots, the unit price listed does not represent the actual cost paid for each lot. The unrealized gain/loss value is calculated by combining the total value of all tax lots plus or minus the total market value of the security.

If you choose to display tax lot level information as separate line items on the Portfolio Holdings report, the tax lot information may include information from sources other than UBS FS. The Firm does not independently verify or guarantee the accuracy or validity of any information provided by sources other than UBS FS. As a result this information may not be accurate and is provided for informational purposes only. Clients should not rely on this information in making purchase or sell decisions, for tax purposes or otherwise. See your monthly statement for additional information.

Pricing: All securities are priced using the closing price reported on the last business day preceding the date of this report. Every reasonable attempt has been made to accurately price securities; however, we make no warranty with respect to any security's price. Please refer to the back of the first page of your UBS FS account statement for important information regarding the pricing used for certain types of securities, the sources of pricing data and other qualifications concerning the pricing of securities. To determine the value of securities in your account, we generally rely on third party quotation services. If a price is unavailable or believed to be unreliable, we may determine the price in good faith and may use other sources such as the last recorded transaction. When securities are held at another custodian or if you hold illiquid or restricted securities for which there is no published price, we will generally rely on the value provided by the custodian or issuer of that security.

Cash: Cash on deposit at UBS Bank USA is protected by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 in principal and accrued interest per depositor for each ownership type. Deposits made in an individual's own name, joint name, or individual retirement account are each held in a separate type of ownership. Such deposits are not guaranteed by UBS FS. More information is available upon request.

Margin: The quantity value may indicate that all or part of this position is held on margin or held in the short account. When an account holds a debit balance, this debit balance is incorporated into the account's total market value and deducted from the total value. When calculating the percent of portfolio on each security, the percentage will be impacted by the total market value of the account. Therefore, if the account's market value is reduced by a debit value of a holding the percent of portfolio will be greater and if the account's market value is increased by a holding then the percent of portfolio will be less.

Asset Allocation: Your allocation analysis is based on your current portfolio. The Asset Allocation portion of this report shows the mix of various investment classes in your account. An asset allocation that shows a significantly higher percentage of equity investments may be more appropriate for an investor with a more aggressive investment strategy and higher tolerance for risk. Similarly, the asset allocation of a more conservative investor may show a higher percentage of fixed income investments.

Separately Managed Accounts and Pooled Investment Vehicles (such as mutual funds, closed end funds and exchanged traded funds): The asset classification displayed is based on firm's proprietary methodology for classifying assets. Please note that the asset classification assigned to rolled up strategies may include individual investments that provide exposure to other asset classes. For example, an International Developed Markets strategy may include exposure to Emerging Markets, and a US Large Cap strategy may include exposure to Mid Cap and Small Cap, etc.

Mutual Fund Asset Allocation: If the option to unbundle balanced mutual funds is selected and if a fund's holdings data is available, mutual funds will be classified by the asset class, subclass, and style breakdown of their underlying holdings. Where a mutual fund or ETF contains equity holdings from multiple equity sectors, this report will proportionately allocate the underlying holdings of the fund to those sectors measured as a percentage of the total fund's asset value as of the date shown.

This information is supplied by Morningstar, Inc. on a daily basis to UBS FS based on data supplied by the fund which may not be current. Mutual funds change their portfolio holdings on a regular (often daily) basis. Accordingly, any analysis that includes mutual funds may not accurately reflect the current composition of these funds. If a fund's underlying holding data is not available, it will be classified based on its corresponding overall Morningstar classification. All data is as of the date indicated in the report.

All pooled investment vehicles (such as mutual funds, closed end mutual funds, and exchange traded funds) incorporate internal management and operation expenses, which are reflected in the performance returns. Please see relevant fund prospectus for more information. Please note, performance for mutual funds is inclusive of multiple share classes.

Ineligible Assets: We require that you hold and purchase only eligible managed assets in your advisory accounts. Please contact your Financial Advisor for a list of the eligible assets in your program. These reports may provide performance information for eligible and ineligible assets in a fee-based program. Since ineligible assets

are not considered fee-based program assets, the inclusion of such securities will distort the actual performance of your advisory assets. As a result, the performance reflected in this report can vary substantially from the individual account performance reflected in the performance reports provided to you as part of those programs. For fee-based programs, fees are charged on the market value of eligible assets in the accounts and assessed quarterly in advance, prorated according to the number of calendar days in the billing period. Neither UBS nor your Financial Advisor will act as your investment adviser with respect to Ineligible Assets.

Variable Annuity Asset Allocation: If the option to unbundle a variable annuity is selected and if a variable annuity's holdings data is available, variable annuities will be classified by the asset class, subclass, and style breakdown for their underlying holdings. Where a variable annuity contains equity holdings from multiple equity sectors, this report will proportionately allocate the underlying holdings of the variable annuity to those sectors measured as a percentage of the total variable annuity's asset value as of the date shown.

This information is supplied by Morningstar, Inc. on a weekly basis to UBS FS based on data supplied by the variable annuity which may not be current. Portfolio holdings of variable annuities change on a regular (often daily) basis. Accordingly, any analysis that includes variable annuities may not accurately reflect the current composition of these variable annuities. If a variable annuity's underlying holding data is not available, it will remain classified as an annuity. All data is as of the date indicated in the report.

Equity Style: The Growth, Value and Core labels are determined by Morningstar. If an Equity Style is unclassified, it is due to non-availability of data required by Morningstar to assign it a particular style.

Equity Capitalization: Market Capitalization is determined by Morningstar. Equity securities are classified as Large Cap, Mid Cap or Small Cap by Morningstar. Unclassified securities are those for which no capitalization is available on Morningstar.

Equity Sectors: The Equity sector analysis may include a variety of accounts, each with different investment and risk parameters. As a result, the overweighting or underweighting in a particular sector or asset class should not be viewed as an isolated factor in making investment/liquidation decisions; but should be assessed on an account by account basis to determine the overall impact on the account's portfolio.

Classified Equity: Classified equities are defined as those equities for which the firm can confirm the specific industry and sector of the underlying equity instrument.

Estimated Annual Income: The Estimated Annual Income is for informational purposes only and is calculated by the annualized per share dividends/interest paid, multiplied by the quantity of the shares held in the selected account(s). For Expected Cash Flow and Portfolio Holdings reports prior to June 23, 2023, savings products & sweep funds do not display such calculations and instead, values are displayed as N/A. For all other reports, Estimated Annual Income for savings products & sweep funds is not calculated or factored into aggregate calculations and will be displayed as 0.

Current Yield: Current Yield is estimated for informational purposes only and may not reflect changes in price. It's calculated by dividing the total estimated annual income by the current market value displayed. Current yield calculations display the current yield of the investment solely as of the date of this report. For Portfolio Holdings report generated prior to June 23, 2023, savings products & sweep funds do not include such information and instead, values are displayed as N/A. For all other reports, Current Yield for savings products & sweep funds is not calculated or factored into aggregate calculations and will be displayed as 0.

YTM (at Market): Yield to Maturity (at Market) is the expected return of an interest-bearing security from the report date, assuming that it is held to maturity with all coupon payments paid. For displays at the tax lot level, the Yield to Maturity is calculated based on the cost basis of that specific tax lot. For position level displays (consisting of multiple tax lots), Yield to Maturity is derived by using the weighted average cost basis of all the underlying tax lots.

YTW (at Market): Yield to Worst (at Market) is the expected return of an interest-bearing security from the report date, assuming that it is held to the next call date or until maturity (if no next call date) with all coupon payments paid. For displays at the tax lot level, the Yield to Worst is calculated based on the cost basis of that specific tax lot. For position level displays (consisting of multiple tax lots), Yield to Worst is derived by using the weighted average cost basis of all the underlying tax lots.

Bond Rating: These ratings are obtained from independent industry sources and are not verified by UBS FS. Securities without rating information are left blank. Rating agencies may discontinue ratings on high yield securities.

NR: When NR is displayed under bond rating column, no ratings are currently available from that rating agency.

High Yield: This report may designate a security as a high yield fixed income security even though one or more rating agencies rate the security as an investment grade security. Further, this report may incorporate a rating that is no longer current with the rating agency. For more information about the rating for any high yield fixed income security, or to consider whether to hold or sell a high yield fixed income security, please contact your financial advisor or representative and do not make any investment decision based on this report.

Credit/Event Risk: Investments are subject to event risk and changes in credit quality of the issuer. Issuers can experience economic situations that may have adverse effects on the market value of their securities.

Interest Rate Risk: Bonds are subject to market value fluctuations as interest rates rise and fall. If sold prior to maturity, the price received for an issue may be less than the original purchase price.

Reinvestment Risk: Since most corporate issues pay interest semiannually, the coupon payments over the life of the bond can have a major impact on the bond's total return.

Call Provisions: When evaluating the purchase of a corporate bond, one should be aware of any features that may allow the issuer to call the security. This is particularly important when considering an issue that is trading at a premium to its call price, since the return may be negatively impacted if the issue is redeemed. Should an issue be called, investors may be faced with an earlier than anticipated reinvestment decision, and may be unable to reinvest their principal at equally favorable rates.

Effective Maturity: Effective maturity is the expected redemption due to pre-refunding, puts, or maturity and does not reflect any sinking fund activity, optional or extraordinary calls. Securities without a maturity date are left blank and typically include Preferred Securities, Mutual Funds and Fixed Income UITs.

Yields: Yield to Maturity and Yield to Worst are calculated to the worst call.

Accrued Interest: Interest that has accumulated between the most recent payment and the report date may be reflected in market values for interest bearing securities.

Disclosures Applicable to Accounts at UBS Financial Services Inc. *(continued)*

Bond Averages: All averages are weighted averages calculated based on market value of the holding, not including accrued interest.

Tax Status: "Taxable" includes all securities held in a taxable account that are subject to federal and/or state or local taxation. "Tax-exempt" includes all securities held in a taxable account that are exempt from federal, state and local taxation. "Tax-deferred" includes all securities held in a tax-deferred account, regardless of the status of the security.

Bond sensitivity analysis: This analysis uses Modified Duration which approximates the percentage price change of a security for a given change in yield. The higher the modified duration of a security, the higher its risk. For callable securities, modified duration does not address the impact of changing interest rates on a bond's expected cash flow as a result of a call or prepayment.

Amortization and Accretion: Prior to March 2008, amortization was calculated using the straight line method for tax exempt securities and was not calculated for taxable securities. Post March 2008, amortization is calculated using the constant yield method. Prior to October 2008, accretion due to original issue discount was not calculated. Post October 2008, accretion due to original issue discount is calculated using the constant yield method. Prior to January 2015, accretion due to market discount was calculated using the straight line method. Post January 2015, accretion due to market discount is calculated using the constant yield method. We assume the securities are held to par and premiums are calculated to call date. Amortization and accretion values may be incorrect due to adjustments related to cost basis. You may hold additional fixed income securities that may not appear on this report. Please refer to your account statements for information regarding all of your holdings.

Gain/Loss: The gain/loss information may include calculations based upon non-UBS FS cost basis information. The firm does not independently verify or guarantee the accuracy or validity of any information provided by sources other than UBS FS. In addition, for Schedule K-1 reported investments, such as alternative investment funds, please refer to your annual K-1 and 1099 tax forms. If this report contains positions with unavailable cost basis, the gain/(loss) for these positions are excluded in the calculation for the Gain/(Loss). As a result these figures may not be accurate and are provided for informational purposes only. Clients should not rely on this information in making purchase or sell decisions, for tax purposes or otherwise. Rely only on year-end tax forms when preparing your tax return. See your monthly statement for additional information.

Accounts Included in this Report: The account listing may or may not include all of your accounts with UBS FS. The accounts included in this report are listed under the "Accounts included in this review" shown on the first page or listed at the top of each page. If the account is a donor advised fund account, the assets in those accounts are owned by the Sponsoring Charitable Organization, and not the donor. You and your financial advisor have procured the appropriate authorization to view the assets in the donor advised fund account. If an account number begins with "@" this denotes assets or liabilities held at other financial institutions. Information about these assets, including valuation, account type and cost basis, is based on the information you provided to us, or provided to us by third party data aggregators or custodians at your direction. We have not verified, and are not responsible for, the accuracy or completeness of this information.

Account name(s) displayed in this report and labels used for groupings of accounts can be customizable "nicknames" chosen by you to assist you with your recordkeeping or may have been included by your financial advisor for reference purposes only. The names used have no legal effect, are not intended to reflect any strategy, product, recommendation, investment objective or risk profile associated with your accounts or any group of accounts, and are not a promise or guarantee that wealth, or any financial results, can or will be achieved. All investments involve the risk of loss, including the risk of loss of the entire investment.

For more information about account or group names, or to make changes, contact your Financial Advisor.

Account changes: At UBS, we are committed to helping you work toward your financial goals. So that we may continue providing you with financial advice that is consistent with your investment objectives, please consider the following two questions:
1) Have there been any changes to your financial situation or investment objectives?
2) Would you like to implement or modify any restrictions regarding the management of your account?
If the answer to either question is "yes," it is important that you contact your Financial Advisor as soon as possible to discuss these changes. For MAC advisory accounts, please contact your investment manager directly if you would like to impose or change any investment restrictions on your account.

ADV disclosure: A complimentary copy of our current Form ADV Disclosure Brochure that describes the advisory program and related fees is available through your Financial Advisor. Please contact your Financial Advisor if you have any questions.

Important information for former Piper Jaffray and McDonald Investments clients: As an accommodation to former Piper Jaffray and McDonald Investments clients, these reports include performance history for their Piper Jaffray accounts prior to August 12, 2006 and McDonald Investments accounts prior to February 9, 2007, the date the respective accounts were converted to UBS FS. UBS FS has not independently verified this information nor do we make any representations or warranties as to the accuracy or completeness of that information and will not be liable to you if any such information is unavailable, delayed or inaccurate.

For insurance, annuities, and 529 Plans, UBS FS relies on information obtained from third party services it believes to be reliable. UBS FS does not independently verify or guarantee the accuracy or validity of any information provided by third parties. Information for insurance, annuities, and 529 Plans that has been provided by a third party service may not reflect the quantity and market value as of the previous business day. When available, an "as of" date is included in the description.

Investors outside the U.S. are subject to securities and tax regulations within their applicable jurisdiction that are not addressed in this report. Nothing in this report shall be construed to be a solicitation to buy or offer to sell any security, product or service to any non-U.S. investor, nor shall any such security, product or service be solicited, offered or sold in any jurisdiction where such activity would be contrary to the securities laws or other local laws and regulations or would subject UBS to any registration requirement within such jurisdiction.

Performance History prior to the account's inception at UBS Financial Services, Inc. may have been included in this report and is based on data provided by third party sources. UBS Financial Services Inc. has not independently verified this information nor does UBS Financial Services Inc. guarantee the accuracy or validity of the information.

Important information about brokerage and advisory services. As a firm providing wealth management services to clients, UBS Financial Services Inc. offers investment advisory services in its capacity as an SEC-registered investment adviser and brokerage services in its capacity as an SEC-registered broker-dealer. Investment advisory services and brokerage services are separate and distinct, differ in material ways and are governed by different laws and separate arrangements. It is important that clients understand the ways in which we conduct business, that they carefully read the agreements and disclosures that we provide to them about the products or services we offer. For more information, please review client relationship summary provided at **ubs.**

Disclosures Applicable to Accounts at UBS Financial Services Inc. *(continued)*

com/relationshipsummary.

UBS Financial Services account protection
The Firm is a member of the Securities Investor Protection Corporation (SIPC), which protects securities customers of its members up to $500,000 (including $250,000 for claims for cash). Explanatory brochure available upon request or at www.sipc.org. The SIPC asset protection limits apply to all accounts that you hold in a particular capacity.

The Firm, together with certain affiliates, has also purchased supplemental insurance. The maximum amount payable to all eligible clients, collectively under this protection is $500 million as of December 10, 2019. Subject to the policy conditions and limitations, cash at the Firm is further protected for up to $1.9 million in the aggregate for all your accounts held in a particular capacity. A full copy of the policy wording is available upon request.

Neither the SIPC protection nor the supplemental protection apply to:

- Certain financial assets controlled by (and included in your account value) but held away from UBS Financial Services. For example certain (i) insurance products, including variable annuities, and (ii) shares of mutual funds registered in the name of the account holder on the books of the issuer or transfer agent);
- Investment contracts or investment interests (e.g., limited partnerships and private placements) that are not registered under the Securities Act of 1933;
- Commodities contracts (e.g., foreign exchange and precious metal contracts), including futures contracts and commodity option contracts;
- Securities on loan to UBS Financial Services; and
- Deposit accounts (except certificates of deposit) at UBS Bank USA, UBS AG U.S. branches and banks in the FDIC Insured Deposit Program.

The SIPC protection and the supplemental protection do not apply to these assets even if they otherwise appear on your statements. The SIPC protection and the supplemental protection do not protect against changes in the market value of your investments (whether as a result of market movement, issuer bankruptcy or otherwise).

Non-UBS Assets and Liabilities: This report is not intended to provide you with consolidated information or reporting regarding your holdings at other firms. However, at your request, this report may include information regarding assets that you hold at other financial institutions so that you may review your asset allocation and/or investment strategy in the context of your overall holdings. You should review and maintain the original documents for these assets, such as the statements for individual accounts held away from UBS. Those documents may contain notices, disclosures and other information important to you, and may also serve as a reference should questions arise regarding the accuracy of that information as presented in this report.

The information presented for accounts held at other financial institutions has been provided to UBS at your direction through your agreement with an Outside Asset Data Aggregation Service. These accounts have been added to this report at your request and are automatically updated to reflect the most recent data received from the custodian. Information may have also been provided based on documents and valuation you provided to your Financial Advisor. These accounts have been added to this report at your request and may not reflect the current valuation.

If an account number begins with "@" this denotes assets or liabilities held at other financial institutions. Information about these assets, including valuation, account type and cost basis, is based on the information you provided to us, or provided to us by third party data aggregators or custodians at your direction. We have not verified, and are not responsible for, the accuracy or completeness of this information.

If the information you or your custodians provided to us is not current, inclusion of these assets will impact the accuracy of the current asset allocation and other analysis presented. We do not provide purchase, sale or hold recommendations or advice with respect to your assets at other firms and do not assume responsibility for activity you conduct at other financial institutions.

UBS's SIPC coverage applies to assets held at UBS. If you maintain assets at other firms that may be SIPC members, you should contact their financial representative or the other entity or refer to the other entitys statement regarding SIPC membership. Your UBS Financial Services Inc. account statements are the only official record of your UBS holdings and account and are not replaced, amended or superseded by any of the information presented in this report.

Assets that you hold at other financial institutions are priced using the closing price reported on the last business day preceding the date of this report. Every reasonable attempt has been made to accurately price securities; however, we make no warranty with respect to any security's price. To determine the value of securities in your account, we generally rely on third party quotation services. If a price is unavailable or believed to be unreliable, we may determine the price in good faith and may use other sources such as the last recorded transaction. When securities are held at another custodian or if you hold illiquid or restricted securities for which there is no published price, we will generally rely on the value provided by the custodian or issuer of that security.

The value of assets held at other financial institutions is based on the "Last Refresh Date" displayed. Up to date valuation and information can be obtained directly from the custodian of your assets. The account statements you receive from your third party custodian regarding the assets you hold with them are the official record of your holdings and accounts and are not impacted or superseded by the information in this report.

Account balances and security pricing will always display in U.S. Dollars even if assets in your Outside Accounts are denominated in other currencies. UBS will convert any values received in the Outside Account Information to U.S. Dollars using foreign exchange rates from UBS as of the previous business.

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Police Department**	**DISTRICT(S):**	**Citywide**

SUBJECT: **Authorize Reallocation of Previously Approved State Homeland Security Program Sub-recipient Agreement for Grant Year 2021 Funds to Meridian Vehicle Barriers**

RECOMMENDATION

That the City Council:

1. Authorize the Reallocation of the Previously Approved Funds for the 2021 State Homeland Security Program Subrecipient Agreement with County of Los Angeles for $72,000 from Flock ALPR cameras to Meridian vehicle barriers; and,
2. Authorize the Purchase of 3 vehicle barriers and deployment equipment from Meridian Rapid Defense Group based in Pasadena, CA for $72,000, including taxes and fees.

STRATEGIC FOCUS AREAS

Goal 4: Enhance and Modernize the Organization (EMO)

EXECUTIVE SUMMARY

The State Homeland Security Grant Program (SHSGP) was created to support the acquisition of specialized equipment aimed at improving event and incident management while enhancing Law Enforcement's capacity to disrupt, deter, respond to, and recover from terrorist activities. The City of Glendora was awarded funding in the amount of $72,000 through the SHSGP for the enhancement of public safety infrastructure.

Due to the National Priorities under Grant Year 2021, SHSGP approved the purchase of barriers (FEMA Authorized Equipment Listing #14SW-01-WALL; Barriers: Fences, Jersey Barriers).

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

The City of Glendora was awarded funding through the SHSGP for the enhancement of public safety infrastructure in the amount of $72,000. The initial project focused on law enforcement bollards. Costs for this project exceeded $300,000, far surpassing the grant award. To maximize the impact of the SHSGP funds, staff recommended utilizing the grant award for the expansion of the FLOCK camera system throughout the City which was approved by Council. On March 25, 2025, the City Council approved accepting the SHSGP funds for a two-year agreement to implement additional ALPR systems in the City of Glendora with FLOCK Safety Systems.

DISCUSSION

Due to delays in the approval and return of our Environmental and Historic Preservation (EHP) Screening Form by the federal government on the ALPR project, we were compelled to pivot from our original plan to avoid forfeiting the allocated funding. We are requesting to move forward with the purchase of a vehicle barrier system, originally referred to as the "bollard project." This adjustment not only ensures the continued use of available resources but also addresses the pressing, contemporary need for vehicle barriers to enhance public safety by protecting pedestrians and managing crowd flow during high-attendance community events, such as parades, street fairs, and holiday celebrations. Staff will seek approval for the FLOCK ALPR expansion on another SHSGP grant funding year.

The Homeland Security Grant guidelines allow for reallocation of funds to other eligible equipment categories within the scope of terrorism prevention and public safety. Staff has coordinated with the grant administrator to ensure compliance, and the proposed change has received conditional approval pending formal Council authorization for the change from ALPR cameras to the mobile vehicle barriers.

The increase in regional and national incidents involving the use of vehicles in crowded public spaces has heightened awareness of the need for preventive infrastructure. Mobile vehicle barriers offer a flexible and effective solution for securing event perimeters without compromising accessibility or event aesthetics. The Merdian barriers have been used by surrounding agencies during large events where vehicle access is restricted. The difference between mobile barriers and bollards is the ability to deploy at any intersection or driveway, where bollards are set into the concrete at predetermined locations. The mobile barriers will be used to supplement any future bollards and mobile barriers obtained.

Meridian barriers are proprietary safety equipment which is designed to be deployed by a single person in under 10 minutes. The barriers are transported to a location on the specially designed and easily moved or repositioned utilizing the Meridian provided hand hauler. The barriers are designed stop vehicles if they attempt to enter closed zones.

The vehicle barriers will:

- Strengthen the City's ability to secure public gathering spaces.
- Enhance pedestrian safety by preventing unauthorized vehicle access.
- Enables rapid street closures with controlled access.
- May be deployed citywide as they are mobile.

We are proposing acquiring one trailer, with 3 Meridian barriers. Per Glendora Municipal Code Section 2.40.090(c)(4), competitive procurement through the informal and formal procurement processes shall not be required when the procurement can only be obtained from a sole source and the designee is satisfied that the best price, terms and conditions have been negotiated. The cost for the acquisition, transport, and delivery of these barriers with the trailer falls within the $72,000 allocation. No additional matching funds are required from the City.

FISCAL IMPACT

This proposed agreement will be funded using the Homeland Security Grant in the amount of $72,000. Sufficient appropriations are available in the FY2024-25 Mid-Cycle Budget in Grant Fund 280.

ENVIRONMENTAL DETERMINATION

There is no CEQA impacts associated with the recommendations in this report.

State Homeland Security Program
Subrecipient Agreement
Grant Year 2021

Between the

County of Los Angeles

and the

City of Glendora

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

SUBRECIPIENT AGREEMENT
BETWEEN THE
COUNTY OF LOS ANGELES
AND THE
CITY OF GLENDORA

THIS AGREEMENT ("Agreement") is made and entered into by and between the County of Los Angeles, a political subdivision of the State of California (the “County of Los Angeles”), and the City of Glendora, a public agency (the “Subrecipient”).

W I T N E S S E T H

WHEREAS, the U.S. Department of Homeland Security Title 2 Code of Federal Regulations (CFR) through the Office of Grants and Training (G&T), has provided financial assistance for the State Homeland Security Program (SHSP), Assistance Listings Number (formerly Catalog of Federal Domestic Assistance Number) 97.067 – Homeland Security Grant Program directly to the California Governor’s Office of Emergency Services (Cal OES) for the 2021 SHSP, Federal Award Identification No. 037-00000 Federal Award dated October 27, 2021 with a performance period of September 1, 2021 to May 31, 2024. This Federal Award is not a R&D award; and

WHEREAS, the Cal OES provides said funds to the County of Los Angeles, Unique Entity ID (UEI) #MKQ9AQH7R2S5, as its Subgrantee, and the Chief Executive Office (CEO) is responsible for managing and overseeing the SHSP funds that are distributed to other specified jurisdictions within Los Angeles County; and

WHEREAS, this financial assistance is being provided to the Subrecipient in order to address the unique equipment, training, organization, exercise and planning needs of the Subrecipient, and to assist the Subrecipient in building effective prevention and protection capabilities to prevent, respond to, and recover from threats or acts of terrorism; and

WHEREAS, the County of Los Angeles as Subgrantee has obtained approval of the 2021 SHSP grant from Cal OES in the total amount of $10,192,647.00; and

WHEREAS, the CEO now wishes to distribute 2021 SHSP grant funds to the Subrecipient in the amount of $72,000.00, as further detailed in this Agreement; and

WHEREAS, the CEO is authorized to enter into subrecipient agreements with cities providing for re-allocation and use of these funds; and to execute all future amendments, modifications, extensions, and augmentations relative to the subrecipient agreements, as necessary; and

WHEREAS, the County of Los Angeles and Subrecipient are desirous of executing this Agreement, and the County of Los Angeles Board of Supervisors on July 12, 2022 authorized the CEO to prepare and execute this Agreement.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

NOW, THEREFORE, the County of Los Angeles and Subrecipient agree as follows:

SECTION I

INTRODUCTION

§101. Parties to this Agreement

The parties to this Agreement are:

A. County of Los Angeles, a political subdivision of the State of California, having its principal office at Kenneth Hahn Hall of Administration, 500 West Temple Street, Los Angeles, CA 90012; and

B. City of Glendora, a public agency, having its principal office at 116 E. Foothill Blvd., Glendora, CA 91741.

§102. Representatives of the Parties and Service of Notices

A. The representatives of the respective parties who are authorized to administer this Agreement and to whom formal notices, demands and communications must be given are as follows:

1. The representative of the County of Los Angeles is, unless otherwise stated in this Agreement:

Craig Hirakawa, HSGP Grants Director
Chief Executive Office, LAC
500 West Temple Street, Room 796
Los Angeles, CA 90012
Phone: (213) 974-1127
Fax: (213) 687-3765
CHirakawa@ceo.lacounty.gov

Jimmy Nguyen
Chief Executive Office, LAC
500 West Temple Street, Room 796
Los Angeles, CA 90012
Phone: (213) 262-7902
Fax: (213) 687-3765
JNguyen@ceo.lacounty.gov

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

2. The representative of Subrecipient is:

Name and Title:	Mike Randazzo, Chief of Police
Organizational UEI Number:	076191600
Address:	150 S. Glendora Ave.
City/State/Zip:	Glendora, CA 91741
Phone:	626.914.8250 ext. 262
FAX:	626.914.8211
Email:	mrandazzo@glendorapd.org

With a copy to*:*

Name and Title:	Marc Archibald, Support Services Supervisor
Address:	150 S. Glendora Ave.
City/State/Zip:	Glendora, CA 91741
Phone:	626.914.8265 ext. 265
FAX:	626.914.8211
Email:	marchibald@glendorapd.org

B. Formal notices, demands and communications to be given hereunder by either party must be made in writing and may be effected by personal delivery, regular U.S. Postal mail service and/or e-mail. In the event of personal delivery or email, the message will be deemed communicated upon receipt by the County of Los Angeles. In the event of mail service, the message will be deemed communicated as of the date of mailing.

C. If the name and/or title of the person designated to receive the notices, demands or communications or the address of such person is changed, written notice must be given, in accord with this section, within five (5) business days of said change.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

§103. Independent Party

Subrecipient is acting hereunder as an independent party, and not as an agent or employee of the County of Los Angeles. An employee of Subrecipient is not, and will not be deemed, an employee of the County of Los Angeles by virtue of this Agreement, and Subrecipient must so inform each employee organization and each employee who is hired or retained under this Agreement. Subrecipient must not represent or otherwise hold out itself or any of its directors, officers, partners, employees, or agents to be an agent or employee of the County of Los Angeles by virtue of this Agreement.

§104. Conditions Precedent to Execution of This Agreement

Subrecipient must provide the following signed documents to the County of Los Angeles, unless otherwise exempted:

A. Certification and Disclosure Regarding Lobbying, attached hereto as Exhibit A and made a part hereof, in accordance with §411.A.14 of this Agreement. Subrecipient must also file a Disclosure Form at the end of each calendar quarter in which there occurs any event requiring disclosure or which materially affects the accuracy of the information contained in any Disclosure Form previously filed by Subrecipient.

B. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions, attached hereto as Exhibit B and made a part hereof, as required by Executive Order 12549 in accordance with §411.A.12 of this Agreement.

C. Certification Regarding Drug-Free Workplace, attached hereto as Exhibit C and made a part hereof, in accordance with §411.A.13 of this Agreement.

D. Certification of Grant Assurances, attached hereto as Exhibit D and made a part hereof, in accordance with §411.C of this Agreement.

SECTION II

TERM AND SERVICES TO BE PROVIDED

§201. Performance Period

The performance period of this Agreement is from September 1, 2021 to February 29, 2024, unless the County of Los Angeles, with Cal OES approval, provides written notification to the Subrecipient that the performance period has been extended, in which case the performance period will be so extended by such written notification, as provided in §503, below.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

§202. Use of Grant Funds

A. Subrecipient and the County of Los Angeles have previously completed a mutually approved budget/expenditure plan, hereinafter "Budget," for the 2021 SHSP, which has been approved by Cal OES. This information is contained in a copy of the Final Grant Award Letter and Project Worksheet, attached hereto as Exhibit E.

Any request by Subrecipient to modify the Budget must be made in writing with the appropriate justification and submitted to CEO for approval. If during the County of Los Angeles review process, additional information or documentation is required, the Subrecipient will have ten (10) business days to comply with the request. If the Subrecipient does not comply with the request, CEO will issue written notification indicating that the requested modification will not be processed. Modifications must be approved in writing by the County of Los Angeles and Cal OES during the term of this Agreement. Upon approval, all other terms of this Agreement will remain in effect.

Subrecipient must utilize grant funds in accordance with all Federal regulations and State Guidelines.

B. Subrecipient agrees that grant funds awarded will be used to supplement existing funds for program activities, and will not supplant (replace) non-Federal funds.

C. Subrecipient must review the Federal Debarment Listing at https://www.sam.gov/SAM/pages/public/searchRecords/search.jsf prior to the purchase of equipment or services to ensure the intended vendor is not listed and also maintain documentation that the list was verified.

D. Prior to the purchase of equipment or services utilizing a sole source contract or the receipt of single bid response of $250,000.00 or more, justification must be presented to CEO, who upon review will request approval from Cal OES. Such approval in writing must be obtained prior to the commitment of funds.

E. Subrecipient must provide any certifications or reports requested by the County of Los Angeles to the CEO indicating Subrecipient's performance under this Agreement, including progress on meeting program goals. Reports must be in the form requested by the County of Los Angeles, and must be provided by the fifteenth (15th) of the following month. Subrecipient is required to complete any survey requests requested by the County of Los Angeles. Subrecipient must also submit completed Project Claims for reimbursement immediately or a minimum on a quarterly basis, and no later than the date stated in §201, above.

F. Subrecipient must provide an electronic copy of their Annual Single Audit Report, as required by Title 2 Code of Federal Regulations (C.F.R) Part 200, to the County of Los Angeles within 30 calendar days after receipt of the auditor's report(s). In the event the Subrecipient does not meet the Single Audit Threshold

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

expenditure amount in a fiscal year, the Subrecipient must provide the County of Los Angeles a copy of a letter sent to State Controller's Office noting the Single Audit Threshold was not met, and its exempt status within nine months after the end of the Subrecipient's fiscal year, unless otherwise approved by the County of Los Angeles.

G. Subrecipient may be monitored by the County of Los Angeles on an annual basis to ensure compliance with Cal OES grant program requirements. The County of Los Angeles anticipates that said monitoring may include, at a minimum, one on-site visit during the term of this Agreement. Monitoring will utilize a Review Instrument (sample attached hereto as Exhibit H, and subject to periodic revisions) to evaluate compliance.

H. Subrecipient must provide Corrective Action Plan(s) to CEO within thirty (30) days of any audit finding.

I. Subrecipient use of the Los Angeles Regional Interoperable Communication System's Motorola Solutions, Incorporated Land Mobile Radio System Contract to purchase equipment is unallowable unless the Subrecipient can clearly demonstrate to CEO it meets one of the four federal exceptions to necessitate a noncompetitive procurement before issuance of any contract, amendment, or purchase order.

J. Subrecipient shall not use grant funds to purchase, extend, or renew any Telecommunications and Video Surveillance services and equipment as substantial or essential component of any system, or as critical technology as part of any system which the Secretary of Defense, in consultation with Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an owned, controlled by, or connected to the People's Republic of China such as and not limited to Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities); or Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

K. Any equipment acquired pursuant to this Agreement must be authorized in the G&T Authorized Equipment List (AEL) available online at https://www.fema.gov/authorized-equipment-list and the Funding Guidelines of the 2021 SHSP Notice of Funding Opportunity, incorporated by reference, and attached hereto as Exhibit F. Subrecipient must provide the CEO a copy of its most current procurement guidelines and follow its own procurement requirements as long as they meet or exceed the minimum Federal requirements and any added Cal OES requirements. Federal procurement requirements for the 2021 SHSP can be found at Title 2 CFR Part 200.313.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Any equipment acquired or obtained with Grant Funds:

1. Will be made available under the California Disaster and Civil Defense Master Mutual Aid Agreement in consultation with representatives of the various fire, emergency medical, hazardous materials response services, and law enforcement agencies within the jurisdiction of the applicant;

2. Will be consistent with needs as identified in the State Homeland Security Strategy and will be deployed in conformance with that plan;

3. Will be made available pursuant to applicable terms of the California Disaster and Civil Defense Master Mutual Aid Agreement and deployed with personnel trained in the use of such equipment in a manner consistent with the California Law Enforcement Mutual Aid Plan or the California Fire Services and Rescue Mutual Aid Plan.

L. Equipment acquired pursuant to this Agreement will be subject to the requirements of Title 2 CFR Part 200.313. For the purposes of this subsection, "Equipment" is defined as tangible nonexpendable property, having a useful life of more than one year which costs $5,000.00 or more per unit. Items costing less than $5,000.00, but acquired under the "Equipment" category of the Grant must also be listed on any required Equipment Listing.

1. Equipment must be used by Subrecipient in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the Equipment may be used in other activities currently or previously supported by a Federal agency.

2. Subrecipient must make Equipment available for use on other like projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use must be given to other programs or projects supported by the awarding agency.

3. An Equipment Listing must be maintained listing each item of Equipment acquired with SHSP funds. The Equipment Listing must be kept up to date at all times. Any changes must be recorded in the Listing within ten (10) business days and the updated Listing is to be forwarded to the County of Los Angeles Auditor-Controller (A-C) Shared Services Division. The Equipment Property Records must be maintained that include: (a) a description of the property, (b) a serial number or other identification number, (c) the source of property, (d) who holds title, (e) the acquisition date, (f) and cost of the property, (g) percentage of Federal participation in the cost of the property, (h) the location, (i) use and condition of the

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

property, (j) and any ultimate disposition data including the date of disposal and sale price of the property. Records must be retained by the subrecipient pursuant to Title 2, Part 200.313 (d) (1) of the CFR.

4. All Equipment obtained under this Agreement must have an appropriate identification decal affixed to it, and, when practical, must be affixed where it is readily visible.

5. A physical inventory of the Equipment must be taken by the Subrecipient and the results reconciled with the Equipment Listing at least once every two years or prior to any site visit by State or Federal auditors or County of Los Angeles monitors. The Subrecipient is required to have on file a letter certifying as to the accuracy of the Equipment Listing in the frequency as above, and provide to the CEO when requested.

M. Any Planning paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F or subsequent grant year programs.

N. Any Organization activities paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F.

O. Any Training paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F, and must be first submitted to CEO and then pre-authorized by Cal OES. A catalog of federally approved and sponsored training courses is available at https://www.firstrespondertraining.gov/frts/.

P. Any Exercise paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F. Detailed Homeland Security Exercise and Evaluation Program Guidance is available at https://www.fema.gov/hseep.

Q. Any Personnel activities paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F.

R. Subrecipient must provide to CEO a spending plan detailing the required steps and timeframes required to complete the approved projects within the grant timeframe. Subrecipient must submit the spending plan to CEO prior to final execution of the Agreement.

S. Pursuant to this Agreement, indirect costs are not reimbursable.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

SECTION III

PAYMENT

§301. Payment of Grant Funds and Method of Payment

A. The County of Los Angeles will reimburse Subrecipient up to the maximum grant amount of $72,000.00 as expenditures are incurred and paid by Subrecipient and all documentation is reviewed and approved by County of Los Angeles. All expenditures must be for the purchase of equipment, exercises, training, organization, and planning as described in Section II of this Agreement. The grant amount represents the amount allocated to Subrecipient in the 2021 SHSP Grant Award Letter from Cal OES.

B. Subrecipient must submit reimbursement requests to the County of Los Angeles A-C Shared Services Division requesting payment as soon as a Project is completed and expenses are incurred and paid with the required supporting documentation; submission can be sent immediately or at a minimum on a quarterly basis, and no later than the date stated in §201, above. Each reimbursement request must be accompanied by the Reimbursement Form (sample attached hereto as Exhibit G, and subject to periodic revisions). All appropriate back-up documentation must be attached to the reimbursement form, including the method of procurement, bid documentation, purchase orders, invoices, report of goods received, and proof of payment.

   For Training reimbursements, Subrecipient must include a copy of the class roster verifying training attendees, proof that prior approval was obtained from Cal OES and that a Cal OES Feedback number has been assigned to the course, and timesheets and payroll registers for all training attendees.

   For Exercise reimbursements, Subrecipient must enter the After Action Report (AAR) and Improvement Plan on the State Office of Domestic Preparedness secure portal within sixty (60) days following completion of the exercise and submit proof of prior State approval of the AAR with the reimbursement request.

   For Planning reimbursements, Subrecipient must include a copy of the final tangible product.

C. The County of Los Angeles may, at its discretion, reallocate unexpended grant funds to another subrecipient. Said reallocation may occur upon approval by the County of Los Angeles of a Subrecipient reimbursement submission, inquiry from the County of Los Angeles to the Subrecipient regarding fund utilization, or by written notification from the Subrecipient to the County of Los Angeles that a portion of the grant funds identified in §301.A., above, will not be utilized. As provided in §503, below, any increase or decrease in the grant amount specified

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

in §301.A., above, may be effectuated by a written notification by the County of Los Angeles to the Subrecipient.

D. Payment of reimbursement request will be withheld by the County of Los Angeles until the County of Los Angeles has determined that Subrecipient has turned in all supporting documentation and completed the requirements of this Agreement.

E. It is understood that the County of Los Angeles makes no commitment to fund this Agreement beyond the terms set forth herein.

F. 1. Funding for all periods of this Agreement is subject to continuing Federal appropriation of grant funds for this program. In the event of a loss or reduction of Federal appropriation of grant funds for this program, the Agreement may be terminated, or appropriately amended, immediately upon notice to Subrecipient of such loss or reduction of Federal grant funds.

2. County of Los Angeles will make a good-faith effort to notify Subrecipient, in writing, of such non-appropriation at the earliest time.

SECTION IV

STANDARD PROVISIONS

§401. Construction of Provisions and Titles Herein

All titles or subtitles appearing herein have been inserted for convenience and do not, and will not be deemed to, affect the meaning or construction of any of the terms or provisions hereof. The language of this Agreement will be construed according to its fair meaning and not strictly for or against either party.

§402. Applicable Law, Interpretation and Enforcement

Each party's performance hereunder must comply with all applicable laws of the United States of America, the State of California, and the County of Los Angeles. This Agreement will be enforced and interpreted, as applicable, under the laws of the United States of America, the State of California and the County of Los Angeles.

If any part, term or provision of this Agreement is held void, illegal, unenforceable, or in conflict with any law of a Federal, State or Local Government having jurisdiction over this Agreement, the validity of the remainder of the Agreement will not be affected thereby.

Applicable Federal or State requirements that are more restrictive will be followed.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

§403. Integrated Agreement

This Agreement sets forth all of the rights and duties of the parties with respect to the subject matter hereof, and replaces any and all previous agreements or understandings, whether written or oral, relating thereto. This Agreement may be amended only as provided for herein.

§404. Breach

If any party fails to perform, in whole or in part, any promise, covenant, or agreement set forth herein, or should any representation made by it be untrue, any aggrieved party may avail itself of all rights and remedies, at law or equity, in the courts of law. Said rights and remedies are cumulative of those provided for herein except that in all events, no party may recover more than once, suffer a penalty or forfeiture, or be unjustly compensated.

§405. Prohibition Against Assignment or Delegation

Subrecipient may not do any of the following, unless it has first obtained the written permission of the County of Los Angeles:

A. Assign or otherwise alienate any of its rights hereunder, including the right to payment; or

B. Delegate, subcontract, or otherwise transfer any of its duties hereunder.

§406. Permits

Subrecipient and its officers, agents and employees must obtain and maintain all permits and licenses necessary for Subrecipient's performance hereunder and must pay any fees required therefor. Subrecipient further certifies that it will immediately notify the County of Los Angeles of any suspension, termination, lapse, non-renewal or restriction of licenses, certificates, or other documents.

§407. Nondiscrimination and Affirmative Action

Subrecipient must comply with the applicable nondiscrimination and affirmative action provisions of the laws of the United States of America, the State of California, and the County of Los Angeles. In performing this Agreement, Subrecipient must not discriminate in its employment practices against any employee or applicant for employment because of such person's race, religion, national origin, ancestry, sex, sexual orientation, age, physical handicap, mental disability, marital status, domestic partner status or medical condition. Subrecipient must comply with Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60).

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

If required, Subrecipient must submit an Equal Employment Opportunity Plan to the Department of Justice Office of Civil Rights in accordance with guidelines listed at https://www.justice.gov/crt.

Any subcontract entered into by the Subrecipient relating to this Agreement, to the extent allowed hereunder, will be subject to the provisions of this §407 of this Agreement.

§408. Indemnification

Each of the parties to this Agreement is a public entity. This indemnity provision is written in contemplation of the provisions of Section 895.2 of the Government Code of the State of California, which impose certain tort liability jointly upon public entities, solely by reason of such entities being parties to an agreement, and the parties agree that this indemnity provision will apply and will be enforceable regardless of whether Section 895 et seq. is deemed to apply to this Agreement. The parties hereto, as between themselves, consistent with the authorization contained in Government Code Sections 895.4 and 895.6 agree to each assume the full liability imposed upon it or upon any of its officers, agents, or employees by law, for injury caused by a negligent or wrongful act or omission occurring in the performance of this Agreement, to the same extent that such liability would be imposed in the absence of Government Code Section 895.2. To achieve the above-stated purpose, each party agrees to indemnify and hold harmless the other party for any liability arising out of its own negligent acts or omissions in the performance of this Agreement (i.e., the Subrecipient agrees to indemnify and hold harmless the County of Los Angeles for liability arising out of the Subrecipient's negligent or wrongful acts or omissions and the County of Los Angeles agrees to indemnify and hold harmless the Subrecipient for liability arising out of the County of Los Angeles' negligent or wrongful acts or omissions). Each party further agrees to indemnify and hold harmless the other party for liability that is imposed on the other party solely by virtue of Government Code Section 895.2. The provisions of Section 2778 of the California Civil Code are made a part hereof as if fully set forth herein. Subrecipient certifies that it has adequate self-insured retention of funds to meet any obligation arising from this Agreement.

§409. Conflict of Interest

A. The Subrecipient covenants that none of its directors, officers, employees, or agents may participate in selecting, or administrating, any subcontract supported (in whole or in part) by Federal funds where such person is a director, officer, employee or agent of the subcontractor; or where the selection of subcontractors is or has the appearance of being motivated by a desire for personal gain for themselves or others such as family business, etc.; or where such person knows or should have known that:

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

1. A member of such person's immediate family, or domestic partner or organization has a financial interest in the subcontract;

2. The subcontractor is someone with whom such person has or is negotiating any prospective employment; or

3. The participation of such person would be prohibited by the California Political Reform Act, California Government Code §87100 et seq. if such person were a public officer, because such person would have a "financial or other interest" in the subcontract.

B. Definitions:

1. The term "immediate family" means domestic partner and/or those persons related by blood or marriage, such as husband, wife, father, mother, brother, sister, son, daughter, father in law, mother in law, brother in law, sister in law, son in law, daughter in law.

2. The term "financial or other interest" means:

a. Any direct or indirect financial interest in the specific contract, including but not limited to, a commission or fee, a share of the proceeds, prospect of a promotion or of future employment, a profit, or any other form of financial reward.

b. Any of the following interests in the subcontractor ownership: partnership interest or other beneficial interest of five percent or more; ownership of five percent or more of the stock; employment in a managerial capacity; or membership on the board of directors or governing body.

C. The Subrecipient further covenants that no officer, director, employee, or agent may solicit or accept gratuities, favors, or anything of monetary value from any actual or potential subcontractor, supplier, a party to a sub agreement, (or persons who are otherwise in a position to benefit from the actions of any officer, employee, or agent).

D. The Subrecipient may not subcontract with a former director, officer, or employee within a one-year period following the termination of the relationship between said person and the Subrecipient.

E. Prior to obtaining the County of Los Angeles' approval of any subcontract, the Subrecipient must disclose to the County of Los Angeles any relationship, financial or otherwise, direct or indirect, of the Subrecipient or any of its officers, directors or employees or their immediate family with the proposed subcontractor and its officers, directors or employees.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

F. For further clarification of the meaning of any of the terms used herein, the parties agree that references are made to the guidelines, rules, and laws of the County of Los Angeles, State of California, and Federal regulations regarding conflict of interest.

G. The Subrecipient warrants that it has not paid or given and will not pay or give to any third person any money or other consideration for obtaining this Agreement.

H. The Subrecipient covenants that no member, officer or employee of Subrecipient may have interest, direct or indirect, in any contract or subcontract or the proceeds thereof for work to be performed in connection with this project during his/her tenure as such employee, member or officer or for one year thereafter.

I. The Subrecipient must incorporate the foregoing subsections of this Section into every agreement that it enters into in connection with this grant and must substitute the term "subcontractor" for the term "Subrecipient" and "sub subcontractor" for "Subcontractor".

§410. Restriction on Disclosures

Any reports, analyses, studies, drawings, information, or data generated as a result of this Agreement are to be governed by the California Public Records Act (California Government Code Sec. 6250 et seq.).

§411. Statutes and Regulations Applicable To All Grant Contracts

A. Subrecipient must comply with all applicable requirements of State, Federal, and County of Los Angeles laws, executive orders, regulations, program and administrative requirements, policies and any other requirements governing this Agreement. Subrecipient must comply with applicable State and Federal laws and regulations pertaining to labor, wages, hours, and other conditions of employment. Subrecipient must comply with new, amended, or revised laws, regulations, and/or procedures that apply to the performance of this Agreement. These requirements include, but are not limited to:

1. CFR

Subrecipient must comply with Title 2 CFR Part 200.

2. Single Audit Act

Since Federal funds are used in the performance of this Agreement, Subrecipient must, as applicable, adhere to the rules and regulations of the Single Audit Act (31 USC Sec. 7501 et seq.), 2 CFR Part 200 and any administrative regulation or field memos implementing the Act.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

3. Americans with Disabilities Act

Subrecipient hereby certifies that, as applicable, it will comply with the Americans with Disabilities Act 42, USC §§12101 et seq., and its implementing regulations. Subrecipient will provide reasonable accommodations to allow qualified individuals with disabilities to have access to and to participate in its programs, services and activities in accordance with the provisions of the Americans with Disabilities Act. Subrecipient will not discriminate against persons with disabilities nor against persons due to their relationship to or association with a person with a disability. Any subcontract entered into by Subrecipient, relating to this Agreement, to the extent allowed hereunder, will be subject to the provisions of this paragraph.

4. Political and Sectarian Activity Prohibited

None of the funds, materials, property or services provided directly or indirectly under this Agreement may be used for any partisan political activity, or to further the election or defeat of any candidate for public office. Neither may any funds provided under this Agreement be used for any purpose designed to support or defeat any pending legislation or administrative regulation. None of the funds provided pursuant to this Agreement may be used for any sectarian purpose or to support or benefit any sectarian activity.

Subrecipient must file a Disclosure Form at the end of each calendar quarter in which there occurs any event requiring disclosure or which materially affects the accuracy of any of the information contained in any Disclosure Form previously filed by Subrecipient. Subrecipient must require that the language of this Certification be included in the award documents for all sub-awards at all tiers and that all subcontractors certify and disclose accordingly.

5. Records Inspection

At any time during normal business hours and as often as either the County of Los Angeles, the U.S. Comptroller General or the Auditor General of the State of California may deem necessary, Subrecipient must make available for examination all of its records with respect to all matters covered by this Agreement. The County of Los Angeles, the U.S. Comptroller General and the Auditor General of the State of California have the authority to audit, examine and make excerpts or transcripts from records, including all Subrecipient's method of procurement, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Subrecipient agrees to provide any reports requested by the County of Los Angeles regarding performance of this Agreement.

6. Records Maintenance

Records, in their original form, must be maintained in accordance with requirements prescribed by the County of Los Angeles with respect to all matters specified in this Agreement. Original forms are to be maintained on file for all documents specified in this Agreement. Such records must be retained for a period five (5) years after termination of this Agreement and after final disposition of all pending matters. "Pending matters" include, but are not limited to, an audit, litigation or other actions involving records. The County of Los Angeles may, at its discretion, take possession of, retain and audit said records. Records, in their original form pertaining to matters covered by this Agreement, must at all times be retained within the County of Los Angeles unless authorization to remove them is granted in writing by the County of Los Angeles.

7. Subcontracts and Procurement

Subrecipient must, as applicable, comply with the Federal, State and County of Los Angeles standards in the award of any subcontracts. For purposes of this Agreement, subcontracts include but are not limited to purchase agreements, rental or lease agreements, third party agreements, consultant service contracts and construction subcontracts.

Subrecipient must, as applicable, ensure that the terms of this Agreement with the County of Los Angeles are incorporated into all Subcontractor agreements. The Subrecipient must submit all Subcontractor agreements to the County of Los Angeles for review prior to the release of any funds to the Subcontractor. The Subrecipient must withhold funds to any Subcontractor agency that fails to comply with the terms and conditions of this Agreement and their respective Subcontractor agreement.

8. Labor

Subrecipient must, as applicable, comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed requirements for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System Personnel Administration (5 CFR 900, Subpart F).

Subrecipient must, as applicable, comply with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7); the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874); the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements; and the Hatch Act (5 USC §§1501-1508 and 7324-7328).

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Subrecipient must, as applicable, comply with the Federal Fair Labor Standards Act (29 U.S.C. §201) regarding wages and hours of employment.

None of the funds may be used to promote or deter union/labor organizing activities. CA Gov't Code Sec. 16645 et seq.

9. Civil Rights

Subrecipient must, as applicable, comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352), which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681- 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of disabilities; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to non-discrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; (j) the requirements of any other nondiscrimination statute(s) that may apply to the application; and (k) P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

10. Environmental

Subrecipient must, as applicable, comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646), which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

Subrecipient must, as applicable, comply with environmental standards which may be prescribed pursuant to the following: (a) institution of

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93205); and (i) Flood Disaster Protection Act of 1973 §102(a) (P.L. 93-234).

Subrecipient must, as applicable, comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

Subrecipient must, as applicable, comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.), which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

Subrecipient must, as applicable, comply with the Federal Water Pollution Control Act (33 U.S.C. §1251 et seq.), which restores and maintains the chemical, physical and biological integrity of the Nation’s waters.

Subrecipient must, as applicable, ensure that the facilities under its ownership, lease or supervision that are utilized in the accomplishment of this project are not listed in the Environmental Protection Agency’s (EPA) list of Violating Facilities and that it will notify the Federal Grantor agency of the receipt of any communication from the Director of the EPA Office of Federal Activities indicating that a facility to be used in the project is under consideration for listing by the EPA.

By signing this Agreement, Subrecipient warrants and represents that it will, as applicable, comply with the California Environmental Quality Act (CEQA), Public Resources Code §21000 et seq.

Subrecipient must, as applicable, comply with the Energy Policy and Conservation Act (P.L. 94-163, 89 Stat. 871).

Subrecipient must, as applicable, comply with the provision of the Coastal Barrier Resources Act (P.L. 97-348) dated October 19, 1982 (16 U.S.C. 3501 et. seq.) which prohibits the expenditure of most new Federal funds within the units of the Coastal Barrier Resources System.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

11. Preservation

Subrecipient must, as applicable, comply with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).

12. Suspension, Debarment, Ineligibility and Voluntary Exclusion

Subrecipient must, as applicable, comply with Title 2 CFR Part §3000, regarding Suspension and Debarment, and Subrecipient must submit a Certification Regarding Debarment, attached hereto as Exhibit B, required by Executive Order 12549 and any amendment thereto. Said Certification must be submitted to the County of Los Angeles concurrent with the execution of this Agreement and must certify that neither Subrecipient nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any Federal department head or agency. Subrecipient must require that the language of this Certification be included in the award documents for all sub-award at all tiers and that all subcontractors certify accordingly.

13. Drug-Free Workplace

Subrecipient must, as applicable, comply with the federal Drug-Free Workplace Act of 1988, 41 USC §701, Title 44 Code of Federal Regulations (CFR) Part §17; the California Drug-Free Workplace Act of 1990, CA Gov't Code §§8350-8357, and Subrecipient must complete the Certification Regarding Drug-Free Workplace Requirements, attached hereto as Exhibit C, and incorporated herein by reference. Subrecipient must require that the language of this Certification be included in the award documents for all sub-award at all tiers and that all subcontractors certify accordingly.

14. Lobbying Activities

Subrecipient must, as applicable, comply with 31 U.S.C.1352 and complete the Disclosure of Lobbying Activities, (OMB 0038-0046), attached hereto as Exhibit A, and incorporated herein by reference.

15. Miscellaneous

Subrecipient must, as applicable, comply with the Laboratory Animal Welfare Act of 1966, as amended (P.L. 89-544, 7 USC §§2131 et seq.).

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

B. Statutes and Regulations Applicable To This Particular Grant Agreement

Subrecipient must comply with all applicable requirements of State and Federal laws, executive orders, regulations, program and administrative requirements, policies and any other requirements governing this particular grant program. Subrecipient must, as applicable, comply with new, amended, or revised laws, regulations, and/or procedures that apply to the performance of this Agreement. These requirements include, but are not limited to:

Title 2 CFR Part 200; EO 12372; U.S. Department of Homeland Security, Office of State and Local Government Coordination and Preparedness, Office for Domestic Preparedness, ODP WMD Training Course Catalogue; and DOJ Office for Civil Rights.

Standardized Emergency Management System (SEMS) requirements as stated in the California Emergency Services Act, Government Code Chapter 7 of Division 1 of Title 2, §8607.1(e) and CCR Title 19, §§2445-2448.

Provisions of Title 2, 6, 28, 44 CFR applicable to grants and cooperative agreements, including Part 18, Administrative Review Procedures; Part 20, Criminal Justice Information Systems; Part 22, Confidentiality of Identifiable Research and Statistical Information; Part 23, Criminal Intelligence Systems Operating Policies; Part 30, Intergovernmental Review of Department of Justice Programs and Activities; Part 35, Nondiscrimination on the Basis of Disability in State and Local Government Services; Part 38, Equal Treatment of Faith-based Organizations; Part 42, Nondiscrimination/Equal Employment Opportunities Policies and Procedures; Part 61, Procedures for Implementing the National Environmental Policy Act; Part 63, Floodplain Management and Wetland Protection Procedures; Part 64, Floodplain Management and Wetland Protection Procedures; Federal laws or regulations applicable to Federal Assistance Programs; Part 69, New Restrictions on Lobbying; Part 70, Uniform Administrative Requirements for Grants and Cooperative Agreements (including sub-awards) with Institutions of Higher Learning, Hospitals and other Non-Profit Organizations; and Part 83, Government-Wide Requirements for a Drug Free Workplace (grants).

Nondiscrimination requirements of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 USC 3789(d), or the Juvenile Justice and Delinquency Prevention Act, or the Victims of Crime Act, as appropriate; the provisions of the current edition of the Office of Justice Programs Financial and Administrative Guide for Grants, M7100.1, and all other applicable Federal laws, orders, circulars, or regulations.

1. Travel Expenses

Subrecipient, as provided herein, will be compensated for Subrecipient's reasonable travel expenses incurred in the performance of this

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Agreement, to include travel and per diem, unless otherwise expressed. Subrecipient's total travel for in-State and/or out-of-State and per diem costs must be included in the contract budget(s). All travel, including out-of-State travel, that is not included in the budget(s) will not be reimbursed without prior written authorization from the County of Los Angeles.

Subrecipient's administrative-related travel and per diem reimbursement costs will not be reimbursed. For programmatic-related travel costs, Subrecipient's reimbursement rates may not exceed the amounts established under the grant.

C. Compliance With Grant Requirements

To obtain the grant funds, the State required an authorized representative of the County of Los Angeles to sign certain promises regarding the way the grant funds would be spent. These requirements are included in Exhibit F and in the State's "Grant Assurances". By signing these Grant Assurances and accepting Exhibit F, the County of Los Angeles became liable to the State for any funds that are used in violation of the grant requirements. The State's Grant Assurances are incorporated into this Agreement through Exhibit D. Subrecipient will be liable to the Grantor for any funds the State determines the Subrecipient used in violation of these Grant Assurances.

Pursuant to this Agreement, Subrecipient shall execute the 2021 Certification of Grant Assurances in Exhibit D, accepting and agreeing to abide by all provisions, assurances, and requirements therein. Subrecipient agrees to indemnify and hold harmless the County of Los Angeles for any sums the State or Federal government determines Subrecipient used in violation of the Grant Assurances.

To the extent Exhibit D conflicts with language or provisions contained in this Agreement, or contains more restrictive requirements under Federal and State law, Exhibit D shall control.

D. Noncompliance With Grant Requirements

Subrecipient understands that failure to comply with any of the above assurances and requirements, including Exhibit D, may result in suspension, termination or reduction of grant funds, and repayment by the Subrecipient to the County of Los Angeles of any unauthorized expenditures.

§412. Federal, State and Local Taxes

Federal, State and local taxes are the responsibility of the Subrecipient as an independent party and not of the County of Los Angeles and must be paid prior to requesting reimbursement. However, these taxes are an allowable expense under the grant program.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

§413. Inventions, Patents and Copyrights

A. Reporting Procedure for Inventions

If any project produces any invention or discovery ("Invention") patentable or otherwise under Title 35 of the U.S. Code, including, without limitation, processes and business methods made in the course of work under this Agreement, the Subrecipient must report the fact and disclose the Invention promptly and fully to the County of Los Angeles. The County of Los Angeles will report the fact and disclose the Invention to the State. Unless there is a prior agreement between the County of Los Angeles and the State, the State will determine whether to seek protection on the Invention. The State will determine how the rights in the Invention, including rights under any patent issued thereon, will be allocated and administered in order to protect the public interest consistent with the policy ("Policy") embodied in the Federal Acquisition Regulations System, which is based on Ch. 18 of Title 35 U.S.C. Sections 200 et seq. (Pub. L. 95-517, Pub. L. 98-620, Title 37 CFR Part 401); Presidential Memorandum on Government Patent Policy to the Heads of the Executive Departments and Agencies, dated 2/18/1983); and Executive Order 12591, 4/10/87, 52 FR 13414, Title 3 CFR, 1987 Comp., p. 220 (as amended by Executive Order 12618, 12/22/87, 52 FR 48661, Title 3 CFR, 1987 Comp., p. 262). Subrecipient hereby agrees to be bound by the Policy, and will contractually require its personnel to be bound by the Policy.

B. Rights to Use Inventions

As applicable, County of Los Angeles will have an unencumbered right, and a non-exclusive, irrevocable, royalty-free license to use, manufacture, improve upon, and allow others to do so for all government purposes, any Invention developed under this Agreement.

C. Copyright Policy

1. Unless otherwise provided by the State or the terms of this Agreement, when copyrightable material ("Material") is developed under this Agreement, the County of Los Angeles, at its discretion, may copyright the Material. If the County of Los Angeles declines to copyright the Material, the County of Los Angeles will have an unencumbered right, and a non-exclusive, irrevocable, royalty-free license, to use, manufacture, improve upon, and allow others to do so for all government purposes, any Material developed under this Agreement.

2. The State will have an unencumbered right, and a non-exclusive, irrevocable, royalty-free license, to use, manufacture, improve upon, and allow others to do so for all government purposes, any Material developed under this Agreement or any Copyright purchased under this Agreement.

3. Subrecipient must comply with Title 24 CFR 85.34.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

D. Rights to Data

The State and the County of Los Angeles will have unlimited rights or copyright license to any data first produced or delivered under this Agreement. "Unlimited rights" means the right to use, disclose, reproduce, prepare derivative works, *distribute* copies to the public, and perform and display publicly, or permit others to do so; as required by Title 48 CFR 27.401. Where the data are not first produced under this Agreement or are published copyrighted data with the notice of 17 U.S.C. Section 401 or 402, the State acquires the data under a copyright license as set forth in Title 48 CFR 27.404(f)(2) instead of unlimited rights. (Title 48 CFR 27.404(a)).

E. Obligations Binding on Subcontractors

Subrecipient must require all subcontractors to comply with the obligations of this section by incorporating the terms of this section into all subcontracts.

§414. Child Support Assignment Orders

Under the terms of this Agreement, Subrecipient must, as applicable, comply with California Family Code Section 5230 et seq.

§415. Minority, Women, And Other Business Enterprise Outreach Program

It is the policy of the County of Los Angeles to provide Minority Business Enterprises, Women Business Enterprises and all other business enterprises an equal opportunity to participate in the performance of all Subrecipient's contracts, including procurement, construction and personal services. This policy applies to all of the Subrecipient's contractors and sub-contractors.

§416. Compliance with Fair Chance Employment Practices

Subrecipient shall comply with fair chance employment hiring practices set forth in California Government Code Section 12952, Employment Discrimination: Conviction History. Subrecipient's violation of this paragraph of the Agreement may constitute a material breach of the Agreement. In the event of such material breach, County of Los Angeles may, in its sole discretion, terminate the Agreement.

§417. Method of Payment and Required Information

The County of Los Angeles may, at its sole discretion, determine the most appropriate, efficient, secure, and timely form of payment provided under this Agreement. Subrecipient further agrees that the default form of payment shall be Electronic Funds Transfer (EFT) or Direct Deposit, unless an alternative method of payment is deemed appropriate by the A-C.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Subrecipient shall provide the A-C with electronic banking and related information for the Subrecipient and/or any other payee that the Subrecipient designates to receive payment pursuant to this Agreement at https://directdeposit.lacounty.gov/. Such electronic banking and related information includes, but is not limited to: bank account number and routing number, legal business name, valid taxpayer identification number or TIN, a working e-mail address capable of receiving remittance advices and other payment related correspondence, and any other information that the A-C determines is reasonably necessary to process the payment and comply with all accounting, record keeping, and tax reporting requirements.

Any provision of law, grant, or funding agreement requiring a specific form or method of payment other than EFT or Direct Deposit shall supersede this requirement with respect to those payments. At any time during the duration of this Agreement, the Subrecipient may submit a written request for an exemption to this requirement and must be based on specific legal, business or operational needs and explain why the payment method designated by the A-C is not feasible and an alternative is necessary. The A-C, in consultation with CEO, shall decide whether to approve exemption requests.

SECTION V

DEFAULTS, SUSPENSION, TERMINATION, AND AMENDMENTS

§501. Defaults

Should either party fail for any reason to comply with the contractual obligations of this Agreement within the time specified by this Agreement, the non-breaching party reserves the right to terminate the Agreement, reserving all rights under State and Federal law.

§502. Termination

This Agreement may be terminated, in whole or in part, from time to time, when such action is deemed by the County of Los Angeles, in its sole discretion, to be in its best interest. Termination of work hereunder shall be effected by notice of termination to the Subrecipient specifying the extent to which performance of work is terminated and the date upon which such termination becomes effective. The date upon which such termination becomes effective shall be no less than ten (10) days after the notice is sent.

§503. Amendments

Except as otherwise provided in this paragraph, any change in the terms of this Agreement, including changes in the services to be performed by Subrecipient,

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

that are agreed to by the Subrecipient and the County of Los Angeles must be incorporated into this Agreement by a written amendment properly signed by persons who are authorized to bind the parties. Notwithstanding the foregoing, any increase or decrease of the grant amount specified in §301.A., above, or any extension of the performance period specified in §201, above, does not require a written amendment, but may be effectuated by a written notification by the County of Los Angeles to the Subrecipient.

SECTION VI

ENTIRE AGREEMENT

§601. Complete Agreement

This Agreement contains the full and complete Agreement between the two parties. Neither verbal agreement nor conversation or other communication with any officer or employee of either party will affect or modify any of the terms and conditions of this Agreement.

§602. Number of Pages and Attachments

This Agreement may be executed utilizing wet, scanned digital, and electronic signatures, each of which is deemed to be an original. This Agreement includes (26) pages and (8) Exhibits which constitute the entire understanding and agreement of the parties.

[Remainder of this page intentionally left blank]

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

IN WITNESS WHEREOF, the Subrecipient and County of Los Angeles have caused this Agreement to be executed by their duly authorized representatives.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether sub-awardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to *Title 31 U.S.C. Section 1352*. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or sub-award recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks “Subawardee,” then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; sub-grant announcement number; the contract, subgrant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g.,”RFP-DE-90-001.”

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

10. (a.) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.
    (b.) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).

11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.

12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.

13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.

14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.

16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, D.C. 20503.

CERTIFICATION REGARDING
DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION
LOWER TIER COVERED TRANSACTIONS

This certification is required by the regulations Implementing Executive Order 12549, Debarment and Suspension, 24 CFR Part 24 Section 24.510, Participants' responsibilities.

(READ ATTACHED INSTRUCTIONS FOR CERTIFICATION BEFORE COMPLETING)

1. The prospective recipient of Federal assistance funds certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective recipient of Federal assistance funds is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this document, the prospective recipient of Federal assistance is providing the certification as set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this agreement is entered, if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous, when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," " primary covered transaction," 'principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.

5. The prospective recipient of Federal assistance funds agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation on this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective recipient of Federal assistance funds further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Procurement or Non Procurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under Paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded form participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

STATE OF CALIFORNIA

DRUG-FREE WORKPLACE CERTIFICATION

STD. 21

COMPANY/ORGANIZATION NAME: City of Glendora

The contractor or grant recipient named above hereby certifies compliance with *Government Code Section 8355* in matters relating to providing a drug-free workplace. The above-named contractor or recipient will:

1. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by *Government Code Section 8355(a)*.

2. Establish a Drug-Free Awareness Program as required by *Government Code Section 8355(b)*, to inform employees about all of the following:

   (a) The dangers of drug abuse in the workplace,

   (b) The person's or organization's policy of maintaining a drug-free workplace,

   (c) Any available counseling, rehabilitation and employee assistance programs, and

   (d) Penalties that may be imposed upon employees for drug abuse violations.

3. Provide as required by *Government Code Section 8355(c)*, that every employee who works on the proposed contract or subgrant:

   (a) Will receive a copy of the company's drug-free policy statement, and

   (b) Will agree to abide by the terms of the company's statement as a condition of employment on the contract or subgrant.

CERTIFICATION

I, the official named below, hereby swear that I am duly authorized legally to bind the contractor or Recipient to the above described certification. I am fully aware that this certification, executed on the date and in the county below, is made under penalty of perjury under the laws of the State of California.

FEDERAL I.D. NUMBER

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

STATEMENT ON THE DRUG-FREE WORKPLACE

To comply with the enactment of Senate Bill 1120, *(Chapter 1170, Statutes of 1990),* which established the Drug-Free Workplace Act of 1990, the City of Glendora *(your agency)* accordingly provides this statement of compliance.

In order to maintain funding eligibility, state agencies, along with those in receipt of grant and contractual awards, must certify that they provide drug-free workplaces and have issued drug-free workplace statements to their employees *[Section 8355(a) of the Government Code]*. Consequently, in accordance with this directive, this statement is issued to meet this requirement.

The City of Glendora (*your agency*), an agency within the State of California has adopted this statement in compliance with legislation which addresses issues to avoid the dangers arising from drug and alcohol abuse in the workplace. These dangers include death and injury to the employee, co-workers, or the public resulting from accidents, dereliction of duty, poor judgment and carelessness. Substance abuse also results in lost productivity, reduced efficiency, and increased absenteeism by the substance abuser and interferes with the job performance of employees who do not use illegal or unauthorized substances. *[Section 8355(b)(1)]*

California law prohibits the unlawful manufacture, dispensation, possession, or illegal use of a controlled substance. That prohibition extends to all places and includes the worksite of California state employees. *[Section 8355(a)]*

Employees convicted of a violation of criminal drug statute, when the violation occurred at an employee's worksite, shall report the conviction to the granting and monitoring State agency upon conviction. *[Section 8356(a)(1)(2)]*

In the event of the unlawful manufacture, distribution, dispensation, possession or illegal use of a controlled substance at a State worksite, the State may take disciplinary action pursuant to the law and/or require the satisfactory completion of a drug abuse assistance or rehabilitation program. *[Section 8355(b)(4)]*

The Employee Assistance Program (EAP) provides drug problem assessment and referral to appropriate counseling and rehabilitation services. The EAP is available to all agency employees. Procedures exist to ensure the confidentiality of EAP records. Contact your personnel office for further information.

It is the intent of the City of Glendora (*your agency)* to ensure by execution of this statement of compliance that each employee shall abide by the terms of this drug-free workplace statement. *[Section 8355(c)]*

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

As the duly authorized representative of the Applicant, I hereby certify that the Applicant has the legal authority to apply for federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay any non-federal share of project cost) to ensure proper planning, management, and completion of the project described in this application, within prescribed timelines.

I further acknowledge that the Applicant is responsible for reviewing and adhering to all requirements within the:

(a) Applicable Federal Regulations (see below);
(b) Federal Program Notice of Funding Opportunity (NOFO);
(c) Federal Preparedness Grants Manual;
(d) California Supplement to the NOFO; and
(e) Federal and State Grant Program Guidelines.

Federal Regulations
Government cost principles, uniform administrative requirements, and audit requirements for federal grant programs are set forth in Title 2, Part 200 of the Code of Federal Regulations (C.F.R.). Updates are issued by the Office of Management and Budget (OMB) and can be found at http://www.whitehouse.gov/omb/.

State and federal grant award requirements are set forth below. The Applicant hereby agrees to comply with the following:

1. **Proof of Authority**
   The Applicant will obtain proof of authority from the city council, governing board, or authorized body in support of this project. This written authorization must specify that the Applicant and the city council, governing board, or authorized body agree:

   (a) To provide all matching funds required for the grant project and that any cash match will be appropriated as required;
   (b) Any liability arising out of the performance of this agreement shall be the responsibility of the Applicant and the city council, governing board, or authorized body;
   (c) Grant funds shall not be used to supplant expenditures controlled by the city council, governing board, or authorized body;

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

(d) Applicant is authorized by the city council, governing board, or authorized body to apply for federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-federal share of project cost, if any) to ensure proper planning, management and completion of the project described in this application; and
(e) Official executing this agreement is authorized by the Applicant.

This Proof of Authority must be maintained on file and readily available upon request.

2. Period of Performance

The period of performance is specified in the Award. The Applicant is only authorized to perform allowable activities approved under the award, within the period of performance.

3. Lobbying and Political Activities

As required by Section 1352, Title 31 of the United States Code (U.S.C.), for persons entering into a contract, grant, loan, or cooperative agreement from an agency or requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan, the Applicant certifies that:

(a) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.
(b) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.
(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accord

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

The Applicant will also comply with provisions of the Hatch Act (5 U.S.C. §§ 1501- 1508 and §§ 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with federal funds.

Finally, the Applicant agrees that federal funds will not be used, directly or indirectly, to support the enactment, repeal, modification or adoption of any law, regulation or policy without the express written approval from the California Governor's Office of Emergency Services (Cal OES) or the federal awarding agency.

4. Debarment and Suspension

As required by Executive Orders 12549 and 12689, and 2 C.F.R. § 200.213 and codified in 2 C.F.R. Part 180, Debarment and Suspension, the Applicant will provide protection against waste, fraud, and abuse by debarring or suspending those persons deemed irresponsible in their dealings with the federal government. The Applicant certifies that it and its principals, recipients, or subrecipients:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state, or local) with commission of any of the offenses enumerated in paragraph (2)(b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transaction (federal, state, or local) terminated for cause or default.

Where the Applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

5. Non-Discrimination and Equal Employment Opportunity

The Applicant will comply with all state and federal statutes relating to non-discrimination, including:

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

(a) Title VI of the Civil Rights Act of 1964 (Public Law (P.L.) 88-352 and 42 U.S.C. § 2000d et. seq.) which prohibits discrimination on the basis of race, color, or national origin and requires that recipients of federal financial assistance take reasonable steps to provide meaningful access to persons with limited English proficiency (LEP) to their programs and services;
(b) Title IX of the Education Amendments of 1972, (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex in any federally funded educational program or activity;
(c) Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794), which prohibits discrimination against those with disabilities or access and functional needs;
(d) Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. §§ 12101- 12213), which prohibits discrimination on the basis of disability and requires buildings and structures be accessible to those with disabilities and access and functional needs;
(e) Age Discrimination Act of 1975, (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age;
(f) Public Health Service Act of 1912 (42 U.S.C. §§ 290 dd—2), relating to confidentiality of patient records regarding substance abuse treatment;
(g) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), relating to nondiscrimination in the sale, rental or financing of housing as implemented by the Department of Housing and Urban Development at 24 C.F.R. Part100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units—i.e., the public and common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)— be designed and constructed with certain accessible features (See 24 C.F.R. § 100.201);
(h) Executive Order 11246, which prohibits federal contractors and federally assisted construction contractors and subcontractors, who do over $10,000 in Government business in one year from discriminating in employment decisions on the basis of race, color, religion, sex, sexual orientation, gender identification or national origin;
(i) Executive Order 11375, which bans discrimination on the basis of race, color, religion, sex, sexual orientation, gender identification, or national origin in hiring and employment in both the United States federal workforce and on the part of government contractors;
(j) California Public Contract Code § 10295.3, which prohibits discrimination based on domestic partnerships and those in same sex marriages;

(k) DHS policy to ensure the equal treatment of faith-based organizations, under which all applicants and recipients must comply with equal treatment policies and requirements contained in 6 C.F.R. Part 19;

(l) The Applicant will comply with California's Fair Employment and Housing Act (FEHA) (California Government Code §§12940, 12945, 12945.2), as applicable. FEHA prohibits harassment and discrimination in employment because of ancestry, familial status, race, color, religious creed (including religious dress and grooming practices), sex (which includes pregnancy, childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, mental and physical disability, genetic information, medical condition, age, pregnancy, denial of medical and family care leave, or pregnancy disability leave, military and veteran status, and/or retaliation for protesting illegal discrimination related to one of these categories, or for reporting patient abuse in tax supported institutions;

(m) Any other nondiscrimination provisions in the specific statute(s) under which application for federal assistance is being made; and

(n) The requirements of any other nondiscrimination statute(s) that may apply to this application.

6. Drug-Free Workplace

As required by the Drug-Free Workplace Act of 1988 (41 U.S.C. § 701 et seq.), the Applicant certifies that it will maintain a drug-free workplace and a drug-free awareness program as outlined in the Act.

7. Environmental Standards

The Applicant will comply with state and federal environmental standards, including:

(a) California Environmental Quality Act (CEQA) (California Public Resources Code §§ 21000- 21177), to include coordination with the city or county planning agency;

(b) CEQA Guidelines (California Code of Regulations, Title 14, Division 6, Chapter 3, §§ 15000- 15387);

(c) Federal Clean Water Act (CWA) (33 U.S.C. § 1251 et seq.), which establishes the basic structure for regulating discharges of pollutants into the waters of the United States and regulating quality standards for surface waters;

(d) Federal Clean Air Act of 1955 (42 U.S.C. § 7401) which regulates air emissions from stationary and mobile sources;

For Cal OES Federal Non-Disaster Grant Programs

8. **Audits**
   For subrecipients expending $750,000 or more in federal grant funds annually, the Applicant will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and Title 2 of the Code of Federal Regulations, Part 200, Subpart F Audit Requirements.

9. **Access to Records**
   In accordance with 2 C.F.R. § 200.336, the Applicant will give the awarding agency, the Comptroller General of the United States and, if appropriate, the state, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award. The Applicant will require any subrecipients, contractors, successors, transferees and assignees to acknowledge and agree to comply with this provision.

10. **Conflict of Interest**
    The Applicant will establish safeguards to prohibit the Applicant's employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

11. **Financial Management**
    False Claims for Payment - The Applicant will comply with 31 U.S.C §§ 3729-3733 which sets forth that no subrecipient, recipient, or subrecipient shall submit a false claim for payment, reimbursement or advance.

12. **Reporting - Accountability**
    The Applicant agrees to comply with applicable provisions of the Federal Funding Accountability and Transparency Act (FFATA) (P.L. 109-282), specifically (a) the reporting of subawards obligating $25,000 or more in federal funds and (b) executive compensation data for first-tier subawards. This includes the provisions of FFATA, which includes requirements for executive compensation, and also requirements implementing the Act for the non-federal entity at 2 C.F.R. Part 25 Financial Assistance Use of Universal Identifier and Central Contractor Registration and 2 C.F.R. Part 170 Reporting Subaward and Executive Compensation Information.

13. **Whistleblower Protections**
    The Applicant also must comply with statutory requirements for whistleblower protections at 10 U.S.C. § 2409, 41 U.S.C. § 4712, and 10 U.S.C. § 2324, 41 U.S.C. § 4304 and § 4310.

14. Human Trafficking

The Applicant will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act of 2000, as amended (22 U.S.C. § 7104) which prohibits grant award recipients or a subrecipient from: (1) engaging in trafficking in persons during the period of time that the award is in effect; (2) procuring a commercial sex act during the period of time that the award is in effect; (3) using forced labor in the performance of the award or subawards under the award.

15. Labor Standards

The Applicant will comply with the following federal labor standards:

(a) The Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), as applicable, and the Copeland Act (40 U.S.C. § 3145 and 18 U.S.C. § 874) and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally-assisted construction contracts or subcontracts, and

(b) The Federal Fair Labor Standards Act (29 U.S.C. § 201 et al.) as they apply to employees of institutes of higher learning (IHE), hospitals and other non-profit organizations.

16. Worker's Compensation

The Applicant must comply with provisions which require every employer to be insured to protect workers who may be injured on the job at all times during the performance of the work of this Agreement, as per the workers compensation laws set forth in California Labor Code §§ 3700 et seq.

17. Property-Related

If applicable to the type of project funded by this federal award, the Applicant will:

(a) Comply with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of federal participation in purchase;

(b) Comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires subrecipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more;

Initials Initial MR

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

(c) Assist the awarding agency in assuring compliance with Section 106 of the
(d) National Historic Preservation Act of 1966, as amended (16 U.S.C. § 470), Executive Order 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §469a-1 et seq.); and
(e) Comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. § 4831 and 24 CFR Part 35) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

18. Certifications Applicable Only to Federally-Funded Construction Projects

For all construction projects, the Applicant will:

(a) Not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with federal assistance funds to assure nondiscrimination during the useful life of the project;
(b) Comply with the requirements of the awarding agency with regard to the drafting, review and approval of construction plans and specifications; and
(c) Provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.

19. Use of Cellular Device While Driving is Prohibited

Applicants are required to comply with California Vehicle Code sections 23123 and 23123.5. These laws prohibit driving motor vehicle while using an electronic wireless communications device to write, send, or read a text-based communication. Drivers are also prohibited from the use of a wireless telephone without hands-free listening and talking, unless to make an emergency call to 911, law enforcement, or similar services.

20. California Public Records Act and Freedom of Information Act

The Applicant acknowledges that all information submitted in the course of applying for funding under this program, or provided in the course of an entity's grant management activities that are under Federal control, is subject to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the California Public Records Act, California Government Code section 6250 et seq. The Applicant should consider these laws and consult its own State and local laws and regulations regarding the release of information when reporting sensitive matters in the grant application, needs assessment, and strategic planning process.

EMERGENCY MANAGEMENT PERFORMANCE GRANT (EMPG) – PROGRAM SPECIFIC ASSURANCES / CERTIFICATIONS

21. Acknowledgment of Federal Funding from DHS

All recipients must acknowledge their use of federal funding when issuing statements, press releases, requests for proposals, bid invitations, and other documents describing projects or programs funded in whole or in part with federal funds.

22. Activities Conducted Abroad

All recipients must ensure that project activities carried on outside the United States are coordinated as necessary with appropriate government authorities and that appropriate licenses, permits, or approvals are obtained.

23. Best Practices for Collection and Use of Personally Identifiable Information (PII)

DHS defines personally identifiable information (PII) as any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual. All recipients who collect PII are required to have a publically-available privacy policy that describes standards on the usage and maintenance of PII they collect. Recipients may also find the DHS Privacy Impact Assessments: Privacy Guidance and Privacy template a useful resource respectively.

24. Copyright

All recipients must affix the applicable copyright notices of 17 U.S.C. §§ 401 or 402 and an acknowledgement of U.S. Government sponsorship (including the award number) to any work first produced under federal financial assistance awards.

25. Duplication of Benefits

Any cost allocable to a particular federal financial assistance award provided for in 2 C.F.R. Part 200, Subpart E may not be charged to other federal financial assistance awards to overcome fund deficiencies, to avoid restrictions imposed by federal statutes, regulations, or federal financial assistance award terms and conditions, or for other reasons. However, these prohibitions would not preclude recipients from shifting costs that are allowable under two or more awards in accordance with existing federal statutes, regulations, or the federal financial assistance award terms and conditions.

26. Energy Policy and Conservation Act

All recipients must comply with the requirements of 42 U.S.C. § 6201 which contain policies relating to energy efficiency that are defined in the state energy conservation plan issued in compliance with this Act.

27. Federal Debt Status

All recipients are required to be non-delinquent in their repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowances, and benefit overpayments. See OMB Circular A-129.

28. Fly America Act of 1974

All recipients must comply with Preference for U.S. Flag Air Carriers: (air carriers holding certificates under 49 U.S.C. § 41102) for international air transportation of people and property to the extent that such service is available, in accordance with the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. § 40118) and the interpretative guidelines issued by the Comptroller General of the United States in the March 31, 1981, amendment to Comptroller General Decision B-138942.

29. Hotel and Motel Fire Safety Act of 1990

In accordance with Section 6 of the Hotel and Motel Fire Safety Act of 1990, all Applicants must ensure that all conference, meeting, convention, or training space funded in whole or in part with federal funds complies with the fire prevention and control guidelines of the Federal Fire Prevention and Control Act of 1974, as amended, 15 U.S.C. § 2225a.

30. Non-supplanting Requirement

All recipients who receive federal financial assistance awards made under programs that prohibit supplanting by law must ensure that federal funds do not replace (supplant) funds that have been budgeted for the same purpose through non-federal sources.

31. Patents and Intellectual Property Rights

Unless otherwise provided by law, recipients are subject to the Bayh-Dole Act, Pub. L. No. 96-517, as amended, and codified in 35 U.S.C. § 200 et seq. All recipients are subject to the specific requirements governing the development, reporting, and disposition of rights to inventions and patents resulting from financial assistance awards located at 37 C.F.R. Part 401 and the standard patent rights clause located at 37 C.F.R. § 401.14.

32. SAFECOM

All recipients who receive federal financial assistance awards made under programs that provide emergency communication equipment and its related activities must comply with the SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications.

33. Terrorist Financing

All recipients must comply with Executive Order 13224 and U.S. law that prohibit transactions with, and the provisions of resources and support to, individuals and organizations associated with terrorism. Recipients are legally responsible to ensure compliance with the Order and laws.

34. Reporting of Matters Related to Recipient Integrity and Performance

If the total value of the recipient's currently active grants, cooperative agreements, and procurement contracts from all federal assistance offices exceeds $10,000,000 for any period of time during the period of performance of this federal financial assistance award, you must comply with the requirements set forth in the government-wide Award Term and Condition for Recipient Integrity and Performance Matters located at 2 C.F.R. Part 200, Appendix XII, the full text of which is incorporated here by reference in the award terms and conditions.

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

IMPORTANT
The purpose of the assurance is to obtain federal and state financial assistance, including any and all federal and state grants, loans, reimbursement, contracts, etc. The Applicant recognizes and agrees that state financial assistance will be extended based on the representations made in this assurance. This assurance is binding on the Applicant, its successors, transferees, assignees, etc. Failure to comply with any of the above assurances may result in suspension, termination, or reduction of grant funds.

All appropriate documentation, as outlined above, must be maintained on file by the Applicant and available for Cal OES or public scrutiny upon request. Failure to comply with these requirements may result in suspension of payments under the grant or termination of the grant or both and the subrecipient may be ineligible for award of any future grants if the Cal OES determines that any of the following has occurred: (1) the recipient has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

All of the language contained within this document must be included in the award documents for all subawards at all tiers. All recipients are bound by the Department of Homeland Security Standard Terms and Conditions 2020, Version 10.1, hereby incorporated by reference, which can be found at: https://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions.

The undersigned represents that he/she is authorized to enter into this agreement for and on behalf of the Applicant.

October 23, 2020

Fesia A. Davenport
Acting Chief Executive Officer
Los Angeles County
500 West Temple Street, Room 713
Los Angeles, CA 90012-0000

SUBJECT: **NOTIFICATION OF SUBRECIPIENT SUBAWARD APPROVAL**
Fiscal Year (FY) 2020 Homeland Security Grant Program (HSGP)
Subaward #2020-0095, Cal OES ID#037-00000
Subaward Period of Performance: 09/01/2020-05/31/2023

Dear Ms. Davenport:

We are pleased to announce the approval of your FY 2020 HSGP subaward in the amount of $10,593,612. Once the completed application is received and approved, reimbursement of eligible subaward expenditures may be requested using the California Governor's Office of Emergency Services (Cal OES) Financial Management Forms Workbook. Failure to provide documentation in a timely manner could result in a hold on funding, pursuant to Title 2, Code of Federal Regulations (CFR), Sections 200.338(a) and 200.207(b)(1)-(2).

This subaward is subject to requirements in 2 CFR, Part 200, including the Notice of Funding Opportunity (NOFO), the Preparedness Grants Manual, the California Supplement to the NOFO, and all applicable federal, state, and local requirements. All activities funded with this subaward must be completed within the subaward period of performance.

Subrecipients must obtain additional written approval **prior** to incurring costs for activities such as aviation, watercraft, allowability request logs, noncompetitive procurement, and projects requiring Environmental Planning and Historic Preservation review. Additionally, all projects falling under the National Priority Investment Justifications must be reviewed and approved for effectiveness by the

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Federal Emergency Management Agency (FEMA), prior to the obligation, and expenditure of funds for those projects.

Your organization will be required to prepare and submit the Biannual Strategy Implementation Report (BSIR) to Cal OES via the FEMA Grants Reporting Tool (GRT) semi-annually for the duration of the subaward period of performance or until all activities are completed and the subaward is formally closed. Failure to submit required reports could result in subaward reduction, suspension, or termination. Throughout the subaward cycle, milestones set in the GRT will be used as indicators of project feasibility, performance, and grant management capacity. This information may also be used in assessing proposals in future grant opportunities.

A Conditional Hold has been placed on your subaward; five percent of the subaward must be allocated to each of the four National Priority Investment Justifications for a total of twenty percent of the award. To release this hold, additional information is required for the investments identified which must be submitted in the December 2020 BSIR in a manner consistent with Grants Program Directorate Information Bulletin No. 447.

Your dated signature is required on this letter. Please sign and return the original to your Cal OES Program Representative within 20 calendar days upon receipt and keep a copy for your records. For further assistance, please contact your Cal OES Program Representative.

Sincerely,

MARK S. GHILARDUCCI
Director

The Department of Homeland Security (DHS)
Notice of Funding Opportunity (NOFO)
Fiscal Year 2021 Homeland Security Grant Program

NOTE: If you are going to apply for this funding opportunity and have not obtained an Employer Identification Number (EIN), a Data Universal Numbering System (DUNS) number, are not currently registered in the System for Award Management (SAM), or your SAM registration is not active, please take immediate action to obtain an EIN and DUNS Number, if applicable, and then register immediately in SAM or, if applicable, renew your SAM registration. It may take four weeks or more after you submit your SAM registration before your registration is active in SAM, then an additional 24 hours for Grants.gov to recognize your information. Information on obtaining a DUNS number and registering in SAM is available from Grants.gov at: http://www.grants.gov/web/grants/register.html. Detailed information regarding DUNS, EIN, and SAM is also provided in Section D of this NOFO under the subsection titled "How to Register to Apply." Detailed information regarding the time required for each registration is also provided in Section D of this NOFO under the subsection titled "Other Key Dates."

10. Program Overview, Objectives, and Priorities

a. *Overview*
The Fiscal Year (FY) 2021 Homeland Security Grant Program (HSGP) is one of three grant programs that constitute the DHS/FEMA focus on enhancing the ability of state, local, tribal, and territorial governments, as well as nonprofits, to prevent, protect against, respond to, and recover from terrorist attacks. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by DHS to help strengthen the Nation's communities against potential terrorist attacks. Among the five basic homeland security missions noted in the DHS Strategic Plan, HSGP supports the goal to Strengthen National Preparedness and Resilience.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

In FY 2021, there are three components of HSGP:

1) ***State Homeland Security Program (SHSP):*** SHSP assists state, local, tribal, and territorial efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

2) ***Urban Area Security Initiative (UASI):*** UASI assists high-threat, high-density Urban Area efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

3) ***Operation Stonegarden (OPSG):*** OPSG supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and federal, state, local, tribal, and territorial law enforcement agencies to improve overall border security. OPSG provides funding to support joint efforts to secure the United States' borders along routes of ingress/egress to and from international borders, to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders. State, local, tribal, and territorial (SLTT) law enforcement agencies utilize their inherent law enforcement authorities to support the border security mission and do not receive any additional authority as a result of participation in OPSG.

The 2018-2022 FEMA Strategic Plan creates a shared vision for reducing the risks posed by terrorism and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. HSGP supports the goals of Building a Culture of Preparedness and Readying the Nation for Catastrophic Disasters. We invite our stakeholders and partners to also adopt these priorities and join us in building a more prepared and resilient Nation, as preparedness is a shared responsibility and funding should support priorities that are most impactful and demonstrate the greatest return on investment.

For FY 2021, DHS is focused on the criticality of information sharing and collaboration to building a national culture of preparedness and protecting against terrorism and other emerging threats to our national security. DHS and its homeland security mission were born from the "failures among federal agencies and between the federal agencies and state and local authorities to share critical information related to the threat of terrorism" prior to the September 11, 2001, attacks.[1] The threat profile has changed in the past two decades – we now face continuous cyber threats by sophisticated actors, threats to soft targets and crowded places, threats from domestic violent extremists, and threats from new and emerging technologies. But information sharing and cooperation among state, local, and tribal authorities and federal agencies, including all DHS officials, is just as vital, and perhaps even more vital, today. Therefore, for FY 2021, we have identified five priority areas, tied to some of the most serious threats that DHS would like to see addressed by state and local

[1] Homeland Security Act of 2002: Report Together with Minority and Dissenting Views 222, Select Committee on Homeland Security: 107th Congress, U.S. House of Representatives (2002) (H. Rpt. 107-609).

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

governments, that recipients will need to address with their HSGP funds. Perhaps most importantly, we will be focused on forging partnerships to strengthen information sharing and collaboration in each of these priority areas and looking for recipients to remove barriers to communication and cooperation with DHS and other federal agencies.

b. ***Objective***

The objective of the FY 2021 HSGP is to fund state, local, tribal, and territorial efforts to prevent terrorism and prepare the Nation for threats and hazards that pose the greatest risk to the security of the United States.

c. ***Priorities***

Given the evolving threat landscape, it is incumbent upon DHS/FEMA to continuously evaluate the national risk profile and set priorities that help ensure appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2021, five priority areas attract the most concern. Due to the unique threats that the nation faces in 2021, DHS/FEMA has determined that these five priorities should be addressed by allocating specific percentages of SHSP and UASI funds to each of these five areas, for a total of 30 percent per award. The following are the five priority areas for FY 2021, along with the corresponding percentage of SHSP and UASI funds that each recipient will be required to designate to each priority area in order to obtain a full allocation of SHSP and UASI funds:

1) Enhancing cybersecurity – 7.5 percent
2) Enhancing the protection of soft targets/crowded places – 5 percent
3) Enhancing information and intelligence sharing and analysis, and cooperation with federal agencies, including DHS – 5 percent
4) Combating domestic violent extremism – 7.5 percent
5) Addressing emergent threats (e.g., transnational criminal organizations, unmanned aircraft systems [UASs], weapons of mass destruction [WMD], etc.) – 5 percent

Failure by a recipient to propose investments and projects that align with the five priority areas and spending requirements will result in a recipient having a portion of their SHSP and UASI funds (up to 30 percent) placed on hold until they provide projects that sufficiently align to the National Priority Areas, and total at least the minimum percentage identified above of total SHSP and UASI funds per National Priority Area.

A state or high-risk urban area must allocate the remaining 70 percent of their funding to gaps identified through their Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) process.

Likewise, there are several enduring security needs that crosscut the homeland security enterprise to which recipients should consider allocating funding across core capability gaps and national priorities. The following are enduring needs that help recipients implement a comprehensive approach to securing communities:

1) Effective planning;
2) Training and awareness campaigns;

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

3) Equipment and capital projects; and
4) Exercises.

SHSP and UASI Funding Priorities

The table below provides a breakdown of the FY 2021 SHSP and UASI priorities (the focus of OPSG remains unique to border security), showing the core capabilities enhanced and lifelines supported, as well as examples of eligible project types for each area. A detailed description of allowable investments for each project type is included in the Preparedness Grants Manual. DHS/FEMA anticipates that in future years, national priorities will continue to be included and will be updated as the threats evolve and as capability gaps are closed. Applicants are strongly encouraged to begin planning to sustain existing capabilities through funding mechanisms other than DHS preparedness grants.

FY 2021 SHSP & UASI Funding Priorities

Priority Areas	Core Capabilities	Lifelines	Example Project Types
National Priorities			
Enhancing Cybersecurity	• Cybersecurity • Intelligence and information sharing • Planning • Public information and warning • Operational coordination • Screening, search, and detection • Access control and identity verification • Supply chain integrity and security • Risk management for protection programs and activities • Long-term vulnerability reduction • Situational assessment • Infrastructure systems • Operational communications	• Safety and Security	• Cybersecurity risk assessments • Migrating online services to the ".gov" internet domain • Projects that address vulnerabilities identified in cybersecurity risk assessments ○ Improving cybersecurity of critical infrastructure to meet minimum levels identified by the Cybersecurity and Infrastructure Security Agency (CISA) ○ Cybersecurity training and planning
Enhancing the Protection of Soft Targets/ Crowded Places	• Operational coordination • Public information and warning • Intelligence and information sharing • Interdiction and disruption • Screening, search, and detection • Access control and identity verification • Physical protective measures • Risk management for protection programs and activities	• Safety and Security	• Operational overtime • Physical security enhancements ○ Closed-circuit television (CCTV) security cameras ○ Security screening equipment for people and baggage ○ Lighting ○ Access controls ○ Fencing, gates, barriers, etc.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Priority Areas	Core Capabilities	Lifelines	Example Project Types
Enhancing information and intelligence sharing and analysis, and cooperation with federal agencies, including DHS	• Intelligence and information sharing • Interdiction and disruption • Planning • Public information and warning • Operational coordination • Risk management for protection programs and activities	• Safety and Security	• Fusion center operations (Fusion Center project will be required under this investment, no longer as a stand-alone investment) • Information sharing with all DHS components; fusion centers; other operational, investigative, and analytic entities; and other federal law enforcement and intelligence entities • Cooperation with DHS officials and other entities designated by DHS in intelligence, threat recognition, assessment, analysis, and mitigation • Identification, assessment, and reporting of threats of violence • Joint intelligence analysis training and planning with DHS officials and other entities designated by DHS
Combating Domestic Violent Extremism	• Interdiction and disruption • Screening, search and detection • Physical protective measures • Intelligence and information sharing • Planning • Public information and warning • Operational coordination • Risk management for protection programs and activities	• Safety and Security	• Open source analysis of misinformation campaigns, targeted violence and threats to life, including tips/leads, and online/social media-based threats • Sharing and leveraging intelligence and information, including open source analysis • Execution and management of threat assessment programs to identify, evaluate, and analyze indicators and behaviors indicative of domestic violent extremists • Training and awareness programs (e.g., through social media, suspicious activity reporting [SAR] indicators and behaviors) to help prevent radicalization • Training and awareness programs (e.g., through social media, SAR indicators and behaviors) to educate the public on misinformation campaigns and resources to help them identify and report potential instances of domestic violent extremism
Addressing Emergent Threats, such as the activities of Transnational Criminal Organizations, open source threats, and threats from UAS and WMD	• Interdiction & disruption • Screening, search and detection • Physical protective measures • Intelligence and information sharing • Planning • Public Information and Warning • Operational Coordination	• Safety and Security	• Sharing and leveraging intelligence and information • UAS detection technologies • Enhancing WMD and/or improvised explosive device (IED) prevention, detection, response and recovery capabilities ○ Chemical/Biological/Radiological/ Nuclear/Explosive (CBRNE) detection, prevention, response, and recovery equipment
Enduring Needs			
Planning	• Planning	• Safety and Security	• Development of: ○ Security Risk Management Plans

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Priority Areas	Core Capabilities	Lifelines	Example Project Types
	• Risk management for protection programs and activities • Risk and disaster resilience assessment • Threats and hazards identification • Operational coordination • Community resilience		○ Threat Mitigation Plans ○ Continuity of Operations Plans ○ Response Plans • Efforts to strengthen governance integration between/among regional partners • Joint training and planning with DHS officials and other entities designated by DHS • Cybersecurity training and planning
Training & Awareness	• Long-term vulnerability reduction • Public information and warning • Operational coordination • Situational assessment • Community resilience	• Safety and Security	• Active shooter training • Intelligence analyst training • SAR and terrorism indicators/behaviors training • Security training for employees • Public awareness/preparedness campaigns • Joint training and planning with DHS officials and other entities designated by DHS • Cybersecurity training and planning
Equipment & Capital Projects	• Long-term vulnerability reduction • Infrastructure systems • Operational communications • Interdiction and disruption • Screening, search and detection • Access control and identity verification • Physical protective measures	• Safety and Security	• Protection of high-risk, high-consequence areas or systems that have been identified through risk assessments • Physical security enhancements ○ Security cameras (CCTV) ○ Security screening equipment for people and baggage ○ Lighting ○ Access Controls ▪ Fencing, gates, barriers, etc.
Exercises	• Long-term vulnerability reduction • Operational coordination • Operational communications • Community resilience	• Safety and Security	• Response exercises

For FY 2021, each SHSP and UASI recipient is required to submit an Investment Justification (IJ) for *each* of the five National Priority Areas identified above. Each of these five investments must also account for at least the relevant minimum percentage of the applicant's SHSP and UASI allocation. The fusion center project must be included under the Information and Intelligence Sharing IJ. State Administrative Agencies (SAAs) may submit complete project-level information at the time of application, including the five National Priority Area IJs, but are not required to do so. As a reminder, all SHSP- and UASI-funded projects must have a demonstrated nexus to preventing, preparing for, protecting against, and responding to acts of terrorism. However, such projects may simultaneously support enhanced preparedness for disasters unrelated to acts of terrorism.

DHS/FEMA also requires SHSP and UASI recipients (states, territories, and high-risk urban areas) to complete a THIRA/SPR and prioritize grant funding to support closing capability gaps or sustaining capabilities that address national priorities and/or support enduring needs.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Additional information on the THIRA/SPR process, including other National Preparedness System (NPS) tools and resources, can be found at https://www.fema.gov/national-preparedness-system. Detailed information on THIRA/SPR timelines and deadlines can be found in the Preparedness Grants Manual.

OPSG Funding Priorities

The table below provides a breakdown of the FY 2021 OPSG funding priorities, which remain focused on and unique to border security.

FY 2021 OPSG Funding Priorities

Priority Areas	Core Capabilities	Lifelines	Example Project Types
National Priorities			
Enhancing information and intelligence sharing and analysis, and cooperation with federal agencies, including DHS	• Intelligence and information sharing	• Safety and Security	• Participation in the DHS/ICE 287(g) training program • Information sharing with all DHS components; fusion centers; other operational, investigative, and analytic entities; and other federal law enforcement and intelligence entities • Cooperation with DHS officials and other entities designated by DHS in intelligence, threat recognition, assessment, analysis, and mitigation • Identification, assessment, and reporting of threats of violence • Joint intelligence analysis training and planning with DHS officials and other entities designated by DHS
Addressing Emergent Threats, such as the activities of Transnational Criminal Organizations	• Interdiction & disruption • Screening, search and detection • Physical protective measures • Intelligence and information sharing	• Safety and Security	• Operational overtime for border security operations as directed by the applicable, USBP-approved operations order • Sharing and leveraging intelligence and information

For FY 2021, each OPSG applicant is required to clearly articulate and identify how the Concept of Operations addresses *each* of the two national priorities identified above.

11. Performance Metrics

Performance metrics for this program:

SHSP and UASI:

- Percentage of funding allocated by the recipient to core capabilities to build or sustain national priorities identified in the section above

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

OPSG:

- Number of contacts that occurred as a result of OPSG deployments
  - Number of arrests that resulted from OPSG contacts
  - Value of drug seizures that resulted from OPSG contacts

B. Federal Award Information

1. Available Funding for the NOFO: **$1,120,000,000.00**

HSGP Programs	FY 2021 Allocation
SHSP	$415,000,000
UASI	$615,000,000
OPSG	$90,000,000
Total	**$1,120,000,000**

SHSP Allocations

For FY 2021, DHS/FEMA will award SHSP funds based on DHS/FEMA's relative risk methodology and statutory minimums pursuant to the *Homeland Security Act of 2002*, as amended. THIRA/SPR results do not impact grant allocation or award.

Each state and territory will receive a minimum allocation under the SHSP using thresholds established in the *Homeland Security Act of 2002*, as amended. All 50 States, the District of Columbia, and the Commonwealth of Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the *Homeland Security Act of 2002*, as amended. Each of the four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total funds allocated for grants under Section 2003 and 2004 of the *Homeland Security Act of 2002*, as amended.

Each state must include a separate IJ for each of the five National Priority Areas identified in the Priorities section, above. **All projects related to the National Priority Area *must* be included in the IJ.** The funding level in each National Priority Area investment **must equal or exceed** the percentage for that respective National Priority Area, calculated as a percentage of the state's SHSP allocation in the table below.

FY 2021 SHSP ALLOCATIONS

State/Territory	FY 2021 Allocation	State/Territory	FY 2021 Allocation
Alabama	$4,602,500	Montana	$4,602,500
Alaska	$4,602,500	Nebraska	$4,602,500
American Samoa	$1,052,000	Nevada	$4,602,500
Arizona	$4,602,500	New Hampshire	$4,602,500
Arkansas	$4,602,500	New Jersey	$7,345,897
California	$59,220,807	New Mexico	$4,602,500
Colorado	$4,602,500	New York	$70,639,800

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

State/Territory	FY 2021 Allocation	State/Territory	FY 2021 Allocation
Connecticut	$4,602,500	North Carolina	$5,280,222
Delaware	$4,602,500	North Dakota	$4,602,500
District of Columbia	$5,280,222	Northern Mariana Islands	$1,052,000
Florida	$9,701,894	Ohio	$6,428,138
Georgia	$5,491,278	Oklahoma	$4,602,500
Guam	$1,052,000	Oregon	$4,602,500
Hawaii	$4,602,500	Pennsylvania	$8,447,973
Idaho	$4,602,500	Puerto Rico	$4,602,500
Illinois	$14,427,260	Rhode Island	$4,602,500
Indiana	$4,602,500	South Carolina	$4,602,500
Iowa	$4,602,500	South Dakota	$4,602,500
Kansas	$4,602,500	Tennessee	$4,602,500
Kentucky	$4,602,500	Texas	$18,908,141
Louisiana	$4,602,500	U.S. Virgin Islands	$1,052,000
Maine	$4,602,500	Utah	$4,602,500
Maryland	$7,345,897	Vermont	$4,602,500
Massachusetts	$6,428,138	Virginia	$8,447,973
Michigan	$5,280,222	Washington	$6,428,138
Minnesota	$4,602,500	West Virginia	$4,602,500
Mississippi	$4,602,500	Wisconsin	$4,602,500
Missouri	$4,602,500	Wyoming	$4,602,500
Total			**$415,000,000**

UASI Allocations

Eligible candidates for the FY 2021 UASI program are identified in the table below. Eligibility has been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States, in accordance with the *Homeland Security Act of 2002*, as amended. Detailed information on MSAs is publicly available from the United States Census Bureau at https://www.census.gov/programs-surveys/metro-micro.html. THIRA/SPR results do not impact grant allocation or award.

The following table identifies the UASI allocations for each high-risk urban area based on DHS/FEMA's relative risk methodology pursuant to the *Homeland Security Act of 2002*, as amended.

In its application, each high-risk urban area, through the state, must include a separate IJ for each of the five National Priority Areas identified in the Priorities section, above. **All projects related to the National Priority Area *must* be included in the IJ.** The funding level in each National Priority Area investment **must equal or exceed** the percentage for that respective National Priority Area, calculated as a percentage of the urban area's UASI allocation in the table below.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

2021 UASI ALLOCATIONS

State/Territory	Urban Area	FY 2021 UASI Allocation
Arizona	Phoenix Area	$5,250,000
California	Anaheim/Santa Ana Area	$5,250,000
	Bay Area	$37,500,000
	Los Angeles/Long Beach Area	$68,000,000
	Riverside Area	$3,900,000
	Sacramento Area	$3,800,000
	San Diego Area	$16,900,000
Colorado	Denver Area	$3,900,000
District of Columbia	National Capital Region	$51,750,000
Florida	Miami/Fort Lauderdale Area	$14,750,000
	Orlando Area	$3,800,000
	Tampa Area	$3,800,000
Georgia	Atlanta Area	$6,250,000
Hawaii	Honolulu Area	$3,800,000
Illinois	Chicago Area	$68,000,000
Maryland	Baltimore Area	$4,250,000
Massachusetts	Boston Area	$16,900,000
Michigan	Detroit Area	$5,250,000
Minnesota	Twin Cities Area	$5,250,000
Missouri	St. Louis Area	$3,800,000
Nevada	Las Vegas Area	$5,250,000
New Jersey	Jersey City/Newark Area	$19,050,000
New York	New York City Area	$178,750,000
North Carolina	Charlotte Area	$3,800,000
Oregon	Portland Area	$3,800,000
Pennsylvania	Philadelphia Area	$16,900,000
Texas	Dallas/Fort Worth/Arlington Area	$16,900,000
	Houston Area	$24,600,000
	San Antonio Area	$3,800,000
Virginia	Hampton Roads Area	$3,800,000
Washington	Seattle Area	$6,250,000
Total		**$615,000,000**

OPSG Allocations

For FY 2021, DHS/FEMA will award OPSG funds based on risk and the anticipated effectiveness of the proposed use of grant funds upon completion of the application review process. The FY 2021 OPSG risk assessment is designed to identify the risk to border security and to assist with the distribution of funds for the grant program. Funding under OPSG is distributed based on the risk to the security of the border and the effectiveness of the proposed projects. Entities eligible for funding are the state, local, and tribal law

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

enforcement agencies that are located along the border of the United States. DHS/FEMA will make final award determinations based upon a review of the anticipated effectiveness of the state's application as described in Section D, below. The THIRA/SPR process is not required for OPSG.

For the purposes of OPSG, the risk is defined as the potential for an adverse outcome assessed as a function of threats, vulnerabilities, and consequences associated with an incident, event, or occurrence.

Based upon ongoing intelligence analysis and extensive security reviews, DHS/CBP continues to focus the bulk of OPSG funds based upon risk analyses. The risk model used to allocate OPSG funds considers the potential risk that certain threats pose to border security and estimates the relative risk faced by a given area. In evaluating risk, DHS/CBP considers intelligence, situational awareness, criminal trends, and statistical data specific to each of the border sectors, and the potential impacts that these threats pose to the security of the border area. For vulnerability and consequence, DHS/CBP considers the expected impact and consequences of successful border events occurring in specific areas.

Threat and vulnerability are evaluated based on specific operational data from DHS/CBP. Threat components present in each of the sectors are used to determine the overall threat score. These components are terrorism, criminal aliens, drug trafficking organizations, and alien smuggling organizations.

Effectiveness of the proposed investments will be evaluated based on the recipient's investment strategy, budget, collaboration, and past performance.

2. Projected Number of Awards: **56**

3. Period of Performance: **36 months**

Extensions to the period of performance are allowed. For additional information on period of performance extensions, please refer to Section H of this NOFO and the Preparedness Grants Manual.
FEMA awards under this program only include one budget period, so it will be same as the period of performance. *See* 2 C.F.R. § 200.1 for definitions of "budget period" and "period of performance."

4. Projected Period of Performance Start Date(s): **10/01/2021**

5. Projected Period of Performance End Date(s): **09/30/2024**

6. Funding Instrument Type: **Grant**

C. Eligibility Information

1. Eligible Applicants

The SAA is the only entity eligible to submit HSGP applications to DHS/FEMA, including

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

those applications submitted on behalf of UASI and OPSG applicants. All 56 states and territories, including any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to apply for SHSP funds. Tribal governments may not apply directly for HSGP funding; however, funding may be available to tribes under the SHSP and OPSG through the SAA.

2. Applicant Eligibility Criteria

Eligible high-risk urban areas for the FY 2021 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous MSAs in the United States. Subawards will be made by the SAAs to the designated high-risk urban areas.

In FY 2021, OPSG eligible subrecipients are local units of government at the county level or equivalent level of government and federally recognized tribal governments in states bordering Canada or Mexico and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding.

In FY 2021, OPSG subrecipients eligible to apply for and receive a subaward directly from the SAAs are divided into three Tiers. Tier 1 entities are local units of government at the county level or equivalent and federally recognized tribal governments that are on a physical border in states bordering Canada, states bordering Mexico, and states and territories with international water borders. Tier 2 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 1 county. Tier 3 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 2 eligible subrecipient. The tier structure is only applicable with regard to eligibility. OPSG funding allocations are based on the assessed border security risks as determined by the USBP.

An application submitted by an otherwise eligible non-federal entity (i.e., the applicant) may be deemed ineligible when the person that submitted the application is not: 1) a ***current employee, personnel, official, staff, or leadership*** of the non-federal entity; and 2) ***duly authorized to apply*** for an award on behalf of the non-federal entity at the time of application.

Further, the Authorized Organization Representative (AOR) must be a duly authorized current employee, personnel, official, staff, or leadership of the recipient and ***provide an email address unique to the recipient at the time of application and upon any change in assignment during the period of performance. Consultants or contractors of the recipient are not permitted to be the AOR of the recipient.***

3. Other Eligibility Criteria

a. ***National Incident Management System (NIMS) Implementation***

Prior to allocation of any federal preparedness awards, recipients must ensure and maintain adoption and implementation of NIMS. The list of objectives used for progress and

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

achievement reporting is on FEMA's website at https://www.fema.gov/emergency-managers/nims/implementation-training.

Please see the Preparedness Grants Manual for more information on NIMS.

b. ***Emergency Management Assistance Compact (EMAC) Membership***
In support of the National Preparedness Goal (the Goal), SHSP recipients must belong to, be in, or act as a temporary member of EMAC, except for American Samoa and the Commonwealth of the Northern Mariana Islands, which are not required to belong to EMAC at this time. All assets supported in part or entirely with FY 2021 HSGP funding must be readily deployable and NIMS-typed when possible to support emergency or disaster operations per existing EMAC agreements. In addition, funding may be used for the sustainment of core capabilities that, while they may not be physically deployable, support national response capabilities, such as Geographic/Geospatial Information Systems (GIS), interoperable communications systems, capabilities as defined under the Mitigation Mission Area of the Goal, and fusion centers.

c. ***Law Enforcement Terrorism Prevention Activities (LETPA)***
Per section 2006 of the *Homeland Security Act of 2002*, as amended (6 U.S.C. § 607), DHS/FEMA is required to ensure that at least 25 percent of grant funding appropriated for grants awarded under HSGP's authorizing statute are used for LETPAs. DHS/FEMA meets this requirement, in part, by requiring all recipients allocate at least 25 percent of the combined HSGP funds allocated under SHSP and UASI towards LETPAs, as defined in 6 U.S.C. § 607. The LETPA allocation can be from SHSP, UASI, or both. The 25 percent LETPA allocation may be met by funding projects in any combination of the five National Priority Areas identified above and any other investments. The 25 percent LETPA allocation requirement is in addition to the 80 percent pass-through requirement to local units of government and tribes, referenced below.

The National Prevention Framework describes those activities that should be executed upon the discovery of intelligence or information regarding an imminent threat to the homeland, to thwart an initial or follow-on terrorist attack and provides guidance to ensure the Nation is prepared to identify, prevent, avoid, or stop a threatened or actual act of terrorism. Activities outlined in the National Prevention Framework are eligible for use as LETPA-focused funds. Also, where capabilities are shared with the protection mission area, the National Protection Framework activities are also eligible. All other terrorism prevention activities proposed for funding under LETPA must be approved by the FEMA Administrator.

4. Cost Share or Match
There is no cost share or match requirement for the FY 2021 HSGP.

D. Application and Submission Information

1. Key Dates and Times

a. ***Application Start Date:*** 02/25/2021

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

b. ***Application Submission Deadline:*** 05/14/2021 at 05 PM ET

All applications **must** be received by the established deadline.

The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of their submission. For additional information on how an applicant will be notified of application receipt, see the subsection titled "Timely Receipt Requirements and Proof of Timely Submission" in Section D of this NOFO.

FEMA will not review applications that are received after the deadline or consider these late applications for funding. FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicant's control that prevent submission of the application by the deadline, other exigent or emergency circumstances, or statutory requirements for FEMA to make an award.

Applicants experiencing technical problems outside of their control must notify FEMA as soon as possible and before the application deadline. Failure to timely notify FEMA of the issue that prevented the timely filing of the application may preclude consideration of the award. "Timely notification" of FEMA means: prior to the application deadline and within 48 hours after the applicant became aware of the issue.

A list of FEMA contacts can be found in Section G of this NOFO, "DHS Awarding Agency Contact Information." For additional assistance using the ND Grants System, please contact the ND Grants Service Desk at (800) 865-4076 or NDGrants@fema.dhs.gov. The ND Grants Service Desk is available Monday through Friday, 9:00 AM – 6:00 PM Eastern Time (ET). For programmatic or grants management questions, please contact your Program Analyst or Grants Specialist. If applicants do not know who to contact or if there are programmatic questions or concerns, please contact the Centralized Scheduling and Information Desk (CSID) by phone at (800) 368-6498 or by e-mail at askcsid@fema.dhs.gov, Monday through Friday, 9 AM – 5 PM ET.

c. ***Anticipated Funding Selection Date:*** No later than 07/16/2021

d. ***Anticipated Award Date:*** No later than 09/30/2021

e. ***Other Key Dates:***

Event	Suggested Deadline for Completion
Obtaining DUNS Number	Four weeks before actual submission deadline
Obtaining a valid EIN	Four weeks before actual submission deadline
Creating an account with login.gov	Four weeks before actual submission deadline
Registering in SAM or Updating SAM registration	Four weeks before actual submission deadline
Registering in Grants.gov	Four weeks before actual submission deadline

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Starting application in Grants.gov	One week before actual submission deadline
Submitting the final application in ND Grants	By the submission deadline

2. Agreeing to Terms and Conditions of the Award

By submitting an application, applicants agree to comply with the requirements of this NOFO and the terms and conditions of the award, should they receive an award.

3. Address to Request Application Package

See the Preparedness Grants Manual for requesting and submitting an application.

Initial applications are processed through the Grants.gov portal. Final applications are completed and submitted through FEMA's ND Grants System. Application forms and instructions are available at Grants.gov. To access these materials, go to http://www.grants.gov.

Hard copies of the NOFO can be downloaded at Grants.gov or obtained via email from the Awarding Office points of contact listed in Section G of this NOFO, "DHS Awarding Agency Contact Information" or by TTY (800) 462-7585.

4. Steps Required to Obtain a Unique Entity Identifier, Register in the System for Award Management (SAM), and Submit an Application

Applying for an award under this program is a multi-step process and requires time to complete. Applicants are encouraged to register early as the registration process can take four weeks or more to complete. Therefore, registration should be done in sufficient time to ensure it does not impact your ability to meet required submission deadlines.

Please review the table above for estimated deadlines to complete each of the steps listed. Failure of an applicant to comply with any of the required steps before the deadline for submitting an application may disqualify that application from funding.

To apply for an award under this program, all applicants must:

a. Apply for, update, or verify their Data Universal Numbering System (DUNS) number from Dun & Bradstreet and Employer Identification Number (EIN) from the Internal Revenue Service;
b. In the application, provide a valid DUNS number, which is currently the unique entity identifier;
c. Have an account with login.gov;
d. Register for, update, or verify their SAM account and ensure the account is active before submitting the application;
e. Create a Grants.gov account;
f. Add a profile to a Grants.gov account;
g. Establish an AOR in Grants.gov;
h. Register in ND Grants
i. Submit an initial application in Grants.gov;

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

j. Submit the final application in ND Grants, including electronically signing applicable forms; and

k. Continue to maintain an active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by a federal awarding agency. As part of this, applicants must also provide information on an applicant's immediate and highest-level owner and subsidiaries, as well as on all predecessors that have been awarded federal contracts or federal financial assistance within the last three years, if applicable.

Specific instructions on how to apply for, update, or verify a DUNS number or SAM registration or establish an AOR are included below in the steps for applying through Grants.gov.

Applicants are advised that FEMA may not make a federal award until the applicant has complied with all applicable DUNS and SAM requirements. Therefore, an applicant's SAM registration must be active not only at the time of application, but also during the application review period and when FEMA is ready to make a federal award. Further, as noted above, an applicant's or recipient's SAM registration must remain active for the duration of an active federal award. If an applicant's SAM registration is expired at the time of application, expires during application review, or expires any other time before award, FEMA may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant.

Per 2 C.F.R. § 25.110(c)(2)(ii), if an applicant is experiencing exigent circumstances that prevents it from receiving a DUNS number and completing SAM registration prior to receiving a federal award, the applicant must notify FEMA as soon as possible by contacting askcsid@fema.dhs.gov and providing the details of the circumstances that prevent completion of these requirements. If FEMA determines that there are exigent circumstances and FEMA has decided to make an award, the applicant will be required to obtain a DUNS number and complete SAM registration within 30 days of the federal award date.

5. Electronic Delivery

DHS is participating in the Grants.gov initiative to provide the grant community with a single site to find and apply for grant funding opportunities. DHS encourages or requires applicants to submit their applications online through Grants.gov, depending on the funding opportunity.

For this funding opportunity, FEMA requires applicants to submit initial applications through Grants.gov and a final application through ND Grants.

6. How to Register to Apply through Grants.gov

For information on how to register to apply through Grants.gov, please see the Preparedness Grants Manual.

7. How to Submit an Initial Application to FEMA via Grants.gov

Standard Form 424 (SF-424) is the initial application for this NOFO.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Grants.gov applicants can apply online using a workspace. A workspace is a shared, online environment where members of a grant team may simultaneously access and edit different web forms within an application. For each Notice of Funding Opportunity, you can create individual instances of a workspace. Applicants are encouraged to submit their initial applications in Grants.gov at least seven days before the application deadline.

In Grants.gov, applicants need to submit the following forms:

- SF-424, Application for Federal Assistance
- Grants.gov Lobbying Form, Certification Regarding Lobbying

For further information on how to submit an initial application via Grants.gov, please see the Preparedness Grants Manual.

8. Submitting the Final Application in ND Grants

After submitting the initial application in Grants.gov, eligible applicants will be notified by FEMA and asked to proceed with submitting their complete application package in ND Grants. Applicants can register early with ND Grants and are encouraged to begin their ND Grants registration at the time of this announcement or, at the latest, seven days before the application deadline. Early registration will allow applicants to have adequate time to start and complete their applications.

Applicants needing assistance registering for the ND Grants system should contact ndgrants@fema.dhs.gov or (800) 865-4076. For step-by-step directions on using the ND Grants system and other guides, please see https://www.fema.gov/grants/guidance-tools/non-disaster-grants-management-system.

In ND Grants, applicants will be prompted to submit the standard application information and any program-specific information required as described in Section D.10 of this NOFO, "Content and Form of Application Submission.". The Standard Forms (SF) are auto generated in ND Grants, but applicants may access these forms in advance through the Forms tab under the SF-424 family on Grants.gov. Applicants should review these forms before applying to ensure they have all the information required.

For additional application submission requirements, including program-specific requirements, please refer to the subsection titled "Content and Form of Application Submission" under Section D of this NOFO.

9. Timely Receipt Requirements and Proof of Timely Submission

As application submission is a two-step process, the applicant with the AOR role who submitted the application in Grants.gov will receive an acknowledgement of receipt and a tracking number (GRANTXXXXXXXX) from Grants.gov with the successful transmission of its initial application. **This notification does not serve as proof of timely submission, as the application is not complete until it is submitted in ND Grants.** Applicants can also view the ND Grants Agency Tracking Number by accessing the Details tab in the submitted workspace section in Grants.gov, under the Agency Tracking Number column. Should the Agency Tracking Number not appear, the application has not yet migrated from Grants.gov

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

into the ND Grants System. Please allow 24 hours for your ND Grants application tracking number to migrate.

All applications must be received in ND Grants by **5 PM ET** on the application deadline. Proof of timely submission is automatically recorded by ND Grants. An electronic date/time stamp is generated within the system when the application is successfully received by ND Grants. Additionally, the applicant(s) listed as contacts on the application will receive a system-generated email to confirm receipt.

10. Content and Form of Application Submission

a. ***Standard Required Application Forms and Information***

I. GRANTS.GOV

- **SF-424, Application for Federal Assistance**, initial application submitted through Grants.gov
- **Grants.gov Lobbying Form, Certification Regarding Lobbying**, submitted through Grants.gov

II. ND GRANTS

- **SF-424A, Budget Information (Non-Construction)**, submitted via the forms generated by ND Grants
  - **For construction under an award, submit SF-424C, Budget Information (Construction)**, submitted via the forms generated by ND Grants, in addition to or instead of SF-424A
- **SF-424B, Standard Assurances (Non-Construction)**, submitted via the forms generated by ND Grants
  - **For construction under an award, submit SF-424D, Standard Assurances (Construction)**, submitted via the forms generated by ND Grants, in addition to or instead of SF-424B
- **SF-LLL, Disclosure of Lobbying Activities**, submitted via the forms generated by ND Grants
- **Indirect Cost Agreement or Proposal**, submitted as an attachment in ND Grants if the budget includes indirect costs and the applicant is required to have an indirect cost rate agreement or proposal. If the applicant does not have or is not required to have an indirect cost rate agreement or proposal, please see Section D.13 of this NOFO, "Funding Restrictions and Allowable Costs," for further information regarding allowability of indirect costs and whether alternatives to an indirect cost rate agreement or proposal might be available, or contact the relevant FEMA staff identified in Section G of this NOFO, "DHS Awarding Agency Contact Information" for further instructions.

Generally, applicants have to submit either the non-construction forms (i.e., SF-424A and SF-424B) or construction forms (i.e., SF-424C and SF-424D), meaning that applicants that only have construction work and do not have any non-construction work need only submit the construction forms (i.e., SF-424C and SF-424D) and not the non-construction forms (i.e., SF-424A and SF-424B), and vice versa. However, applicants who have both construction and non-construction work under this program need to submit both the construction and non-construction forms.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

b. ***Program-Specific Required Forms and Information***

I. IJ DEVELOPMENT: SHSP AND UASI

As part of the FY 2021 HSGP application process for SHSP and UASI funds, applicants must develop formal IJs that address the proposed investments. Failure to fulfill of all of the terms contained in this section will be considered by DHS/FEMA in its evaluation of the effectiveness of the IJs submitted to meet the minimum percent spend requirement for each National Priority Area. Failure to sufficiently align projects to the National Priority Areas and meet the minimum percent spend requirement will result in funds being placed on hold until those issues are addressed.

FY 2021 SHSP and UASI applications must include one (1) IJ and at least one (1) respective project for each of the five National Priority Areas (Cybersecurity, Soft Targets/Crowded Places, Intelligence and Information Sharing, Countering Domestic Violent Extremism, and Emerging Threats) identified in this NOFO. Each of these five IJs must also meet or exceed the minimum percent spend requirement based on the applicant's SHSP and UASI allocation stated in this NOFO. **The SAA must submit one IJ per National Priority Area; all projects associated with a National Priority Area *must* be submitted in the same IJ and account for the relevant minimum spend requirement as a percentage of the SHSP or UASI allocation.** SAAs may submit complete project-level information at the time of application but are not required to do so at the time of application. However, any SHSP or UASI application that does not include an IJ for each National Priority Area that meets the minimum spend requirement will have that funding placed on hold (up to the National Priority Area, or up to 30 percent of the total award) until those IJs and project-level details that sufficiently address the National Priority Areas are received and approved by DHS/FEMA.

Each IJ must *demonstrate* how proposed investments:

- Support terrorism preparedness;
- Support closing capability gaps or sustaining capabilities identified in the community's THIRA/SPR process; and
- Support the overcoming of existing logistical, technological, legal, policy, and other impediments to collaborating, networking, sharing information, cooperating, and fostering a culture of national preparedness with federal, state, tribal, and local governments, as well as other regional, and nonprofit partners in efforts to prevent, prepare for, protect against, and respond to acts of terrorism, to meet its target capabilities, support the national security mission of DHS and other federal agencies, and to otherwise reduce the overall risk to the high-risk urban area, the state, or the Nation.

Each IJ must *explain* how the proposed investments will support the applicant's efforts to:

- Prevent a threatened or an actual act of terrorism;
- Prepare for all hazards and threats, while explaining the nexus to terrorism preparedness;
- Protect citizens, residents, visitors, and assets against the greatest threats and hazards, relating to acts of terrorism; and/or

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

- Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of an act of terrorism or other catastrophic incidents.

If not included in the application, SHSP and UASI recipients must submit complete project-level information for each SHSP and UASI IJ as part of the Biannual Strategy Implementation Report (BSIR) due by January 30, 2022. This includes IJs for the five National Priority Areas.

DHS/FEMA will evaluate the effectiveness of the projects submitted in support of the National Priority Areas, either at the time of application or as part of the December 2021 BSIR. DHS/FEMA will not reduce FY 2021 HSGP awards based on the effectiveness review but will work with recipients to ensure compliance with the National Priority Area requirements based on the results of the effectiveness review. Recipients and subrecipients will not be permitted to expend funding under the National Priority Areas until the effectiveness of the proposed projects has been reviewed and confirmed by FEMA.

II. Development of Investments and Projects: SHSP

- Applicants must propose at least five and may include up to ten investments.
- Within each investment, applicants must propose at least one project to describe the activities they plan to implement with SHSP funds. There is no limit to the number of projects that may be submitted.
- Required National Priority Area IJs must include the name of the priority in the investment name for easy identification.
- Of the proposed SHSP-funded investments, one single project, within the required Intelligence and Information Sharing National Priority Area IJ, must be in support of a designated fusion center. Recipients must coordinate with the fusion center when developing a fusion center project prior to submission. See additional information on how to develop the fusion center projects below and in the Preparedness Grants Manual.
- All emergency communications investments must describe how such activities align with needs identified in their Statewide Communication Interoperability Plan (SCIP). Recipients must coordinate with their Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governing Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. The investment name must include the words "emergency communications" to easily identify any emergency communications investments.
- All requested funding must be associated with specific projects. For each project, several pieces of information must be provided to submit the project for consideration in the application, including:
  - Project name;
  - Project description;
  - Subrecipient name, if applicable;
  - Recipient type (e.g., state or local);
  - Project location (zip code of the primary location of the project);
  - Primary core capability the project supports;

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

  - Whether the project activities are shareable and deployable; and
  - Which National Priority Area (if any) the project supports.
- Projects should describe how the proposed investment supports closing capability gaps or sustaining capabilities identified in the THIRA/SPR process.
- FEMA encourages states to use any DHS provided assessments, such as those performed by DHS's Protective Security Advisors and Cybersecurity Advisors, when developing their IJs.

III. NATIONAL PRIORITY AREA INVESTMENTS: SHSP

States are encouraged to review the Strategic Framework for Countering Terrorism and Targeted Violence when developing investments.

- **Cybersecurity IJ (7.5 percent)**
  At least one investment must be in support of the state's cybersecurity efforts. The investment must meet or exceed the FY 2021 national priority percentage for cybersecurity and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Cybersecurity investments must support the security and functioning of critical infrastructure and core capabilities as they relate to preventing, preparing for, protecting against, or responding to acts of terrorism. Recipients and subrecipients of FY 2021 HSGP grant awards will be required to complete the 2021 Nationwide Cybersecurity Review (NCSR), enabling agencies to benchmark and measure progress of improving their cybersecurity posture. The Chief Information Officer (CIO), Chief Information Security Officer (CISO) or equivalent for each recipient should complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional should complete the assessment. The NCSR is available at no cost to the user and takes approximately 2-3 hours to complete. The 2021 NCSR is estimated to be open from October – December 2021.

  The NCSR is an annual requirement for recipients and subrecipients of HSGP funds. Additionally, FEMA recognizes that some subawards will not be issued until after the NCSR has closed. In such cases, such subrecipients will be required to complete the first available NCSR offered after the subaward has been issued by the pass-through entity. Although not required by SLTTs that did not receive HSGP funds, all SLTT agencies with preparedness responsibilities are highly encouraged to participate and complete the NCSR to evaluate their cybersecurity posture. For detailed information and background on the NCSR, please see IB 439.

- **Soft Targets/Crowded Places IJ (5 percent)**
  Soft targets and crowded places are increasingly appealing to terrorists and other extremist actors because of their relative accessibility and the large number of potential targets. This challenge is complicated by the prevalent use of simple tactics and less sophisticated attacks. Segments of our society are inherently open to the general public, and by nature of their purpose do not incorporate strict security measures. Given the increased emphasis by terrorists and other extremist actors to leverage less sophisticated methods to inflict harm in public areas, it is vital that the public and private sectors

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

collaborate to enhance security of locations such as transportation centers, parks, restaurants, shopping centers, special event venues, and similar facilities.

Given the increased risk to soft targets and crowded places, at least one investment must be in support of the state's efforts to protect soft targets/crowded places. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for soft targets/crowded places and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Additional resources and information regarding securing soft targets and crowded places are available through the Cybersecurity and Infrastructure Security Agency. States are encouraged to engaged DHS' Protective Security Advisors' security assessments of soft targets to ensure that recommendations from those assessments are taken into consideration when allocating grant funding.

- **Information and Intelligence Sharing and Cooperation IJ (5 percent)**
  Effective homeland security operations rely on access to, analysis of, and the timely sharing of open source, unclassified, and classified information, suspicious activity reports, tips/leads, and actionable intelligence on indicators and behaviors to accurately identify, assess, and mitigate a wide array of threats against the United States, including terrorism, threats to life, targeted violence, and other threats within the DHS mission space. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior leaders receive actionable intelligence and information necessary to inform their decisions and operations. A critical and statutorily charged mission of DHS is to deliver intelligence and information to federal, state, local, and tribal governments and private sector partners. Cooperation and information sharing among state, federal, and local partners across all areas of the homeland security enterprise, including counterterrorism – including both international and domestic terrorism, cybersecurity, border security, transnational organized crime, immigration enforcement, economic security, and other areas is critical to homeland security operations and the prevention of, preparation for, protection against, and responding to acts of terrorism, and other threats to life and criminal acts of targeted violence.

  Given the importance of information sharing and collaboration to effective homeland security solutions, at least one investment must be in support of the state's efforts to enhance information sharing and cooperation with DHS and other federal agencies. As noted above, this requirement must include at least one dedicated fusion center project. Additional instructions on development of the fusion center project can be found below. Applicants must justify persuasively how they will contribute to the information sharing and collaboration purposes of the investment and a culture of national preparedness. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for information sharing and cooperation with DHS and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Additional resources and information regarding collaboration and information sharing are available through the Department's Office of Intelligence and Analysis.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

- **Domestic Violent Extremism IJ (7.5 percent)**
  As stated in the October 2020 DHS Homeland Threat Assessment, domestic violent extremists, including ideologically motivated lone offenders and small groups, present the most persistent and lethal terrorist threat to the Homeland. These violent extremists capitalize on social and political tensions, which have resulted in an elevated threat environment. They utilize social media platforms and other technologies to spread violent extremist ideologies that encourage violence and influence action within the United States. The COVID-19 pandemic has further created an environment that may lead to accelerated mobilization to targeted violence and/or radicalization to domestic terrorism, including driving lawful protests to incite violence, intimidate targets, and promote their violent extremist ideologies.

  Given the rise of domestic violent extremism in recent years, at least one investment must be in support of the state's efforts to combat the rise, influence, and spread of domestic violent extremism. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for domestic violent extremism and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments.

  Please note that there currently is not a "Domestic Violent Extremism" Investment Type option in the Grant Reporting Tool (GRT). Instead applicants should select the "Standard" Investment Type and clearly name the IJ as "Domestic Violent Extremism Priority Area" to ensure it is appropriately accounted for during FEMA's administrative and effectiveness reviews.

- **Emerging Threats IJ (5 percent)**
  The spread of rapidly evolving and innovative technology, equipment, techniques, and knowledge presents new and emerging dangers for homeland security in the years ahead. Terrorists, criminal actors, and foreign adversaries continue to utilize open source and other technologies to spread misinformation and sow discord in the United States. These actors also remain intent on acquiring WMD capabilities, and rogue nations and non-state actors are aggressively working to develop, acquire, and modernize WMDs that they could use against the Homeland. Meanwhile, biological and chemical materials and technologies with dual use capabilities are more accessible throughout the global market. Due to the proliferation of such information and technologies, rogue nations and non-state actors have more opportunities to develop, acquire, and use WMDs than ever before. Similarly, the proliferation of UASs, artificial intelligence, and biotechnology increase opportunities of threat actors to acquire and use these capabilities against the United States and its interests.

  Given the increased risk of these emerging threats, at least one investment must be in support of the state's efforts to address emerging threats. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for emerging threats and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Additional resources and information regarding emerging threats are available through the Countering Weapons of Mass Destruction Office and the Cybersecurity and Infrastructure Security Agency.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

IV. DEVELOPMENT OF INVESTMENTS AND PROJECTS: UASI

- Applicants must propose at least five and may include up to ten investments.
- Within each investment, urban areas must propose at least one project to describe the activities they are planning to implement with UASI funds. There is no limit to the number of projects that may be submitted.
- Required National Priority Area IJs must include the name of the priority in the investment name for easy identification.
- Of the proposed projects, urban areas are required to propose one single project, as part of the required intelligence and information sharing IJ, in support of a designated fusion center within the urban area, if applicable. Recipients must coordinate with the fusion center when developing a fusion center project prior to submission. See additional information on how to develop fusion center investments below and in the Preparedness Grants Manual.
- All emergency communications investments must describe how such activities align with the needs identified in their SCIP. Recipients must coordinate with their SWIC and/or SIGB when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. The investment name must include the words "emergency communications" to easily identify any emergency communications investments.
- All requested funding must be associated with specific projects. For each project, several pieces of information must be provided to submit the project for consideration in the application, including:
  - Project name;
  - Project description
  - Subrecipient name, if applicable;
  - Recipient type (e.g., state or local);
  - Project location (zip code of the primary location of the project);
  - Primary core capability the project supports;
  - Whether the project activities are shareable and deployable; and
  - Which National Priority Area (if any) the project supports.
- Projects should describe how the proposed investment supports closing capability gaps or sustaining capabilities identified in the THIRA/SPR process.
- FEMA encourages states to use any DHS provided assessments, such as those performed by DHS's Protective Security Advisors and Cybersecurity Advisors, when developing their IJs.

V. PRIORITY INVESTMENTS: UASI

High-risk urban areas are encouraged to review the Strategic Framework for Countering Terrorism and Targeted Violence when developing investments.

- **Cybersecurity IJ (7.5 percent)**
  At least one investment must be in support of the urban area's cybersecurity efforts. The investment must meet or exceed the FY 2021 national priority percentage for cybersecurity and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Cybersecurity investments must support the security and

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

functioning of critical infrastructure and core capabilities as they relate to preventing, preparing for, protecting against, or responding to acts of terrorism. Recipients and subrecipients of FY 2021 HSGP awards will be required to complete the 2021 Nationwide Cybersecurity Review, enabling agencies to benchmark and measure progress of improving their cybersecurity posture. The CIO, CISO or equivalent for each recipient should complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional should complete the assessment. The NCSR is available at no cost to the user and takes approximately 2- 3 hours to complete. The 2021 NCSR is estimated to be open from October – December 2021.

The NCSR is an annual requirement for recipients and subrecipients of HSGP funds. Additionally, FEMA recognizes that some subawards will not be issued until after the NCSR has closed. In such cases, such subrecipients will be required to complete the first available NCSR offered after the subaward has been issued by the pass-through entity. Although not required by SLTTs that did not receive HSGP funds, all SLTT agencies with preparedness responsibilities are highly encouraged to participate and complete the NCSR to evaluate their cybersecurity posture. For detailed information and background on the NCSR, please see IB 439.

- **Soft Targets/Crowded Places IJ (5 percent)**
  Soft targets and crowded places are increasingly appealing to terrorists and other extremist actors because of their relative accessibility and the large number of potential targets. This challenge is complicated by the prevalent use of simple tactics and less sophisticated attacks. Segments of our society are inherently open to the general public, and by nature of their purpose do not incorporate strict security measures. Given the increased emphasis by terrorists and other extremist actors to leverage less sophisticated methods to inflict harm in public areas, it is vital that the public and private sectors collaborate to enhance security of locations such as transportation centers, parks, restaurants, shopping centers, special event venues, and similar facilities.

  Given the increased risk to soft targets and crowded places, at least one investment must be in support of the urban area's efforts to protect soft targets/crowded places. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for soft targets/crowded places and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Additional resources and information regarding securing soft targets and crowded places are available through the Cybersecurity and Infrastructure Security Agency.

- **Information and Intelligence Sharing and Cooperation IJ (5 percent)**
  Effective homeland security operations rely on access to, analysis of, and timely sharing of open source, unclassified, and classified information, suspicious activity reports, tips/leads, and actionable intelligence on indicators and behaviors to accurately identify, assess, and mitigate a wide array of threats against the United States, including terrorism, threats to life, targeted violence, and other threats within the DHS mission space. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

leaders receive actionable intelligence and information necessary to inform their decisions and operations. A critical and statutorily charged mission of DHS is to deliver intelligence and information to federal, state, local, and tribal governments and private sector partners. Cooperation and information sharing among state, federal, and local partners across all areas of the homeland security enterprise, including counterterrorism, – including both international and domestic terrorism, cybersecurity, transnational organized crime, economic security, border security, immigration enforcement, and other areas is critical to homeland security operations and the prevention of, preparation for, protection against, and responding to acts of terrorism, and other threats to life and criminal acts of targeted violence.

Given the importance of information sharing and collaboration to effective homeland security solutions, at least one investment must be in support of the urban area's efforts to enhance information sharing and cooperation with DHS and other federal agencies. As noted above, this requirement must include at least one dedicated fusion center project. Additional instructions on development of the fusion center project can be found below. Applicants must justify persuasively how they will contribute to the information sharing and collaboration purposes of the investment and a culture of national preparedness. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for information sharing and cooperation with DHS and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Additional resources and information regarding collaboration and information sharing are available through the Department's Office of Intelligence and Analysis.

- **Domestic Violent Extremism IJ (7.5 percent)**
  As stated in the October 2020 DHS Homeland Threat Assessment, domestic violent extremists, including ideologically motivated lone offenders and small groups, present the most persistent and lethal terrorist threat to the Homeland. These violent extremists capitalize on social and political tensions, which have resulted in an elevated threat environment. They utilize social media platforms and other technologies to spread violent extremist ideologies that encourage violence and influence action within the United States. The COVID-19 pandemic has further created an environment that may lead to accelerated mobilization to targeted violence and/or radicalization to domestic terrorism, including driving lawful protests to incite violence, intimidate targets, and promote their violent extremist ideologies.

  Given the rise of domestic violent extremism in recent years, at least one investment must be in support of the urban area's efforts to combat the rise, influence, and spread of domestic violent extremism. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for domestic violent extremism and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments.

  Please note that there currently is not a "Domestic Violent Extremism" Investment Type option in the GRT. Instead applicants should select the "Standard" Investment Type and clearly name the IJ as "Domestic Violent Extremism Priority Area" to ensure it is appropriately accounted for during FEMA's administrative and effectiveness reviews.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

- **Emerging Threats IJ (5 percent)**
  The spread of rapidly evolving and innovative technology, equipment, techniques, and knowledge presents new and emerging dangers for homeland security in the years ahead. Terrorists, criminal actors, and foreign adversaries continue to utilize open source and other technologies to spread misinformation and sow discord in the United States. These actors also remain intent on acquiring WMD capabilities, and rogue nations and non-state actors are aggressively working to develop, acquire, and modernize WMDs that they could use against the Homeland. Meanwhile, biological and chemical materials and technologies with dual use capabilities are more accessible throughout the global market. Due to the proliferation of such information and technologies, rogue nations and non-state actors have more opportunities to develop, acquire, and use WMDs than ever before. Similarly, the proliferation of UASs, artificial intelligence, and biotechnology increase opportunities of threat actors to acquire and use these capabilities against the United States and its interests.

  Given the increased risk of these emerging threats, at least one investment must be in support of the urban area's efforts to address emerging threats. Additionally, the proposed investment must meet or exceed the FY 2021 national priority percentage for emerging threats and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Additional resources and information regarding emerging threats are available through the Countering Weapons of Mass Destruction Office and the Cybersecurity and Infrastructure Security Agency.

VI. DEVELOPMENT OF FUSION CENTER PROJECTS: SHSP AND UASI

If applicable, each applicant must identify a fusion center project that will:

- Indicate alignment to a designated Fusion Center;
- Provide both a brief narrative description and funding itemization for the proposed project activities that directly support the designated fusion center; and
- The descriptive narrative and the financial itemization should align improvement or sustainment requests with fusion center activities as they relate to the Fusion Center Performance Measures found in the Preparedness Grants Manual.

Sample Fusion Center Funding Itemization

A sample project description and funding itemization are below. For the itemized projects, clearly identify the anticipated fusion center performance improvement or sustainment as a result of the proposed funding.

The X Fusion enhancement project will fund:

- *Salaries, benefits, and training for X number of Fusion Center intelligence analysts*
- *Travel costs associated with fusion center analyst training*
- *This project will directly sustain the Center's current capabilities and performance and directly aligns with performance measures 2021.XXX*
- *We anticipate seeing an improvement in the quality and quantity of analytic production and responses to requests for information as a direct result of the funding of this project*

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

The funding itemization for a fusion center project should include the amount and percent of each relevant solution area. As an example:

Solution Area and Amount of Proposed Funding		***Percent of Proposed Funding***
Planning:	*$10,000*	*2%*
Organization:	*$200,000*	*48%*
Equipment:	*$200,000*	*48%*
Training:	*$10,000*	*2%*
Exercises:	*$0*	*0%*
Total:	*$420,000*	*100%*

VII. COMPLETING IJS IN THE GRANT REPORTING TOOL (GRT): SHSP AND UASI

In the Related Documents section of the Grants.gov posting, applicants can find the IJ template and instructions for collecting the required information for investments and projects. Additionally, applicants should utilize the Project Worksheet located in Grants.gov posting to assemble the information required for each project, which will facilitate the input of that information into the GRT.

Applicants must ensure the appropriate National Priority Area "Investment Type" (*Overview Tab – Investment Information Section)* is selected for the corresponding National Priority Area (Cybersecurity, Soft Targets/Crowded Places, Information and Intelligence Sharing and Cooperation, and Emerging Threats). **Important note: there currently is not a "Domestic Violent Extremism" Investment Type option. Applicants should instead select the "Standard" Investment Type and clearly name the IJ as "Domestic Violent Extremism Priority Area" to ensure it is appropriately accounted for during FEMA's administrative and effectiveness reviews.** All non-National Priority Area IJs should have the "Standard" Investment Type option selected.

VIII. DEVELOPMENT OF CONCEPT OF OPERATIONS FOR OPSG

As part of the FY 2021 OPSG application process, each eligible local unit of government at the county or federally recognized tribal government level must develop a strategic plan called a Concept of Operations (CONOP)/Application, which is a formal proposal of action to address a specific situation and forms the basis for Operations Orders, in coordination with state and federal law enforcement agencies, to include, but not limited to CBP/USBP. CONOPs that are developed at the county level should be inclusive of city, county, tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities, and the CONOP/Application should describe participating agencies in the Executive Summary.

CONOP/Application details should include the names of the agencies, points of contact, and individual funding requests. All CONOPs/Applications must be developed in collaboration with the local USBP sector office, the SAA, and the local unit of government. Requests for funding in CONOPs/Applications must be based on risks and the operational enforcement support requirements of its corresponding USBP Sector, as well as the national priorities identified below. USBP Sector offices will forward the CONOPs to USBP Headquarters for

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

vetting and coordination. Applicants will forward corresponding OPSG Applications to the SAA for submission to FEMA. USBP Headquarters will reconcile all submitted CONOPs with the OPSG Applications. FEMA will review and evaluate all CONOPs and OPSG Applications and funding will be allocated based on the review and selection criteria identified in this NOFO.

OPSG Applicants will be required to clearly articulate and identify how the CONOPs will address the national priorities identified below.

- **Information and Intelligence Sharing and Cooperation**
  Effective border security operations rely on access to, analysis of, and the timely sharing of open source, unclassified, and classified information, suspicious activity reports, tips/leads, and actionable intelligence on indicators and behaviors to accurately identify, assess, and mitigate a wide array of threats against the United States, including terrorism, threats to life, targeted violence, and other threats within the DHS mission space. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior leaders receive actionable intelligence and information necessary to inform their decisions and operations. One critical, statutorily required mission of DHS is to deliver intelligence and information to federal, state, local, and tribal governments and private sector partners. Cooperation and information sharing among state, federal, and local partners across all areas of the homeland security enterprise, including both international and domestic terrorism, cybersecurity, transnational organized crime, economic security, border security, immigration enforcement, and other areas is critical to homeland security operations and the prevention of, preparation for, protection against, and responding to acts of terrorism, and other threats to life and criminal acts of targeted violence.

  Given the importance of information sharing and collaboration to effective homeland security solutions, the CONOP must support the recipient's efforts to enhance information sharing and cooperation with DHS and other federal agencies. Applicants must justify persuasively how they will contribute to the information sharing and collaboration purposes of the OPSG program and a culture of national preparedness. Additional resources and information regarding collaboration and information sharing are available through the Department's Office of Intelligence and Analysis.

- **Emerging Threats**
  The spread of rapidly evolving and innovative technology, equipment, techniques, and knowledge presents new and emerging dangers for homeland security in the years ahead. Terrorists, criminal actors, and foreign adversaries continue to utilize open source and other technologies to spread misinformation and sow discord in the United States. These actors also remain intent on remain intent on acquiring WMD capabilities, and rogue nations and non-state actors are aggressively working to develop, acquire, and modernize WMDs that they could use against the Homeland. Meanwhile, biological and chemical materials and technologies with dual use capabilities are more accessible throughout the global market. Due to the proliferation of such information and technologies, rogue nations and non-state actors have more opportunities to develop, acquire, and use WMDs

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

than ever before. Similarly, the proliferation of UASs, artificial intelligence, and biotechnology increase opportunities of threat actors to acquire and use these capabilities against the United States and its interests.

Given the increased risk of these emerging threats, the CONOP must be in support of the recipient's efforts to address emerging threats. Additional resources and information regarding emerging threats are available through the Countering Weapons of Mass Destruction Office and the Cybersecurity and Infrastructure Security Agency.

IX. Detailed Budget

Applicants must provide budget summary worksheets for all funds requested at the time of application. The budget summary worksheets must be complete, reasonable, and cost-effective in relation to the proposed project and should provide the basis of computation of all project-related costs (including management and administrative costs) and any appropriate narrative. FEMA must be able to thoroughly evaluate the projects being submitted based on the information provided. FEMA must be able to determine how much funding is being passed through to subrecipients for each sub-program (UASI, SHSP, OPSG). Consequently, applicants must provide an appropriate level of detail within the budget summary worksheets to clarify what will be purchased and spent. Sample budget summary worksheets are available on the grants.gov posting for the HSGP in the Related Documents tab and may be used as a guide to assist applicants in the preparation of budgets and budget narratives.

11. Other Submission Requirements

Emergency Communications Investments

If an entity uses HSGP funding to support emergency communications investments, the applicant must describe in the investment how proposed communications investments align to needs identified in their SCIP. Effective project alignment will require advance coordination with the SWIC and consultation with governing bodies such as the SIGB or Statewide Interoperability Executive Committee (SIEC), as they serve as the primary steering group for the statewide interoperability strategy. Additionally, recipients should consult subject matter experts serving on governance bodies, such as broadband experts, chief information officers, representatives from utilities, or legal and financial experts, when developing proposals.

12. Intergovernmental Review

An intergovernmental review may be required. Applicants must contact their state's Single Point of Contact (SPOC) to comply with the state's process under Executive Order 12372 (See https://www.archives.gov/federal-register/codification/executive-order/12372.html; https://www.whitehouse.gov/wp-content/uploads/2020/04/SPOC-4-13-20.pdf).

13. Funding Restrictions and Allowable Costs

All costs charged to awards covered by this NOFO must comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements at 2 C.F.R. Part 200, unless otherwise indicated in the NOFO, the terms and conditions of the award, or the Preparedness Grants Manual. This includes, among other requirements, that costs must be

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

incurred, and products and services must be delivered, within the period of performance of the award. *See* 2 C.F.R. § 200.403(h) (referring to budget periods, which for FEMA awards under this program is the same as the period of performance).

Federal funds made available through this award may be used for the purpose set forth in this NOFO, the Preparedness Grants Manual, and the terms and conditions of the award and must be consistent with the statutory authority for the award. Award funds may not be used for matching funds for any other federal awards, lobbying, or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the Federal Government or any other government entity. See the Preparedness Grants Manual for more information on funding restrictions and allowable costs.

a. ***Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services***

Recipients and subrecipients of FEMA federal financial assistance are subject to the prohibitions described in section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (FY 2019 NDAA), Pub. L. No. 115-232 (2018) and 2 C.F.R. §§ 200.216, 200.326, 200.471, and Appendix II to 2 C.F.R. Part 200. Beginning August 13, 2020, the statute – as it applies to FEMA recipients, subrecipients, and their contractors and subcontractors – prohibits obligating or expending federal award funds on certain telecommunications and video surveillance products and contracting with certain entities for national security reasons.

Additional guidance is available in FEMA Policy #405-143-1 Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services (Interim).

Effective August 13, 2020, FEMA recipients and subrecipients **may not** use any FEMA funds under open or new awards to:

(1) Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;

(2) Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system; or

(3) Enter into, extend, or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

I. REPLACEMENT EQUIPMENT AND SERVICES

FEMA grant funding may be permitted to procure replacement equipment and services impacted by this prohibition, provided the costs are otherwise consistent with the requirements of the NOFO and the Preparedness Grants Manual.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

II. DEFINITIONS

Per section 889(f)(2)-(3) of the FY 2019 NDAA and 2 C.F.R. § 200.216, covered telecommunications equipment or services means:

i. Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation, (or any subsidiary or affiliate of such entities);
ii. For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);
iii. Telecommunications or video surveillance services provided by such entities or using such equipment; or
iv. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the People's Republic of China.

Examples of the types of products covered by this prohibition include phones, internet, video surveillance, and cloud servers when produced, provided, or used by the entities listed in the definition of "covered telecommunications equipment or services." *See* 2 C.F.R. § 200.471.

b. *Pre-Award Costs*

Pre-award costs are allowable only with the prior written approval of DHS/FEMA and as included in the award agreement. To request pre-award costs, a written request must be included with the application, signed by the AOR of the entity. The letter must outline what the pre-award costs are for, including a detailed budget break-out of pre-award costs from the post-award costs, and a justification for approval.

c. *Management and Administration (M&A) Costs*

Management and administration (M&A) activities are those directly relating to the management and administration of HSGP funds, such as financial management and monitoring. A maximum of up to five percent of HSGP funds awarded may be retained by the state, and any funds retained are to be used solely for M&A purposes associated with the HSGP award. Subrecipients may also retain a maximum of up to five percent of the funding passed through by the state solely for M&A purposes associated with the HSGP award.

Recipients or subrecipients may apply or credit M&A funding toward the recipient's requirement to allocate funding toward the five National Priority Areas. For example, if a recipient spends $5,000 to manage or administer its funding dedicated toward its enhancing cybersecurity investment, the recipient may credit that funding toward its requirement to allocate at least 7.5 percent of its award to the enhancing cybersecurity National Priority Area.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

A state's HSGP funds for M&A calculation purposes includes the total of its SHSP, UASI, and OPSG awards. While the SAA may retain up to five percent of this total for M&A, the state must still ensure that all subrecipient award amounts meet the mandatory minimum pass-through requirements that are applicable to each HSGP program. To meet this requirement, the percentage of SHSP and UASI funds passed through to local or tribal jurisdictions must be based on the state's total HSGP award prior to withholding any M&A.

In retaining these funds, states may retain a maximum of 2.5 percent of the OPSG allocation, which must be withheld from the pass-through to each subrecipient county or tribe in an equal percentage. The SAA may also retain additional funding from its SHSP award to manage and administer the OPSG award, but that additional amount is also capped at an amount equal to 2.5 percent of the OPSG award. Examples applying this principle:

SAA 1:
SHSP: $1,000,000 OPSG: $2,500,000 UASI: $2,500,000
M&A Maximum: $300,000 (5 percent of $6,000,000)
Maximum M&A for SHSP = $50,000
Maximum M&A for OPSG = $125,000. Of that amount, $62,500 (2.5 percent) may be retained from the OPSG allocation, and the other $62,500 would come from the SHSP allocation. Any amount used to manage and administer OPSG that is charged to SHSP may be above and beyond the $50,000 available to manage the SHSP allocation.
Maximum M&A for UASI = $125,000

SAA 2:
SHSP: $3,500,000 OPSG: $1,000,000
M&A Maximum: $225,000 (5 percent of $4,500,000)
Maximum M&A for SHSP = $175,000
Maximum M&A for OPSG = $50,000. Of that amount, $25,000 (2.5 percent) may be retained from the OPSG allocation, and the other $25,000 would come from the SHSP allocation. Any amount used to manage and administer OPSG that is charged to SHSP may be above and beyond the $175,000 available to manage the SHSP allocation.

HSGP recipients are also reminded that any M&A charged to a recipient's or subrecipient's UASI funding must be directly allocable to administration of the UASI grant program and cannot be used to cover M&A costs that are directly allocable to SHSP or OPSG funding. Similarly, any M&A charged to a recipient's or subrecipient's SHSP or OPSG funding cannot be used to cover M&A costs directly allocable to UASI funding.

Additionally, if a state/territory receives Nonprofit Security Grant Program (NSGP) funding, it may use SHSP M&A funding to cover M&A costs related to the management of NSGP-State awards, and UASI M&A funding to cover M&A costs related to the management of NSGP-Urban Area awards.

Please note, IB 365: Management and Administration Costs in the Homeland Security Grant Program and DHS/FEMA Policy 207-087-1 **do not apply to awards made in FY 2021 under this NOFO**. Please also reference IB 416 for additional clarification on OPSG M&A,

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

but to the extent that there is any conflict between IB 416 and this NOFO, the requirements of this NOFO will apply to FY 2021 awards made under this NOFO.

d. ***Indirect Facilities & Administrative (F&A) Costs***

Indirect costs are allowable under this program as described in 2 C.F.R. Part 200, including 2 C.F.R. § 200.414. Applicants with a current negotiated indirect cost rate agreement that desire to charge indirect costs to an award must provide a copy of their negotiated indirect cost rate agreement at the time of application. Not all applicants are required to have a current negotiated indirect cost rate agreement. Applicants that are not required by 2 C.F.R. Part 200 to have a negotiated indirect cost rate agreement but are required by 2 C.F.R. Part 200 to develop an indirect cost rate proposal must provide a copy of their proposal at the time of application. Applicants who do not have a current negotiated indirect cost rate agreement (including a provisional rate) and wish to charge the de minimis rate must reach out to the FEMA Grants Management Specialist for further instructions. Applicants who wish to use a cost allocation plan in lieu of an indirect cost rate must also reach out to the FEMA Grants Management Specialist for further instructions. Post-award requests to charge indirect costs will be considered on a case-by-case basis and based upon the submission of an agreement or proposal as discussed above or based upon on the de minimis rate or cost allocation plan, as applicable.

f. ***Funds Transfer Restriction***

The recipient is prohibited from transferring funds between programs (includes SHSP, UASI, and OPSG). Recipients can submit an investment/project where funds come from multiple funding sources (e.g., SHSP and UASI), however, recipients are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA.

e. ***Other Direct Costs***

I. **PLANNING**

Planning costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

II. **ORGANIZATION**

Organization costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

III. **EQUIPMENT**

Equipment costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

- **General Purpose Equipment**

HSGP allows expenditures on general purpose equipment if it aligns to and supports one or more core capabilities identified in the Goal and has a nexus to terrorism preparedness. General purpose equipment, like all equipment funded under the HSGP, must be sharable

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

through the EMAC[2] and allowable under 6 U.S.C. § 609, and any other applicable provision of the *Homeland Security Act of 2002*, as amended. Examples of such general-purpose equipment may include:

- Law enforcement vehicles;
- Emergency medical services (EMS) equipment and vehicles;
- Fire service equipment and vehicles, to include hose, pump accessories, and foam concentrate for specialized CBRNE response;
- Interoperability of data systems, such as computer aided dispatch (CAD) and record management systems (RMS); and
- Office equipment for staff[3] engaged in homeland security program activity.

- **Controlled Equipment**
  For decades, the federal government has provided equipment to state, local, and tribal law enforcement agencies (LEAs) through federal grants. Some federal grant programs have assisted LEAs as they carry out their critical missions to keep the American people safe. The equipment acquired by LEAs through these programs includes administrative equipment, such as office furniture and computers. Some federal grant programs also may include military and military-styled equipment, firearms, and tactical vehicles provided by the federal government, including property covered under 22 C.F.R. Part 121 and 15 C.F.R. Part 774 (collectively, "controlled equipment").

  However, not all equipment that is considered controlled equipment is allowable under the HSGP. As discussed further below, there are certain "prohibited equipment" that are not allowable under HSGP. And for the procurement of certain controlled equipment that is allowable under the HSGP, there are additional submission requirements and reviews that must be met before DHS/FEMA will permit funding to be used for this purpose.

  DHS/FEMA will continue to collaborate with federal agency partners to ensure that there is a consistent and reasonable approach to the restrictions placed on controlled equipment expenditures while continuing to support these investments when there is a justifiable need. Further, DHS/FEMA will continue to maintain an awareness of the evolving policy developments related to controlled equipment expenditures and keep grant recipients up to date on future developments.

  Grant funds under this program may not be used for the purchase of equipment not approved by DHS/FEMA. The purchase of weapons and weapons accessories, including ammunition, is not allowed with HSGP funds. Grant funds under this program must also comply with IB 426 and may not be used for the purchase of the following equipment: 1) firearms; 2)

[2] Except for American Samoa and the Commonwealth of the Northern Mariana Islands, which are not required to belong to EMAC at this time.
[3] This applies to all homeland security personnel and is not limited to M&A staff, and costs are to be captured outside the cap on M&A costs

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

ammunition; 3) grenade launchers; 4) bayonets; or 5) weaponized aircraft, vessels, or vehicles of any kind with weapons installed.

IV. TRAINING

Training costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

V. EXERCISES

Exercise costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

VI. PERSONNEL

Personnel hiring, overtime, and backfill expenses are permitted under this grant to perform allowable HSGP planning, organization, training, exercise, and equipment activities. Under OPSG, overtime costs are allowable only in so far as they meet the intent of the program. All recipients and subrecipients of HSGP funds, including SHSP, UASI, and OPSG allocations, may not use more than 50 percent of their awards to pay for personnel activities unless a waiver is approved by FEMA. For more information on the 50 percent personnel cap, please see FEMA IB 421b, Clarification on the *Personnel Reimbursement for Intelligence Cooperation and Enhancement of Homeland Security Act of 2008* (Public Law 110-412) – the PRICE Act. Please see the Preparedness Grants Manual for more information.

VII. OPERATIONAL OVERTIME

Operational overtime costs are allowed under this program. Prior to use of funds for operational overtime, recipients must receive approval from DHS/FEMA. Operational overtime costs are also subject to the 50 percent personnel cap. Please see the Preparedness Grants Manual for more information.

VIII. TRAVEL

Domestic travel costs are allowed under this program, as provided for in this NOFO and in the Preparedness Grants Manual. International travel is not an allowable cost under this program unless approved in advance by DHS/FEMA.

IX. CONSTRUCTION AND RENOVATION

Construction and renovation costs to achieve capability targets related to preventing, preparing for, protecting against, or responding to acts of terrorism are allowed under this program. For construction and renovation costs to be allowed, they must be specifically approved by DHS/FEMA in writing prior to the use of any program funds. Applicants must use the Environmental Planning and Historical Preservation (EHP) approval process. Limits on the total amount of grant funding that may be used for construction or renovation may apply. Additionally, recipients are required to submit SF-424C and SF-424D. Please see the Preparedness Grants Manual for more information.

X. MAINTENANCE AND SUSTAINMENT

Maintenance- and sustainment-related costs, such as maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees, are allowable. Please see the

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Preparedness Grants Manual for more information.

XI. CRITICAL EMERGENCY SUPPLIES

Critical emergency supplies are allowed under this program. Please see the Preparedness Grants Manual for more information.

XII. SECURE IDENTIFICATION

Secure Identification costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

Allowable Cost Matrix

The following matrix provides allowable cost activities that fall under each of the cost categories noted above. Recipients and subrecipients must follow all applicable requirements in 2 C.F.R. Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. HSGP funds may be used to cover the costs for evaluating the impact of these grants on the state or urban area's core capabilities and capability gaps. This list is not exhaustive, therefore, if there are any questions regarding allowable costs, please contact the appropriate HQ FEMA Preparedness Officer. For additional information on allowable costs, see the Preparedness Grants Manual.

Allowable Program Activities	SHSP	UASI	OPSG
Allowable Planning Costs			
Developing hazard/threat-specific annexes	Y	Y	N
Developing and implementing homeland security support programs and adopting ongoing DHS/FEMA national initiatives	Y	Y	N
Developing related terrorism and other catastrophic event prevention activities	Y	Y	N
Developing and enhancing plans and protocols	Y	Y	N
Developing or conducting assessments	Y	Y	N
Hiring of full- or part-time staff or contract/consultants to assist with planning activities	Y	Y	N
Materials required to conduct planning activities	Y	Y	N
Travel/per diem related to planning activities	Y	Y	Y
Overtime and backfill costs (in accordance with operational Cost Guidance)	Y	Y	Y
Issuance of Western Hemisphere Travel Initiative-compliant Tribal identification cards	Y	N	N
Activities to achieve planning inclusive of people with disabilities and others with access and functional needs and limited English proficiency.	Y	Y	N
Coordination with Citizen Corps Councils for public information/education and development of volunteer programs	Y	Y	N
Update governance structures and processes and plans for emergency communications	Y	Y	N
Development, and review and revision of continuity of operations plans	Y	Y	N
Development, and review and revision of the THIRA/SPR continuity of operations plans	Y	Y	N
Allowable Organizational Activities **Note:** Personnel hiring, overtime, and backfill expenses are permitted under this grant only to the extent that such expenses are for the allowable activities within the scope of the grant.			
Program management	Y	Y	N
Development of whole community partnerships	Y	Y	N
Structures and mechanisms for information sharing between the public and private sector	Y	Y	N

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Allowable Program Activities	SHSP	UASI	OPSG
Implementing models, programs, and workforce enhancement initiatives	Y	Y	N
Tools, resources, and activities that facilitate shared situational awareness between the public and private sectors	Y	Y	N
Operational support	Y	Y	N
Utilization of standardized resource management concepts	Y	Y	N
Responding to an increase in the threat level under the National Terrorism Advisory System (NTAS), or needs in resulting from a National Special Security Event	Y	Y	N
Reimbursement for select operational expenses associated with increased security measures at critical infrastructure sites incurred (up to 50 percent of the allocation)	Y	Y	Y
Overtime for information, investigative, and intelligence sharing activities (up to 50 percent of the allocation)	Y	Y	Y
Hiring of new staff positions/contractors/consultants for participation in information/intelligence analysis and sharing groups or fusion center activities (up to 50 percent of the allocation).	Y	Y	Y
Cost of migrating online services to the ".gov" domain	Y	Y	N
Allowable Equipment Categories			
Personal Protective Equipment	Y	Y	Y
Allowable Equipment Categories			
Explosive Device Mitigation and Remediation Equipment	Y	Y	N
CBRNE Operational Search and Rescue Equipment	Y	Y	N
Information Technology	Y	Y	Y
Cybersecurity Enhancement Equipment	Y	Y	N
Interoperable Communications Equipment	Y	Y	Y
Detection	Y	Y	Y
Decontamination	Y	Y	N
Medical countermeasures	Y	Y	Y
Power (e.g., generators, batteries, power cells)	Y	Y	Y
CBRNE Reference Materials	Y	Y	N
CBRNE Incident Response Vehicles	Y	Y	N
Terrorism Incident Prevention Equipment	Y	Y	Y
Physical Security Enhancement Equipment	Y	Y	Y
Inspection and Screening Systems	Y	Y	Y
Animal Care and Foreign Animal Disease	Y	Y	N
CBRNE Prevention and Response Watercraft	Y	Y	N
CBRNE Prevention and Response Unmanned Aircraft	Y	Y	N
CBRNE Aviation Equipment	Y	Y	N
CBRNE Logistical Support Equipment	Y	Y	N
Intervention Equipment (e.g., tactical entry, crime scene processing)	Y	Y	Y
Critical emergency supplies	Y	Y	N
Vehicle acquisition, lease, and rental	N	N	Y
Other Authorized Equipment	Y	Y	Y
Allowable Training Costs			
Overtime and backfill for emergency preparedness and response personnel attending DHS/FEMA-sponsored and approved training classes	Y	Y	N
Overtime and backfill expenses for part-time and volunteer emergency response personnel participating in DHS/FEMA training	Y	Y	N
Training workshops and conferences	Y	Y	Y
Activities to achieve training inclusive of people with disabilities and others with access and functional needs and limited English proficiency	Y	Y	N
Full- or part-time staff or contractors/consultants	Y	Y	Y
Travel	Y	Y	Y

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Allowable Program Activities	SHSP	UASI	OPSG
Supplies	Y	Y	N
Instructor certification/re-certification	Y	Y	N
Coordination with Citizen Corps Councils in conducting training exercises	Y	Y	N
Interoperable communications training	Y	Y	N
Activities to achieve planning inclusive of people with limited English proficiency	Y	Y	N
Immigration enforcement training	Y	Y	Y
Allowable Exercise Related Costs			
Design, Develop, Conduct, and Evaluate an Exercise	Y	Y	N
Full- or part-time staff or contractors/consultants	Y	Y	N
Overtime and backfill costs, including expenses for part-time and volunteer emergency response personnel participating in DHS/FEMA exercises	Y	Y	N
Implementation of HSEEP	Y	Y	N
Activities to achieve exercises inclusive of people with disabilities and others with access and functional needs	Y	Y	N
Travel	Y	Y	N
Supplies	Y	Y	N
Interoperable communications exercises	Y	Y	N
Allowable Exercise Related Costs			
Activities to achieve planning inclusive of people with limited English proficiency	Y	Y	N
Allowable M&A Costs			
Hiring of full- or part-time staff or contractors/consultants to assist with the management of the respective grant program, application requirements, and compliance with reporting and data collection requirements	Y	Y	Y
Development of operating plans for information collection and processing necessary to respond to DHS/FEMA data calls	Y	Y	Y
Overtime and backfill costs	Y	Y	Y
Travel	Y	Y	Y
Meeting related expenses	Y	Y	Y
Authorized office equipment	Y	Y	Y
Recurring expenses such as those associated with cell phones and faxes during the period of performance of the grant program	Y	Y	N
Leasing or renting of space for newly hired personnel during the period of performance of the grant program	Y	Y	N
LETPA Costs			
Integration and interoperability of systems and data, such as CAD and RMS, to facilitate the collection,	Y	Y	N
Maturation, enhancement, and sustainment of designated state and major Urban Area fusion centers	Y	Y	N
Coordination between fusion centers and other operational analytic, and investigative efforts	Y	Y	N
Implementation, maintenance, and sustainment of the Nationwide Suspicious Activity Reporting Initiative	Y	Y	N
Implementation of the "If You See Something, Say Something®" campaign	Y	Y	N
Increase physical security, through law enforcement personnel and other protective measures, by implementing preventive and protective measures at critical	Y	Y	N
Building and sustaining preventive radiological and nuclear detection capabilities	Y	Y	N

E. Application Review Information

1. Application Evaluation Criteria

a. *Programmatic Criteria*

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

I. Risk Methodology

The risk methodology determines the relative risk of terrorism faced by a given area considering the potential risk of terrorism to people, critical infrastructure, and economic security. The analysis includes, but is not limited to, threats from violent domestic extremists, international terrorist groups, and individuals inspired by terrorists abroad. See the Preparedness Grants Manual for additional information on the risk methodology.

NOTE: The THIRA/SPR process is separate from the risk methodology and its results do not affect grant allocations.

The Risk Methodology is used to inform allocations under HSGP. For more information on the SHSP, UASI, and OPSG allocation processes, please see Section B.1 of this NOFO, "Available Funding for the NOFO."

II. Application Evaluation Criteria

FEMA will evaluate the FY 2021 HSGP applications for completeness, adherence to programmatic guidelines, and anticipated effectiveness of the proposed investments. FEMA's review will include verification that each IJ and project:

- Aligns with at least one core capability identified in the Goal;
- Demonstrates how investments support closing capability gaps or sustaining capabilities identified in the THIRA/SPR process; and
- Supports a NIMS-typed resource and whether those assets are deployable/shareable to support emergency or disaster operations per existing EMAC agreements.

In addition to the above, FEMA will evaluate whether proposed projects are: 1) both feasible and effective at reducing the risks for which the project was designed; and 2) able to be fully completed within the three-year period of performance. FEMA will use the information provided in the application and after the submission of the first BSIR to determine the feasibility and effectiveness of a grant project. To that end, IJs should include:

- An explanation of how the proposed project(s) will achieve objectives as identified in the SPR, including expected long-term impact where applicable, and which core capability gap(s) it helps to close and how;
- A summary of the status of planning and design efforts accomplished to date (e.g., included in a capital improvement plan); and
- A project schedule with clear milestones.

Recipients are expected to conform, as applicable, with accepted engineering practices, established codes, standards, modeling techniques, and best practices, and participate in the development of case studies demonstrating the effective use of grant funds, as requested.

FEMA will also review any submitted National Priority Area-aligned IJs and projects to ensure they meet the minimum spend requirement. Further information on how the National Priority Area IJs and projects will be reviewed for effectiveness is included in the Review and Selection Process section below.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

b. ***Financial Integrity Criteria***

Prior to making a federal award, FEMA is required by 31 U.S.C. § 3354, as amended by the Payment Integrity Information Act of 2019, Pub. L. No. 116-117 (2020); 41 U.S.C. § 2313; and 2 C.F.R. § 200.206 to review information available through any Office of Management and Budget (OMB)-designated repositories of governmentwide eligibility qualification or financial integrity information, including whether the applicant is suspended or debarred. FEMA may also pose additional questions to the applicant to aid in conducting the pre-award risk review. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant:

i. Financial stability.
ii. Quality of management systems and ability to meet management standards.
iii. History of performance in managing federal award.
iv. Reports and findings from audits.
v. Ability to effectively implement statutory, regulatory, or other requirements.

c. ***Supplemental Financial Integrity Criteria and Review***

Prior to making a federal award where the anticipated total federal share will be greater than the simplified acquisition threshold, currently $250,000:

i. FEMA is required to review and consider any information about the applicant, including information on the applicant's immediate and highest-level owner, subsidiaries, and predecessors, if applicable, that is in the designated integrity and performance system accessible through the System for Award Management (SAM), which is currently the Federal Awardee Performance and Integrity Information System (FAPIIS).

ii. An applicant, at its option, may review information in FAPIIS and comment on any information about itself that a federal awarding agency previously entered.

iii. FEMA will consider any comments by the applicant, in addition to the other information in FAPIIS, in making a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when completing the review of risk posed by applicants as described in 2 C.F.R. § 200.206.

2. Review and Selection Process

a. ***SHSP and UASI***

All proposed investments will undergo a federal review by DHS/FEMA to verify compliance with all administrative and eligibility criteria identified in the NOFO. The federal review will be conducted by FEMA HQ Preparedness Officers. FEMA HQ Preparedness Officers will use a checklist to verify compliance with all administrative and eligibility criteria identified in the NOFO. Recipients must be able to demonstrate how investments support closing capability gaps or sustaining capabilities identified in the THIRA/SPR process. IJs will be reviewed at both the investment and project level.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Emergency communications investments will be jointly reviewed by FEMA and the DHS Office of Emergency Communications (OEC) to verify compliance with SAFECOM guidance. FEMA and OEC will coordinate directly with the recipient on any compliance concerns and will provide technical assistance as necessary to help ensure full compliance.

Additional Effectiveness Evaluation Criteria for the National Priority Areas

FEMA will evaluate the FY 2021 HSGP IJs and projects submitted in support of the National Priority Areas for anticipated effectiveness. FEMA's review will include verification that each IJ or project meets the National Priority Area required spend percentages.

Cybersecurity investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

Soft Targets/Crowded Places investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

Information Sharing and Cooperation Investments will be reviewed by DHS/FEMA, DHS Office of Intelligence and Analysis, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

For additional information on Fusion Center requirements, please see the Preparedness Grants Manual.

Domestic violent extremism investments will be reviewed by DHS/FEMA, DHS Office of Intelligence and Analysis, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the scoring criteria set forth in this NOFO.

Emerging threats investments will be reviewed by DHS/FEMA, DHS Countering Weapons of Mass Destruction Office, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

FEMA will determine whether the proposed approach is clear, logical, and reasonable to address the priority areas of interest and contribute to a culture of national preparedness. This part considers factors such as the objectives and strategies proposed to address the priority area, how the objectives and strategies overcome legal, political, or practical obstacles to reduce overall risk, the process and criteria to select additional relevant projects, and the approach to monitor awards to satisfy the funding percentage allocations.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

For applicants that elect to submit IJs and project-level details for the National Priority Areas at the time of application, effectiveness will be evaluated prior to award. If the projects are found to not sufficiently align with the National Priority Area(s), applicants may have funds placed on hold (up to 30 percent) until the projects are revised to satisfactorily address the National Priority Areas.

For applicants that elect to submit IJs and project-level details for the National Priority Areas as part of the December 2021 BSIR, they will have funds placed on hold in the amount of 30 percent (the sum of all National Priority Area). The hold will be released only after their December 2021 BSIR submission has been reviewed, and projects related to the National Priority Areas deemed in alignment by DHS/FEMA.

SAAs are still required to meet pass-through requirements even if funds are on hold related to the National Priority Areas.

To that end, IJs should include:

- How the proposed investment addresses the National Priority Area;
- An explanation of how the proposed projects were selected and will achieve objectives and strategies to build or sustain the core capability gaps identified in the SPR, including expected long-term impact where applicable;
- A summary of laws, policies and practices that can be enhanced, eliminated, or otherwise changed in order to achieve the goals of the project and foster a culture of national preparedness; and
- A summary of the collaboration efforts to prevent, prepare for, protect against, and respond to acts of terrorism as well as anticipated outcomes of the project.

For FY 2021 SHSP and UASI investments and projects related to the National Priority Areas, effectiveness will be evaluated based on the following five factors:

- Investment Strategy (30%): Proposals will be evaluated based on the quality and extent to which applicants describe an effective strategy that demonstrates that proposed projects support the program objective of preventing, preparing for, protecting against, and responding to acts of terrorism, to meet its target capabilities, and otherwise reduce the overall risk to the high-risk urban area, the state, or the Nation.
- Budget (10%): Proposals will be evaluated based on the extent to which applicants describe a budget plan for each investment demonstrating how the applicant will maximize cost effectiveness of grant expenditures.
- Impact/Outcomes (30%): Proposals will be evaluated on how this investment helps the jurisdiction close capability gaps identified in its SPR and addresses the relevant National Priority Area outlined in this NOFO. Further, proposals will be evaluated on their identification and estimated improvement of core capability(ies), the associated standardized target(s) that align with their proposed investment, and the ways in which the applicant will measure and/or evaluate improvement.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

- Collaboration (30%): Proposals will be evaluated based on the degree to which the proposal adequately details how the recipient will use investments and other means to overcome existing logistical, technological, legal, policy, and other impediments to collaborating, networking, sharing information, cooperating, and fostering a culture of national preparedness with federal, state, tribal, and local governments, as well as other regional and nonprofit partners. Collaboration should improve efforts to prevent, prepare for, protect against, and respond to acts of terrorism, to meet target capabilities, support the national security mission of DHS and other federal agencies, and to otherwise reduce the overall risk to the high-risk urban area, the state, or the Nation. In evaluating applicants under this factor FEMA will consider the information provided by the applicant and may also consider relevant information from other sources.
- Past Performance (additional consideration): Proposals will be evaluated based on the applicants demonstrated capability to execute the proposed investments. In evaluating applicants under this factor FEMA will consider the information provided by the applicant and may also consider relevant information from other sources.

b. *OPSG*

Applications will be reviewed by the SAA and USBP Sector Headquarters for completeness and adherence to programmatic guidelines and evaluated for anticipated feasibility, need, and impact of the Operations Orders. For more information on Operations Orders and other requirements of OPSG, see the Preparedness Grants Manual.

DHS/FEMA will verify compliance with all administrative and eligibility criteria identified in the NOFO and required submission of Operations Orders and Inventory of Operations Orders by the established due dates. DHS/FEMA and USBP will use the results of both the risk analysis and the federal review by DHS/FEMA to make recommendations for funding to the Secretary of Homeland Security.

FY 2021 OPSG funds will be allocated competitively based on risk-based prioritization using the OPSG Risk Assessment described above. Final funding allocations are determined by the Secretary of Homeland Security, who may consider information and input from various law enforcement offices or subject-matter experts within the Department. Factors considered include, but are not limited to threat, vulnerability, miles of the border, and other border-specific law enforcement intelligence, as well as the feasibility of FY 2021 Operations Orders to designated localities within border states and territories.

F. Federal Award Administration Information

1. Notice of Award

Before accepting the award, the AOR and recipient should carefully read the award package. The award package includes instructions on administering the grant award and the terms and conditions associated with responsibilities under federal awards. **Recipients must accept all conditions in this NOFO and the Preparedness Grants Manual as well as any specific terms and conditions in the Notice of Award to receive an award under this program.**

See the Preparedness Grants Manual for information on Notice of Award.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

2. Pass-Through Requirements

Awards made to the SAA for HSGP carry additional pass-through requirements. Pass-through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. Four requirements must be met to pass-through grant funds:

- The SAA must make a firm written commitment to passing through grant funds to subrecipients;
- The SAA's commitment must be unconditional (i.e., no contingencies for the availability of SAA funds);
- There must be documentary evidence (i.e., award document, terms, and conditions) of the commitment; and
- The award terms must be communicated to the subrecipient.

Timing and Amount

The SAA must pass-through at least 80 percent of the funds awarded under the SHSP and UASI to local or tribal units of government within 45 calendar days of receipt of the funds. "Receipt of the funds" occurs either when the SAA accepts the award or 15 calendar days after the SAA receives notice of the award, whichever is earlier.

SAAs are sent notification of HSGP awards via the GPD's ND Grants system. If an SAA accepts its award within 15 calendar days of receiving notice of the award in the ND Grants system, the 45-calendar days pass-through period will start on the date the SAA accepted the award. Should an SAA not accept the HSGP award within 15 calendar days of receiving notice of the award in the ND Grants system, the 45-calendar days pass-through period will begin 15 calendar days after the award notification is sent to the SAA via the ND Grants system.

It is important to note that the period of performance start date does not directly affect the start of the 45-calendar days pass-through period. For example, an SAA may receive notice of the HSGP award on September 20, 2021, while the period of performance dates for that award are October 1, 2021, through September 30, 2024. In this example, the 45-day pass-through period will begin on the date the SAA accepts the HSGP award or October 5, 2021 (15 calendar days after the SAA was notified of the award), whichever date occurs first. The period of performance start date of October 1, 2021 would not affect the timing of meeting the 45-calendar day pass-through requirement.

Other SHSP and UASI Pass-Through Requirements

The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. A letter of intent (or equivalent) to distribute funds is not considered sufficient. The pass-through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, or the Commonwealth of the Northern Mariana Islands. The Commonwealth of Puerto Rico is required to comply with the pass-through requirement, and its SAA must also obligate at least 80 percent of the funds to local units of government within 45 calendar days of receipt of the funds.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Under SHSP, the SAA may retain more than 20 percent of funding for expenditures made by the state on behalf of the local unit(s) of government. This may occur only with the written consent of the local unit of government, specifying the amount of funds to be retained and the intended use of funds. States shall review their written consent agreements yearly and ensure that they are still valid. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2021, unless the written consent review indicates the local government is no longer in agreement. If modifications to the existing agreement are necessary, the SAA should contact their assigned FEMA HQ Preparedness Officer.

Additional OPSG Requirements

The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county-level or equivalent Operational Order/Fragmentary Operations Order budget has been reviewed and approved through an official electronic mail notice issued by DHS/FEMA removing this special programmatic condition.

3. Administrative and National Policy Requirements

In addition to the requirements of in this section and in this NOFO, FEMA may place specific terms and conditions on individual awards in accordance with 2 C.F.R. Part 200.

In addition to the information regarding DHS Standard Terms and Conditions and Ensuring the Protection of Civil Rights, see the Preparedness Grants Manual for additional information on administrative and national policy requirements, including the following:

- EHP Compliance
- FirstNet
- NIMS Implementation
- SAFECOM

a. *DHS Standard Terms and Conditions*

All successful applicants for DHS grant and cooperative agreements are required to comply with DHS Standard Terms and Conditions, which are available online at DHS Standard Terms and Conditions.

The applicable DHS Standard Terms and Conditions will be those in effect at the time the award was made. What terms and conditions will apply for the award will be clearly stated in the award package at the time of award.

b. *Ensuring the Protection of Civil Rights*

As the Nation works towards achieving the National Preparedness Goal, it is important to continue to protect the civil rights of individuals. Recipients and subrecipients must carry out their programs and activities, including those related to the building, sustainment, and delivery of core capabilities, in a manner that respects and ensures the protection of civil rights for protected populations.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

Federal civil rights statutes, such as Section 504 of the Rehabilitation Act of 1973 and Title VI of the Civil Rights Act of 1964, along with FEMA regulations, prohibit discrimination on the basis of race, color, national origin, sex, religion, age, disability, limited English proficiency, or economic status in connection with programs and activities receiving federal financial assistance from FEMA.

The DHS Standard Terms and Conditions include a fuller list of the civil rights provisions that apply to recipients. These terms and conditions can be found in the DHS Standard Terms and Conditions. Additional information on civil rights provisions is available at https://www.fema.gov/about/offices/equal-rights.

Monitoring and oversight requirements in connection with recipient compliance with federal civil rights laws are also authorized pursuant to 44 C.F.R. Part 7.

c. ***EHP Compliance***

As a federal agency, FEMA is required to consider the effects of its actions on the environment and historic properties to ensure that all activities and programs funded by FEMA, including grant-funded projects, comply with federal EHP laws, Executive Orders, regulations, and policies, as applicable.

Recipients and subrecipients proposing projects that have the potential to impact the environment, including, but not limited to, the construction of communication towers, modification or renovation of existing buildings, structures, and facilities, or new construction including replacement of facilities, must participate in the FEMA EHP review process. The EHP review process involves the submission of a detailed project description along with any supporting documentation requested by FEMA in order to determine whether the proposed project has the potential to impact environmental resources or historic properties.

In some cases, FEMA is also required to consult with other regulatory agencies and the public in order to complete the review process. Federal law requires EHP review to be completed before federal funds are released to carry out proposed projects. FEMA may not be able to fund projects that are not incompliance with applicable EHP laws, Executive Orders, regulations, and policies.

DHS and FEMA EHP policy is found in directives and instructions available on the FEMA.gov EHP page, the FEMA website page that includes documents regarding EHP responsibilities and program requirements, including implementation of the National Environmental Policy Act and other EHP regulations and Executive Orders.

The GPD EHP screening form is located at https://www.fema.gov/media-library/assets/documents/90195. Additionally, all recipients under this funding opportunity are required to comply with the FEMA GPD EHP Policy Guidance, FEMA Policy #108-023-1, available at https://www.fema.gov/media-library/assets/documents/85376.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

d. ***NIMS Implementation***

In expending funds under this program, recipients that are state, local, tribal, or territorial governments must ensure and maintain adoption and implementation of NIMS. The state, local, tribal, or territorial government must show adoption of NIMS during any point of the period of performance. The list of objectives used for progress and achievement reporting is at https://www.fema.gov/emergency-managers/nims/implementation-training.

Emergency management and incident response activities require carefully managed resources (personnel, teams, facilities, equipment, and/or supplies) to meet incident needs. Using standardized resource management concepts such as typing, credentialing, and inventorying, promote a strong national mutual aid capability needed to support delivery of core capabilities. Additional information on resource management, NIMS resource typing definitions, job titles, and position qualifications is on FEMA's website at https://www.fema.gov/emergency-managers/nims/components.

FEMA developed the National Incident Management System Guideline for the National Qualification System to describe national credentialing standards and to provide written guidance regarding the use of those standards. This guideline describes credentialing and typing processes and identifies tools which Federal Emergency Response Officials and emergency managers at all levels of government may use both routinely and to facilitate multijurisdictional coordinated responses.

Although state, local, tribal, and private sector partners (including nongovernmental organizations) are not required to credential their personnel in accordance with these guidelines, FEMA strongly encourages them to do so to leverage the federal investment in the Federal Information Processing Standards 201 infrastructure and to facilitate interoperability for personnel deployed outside their home jurisdiction.

Additional information about NIMS in general is available at https://www.fema.gov/emergency-managers/nims.

e. ***Emergency Communications Investments***

If an entity uses HSGP funding to support emergency communications investments, the following requirements shall apply to all such grant-funded communications investments in support of the emergency communications priorities and recognized best practices:

- The signatory authority for the SAA must certify in writing to DHS/FEMA their compliance with the *SAFECOM Guidance*. The certification letter should be coordinated with the SWIC for each state and must be uploaded to ND Grants at the time of the first Program Performance Report (PPR) submission.
- All states and territories must designate a full-time SWIC who has the authority and resources to actively improve interoperability with emergency management and response agencies across all levels of government, to include establishing statewide plans, policies, and procedures, and coordinating decisions on communications investments funded through federal grants. Note that the designated full-time SWIC may also be the state's or territory's cybersecurity point of contact. SWIC status

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

information will be maintained by CISA and will be verified by FEMA GPD through programmatic monitoring activities.

- By the period of performance end date, all states and territories must update the SCIP, with a focus on communications resilience/continuity, to include assessment and mitigation of all potential risks identified in the SCIP: natural disasters, accidental damage (human failures), intentional damage (sabotage, terrorism), cybersecurity, etc. Following the initial update, the SCIP should be updated on an annual basis. SCIP status information will be maintained by CISA and will be verified by FEMA GPD through programmatic monitoring activities.

All states and territories must test their emergency communications capabilities and procedures (as outlined in their operational communications plans) in conjunction with regularly planned exercises (separate/addition emergency communications exercises are not required) and must submit an After Action Report/Improvement Plan (AAR/IP) to the Homeland Security Exercise and Evaluation Program's (HSEEP) electronic message inbox at hseep@fema.gov within 90 days of exercise completion. Exercises should be used to both demonstrate and validate skills learned in training and to identify gaps in capabilities. Resilience and continuity of communications should be tested during training and exercises to the greatest extent possible. Further, exercises should include participants from multiple jurisdictions, disciplines, and levels of government and include emergency management, emergency medical services, law enforcement, interoperability coordinators, public health officials, hospital officials, officials from colleges and universities, and other disciplines and private sector entities, as appropriate. Findings from exercises should be used to update programs to address gaps in emergency communications as well as emerging technologies, policies, and partners. Recipients are encouraged to increase awareness and availability of emergency communications exercise opportunities across all levels of government.

States, territories, and other eligible grant recipients are advised that HSGP funding may be used to support communications planning (including the cost of hiring a SWIC, participation in governance bodies and requirements delineated above), training, exercises, and equipment costs. Costs for transitioning to the FirstNet network may also be eligible. More information regarding FirstNet can be found in the Preparedness Grants Manual.

4. Reporting

Recipients are required to submit various financial and programmatic reports as a condition of award acceptance. Future awards and funds drawdown may be withheld if these reports are delinquent.

See the Preparedness Grants Manual for information on reporting requirements, as well as the above section, "Emergency Communications Investments," specific reporting requirements for emergency communications investments.

5. Monitoring and Oversight

Per 2 C.F.R. § 200.337, FEMA, through its authorized representatives, has the right, at all reasonable times, to make site visits or conduct desk reviews to review project accomplishments and management control systems to review award progress and to provide

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

any required technical assistance. During site visits or desk reviews, FEMA will review recipients' files related to the award. As part of any monitoring and program evaluation activities, recipients must permit FEMA, upon reasonable notice, to review grant-related records and to interview the organization's staff and contractors regarding the program. Recipients must respond in a timely and accurate manner to FEMA requests for information relating to the award.

See the Preparedness Grants Manual for information on monitoring and oversight.

G. DHS Awarding Agency Contact Information

1. Contact and Resource Information

a. ***Program Office Contact***

FEMA has assigned state-specific Preparedness Officers for the HSGP. If you do not know your Preparedness Officer, please contact CSID by phone at (800) 368-6498 or by email at askcsid@fema.dhs.gov, Monday through Friday, 9:00 AM – 5:00 PM ET.

b. ***Centralized Scheduling and Information Desk (CSID)***

CSID is a non-emergency comprehensive management and information resource developed by FEMA for grants stakeholders. CSID provides general information on all FEMA grant programs and maintains a comprehensive database containing key personnel contact information at the federal, state, and local levels. When necessary, recipients will be directed to a federal point of contact who can answer specific programmatic questions or concerns. CSID can be reached by phone at (800) 368-6498 or by e-mail at askcsid@fema.dhs.gov, Monday through Friday, 9 AM – 5 PM ET.

c. ***GPD Award Administration Division***

GPD's Award Administration Division (AAD) provides support regarding financial matters and budgetary technical assistance. Additional guidance and information can be obtained by contacting the AAD's Help Desk via e-mail at ASK-GMD@fema.dhs.gov.

d. ***Equal Rights***

The FEMA Office of Equal Rights (OER) is responsible for compliance with and enforcement of federal civil rights obligations in connection with programs and services conducted by FEMA and recipients of FEMA financial assistance. All inquiries and communications about federal civil rights compliance for FEMA grants under this NOFO should be sent to FEMA-CivilRightsOffice@fema.dhs.gov.

e. ***Environmental Planning and Historic Preservation***

GPD's EHP Team provides guidance and information about the EHP review process to recipients and subrecipients. All inquiries and communications about GPD projects under this NOFO or the EHP review process, including the submittal of EHP review materials, should be sent to gpdehpinfo@fema.dhs.gov.

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

2. Systems Information

a. ***Grants.gov***

For technical assistance with Grants.gov, call the customer support hotline 24 hours per day, 7 days per week (except federal holidays) at (800) 518-4726 or e-mail at support@grants.gov.

b. ***Non-Disaster (ND) Grants***

For technical assistance with the ND Grants system, please contact the ND Grants Helpdesk at ndgrants@fema.gov or (800) 865-4076, Monday through Friday, 9:00 AM – 6:00 PM ET. User resources are available at https://www.fema.gov/grants/guidance-tools/non-disaster-grants-management-system

c. ***Payment and Reporting System (PARS)***

FEMA uses the Payment and Reporting System (PARS) for financial reporting, invoicing, and tracking payments. FEMA uses the Direct Deposit/Electronic Funds Transfer (DD/EFT) method of payment to recipients. To enroll in the DD/EFT, recipients must complete a Standard Form 1199A, Direct Deposit Form. If you have questions about the online system, please call the Customer Service Center at (866) 927-5646 or email ask-GMD@fema.dhs.gov.

d. ***Supplemental Information: Reporting Systems***

In addition to ND Grants, the following information systems are used for the submission of required reports:

- **GRT**: Information on the GRT can be found in the Preparedness Grants Manual.
- **Unified Reporting Tool (URT):** Information on the URT can be found in the Preparedness Grants Manual.

H. Additional Information

GPD has developed the Preparedness Grants Manual to guide applicants and recipients of grant funding on how to manage their grants and other resources. Recipients seeking guidance on policies and procedures for managing preparedness grants should reference the Preparedness Grants Manual for further information. Examples of information contained in the Preparedness Grants Manual include:

- Actions to Address Noncompliance
- Audits
- Case Studies and Use of Grant-Funded Resources During Real-World Incident Operations
- Community Lifelines
- Conflicts of Interest in the Administration of Federal Awards and Subawards
- Disability Integration
- National Incident Management System
- Payment Information
- Period of Performance Extensions
- Procurement Integrity

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

- Record Retention
- Whole Community Preparedness
- Other Post-Award Requirements

1. Termination Provisions

FEMA may terminate a federal award in whole or in part for one of the following reasons. FEMA and the recipient must still comply with closeout requirements at 2 C.F.R. §§ 200.344-200.345 even if an award is terminated in whole or in part. To the extent that subawards are permitted under this NOFO, pass-through entities should refer to 2 C.F.R. § 200.340 for additional information on termination regarding subawards.

a. ***Noncompliance***

If a recipient fails to comply with the terms and conditions of a federal award, FEMA may terminate the award in whole or in part. If the noncompliance can be corrected, FEMA may first attempt to direct the recipient to correct the noncompliance. This may take the form of a Compliance Notification. If the noncompliance cannot be corrected or the recipient is non-responsive, FEMA may proceed with a Remedy Notification, which could impose a remedy for noncompliance per 2 C.F.R. § 200.339, including termination. Any action to terminate based on noncompliance will follow the requirements of 2 C.F.R. §§ 200.341-200.342 as well as the requirement of 2 C.F.R. § 200.340(c) to report in FAPIIS the recipient's material failure to comply with the award terms and conditions. See also the section on Actions to Address Noncompliance in this NOFO or in the Preparedness Grants Manual.

b. ***With the Consent of the Recipient***

FEMA may also terminate an award in whole or in part with the consent of the recipient, in which case the parties must agree upon the termination conditions, including the effective date, and in the case of partial termination, the portion to be terminated.

c. ***Notification by the Recipient***

The recipient may terminate the award, in whole or in part, by sending written notification to FEMA setting forth the reasons for such termination, the effective date, and in the case of partial termination, the portion to be terminated. In the case of partial termination, FEMA may determine that a partially terminated award will not accomplish the purpose of the federal award, so FEMA may terminate the award in its entirety. If that occurs, FEMA will follow the requirements of 2 C.F.R. §§ 200.341-200.342 in deciding to fully terminate the award.

2. Period of Performance Extensions

Extensions to the period of performance (POP) for this program are allowed. Extensions to the POP identified in the award will only be considered through formal, written requests to the recipient's FEMA Preparedness Officer and must contain specific and compelling justifications as to why an extension is required. Recipients are advised to coordinate with the FEMA Preparedness Officer as needed when preparing an extension request. Please see the Preparedness Grants Manual for more information.

LOS ANGELES COUNTY/DEPARTMENT OF AUDITOR-CONTROLLER

SHARED SERVICES DIVISION

GRANT PAYMENT REQUEST

SECTION A: SUBMITTING YOUR REQUEST

Please submit Grant Payment Request Form along with **legible** supporting documents to:

Grants@auditor.lacounty.gov

In the event e-mail is not available, you can mail your Grant payment request to (please do **not** fax or send duplicates):

Department of Auditor-Controller
Shared Services Division / Attn: Grants Unit
3470 Wilshire Blvd., Suite 812
Los Angeles, CA 90010

1. Grant Name & Year:

SECTION B: SUB-RECIPIENT'S INFORMATION

1. Sub-recipient's Name: (reimbursement check will be made payable to a payee entered here)	**3.** Taxpayer ID #:	**4.** Contact's Name:
2. Mailing Address (please let us know where you want your check delivered, including attention line if necessary):		**4.** Contact's phone:
		4. Contact's e-mail:

SECTION C: DETAIL PAYMENT REQUEST INFORMATION

1. SOLUTION AREA (e.g. equipment, training, planning, exercise, organization)	2. PROJECT # (e.g. 011.22)	4. EHP required? (Environmental & Historic Preservation)		5. VENDOR'S INVOICE # (Maximum of 5 invoices)	6. PURCHASE METHOD (including Training)			7.CLAIM AMOUNT (indicate the amount per each line)
		No	Yes (attach State Approval)		If Competitive, indicate the # of bids.	Non-Competitive Bid	Sole Source	
				8. TOTAL				$ -

SECTION D: SUB-RECIPIENT'S CERTIFICATION

I certify that (please use the checkbox):

☐ **1.** I am the duly authorized officer of the claimant herein and this claim is in all respect true and correct. All expenditures were made in accordance with applicable laws, rules, regulations and grant conditions and assurances.

☐ **2.** All instructions for this form were followed and all the supporting documentation (per instructions) is included with this claim.

3. _____ _____
AUTHORIZED SIGNATURE DATE

4. _____ _____
AUTHORIZED PRINTED NAME AUTHORIZED TITLE

5. AUTHORIZED CONTACT INFORMATION **(If different from Section B)**:

PHONE # _____

E-MAIL: _____

SECTION E: FOR SSD USE ONLY

STAMP WITH RECEIVED DATE HERE:

ASSIGNED INVOICE NO.:

NOTE: This Form is intended for Internal SSD review purpose only.

Revised on December 2019

COUNTY OF LOS ANGELES
DEPARTMENT OF AUDITOR-CONTROLLER / SHARED SERVICES DIVISION

INSTRUCTIONS TO COMPLETE THE GRANT PAYMENT REQUEST

Purpose of these instructions:

To assist sub-recipients in completing the Grant Payment Request. We appreciate your participation in this program, for questions or suggestions please use our e-mail below to contact us. **Please do not send these instructions to us, they are to be used for your guidance only.**

SECTION A: GENERAL INSTRUCTIONS FOR SUBMISSION OF GRANT PAYMENT REQUEST

In numeral **1** of this section, please enter the name and year of the grant program that you are submitting for payment. In addition, please help us expedite the process of your Homeland Security claims by:

- Completing the Grant payment request correctly and according to these instructions.
- Submitting your Grant payment request using our e-mail --> **Grants@auditor.lacounty.gov** (please do **not** fax documents).
- Sending your Grant payment request only once (we do not require original documents and duplicates will slow down our process).
- Using the checkboxes to ensure all the required supporting documents and files accompany your Grant payment request. Supporting documents are flagged for your convenience with a checkbox within the corresponding areas.
- Ensuring that all documents attached to your Grant payment requests are legible.
- Submitting Grant payment request timely. We do **not** guarantee the process of Grant payment requests that are submitted late or too close to the final due date. Reimbursable expenditures need to be charged within the performance period of the grant and submitted to us as soon as they are incurred.

SECTION B: SUB-RECIPIENT'S INFORMATION

The following numerals provide the instructions to fill in the corresponding numeral in the form:

1. Please enter the name of the agency requesting for payment. The name of the agency should be typed according to its signed agreement and as you need it to appear in the payee line of the reimbursement check.

2. Please enter the complete address (street number and name, city, zip code) and attention line where you will need to receive the reimbursement check. Please note that this is not necessary for L.A. County departments.

3. Please enter the tax ID of the governmental entity requesting payment. Please leave blank for L.A. County departments.

4. Please enter the information of the person that can assist us with detail claim questions.

SECTION C: DETAIL PAYMENT REQUEST INFORMATION:

In order to expedite your Grant payment request, in this area's grid, include a **maximum of five (5) invoices or reimbursements charges (one charge or one invoice per line)**. The invoices or charges need to share the same solution area, project #.

The following numerals provide the instructions to fill in the corresponding numeral in the form:

1. Enter the solution area corresponding to the claim. This information is found in the latest budget of the grant. Examples of solution areas are: equipment, training, planning or exercise.

2. Enter the project # corresponding to the claim. This information is found in the latest budget of the grant. An example of Item # is 17.020.

4. Check with an X under either yes or no according to the claim's Environmental & Historical Preservation (EHP) requirements from the State. EHP approval needs to be obtained from the State **prior** to the start of the project on certain equipment items (see AEL description) or training/exercise projects. Please attach the following:

a) ☐ **State EHP Approval:** if required by the state for your claim.

SECTION C: (Continued)

5. If the expenditures that you are claiming were purchased thru a vendor or contractor, please enter the invoice # in the grid area. Please note that you are responsible for following acceptable purchasing policies and for documenting your procurement process. Additionally please include the following documentation with your claim:

a) ☐ **Copy of the invoice**: Please attach an invoice that provides sufficient information to be used as a cross reference with the items described in your grant line item and AEL #. When the invoice includes items that are not being claimed or that belong to different claims or grants, please circle and designate on the invoice the items that you are requesting for reimbursement. Each item circled must have a project #, a funding source, and a total. Purchase orders and price quotes will not be accepted in the place of the invoice.

b) ☐ **Copy of the purchase order**

c) ☐ **Print out of the corresponding AEL # (Authorized Equipment List number).** The AEL listing can be found at: https://www.rkb.us/fema_grants.cfm

d) ☐ **Proof of payment of the invoice:** The proof of payment for L.A. County Departments is the printout from e-CAPS showing that the check cleared the bank. The proof of payment for **other** than L.A. County Department is the corresponding copy of the bank's cleared check .

e) ☐ **Calculations for use tax paid:** When use tax is paid, clearly show the calculations of the use tax in the invoice included in your claim.

f) ☐ **Proof of payment of the use tax**: Please provide official documents which authenticate the remittance of the use tax to the state, the amount and the reference to the invoice being claimed.

g) ☐ **Federal Debarment Listing:** Please provide a screen print out of the queried Federal Debarment Listing at http://www.sam.gov/portal/public/SAM. (you will need a username and a password; if you don't please create an account) . The listing needs to be queried **prior** to the selection of the vendor.

6. If you are claiming services, supplies, training related costs, or any other type of items purchased thru a vendor or contractor or government agency, please indicate with an X the method that you used to acquire the items (do **not** leave blank or mark more than one). Please note that competitive bid, non-competitive bid or sole source are the only valid purchasing methods.

a) ☐ **Competitive Bid:** for projects that received more than one bid. Please indicate number of bids received (must be more than one).

b) ☐ **Non-Competitive Bid:** for single bid purchases of $250,000 or more (effective June 21, 2018) to a single vendor or a single project, please attach the approval from the State. The approval needs to be requested from the State **prior** to the start of the project.

c) ☐ **Sole Source:** for non-bid purchases of $250,000 or more effective (June 21, 2018) to a single vendor or a single project, please attach the approval from the State. The approval needs to be requested from the State **prior** to the start of the project.

7. Enter the amount of your claim after you verify that your budget is sufficient to cover your request. When the amount of the budget is not sufficient, please let your Program Coordinator know of the possible need for budget modification.

8. Enter the "Total Amount" by adding the subtotal claims included in each line.

SECTION D: SUB-RECIPIENT'S CERTIFICATION

The following numerals provide the instructions to fill in the corresponding numeral in the form:

1. Please read and check the box provided if you are an authorized signor.

2. Please read and check the box provided if you are an authorized signor.

3. Please sign the Grant payment request if you are an authorized signor of your agency.

4 & 5. When the authorized person is the same as the contact person in Section B you do not need to enter the authorized contact information. If the authorized person and the contact person in Section B are different, please enter all the fields in this area as requested.

ADDITIONAL ITEMS THAT YOU NEED TO ATTACH TO YOUR GRANT PAYMENT REQUEST:

For Equipment Claims:

a) ☐ **Equipment Inventory Listing (Print out & Excel File):** Please include both the printout of the listing and the corresponding excel file with your claim. The excel file is used to submit your claim with the state and the printout as backup document for audits. If there is no serial # for your equipment please assign a valid ID tag, or write "Consumable" (if it applies) or write N/A. please do NOT leave the corresponding space blank. [*1] Please refer to the **Instructions to Equip Inty Tab for completion procedures of Equipment Inventory.**

Additionally, please enter the appropriate CBRNE Mission (Chemical, Biological, Radiological, Nuclear, or Explosive) in the column titled "Equipment Description & Quantity". This only applies to vehicles with AEL # 12VE-00-MISS (Vehicle Specialized Mission:CBRNE).

You need to inform us of any changes on the items above [*1]. This applies to each piece of equipment added in the Inventory Listing, including when the items are disposed and/or no longer useful. We will update the master inventory listing (per grant requirement) according to the information you give us. Please make sure that you include all the attachments that are necessary to provide us with the requested information.

For Training Claims:

a) ☐ **State Sole Source Approval:** If you are claiming training related costs thru a Non-Competitive Bid or Sole Source training provider, regardless the purchased amount, please attach the State's approval (effective December 03, 2018). The approval needs to be requested from the State prior to the start of the project.

b) ☐ **State-Sponsored Training Reporting Form (with the tracking request #):** Please add this form along with the Training Request Form Training Officer (POC), which you completed at the website, to the claim's backup documentation. All the backup documentation submitted for the training claim needs to agree with the training period and the detail description on the Training Reporting Form and the line item of the Grant. Training request #'s must be obtained from the State prior to the start of the project.

c) ☐ **Receipts and paid invoices:** please include the complete copy of the receipts and paid invoices with your claim for itemized costs such as air plane tickets, hotel stays, instructor's fees, workshop cost, facilities fees, consulting services, etc. Additionally, you will need to include the documents requested in numeral 5 under Section C.

If you are including **personnel cost** with your training claim, please add the following:

d) ☐ **Personnel List (Print out & Excel File):** Please include both the printout of the listing and the corresponding excel file with your claim. The excel file is used to submit your claim with the state and the printout as backup document for audits.

e) ☐ **Documents that certify completion of the training:** please attach supporting documents that show the class name, dates of training, # of hours of the training class, printed name and signature of individual taking the class and approval signature from supervisor or trainer (attach the information for backfilled positions also). Examples of documents that certify completion of training are:

- Attendance sheets (signed by employee and instructor)
- Sign in sheets (same as above)
- Signed training certificates

f) ☐ **Summary Listing of Charges:** Please use the **Training Summary Sheet** form provided in this claim packet that **clearly** shows the breakdown of the training charges per employee and that match the total claimed. This form includes the following: employee name, assignment, job title, date, salary, hours claimed, regular rate, overtime rate, employee benefits rate, claim amount per employee, clear calculations of amount claimed per employee and total (equal to the amount claimed).

Please ensure that the Training Summary Sheet is verified/approved by an authorized signatory, with printed name and title, and dated.

g) ☐ **Backup for the Benefits Rate:** If you are adding benefits to your claim, please make sure that you include the official calculation for the rate used.

h) ☐ **Timecards:** Include a printout of the corresponding timecards. Manual timecards need to indicate the # of hours charged per day to the grant, supervisor's signature, employee name and signature. Automatic system generated timecards need to be approved and include the name of the employee and hours charged per day to the grant.

i) ☐ **Explanation of timekeeping codes:** When the supporting documentation (timesheet, payroll register, etc.) includes timekeeping codes please provide a printout with the explanation of the usage as detailed as possible.

j) ☐ **Payroll register:** The payroll register needs to clearly support and explain the amount claimed per employee. It also needs to show the salary, hourly rate, employee benefits and overtime rate.

k) ☐ **Roster of backfilled positions:** When you are claiming overtime for a backfilled position, please attach the backfilled roster to your claim. The roster needs to include the name of the backfilling employees, a short description of duties performed, the corresponding employee whose duties were covered and the dates accordingly. Please make sure that the roster is signed and that you include documentation corresponding to the employee covered by the backfilling position.

For Planning Claims:

a) ☐ **Deliverable (or final product):** Please include with your claim the final product of the planning activity (deliverable) that was identified in the grant award.

b) ☐ **Signed Certificate of Completion:** The certificate of completion can be an e-mail confirming that the planning activity was completed.

c) ☐ **Invoices:** If your planning claim includes charges invoiced by vendors, please see requirements and documents you need to attach to your claim form under Section C (numeral 5 and numeral 6).

d) ☐ **Supporting Documentation for Personnel Cost:** When your planning claim includes personnel cost, please see d) to i) under Training Claim (supporting documents needed) and add to the documentation.

For Exercise Claims:

a) ☐ **Proof of State Approval of After Action Report (AAR):** In order for your AAR to be approved you have to submit it to the State using the ODP Portal (see link below), within 90 days after completion of the exercise. You need to notify the State when the AAR is uploaded so they can proceed with the approval process.

https://hseep.dhs.gov/DHS_SSO/

b) ☐ **Invoices:** If your exercise claim includes charges invoiced by vendors please see requirements and documents you need to attach to your claim form under Section C (numeral 5 and numeral 6).

c) ☐ **Supporting Documentation for Personnel Cost:** When your exercise claim includes personnel cost, please see d) to i) under Training Claim (supporting documents needed) and add to the documentation.

For Organization Claims: Please see above b) and c) under Exercise Claims

GRANT PROPERTY AND EQUIPMENT INVENTORY LISTING

GRANT NAME:
SUB-RECIPIENT: _____
DATE OF REPORT: _____

Grant Year	Project Number	AEL No.	Description of Property	Serial # or Other ID #	SAFECOM Consult (Yes/No/NA)	Source of Property (SHSP or EMPG Grant Program)	Department (Title Holder)	Vendor Name	Invoice Number	Acquisition Date	Acquisition Cost	% of FED Participation	Location	Use & Condition (N=New, D=Deployed, O=Out of Service, L=Lost,	Disposition Date	Disposition Sale Price

N:Grants/Subrecipient Monitoring/Forms/Propery & Equipment Inventory Listing
Revised 12/2019

Equipment Inventory Listing
Procedures for Completion

OBJECTIVE: To provide an equipment inventory listing that links the State Homeland Security Workbook, to the Equipment Ledger and to the Equipment Listing to simplify the tracking and accountability; and to eliminate duplication and confusion.

Field	Date Element	Procedure
(1)	Grant Name	SHSP or EMPG
(2)	Sub-Recipient	Name of your agency
(3)	Date of Report	Date report completed {1}
(4)	Grant Year	Grant Year of funds used to purchase equipment
(5)	Project #	Project Number (from Grant Workbook Project Sheets)
(7)	AEL No.	Authorized Equip Listing No (from Grant Workbook)
(8)	Description	Description of the equipment
(9)	Serial # or Other ID #	Serial # or Other identification # used
(10)	Safecom consult	Fill out either by Yes, No, or N/A
(11)	Source of Property	Funding source, i.e, SHSP, EMPG, etc.
(12)	Title Holder	Name of agency (City/Department)
(13)	Vendor Name	Name of the vendor
(14)	Invoice Number	Invoice number
(15)	Acquisition Date	Date equipment acquired
(16)	Acquisition Cost	Cost of the individual equipment item
(17)	% of Fed Part	Fed participation in the cost of equipment
(18)	Location	Location of equipment
(19)	Use & Condition	Use & condition {2}
(20)	Disposition data	Date of disposition
(21)	Sale Price	Sale price, If applicable, or N/A for not applicable

The Equipment Inventory Listing must be completed in its entirety to meet the objective of the form.

Note {1}: This date should be the date the physical inventory of equipment was taken and the results reconciled with the equipment records (at least once every two years).

{2} Indicate: N = New, D = Deployed, O = Out of Service, L = Lost & S = Stolen

8. Notes on Personnel Cost:

In general, costs associated with:

- Work performed under contract for a specific deliverable DOES NOT count against the personnel cap, however,
- Work performed under contract for an undefined period, such as for personnel costs supporting operational activities, including general planning, training or exercise activities DO count against the personnel cap; and
- Work performed by all non-contractor personnel, including for full- or part-time staff and operational overtime DO count against the personnel cap.

The following examples would not count towards the personnel cap:

- Vendor installation of a radio tower;
- Vendor training on new equipment purchased;
- Contractor hired to create an Emergency Operations Plan;
- Contractor hired to provide deliveries of ICS 400; and
- Contractor hired to assist with planning, training, evaluating, and reporting the effectiveness of a specific exercise.

The following examples would count towards the personnel cap:

- Contractor hired to be the State's WMD training instructor with no specific deliverables under contract;
- Contractor hired to facilitate unidentified number of exercises throughout the performance period;
- Contractor hired to be the part-time auditor of Homeland Security Grants throughout the year; and
- Contractor hired to be an intelligence analyst.

Subrecipient Monitoring Instrument

Subrecipient Monitoring Instrument

PROJECT TITLE

Los Angeles County State Homeland Security Program
Monitoring Reports

A. FINANCIAL REPORTING REQUIREMENTS

Objective

To determine that the Subrecipient implemented corrective action to address findings noted in its Single Audit that is related to the Homeland Security Grant.

Verification	Yes	No	Comment
1. Was a Single Audit completed for Grant Year 2014-15 and 2015-16?			
2. If yes, did the Subrecipient forward a copy to the Homeland Security Grant Administrator (HSGA) by March 30th of the year following the audit?			
3. Did the Single Audit(s) identify findings related to the Homeland Security Grant? If yes, please continue. If no, please mark N/A and continue to Section B.			
4. Did the Subrecipient develop a corrective action plan that addresses the finding(s)?			
5. Did the Subrecipient send a copy of a corrective action plan to the HSGA?			
6. Did the Subrecipient implement the corrective action plan?			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

B. TRAINING

Objective

To determine that the Training expenditures were appropriately documented and that the activities aligned with the project' s goals and objectives. If the Training activities involved employees, determine if the Subrecipient appropriately documented the Training expenditures using employee timecards, sign-in sheets, and certificates of training. If the Training activities involved using consultants or contractors, determine if the Subrecipient followed the appropriate procurement procedures to hire the consultants or contractors. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Training expenditures? If yes, then continue. If no, continue to next section.			
2. Did the Subrecipient receive prior approval from the State either via email or other documentation and did it include the training course name and number?			
3. If the Training expenditures relate to the use of employees, did the Subrecipient appropriately document the Training expenditures using employee timecards, sign-in sheets and certificates of training?			
4. If Training expenditures relate to the use of consultants/contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
5. Did the Subrecipient accurately report the Training expenditures in their accounting records?			
6. For Projects with overtime expenditures for Training:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records?			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

B. TRAINING (Continued)

Verification	Yes	No	Comments
7. For Projects with backfill expenditures for Training:			
a. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
b. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and sign-in sheets?			
c. Did the Subrecipient accurately report the expenditures in their accounting records?			
8. Were employee timecards utilized in Training activities signed and dated by the employee and direct supervisor?			
9. Were the Training expenditures consistent with the State approved grant award and/or post award modification(s)?			
10. Ensure the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports submitted by HSGA:			
a. If the Project prior Grant Year monitoring report finding was resolved, explain resolution, and indicate such in the current report as resolved.			
b. If the Project prior Grant Year report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

C. PLANNING

Objective

To determine that the Planning expenditures were appropriately documented and that the activities aligned with the project's goals and objectives. If the Planning activities involved employees, determine if the Subrecipient appropriately documented the Planning expenditures using employee timecards and sign-in sheets. If the Planning activities involved using consultants or contractors, determine if the Subrecipient followed the appropriate procurement policies. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Planning expenditures? If yes, continue. If no, continue to next section.			
2. Did the Subrecipient appropriately document the Planning expenditures providing copies of the support documentation that indicated the efforts made to produce the final product and a copy of the product produced?			
3. If Planning expenditures relate to the use of employees, did the Subrecipient use employee timecards and sign-in sheets?			
4. If Planning expenditures relate to the use of consultants/contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
5. Did the Subrecipient accurately report the Planning expenditures in their accounting records?			
6. For Projects with overtime expenditures for Planning:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

C. PLANNING (Continued)

Verification	Yes	No	Comments
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records?			
7. For Projects with backfill expenditures for Planning:			
a. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
b. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and sign-in sheets?			
c. Did the Subrecipient accurately report the backfill expenditures in their accounting records?			
8. Were the employee timecards utilized in Planning activities signed and dated by the employee and direct supervisor?			
9. Were the Planning expenditures consistent with the State approved grant award and/or post award modification(s)?			
10. Ensure the Subrecipient corrected area of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports submitted to HSGA:			
a. If the project prior Grant Year monitoring report finding was resolved, explain resolution, and indicate such in the current report as resolved.			
b. If the project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

D. EQUIPMENT

Objective

To determine that the project Equipment expenditures are supported by invoices and that a listing of the Equipment/property is maintained by the Subrecipient. To determine that the purchases are aligned with the project's goals and objectives. Use Worksheets 2 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Equipment expenditures? If yes, continue. If no, continue to next section.			
2. Did the Subrecipient maintain invoices to support the Equipment expenditures?			
3. Did the Subrecipient follow proper procurement procedures to purchase the Equipment and were the items listed in the federal "Authorized Equipment List" and/or "Standardized Equipment List"?			
4. Did the Subrecipient accurately report the Equipment expenditures in their accounting records?			
5. Did the Subrecipient maintain an Equipment inventory that listed the following: a) Description of Equipment, b) Serial number or other identification number, c) AEL number, d) Fund/source/grant year, e) Title holder, f) 100 percent of federal participation. If no, then identify percentage, g) Acquisition date, h) Acquisition cost, i) Quantity, j) Equipment location, k) Use and condition of Equipment, l) Disposal date and sale price of the Equipment			
6. Did the Subrecipient conduct an inventory of Equipment purchased with Cal/OES grant funds at least once every two years?			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

D. EQUIPMENT (Continued)

Verification	Yes	No	Comments
7. Was the Equipment physically inspected to ensure: a. The Equipment existed and agreed to inventory listing?			
b. The Equipment worked and adequately trained staff are available to operate the Equipment?			
8. Did the Subrecipient maintain Equipment in a secure location?			
9. For property other than Equipment, i.e. supplies, did the Subrecipient have controls and accountability to safeguard and ensure that the items are used and solely for authorized purposes?			
10. For Equipment disposal, if any: a. Was the disposition consistent with federal regulations? b. What is the status of the proceeds received from the disposal?			
11. Did the Subrecipient have a policy for damaged, destroyed, lost or stolen Equipment including but not limited to informing the Cal/OES, steps to replace the Equipment and an investigative process?			
12. Were the Equipment expenditures consistent with State approval grant award and/or post award modification(s)?			
13. Ensure the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports maintained by HSGA: a. If the project prior Grant Year monitoring report finding was resolved, explain resolution, and indicate such in the current report as resolved.			
b. If the project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

E. EXERCISE

Objective

To determine that the Exercise expenditures were appropriately documented and the activities align with project's goals and objectives. If the Exercise activities involved employees, determine if the Subrecipient appropriately documented the Exercise expenditures using timecards and sign-in sheets. If the Exercise activities involved using consultants or consultants, determine if the Subrecipient followed the appropriate procurement procedure. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Exercise expenditures? If yes, continue. If no, continue to next section.			
2. Did the Subrecipient receive prior approval from the State either via email or other documentation and did it include the Exercise course name and number?			
3. If the Exercise expenditures relate to the use of employees, did the Subrecipient appropriately document the Exercise expenditures using employee timecards, sign-in sheets, and certificates for Exercise?			
4. If the Exercise expenditures relate to the use of consultants/ contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
5. Did the Subrecipient accurately report the Exercise expenditures in their accounting records?			
6. For Projects with overtime expenditures for Exercise:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records?			
c. Did the Subrecipient accurately report the backfill expenditures in their accounting records?			
7. For Projects with backfill expenditures for Exercise:			
a. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
b. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and sign-in sheets?			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

E. EXERCISE (Continued)

Verification	Yes	No	Comments
8. Were the employee timecards utilized in the Exercise activities signed and dated by the employee and direct supervisor?			
9. Were the Exercise expenditures consistent with the State approved grant award and/or post award modifications?			
10. Ensure the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports:			
a. If the Project prior Grant Year monitoring report finding was resolved, explain resolution and indicate such in the current report as resolved.			
b. If the Project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

F. ORGANIZATION

Objective

To determine that the Organization expenditures were appropriately documented and that the activities align with the project's goals and objectives. If the Organization activities involved employees, determine if the Subrecipient appropriately documented the Organization expenditures using employee timecards and sign-in sheets. If the Organization activities involved using consultants or contractors, determine if the Subrecipient followed the appropriate procurement policies. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Organization expenditures? If so, continue. If no, continue to next section.			
2. If the Organization expenditures relate to the use of employees, did the Subrecipient document the expenditures using employee timecards, sign-in sheets, or with other support documentation that substantiated the expense?			
3. If the Organization expenditures relate to the use of consultants or contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
4. Did the Subrecipient accurately report the Organization expenditures in their accounting records?			
5. For Projects with overtime expenditures for Organization:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records.?			

Docusign Envelope ID: 86CAF246-4543-4D62-BF04-3E353D45E3F0

F. ORGANIZATION (Continued)

Verification	Yes	No	Comments
6. For Projects with backfill expenditures for Organization:			
b. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
c. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and other payroll documentation?			
7. Were employee timecards utilized in Organization activities signed and dated by the employee and direct supervisor?			
8. Were the Organization expenditures consistent with the State approved grant award and/or post award modification(s)?			
9. Ensure that the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports maintained by HSGA:			
a. If the Project prior Grant Year monitoring report finding was resolved, explain resolution and indicate such in the current report as resolved.			
b. If the Project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.

This is a sole source letter to certify that the Archer 1200 Barrier, the Archer 1200 Trailer Barrier Kit, the Archer Beam Gate and the Archer Rapid Gate are exclusive MERIDIAN products that are manufactured and sold by Meridian Rapid Defense Group LLC ("MERIDIAN"). MERIDIAN is the creator, manufacturer, and patent holder of these products. MERIDIAN is the sole manufacturer and supplier for the U.S. and internationally. MERIDIAN does not permit any 3rd party distributors to supply its products and technologies.

The Archer 1200 is manufactured in US with 700 lbs. of American made steel and has been tested to MASH, ASTM, PAS 68, and IWA14. No other product on the market meets this standard except the Archer 1200 Barrier.

We are glad to make ourselves available to provide further technical information on materials and the proper use of the above-listed items. MERIDIAN provides the in-field training of the equipment to ensure the safety and effectiveness of the Archer 1200 Barrier.

The following items detail the unique, and one of its kind, characteristics of the Archer 1200 Barrier:

- No other product on the market provides unanchored stopping power certified to US DOD and PAS 68 standards. Unbolted units stop a vehicle traveling 30 mph within 14 feet; no other product on the market meets this standard.
- No other product on the market is rated for armor-piercing NATO ammunition up to .50 cal. ballistic rounds.
- No other barrier on the market is designed as a non-electric and non-hydraulic unit.
- The Archer 1200 Barrier has easily deployable wheels that are self-contained on the barrier and effortlessly positioned. No other product on the market has this unique characteristic.
- No other product on the market can be installed as a complete barrier system with MERIDIAN's 4-foot and 10-foot Arrestor Cables.
- MERIDIAN's unique, one-of-a-kind barriers can be deployed at any desired length, as unit can be "daisy chained" together. This cannot be achieved with any other product on the market.
- MERIDIAN's unique products are transported and positioned using a specially designed Drop Deck Trailer.
- A remaining unique feature of the Archer 1200 Barrier is that the unit allows for the installation of directional or informational signage.

Please feel free to contact me with any specific questions or additional requests for information.
Many thanks,

J. Eric Alms

REALLOCATION OF PREVIOUSLY APPROVED STATE HOMELAND SECURITY PROGRAM SUBRECIPIENT AGREEMENT FOR GRANT YEAR 2021 FUNDS TO MERIDIAN VEHICLE BARRIERS

GLENDORA POLICE DEPARTMENT

CITY COUNCIL MEETING

JUNE 24, 2025

MARC ARCHIBALD, SUPPORT SERVICES SUPERVISOR

EXECUTIVE SUMMARY

The State Homeland Security Grant Program (SHSGP) provides funding for specialized equipment that strengthens event management and enhances law enforcement's ability to prevent and respond to terrorism.

In Grant Year 2021, the City of Glendora received $72,000 to improve public safety infrastructure. Per FEMA's Authorized Equipment List (AEL #14SW-01-WALL), funds were to be used to purchase barriers, including fencing and jersey barriers, to support crowd control and security at large public events.

LEGISLATIVE HISTORY/PREVIOUS ACTIONS

The City of Glendora was awarded $72,000 through the SHSGP to enhance public safety infrastructure. The original project, law enforcement bollards, exceeded $300,000 and was not feasible.

To maximize the grant's impact, staff recommended reallocating funds to expand the City's FLOCK ALPR camera system.

On March 25, 2025, the City Council approved a two-year agreement with FLOCK Safety Systems to implement additional ALPR units.

DISCUSSION

Due to Federal delays in approving the Environmental and Historic Preservation (EHP) form for the ALPR project, staff is requesting to reallocate the $72,000 SHSGP grant to purchase mobile vehicle barriers to avoid losing the funds.

Homeland Security Grant guidelines permit reallocating funds to other eligible equipment. Staff has coordinated with the grant administrator, and the change has received conditional approval pending Council authorization.

Mobile barriers offer a flexible, effective alternative to fixed bollards, allowing deployment at various locations citywide by a single person. They support secure event perimeters, enhance pedestrian safety, and enable rapid street closures.

FISCAL IMPACT

The total cost, including acquisition, transport, and storage, is $72,000 will be funded using the Homeland Security Grant in Grant Fund 280 included in FY2024-25 Mid-Cycle Budget. No City match is required.

RECOMMENDATION

THAT CITY COUNCIL:

1. Approve the reallocation of the 2021 State Homeland Security Program grant funds from Flock ALPR cameras to Meridian barriers with proprietary trailer and equipment.
2. Authorize the Purchase of 3 vehicle barriers and deployment equipment from Meridian Rapid Defense Group based in Pasadena, CA for $72,000, including taxes and fees.

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Police Department**	**DISTRICT(S):**	**Citywide**

SUBJECT: **Approval of the State Homeland Security Program (SHSP) Subrecipient Agreement for Grant Year 2023 with the County of Los Angeles, and Authorization to Enter into Agreements with Flock Group, Inc. and Axon Enterprise, Inc. for the Acquisition and Development of Additional Stationary and Mobile Automated License Plate Reader (ALPR) Systems**

RECOMMENDATION

That the City Council:

1. Approve the 2023 State Homeland Security Program Subrecipient Agreement with County of Los Angeles;
2. Approve a two-year agreement with Flock Group, Inc., for the use of eleven (11) additional automated license plate readers in the amount of $71,050;
3. Approve a 31-month agreement with Axon Enterprises, Inc., for the expansion of our existing Fleet 3 cameras, activating the existing automated license plate readers technology in eighteen (18) patrol vehicles in the amount of $33,278.94; and
4. Approve an increase in estimate revenues and a supplemental appropriation in the FY2024-25 Midcycle Budget from Grants Fund 280 in the amount of $100,000.

STRATEGIC FOCUS AREAS

Goal 4: Enhance and Modernize the Organization (EMO)

EXECUTIVE SUMMARY

The State Homeland Security Grant Program (SHSGP) was created to support the acquisition of specialized equipment aimed at improving event and incident management while enhancing Law Enforcement's capacity to disrupt, deter, respond to, and recover from terrorist activities. Modern law enforcement practices incorporate technology to enhance efficiency in serving the community, with ALPR being a key tool. ALPR technology alerts law enforcement to stolen vehicles, wanted individuals, and missing persons, providing valuable crime-fighting tools without extra personnel.

The City of Glendora was awarded funding in the amount of $100,000 through the SHSGP for the enhancement of public safety infrastructure. Among the approved equipment under this grant is the Automated License Plate Readers (ALPR) system (03OE-01-ALPR). ALPR systems utilize imaging technology combined with optical character recognition software to capture and process license plate information and can be fixed, portable, or vehicle-mounted. Staff is proposing working with Flock Group, Inc., for the use of 11 additional automated license plate readers in the amount of $71,050 and Axon Enterprises, Inc., for the expansion of the three existing Fleet cameras and activating automated license plate readers technology in 18 patrol vehicles in the amount of $33,279.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

On May 25, 2021, the City Council approved entering into a two-year agreement to implement the ALPR systems in the City of Glendora with Flock Safety.

On December 12, 2023, City Council approved entering into a Five-Year Master Services Agreement with Flock to continue use of Flock ALPR systems in the City deploying 30 cameras throughout the city.

On March 25, 2025, City Council approved using 2021 SHSGP funds for expansion of FLOCK. Due to federal delays in approving the Environmental and Historic Preservation (EHP) form for the ALPR project, staff proposed reallocating the $72,000 SHSGP grant to purchase mobile vehicle barriers instead of the ALPR cameras, which was presented in a separate agenda item.

DISCUSSION

The City of Glendora was awarded funding through the SHSGP for the enhancement of public safety infrastructure in the amount of $100,000. To maximize the impact of the SHSGP funds, staff recommends utilizing the grant award for the expansion of the FLOCK camera system throughout the City. The City of Glendora has partnered with Flock since 2021, strategically deploying 30 cameras throughout the city. FLOCK cameras provide automated license plate recognition (ALPR) technology, enhancing law enforcement's ability to monitor and investigate criminal activity effectively. This system has proven instrumental in crime prevention and resolution, making it a valuable investment for the community's safety. Staff recommends adding 12 cameras, to 11 locations that will enhance preventive policing measures throughout the community.

Grant funds will also allow for the purchase of Axon's Fleet 3 Automated License Plate Reader (ALPR) system to enhance patrol vehicles with advanced plate-reading capabilities, supplementing the stationary ALPR cameras, with mobile ALPR. The system will turn each vehicle into a mobile ALPR unit, allowing officers to automatically scan license plates while on routine patrol, without diverting their attention from other duties. Fleet 3 offers eight times the plate-reading capacity of traditional systems, can scan plates at high speeds across multiple lanes, and integrates with existing body-worn camera and evidence management platforms. Additionally, this solution is more cost-effective, providing broad fleet coverage at a lower overall investment without any additional hardware purchases as we already possess the hardware. The goal of this purchase is to give police officers better tools to proactively prevent and solve crime, improve efficiency on the street, and enhance public safety in a responsible and transparent manner.

Ensuring efficient and effective law enforcement services remains a top priority for the City of Glendora. Deploying stationary and mobile cameras capable of identifying stolen vehicles, individuals with criminal arrest warrants linked to license plates, suspect vehicles, and other investigations with known vehicle, is a vital tool in modern crime prevention and community caretaking. One key advantage of this technology is its role in combating "burglary crews" from outside the City — groups that break into homes and vehicles, targeting the community. These criminals often use stolen vehicles to conceal their identities while committing crimes. By identifying stolen vehicles and intercepting or apprehending suspects as they enter Glendora, law enforcement can significantly reduce the likelihood of criminal activity. Additionally, this technology has proven effective within the City of Glendora and other jurisdictions, helping recover stolen vehicles, locate missing persons, and apprehend offenders in real time.

ALPR technology is designed to detect and capture specific vehicle-related data, including:

- **License Plates** – Identifying and recording alphanumeric plate information.
- **Vehicles** – Detecting the presence of a vehicle and associated characteristics.

To protect privacy and avoid misuse, Flock does **not** detect, record, or analyze the following:

- **Facial Recognition** – The system does not identify individuals through facial imaging.
- **People** – It does not track pedestrians or human movement.
- **Gender & Race** – No biometric or demographic profiling is conducted.

Prohibited Uses

Data and services are restricted from being used for:

- **Immigration Enforcement** – The system cannot be utilized for identifying or tracking individuals based on immigration status or shared with immigration officials.
- **Commercial Purposes** – Data cannot be used for marketing, advertising, or business-related activities.
- **Non-Law Enforcement Use** – Agencies must ensure that all searches and data access are directly related to active law enforcement investigations.
- **Personal Use** – Individuals, including law enforcement personnel, are prohibited from using the system for personal inquiries.
- **Other Unauthorized Activities** – Any actions that violate applicable laws, regulations, or agency policies are strictly prohibited.

The City of Glendora has partnered with Flock since 2021. FLOCK cameras provide automated license plate recognition (ALPR) technology, enhancing law enforcement's ability to monitor and investigate criminal activity effectively. This system has proven instrumental in crime prevention and resolution, making it a valuable investment for the community's safety.

In 2024, the Glendora Police Department utilized Flock technology in 53 cases to identify potential suspect vehicles, aiding in investigations and enhancing public safety efforts. The system has already been employed in eight cases to date in 2025, demonstrating its continued role in assisting law enforcement with identifying vehicles connected to criminal activity. By leveraging Flock's advanced data capabilities, officers can efficiently gather critical information while ensuring compliance with legal and privacy regulations.

As a Flock Safety customer, the Police Department for the City of Glendora has access to camera networks in other cities, expanding our investigative reach by allowing investigators to search databases for vehicles linked to cases in our community. Flock's closed network is comprised of over 155 law enforcement agencies between Los Angeles, Orange, and Riverside Counties. For example, a neighboring city with Flock technology assisted our Police Department in a missing person investigation in Glendora. The system captured the missing person's vehicle entering the neighboring city, providing crucial information that helped investigators in their efforts to locate the individual.

Flock enables secure and controlled data sharing with partner agencies on a case-by-case basis, ensuring that all users adhere to standardized access regulations and regular audits. To maintain data integrity and security, any violations of these regulations may result in the suspension or revocation of an agency's access to the system. Data access is strictly governed by a right-to-know and need-to-know basis, requiring a valid and documented search reason. These measures help ensure that data is used responsibly and solely for legitimate purposes. Additionally, all data is managed under strict policy guidelines and will never be sold, shared, or distributed to external third parties.

Flock is the sole manufacturer and developer of the Flock Safety Camera. Flock is the only company that is compatible for expansion with our current system as it is propriety software. They offer ALPR services through a leasing model, which features an all-inclusive cost structure, covering both equipment and ongoing services without additional expenses.

The Glendora Police Department has utilized Axon's body worn camera (BWC) and in-car video systems since 2022. Our current Axon Fleet 3 in-car video system hardware is equipped with the ALPR cameras. This feature was not included in our original purchase and therefore not activated, even though we possess the technology. Our patrol fleet is comprised 18 units with in-car video system. Utilizing the technology will expand our ALPR camera network by an additional 18 mobile cameras when activated. This technology will allow for additional safety for our officers by providing timely notifications when they are in close proximity to a vehicle that is wanted, stolen, or listed in association with a missing person.

Axon also enables secure and controlled data staring with partner agencies to create a law enforcement network. Any third party willing to sign Axon's Partner API Terms of Use may use the Search API to support third-party integrations must follow the Department of Justice guidelines and is strictly governed by a right-to-know and need-to-know basis, requiring a valid and documented search reason.

Axon is the sole manufacturer and developer of the Axon Fleet System. Axon is the only company that that is compatible for expansion with our current fleet system as it is propriety software. They offer ALPR services through a leasing model, which features an all-inclusive cost structure, covering both our existing equipment and ongoing services without additional expenses.

The City's Purchasing Policy provides an exception to the formal bidding process due to the technical nature of this equipment and the proprietary software to operate and maintain the equipment.

FISCAL IMPACT

The proposed agreements will be funded using the Homeland Security Grant in Grant Fund 280. The increase in estimated revenues and the supplemental appropriation in the amount of $100,000 will cover two years of the agreement with Flock, including the implementation and subscription costs of $71,050 as well as 27 months of the $33,278.34 31-month agreement with Axon. The remaining four months of the agreement with Axon as well as any ongoing subscription costs to continue the expanded program with Flock and Axon, will be considered during future budget processes as part of the Information Technology Fund 553 budget.

ENVIRONMENTAL DETERMINATION

There is no CEQA impacts associated with the recommendations in this report.

State Homeland Security Program
Subrecipient Agreement
Grant Year 2023

Between the

County of Los Angeles

and the

City of Glendora

SUBRECIPIENT AGREEMENT
BETWEEN THE
COUNTY OF LOS ANGELES
AND
THE CITY OF GLENDORA

THIS AGREEMENT ("Agreement") is made and entered into by and between the County of Los Angeles, a political subdivision of the State of California (the "County of Los Angeles"), and the City of Glendora, a public agency (the "Subrecipient").

W I T N E S S E T H

WHEREAS, the U.S. Department of Homeland Security Title 2 Code of Federal Regulations (CFR) through the Office of Grants and Training (G&T), has provided financial assistance for the State Homeland Security Program (SHSP), Assistance Listings Number (formerly Catalog of Federal Domestic Assistance Number) 97.067 - Homeland Security Grant Program directly to the California Governor's Office of Emergency Services (Cal OES) for the 2023 SHSP, Federal Award Identification No. 037-00000, Federal Award dated October 18, 2023 with a performance period of September 1, 2023 to May 31, 2026. This Federal Award is not a R&D award; and

WHEREAS, the Cal OES provides said funds to the County of Los Angeles, Unique Entity ID (UEI) #MKQ9AQH7R2S5, as its Subgrantee, and the Chief Executive Office (CEO) is responsible for managing and overseeing the SHSP funds that are distributed to other specified jurisdictions within Los Angeles County; and

WHEREAS, this financial assistance is being provided to the Subrecipient in order to address the unique equipment, training, organization, exercise and planning needs of the Subrecipient, and to assist the Subrecipient in building effective prevention and protection capabilities to prevent, respond to, and recover from threats or acts of terrorism; and

WHEREAS, the County of Los Angeles as Subgrantee has obtained approval of the 2023 SHSP grant from Cal OES in the total amount of $9,481,457; and

WHEREAS, the CEO now wishes to distribute 2023 SHSP grant funds to the Subrecipient in the amount of $100,000, as further detailed in this Agreement; and

WHEREAS, the CEO is authorized to enter into subrecipient agreements with cities providing for re-allocation and use of these funds; and to execute all future amendments, modifications, extensions, and augmentations relative to the subrecipient agreements, as necessary; and

WHEREAS, the County of Los Angeles and Subrecipient are desirous of executing this Agreement, and the County of Los Angeles Board of Supervisors on September 10, 2024 authorized the CEO to prepare and execute this Agreement.

NOW, THEREFORE, the County of Los Angeles and Subrecipient agree as follows:

SECTION I

INTRODUCTION

§101. Parties to this Agreement

The parties to this Agreement are:

A. County of Los Angeles, a political subdivision of the State of California, having its principal office at Kenneth Hahn Hall of Administration, 500 West Temple Street, Los Angeles, CA 90012; and

B. City of Glendora, a public agency, having its principal office at _____ ____116 E. Foothill Blvd., Glendora, CA 91741_____.

§102. Representatives of the Parties and Service of Notices

A. The representatives of the respective parties who are authorized to administer this Agreement and to whom formal notices, demands and communications must be given are as follows:

1. The representative of the County of Los Angeles is, unless otherwise stated in this Agreement:

Craig Hirakawa
County of Los Angeles - Chief Executive Office
500 West Temple Street, Room 796
Los Angeles, CA 90012
Phone: (213) 974-1127
CHirakawa@ceo.lacounty.gov

Kasey Dizon
County of Los Angeles - Chief Executive Office
500 West Temple Street, Room 796
Los Angeles, CA 90012
Phone: (213) 974-1764
KDizon@ceo.lacounty.gov

2. The representative of Subrecipient is:

Name and Title:	Mike Randazzo, Chief of Police
Organizational UEI #:	076191600
Address:	150 S. Glendora Ave.
City/State/Zip:	Glendora, CA 91741
Phone:	626.914.8262
Email:	mrandazzo@glendorapd.org

With a copy to:

Name and Title:	Marc Archibald, Support Services Supervisor
Organization:	Glendora Police Department
Address:	150 S. Glendora Ave.
City/State/Zip:	Glenodra, CA 91741
Phone:	626.914.8265
Email:	marchibald@glendorapd.org

B. Formal notices, demands and communications to be given hereunder by either party must be made in writing and may be effected by personal delivery, regular U.S. Postal mail service and/or e-mail. In the event of personal delivery or email, the message will be deemed communicated upon receipt by the County of Los Angeles. In the event of mail service, the message will be deemed communicated as of the date of mailing.

C. If the name and/or title of the person designated to receive the notices, demands or communications or the address of such person is changed, written notice must be given, in accord with this section, within five (5) business days of said change.

§103. Independent Party

Subrecipient is acting hereunder as an independent party, and not as an agent or employee of the County of Los Angeles. An employee of Subrecipient is not, and

will not be deemed, an employee of the County of Los Angeles by virtue of this Agreement, and Subrecipient must so inform each employee organization and each employee who is hired or retained under this Agreement. Subrecipient must not represent or otherwise hold out itself or any of its directors, officers, partners, employees, or agents to be an agent or employee of the County of Los Angeles by virtue of this Agreement.

§104. Conditions Precedent to Execution of This Agreement

Subrecipient must provide the following signed documents to the County of Los Angeles, unless otherwise exempted:

A. Certification and Disclosure Regarding Lobbying, attached hereto as Exhibit A and made a part hereof, in accordance with §411.A.14 of this Agreement. Subrecipient must also file a Disclosure Form at the end of each calendar quarter in which there occurs any event requiring disclosure or which materially affects the accuracy of the information contained in any Disclosure Form previously filed by Subrecipient.

B. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions, attached hereto as Exhibit B and made a part hereof, as required by Executive Order 12549 in accordance with §411.A.12 of this Agreement.

C. Certification Regarding Drug-Free Workplace, attached hereto as Exhibit C and made a part hereof, in accordance with §411.A.13 of this Agreement.

D. Certification of Grant Assurances, attached hereto as Exhibit D and made a part hereof, in accordance with §411.C of this Agreement.

SECTION II

TERM AND SERVICES TO BE PROVIDED

§201. Performance Period

The performance period of this Agreement is from September 1, 2023 to February 28, 2026, unless the County of Los Angeles, with Cal OES approval, provides written notification to the Subrecipient that the performance period has been extended, in which case the performance period will be so extended by such written notification, as provided in §503, below.

§202. Use of Grant Funds

A. Subrecipient and the County of Los Angeles have previously completed a mutually approved budget/expenditure plan, hereinafter "Budget," for the 2023 SHSP, which has been approved by Cal OES. This information is contained in a copy of the Final Grant Award Letter and Project Worksheet, attached hereto as Exhibit E.

   Any request by Subrecipient to modify the Budget must be made in writing with the appropriate justification and submitted to CEO for approval. If during the County of Los Angeles review process, additional information or documentation is required, the Subrecipient will have ten (10) business days to comply with the request. If the Subrecipient does not comply with the request, CEO will issue written notification indicating that the requested modification will not be processed. Modifications must be approved in writing by the County of Los Angeles and Cal OES during the term of this Agreement. Upon approval, all other terms of this Agreement will remain in effect.

   Subrecipient must utilize grant funds in accordance with all Federal regulations and State Guidelines.

B. Subrecipient agrees that grant funds awarded will be used to supplement existing funds for program activities, and will not supplant (replace) non-Federal funds.

C. Subrecipient must review the Federal Debarment Listing at https://www.sam.gov/search/ prior to the purchase of equipment or services to ensure the intended vendor is not listed and also maintain documentation that the list was verified.

D. Prior to the purchase of equipment or services utilizing a sole source contract or the receipt of single bid response of $250,000.00 or more, justification must be presented to CEO, who upon review will request approval from Cal OES. Such approval in writing must be obtained prior to the commitment of funds.

E. Subrecipient must provide any certifications or reports requested by the County of Los Angeles to the CEO indicating Subrecipient's performance under this Agreement, including progress on meeting program goals. Reports must be in the form requested by the County of Los Angeles, and must be provided by the fifteenth (15th) of the following month. Subrecipient is required to complete any survey requests requested by the County of Los Angeles. Subrecipient must also submit completed Project Claims for reimbursement immediately or a minimum on a quarterly basis, and no later than the date stated in §201, above.

F. Subrecipient must provide an electronic copy of their Annual Single Audit Report, as required by Title 2 Code of Federal Regulations (C.F.R) Part 200, to the County of Los Angeles within 30 calendar days after receipt of the auditor's

report(s). In the event the Subrecipient does not meet the Single Audit Threshold expenditure amount in a fiscal year, the Subrecipient must provide the County of Los Angeles a copy of a letter sent to State Controller's Office noting the Single Audit Threshold was not met, and its exempt status within nine months after the end of the Subrecipient's fiscal year, unless otherwise approved by the County of Los Angeles.

G. Subrecipient may be monitored by the County of Los Angeles on an annual basis to ensure compliance with Cal OES grant program requirements. The County of Los Angeles anticipates that said monitoring may include, at a minimum, one on-site visit during the term of this Agreement. Monitoring will utilize a Review Instrument (sample attached hereto as Exhibit H, and subject to periodic revisions) to evaluate compliance.

H. Subrecipient must provide Corrective Action Plan(s) to CEO within thirty (30) days of any audit finding.

I. Subrecipient use of the Los Angeles Regional Interoperable Communication System's Motorola Solutions, Incorporated Land Mobile Radio System Contract to purchase equipment is unallowable unless the Subrecipient can clearly demonstrate to CEO it meets one of the four federal exceptions to necessitate a noncompetitive procurement before issuance of any contract, amendment, or purchase order.

J. Subrecipient shall not use grant funds to purchase, extend, or renew any Telecommunications and Video Surveillance services and equipment as substantial or essential component of any system, or as critical technology as part of any system which the Secretary of Defense, in consultation with Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an owned, controlled by, or connected to the People's Republic of China such as and not limited to Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities); or Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

K. Any equipment acquired pursuant to this Agreement must be authorized in the G&T Authorized Equipment List (AEL) available online at https://www.fema.gov/authorized-equipment-list and the Funding Guidelines of the 2023 SHSP Notice of Funding Opportunity, incorporated by reference, and attached hereto as Exhibit F. Subrecipient must provide the CEO a copy of its most current procurement guidelines and follow its own procurement requirements as long as they meet or exceed the minimum Federal requirements and any added Cal OES requirements. Federal procurement requirements for the 2023 SHSP can be found at Title 2 CFR Part 200.313.

Any equipment acquired or obtained with Grant Funds:

1. Will be made available under the California Disaster and Civil Defense Master Mutual Aid Agreement in consultation with representatives of the various fire, emergency medical, hazardous materials response services, and law enforcement agencies within the jurisdiction of the applicant;

2. Will be consistent with needs as identified in the State Homeland Security Strategy and will be deployed in conformance with that plan;

3. Will be made available pursuant to applicable terms of the California Disaster and Civil Defense Master Mutual Aid Agreement and deployed with personnel trained in the use of such equipment in a manner consistent with the California Law Enforcement Mutual Aid Plan or the California Fire Services and Rescue Mutual Aid Plan.

L. Equipment acquired pursuant to this Agreement will be subject to the requirements of Title 2 CFR Part 200.313. For the purposes of this subsection, "Equipment" is defined as tangible nonexpendable property, having a useful life of more than one year which costs $5,000.00 or more per unit. Items costing less than $5,000.00, but acquired under the "Equipment" category of the Grant must also be listed on any required Equipment Listing.

1. Equipment must be used by Subrecipient in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the Equipment may be used in other activities currently or previously supported by a Federal agency.

2. Subrecipient must make Equipment available for use on other like projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use must be given to other programs or projects supported by the awarding agency.

3. An Equipment Listing must be maintained listing each item of Equipment acquired with SHSP funds. The Equipment Listing must be kept up to date at all times. Any changes must be recorded in the Listing within ten (10) business days and the updated Listing is to be forwarded to the County of Los Angeles Auditor-Controller (A-C) Shared Services Division. The Equipment Property Records must be maintained that include: (a) a description of the property, (b) a serial number or other identification number, (c) the source of property, (d) who holds title, (e) the acquisition date, (f) and cost of the property, (g) percentage of Federal participation in the cost of the property, (h) the location, (i) use and condition of the

property, (j) and any ultimate disposition data including the date of disposal and sale price of the property. Records must be retained by the subrecipient pursuant to Title 2, Part 200.313 (d) (1) of the CFR.

4. All Equipment obtained under this Agreement must have an appropriate identification decal affixed to it, and, when practical, must be affixed where it is readily visible.

5. A physical inventory of the Equipment must be taken by the Subrecipient and the results reconciled with the Equipment Listing at least once every two years or prior to any site visit by State or Federal auditors or County of Los Angeles monitors. The Subrecipient is required to have on file a letter certifying as to the accuracy of the Equipment Listing in the frequency as above, and provide to the CEO when requested.

M. Any Planning paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F or subsequent grant year programs.

N. Any Organization activities paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F.

O. Any Training paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F, and must be first submitted to CEO and then pre-authorized by Cal OES. A catalog of federally approved and sponsored training courses is available at https://www.firstrespondertraining.gov/frts/.

P. Any Exercise paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F. Detailed Homeland Security Exercise and Evaluation Program Guidance is available at https://www.fema.gov/hseep.

Q. Any Personnel activities paid pursuant to this Agreement must conform to the guidelines as listed in Exhibit F.

R. Subrecipient must provide to CEO a spending plan detailing the required steps and timeframes required to complete the approved projects within the grant timeframe. Subrecipient must submit the spending plan to CEO prior to final execution of this Agreement.

S. Pursuant to this Agreement, indirect costs are not reimbursable.

SECTION III

PAYMENT

§301. Payment of Grant Funds and Method of Payment

A. The County of Los Angeles will reimburse Subrecipient up to the maximum grant amount of $100,000 as expenditures are incurred and paid by Subrecipient and all documentation is reviewed and approved by County of Los Angeles. All expenditures must be for the purchase of equipment, exercises, training, organization, and planning as described in Section II of this Agreement. The grant amount represents the amount allocated to Subrecipient in the 2023 SHSP Grant Award Letter from Cal OES.

B. Subrecipient must submit reimbursement requests to the County of Los Angeles A-C Shared Services Division requesting payment as soon as a Project is completed and expenses are incurred and paid with the required supporting documentation; submission can be sent immediately or at a minimum on a quarterly basis, and no later than the date stated in §201, above. Each reimbursement request must be accompanied by the Reimbursement Form (sample attached hereto as Exhibit G, and subject to periodic revisions). All appropriate back-up documentation must be attached to the reimbursement form, including the method of procurement, bid documentation, purchase orders, invoices, report of goods received, and proof of payment.

   For Training reimbursements, Subrecipient must include a copy of the class roster verifying training attendees, proof that prior approval was obtained from Cal OES and that a Cal OES Feedback number has been assigned to the course, and timesheets and payroll registers for all training attendees.

   For Exercise reimbursements, Subrecipient must enter the After Action Report (AAR) and Improvement Plan on the State Office of Domestic Preparedness secure portal within sixty (60) days following completion of the exercise and submit proof of prior State approval of the AAR with the reimbursement request.

   For Planning reimbursements, Subrecipient must include a copy of the final tangible product.

C. The County of Los Angeles may, at its discretion, reallocate unexpended grant funds to another subrecipient. Said reallocation may occur upon approval by the County of Los Angeles of a Subrecipient reimbursement submission, inquiry from the County of Los Angeles to the Subrecipient regarding fund utilization, or by written notification from the Subrecipient to the County of Los Angeles that a portion of the grant funds identified in

§301.A., above, will not be utilized. As provided in §503, below, any increase or decrease in the grant amount specified in §301.A., above, may be effectuated by a written notification by the County of Los Angeles to the Subrecipient.

D. Payment of reimbursement request will be withheld by the County of Los Angeles until the County of Los Angeles has determined that Subrecipient has turned in all supporting documentation and completed the requirements of this Agreement.

E. It is understood that the County of Los Angeles makes no commitment to fund this Agreement beyond the terms set forth herein.

F. Funding for all periods of this Agreement is subject to continuing Federal appropriation of grant funds for this program. In the event of a loss or reduction of Federal appropriation of grant funds for this program, the Agreement may be terminated, or appropriately amended, immediately upon notice to Subrecipient of such loss or reduction of Federal grant funds.

   County of Los Angeles will make a good-faith effort to notify Subrecipient, in writing, of such non-appropriation at the earliest time.

SECTION IV

STANDARD PROVISIONS

§401. Construction of Provisions and Titles Herein

All titles or subtitles appearing herein have been inserted for convenience and do not, and will not be deemed to, affect the meaning or construction of any of the terms or provisions hereof. The language of this Agreement will be construed according to its fair meaning and not strictly for or against either party.

§402. Applicable Law, Interpretation and Enforcement

Each party's performance hereunder must comply with all applicable laws of the United States of America, the State of California, and the County of Los Angeles. This Agreement will be enforced and interpreted, as applicable, under the laws of the United States of America, the State of California and the County of Los Angeles.

If any part, term or provision of this Agreement is held void, illegal, unenforceable, or in conflict with any law of a Federal, State or Local Government having jurisdiction over this Agreement, the validity of the remainder of the Agreement will not be affected thereby.

Applicable Federal or State requirements that are more restrictive will be followed.

§403. Integrated Agreement

This Agreement sets forth all of the rights and duties of the parties with respect to the subject matter hereof, and replaces any and all previous agreements or understandings, whether written or oral, relating thereto. This Agreement may be amended only as provided for herein.

§404. Breach

If any party fails to perform, in whole or in part, any promise, covenant, or agreement set forth herein, or should any representation made by it be untrue, any aggrieved party may avail itself of all rights and remedies, at law or equity, in the courts of law. Said rights and remedies are cumulative of those provided for herein except that in all events, no party may recover more than once, suffer a penalty or forfeiture, or be unjustly compensated.

§405. Prohibition Against Assignment or Delegation

Subrecipient may not do any of the following, unless it has first obtained the written permission of the County of Los Angeles:

A. Assign or otherwise alienate any of its rights hereunder, including the right to payment; or

B. Delegate, subcontract, or otherwise transfer any of its duties hereunder.

§406. Permits

Subrecipient and its officers, agents and employees must obtain and maintain all permits and licenses necessary for Subrecipient's performance hereunder and must pay any fees required therefor. Subrecipient further certifies that it will immediately notify the County of Los Angeles of any suspension, termination, lapse, non-renewal or restriction of licenses, certificates, or other documents.

§407. Nondiscrimination and Affirmative Action

Subrecipient must comply with the applicable nondiscrimination and affirmative action provisions of the laws of the United States of America, the State of California, and the County of Los Angeles. In performing this Agreement, Subrecipient must not discriminate in its employment practices against any employee or applicant for employment because of such person's race, religion,

national origin, ancestry, sex, sexual orientation, age, physical handicap, mental disability, marital status, domestic partner status or medical condition.

Subrecipient must comply with Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60).

If required, Subrecipient must submit an Equal Employment Opportunity Plan to the Department of Justice Office of Civil Rights in accordance with guidelines listed at https://www.justice.gov/crt.

Any subcontract entered into by the Subrecipient relating to this Agreement, to the extent allowed hereunder, will be subject to the provisions of this §407 of this Agreement.

§408. Indemnification

Each of the parties to this Agreement is a public entity. This indemnity provision is written in contemplation of the provisions of Section 895.2 of the Government Code of the State of California, which impose certain tort liability jointly upon public entities, solely by reason of such entities being parties to an agreement, and the parties agree that this indemnity provision will apply and will be enforceable regardless of whether Section 895 et seq. is deemed to apply to this Agreement. The parties hereto, as between themselves, consistent with the authorization contained in Government Code Sections 895.4 and 895.6 agree to each assume the full liability imposed upon it or upon any of its officers, agents, or employees by law, for injury caused by a negligent or wrongful act or omission occurring in the performance of this Agreement, to the same extent that such liability would be imposed in the absence of Government Code Section 895.2.

To achieve the above-stated purpose, each party agrees to indemnify and hold harmless the other party for any liability arising out of its own negligent acts or omissions in the performance of this Agreement (i.e., the Subrecipient agrees to indemnify and hold harmless the County of Los Angeles for liability arising out of the Subrecipient's negligent or wrongful acts or omissions and the County of Los Angeles agrees to indemnify and hold harmless the Subrecipient for liability arising out of the County of Los Angeles' negligent or wrongful acts or omissions). Each party further agrees to indemnify and hold harmless the other party for liability that is imposed on the other party solely by virtue of Government Code Section 895.2. The provisions of Section 2778 of the California Civil Code are made a part hereof as if fully set forth herein. Subrecipient certifies that it has adequate self-insured retention of funds to meet any obligation arising from this Agreement.

§409. Conflict of Interest

A. The Subrecipient covenants that none of its directors, officers, employees, or agents may participate in selecting, or administrating, any subcontract supported (in whole or in part) by Federal funds where such person is a director, officer, employee or agent of the subcontractor; or where the selection of subcontractors is or has the appearance of being motivated by a desire for personal gain for themselves or others such as family business, etc.; or where such person knows or should have known that:

    1. A member of such person's immediate family, or domestic partner or organization has a financial interest in the subcontract;

    2. The subcontractor is someone with whom such person has or is negotiating any prospective employment; or

    3. The participation of such person would be prohibited by the California Political Reform Act, California Government Code §87100 et seq. if such person were a public officer, because such person would have a "financial or other interest" in the subcontract.

B. Definitions:

    1. The term "immediate family" means domestic partner and/or those persons related by blood or marriage, such as husband, wife, father, mother, brother, sister, son, daughter, father in law, mother in law, brother in law, sister in law, son in law, daughter in law.

    2. The term "financial or other interest" means:

        a. Any direct or indirect financial interest in the specific contract, including but not limited to, a commission or fee, a share of the proceeds, prospect of a promotion or of future employment, a profit, or any other form of financial reward.

        b. Any of the following interests in the subcontractor ownership: partnership interest or other beneficial interest of five percent or more; ownership of five percent or more of the stock; employment in a managerial capacity; or membership on the board of directors or governing body.

C. The Subrecipient further covenants that no officer, director, employee, or agent may solicit or accept gratuities, favors, or anything of monetary value from any actual or potential subcontractor, supplier, a party to a sub agreement, (or persons who are otherwise in a position to benefit from the actions of any officer, employee, or agent).

D. The Subrecipient may not subcontract with a former director, officer, or employee within a one-year period following the termination of the relationship between said person and the Subrecipient.

E. Prior to obtaining the County of Los Angeles' approval of any subcontract, the Subrecipient must disclose to the County of Los Angeles any relationship, financial or otherwise, direct or indirect, of the Subrecipient or any of its officers, directors or employees or their immediate family with the proposed subcontractor and its officers, directors or employees.

F. For further clarification of the meaning of any of the terms used herein, the parties agree that references are made to the guidelines, rules, and laws of the County of Los Angeles, State of California, and Federal regulations regarding conflict of interest.

G. The Subrecipient warrants that it has not paid or given and will not pay or give to any third person any money or other consideration for obtaining this Agreement.

H. The Subrecipient covenants that no member, officer or employee of Subrecipient may have interest, direct or indirect, in any contract or subcontract or the proceeds thereof for work to be performed in connection with this project during his/her tenure as such employee, member or officer or for one year thereafter.

I. The Subrecipient must incorporate the foregoing subsections of this Section into every agreement that it enters into in connection with this grant and must substitute the term "subcontractor" for the term "Subrecipient" and "sub subcontractor" for "Subcontractor".

§410. Restriction on Disclosures

Any reports, analyses, studies, drawings, information, or data generated as a result of this Agreement are to be governed by the California Public Records Act (California Government Code Sec. 6250 et seq.).

§411. Statutes and Regulations Applicable To All Grant Contracts

A. Subrecipient must comply with all applicable requirements of State, Federal, and County of Los Angeles laws, executive orders, regulations, program and administrative requirements, policies and any other requirements governing this Agreement. Subrecipient must comply with applicable State and Federal laws and regulations pertaining to labor, wages, hours, and other conditions of employment. Subrecipient must comply with new, amended, or revised laws, regulations, and/or procedures that apply to the performance of this Agreement.

These requirements include, but are not limited to:

1. CFR

   Subrecipient must comply with Title 2 CFR Part 200.

2. Single Audit Act

   Since Federal funds are used in the performance of this Agreement, Subrecipient must, as applicable, adhere to the rules and regulations of the Single Audit Act (31 USC Sec. 7501 et seq.), 2 CFR Part 200 and any administrative regulation or field memos implementing the Act.

3. Americans with Disabilities Act

   Subrecipient hereby certifies that, as applicable, it will comply with the Americans with Disabilities Act 42, USC §§12101 et seq., and its implementing regulations. Subrecipient will provide reasonable accommodations to allow qualified individuals with disabilities to have access to and to participate in its programs, services and activities in accordance with the provisions of the Americans with Disabilities Act. Subrecipient will not discriminate against persons with disabilities nor against persons due to their relationship to or association with a person with a disability. Any subcontract entered into by Subrecipient, relating to this Agreement, to the extent allowed hereunder, will be subject to the provisions of this paragraph.

4. Political and Sectarian Activity Prohibited

   None of the funds, materials, property or services provided directly or indirectly under this Agreement may be used for any partisan political activity, or to further the election or defeat of any candidate for public office. Neither may any funds provided under this Agreement be used for any purpose designed to support or defeat any pending legislation or administrative regulation. None of the funds provided pursuant to this Agreement may be used for any sectarian purpose or to support or benefit any sectarian activity.

   Subrecipient must file a Disclosure Form at the end of each calendar quarter in which there occurs any event requiring disclosure or which materially affects the accuracy of any of the information contained in any Disclosure Form previously filed by Subrecipient. Subrecipient must require that the language of this Certification be included in the award documents for all sub-awards at all tiers and that all subcontractors certify and disclose accordingly.

5. Records Inspection

   At any time during normal business hours and as often as either the County of Los Angeles, the U.S. Comptroller General or the Auditor General of the State of California may deem necessary, Subrecipient must make available for examination all of its records with respect to all matters covered by this Agreement. The County of Los Angeles, the U.S. Comptroller General and the Auditor General of the State of California have the authority to audit, examine and make excerpts or transcripts from records, including all Subrecipient's method of procurement, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by this Agreement.

   Subrecipient agrees to provide any reports requested by the County of Los Angeles regarding performance of this Agreement.

6. Records Maintenance

   Records, in their original form, must be maintained in accordance with requirements prescribed by the County of Los Angeles with respect to all matters specified in this Agreement. Original forms are to be maintained on file for all documents specified in this Agreement. Such records must be retained for a period five (5) years after termination of this Agreement and after final disposition of all pending matters. "Pending matters" include, but are not limited to, an audit, litigation or other actions involving records. The County of Los Angeles may, at its discretion, take possession of, retain and audit said records. Records, in their original form pertaining to matters covered by this Agreement, must at all times be retained within the County of Los Angeles unless authorization to remove them is granted in writing by the County of Los Angeles.

7. Subcontracts and Procurement

   Subrecipient must, as applicable, comply with the Federal, State and County of Los Angeles standards in the award of any subcontracts. For purposes of this Agreement, subcontracts include but are not limited to purchase agreements, rental or lease agreements, third party agreements, consultant service contracts and construction subcontracts.

   Subrecipient must, as applicable, ensure that the terms of this Agreement with the County of Los Angeles are incorporated into all Subcontractor agreements. The Subrecipient must submit all Subcontractor agreements to the County of Los Angeles for review prior to the release of any funds to the Subcontractor. The Subrecipient must withhold funds to any Subcontractor agency that fails to comply with the terms and conditions of this Agreement and their respective Subcontractor agreement.

8. Labor

Subrecipient must, as applicable, comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed requirements for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System Personnel Administration (5 CFR 900, Subpart F).

Subrecipient must, as applicable, comply with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7); the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874); the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements; and the Hatch Act (5 USC §§1501-1508 and 7324-7328).

Subrecipient must, as applicable, comply with the Federal Fair Labor Standards Act (29 U.S.C. §201) regarding wages and hours of employment.

None of the funds may be used to promote or deter union/labor organizing activities. CA Gov't Code Sec. 16645 et seq.

9. Civil Rights

Subrecipient must, as applicable, comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352), which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681- 1683, and 1685- 1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of disabilities; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to non-discrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; 0) the requirements of any other nondiscrimination statute(s) that may apply to the application; and (k) P.L. 93-348 regarding the protection of human

subjects involved in research, development, and related activities supported by this award of assistance.

10. Environmental

Subrecipient must, as applicable, comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646), which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

Subrecipient must, as applicable, comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93- 523); (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93205); and (i) Flood Disaster Protection Act of 1973 §102(a) (P.L. 93-234).

Subrecipient must, as applicable, comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

Subrecipient must, as applicable, comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.), which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

Subrecipient must, as applicable, comply with the Federal Water Pollution Control Act (33 U.S.C. §1251 et seq.), which restores and maintains the chemical, physical and biological integrity of the Nation's waters.

Subrecipient must, as applicable, ensure that the facilities under its ownership, lease or supervision that are utilized in the accomplishment of this project are not listed in the Environmental Protection Agency's (EPA) list of Violating Facilities and that it will notify the Federal Granter agency of the receipt of any communication from the Director of the EPA Office of Federal

Activities indicating that a facility to be used in the project is under consideration for listing by the EPA.
By signing this Agreement, Subrecipient warrants and represents that it will, as applicable, comply with the California Environmental Quality Act (CEQA), Public Resources Code §21000 et seq.

Subrecipient must, as applicable, comply with the Energy Policy and Conservation Act (P.L. 94-163, 89 Stat. 871).

Subrecipient must, as applicable, comply with the provision of the Coastal Barrier Resources Act (P.L. 97-348) dated October 19, 1982 (16 U.S.C. 3501 et. seq.) which prohibits the expenditure of most new Federal funds within the units of the Coastal Barrier Resources System.

11. Preservation

Subrecipient must, as applicable, comply with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).

12. Suspension, Debarment, Ineligibility and Voluntary Exclusion

Subrecipient must, as applicable, comply with Title 2 CFR Part §3000, regarding Suspension and Debarment, and Subrecipient must submit a Certification Regarding Debarment, attached hereto as Exhibit B, required by Executive Order 12549 and any amendment thereto. Said Certification must be submitted to the County of Los Angeles concurrent with the execution of this Agreement and must certify that neither Subrecipient nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any Federal department head or agency. Subrecipient must require that the language of this Certification be included in the award documents for all sub-award at all tiers and that all subcontractors certify accordingly.

13. Drug-Free Workplace

Subrecipient must, as applicable, comply with the federal Drug-Free Workplace Act of 1988, 41 USC §701, Title 44 Code of Federal Regulations (CFR) Part §17; the California Drug-Free Workplace Act of 1990, CA Gov't Code §§8350-8357, and Subrecipient must complete the Certification Regarding Drug-Free Workplace Requirements, attached hereto as Exhibit C, and incorporated herein by reference. Subrecipient must require that the language of this Certification be included in the award documents for all sub-award at all tiers and that all subcontractors certify accordingly.

14. Lobbying Activities

Subrecipient must, as applicable, comply with 31 U.S.C.1352 and complete the Disclosure of Lobbying Activities, (0MB 0038-0046), attached hereto as Exhibit A, and incorporated herein by reference.

15. Miscellaneous

Subrecipient must, as applicable, comply with the Laboratory Animal Welfare Act of 1966, as amended (P.L. 89-544, 7 USC §§2131 et seq.).

B. Statutes and Regulations Applicable To This Particular Grant Agreement

Subrecipient must comply with all applicable requirements of State and Federal laws, executive orders, regulations, program and administrative requirements, policies and any other requirements governing this particular grant program.

Subrecipient must, as applicable, comply with new, amended, or revised laws, regulations, and/or procedures that apply to the performance of this Agreement. These requirements include, but are not limited to:

Title 2 CFR Part 200; EO 12372; U.S. Department of Homeland Security, Office of State and Local Government Coordination and Preparedness, Office for Domestic Preparedness, ODP WMD Training Course Catalogue; and DOJ Office for Civil Rights.

Standardized Emergency Management System (SEMS) requirements as stated in the California Emergency Services Act, Government Code Chapter 7 of Division 1 of Title 2, §8607.1(e) and CCR Title 19, §§2445-2448.

Provisions of Title 2, 6, 28, 44 CFR applicable to grants and cooperative agreements, including Part 18, Administrative Review Procedures; Part 20, Criminal Justice Information Systems; Part 22, Confidentiality of Identifiable Research and Statistical Information; Part 23, Criminal Intelligence Systems Operating Policies; Part 30, Intergovernmental Review of Department of Justice Programs and Activities; Part 35, Nondiscrimination on the Basis of Disability in State and Local Government Services; Part 38, Equal Treatment of Faith-based Organizations; Part 42, Nondiscrimination/Equal Employment Opportunities Policies and Procedures; Part 61, Procedures for Implementing the National Environmental Policy Act; Part 63, Floodplain Management and Wetland Protection Procedures; Part 64, Floodplain Management and Wetland Protection Procedures; Federal laws or regulations applicable to Federal Assistance Programs; Part 69, New Restrictions on Lobbying; Part 70, Uniform Administrative Requirements for Grants and Cooperative Agreements (including sub-awards) with Institutions of Higher Learning, Hospitals and other Non-Profit

Organizations; and Part 83, Government-Wide Requirements for a Drug Free Workplace (grants).

Nondiscrimination requirements of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 USC 3789(d), or the Juvenile Justice and Delinquency Prevention Act, or the Victims of Crime Act, as appropriate; the provisions of the current edition of the Office of Justice Programs Financial and Administrative Guide for Grants, M7100.1, and all other applicable Federal laws, orders, circulars, or regulations.

1. Travel Expenses

   Subrecipient, as provided herein, will be compensated for Subrecipient's reasonable travel expenses incurred in the performance of this Agreement, to include travel and per diem, unless otherwise expressed. Subrecipient's total travel for in-State and/or out-of-State and per diem costs must be included in the contract budget(s). All travel, including out- of-State travel, that is not included in the budget(s) will not be reimbursed without prior written authorization from the County of Los Angeles.

   Subrecipient's administrative-related travel and per diem reimbursement costs will not be reimbursed. For programmatic-related travel costs, Subrecipient's reimbursement rates may not exceed the amounts established under the grant.

C. Compliance With Grant Requirements

To obtain the grant funds, the State required an authorized representative of the County of Los Angeles to sign certain promises regarding the way the grant funds would be spent. These requirements are included in Exhibit F and in the State's "Grant Assurances". By signing these Grant Assurances and accepting Exhibit F, the County of Los Angeles became liable to the State for any funds that are used in violation of the grant requirements. The State's Grant Assurances are incorporated into this Agreement through Exhibit D. Subrecipient will be liable to the Granter for any funds the State determines the Subrecipient used in violation of these Grant Assurances.

Pursuant to this Agreement, Subrecipient shall execute the 2023 Certification of Grant Assurances in Exhibit D, accepting and agreeing to abide by all provisions, assurances, and requirements therein. Subrecipient agrees to indemnify and hold harmless the County of Los Angeles for any sums the State or Federal government determines Subrecipient used in violation of the Grant Assurances.

To the extent Exhibit D conflicts with language or provisions contained in this Agreement, or contains more restrictive requirements under Federal and State law, Exhibit D shall control.

D. Noncompliance With Grant Requirements

Subrecipient understands that failure to comply with any of the above assurances and requirements, including Exhibit D, may result in suspension, termination or reduction of grant funds, and repayment by the Subrecipient to the County of Los Angeles of any unauthorized expenditures.

§412. Federal, State and Local Taxes

Federal, State and local taxes are the responsibility of the Subrecipient as an independent party and not of the County of Los Angeles and must be paid prior to requesting reimbursement. However, these taxes are an allowable expense under the grant program.

§413. Inventions, Patents and Copyrights

A. Reporting Procedure for Inventions

If any project produces any invention or discovery ("Invention") patentable or otherwise under Title 35 of the U.S. Code, including, without limitation, processes and business methods made in the course of work under this Agreement, the Subrecipient must report the fact and disclose the Invention promptly and fully to the County of Los Angeles. The County of Los Angeles will report the fact and disclose the Invention to the State. Unless there is a prior agreement between the County of Los Angeles and the State, the State will determine whether to seek protection on the Invention. The State will determine how the rights in the Invention, including rights under any patent issued thereon, will be allocated and administered in order to protect the public interest consistent with the policy ("Policy") embodied in the Federal Acquisition Regulations System, which is based on Ch. 18 of Title 35 U.S.C. Sections 200 et seq. (Pub. L. 95-517, Pub. L. 98-620, Title 37 CFR Part 401); Presidential Memorandum on Government Patent Policy to the Heads of the Executive Departments and Agencies, dated 2/18/1983); and Executive Order 12591, 4/10/87, 52 FR 13414, Title 3 CFR, 1987 Comp., p. 220 (as amended by Executive Order 12618, 12/22/87, 52 FR 48661, Title 3 CFR, 1987 Comp., p. 262). Subrecipient hereby agrees to be bound by the Policy, and will contractually require its personnel to be bound by the Policy.

B. Rights to Use Inventions

As applicable, County of Los Angeles will have an unencumbered right, and a non-exclusive, irrevocable, royalty-free license to use, manufacture, improve upon, and allow others to do so for all government purposes, any Invention developed under this Agreement.

C. Copyright Policy

1. Unless otherwise provided by the State or the terms of this Agreement, when copyrightable material ("Material") is developed under this Agreement, the County of Los Angeles, at its discretion, may copyright the Material. If the County of Los Angeles declines to copyright the Material, the County of Los Angeles will have an unencumbered right, and a non-exclusive, irrevocable, royalty-free license, to use, manufacture, improve upon, and allow others to do so for all government purposes, any Material developed under this Agreement.

2. The State will have an unencumbered right, and a non-exclusive, irrevocable, royalty-free license, to use, manufacture, improve upon, and allow others to do so for all government purposes, any Material developed under this Agreement or any Copyright purchased under this Agreement.

3. Subrecipient must comply with Title 24 CFR 85.34.

D. Rights to Data

The State and the County of Los Angeles will have unlimited rights or copyright license to any data first produced or delivered under this Agreement. "Unlimited rights" means the right to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform and display publicly, or permit others to do so; as required by Title 48 CFR 27.401. Where the data are not first produced under this Agreement or are published copyrighted data with the notice of 17 U.S.C. Section 401 or 402, the State acquires the data under a copyright license as set forth in Title 48 CFR 27.404(f)(2) instead of unlimited rights. (Title 48 CFR 27.404(a)).

E. Obligations Binding on Subcontractors

Subrecipient must require all subcontractors to comply with the obligations of this section by incorporating the terms of this section into all subcontracts.

§414. Child Support Assignment Orders

Under the terms of this Agreement, Subrecipient must, as applicable, comply with California Family Code Section 5230 et seq.

§415. Minority, Women, And Other Business Enterprise Outreach Program

It is the policy of the County of Los Angeles to provide Minority Business Enterprises, Women Business Enterprises and all other business enterprises an equal opportunity to participate in the performance of all Subrecipient's contracts,

including procurement, construction and personal services. This policy applies to all of the Subrecipient's contractors and sub-contractors.

§416. Compliance with Fair Chance Employment Practices

Subrecipient shall comply with fair chance employment hiring practices set forth in California Government Code Section 12952, Employment Discrimination: Conviction History. Subrecipient's violation of this paragraph of the Agreement may constitute a material breach of the Agreement. In the event of such material breach, County of Los Angeles may, in its sole discretion, terminate the Agreement.

§417. Method of Payment and Required Information

The County of Los Angeles may, at its sole discretion, determine the most appropriate, efficient, secure, and timely form of payment provided under this Agreement. Subrecipient further agrees that the default form of payment shall be Electronic Funds Transfer (EFT) or Direct Deposit, unless an alternative method of payment is deemed appropriate by the A-C.

Subrecipient shall provide the A-C with electronic banking and related information for the Subrecipient and/or any other payee that the Subrecipient designates to receive payment pursuant to this Agreement at https://directdeposit.lacounty.gov/. Such electronic banking and related information includes, but is not limited to: bank account number and routing number, legal business name, valid taxpayer identification number or TIN, a working e-mail address capable of receiving remittance advices and other payment related correspondence, and any other information that the A-C determines is reasonably necessary to process the payment and comply with all accounting, record keeping, and tax reporting requirements.

Any provision of law, grant, or funding agreement requiring a specific form or method of payment other than EFT or Direct Deposit shall supersede this requirement with respect to those payments. At any time during the duration of this Agreement, the Subrecipient may submit a written request for an exemption to this requirement and must be based on specific legal, business or operational needs and explain why the payment method designated by the A-C is not feasible and an alternative is necessary. The A-C, in consultation with CEO, shall decide whether to approve exemption requests.

SECTION V

DEFAULTS, SUSPENSION, TERMINATION, AND AMENDMENTS

§501. Defaults

Should either party fail for any reason to comply with the contractual obligations of this Agreement within the time specified by this Agreement, the non-breaching party reserves the right to terminate the Agreement, reserving all rights under State and Federal law.

§502. Termination

This Agreement may be terminated, in whole or in part, from time to time, when such action is deemed by the County of Los Angeles, in its sole discretion, to be in its best interest. Termination of work hereunder shall be effected by notice of termination to the Subrecipient specifying the extent to which performance of work is terminated and the date upon which such termination becomes effective. The date upon which such termination becomes effective shall be no less than ten (10) days after the notice is sent.

§503. Amendments

Except as otherwise provided in this paragraph, any change in the terms of this Agreement, including changes in the services to be performed by Subrecipient, that are agreed to by the Subrecipient and the County of Los Angeles must be incorporated into this Agreement by a written amendment properly signed by persons who are authorized to bind the parties. Notwithstanding the foregoing, any increase or decrease of the grant amount specified in §301.A., above, or any extension of the performance period specified in §201, above, does not require a written amendment, but may be effectuated by a written notification by the County of Los Angeles to the Subrecipient.

SECTION VI

ENTIRE AGREEMENT

§601. Complete Agreement

This Agreement contains the full and complete Agreement between the two parties. Neither verbal agreement nor conversation or other communication with any officer or employee of either party will affect or modify any of the terms and conditions of this Agreement.

§602. Number of Pages and Attachments

This Agreement may be executed utilizing wet, scanned digital, and electronic signatures, each of which is deemed to be an original. This Agreement includes (27) pages and (8) Exhibits which constitute the entire understanding and agreement of the parties.

[Remainder of this page intentionally left blank]

IN WITNESS WHEREOF, the Subrecipient and the County of Los Angeles have caused this Agreement to be executed by their duly authorized representatives.

Certification Regarding Lobbying

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, 'Disclosure of Lobbying Activities,' in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

CERTIFICATION REGARDING
DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION
LOWER TIER COVERED TRANSACTIONS

This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 24 CFR Part 24 Section 24.510, Participants' responsibilities.

(READ ATTACHED INSTRUCTIONS FOR CERTIFICATION BEFORE COMPLETING)

1. The prospective recipient of Federal assistance funds certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.

2. Where the prospective recipient of Federal assistance funds is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this document, the prospective recipient of Federal assistance is providing the certification as set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this agreement is entered, if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous, when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," " primary covered transaction," 'principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549.

5. The prospective recipient of Federal assistance funds agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation on this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective recipient of Federal assistance funds further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Procurement or Non Procurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under Paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded form participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

STATE OF CALIFORNIA

DRUG-FREE WORKPLACE CERTIFICATION

STD. 21

COMPANY/ORGANIZATION NAME: City of Glendora

The contractor or grant recipient named above hereby certifies compliance with *Government Code Section 8355* in matters relating to providing a drug-free workplace. The above-named contractor or recipient will:

1. Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by *Government Code Section 8355(a)*.

2. Establish a Drug-Free Awareness Program as required by *Government Code Section 8355(b)*, to inform employees about all of the following:

   (a) The dangers of drug abuse in the workplace,

   (b) The person's or organization's policy of maintaining a drug-free workplace,

   (c) Any available counseling, rehabilitation and employee assistance programs, and

   (d) Penalties that may be imposed upon employees for drug abuse violations.

3. Provide as required by *Government Code Section 8355(c)*, that every employee who works on the proposed contract or subgrant:

   (a) Will receive a copy of the company's drug-free policy statement, and

   (b) Will agree to abide by the terms of the company's statement as a condition of employment on the contract or subgrant.

CERTIFICATION

I, the official named below, hereby swear that I am duly authorized legally to bind the contractor or Recipient to the above described certification. I am fully aware that this certification, executed on the date and in the county below, is made under penalty of perjury under the laws of the State of California.

FEDERAL I.D. NUMBER

STATEMENT ON THE DRUG-FREE WORKPLACE

To comply with the enactment of Senate Bill 1120, *(Chapter 1170, Statutes of 1990),* which established the Drug-Free Workplace Act of 1990, the City of Glendora *(your agency)* accordingly provides this statement of compliance.

In order to maintain funding eligibility, state agencies, along with those in receipt of grant and contractual awards, must certify that they provide drug-free workplaces and have issued drug-free workplace statements to their employees *[Section 8355(a) of the Government Code]*. Consequently, in accordance with this directive, this statement is issued to meet this requirement.

The City of Glendora (*your agency*), an agency within the State of California has adopted this statement in compliance with legislation which addresses issues to avoid the dangers arising from drug and alcohol abuse in the workplace. These dangers include death and injury to the employee, co-workers, or the public resulting from accidents, dereliction of duty, poor judgment and carelessness. Substance abuse also results in lost productivity, reduced efficiency, and increased absenteeism by the substance abuser and interferes with the job performance of employees who do not use illegal or unauthorized substances. *[Section 8355(b)(1)]*

California law prohibits the unlawful manufacture, dispensation, possession, or illegal use of a controlled substance. That prohibition extends to all places and includes the worksite of California state employees. *[Section 8355(a)]*

Employees convicted of a violation of criminal drug statute, when the violation occurred at an employee's worksite, shall report the conviction to the granting and monitoring State agency upon conviction. *[Section 8356(a)(1)(2)]*

In the event of the unlawful manufacture, distribution, dispensation, possession or illegal use of a controlled substance at a State worksite, the State may take disciplinary action pursuant to the law and/or require the satisfactory completion of a drug abuse assistance or rehabilitation program. *[Section 8355(b)(4)]*

The Employee Assistance Program (EAP) provides drug problem assessment and referral to appropriate counseling and rehabilitation services. The EAP is available to all agency employees. Procedures exist to ensure the confidentiality of EAP records. Contact your personnel office for further information.

It is the intent of the CityofGlendora (*your agency)* to ensure by execution of this statement of compliance that each employee shall abide by the terms of this drug-free workplace statement. *[Section 8355(c)]*

EXHIBIT D

COUNTY OF LOS ANGELES

2023 CERTIFICATION OF GRANT ASSURANCES

As the duly authorized representative of the Subrecipient, I hereby certify Subrecipient's complete acceptance of Exhibit D, and agreement to abide by all provisions, assurances, conditions and requirements of the Grant Assurances therein.

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

As the duly authorized representative of the Applicant, I hereby certify that the Applicant has the legal authority to apply for federal assistance and the institutional, managerial, and financial capability (including funds sufficient to pay any non-federal share of project cost) to ensure proper planning, management, and completion of the project described in this application, within prescribed timelines.

The requirements outlined in these assurances apply to Applicant and any of its subrecipients.

I further acknowledge that the Applicant is responsible for reviewing and adhering to all requirements within the:

(a) Applicable Federal Regulations (see below);
(b) Federal Program Notice of Funding Opportunity (NOFO);
(c) Federal Preparedness Grants Manual;
(d) California Supplement to the NOFO; and
(e) Federal and State Grant Program Guidelines.

Federal Regulations
Government cost principles, uniform administrative requirements, and audit requirements for federal grant programs are set forth in Title 2, Part 200 of the Code of Federal Regulations (C.F.R.). Updates are issued by the Office of Management and Budget (OMB) and can be found at http://www.whitehouse.gov/omb/.

In the event Cal OES determines that changes are necessary to the subaward after a subaward has been made, including changes to period of performance or terms and conditions, Applicants will be notified of the changes in writing. Once notification has been made, any subsequent request for funds will indicate Applicant acceptance of the changes to the subaward.

State and federal grant award requirements are set forth below. The Applicant hereby agrees to comply with the following:

1. **Proof of Authority**
   The Applicant will obtain proof of authority from the city council, governing board, or authorized body in support of this project. This written authorization must specify that the Applicant and the city council, governing board, or authorized body agree:

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

(a) To provide all matching funds required for the grant project and that any cash match will be appropriated as required;
(b) Any liability arising out of the performance of this agreement shall be the responsibility of the Applicant and the city council, governing board, or authorized body;
(c) Grant funds shall not be used to supplant expenditures controlled by the city council, governing board, or authorized body;
(d) The Applicant is authorized by the city council, governing board, or authorized body to apply for federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-federal share of project cost, if any) to ensure proper planning, management and completion of the project described in this application; and
(e) The official executing this agreement is authorized by the Applicant.

This Proof of Authority must be maintained on file and readily available upon request.

2. Period of Performance

The period of performance is specified in the Award. The Applicant is only authorized to perform allowable activities approved under the award, within the period of performance.

3. Lobbying and Political Activities

As required by Section 1352, Title 31 of the United States Code (U.S.C.), for persons entering into a contract, grant, loan, or cooperative agreement from an agency or requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan, the Applicant certifies that:

(a) No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

(b) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(c) The Applicant shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

The Applicant will also comply with provisions of the Hatch Act (5 U.S.C. §§ 1501- 1508 and §§ 7324-7328) which limit the political activities of employees whose principle employment activities are funded in whole or in part with federal funds.

Finally, the Applicant agrees that federal funds will not be used, directly or indirectly, to support the enactment, repeal, modification or adoption of any law, regulation or policy without the express written approval from the California Governor's Office of Emergency Services (Cal OES) or the federal awarding agency.

4. Debarment and Suspension

As required by Executive Orders 12549 and 12689, and 2 C.F.R. § 200.214 and codified in 2 C.F.R. Part 180, Debarment and Suspension, the Applicant will provide protection against waste, fraud, and abuse by debarring or suspending those persons deemed irresponsible in their dealings with the federal government. The Applicant certifies that it and its subrecipients:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state, or local) with commission of any of the offenses enumerated in paragraph (4)(b) of this certification; and
(d) Have not within a three-year period preceding this application had one or more public transaction (federal, state, or local) terminated for cause or default.

Where the Applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

5. Non-Discrimination and Equal Employment Opportunity
The Applicant will comply with all state and federal statutes relating to non-discrimination, including:

(a) Title VI of the Civil Rights Act of 1964 (Public Law (P.L.) 88-352 and 42 U.S.C. § 2000d et. seq.) which prohibits discrimination on the basis of race, color, or national origin and requires that recipients of federal financial assistance take reasonable steps to provide meaningful access to persons with limited English proficiency (LEP) to their programs and services;
(b) Title IX of the Education Amendments of 1972, (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex in any federally funded educational program or activity;
(c) Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794), which prohibits discrimination against those with disabilities or access and functional needs;
(d) Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. § 12101et seq.), which prohibits discrimination on the basis of disability and requires buildings and structures be accessible to those with disabilities and access and functional needs;
(e) Age Discrimination Act of 1975, (42 U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age;
(f) Public Health Service Act of 1912 (42 U.S.C. §§ 290 dd—2), relating to confidentiality of patient records regarding substance abuse treatment;
(g) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. § 3601 et seq.), relating to nondiscrimination in the sale, rental or financing of housing as implemented by the Department of Housing and Urban Development at 24 C.F.R. Part100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units—i.e., the public and common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)—

Initials _____

be designed and constructed with certain accessible features (See 24 C.F.R. § 100.201);

(h) Executive Order 11246, which prohibits federal contractors and federally assisted construction contractors and subcontractors, who do over $10,000 in Government business in one year from discriminating in employment decisions on the basis of race, color, religion, sex, sexual orientation, gender identification or national origin;

(i) Executive Order 11375, which bans discrimination on the basis of race, color, religion, sex, sexual orientation, gender identification, or national origin in hiring and employment in both the United States federal workforce and on the part of government contractors;

(j) California Public Contract Code § 10295.3, which prohibits discrimination based on domestic partnerships and those in same sex marriages;

(k) Department of Homeland Security (DHS) policy to ensure the equal treatment of faith-based organizations, under which the Applicant must comply with equal treatment policies and requirements contained in 6 C.F.R. Part 19;

(l) The Applicant will comply with California's Fair Employment and Housing Act (FEHA) (California Government Code §§12940-12957), as applicable. FEHA prohibits harassment and discrimination in employment because of ancestry, familial status, race, color, religious creed (including religious dress and grooming practices), sex (which includes pregnancy, childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, mental and physical disability, genetic information, medical condition, age, pregnancy, denial of medical and family care leave, or pregnancy disability leave, military and veteran status, and/or retaliation for protesting illegal discrimination related to one of these categories, or for reporting patient abuse in tax supported institutions;

(m) Any other nondiscrimination provisions in the specific statute(s) under which application for federal assistance is being made; and

(n) The requirements of any other nondiscrimination statute(s) that may apply to this application.

6. Drug-Free Workplace

As required by the Drug-Free Workplace Act of 1988 (41 U.S.C. § 701 et seq.),the Applicant certifies that it will maintain a drug-free workplace and a drug-free awareness program as outlined in the Act.

7. Environmental Standards

The Applicant will comply with state and federal environmental standards, including:

(a) California Environmental Quality Act (CEQA) (California Public Resources Code §§ 21000-21177), to include coordination with the city or county planning agency;
(b) CEQA Guidelines (California Code of Regulations, Title 14, Division 6, Chapter 3, §§ 15000-15387);
(c) Federal Clean Water Act (CWA) (33 U.S.C. § 1251 et seq.), which establishes the basic structure for regulating discharges of pollutants into the waters of the United States and regulating quality standards for surface waters;
(d) Federal Clean Air Act of 1955 (42 U.S.C. § 7401) which regulates air emissions from stationary and mobile sources;
(e) Institution of environmental quality control measures under the National Environmental Policy Act (NEPA) of 1969 (P.L. 91-190); the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA; and Executive Order 12898 which focuses on the environmental and human health effects of federal actions on minority and low-income populations with the goal of achieving environmental protection for all communities;
(f) Evaluation of flood hazards in floodplains in accordance with Executive Order 11988;
(g) Executive Order 11514 which sets forth national environmental standards;
(h) Executive Order 11738 instituted to assure that each federal agency empowered to enter into contracts for the procurement of goods, materials, or services and each federal agency empowered to extend federal assistance by way of grant, loan, or contract shall undertake such procurement and assistance activities in a manner that will result in effective enforcement of the Clean Air Act and the Federal Water Pollution Control Act Executive Order 11990 which requires preservation of wetlands;
(i) The Safe Drinking Water Act of 1974, (P.L. 93-523);
(j) The Endangered Species Act of 1973, (P.L. 93-205);
(k) Assurance of project consistency with the approved state management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.);
(l) Conformity of Federal Actions to State (Clear Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); and

(m) Wild and Scenic Rivers Act of 1968 (16 U.S.C. § 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

The Applicant shall not be: (1) in violation of any order or resolution promulgated by the State Air Resources Board or an air pollution district; 2) subject to a cease-and-desist order pursuant to section 13301 of the California Water Code for violation of waste discharge requirements or discharge prohibitions; or 3) determined to be in violation of federal law relating to air or water pollution.

8. Audits

For subrecipients expending $750,000 or more in federal grant funds annually, the Applicant will perform the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and 2 C.F.R., Part 200, Subpart F Audit Requirements.

9. Cooperation and Access to Records

The Applicant must cooperate with any compliance reviews or investigations conducted by DHS. In accordance with 2 C.F.R. § 200.337, the Applicant will give the awarding agency, the Comptroller General of the United States and, if appropriate, the state, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award. The Applicant will require any subrecipients, contractors, successors, transferees and assignees to acknowledge and agree to comply with this provision.

10. Conflict of Interest

The Applicant will establish safeguards to prohibit the Applicant's employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

11. Financial Management

False Claims for Payment - The Applicant will comply with 31 U.S.C §§ 3729-3733 which provides that Applicant shall not submit a false claim for payment, reimbursement, or advance.

12. Reporting - Accountability

The Applicant agrees to comply with applicable provisions of the Federal Funding Accountability and Transparency Act (FFATA) (P.L. 109-282), including but not limited to (a) the reporting of subawards obligating $30,000 or more in federal funds,

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

and (b) executive compensation data for first-tier subawards as set forth in 2 C.F.R. Part 170, Appendix A. The Applicant also agrees to comply with the requirements set forth in the government-wide financial assistance award term regarding the System for Award Management and Universal Identifier Requirements located at 2 C.F.R. Part 25, Appendix A.

13. Whistleblower Protections

The Applicant must comply with statutory requirements for whistleblower protections at 10 U.S.C. § 2409, 41 U.S.C. § 4712, and 10 U.S.C. § 2324, 41 U.S.C. § 4304 and § 4310.

14. Human Trafficking

The Applicant will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act of 2000, as amended (22 U.S.C. § 7104) which prohibits the Applicant or its subrecipients from: (1) engaging in trafficking in persons during the period of time that the award is in effect; (2) procuring a commercial sex act during the period of time that the award is in effect; or (3) using forced labor in the performance of the award or subawards under the award.

15. Labor Standards

The Applicant will comply with the following federal labor standards:

(a) The Davis-Bacon Act (40 U.S.C. §§ 276a to 276a-7), as applicable, and the Copeland Act (40 U.S.C. § 3145 and 18 U.S.C. § 874) and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§ 327-333), regarding labor standards for federally-assisted construction contracts or subcontracts, and

(b) The Federal Fair Labor Standards Act (29 U.S.C. § 201 et seq.) as they apply to employees of institutes of higher learning (IHE), hospitals and other non-profit organizations.

16. Worker's Compensation

The Applicant must comply with provisions which require every employer to be insured to protect workers who may be injured on the job at all times during the performance of the work of this Agreement, as per the workers compensation laws set forth in California Labor Code §§ 3700 et seq.

17. Property-Related

If applicable to the type of project funded by this federal award, the Applicant will:

(a) Comply with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646)

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of federal participation in purchase;

(b) Comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires federal award subrecipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more;

(c) Assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. § 470), Executive Order 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16U.S.C. § 469a-1 et seq.); and

(d) Comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. § 4831 and 24 CFR Part 35) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

18. Certifications Applicable Only to Federally-Funded Construction Projects

For all construction projects, the Applicant will:

(a) Not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with federal assistance funds to assure nondiscrimination during the useful life of the project;

(b) Comply with the requirements of the awarding agency with regard to the drafting, review and approval of construction plans and specifications; and

(c) Provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.

19. Use of Cellular Device While Driving is Prohibited

The Applicant is required to comply with California Vehicle Code sections 23123 and 23123.5. These laws prohibit driving motor vehicle while using an electronic wireless communications device to write, send, or read a text-based communication.

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

Drivers are also prohibited from the use of a wireless telephone without hands-free listening and talking, unless to make an emergency call to 911, law enforcement, or similar services.

20. California Public Records Act and Freedom of Information Act

The Applicant acknowledges that all information submitted in the course of applying for funding under this program, or provided in the course of an entity's grant management activities that are under Federal control, is subject to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and the California Public Records Act, California Government Code §7920.000 et seq. The Applicant should consider these laws and consult its own State and local laws and regulations regarding the release of information when reporting sensitive matters in the grant application, needs assessment, and strategic planning process.

HOMELAND SECURITY GRANT PROGRAM (HSGP) – PROGRAM SPECIFIC ASSURANCES / CERTIFICATIONS

21. Acknowledgment of Federal Funding from DHS

The Applicant must acknowledge its use of federal funding when issuing statements, press releases, requests for proposals, bid invitations, and other documents describing projects or programs funded in whole or in part with federal funds.

22. Activities Conducted Abroad

The Applicant must ensure that project activities carried on outside the United States are coordinated as necessary with appropriate government authorities and that appropriate licenses, permits, or approvals are obtained.

23. Best Practices for Collection and Use of Personally Identifiable Information (PII)

DHS defines personally identifiable information (PII) as any information that permits the identity of an individual to be directly or indirectly inferred, including any information that is linked or linkable to that individual. If the Applicant collects PII, the Applicant is required to have a publicly-available privacy policy that describes standards on the usage and maintenance of PII they collect. The Applicant may refer to the DHS Privacy Impact Assessments: Privacy Guidance and Privacy template as a useful resource.

24. Copyright

The Applicant must affix the applicable copyright notices of 17 U.S.C. §§ 401 or 402 and an acknowledgement of United States Government sponsorship (including the award number) to any work first produced under federal financial assistance awards.

25. Duplication of Benefits

Any cost allocable to a particular federal financial assistance award provided for in 2 C.F.R. Part 200, Subpart E may not be charged to other federal financial assistance awards to overcome fund deficiencies, to avoid restrictions imposed by federal statutes, regulations, or federal financial assistance award terms and conditions, or for other reasons. However, these prohibitions would not preclude the Applicant from shifting costs that are allowable under two or more awards in accordance with existing federal statutes, regulations, or the federal financial assistance award terms and conditions.

26. Energy Policy and Conservation Act

The Applicant must comply with the requirements of 42 U.S.C. § 6201 which contain policies relating to energy efficiency that are defined in the state energy conservation plan issued in compliance with this Act.

27. Federal Debt Status

The Applicant is required to be non-delinquent in its repayment of any federal debt. Examples of relevant debt include delinquent payroll and other taxes, audit disallowances, and benefit overpayments. See OMB Circular A-129.

28. Fly America Act of 1974

The Applicant must comply with Preference for United States Flag Air Carriers: (air carriers holding certificates under 49 U.S.C. § 41102) for international air transportation of people and property to the extent that such service is available, in accordance with the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. § 40118) and the interpretative guidelines issued by the Comptroller General of the United States in the March 31, 1981, amendment to Comptroller General Decision B-138942.

29. Hotel and Motel Fire Safety Act of 1990

In accordance with Section 6 of the Hotel and Motel Fire Safety Act of 1990, the Applicant must ensure that all conference, meeting, convention, or training space funded in whole or in part with federal funds complies with the fire prevention and control guidelines of the Federal Fire Prevention and Control Act of 1974, as amended, 15 U.S.C. § 2225a.

Initials _____

30. Non-supplanting Requirement

If the Applicant receives federal financial assistance awards made under programs that prohibit supplanting by law, the Applicant must ensure that federal funds do not replace (supplant) funds that have been budgeted for the same purpose through non- federal sources.

31. Patents and Intellectual Property Rights

Unless otherwise provided by law, the Applicant is subject to the Bayh-Dole Act, Pub. L. No. 96-517, as amended, and codified in 35 U.S.C. § 200 et seq. The Applicant is subject to the specific requirements governing the development, reporting, and disposition of rights to inventions and patents resulting from financial assistance awards located at 37 C.F.R. Part 401 and the standard patent rights clause located at 37 C.F.R. § 401.14.

32. SAFECOM

If the Applicant receives federal financial assistance awards made under programs that provide emergency communication equipment and its related activities, the Applicant must comply with the SAFECOM Guidance for Emergency Communication Grants, including provisions on technical standards that ensure and enhance interoperable communications.

33. Terrorist Financing

The Applicant must comply with Executive Order 13224 and United States law that prohibit transactions with, and the provisions of resources and support to, individuals and organizations associated with terrorism. The Applicant is legally responsible for ensuring compliance with the Order and laws.

34. Reporting of Matters Related to Recipient Integrity and Performance

If the total value of the Applicant's currently active grants, cooperative agreements, and procurement contracts from all federal assistance offices exceeds $10,000,000 for any period of time during the period of performance of this federal financial assistance award, the Applicant must comply with the requirements set forth in the government-wide Award Term and Condition for Recipient Integrity and Performance Matters located at 2 C.F.R. Part 200, Appendix XII, the full text of which is incorporated here by reference in the award terms and conditions.

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

35. USA Patriot Act of 2001

The Applicant must comply with requirements of the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act (USA PATRIOT Act), which amends 18 U.S.C. §§ 175-175c.

36. Use of DHS Seal, Logo, and Flags

The Applicant must obtain permission from their DHS Financial Assistance Office, prior to using the DHS seal(s), logos, crests or reproductions of flags or likenesses of DHS agency officials, including use of the United States Coast Guard seal, logo, crests or reproductions of flags or likenesses of Coast Guard officials.

37. Performance Goals

In addition to the Biannual Strategy Implementation Report submission requirements outlined in the Preparedness Grants Manual, the Applicant must demonstrate how the grant-funded project addresses the core capability gap associated with each project and identified in the Threat and Hazard Identification and Risk Analysis or Stakeholder Preparedness Review or sustains existing capabilities, as applicable. The capability gap reduction or capability sustainment must be addressed in the Project Description of the BSIR for each project.

38. Applicability of DHS Standard Terms and Conditions to Tribes

The DHS Standard Terms and Conditions are a restatement of general requirements imposed upon the Applicant and flow down to any of its subrecipients as a matter of law, regulation, or executive order. If the requirement does not apply to Indian tribes or there is a federal law or regulation exempting its application to Indian tribes, then the acceptance by Tribes of, or acquiescence to, DHS Standard Terms and Conditions does not change or alter its inapplicability to an Indian tribe. The execution of grant documents is not intended to change, alter, amend, or impose additional liability or responsibility upon the Tribe where it does not already exist.

39. Required Use of American Iron, Steel, Manufactured Products, and Construction Materials

The Applicant must comply with the "Build America, Buy America" Act (BABAA), enacted as part of the Infrastructure Investment and Jobs Act and Executive Order 14005. Applicants receiving a federal award subject to BABAA requirements may not use federal financial assistance funds for infrastructure projects unless:

(a) All iron and steel used in the project are produced in the United States – this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

Initials _____

(b) All manufactured products used in the project are produced in the United States – this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

(c) All construction materials are manufactured in the United States – this means that all manufacturing processes for the construction material occurred in the United States.

The "Buy America" preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. It does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a "Buy America" preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

Per section 70914(c) of BABAA, FEMA may waive the application of a "Buy America" preference under an infrastructure program in certain cases.

On July 1, 2022, OMB approved FEMA's General Applicability Public Interest Waiver of the BABAA requirements to be effective for a period of six months, through January 1, 2023. Applicants will not be required to follow the BABAA requirements for FEMA awards made, and any other funding FEMA obligates, during this waiver period. For any new awards FEMA makes after January 1, 2023, as well as new funding FEMA obligates to existing awards or through renewal awards where the new funding is obligated after January 1, 2023, Applicants will be required to follow the BABAA requirements unless another waiver is requested and approved.

40. Advancing Effective, Accountable Policing and Criminal Justice Practice to Enhance Public Trust and Public Safety

The Applicant must comply with the requirements of section 12(c) of Executive Order 14074. The Applicant is also encouraged to adopt and enforce policies consistent with Executive Order 14074 to support safe and effective policing.

Initials _____

Standard Assurances
For Cal OES Federal Non-Disaster Grant Programs

IMPORTANT
The purpose of these assurances is to obtain federal and state financial assistance, including any and all federal and state grants, loans, reimbursement, contracts, etc. Applicant recognizes and agrees that state financial assistance will be extended based on the representations made in these assurances. These assurances are binding on Applicant, its successors, transferees, assignees, etc. as well as any of its subrecipients. Failure to comply with any of the above assurances may result in suspension, termination, or reduction of grant funds.

All appropriate documentation, as outlined above, must be maintained on file by the Applicant and available for Cal OES or public scrutiny upon request. Failure to comply with these requirements may result in suspension of payments under the grant or termination of the grant or both and the Applicant may be ineligible for award of any future grants if Cal OES determines that the Applicant: (1) has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

All of the language contained within this document must be included in the award documents for all subawards at all tiers. Applicants are bound by DHS Standard Terms and Conditions 2023, Version 2, hereby incorporated by reference, which can be found at: https://www.dhs.gov/publication/fy15-dhs- standard-terms-and-conditions.

The undersigned represents that he/she is authorized to enter into this agreement for and on behalf of the Applicant.

NANCY WARD
DIRECTOR

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

October 18, 2023

Fesia A. Davenport
Chief Executive Officer
Los Angeles County
500 West Temple Street, Room 713
Los Angeles, CA 90012

DELIVERED VIA E-MAIL: FDavenport@ceo.lacounty.gov

SUBJECT: **NOTIFICATION OF SUBRECIPIENT SUBAWARD APPROVAL**
Fiscal Year (FY) 2023 Homeland Security Grant Program (HSGP)
Subaward #2023-0042, Cal OES ID#037-00000
Subaward Period of Performance: 09/01/2023-05/31/2026

Dear Ms. Davenport:

We are pleased to announce the approval of your FY 2023 HSGP subaward in the amount of $9,481,457.

Once the completed application is received and approved, reimbursement of eligible subaward expenditures may be requested using the California Governor's Office of Emergency Services (Cal OES) Financial Management Forms Workbook. Failure to provide documentation in a timely manner could result in a hold on funding, pursuant to Title 2, Code of Federal Regulations (CFR), Sections 200.338(a) and 200.207(b)(1)-(2).

This subaward is subject to requirements in 2 CFR, Part 200, including the Notice of Funding Opportunity (NOFO), the Preparedness Grants Manual, the California Supplement to the NOFO, and all applicable federal, state, and local requirements. All activities funded with this subaward must be completed within the subaward period of performance.

Subrecipients must obtain additional written approval **prior** to incurring costs for activities such as aviation, watercraft, allowability request logs, noncompetitive procurement, and projects requiring Environmental Planning and Historic Preservation review.

Your organization will be required to prepare and submit the Biannual Strategy Implementation Report to Cal OES via the FEMA Grants Reporting Tool (GRT) semi-annually for the duration of the subaward period of performance or until all activities are completed and the subaward is formally closed. Failure to submit required reports could result in subaward reduction, suspension, or termination. Throughout the subaward cycle, milestones set in the GRT will be used as indicators of project feasibility, performance, and grant management capacity. This information may also be used in assessing proposals in future grant opportunities.

Your dated signature is required on this letter. Please sign and return the original to your Cal OES Program Representative within 20 calendar days upon receipt and keep a copy for your records. For further assistance, please contact your Cal OES Program Representative.

Sincerely,

Nancy Ward

A. Program Description

1. Issued By
U.S. Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA)/Grant Programs Directorate (GPD)

2. Assistance Listings Number
97.067

3. Assistance Listings Title
Homeland Security Grant Program

4. Funding Opportunity Title
Fiscal Year 2023 Homeland Security Grant Program (HSGP)

- State Homeland Security Program (SHSP)
- Urban Area Security Initiative (UASI)
- Operation Stonegarden (OPSG)

5. Funding Opportunity Number
DHS-23-GPD-067-00-01

6. Authorizing Authority for Program
Section 2002 of the Homeland Security Act of 2002 (Pub. L. No. 107-296, as amended) (6 U.S.C. § 603)

7. Appropriation Authority for Program
Consolidated Appropriations Act, 2023 (Pub. L. No. 117-328)

8. Announcement Type
Initial

9. Program Category
Preparedness: Community Security

10. Program Overview, Objectives, and Priorities

a. *Overview*
The Fiscal Year (FY) 2023 Homeland Security Grant Program (HSGP) is one of three grant programs that constitute the DHS/FEMA focus on enhancing the ability of state, local, tribal, and territorial governments, as well as nonprofits, to prevent, protect against, and respond to terrorist attacks. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by DHS to help strengthen the Nation's communities against potential terrorist attacks. Among the five basic homeland security missions noted in the DHS Strategic Plan for Fiscal Years 2020-2024, the HSGP supports the goal to Strengthen National Preparedness and Resilience.

In FY 2023, there are three components of the HSGP:

1) ***State Homeland Security Program (SHSP):*** SHSP assists state, local, tribal, and territorial (SLTT) efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

2) ***Urban Area Security Initiative (UASI):*** UASI assists high-threat, high-density Urban Area efforts to build, sustain, and deliver the capabilities necessary to prevent, prepare for, protect against, and respond to acts of terrorism.

3) ***Operation Stonegarden (OPSG):*** OPSG supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and federal, state, local, tribal, and territorial law enforcement agencies to improve overall border security. OPSG provides funding to support joint efforts to secure the United States' borders along routes of ingress/egress to and from international borders, to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders. SLTT law enforcement agencies utilize their inherent law enforcement authorities to support the border security mission and do not receive any additional authority by participating in OPSG.

The 2022-2026 FEMA Strategic Plan outlines three goals designed to position FEMA to address the increasing range and complexity of disasters, support the diversity of communities we serve, and complement the nation's growing expectations of the emergency management community. The HSGP supports FEMA's efforts to achieve equitable outcomes for those we serve (Goal 1) and to promote and sustain a prepared nation (Goal 3). We invite our stakeholders and partners to also adopt these priorities and join us in building a more prepared and resilient nation.

Finally, for FY 2023, DHS is focused on the criticality of information sharing and collaboration to building a national culture of preparedness and protecting against terrorism and other threats to our national security. The threats to our nation have evolved during the past two decades. We now face continuous cyber threats by sophisticated actors, threats to soft targets and crowded places, and threats from domestic violent extremists who currently pose the greatest terrorism threat to the nation[1]. Therefore, for FY 2023, DHS has identified six priority areas (see Section A.10.c) related to the most serious threats to the nation, as well as required minimum funding allocations.

b. ***Objective***

The objective of the FY 2023 HSGP is to fund SLTT efforts to prevent terrorism and prepare the Nation for threats and hazards that pose the greatest risk to the security of the United States.

[1]Strategic Intelligence Assessment and Data on Domestic Terrorism, Federal Bureau of Investigation and Department of Homeland Security, May 2021.

c. ***Priorities***

SHSP and UASI Funding Priorities

Given the evolving national security threat landscape, DHS/FEMA has evaluated the national risk profile and set priorities that help inform appropriate allocation of scarce security dollars. In assessing the national risk profile for FY 2023, six National Priority Areas pose the most concern. Due to the unique threats that the nation faces in 2023, DHS/FEMA has determined that recipients should allocate a total of 30% of their SHSP and UASI award funds across these six priority areas. As indicated below, five of the priorities have minimum spend requirements totaling 15% of SHSP and UASI awards. Recipients will have the flexibility to allocate the remaining 15% across the priorities. The following are the six priority areas for FY 2023, along with the minimum corresponding percentage of SHSP and UASI funds that each recipient will be required to allocate:

1) Enhancing the protection of soft targets/crowded places – 3%
2) Enhancing information and intelligence sharing and analysis – 3%
3) Combating domestic violent extremism – 3%
4) Enhancing cybersecurity – no minimum percent
5) Enhancing community preparedness and resilience – 3%
6) Enhancing election security – 3%

Additional information about these priority areas and how they relate to achieving anti-terrorism capabilities is included in Section D.11.b.III of this NOFO. Failure by a recipient to propose investments and projects that align with the priority areas and spending requirements will result in a recipient having a portion of their SHSP and UASI funds (up to 30%) placed on hold until they provide projects that sufficiently align to the National Priority Areas, and total at least the minimum percentages per National Priority Area (as applicable) and overall 30% of total SHSP and UASI funds.

A state or high-risk urban area must allocate the remaining 70% of their funding to addressing capability gaps (e.g., building/sustaining capability and/or closing capability gaps) identified through their Threat and Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR) process.

Likewise, there are several enduring security needs that crosscut the homeland security enterprise to which recipients should consider allocating funding across core capability gaps and national priorities. The following are enduring needs that help recipients implement a comprehensive approach to securing communities:

1) Effective planning[2];
2) Training and awareness campaigns;
3) Equipment and capital projects; and
4) Exercises.

[2]Including assessment of critical infrastructure system vulnerabilities and plans to reduce consequences of disruptions, using the Infrastructure Resilience Planning Framework and Regional Resiliency Assessment Methodology produced by the Cybersecurity and Infrastructure Security Agency.

The table below provides a breakdown of the FY 2023 SHSP and UASI priorities (the focus of OPSG remains unique to border security), showing the core capabilities enhanced and lifelines supported, as well as examples of eligible project types for each area. A detailed description of allowable investments for each project type is included in the Preparedness Grants Manual. DHS/FEMA anticipates that in future years, national priorities will continue to be included and will be updated as the threats evolve and as capability gaps are closed. Applicants are strongly encouraged to begin planning to sustain existing capabilities through funding mechanisms other than DHS preparedness grants. The example project types in the table below are allowable to prepare for disasters unrelated to acts of terrorism as long as they also help achieve target capabilities related to preventing, preparing for, protecting against, or responding to acts of terrorism.

FY 2023 SHSP and UASI Funding Priorities

All priorities in this table concern Safety and Security Lifelines.

Priority Areas	Core Capabilities	Example Project Types
National Priorities		
Enhancing Cybersecurity	• Cybersecurity • Intelligence and information sharing • Planning • Public information and warning • Operational coordination • Screening, search, and detection • Access control and identity verification • Supply chain integrity and security • Risk management for protection programs and activities • Long-term vulnerability reduction • Situational assessment • Infrastructure systems • Operational communications	• Cybersecurity risk assessments • Migrating online services to the ".gov" internet domain • Projects that address vulnerabilities identified in cybersecurity risk assessments ○ Improving cybersecurity of critical infrastructure to meet minimum levels identified by the Cybersecurity and Infrastructure Security Agency (CISA), and the National Institute of Standards and Technology Cybersecurity Framework ○ Adoption of cybersecurity performance goals (Cross-Sector Cybersecurity Performance Goals | CISA) ○ Cybersecurity training and planning
Enhancing the Protection of Soft Targets/ Crowded Places	• Operational coordination • Public information and warning • Intelligence and information sharing • Interdiction and disruption • Screening, search, and detection • Access control and identity verification • Physical protective measures • Risk management for protection programs and activities	• Operational overtime. For more information on operational overtime, see Section D.14.f of this NOFO. • Physical security enhancements ○ Security cameras (closed-circuit television [CCTV]) ○ Security screening equipment for people and baggage ○ Lighting ○ Access controls ○ Fencing, gates, barriers, etc. • Unmanned aircraft system detection technologies
Enhancing information and intelligence	• Intelligence and information sharing • Interdiction and disruption • Planning • Public information and warning	• Fusion center operations (Fusion Center project will be required under this investment, no longer as a stand-alone investment) • Information sharing with all DHS components; fusion centers; other operational, investigative, and analytic

Priority Areas	Core Capabilities	Example Project Types
sharing and analysis	• Operational coordination • Risk management for protection programs and activities	entities; and other federal law enforcement and intelligence entities • Cooperation with DHS officials and other entities designated by DHS in intelligence, threat recognition, assessment, analysis, and mitigation • Identification, assessment, and reporting of threats of violence • Joint intelligence analysis training and planning with DHS officials and other entities designated by DHS
Combating Domestic Violent Extremism	• Interdiction and disruption • Intelligence and information sharing • Planning • Public information and warning • Operational coordination • Risk management for protection programs and activities	• Open-source analysis of disinformation and misinformation campaigns, targeted violence and threats to life, including tips/leads, and online/social media-based threats • Sharing and leveraging intelligence and information, including open-source analysis • Execution and management of threat assessment programs to identify, evaluate, and analyze indicators and behaviors indicative of domestic violent extremists • Training and awareness programs (e.g., through social media, suspicious activity reporting [SAR] indicators and behaviors) to help prevent radicalization • Training and awareness programs (e.g., through social media, SAR indicators and behaviors) to educate the public on misinformation and disinformation campaigns and resources to help them identify and report potential instances of domestic violent extremism
Enhancing Community Preparedness and Resilience	• Planning • Public Information and Warning • Community Resilience • Risk Management for Protection Programs and Activities • Mass Care Services • Intelligence and Information Sharing • Risk and Disaster Resilience Assessment • Long Term Vulnerability Reduction	• Establish, train, and maintain Community Emergency Response Teams (CERT) and Teen CERT, with a focus on historically undeserved communities, including procurement of appropriate tools, equipment and training aides ○ Local delivery of CERT Train-the-Trainer and CERT Program Manager to build local program training and maintenance capacity • Provide continuity training, such as FEMA's Organizations Preparing for Emergency Needs training, to faith-based organizations, local businesses, and community-based organizations such as homeless shelters, food pantries, nonprofit medical providers and senior care facilities to bolster their resilience to all hazards • Partner with local school districts to deliver the Student Tools for Emergency Planning curriculum or other educational programming to guide students on how to create emergency kits and family communications plans • Partner with key stakeholders to assist with completing the Emergency Financial First Aid Kit or a similar tool to bolster the disaster centric financial resilience of individuals and households • Execute *You are the Help Until the Help Arrives* workshops in concert with community-based organizations to bolster individual preparedness • Target youth preparedness using FEMA programing such as Prepare with Pedro resources and Ready2Help

Priority Areas	Core Capabilities	Example Project Types
		• Promote community planning, coordination, and integration of children's needs during emergencies through workshops like FEMA's Integrating the Needs of Children • Community Mapping: identify community resources and characteristics in order to identify gaps in resources, identify hazards and vulnerabilities, and inform action to promote resilience • Provide training and awareness programs with key stakeholders (e.g., through social media, community and civic organizations) to educate the public on misinformation and disinformation campaigns to increase individual and community resilience. • Support integrated and cross-jurisdictional preparedness planning that considers how the community develops networks of information-sharing and collaboration among community-based organizations and government institutions to enable a quicker recovery from multiple threats, including terrorist actions.
Enhancing Election Security	• Cybersecurity • Intelligence and information sharing • Planning • Long-term vulnerability reduction • Situational assessment • Infrastructure systems • Operational coordination • Community resilience	• Physical security planning support • Physical/site security measures – e.g., locks, shatter proof glass, alarms, access controls, etc. • General election security navigator support • Cyber navigator support • Cybersecurity risk assessments, training, and planning • Projects that address vulnerabilities identified in cybersecurity risk assessments • Iterative backups, encrypted backups, network segmentation, software to monitor/scan, and endpoint protection • Distributed Denial of Service protection • Migrating online services to the ".gov" internet domain • Online harassment and targeting prevention services • Public awareness/preparedness campaigns discussing election security and integrity measures.
Enduring Needs		
Planning	• Planning • Risk management for protection programs and activities • Risk and disaster resilience assessment • Threats and hazards identification • Operational coordination • Community resilience	• Development of: ○ Security Risk Management Plans ○ Threat Mitigation Plans ○ Continuity of Operations Plans ○ Response Plans • Efforts to strengthen governance integration between/among regional partners • Joint training and planning with DHS officials and other entities designated by DHS • Cybersecurity training and planning • Revision of existing plans to strengthen community resilience in underserved communities
Training and Awareness	• Long-term vulnerability reduction • Public information and warning • Operational coordination • Situational assessment	• Active shooter training • Intelligence analyst training • SAR and terrorism indicators/behaviors training • Security training for employees • Public awareness/preparedness campaigns

Priority Areas	Core Capabilities	Example Project Types
	• Community resilience	• Joint training and planning with DHS officials and other entities designated by DHS • Cybersecurity training and planning • Sharing and leveraging intelligence and information • Targeted outreach and preparedness training for underserved communities in conjunction with community-based organizations
Equipment and Capital Projects	• Long-term vulnerability reduction • Infrastructure systems • Operational communications • Interdiction and disruption • Screening, search and detection • Access control and identity verification • Physical protective measures	• Protection of high-risk, high-consequence areas or systems that have been identified through risk assessments • Physical security enhancements ○ Security cameras (CCTV) ○ Security screening equipment for people and baggage ○ Lighting ○ Access Controls ▪ Fencing, gates, barriers, etc. • Enhancing Weapons of Mass Destruction and/or improvised explosive device prevention, detection, and response capabilities ○ Chemical/Biological/Radiological/ Nuclear/Explosive detection, prevention, and response equipment
Exercises	• Long-term vulnerability reduction • Operational coordination • Operational communications • Community resilience	• Response exercises, including exercise planning with community-based organizations

For FY 2023, each SHSP and UASI recipient is required to submit an Investment Justification (IJ) for the five National Priority Areas with associated minimum spend requirements. Each of these five investments must also account for at least the relevant minimum percentage (totaling 15%) of the applicant's SHSP and UASI allocation. State Administrative Agencies (SAAs) may submit complete project-level information at the time of application, including the National Priority Area IJs, but are not required to do so. **As a reminder, all SHSP- and UASI-funded projects must have a demonstrated nexus to achieving target capabilities related to preventing, preparing for, protecting against, and responding to acts of terrorism**. However, such projects may simultaneously support enhanced preparedness for disasters unrelated to acts of terrorism.

DHS/FEMA also requires SHSP and UASI recipients (states, territories, and high-risk urban areas) to complete a THIRA/SPR and prioritize grant funding to support building capability and/or closing capability gaps or sustaining capabilities that address national priorities and/or support enduring needs. Additional information on the THIRA/SPR process, including other National Preparedness System tools and resources, can be found at National Preparedness System | FEMA.gov. Detailed information on THIRA/SPR timelines and deadlines can be found in the Preparedness Grants Manual.

OPSG Funding Priorities

The table below provides a breakdown of the FY 2023 OPSG funding priority, which remains focused on and unique to border security.

FY 2023 OPSG Funding Priority

Priority Areas	Core Capabilities	Lifelines	Example Project Types
National Priorities			
Enhancing information and intelligence sharing and analysis, and cooperation with federal agencies, including DHS	• Intelligence and information sharing	• Safety and Security	• Participation in the DHS/ICE 287(g) training program • Information sharing with all DHS components; fusion centers; other operational, investigative, and analytic entities; and other federal law enforcement and intelligence entities • Cooperation with DHS officials and other entities designated by DHS in intelligence, threat recognition, assessment, analysis, and mitigation • Identification, assessment, and reporting of threats of violence • Joint intelligence analysis training and planning with DHS officials and other entities designated by DHS

For FY 2023, each OPSG applicant is required to clearly articulate and identify how the Concept of Operations addresses the national priority identified above.

11. Performance Measures

Performance metrics for this program:

SHSP and UASI:

- Percentage of funding allocated by the recipient to core capabilities to build or sustain national priorities identified in the section above
- Percentage of funding and projects allocated by the recipient that align to capability gaps identified through the THIRA/SPR process
- Percentage of projects identified by the recipient that address a capability gap in a core capability that has a target(s) rated as high

FEMA will calculate and analyze the above metrics through a review of state/territory and urban area SPR submissions and required programmatic reports.

OPSG:

- Number of contacts that occurred as a result of OPSG deployments
  - Number of arrests that resulted from OPSG contacts
  - Value of drug seizures that resulted from OPSG contacts

B. Federal Award Information

1. Available Funding for the NOFO: **$1,120,000,000**

HSGP Programs	FY 2023 Allocation
SHSP	$415,000,000
UASI	$615,000,000
OPSG	$90,000,000
Total	**$1,120,000,000**

SHSP Allocations

For FY 2023, DHS/FEMA will award SHSP funds based on DHS/FEMA's relative risk methodology and statutory minimums pursuant to the *Homeland Security Act of 2002*, as amended. **THIRA/SPR results do not impact grant allocations or awards.**

Each state and territory will receive a minimum allocation under the SHSP using thresholds established in the *Homeland Security Act of 2002*, as amended. All 50 States, the District of Columbia, and the Commonwealth of Puerto Rico will receive 0.35% of the total funds allocated for grants under Section 2003 and Section 2004 of the *Homeland Security Act of 2002*, as amended. Each of the four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08% of the total funds allocated for grants under Section 2003 and 2004 of the *Homeland Security Act of 2002*, as amended.

Each state must include a separate IJ for each of the five National Priority Areas with a minimum spend requirement. **All projects related to the minimum spend for the National Priority Area *must* be included in the IJ.** For the National Priority Areas that have a minimum spend percentage requirement, the funding level in each of those National Priority Area investments **must equal or exceed** the percentage for that respective National Priority Area, calculated as a percentage of the state's SHSP allocation in the table below. The funding levels across all six National Priority Areas **must equal or exceed 30%** of the total SHSP allocation.

FY 2023 SHSP ALLOCATIONS

State/Territory	FY 2023 Allocation	State/Territory	FY 2023 Allocation
Alabama	$4,847,500	Montana	$4,847,500
Alaska	$4,847,500	Nebraska	$4,847,500
American Samoa	$1,108,000	Nevada	$4,847,500
Arizona	$4,847,500	New Hampshire	$4,847,500
Arkansas	$4,847,500	New Jersey	$7,074,841
California	$57,035,623	New Mexico	$4,847,500
Colorado	$4,847,500	New York	$68,033,267
Connecticut	$4,847,500	North Carolina	$5,085,387

State/Territory	FY 2023 Allocation	State/Territory	FY 2023 Allocation
Delaware	$4,847,500	North Dakota	$4,847,500
District of Columbia	$5,085,387	Northern Mariana Islands	$1,108,000
Florida	$9,343,905	Ohio	$6,190,947
Georgia	$5,288,656	Oklahoma	$4,847,500
Guam	$1,108,000	Oregon	$4,847,500
Hawaii	$4,847,500	Pennsylvania	$8,136,252
Idaho	$4,847,500	Puerto Rico	$4,847,500
Illinois	$13,894,910	Rhode Island	$4,847,500
Indiana	$4,847,500	South Carolina	$4,847,500
Iowa	$4,847,500	South Dakota	$4,847,500
Kansas	$4,847,500	Tennessee	$4,847,500
Kentucky	$4,847,500	Texas	$18,210,451
Louisiana	$4,847,500	U.S. Virgin Islands	$1,108,000
Maine	$4,847,500	Utah	$4,847,500
Maryland	$7,074,841	Vermont	$4,847,500
Massachusetts	$6,190,947	Virginia	$8,136,252
Michigan	$5,085,387	Washington	$6,190,947
Minnesota	$4,847,500	West Virginia	$4,847,500
Mississippi	$4,847,500	Wisconsin	$4,847,500
Missouri	$4,847,500	Wyoming	$4,847,500
Total			**$415,000,000**

UASI Allocations

Eligible candidates for the FY 2023 UASI program are identified in the table below. Eligibility has been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSA) in the United States, in accordance with the *Homeland Security Act of 2002*, as amended. Detailed information on MSAs is publicly available from the United States Census Bureau at Metropolitan and Micropolitan (census.gov). **THIRA/SPR results do not impact grant allocations or awards.**

The Metropolitan Areas Standardization and Protection (MAPS) Act of 2021 (P.L. 117-219) prohibits automatically updating core-based statistical areas, which are used to delineate MSAs, for grantmaking. The MAPS Act requires that FEMA issue notice-and-comment rulemaking to make any changes. Should changes be necessary in FY 2024, FEMA will issue notice-and-comment rulemaking within the statutorily defined guidelines.

The following table identifies the UASI allocations for each high-risk urban area based on DHS/FEMA's relative risk methodology pursuant to the *Homeland Security Act of 2002*, as amended.

In its application, each high-risk urban area, through the state, must include a separate IJ for each of the five National Priority Areas with minimum spend requirements. **All projects related to the minimum spend for the National Priority Area *must* be included in the IJ.** For the National Priority Areas that have a minimum spend percentage requirement, the funding level in each of those National Priority Area investments **must equal or exceed** the percentage for that respective National Priority Area, calculated as a percentage of the urban area's UASI allocation in the table below. The funding levels across all six National Priority Areas **must equal or exceed 30%** of the total UASI allocation.

FY 2023 UASI ALLOCATIONS

State/Territory	Urban Area	FY 2023 UASI Allocation
Arizona	Phoenix Area	$5,250,000
California	Anaheim/Santa Ana Area	$5,250,000
	Bay Area	$36,493,265
	Los Angeles/Long Beach Area	$66,174,270
	Riverside Area	$3,900,000
	Sacramento Area	$3,800,000
	San Diego Area	$16,445,560
Colorado	Denver Area	$3,900,000
District of Columbia	National Capital Region	$50,360,095
Florida	Jacksonville Area	$1,500,000
	Miami/Fort Lauderdale Area	$14,528,750
	Orlando Area	$3,800,000
	Tampa Area	$3,800,000
Georgia	Atlanta Area	$7,700,000
Hawaii	Honolulu Area	$1,500,000
Illinois	Chicago Area	$66,174,270
Indiana	Indianapolis Area	$1,645,333
Louisiana	New Orleans Area	$1,645,333
Maryland	Baltimore Area	$3,800,000
Massachusetts	Boston Area	$16,646,500
Michigan	Detroit Area	$5,250,000
Minnesota	Twin Cities Area	$5,250,000
Missouri	Kansas City Area	$1,645,333
	St. Louis Area	$3,800,000
Nevada	Las Vegas Area	$5,250,000
New Jersey	Jersey City/Newark Area	$18,631,275
New York	New York City Area	$173,950,017
North Carolina	Charlotte Area	$3,800,000
Ohio	Cincinnati Area	$1,645,333

State/Territory	Urban Area	FY 2023 UASI Allocation
	Cleveland Area	$1,645,333
Oregon	Portland Area	$3,800,000
Pennsylvania	Philadelphia Area	$16,646,500
	Pittsburgh Area	$1,645,333
Tennessee	Nashville Area	$1,500,000
Texas	Austin Area	$1,500,000
	Dallas/Fort Worth/Arlington Area	$16,646,500
	Houston Area	$24,231,000
	San Antonio Area	$3,800,000
Virginia	Hampton Roads Area	$3,800,000
Washington	Seattle Area	$6,250,000
Total		**$615,000,000**

OPSG Allocations

For FY 2023, DHS/FEMA will award OPSG funds based on risk and the anticipated effectiveness of the proposed use of grant funds upon completion of the application review process. The FY 2023 OPSG risk assessment is designed to identify the risk to border security and to assist with the distribution of funds for the grant program. Funding under OPSG is distributed based on the risk to the security of the border and the effectiveness of the proposed projects. Entities eligible for funding are the state, local, and tribal law enforcement agencies that are located along the border of the United States. DHS/FEMA will make final award determinations based upon a review of the anticipated effectiveness of the state's application as described in Section D, below. **The THIRA/SPR process is not required for OPSG.**

For the purposes of OPSG, the risk is defined as the potential for an adverse outcome assessed as a function of threats, vulnerabilities, and consequences associated with an incident, event, or occurrence.

Based upon ongoing intelligence analysis and extensive security reviews, DHS/CBP continues to focus the bulk of OPSG funds based upon risk analyses. The risk model used to allocate OPSG funds considers the potential risk that certain threats pose to border security and estimates the relative risk faced by a given area. In evaluating risk, DHS/CBP considers intelligence, situational awareness, criminal trends, and statistical data specific to each of the border sectors, and the potential impacts that these threats pose to the security of the border area. For vulnerability and consequence, DHS/CBP considers the expected impact and consequences of successful border events occurring in specific areas.

Threat and vulnerability are evaluated based on specific operational data from DHS/CBP. Threat components present in each of the sectors are used to determine the overall threat score. These components are terrorism, criminal aliens, drug trafficking organizations, and alien smuggling organizations.

Effectiveness of the proposed investments will be evaluated based on the recipient's investment strategy, budget, collaboration, and past performance.

2. **Projected Number of Awards:** **56**

3. **Period of Performance:** **36 months**

Extensions to the period of performance are allowed. For additional information on period of performance extensions, please refer to Section H of this NOFO and the Preparedness Grants Manual.

FEMA awards under most programs, including this program, only include one budget period, so it will be same as the period of performance. *See* 2 C.F.R. § 200.1 for definitions of "budget period" and "period of performance."

4. **Projected Period of Performance Start Date(s):** **09/1/2023**

5. **Projected Period of Performance End Date(s):** **8/31/2026**

6. **Funding Instrument Type:** **Grant**

C. Eligibility Information

1. Eligible Applicants

The SAA is the only entity eligible to submit HSGP applications to DHS/FEMA, including those applications submitted on behalf of UASI and OPSG applicants. All 56 states and territories, including any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to apply for SHSP funds. Tribal governments may not apply directly for HSGP funding; however, funding may be available to tribes through the SAA.

2. Applicant Eligibility Criteria

Eligible high-risk urban areas for the FY 2023 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous MSAs in the United States. Subawards will be made by the SAAs to the designated high-risk urban areas.

For 2023, each SAA is **strongly encouraged** to re-evaluate its process for collecting and evaluating subaward applications. FEMA encourages each SAA to minimize the type and quantity of information that it collects as part of the subaward application process, in order to decrease the overall financial and time burden associated with applying for subawards under this grant program. Each SAA should review its subaward application, and reduce or eliminate the request for any information that is not needed for legal, financial, or oversight purposes.

In FY 2023, OPSG eligible subrecipients are local units of government at the county level or equivalent level of government and federally recognized tribal governments in states

bordering Canada or Mexico and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding.

In FY 2023, OPSG subrecipients eligible to apply for and receive a subaward directly from the SAAs are divided into three Tiers. Tier 1 entities are local units of government at the county level or equivalent and federally recognized tribal governments that are on a physical border in states bordering Canada, states bordering Mexico, and states and territories with international water borders. Tier 2 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 1 county. Tier 3 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 2 eligible subrecipient. The tier structure is only applicable with regard to eligibility. OPSG funding allocations are based on the assessed border security risks as determined by the USBP.

An application submitted by an otherwise eligible non-federal entity (i.e., the applicant) may be deemed ineligible when the person that submitted the application is not: 1) a ***current employee, personnel, official, staff, or leadership*** of the non-federal entity; and 2) ***duly authorized to apply*** for an award on behalf of the non-federal entity at the time of application.

Further, the Authorized Organization Representative (AOR) must be a duly authorized current employee, personnel, official, staff, or leadership of the recipient and ***provide an email address unique to the recipient at the time of application and upon any change in assignment during the period of performance. Consultants or contractors of the recipient are not permitted to be the AOR of the recipient.***

3. Other Eligibility Criteria/Restrictions

a. ***National Incident Management System (NIMS) Implementation***

Prior to allocation of any federal preparedness awards, recipients must ensure and maintain adoption and implementation of NIMS. The list of objectives used for progress and achievement reporting is on FEMA's website at NIMS Implementation and Training | FEMA.gov.

Please see the Preparedness Grants Manual for more information on NIMS.

b. ***Emergency Management Assistance Compact (EMAC) Membership***

In support of the National Preparedness Goal (the Goal), SHSP recipients must belong to, be in, or act as a temporary member of EMAC, except for American Samoa and the Commonwealth of the Northern Mariana Islands, which are not required to belong to EMAC at this time. All assets supported in part or entirely with FY 2023 HSGP funding must be readily deployable and NIMS-typed, when possible, to support emergency or disaster operations per existing EMAC agreements. In addition, funding may be used for the sustainment of core capabilities that, while they may not be physically deployable, support national response capabilities, such as Geographic/Geospatial Information Systems,

interoperable communications systems, capabilities as defined under the Mitigation Mission Area of the Goal, and fusion centers.

c. ***Law Enforcement Terrorism Prevention Activities (LETPA)***
Per section 2006 of the Homeland Security Act of 2002, as amended (6 U.S.C. § 607), DHS/FEMA is required to ensure that at least 25% of grant funding appropriated for grants awarded under HSGP's authorizing statute are used for LETPAs. **For FY 2023, DHS/FEMA is requiring that at least 35% of grant funding appropriated under HSGP is used for LETPA**. DHS/FEMA meets this requirement, in part, by requiring all recipients allocate at least 35% of the combined HSGP funds allocated under SHSP and UASI towards LETPAs, as defined in 6 U.S.C. § 607. The LETPA allocation can be from SHSP, UASI, or both. The 35% LETPA allocation may be met by funding projects in any combination of the six National Priority Areas identified above and any other investments. The 35% LETPA allocation requirement is in addition to the 80% pass-through requirement to local units of government and tribes, referenced below. The Preparedness Grants Manual and Information Bulletin (IB) 473 include additional information on project selection considerations and allowable activities for LETPA investments. Also see Section D.14.f "Allowable Costs Matrix."

The National Prevention Framework describes those activities that should be executed upon the discovery of intelligence or information regarding an imminent threat to the homeland, to thwart an initial or follow-on terrorist attack and provides guidance to ensure the Nation is prepared to identify, prevent, avoid, or stop a threatened or actual act of terrorism. Activities outlined in the National Prevention Framework are eligible for use as LETPA-focused funds. Also, where capabilities are shared with the protection mission area, the National Protection Framework activities are also eligible. All other terrorism prevention activities proposed for funding under LETPA must be approved by the FEMA Administrator.

To ensure that DHS/FEMA's policy guidance on the use of LETPA funds reflects the evolving threat environment, is responsive to stakeholder feedback, is clear and easy to understand, and is applied consistently across grant recipients, DHS/FEMA will issue additional guidance through an Information Bulletin for the FY 2023 HSGP. This guidance will provide applicants and recipients further clarification on how to account for LETPA activities. It will also provide clarification on what should be included in the investment justifications, best practices for submitting investment justifications for LETPA claimed activities, as well as information on how to distinguish LETPA activities from others. The Information Bulletin will be issued concurrently or soon after the release of this NOFO.

In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism and other catastrophic events, **operational overtime costs are allowable** for increased protective security measures at critical infrastructure sites or other high-risk locations and to enhance public safety during mass gatherings and high-profile events. For more information about operational overtime costs, see Section D.14.f of this NOFO and the Preparedness Grants Manual.

4. Cost Share or Match

There is no cost share or match requirement for the FY 2023 HSGP.

D. Application and Submission Information

1. Key Dates and Times

a. ***Application Start Date:*** **02/27/2023**

b. ***Application Submission Deadline:*** **05/18/2023 at 5 p.m. ET**

All applications **must** be received by the established deadline.

The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of their submission. For additional information on how an applicant will be notified of application receipt, see the subsection titled "Timely Receipt Requirements and Proof of Timely Submission" in Section D of this NOFO.

FEMA will not review applications that are received after the deadline or consider these late applications for funding. FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicant's control that prevent submission of the application by the deadline, other exigent or emergency circumstances, or statutory requirements for FEMA to make an award.

Applicants experiencing technical problems outside of their control must notify FEMA as soon as possible and before the application deadline. Failure to timely notify FEMA of the issue that prevented the timely filing of the application may preclude consideration of the award. "Timely notification" means prior to the application deadline and within 48 hours after the applicant became aware of the issue.

A list of FEMA contacts can be found in Section G of this NOFO, "DHS Awarding Agency Contact Information." For additional assistance using the ND Grants System, please contact the ND Grants Service Desk at (800) 865-4076 or NDGrants@fema.dhs.gov. The ND Grants Service Desk is available Monday through Friday, 9:00 AM – 6:00 PM Eastern Time (ET). For programmatic or grants management questions, please contact your Preparedness Officer or Grants Management Specialist. If applicants do not know who to contact, please contact the Centralized Scheduling and Information Desk (CSID) by phone at (800) 368-6498 or by e-mail at askcsid@fema.dhs.gov, Monday through Friday, 9:00 AM – 5:00 PM ET.

c. ***Anticipated Funding Selection Date:*** **No later than 07/21/2023**

d. ***Anticipated Award Date:*** **No later than 09/30/2023**

e. ***Other Key Dates***

Event	Suggested Deadline for Completion
Initial registration in SAM.gov includes UEI issuance	Four weeks before actual submission deadline

Event	Suggested Deadline for Completion
Obtaining a valid Employer Identification Number (EIN)	Four weeks before actual submission deadline
Creating an account with login.gov	Four weeks before actual submission deadline
Registering in SAM or updating SAM registration	Four weeks before actual submission deadline
Registering in Grants.gov	Four weeks before actual submission deadline
Registering in ND Grants	Four weeks before actual submission deadline
Starting application in Grants.gov	One week before actual submission deadline
Submitting application in Grants.gov	Three days before actual submission deadline
Submitting the final application in ND Grants	By the submission deadline

2. **Agreeing to Terms and Conditions of the Award**
   By submitting an application, applicants agree to comply with the requirements of this NOFO and the terms and conditions of the award, should they receive an award.

3. **Address to Request Application Package**
   See the Preparedness Grants Manual for requesting and submitting an application.

   Initial applications are processed through the Grants.gov portal. Final applications are completed and submitted through FEMA's Non-Disaster Grants (ND Grants) System. Application forms and instructions are available at Grants.gov. To access these materials, go to http://www.grants.gov.

4. **Requirements: Obtain a Unique Entity Identifier (UEI) and Register in the System for Award Management (SAM)**
   Each applicant, unless they have a valid exception under 2 CFR 25.110, must:
   1) Be registered in SAM.gov before application submission;
   2) Provide a valid Unique Entity Identifier (UEI) in its application; and
   3) Continue to always maintain an active System for Award Management (SAM) registration with current information during the Federal Award process if selected for award.

5. **Steps Required to Obtain a Unique Entity Identifier, Register in the System for Award Management (SAM), and Submit an Application**
   Applying for an award under this program is a multi-step process and requires time to complete. Applicants are encouraged to register early as the registration process can take four weeks or more to complete. Therefore, registration should be done in sufficient time to ensure it does not impact your ability to meet required submission deadlines.

   Please review the table above for estimated deadlines to complete each of the steps listed. Failure of an applicant to comply with any of the required steps before the deadline for submitting an application may disqualify that application from funding.
   To apply for an award under this program, all applicants must:

a. Apply for, update, or verify their Unique Entity Identifier (UEI) number from SAM.gov and Employer Identification Number (EIN) from the Internal Revenue Service;
b. In the application, provide an UEI number;
c. Have an account with login.gov;
d. Register for, update, or verify their SAM account and ensure the account is active before submitting the application;
e. Create a Grants.gov account;
f. Add a profile to a Grants.gov account;
g. Establish an Authorized Organizational Representative (AOR) in Grants.gov;
h. Register in ND Grants
i. Submit an initial application in Grants.gov;
j. **Submit the final application in ND Grants, including electronically signing applicable forms**; and
k. Continue to maintain an active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by a federal awarding agency. As part of this, applicants must also provide information on an applicant's immediate and highest-level owner and subsidiaries, as well as on all predecessors that have been awarded federal contracts or federal financial assistance within the last three years, if applicable.

Specific instructions on how to apply for, update, or verify an UEI number or SAM registration or establish an AOR are included below in the steps for applying through Grants.gov.

Applicants are advised that FEMA may not make a federal award until the applicant has complied with all applicable SAM requirements. Therefore, an applicant's SAM registration must be active not only at the time of application, but also during the application review period and when FEMA is ready to make a federal award. Further, as noted above, an applicant's or recipient's SAM registration must remain active for the duration of an active federal award. If an applicant's SAM registration is expired at the time of application, expires during application review, or expires any other time before award, FEMA may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant.

Per 2 C.F.R. § 25.110(c)(2)(iii), if an applicant is experiencing exigent circumstances that prevents it from obtaining an UEI number and completing SAM registration prior to receiving a federal award, the applicant must notify FEMA as soon as possible by contacting askcsid@fema.dhs.gov and providing the details of the circumstances that prevent completion of these requirements. If FEMA determines that there are exigent circumstances and FEMA has decided to make an award, the applicant will be required to obtain an UEI number, if applicable, and complete SAM registration within 30 days of the federal award date.

6. Electronic Delivery

DHS is participating in the Grants.gov initiative to provide the grant community with a single site to find and apply for grant funding opportunities. DHS encourages or requires applicants to submit their applications online through Grants.gov, depending on the funding opportunity.

For this funding opportunity, FEMA requires applicants to submit initial applications through Grants.gov and a final application through ND Grants.

7. How to Register to Apply through Grants.gov

For information on how to register to apply through Grants.gov, please see the Preparedness Grants Manual.

8. How to Submit an Initial Application to FEMA via Grants.gov

Standard Form 424 (SF-424) is the initial application for this NOFO.

Grants.gov applicants can apply online using a workspace. A workspace is a shared, online environment where members of a grant team may simultaneously access and edit different web forms within an application. For each Notice of Funding Opportunity, you can create individual instances of a workspace. Applicants are encouraged to submit their initial applications in Grants.gov at least seven days before the application deadline.

In Grants.gov, applicants must submit the following forms:

- SF-424, Application for Federal Assistance; and
- Grants.gov Lobbying Form, Certification Regarding Lobbying.

For further information on how to submit an initial application via Grants.gov, please see the Preparedness Grants Manual.

9. Submitting the Final Application in ND Grants

After submitting the initial application in Grants.gov, eligible applicants will be notified by FEMA and asked to proceed with submitting their complete application package in ND Grants. Applicants can register early with ND Grants and are encouraged to begin their ND Grants registration at the time of this announcement or, at the latest, seven days before the application deadline. Early registration will allow applicants to have adequate time to start and complete their applications.

Applicants needing assistance registering for the ND Grants system should contact ndgrants@fema.dhs.gov or (800) 865-4076. For step-by-step directions on using the ND Grants system and other guides, please see Non-Disaster Grants Management System | FEMA.gov.

In ND Grants, applicants will be prompted to submit the standard application information and any program-specific information required as described in Section D.10 of this NOFO, "Content and Form of Application Submission." The Standard Forms (SF) are auto generated in ND Grants, but applicants may access these forms in advance through the Forms tab under

the SF-424 family on Grants.gov. Applicants should review these forms before applying to ensure they have all the information required.

For additional application submission requirements, including program-specific requirements, please refer to the subsection titled "Content and Form of Application Submission" under Section D of this NOFO.

10. Timely Receipt Requirements and Proof of Timely Submission

As application submission is a two-step process, the applicant with the AOR role who submitted the application in Grants.gov will receive an acknowledgement of receipt and a tracking number (GRANTXXXXXXXX) from Grants.gov with the successful transmission of its initial application. **This notification does not serve as proof of timely submission, as the application is not complete until it is submitted in ND Grants.** Applicants can also view the ND Grants Agency Tracking Number by accessing the Details tab in the submitted workspace section in Grants.gov, under the Agency Tracking Number column. Should the Agency Tracking Number not appear, the application has not yet migrated from Grants.gov into the ND Grants System. Please allow 24 hours for your ND Grants application tracking number to migrate.

All applications must be received in ND Grants by **5:00 PM ET** on the application deadline. Proof of timely submission is automatically recorded by ND Grants. An electronic date/time stamp is generated within the system when the application is successfully received by ND Grants. Additionally, the applicant(s) listed as contacts on the application will receive a system-generated email to confirm receipt.

11. Content and Form of Application Submission

a. ***Standard Required Application Forms and Information***

The following forms or information are required to be submitted in either Grants.gov or ND Grants. The Standard Forms (SF) are submitted either through Grants.gov, through forms generated in ND Grants, or as an attachment in ND Grants. Applicants may also access the SFs at SF-424 Family | Grants.gov.

I. GRANTS.GOV

- **SF-424, Application for Federal Assistance**, initial application submitted through Grants.gov
- **Grants.gov Lobbying Form, Certification Regarding Lobbying**, submitted through Grants.gov

II. ND GRANTS

- **SF-424A, Budget Information (Non-Construction)**, submitted via the forms generated by ND Grants
    - **For construction under an award, submit SF-424C, Budget Information (Construction)**, submitted via the forms generated by ND Grants, in addition to or instead of SF-424A
- **SF-424B, Standard Assurances (Non-Construction)**, submitted via the forms generated by ND Grants

- **For construction under an award, submit SF-424D, Standard Assurances (Construction)**, submitted via the forms generated by ND Grants, in addition to or instead of SF-424B

- **SF-LLL, Disclosure of Lobbying Activities**, submitted via the forms generated by ND Grants
- **Indirect Cost Agreement or Proposal**, submitted as an attachment in ND Grants if the budget includes indirect costs and the applicant is required to have an indirect cost rate agreement or proposal. If the applicant does not have or is not required to have an indirect cost rate agreement or proposal, please see Section D.13 of this NOFO, "Funding Restrictions and Allowable Costs," for further information regarding allowability of indirect costs and whether alternatives to an indirect cost rate agreement or proposal might be available, or contact the relevant FEMA staff identified in Section G of this NOFO, "DHS Awarding Agency Contact Information" for further instructions.

Generally, applicants have to submit either the non-construction forms (i.e., SF-424A and SF-424B) or construction forms (i.e., SF-424C and SF-424D), meaning that applicants that only have construction work and do not have any non-construction work need only submit the construction forms (i.e., SF-424C and SF-424D) and not the non-construction forms (i.e., SF-424A and SF-424B), and vice versa. However, applicants who have both construction and non-construction work under this program need to submit both the construction and non-construction forms.

b. ***Program-Specific Required Forms and Information***

I. IJ DEVELOPMENT: SHSP AND UASI

As part of the FY 2023 HSGP application process for SHSP and UASI funds, applicants must develop formal IJs that address the proposed investments. Failure to fulfill all of the terms contained in this section will be considered by DHS/FEMA in its evaluation of the effectiveness of the IJs submitted to meet the minimum percent spend requirement for the National Priority Areas. Failure to sufficiently align projects to the National Priority Areas and meet the minimum percent spend requirement will result in funds being placed on hold until those issues are addressed.

FY 2023 SHSP and UASI applications must include one (1) IJ and at least one (1) respective project for each of the five National Priority Areas with a minimum spend requirement (Soft Targets/Crowded Places, Intelligence and Information Sharing, Countering Domestic Violent Extremism, Election Security, and Community Preparedness and Resilience) identified in this NOFO. Each of these IJs must also meet or exceed the minimum percent spend requirement based on the applicant's SHSP and UASI allocation stated in this NOFO. **All projects associated with the minimum spend of a National Priority Area *must* be submitted in the same IJ.** SAAs may submit complete project-level information at the time of application but are not required to do so at the time of application. However, any SHSP or UASI application that does not include an IJ for each National Priority Area that meets the minimum spend requirement will have that funding placed on hold (up to the National Priority Area minimum percent and up to 30% of the total SHSP or UASI allocations) until those IJs and project-level details that sufficiently address the National Priority Areas are received and approved by DHS/FEMA.

Each IJ must *demonstrate* how proposed investments:

- Support terrorism preparedness; and
- Support building capability and/or closing capability gaps or sustaining capabilities identified in the community's THIRA/SPR process.

Each IJ must *explain* how the proposed investments will support the applicant's efforts to:

- Prevent a threatened or an actual act of terrorism;
- Prepare for all hazards and threats, while explaining the nexus to terrorism preparedness;
- Protect citizens, residents, visitors, and assets against the greatest threats and hazards, relating to acts of terrorism; and/or
- Respond quickly and equitably to save lives, protect property and the environment, and meet basic human needs in the aftermath of an act of terrorism or other catastrophic incidents.

If not included in the application, SHSP and UASI recipients must submit complete project-level information for each SHSP and UASI IJ as part of the Biannual Strategy Implementation Report (BSIR) due by January 30, 2024. This includes IJs for the National Priority Areas.

DHS/FEMA will evaluate the effectiveness of the projects submitted in support of the National Priority Areas, either at the time of application or as part of the December 2023 BSIR due January 30, 2024. DHS/FEMA will not reduce FY 2023 HSGP awards based on the effectiveness review but will work with recipients to ensure compliance with the National Priority Area requirements based on the results of the effectiveness review. Recipients and subrecipients will not be permitted to expend funding under the National Priority Areas until the effectiveness of the proposed projects has been reviewed and confirmed by FEMA.

II. Development of Investments and Projects: SHSP and UASI

- Applicants must propose at least 5 and may include up to 12 investments.
- Within each investment, applicants must propose at least one project to describe the activities they plan to implement with SHSP and UASI funds. There is no limit to the number of projects that may be submitted.
- Required National Priority Area IJs must include the name of the priority in the investment name for easy identification.
- All requested funding must be associated with specific projects. For each project, several pieces of information must be provided to submit the project for consideration in the application, including:
    - Project name;
    - Project description;
    - Subrecipient name, if applicable;
    - Recipient type (e.g., state or local);
    - Project location (zip code of the primary location of the project);

  - Primary core capability the project supports;
  - Whether the project activities are shareable and deployable; and
  - Which National Priority Area (if any) the project supports.
- Projects should describe how the proposed investment supports building capability and/or closing capability gaps or sustaining capabilities identified in the THIRA/SPR process.
- FEMA encourages states to use any DHS provided assessments, such as those performed by DHS's Protective Security Advisors and Cybersecurity Advisors, when developing their IJs.

III. NATIONAL PRIORITY AREA INVESTMENTS: SHSP AND UASI

States are encouraged to review the Strategic Framework for Countering Terrorism and Targeted Violence when developing investments.

- **Soft Targets/Crowded Places (3%)**
  Soft targets and crowded places are increasingly appealing to terrorists and other violent extremist actors because of their relative accessibility and the large number of potential targets. This challenge is complicated by the prevalent use of simple tactics and less sophisticated attacks. Segments of our society are inherently open to the general public, and by nature of their purpose do not incorporate strict security measures. Given the increased emphasis by terrorists and other violent extremist actors to leverage less sophisticated methods to inflict harm in public areas, it is vital that the public and private sectors collaborate to enhance security of locations such as transportation centers, parks, restaurants, shopping centers, special event venues, polling places, and similar facilities.

  The malicious use of unmanned aircraft systems poses a threat to the safety and security of the American people, communities, and institutions. Technologies to detect or mitigate unmanned aircraft systems are an allowable use under the HSGP in accordance with the Domestic Counter-Unmanned Aircraft Systems (UAS) National Action Plan. Recipients should ensure that, prior to the testing, acquisition, installation, or use of UAS detection and/or mitigation systems, they seek the advice of counsel experienced with both federal and state criminal, surveillance, and communications laws which may apply to the use of such technologies.

  Given the increased risk to soft targets and crowded places, at least one investment must be in support of the state's and high-risk urban area's efforts to protect soft targets/crowded places. Additionally, the proposed investment must meet or exceed the FY 2023 national priority percentage for soft targets/crowded places and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. States are also encouraged to engage DHS' Protective Security Advisors' security assessments of soft targets to ensure that recommendations from those assessments are taken into consideration when allocating grant funding.

  Additional resources and information regarding securing soft targets and crowded places are available through the Cybersecurity and Infrastructure Security Agency and the National Institute of Standards and Technology.

- **Information and Intelligence Sharing (3%)**
  Effective homeland security operations rely on access to, analysis of, and the timely sharing of open source, unclassified, and classified information, suspicious activity reports, tips/leads, and actionable intelligence on indicators and behaviors to accurately identify, assess, and mitigate a wide array of threats against the United States, including terrorism, threats to life, targeted violence, and other threats within the DHS mission space. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior leaders receive actionable intelligence and information necessary to inform their decisions and operations. A critical and statutorily charged mission of DHS is to deliver intelligence and information to federal, state, local, tribal, and territorial governments and private sector partners. Cooperation and information sharing among state, local, tribal, territorial, and federal partners across all areas of the homeland security enterprise, including counterterrorism, while upholding privacy, civil rights, and civil liberties protections, is critical to homeland security operations and the prevention of, preparation for, protection against, and response to acts of terrorism, and other threats to life and criminal acts of targeted violence. Counterterrorism includes both international and domestic terrorism, cybersecurity, border security, transnational organized crime, immigration enforcement, economic security, and other areas.

  Given the importance of information sharing and collaboration to effective homeland security solutions, at least one investment must be in support of the state's and high-risk urban area's efforts to enhance information sharing and cooperation with DHS and other federal agencies. As noted above, this requirement must include at least one dedicated fusion center project. Additional instructions on development of the fusion center project can be found below. Applicants must justify persuasively how they will contribute to the information sharing and collaboration purposes of the investment and a culture of national preparedness. Additionally, the proposed investment must meet or exceed the FY 2023 national priority percentage for information sharing and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments.

  Additional resources and information regarding collaboration and information sharing are available through the Department's Office of Intelligence and Analysis.

- **Domestic Violent Extremism (3%)**
  As stated in the Homeland Threat Assessment October 2020, domestic violent extremists, including ideologically motivated lone offenders and small groups, present the most persistent and lethal terrorist threat to the Homeland. These violent extremists capitalize on social and political tensions, which have resulted in an elevated threat environment. They utilize social media platforms and other technologies to spread violent extremist ideologies that encourage violence and influence action within the United States. The COVID-19 pandemic has further created an environment that may lead to accelerated mobilization to targeted violence and/or radicalization to domestic terrorism, including leveraging lawful protests to incite violence, intimidate targets, and promote their violent extremist ideologies.

Given the rise of domestic violent extremism in recent years, at least one investment must be in support of the state's and high-risk urban area's efforts to combat the rise, influence, and spread of domestic violent extremism. Additionally, the proposed investment must meet or exceed the FY 2023 national priority percentage for domestic violent extremism and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments.

Additional resources and information regarding domestic violent extremism are available through Center for Prevention Programs and Partnerships | Homeland Security (dhs.gov).

- **Cybersecurity (no minimum percent)**
  Today's world is more interconnected than ever before, but with increased connectivity comes increased risk of our adversaries, including terrorists, exploiting cyber vulnerabilities and weaknesses to disrupt our way of life. While not required, applicants are encouraged to submit an investment related to their ongoing or near-term high priority cybersecurity projects. The investment will be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments. Cybersecurity investments must support the security and functioning of critical infrastructure and core capabilities as they relate to preventing, preparing for, protecting against, or responding to acts of terrorism. Recipients and subrecipients of FY 2023 HSGP grant awards will be required to complete the 2023 Nationwide Cybersecurity Review (NCSR), enabling agencies to benchmark and measure progress of improving their cybersecurity posture. The Chief Information Officer (CIO), Chief Information Security Officer (CISO), or equivalent for each recipient should complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional should complete the assessment. The NCSR is available at no cost to the user and takes approximately 2-3 hours to complete. The 2023 NCSR is estimated to be open from October 2023 through February 2024.

  The NCSR is an annual requirement for recipients and subrecipients of HSGP funds and is taken once for each fiscal year award. Additionally, FEMA recognizes that some subawards will not be issued until after the NCSR has closed. In such cases, such subrecipients will be required to complete the first available NCSR offered after the subaward has been issued by the pass-through entity. Although not required by SLTTs that did not receive HSGP funds, all SLTT agencies with preparedness responsibilities are highly encouraged to participate and complete the NCSR to evaluate their cybersecurity posture. For detailed information and background on the NCSR, please see IB 439.

  Additional resources and information regarding cybersecurity and cybersecurity performance goals are available through the Cybersecurity and Infrastructure Security Agency, Cross-Sector Cybersecurity Performance Goals | CISA, and the National Institute of Standards and Technology.

- **Community Preparedness and Resilience (3%)**
  Community organizations are the backbones of American civic life, both during "blue skies" and in the aftermath of terrorist attacks. Community organizations, such as

homeless shelters, food banks, public libraries, faith-based institutions, and nonprofit medical providers must have the capabilities to withstand acts of terrorism and provide essential services, especially to members of underserved communities, in the aftermath of an attack. In addition, individual citizens and volunteer responders, such as Community Emergency Response Teams, are often the first on the scene after a terrorist attack. The ability of these volunteers to provide assistance to their fellow citizens prior to the arrival of professional first responders is paramount to a community's resilience. FEMA's 2022 National Household Survey recorded a 4% decline in the number of Americans that have taken at least three preparedness actions to bolster individual and household resilience. In addition, the COVID-19 pandemic has placed a significant burden on community-based organizations such as homeless shelters, food banks, public libraries, faith-based institutions, and nonprofit medical providers to continue to provide key services during and after disasters, including acts of terrorism. This National Priority Area will bolster community preparedness and resilience by investing in local, community-driven capabilities.

Additionally, equity in emergency management requires proactively prioritizing actions that reinforce cultural competency, accessibility, and inclusion, as well as reflect the historical context of specific groups of people. To that end, states, territories, and high-risk urban areas are strongly encouraged to explore how SHSP- and UASI-funded activities can address the needs of underserved, at-risk communities to help ensure consistent and systematic, fair, just, and impartial treatment of all individuals before, during, and after a disaster.

The focus on equity and investing in strategies that meet the needs of underserved communities will strengthen the whole of community system of emergency management. Substantial and ongoing prioritization of, and investment in, underserved communities is essential for the entire system to be effective and efficient. Engaging the whole community requires all members of the community to be part of the emergency management team, including representatives of underserved communities, diverse community members, social and community service groups and institutions, faith-based and disability advocacy groups, academia, professional associations, the private and nonprofit sectors, and government agencies that may not traditionally have been directly involved in emergency management. The whole community includes children; older adults; individuals with disabilities and others with access and functional needs; those from religious, racial, and ethnically diverse backgrounds; people with limited English proficiency; and owners of animals including household pets and service animals.

These factors underpin the requirement that at least one investment must be in support of the state's and urban area's efforts to address community preparedness and resilience. Additionally, the proposed investment must meet or exceed the FY 2023 national priority percentage for community preparedness and resilience and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments.

Additional resources and information regarding community preparedness and resilience are available through Individuals and Communities | FEMA.gov.

- **Election Security (3%)**
  In January 2017, DHS designated the infrastructure used to administer the Nation's elections as critical infrastructure. This designation recognizes that the United States' election infrastructure is of such vital importance to the American way of life that its incapacitation or destruction would have a devastating effect on the country. Securing election infrastructure, ensuring its continued operation in the face of threats and harassment, advancing the safety of election officials, and ensuring an election free from foreign interference are national security priorities. Threats to election systems are constantly evolving, so defending these systems requires constant vigilance, innovation, and adaptation. As such, at least one investment must be in support of the state's and high-risk urban area's efforts to enhance physical election security and/or cyber election security. Additionally, the proposed investment must meet or exceed the FY 2023 national priority percentage for election security and will also be subject to DHS/FEMA's evaluation of the effectiveness of the proposed investments.

  The SAA ***must*** include the State's Chief Election Official for all projects and matters related to the election security National Priority Area. **Any activities proposed that could be used to suppress voter registration or turnout will not be approved.**

  Additional resources and information regarding election security are available through the Cybersecurity and Infrastructure Security Agency.

IV. DEVELOPMENT OF FUSION CENTER PROJECTS: SHSP AND UASI

Each applicant must identify a fusion center project that will:

- Indicate alignment to a designated Fusion Center; and
- Provide both a brief narrative description and funding itemization for the proposed project activities that directly support the designated fusion center.

The descriptive narrative and the financial itemization should align improvement or sustainment requests with fusion center activities as they relate to the Fusion Center Performance Measures found in the Preparedness Grants Manual.

Sample Fusion Center Funding Itemization

A sample project description and funding itemization are below. For the itemized projects, clearly identify the anticipated fusion center performance improvement or sustainment as a result of the proposed funding.

The X Fusion enhancement project will fund:

- *Salaries, benefits, and training for X number of Fusion Center intelligence analysts*
- *Travel costs associated with fusion center analyst training*
- *This project will directly sustain the Center's current capabilities and performance and directly aligns with performance measures 2023.XXX*
- *We anticipate seeing an improvement in the quality and quantity of analytic production and responses to requests for information as a direct result of the funding of this project*

The funding itemization for a fusion center project should include the amount and percent of each relevant solution area. As an example:

Solution Area and Amount of Proposed Funding		*Percent of Proposed Funding*
Planning:	*$10,000*	*2%*
Organization:	*$200,000*	*48%*
Equipment:	*$200,000*	*48%*
Training:	*$10,000*	*2%*
Exercises:	*$0*	*0%*
Total:	*$420,000*	*100%*

V. Completing IJs in the Grant Reporting Tool (GRT): SHSP and UASI

In the Related Documents section of the Grants.gov posting, applicants can find the IJ template and instructions for collecting the required information for investments and projects. Additionally, applicants should utilize the Project Worksheet located in Grants.gov posting to assemble the information required for each project, which will facilitate the input of that information into the GRT.

Applicants must ensure the appropriate National Priority Area "Investment Type" (*Overview Tab – Investment Information Section)* is selected for the corresponding National Priority Area.

VI. Development of Concept of Operations for OPSG

As part of the FY 2023 OPSG application process, each eligible local unit of government at the county or federally recognized tribal government level must develop a strategic plan called a Concept of Operations (CONOP)/Application, which is a formal proposal of action to address a specific situation and forms the basis for Operations Orders, in coordination with state and federal law enforcement agencies, to include, but not limited to CBP/USBP. CONOPs that are developed at the county level should be inclusive of city, county, tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities, and the CONOP/Application should describe participating agencies in the Executive Summary.

CONOP/Application details should include the names of the agencies, points of contact, and individual funding requests. All CONOPs/Applications must be developed in collaboration with the local USBP sector office, the SAA, and the local unit of government. Requests for funding in CONOPs/Applications must be based on risks and the operational enforcement support requirements of its corresponding USBP Sector, as well as the national priorities identified below. USBP Sector offices will forward the CONOPs to USBP Headquarters for vetting and coordination. Applicants will forward corresponding OPSG Applications to the SAA for submission to FEMA. USBP Headquarters will reconcile all submitted CONOPs with the OPSG Applications. FEMA will review and evaluate all CONOPs and OPSG Applications and funding will be allocated based on the review and selection criteria identified in this NOFO.

OPSG Applicants will be required to clearly articulate and identify how the CONOPs will address the national priority identified below:

- **Information and Intelligence Sharing and Cooperation**
  Effective border security operations rely on access to, analysis of, and the timely sharing of open source, unclassified, and classified information, suspicious activity reports, tips/leads, and actionable intelligence on indicators and behaviors to accurately identify, assess, and mitigate a wide array of threats against the United States, including terrorism, threats to life, targeted violence, and other threats within the DHS mission space. Accordingly, DHS works diligently to enhance intelligence collection, integration, analysis, and information sharing capabilities to ensure partners, stakeholders, and senior leaders receive actionable intelligence and information necessary to inform their decisions and operations. One critical, statutorily required mission of DHS is to deliver intelligence and information to federal, state, local, and tribal governments and private sector partners. Cooperation and information sharing among state, federal, and local partners across all areas of the homeland security enterprise, including both international and domestic terrorism, cybersecurity, transnational organized crime, economic security, border security, immigration enforcement, and other areas, while upholding privacy, civil rights and civil liberties protections, is critical to homeland security operations and the prevention of, preparation for, protection against, and responding to acts of terrorism, and other threats to life and criminal acts of targeted violence.

  Given the importance of information sharing and collaboration to effective homeland security solutions, the CONOP must support the recipient's efforts to enhance information sharing and cooperation with DHS and other federal agencies. Applicants must justify persuasively how they will contribute to the information sharing and collaboration purposes of the OPSG program and a culture of national preparedness.

  Additional resources and information regarding collaboration and information sharing are available through the Department's Office of Intelligence and Analysis.

VII. DETAILED Budget

Applicants must provide budget summary worksheets for all funds requested at the time of application. The budget summary worksheets must be complete, reasonable, and cost-effective in relation to the proposed project and should provide the basis of computation of all project-related costs (including management and administrative costs) and any appropriate narrative. FEMA must be able to thoroughly evaluate the projects being submitted based on the information provided. FEMA must be able to determine how much funding is being passed through to subrecipients for each sub-program (UASI, SHSP, OPSG). Consequently, applicants must provide an appropriate level of detail within the budget summary worksheets to clarify what will be purchased and spent. Sample budget summary worksheets are available on the grants.gov posting for the HSGP in the Related Documents tab and may be used as a guide to assist applicants in the preparation of budgets and budget narratives.

12. Other Submission Requirements

Fusion Center Investments

Of the proposed SHSP- and UASI-funded investments, one single project must be in support of a designated fusion center. Recipients must coordinate with the fusion center when developing a fusion center project prior to submission. See additional information on how to develop the fusion center projects below and in the Preparedness Grants Manual.

Emergency Communications Investments
All emergency communications investments must describe how such activities align with needs identified in their Statewide Communication Interoperability Plan (SCIP). Recipients must coordinate with their Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governing Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. Effective project alignment will require advance coordination with the SWIC and consultation with governing bodies such as the SIGB or Statewide Interoperability Executive Committee, as they serve as the primary steering group for the statewide interoperability strategy. Additionally, recipients should consult subject matter experts serving on governance bodies, such as broadband experts, chief information officers, representatives from utilities, or legal and financial experts, when developing proposals. The investment name must include the words "emergency communications" to easily identify any emergency communications investments.

13. Intergovernmental Review
An intergovernmental review may be required. Applicants must contact their state's Single Point of Contact (SPOC) to comply with the state's process under Executive Order 12372 (See Executive Orders | National Archives and Intergovernmental Review (SPOC List) (whitehouse.gov)).

14. Funding Restrictions and Allowable Costs
All costs charged to awards covered by this NOFO must comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements at 2 C.F.R. Part 200, unless otherwise indicated in the NOFO, the terms and conditions of the award, or the Preparedness Grants Manual. This includes, among other requirements, that costs must be incurred, and products and services must be delivered, within the period of performance of the award. *See* 2 C.F.R. § 200.403(h) (referring to budget periods, which for FEMA awards under this program is the same as the period of performance).

Federal funds made available through this award may be used for the purpose set forth in this NOFO, the Preparedness Grants Manual, and the terms and conditions of the award and must be consistent with the statutory authority for the award. Award funds may not be used for matching funds for any other federal awards, lobbying, or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the Federal Government or any other government entity. See the Preparedness Grants Manual for more information on funding restrictions and allowable costs.

a. *Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services*

Recipients and subrecipients of FEMA federal financial assistance are subject to the prohibitions described in section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (FY 2019 NDAA), Pub. L. No. 115-232 (2018) and 2 C.F.R. §§ 200.216, 200.327, 200.471, and Appendix II to 2 C.F.R. Part 200. Beginning August 13, 2020, the statute – as it applies to FEMA recipients, subrecipients, and their contractors and subcontractors – prohibits obligating or expending federal award funds on certain telecommunications and video surveillance products and contracting with certain entities for national security reasons.

Guidance is available at Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services, FEMA Policy #405-143-1, or superseding document.

Additional guidance is available at Contract Provisions Guide: Navigating Appendix II to Part 200 - Contract Provisions for Non-Federal Entity Contracts Under Federal Awards (fema.gov).

Effective August 13, 2020, FEMA recipients and subrecipients **may not** use any FEMA funds under open or new awards to:

- Procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system;
- Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology of any system; or
- Enter into, extend, or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

I. Replacement Equipment and Services

FEMA grant funding may be permitted to procure replacement equipment and services impacted by this prohibition, provided the costs are otherwise consistent with the requirements of the NOFO and the Preparedness Grants Manual.

II. Definitions

Per section 889(f)(2)-(3) of the FY 2019 NDAA and 2 C.F.R. § 200.216, covered telecommunications equipment or services means:

i. Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation, (or any subsidiary or affiliate of such entities);
ii. For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

iii. Telecommunications or video surveillance services provided by such entities or using such equipment; or
iv. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the People's Republic of China.

Examples of the types of products covered by this prohibition include phones, internet, video surveillance, and cloud servers when produced, provided, or used by the entities listed in the definition of "covered telecommunications equipment or services." *See* 2 C.F.R. § 200.471.

b. ***Pre-Award Costs***
Pre-award costs are allowable only with the prior written approval of DHS/FEMA and as included in the award agreement. To request pre-award costs, a written request must be included with the application, signed by the AOR of the entity. The letter must outline what the pre-award costs are for, including a detailed budget break-out of pre-award costs from the post-award costs, and a justification for approval.

c. ***Management and Administration (M&A) Costs***
M&A costs are allowed. Recipients may use a maximum of up to 5% of HSGP funds awarded for their M&A, and any funds retained are to be used solely for M&A purposes associated with the HSGP award. Subrecipients may also use a maximum of up to 5% of the funding passed through by the state solely for M&A purposes associated with the HSGP award. M&A activities are those directly relating to the management and administration of HSGP funds, such as financial management and monitoring. M&A expenses must be based on actual expenses or known contractual costs. M&A requests that are simple percentages of the award, without supporting justification, will not be allowed or considered for reimbursement.

M&A costs are not operational costs. They are the necessary costs incurred in direct support of the grant or as a result of the grant and should be allocated across the entire lifecycle of the grant. Examples include preparing and submitting required programmatic and financial reports, establishing and/or maintaining equipment inventory, documenting operational and equipment expenditures for financial accounting purposes, responding to official informational requests from state and federal oversight authorities, including completing the Civil Rights Evaluation Tool as required by DHS, and grant performance measurement or evaluation activities. Please see the Preparedness Grants Manual for additional information on direct costs.

Recipients or subrecipients may apply or credit M&A funding toward the recipient's requirement to allocate funding toward the National Priority Areas. For example, if a recipient spends $5,000 to manage or administer its funding dedicated toward its soft targets/crowded places investment, the recipient may credit that funding toward its requirement to allocate at least 3% of its award to the enhancing the protection of soft targets and crowded places National Priority Area.

A state's HSGP funds for M&A calculation purposes includes the total of its SHSP, UASI, and OPSG awards. While the SAA may retain up to 5% of this total for M&A, the state must still ensure that all subrecipient award amounts meet the mandatory minimum pass-through requirements that are applicable to each HSGP program. To meet this requirement, the percentage of SHSP and UASI funds passed through to local or tribal jurisdictions must be based on the state's total HSGP award prior to withholding any M&A.

In retaining these funds, states may retain a maximum of 2.5% of the OPSG allocation, which must be withheld from the pass-through to each subrecipient county or tribe in an equal percentage. The SAA may also retain additional funding from its SHSP award to manage and administer the OPSG award, but that additional amount is also capped at an amount equal to 2.5% of the OPSG award. Examples applying this principle:

SAA 1:
Total award: $6,000,000
SHSP: $1,000,000 OPSG: $2,500,000 UASI: $2,500,000
M&A Maximum: $300,000 (5% of $6,000,000)
Maximum M&A for SHSP = $50,000
Maximum M&A for OPSG = $125,000. Of that amount, $62,500 (2.5%) may be retained from the OPSG allocation, and the other $62,500 would come from the SHSP allocation. Any amount used to manage and administer OPSG that is charged to SHSP may be above and beyond the $50,000 available to manage the SHSP allocation.
Maximum M&A for UASI = $125,000

SAA 2:
Total award: $4,500,000
SHSP: $3,500,000 OPSG: $1,000,000
M&A Maximum: $225,000 (5% of $4,500,000)
Maximum M&A for SHSP = $175,000
Maximum M&A for OPSG = $50,000. Of that amount, $25,000 (2.5%) may be retained from the OPSG allocation, and the other $25,000 would come from the SHSP allocation. Any amount used to manage and administer OPSG that is charged to SHSP may be above and beyond the $175,000 available to manage the SHSP allocation.

HSGP recipients are also reminded that any M&A charged to a recipient's or subrecipient's UASI funding must be directly allocable to administration of the UASI grant program and cannot be used to cover M&A costs that are directly allocable to SHSP or OPSG funding. Similarly, any M&A charged to a recipient's or subrecipient's SHSP or OPSG funding cannot be used to cover M&A costs directly allocable to UASI funding.

Please note, IB 365: Management and Administration Costs in the Homeland Security Grant Program and DHS/FEMA Policy 207-087-1 **do not apply to awards made in FY 2023 under this NOFO**. Please also reference IB 416 for additional clarification on OPSG M&A, but to the extent that there is any conflict between IB 416 and this NOFO, the requirements of this NOFO will apply to FY 2023 awards made under this NOFO.

d. ***Indirect Facilities & Administrative (F&A) Costs***

Indirect costs are allowable under this program as described in 2 C.F.R. Part 200, including 2 C.F.R. § 200.414. Applicants with a current negotiated indirect cost rate agreement that desire to charge indirect costs to an award must provide a copy of their negotiated indirect cost rate agreement at the time of application. Not all applicants are required to have a current negotiated indirect cost rate agreement. Applicants that are not required by 2 C.F.R. Part 200 to have a negotiated indirect cost rate agreement but are required by 2 C.F.R. Part 200 to develop an indirect cost rate proposal must provide a copy of their proposal at the time of application. Applicants who do not have a current negotiated indirect cost rate agreement (including a provisional rate) and wish to charge the de minimis rate must reach out to the FEMA Grants Management Specialist for further instructions. Applicants who wish to use a cost allocation plan in lieu of an indirect cost rate must also reach out to the FEMA Grants Management Specialist for further instructions. Post-award requests to charge indirect costs will be considered on a case-by-case basis and based upon the submission of an agreement or proposal as discussed above or based upon on the de minimis rate or cost allocation plan, as applicable.

e. ***Funds Transfer Restrictions***

The recipient is prohibited from transferring funds between programs (includes SHSP, UASI, and OPSG). Recipients can submit an investment/project where funds come from multiple funding sources (e.g., SHSP and UASI), however, recipients are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA.

f. ***Other Direct Costs***

I. **PLANNING**

Planning costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

II. **ORGANIZATION**

Organization costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

III. **EQUIPMENT**

Equipment costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

- **General Purpose Equipment**

  HSGP allows expenditures on general purpose equipment if it aligns to and supports one or more core capabilities identified in the Goal and has a nexus to terrorism preparedness. General purpose equipment, like all equipment funded under the HSGP, must be sharable through the EMAC[3] and allowable under 6 U.S.C. § 609, and any other applicable provision of the *Homeland Security Act of 2002*, as amended. Examples of such general-purpose

[3]Except for American Samoa and the Commonwealth of the Northern Mariana Islands, which are not required to belong to EMAC at this time.

equipment may include:

- Law enforcement/general use vehicles (OPSG only);
- Emergency medical services equipment and vehicles;
- Fire service equipment and vehicles, to include hose, pump accessories, and foam concentrate for specialized chemical/biological/radiological/nuclear/explosive (CBRNE) response;
- Interoperability of data systems, such as computer aided dispatch (CAD) and record management systems (RMS); and
- Office equipment for staff[4] engaged in homeland security program activity.

- **Controlled Equipment**
  For decades, the federal government has provided equipment to state, local, and tribal law enforcement agencies (LEAs) through federal grants. Some federal grant programs have assisted LEAs as they carry out their critical missions to keep the American people safe. The equipment acquired by LEAs through these programs includes administrative equipment, such as office furniture and computers. Some federal grant programs also may include military and military-styled equipment, firearms, and tactical vehicles provided by the federal government, including property covered under 22 C.F.R. Part 121 and 15 C.F.R. Part 774 (collectively, "controlled equipment").

  However, not all equipment that is considered controlled equipment is allowable under the HSGP. As noted in Section B of FEMA Policy 207-22-0002, Prohibited or Controlled Equipment Under FEMA Awards, certain equipment is prohibited and is not allowable under HSGP. Grant funds under this program may not be used for the purchase of equipment not approved by DHS/FEMA. For example, the purchase of tracked armored vehicles, camouflage uniforms, weapons, and weapons accessories, including ammunition, is generally not allowed with HSGP funds.[5]

  For some controlled equipment that is allowable under the HSGP, additional documentation, justifications, reviews, and approvals are required, including but not limited to proof of policies and procedures to safeguard individuals' privacy, civil rights, and civil liberties. Contact your Preparedness Officer if you have questions concerning HSGP requirements for controlled equipment requests.

  Grant funds under this program must comply with the aforementioned FEMA Policy 207-22-0002, Prohibited or Controlled Equipment Under FEMA Awards. As per this FEMA Policy, excepted or controlled equipment must remain in the possession of the original FEMA grant recipient and may not be transferred. The use of controlled equipment under a

[4]This applies to all homeland security personnel and is not limited to M&A staff, and costs are to be captured outside the cap on M&A costs.
[5] FEMA issued Policy 207-22-0002 in response to Executive Order (EO) 14074, Advancing Effective, Accountable Policing and Criminal Justice Practices to Enhance Public Trust and Public Safety, which President Joseph R. Biden issued on May 25, 2022. EO 14074 directs the DHS to prohibit the use of grant funding to purchase certain types of military equipment by state, local, tribal, and territorial law enforcement agencies and to comply with and implement the recommendations stemming from EO 13688, which established prohibited equipment and controlled equipment lists.

Memorandum of Understanding or other regional sharing agreement (see Section D.6 of this FEMA Policy) does *not* constitute a transfer of controlled equipment.

DHS/FEMA will continue to collaborate with federal agency partners to ensure that there is a consistent and reasonable approach to the restrictions placed on controlled equipment expenditures while continuing to support these investments when there is a justifiable need. Further, DHS/FEMA will continue to maintain an awareness of the evolving policy developments related to controlled equipment expenditures and keep grant recipients up to date on future developments.

IV. TRAINING

Training costs are allowed under this program. Please see the Preparedness Grants Manual for more information. Recipients are encouraged to consider tuition-free courses offered by FEMA first, before investing in training. For more information and a catalog of courses please refer to the National Preparedness Course Catalog at NTED.

V. EXERCISES

Exercise costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

VI. PERSONNEL

Personnel hiring, overtime, and backfill expenses are permitted under this grant to perform allowable HSGP planning, organization, training, exercise, and equipment activities. Under OPSG, overtime costs are allowable only in so far as they meet the intent of the program. All recipients and subrecipients of HSGP funds, including SHSP, UASI, and OPSG allocations, may not use more than 50% of their awards to pay for personnel activities unless a waiver is approved by FEMA. For more information on the 50% personnel cap, please see FEMA IB 421b, Clarification on the *Personnel Reimbursement for Intelligence Cooperation and Enhancement of Homeland Security Act of 2008* (Public Law 110-412) – the PRICE Act. Please see the Preparedness Grants Manual for more information.

VII. OPERATIONAL OVERTIME

Operational overtime costs are allowed under this program. Prior to use of funds for operational overtime, recipients must receive approval from DHS/FEMA. Operational overtime costs are also subject to the 50% personnel cap. For more information on the 50% personnel cap, please see FEMA IB 421b. For more information about operational overtime costs for SHSP, UASI, and OPSG, please see the Preparedness Grants Manual.

Operational Overtime Costs for SHSP and UASI

As stated in the Preparedness Grants Manual, in support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism and other catastrophic events, operational overtime costs are allowable for increased protective security measures at critical infrastructure sites or other high-risk locations and to enhance public safety during mass gatherings and high-profile events. SHSP or UASI funds may be used to support select operational expenses associated with increased security measures in the authorized categories in the authorized categories outlined in the Preparedness Grants Manual. FEMA retains the

discretion to approve other types of requests that do not fit within one of these categories.

Except for an elevated National Terrorism Advisory (NTAS) alert, SHSP or UASI funds may only be spent for operational overtime costs upon prior written approval by FEMA. *Post-event operational overtime requests will only be considered on a case-by-case basis*, where it is demonstrated that exigent circumstances prevented submission of a request in advance of the event or activity.

Operational Overtime Costs for OPSG
As stated in the Preparedness Grants Manual, OPSG funds should be used for operational overtime costs associated with law enforcement activities in support of border law enforcement agencies for enhanced border security. Overtime shall be reimbursed consistent with the non-federal entity's overtime policy and the requirements as stated in the Preparedness Grants Manual.

VIII. Travel

Domestic travel costs are allowed under this program, as provided for in this NOFO and in the Preparedness Grants Manual. International travel is not an allowable cost under this program unless approved in advance by DHS/FEMA.

IX. Construction and Renovation

Construction and renovation costs to achieve capability targets related to preventing, preparing for, protecting against, or responding to acts of terrorism are allowed under this program. For construction and renovation costs to be allowed, they must be specifically approved by DHS/FEMA in writing prior to the use of any program funds. Limits on the total amount of grant funding that may be used for construction or renovation may apply. Additionally, recipients are required to submit SF-424C and SF-424D.

All proposed construction and renovation activities must undergo an Environmental Planning and Historic Preservation (EHP) review, including approval of the review from FEMA, prior to undertaking any action related to the project. Failure of a grant recipient to meet these requirements may jeopardize Federal funding. Please see the Preparedness Grants Manual for more information.

X. Maintenance and Sustainment

Maintenance- and sustainment-related costs, such as maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees, are allowable. Please see the Preparedness Grants Manual for more information.

XI. Critical Emergency Supplies

Critical emergency supplies are allowed under this program. Please see the Preparedness Grants Manual for more information.

XII. Secure Identification

Secure Identification costs are allowed under this program. Please see the Preparedness Grants Manual for more information.

Allowable Cost Matrix

The following matrix provides allowable cost activities that fall under each of the cost categories noted above. Recipients and subrecipients must follow all applicable requirements in 2 C.F.R. Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. HSGP funds may be used to cover the costs for evaluating the impact of these grants on the state or urban area's core capabilities and capability gaps. This list is not exhaustive, therefore, if there are any questions regarding allowable costs, please contact the appropriate HQ FEMA Preparedness Officer. For additional information on allowable costs, see the Preparedness Grants Manual.

Allowable Program Activities	SHSP	UASI	OPSG
Allowable Planning Costs			
Developing hazard/threat-specific annexes	Y	Y	N
Developing and implementing homeland security support programs and adopting ongoing DHS/FEMA national initiatives	Y	Y	N
Developing related terrorism and other catastrophic event prevention activities	Y	Y	N
Developing and enhancing plans and protocols	Y	Y	N
Developing or conducting assessments	Y	Y	N
Hiring of full- or part-time staff or contract/consultants to assist with planning, engagement, and volunteer management activities	Y	Y	N
Materials required to conduct planning, engagement, and volunteer management activities	Y	Y	N
Travel/per diem related to planning, engagement, and volunteer management activities	Y	Y	Y
Overtime and backfill costs (in accordance with operational Cost Guidance)	Y	Y	Y
Issuance of Western Hemisphere Travel Initiative-compliant Tribal identification cards	Y	N	N
Activities to achieve planning inclusive of people with disabilities and others with access and functional needs and limited English proficiency.	Y	Y	N
Coordination with Citizen Corps Councils for public information/education and development of volunteer programs	Y	Y	N
Coordination and material support to Citizen Corps Councils and local firehouses for the establishment, training and maintenance of CERTs	Y	Y	N
Update governance structures and processes and plans for emergency communications	Y	Y	N
Development, and review and revision of continuity of operations plans	Y	Y	N
Development, and review and revision of the THIRA/SPR and continuity of operations plans	Y	Y	N
Developing or conducting equity assessments to address planning and preparedness disparities for historically underserved communities	Y	Y	N
Allowable Organizational Activities **Note:** Personnel hiring, overtime, and backfill expenses are permitted under this grant only to the extent that such expenses are for the allowable activities within the scope of the grant.			
Program management	Y	Y	N
Development of whole community partnerships	Y	Y	N
Structures and mechanisms for information sharing between the public and private sector	Y	Y	N
Implementing models, programs, and workforce enhancement initiatives	Y	Y	N

Allowable Program Activities	SHSP	UASI	OPSG
Tools, resources, and activities that facilitate shared situational awareness between the public and private sectors	Y	Y	N
Operational support	Y	Y	N
Utilization of standardized resource management concepts	Y	Y	N
Responding to an increase in the threat level under the National Terrorism Advisory System (NTAS), or needs in resulting from a National Special Security Event	Y	Y	N
Reimbursement for select operational expenses associated with increased security measures at critical infrastructure sites incurred (up to 50% of the allocation)	Y	Y	Y
Overtime for information, investigative, and intelligence sharing activities (up to 50% of the allocation)	Y	Y	Y
Hiring of new staff positions/contractors/consultants for participation in information/intelligence analysis and sharing groups or fusion center activities (up to 50% of the allocation).	Y	Y	Y
Hiring or maintaining staff positions/contractors/consultants at SLTT levels to deliver community preparedness training, resources and material to schools, community-based organizations, faith-based institutions and local businesses.	Y	Y	N
Hiring or maintaining staff positions/contractors/consultants to create, support and maintain CERT or Teen CERT	Y	Y	N
Cost of migrating online services to the ".gov" domain	Y	Y	N
Allowable Equipment Categories			
Personal Protective Equipment	Y	Y	Y
Allowable Equipment Categories			
Explosive Device Mitigation and Remediation Equipment	Y	Y	N
CBRNE Operational Search and Rescue Equipment	Y	Y	N
Information Technology	Y	Y	Y
Cybersecurity Enhancement Equipment	Y	Y	N
Interoperable Communications Equipment	Y	Y	Y
Detection	Y	Y	Y
Decontamination	Y	Y	N
Medical countermeasures	Y	Y	Y
Power (e.g., generators, batteries, power cells)	Y	Y	Y
CBRNE Reference Materials	Y	Y	N
CBRNE Incident Response Vehicles	Y	Y	N
Terrorism Incident Prevention Equipment	Y	Y	Y
Physical Security Enhancement Equipment	Y	Y	Y
Inspection and Screening Systems	Y	Y	Y
Animal Care and Foreign Animal Disease	Y	Y	N
CBRNE Prevention and Response Watercraft	Y	Y	N
CBRNE Prevention and Response Unmanned Aircraft	Y	Y	N
CBRNE Aviation Equipment	Y	Y	N
CBRNE Logistical Support Equipment	Y	Y	N
Intervention Equipment (e.g., tactical entry, crime scene processing)	Y	Y	Y
Critical emergency supplies	Y	Y	N
General use vehicle acquisition, lease, and rental	N	N	Y
Specialized vehicle acquisition, lease, and rental	Y	Y	Y
Other Authorized Equipment	Y	Y	Y
Allowable Training Costs			
Overtime and backfill for emergency preparedness and response personnel attending DHS/FEMA-sponsored and approved training classes	Y	Y	N

Allowable Program Activities	SHSP	UASI	OPSG
Overtime and backfill expenses for part-time and volunteer emergency response personnel participating in DHS/FEMA training	Y	Y	N
Training workshops and conferences	Y	Y	Y
Activities to achieve training inclusive of people with disabilities and others with access and functional needs and limited English proficiency	Y	Y	N
Full- or part-time staff or contractors/consultants	Y	Y	Y
Travel	Y	Y	Y
Supplies	Y	Y	N
Instructor certification/re-certification	Y	Y	N
Coordination with Citizen Corps Councils and CERT in conducting training exercises	Y	Y	N
Preparedness training for community preparedness initiatives and programs	Y	Y	N
Interoperable communications training	Y	Y	N
Activities to achieve planning inclusive of people with limited English proficiency	Y	Y	N
Immigration enforcement training	Y	Y	Y
Allowable Exercise Related Costs			
Design, Develop, Conduct, and Evaluate an Exercise	Y	Y	N
Full- or part-time staff or contractors/consultants	Y	Y	N
Overtime and backfill costs, including expenses for part-time and volunteer emergency response personnel participating in DHS/FEMA exercises	Y	Y	N
Implementation of HSEEP	Y	Y	N
Activities to achieve exercises inclusive of people with disabilities and others with access and functional needs	Y	Y	N
Travel	Y	Y	N
Supplies	Y	Y	N
Interoperable communications exercises	Y	Y	N
Allowable Exercise Related Costs			
Activities to achieve planning inclusive of people with limited English proficiency	Y	Y	N
Allowable M&A Costs			
Hiring of full- or part-time staff or contractors/consultants to assist with the management of the respective grant program, application requirements, and compliance with reporting and data collection requirements	Y	Y	Y
Development of operating plans for information collection and processing necessary to respond to DHS/FEMA data calls	Y	Y	Y
Overtime and backfill costs	Y	Y	Y
Travel	Y	Y	Y
Meeting related expenses	Y	Y	Y
Authorized office equipment	Y	Y	Y
Recurring expenses such as those associated with cell phones and faxes during the period of performance of the grant program	Y	Y	N
Leasing or renting of space for newly hired personnel during the period of performance of the grant program	Y	Y	N
Completing the Civil Rights Evaluation Tool	Y	Y	Y
Conducting activities related to evaluating project effectiveness for HSGP-funded projects	Y	Y	Y
LETPA Costs			
Integration and interoperability of systems and data, such as CAD and RMS, to facilitate the collection,	Y	Y	N
Maturation, enhancement, and sustainment of designated state and major Urban Area fusion centers, including information sharing and analysis, threat recognition, terrorist interdiction, and intelligence analyst training and salaries (subject to certain conditions)	Y	Y	N

Allowable Program Activities	SHSP	UASI	OPSG
Regional counterterrorism training programs for small, medium, and large jurisdictions to exchange information and discuss the current threat environment, lessons learned, and best practices to help prevent, protect against, and mitigate acts of terrorism	Y	Y	N
Coordination of regional full-scale training exercises (federal, state, and local law enforcement participation) focused on terrorism-related events	Y	Y	N
Law enforcement Chemical, Biological, Radiological, Nuclear, and high yield Explosives detection and response capabilities, such as bomb detection/disposal capability development, sustainment, or enhancement, including canine teams, robotics platforms, and x-ray technology	Y	Y	N
Coordination between fusion centers and other operational analytic, and investigative efforts	Y	Y	N
Implementation, maintenance, and sustainment of the Nationwide Suspicious Activity Reporting Initiative	Y	Y	N
Implementation of the "If You See Something, Say Something®" campaign	Y	Y	N
Increase physical security, through law enforcement personnel and other protective measures, by implementing preventive and protective measures at critical infrastructure locations	Y	Y	N

E. Application Review Information

1. Application Evaluation Criteria

a. *Programmatic Criteria*

I. Risk Methodology

The risk methodology determines the relative risk of terrorism faced by a given area considering the potential risk of terrorism to people, critical infrastructure, and economic security. The analysis includes, but is not limited to, threats from violent domestic extremists, international terrorist groups, and individuals inspired by terrorists abroad. See the Preparedness Grants Manual for additional information on the risk methodology.

NOTE: The THIRA/SPR process is separate from the risk methodology and its results do not affect grant allocations.

The Risk Methodology is used to inform allocations under HSGP. For more information on the SHSP, UASI, and OPSG allocation processes, please see Section B.1 of this NOFO, "Available Funding for the NOFO."

II. Application Evaluation Criteria

FEMA will evaluate the FY 2023 HSGP applications for completeness, adherence to programmatic guidelines, and anticipated effectiveness of the proposed investments. FEMA's review will include verification that each IJ and project:

- Aligns with at least one core capability identified in the Goal;
- Demonstrates how investments support building capability and/or closing capability gaps or sustaining capabilities identified in the THIRA/SPR process; and
- Supports a NIMS-typed resource and whether those assets are deployable/shareable to support emergency or disaster operations per existing EMAC agreements.

In addition to the above, FEMA will evaluate whether proposed projects are: 1) both feasible and effective at reducing the risks for which the project was designed; and 2) able to be fully completed within the three-year period of performance. FEMA will use the information provided in the application and after the submission of the first BSIR to determine the feasibility and effectiveness of a grant project. To that end, IJs should include:

- An explanation of how the proposed project(s) will achieve objectives as identified in the SPR, including expected long-term impact where applicable, and which core capability gap(s) it helps to close and how;
- A summary of the status of planning and design efforts accomplished to date (e.g., included in a capital improvement plan); and
- A project schedule with clear milestones.

Recipients are expected to conform, as applicable, with accepted engineering practices, established codes, standards, modeling techniques, and best practices, and participate in the development of case studies demonstrating the effective use of grant funds, as requested.

FEMA will also review any submitted National Priority Area-aligned IJs and projects to ensure they meet the minimum spend requirements. Additional information on how the National Priority Area IJs and projects will be reviewed for effectiveness is included in the Review and Selection Process section below.

b. ***Financial Integrity Criteria***

Prior to making a federal award, FEMA is required by 31 U.S.C. § 3354, as enacted by the Payment Integrity Information Act of 2019, Pub. L. No. 116-117 (2020); 41 U.S.C. § 2313; and 2 C.F.R. § 200.206 to review information available through any Office of Management and Budget (OMB)-designated repositories of governmentwide eligibility qualification or financial integrity information, including whether the applicant is suspended or debarred. FEMA may also pose additional questions to the applicant to aid in conducting the pre-award risk review. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant:

i. Financial stability;
ii. Quality of management systems and ability to meet management standards;
iii. History of performance in managing federal award;
iv. Reports and findings from audits; and/or
v. Ability to effectively implement statutory, regulatory, or other requirements.

c. ***Supplemental Financial Integrity Criteria and Review***

Prior to making a federal award where the anticipated total federal share will be greater than the simplified acquisition threshold, currently $250,000:

i. FEMA is required to review and consider any information about the applicant, including information on the applicant's immediate and highest-level owner, subsidiaries, and predecessors, if applicable, that is in the designated integrity

and performance system accessible through the System for Award Management (SAM), which is currently the Federal Awardee Performance and Integrity Information System (FAPIIS).

ii. An applicant, at its option, may review information in FAPIIS and comment on any information about itself that a federal awarding agency previously entered.

iii. FEMA will consider any comments by the applicant, in addition to the other information in FAPIIS, in making a judgment about the applicant's integrity, business ethics, and record of performance under federal awards when completing the review of risk posed by applicants as described in 2 C.F.R. § 200.206.

2. Review and Selection Process

a. *SHSP and UASI*

All proposed investments will undergo a federal review by DHS/FEMA to verify compliance with all administrative and eligibility criteria identified in the NOFO. The federal review will be conducted by FEMA HQ Preparedness Officers. FEMA HQ Preparedness Officers will use a checklist to verify compliance with all administrative and eligibility criteria identified in the NOFO. Recipients must be able to demonstrate how investments support building capability and/or closing capability gaps or sustaining capabilities identified in the THIRA/SPR process. IJs will be reviewed at both the investment and project level.

Emergency communications investments will be jointly reviewed by FEMA and CISA's Emergency Communications Division (ECD) to verify compliance with SAFECOM Guidance on Emergency Communications Grants (SAFECOM Guidance). FEMA and ECD will coordinate directly with the recipient on any compliance concerns and will provide technical assistance as necessary to help ensure full compliance.

Additional Effectiveness Evaluation Criteria for the National Priority Areas

FEMA will evaluate the FY 2023 HSGP IJs and projects submitted in support of the National Priority Areas for anticipated effectiveness. FEMA's review will include verification that each IJ or project meets the National Priority Area required spend percentages.

Cybersecurity investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

Soft Targets/Crowded Places investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

Information Sharing and Cooperation Investments will be reviewed by DHS/FEMA, DHS Office of Intelligence and Analysis, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the criteria set forth in this NOFO.

For additional information on Fusion Center requirements, please see the Preparedness Grants Manual.

Domestic violent extremism investments will be reviewed by DHS/FEMA, DHS Office of Intelligence and Analysis, DHS Center for Prevention Programs and Partnerships, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the scoring criteria set forth in this NOFO.

Community preparedness and resilience investments will be reviewed by DHS/FEMA and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the scoring criteria set forth in this NOFO.

Election security investments will be reviewed by DHS/FEMA, CISA, and other DHS components as appropriate, for compliance with purposes and requirements of the priority investment area. Proposed investments will be reviewed for effectiveness using the scoring criteria set forth in this NOFO.

FEMA will determine whether the proposed approach is clear, logical, and reasonable to address the priority areas of interest and contribute to a culture of national preparedness. This includes factors such as the objectives and strategies proposed to address the priority area, how the objectives and strategies overcome legal, political, or practical obstacles to reduce overall risk, the process, and criteria to select additional relevant projects, and the approach to monitor awards to satisfy the funding percentage allocations.

For applicants that elect to submit IJs and project-level details for the National Priority Areas at the time of application, effectiveness will be evaluated prior to award. If the projects are found to not sufficiently align with the National Priority Area(s), applicants may have funds placed on hold (up to 30%) until the projects are revised to satisfactorily address the National Priority Areas.

For applicants that elect to submit IJs and project-level details for the National Priority Areas as part of the December 2023 BSIR, they will have funds placed on hold in the amount of 30%. The hold will be released only after their December 2023 BSIR submission has been reviewed, and projects related to the National Priority Areas deemed in alignment by DHS/FEMA.

SAAs are still required to meet pass-through requirements even if funds are on hold related to the National Priority Areas.

To that end, IJs should include:

- How the proposed investment addresses the National Priority Area;
- An explanation of how the proposed projects were selected and will achieve objectives and strategies to build or sustain the core capability gaps identified in the SPR, including expected long-term impact where applicable; and
- A summary of the collaboration efforts to prevent, prepare for, protect against, and respond to acts of terrorism as well as anticipated outcomes of the project.

For FY 2023 SHSP and UASI investments and projects related to the National Priority Areas, effectiveness will be evaluated based on the following four factors:

- Investment Strategy (40%): Proposals will be evaluated based on the quality and extent to which applicants describe an effective strategy that demonstrates that proposed projects support the program objective of preventing, preparing for, protecting against, and responding to acts of terrorism, to meet its target capabilities, and otherwise reduce the overall risk to the high-risk urban area, the state, or the Nation.
- Budget (20%): Proposals will be evaluated based on the extent to which applicants describe a budget plan for each investment demonstrating how the applicant will maximize cost effectiveness of grant expenditures.
- Impact/Outcomes (40%): Proposals will be evaluated on how the investment helps the jurisdiction close capability gaps identified in its SPR and addresses the relevant National Priority Area outlined in this NOFO. Further, proposals will be evaluated on their identification and estimated improvement of core capability(ies), the associated standardized target(s) that align with their proposed investment, and the ways in which the applicant will measure and/or evaluate improvement.
- Past Performance (additional consideration): Proposals will be evaluated based on the applicants demonstrated capability to execute the proposed investments. In evaluating applicants under this factor FEMA will consider the information provided by the applicant and may also consider relevant information from other sources.

b. *OPSG*

Applications will be reviewed by the SAA and USBP Sector Headquarters for completeness and adherence to programmatic guidelines and evaluated for anticipated feasibility, need, and impact of the Operations Orders. For more information on Operations Orders and other requirements of OPSG, see the Preparedness Grants Manual.

DHS/FEMA will verify compliance with all administrative and eligibility criteria identified in the NOFO and required submission of Operations Orders and Inventory of Operations Orders by the established due dates. DHS/FEMA and USBP will use the results of both the risk analysis and the federal review by DHS/FEMA to make recommendations for funding to the Secretary of Homeland Security.

FY 2023 OPSG funds will be allocated among the eligible jurisdictions based on risk-based prioritization using the OPSG Risk Assessment described above. Final funding allocations are determined by the Secretary of Homeland Security, who may consider information and input from various law enforcement offices or subject-matter experts within the Department. Factors considered include, but are not limited to threat, vulnerability, miles of the border, and other border-specific law enforcement intelligence, as well as the feasibility of FY 2023 Operations Orders to designated localities within border states and territories.

F. Federal Award Administration Information

1. Notice of Award

Before accepting the award, the AOR and recipient should carefully read the award package. The award package includes instructions on administering the grant award and the terms and conditions associated with responsibilities under federal awards. **Recipients must accept all conditions in this NOFO and the Preparedness Grants Manual as well as any specific terms and conditions in the Notice of Award to receive an award under this program.**

Recipients must accept their awards no later than 60 days from the award date. The recipient shall notify FEMA of its intent to accept and proceed with work under the award or provide a notice of intent to decline through the ND Grants system. For instructions on how to accept or decline an award in the ND Grants system, please see the ND Grants Grant Recipient User Guide, which is available at Non-Disaster Grants Management System | FEMA.gov along with other ND Grants materials.

Funds will remain on hold until the recipient accepts the award through the ND Grants system and all other conditions of the award have been satisfied or until the award is otherwise rescinded. Failure to accept a grant award within the 60-day timeframe may result in a loss of funds.

See the Preparedness Grants Manual for information on Notice of Award.

2. Pass-Through Requirements

Awards made to the SAA for HSGP carry additional **statutorily mandated** pass-through requirements. Pass-through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. These entities are defined at 6 U.S.C. § 101(13) as:

- A county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments (regardless of whether the council of governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality of a local government.
- An Indian tribe or authorized tribal organization, or in Alaska a Native village or Alaska Regional Native Corporation.
- A rural community, unincorporated town or village, or other public entity.

Four criteria must be met to pass-through grant funds:

- The SAA must make a firm written commitment to passing through grant funds to subrecipients;
- The SAA's commitment must be unconditional (i.e., no contingencies for the availability of SAA funds);
- There must be documentary evidence (i.e., award document, terms, and conditions) of the commitment; and
- The award terms must be communicated to the subrecipient.

Timing and Amount

The SAA must pass-through at least 80% of the funds awarded under SHSP and UASI to the above-defined local or tribal units of government within 45 calendar days of receipt of the funds. "Receipt of the funds" occurs either when the SAA accepts the award or 15 calendar days after the SAA receives notice of the award, whichever is earlier.

SAAs are sent notification of HSGP awards via the GPD's ND Grants system. If an SAA accepts its award within 15 calendar days of receiving notice of the award in the ND Grants system, the 45 calendar days pass-through period will start on the date the SAA accepted the award. Should an SAA not accept the HSGP award within 15 calendar days of receiving notice of the award in the ND Grants system, the 45 calendar days pass-through period will begin 15 calendar days after the award notification is sent to the SAA via the ND Grants system.

It is important to note that the period of performance start date does not directly affect the start of the 45 calendar days pass-through period. For example, an SAA may receive notice of the HSGP award on August 25, 2023, while the period of performance dates for that award September 1, 2023, through August 31, 2026. In this example, the 45-day pass-through period will begin on the date the SAA accepts the HSGP award or September 9, 2023 (15 calendar days after the SAA was notified of the award), whichever date occurs first. The period of performance start date of September 1, 2023 would not affect the timing of meeting the 45-calendar day pass-through requirement.

Other SHSP and UASI Pass-Through Requirements

The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. **A letter of intent (or equivalent) to distribute funds is not considered sufficient.** A letter of intent is not a firm commitment and if issued before FEMA makes the award, then a letter of intent is also not unconditional since it is inherently conditioned on receipt of funds.

The pass-through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, or the Commonwealth of the Northern Mariana Islands. **The Commonwealth of Puerto Rico is required to comply with the pass-through requirement**, and its SAA must also obligate at least 80% of the funds to local units of government within 45 calendar days of receipt of the funds.

Under SHSP, the SAA may retain more than 20% of funding for expenditures made by the

state on behalf of the local unit(s) of government, such as expenditures by the state in order to pass through goods or services to local unit(s) of government in lieu of cash. This may occur only with the written consent, such as a Memorandum of Understanding, between the SAA and the local unit(s) of government. Separate written consent is necessary for each local unit of government in which more than 20% of funding is retained on their behalf by the state. The written consent must specify the amount of funds to be retained and the intended use of funds, including whether any goods or services will be passed through in lieu of cash. It must also be signed by authorized representatives of both the state and the local unit of government.

States shall review their written consent agreements yearly and ensure that they are still valid. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2023, unless the written consent review indicates the local government is no longer in agreement. If modifications to the existing agreement are necessary, the SAA should contact their assigned FEMA HQ Preparedness Officer.

However, even if a written consent agreement is in place from previous fiscal years, **the SAA must still initially carry out the pass-through documentation for its FY 2023 award and comply with the four pass-through criteria described above before the written consent agreement can take effect for purposes of the FY 2023 funding**.

Additional OPSG Requirements
The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county-level or equivalent Operational Order/Fragmentary Operations Order budget has been reviewed and approved through an official electronic mail notice issued by DHS/FEMA removing this special programmatic condition.

3. Administrative and National Policy Requirements

In addition to the requirements of in this section and in this NOFO, FEMA may place specific terms and conditions on individual awards in accordance with 2 C.F.R. Part 200.

In addition to the information regarding DHS Standard Terms and Conditions and Ensuring the Protection of Civil Rights, see the Preparedness Grants Manual for additional information on administrative and national policy requirements, including:

- EHP Compliance;
- FirstNet;
- NIMS Implementation; and
- SAFECOM Guidance.

a. *DHS Standard Terms and Conditions*

All successful applicants for DHS grant and cooperative agreements are required to comply with DHS Standard Terms and Conditions, which are available online at: DHS Standard Terms and Conditions.

The applicable DHS Standard Terms and Conditions will be those in effect at the time the award was made. What terms and conditions will apply for the award will be clearly stated in the award package at the time of award.

b. *Ensuring the Protection of Civil Rights*

As the Nation works towards achieving the National Preparedness Goal, it is important to continue to protect the civil rights of individuals. Recipients and subrecipients must carry out their programs and activities, including those related to the building, sustainment, and delivery of core capabilities, in a manner that respects and ensures the protection of civil rights for protected populations.

Federal civil rights statutes, such as Section 504 of the Rehabilitation Act of 1973 and Title VI of the Civil Rights Act of 1964, along with DHS and FEMA regulations, prohibit discrimination on the basis of race, color, national origin, sex, religion, age, disability, limited English proficiency, or economic status in connection with programs and activities receiving federal financial assistance from FEMA.

The DHS Standard Terms and Conditions include a fuller list of the civil rights provisions that apply to recipients. These terms and conditions can be found in the DHS Standard Terms and Conditions. Additional information on civil rights provisions is available at External Civil Rights Division | FEMA.gov.

Monitoring and oversight requirements in connection with recipient compliance with federal civil rights laws are also authorized pursuant to 44 C.F.R. Part 7.

In accordance with civil rights laws and regulations, recipients and subrecipients must ensure the consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment.

c. *Environmental Planning and Historic Preservation (EHP) Compliance*

As a federal agency, FEMA is required to consider the effects of its actions on the environment and historic properties to ensure that all activities and programs funded by FEMA, including grant-funded projects, comply with federal EHP laws, Executive Orders, regulations, and policies, as applicable.

All non-critical new construction or substantial improvement of structures in a Special Flood Hazard Area must, at a minimum, apply the flood elevations of the Federal Flood Risk Management Standard's Freeboard Value Approach unless doing so would cause the project to be unable to meet applicable program cost-effectiveness requirements. All other types of projects may choose to apply the flood elevations of the Federal Flood Risk Management Standard's Freeboard Value Approach. See Executive Order (EO) 14030, Climate-Related Financial Risk and FEMA Policy #-206-21-0003, Partial Implementation of the Federal Flood Risk Management Standard for Hazard Mitigation Assistance Programs (Interim) (fema.gov).

All GPD actions, including grant-funded actions, must comply with National Flood Insurance Program criteria or any more restrictive federal, state, or local floodplain

management standards or building code (44 CFR § 9.11(d)(6)). All GPD-funded non-critical actions in 1% annual chance floodplains (also known as 100-year floodplains) that involve new construction or substantial improvement of structures must be elevated, at a minimum, to the lower of:

- Two feet above the 1% annual chance flood elevation (also known as the base flood elevation), in accordance with the Federal Flood Risk Management Standard (FFRMS) "Freeboard Value Approach" (FVA); or
- The 0.2% annual chance flood elevation. Where 0.2% annual chance flood elevations are not available, such actions must be elevated to at least two feet above the 1% annual chance flood elevation.

All GPD-funded critical actions in 0.2% annual chance floodplains (also known as 500-year floodplains) that involve new construction or substantial improvement of structures must be elevated, at a minimum, to the higher of:

- Three feet above the 1% annual chance flood elevation; or
- The 0.2% annual chance flood elevation. Where 0.2% annual chance flood elevations are not available, such actions must be elevated to at least three feet above the 1% annual chance flood elevation.

See EO 11988, Floodplain Management, as amended by EO 13690, Establishing a Federal Flood Risk Management Standard and a Process for Further Soliciting and Considering Stakeholder Input.

Recipients and subrecipients proposing projects that have the potential to impact the environment, including, but not limited to, the construction of communication towers, modification or renovation of existing buildings, structures, and facilities, or new construction including replacement of facilities, must participate in the FEMA EHP review process. The EHP review process involves the submission of a detailed project description along with any supporting documentation requested by FEMA in order to determine whether the proposed project has the potential to impact environmental resources or historic properties.

In some cases, FEMA is also required to consult with other regulatory agencies and the public in order to complete the review process. Federal law requires EHP review to be completed before federal funds are released to carry out proposed projects. FEMA may not be able to fund projects that are not incompliance with applicable EHP laws, Executive Orders, regulations, and policies.

DHS and FEMA EHP policy is found in directives and instructions available on the FEMA.gov EHP page, the FEMA website page that includes documents regarding EHP responsibilities and program requirements, including implementation of the National Environmental Policy Act and other EHP regulations and Executive Orders.

The GPD EHP screening form is located at FEMA Form. Additionally, all recipients under this funding opportunity are required to comply with the FEMA GPD EHP Policy Guidance, FEMA Policy #108-023-1.

d. ***National Incident Management System (NIMS) Implementation***

In expending funds under this program, recipients that are state, local, tribal, or territorial governments must ensure and maintain adoption and implementation of NIMS. The state, local, tribal, or territorial government must show adoption of NIMS during any point of the period of performance. The list of objectives used for progress and achievement reporting is at https://www.fema.gov/emergency-managers/nims/implementation-training.

Emergency management and incident response activities require carefully managed resources (personnel, teams, facilities, equipment, and/or supplies) to meet incident needs. Using standardized resource management concepts such as typing, credentialing, and inventorying, promote a strong national mutual aid capability needed to support delivery of core capabilities. Additional information on resource management, NIMS resource typing definitions, job titles, and position qualifications is on FEMA's website at NIMS Components - Guidance and Tools | FEMA.gov.

FEMA developed the National Incident Management System Guideline for the National Qualification System to describe national credentialing standards and to provide written guidance regarding the use of those standards. This guideline describes credentialing and typing processes and identifies tools which Federal Emergency Response Officials and emergency managers at all levels of government may use both routinely and to facilitate multijurisdictional coordinated responses.

Although state, local, tribal, and private sector partners (including nongovernmental organizations) are not required to credential their personnel in accordance with these guidelines, FEMA strongly encourages them to do so to leverage the federal investment in the Federal Information Processing Standards 201 infrastructure and to facilitate interoperability for personnel deployed outside their home jurisdiction.

Additional information about NIMS in general is available at National Incident Management System | FEMA.gov.

e. ***Emergency Communications Investments***

If an entity uses HSGP funding to support emergency communications investments, the following requirements shall apply to all such grant-funded communications investments in support of the emergency communications priorities and recognized best practices:

- The signatory authority for the SAA must certify in writing to DHS/FEMA their compliance with the SAFECOM Guidance. The certification letter should be coordinated with the SWIC for each state and must be uploaded to ND Grants at the time of the first Program Performance Report submission.
- All states and territories must designate a full-time SWIC who has the authority and resources to actively improve interoperability with emergency management and response agencies across all levels of government, to include establishing statewide plans, policies, and procedures, and coordinating decisions on communications investments funded through federal grants. Note that the designated full-time SWIC may also be the state's or territory's cybersecurity point of contact. SWIC status

information will be maintained by CISA and will be verified by FEMA GPD through programmatic monitoring activities.

- By the period of performance end date, all states and territories must update the SCIP, with a focus on communications resilience/continuity, to include assessment and mitigation of all potential risks identified in the SCIP: natural disasters, accidental damage (human failures), intentional damage (sabotage, terrorism), cybersecurity, etc. Following the initial update, the SCIP should be updated on an annual basis. SCIP status information will be maintained by CISA and will be verified by FEMA GPD through programmatic monitoring activities.

All states and territories must test their emergency communications capabilities and procedures (as outlined in their operational communications plans) in conjunction with regularly planned exercises (separate/addition emergency communications exercises are not required). Exercises should be used to both demonstrate and validate skills learned in training and to identify gaps in capabilities. Resilience and continuity of communications should be tested during training and exercises to the greatest extent possible. Further, exercises should include participants from multiple jurisdictions, disciplines, and levels of government and include emergency management, emergency medical services, law enforcement, interoperability coordinators, public health officials, hospital officials, officials from colleges and universities, and other disciplines and private sector entities, as appropriate. Findings from exercises should be used to update programs to address gaps in emergency communications as well as emerging technologies, policies, and partners. Recipients are encouraged to increase awareness and availability of emergency communications exercise opportunities across all levels of government.

States, territories, and other eligible grant recipients are advised that HSGP funding may be used to support communications planning (including the cost of hiring a SWIC, participation in governance bodies and requirements delineated above), training, exercises, and equipment costs. Costs for transitioning to the FirstNet network may also be eligible. More information regarding FirstNet can be found in the Preparedness Grants Manual.

4. Reporting

Recipients are required to submit various financial and programmatic reports as a condition of award acceptance. Future awards and funds drawdown may be withheld if these reports are delinquent.

See the Preparedness Grants Manual for information on reporting requirements.

5. Monitoring and Oversight

Per 2 C.F.R. § 200.337, FEMA, through its authorized representatives, has the right, at all reasonable times, to make site visits or conduct desk reviews to review project accomplishments and management control systems to review award progress and to provide any required technical assistance. During site visits or desk reviews, FEMA will review recipients' files related to the award. As part of any monitoring and program evaluation activities, recipients must permit FEMA, upon reasonable notice, to review grant-related records and to interview the organization's staff and contractors regarding the program.

Recipients must respond in a timely and accurate manner to FEMA requests for information relating to the award. Failure to respond in this manner may result in funding holds on current and future awards until the requested information is provided.

See the Preparedness Grants Manual for information on monitoring and oversight.

G. DHS Awarding Agency Contact Information

1. Contact and Resource Information

a. ***Program Office Contact***

FEMA has assigned state-specific Preparedness Officers for the HSGP. If you do not know your Preparedness Officer, please contact the Centralized Scheduling and Information Desk (CSID) by phone at (800) 368-6498 or by email at askcsid@fema.dhs.gov, Monday through Friday, 9:00 AM – 5:00 PM ET.

b. ***Centralized Scheduling and Information Desk (CSID)***

CSID is a non-emergency comprehensive management and information resource developed by FEMA for grants stakeholders. CSID provides general information on all FEMA grant programs and maintains a comprehensive database containing key personnel contact information at the federal, state, and local levels. When necessary, recipients will be directed to a federal point of contact who can answer specific programmatic questions or concerns. CSID can be reached by phone at (800) 368-6498 or by e-mail at askcsid@fema.dhs.gov, Monday through Friday, 9:00 AM – 5:00 PM ET.

c. ***Grant Programs Directorate (GPD) Award Administration Division***

GPD's Award Administration Division (AAD) provides support regarding financial matters and budgetary technical assistance. Additional guidance and information can be obtained by contacting the AAD's Help Desk via e-mail at ASK-GMD@fema.dhs.gov.

d. ***Equal Rights***

The FEMA Office of Equal Rights (OER) is responsible for compliance with and enforcement of federal civil rights obligations in connection with programs and services conducted by FEMA and recipients of FEMA financial assistance. All inquiries and communications about federal civil rights compliance for FEMA grants under this NOFO should be sent to FEMA-CivilRightsOffice@fema.dhs.gov.

e. ***Environmental Planning and Historic Preservation***

GPD's EHP Team provides guidance and information about the EHP review process to recipients and subrecipients. All inquiries and communications about GPD projects under this NOFO or the EHP review process, including the submittal of EHP review materials, should be sent to gpdehpinfo@fema.dhs.gov.

2. Systems Information

a. ***Grants.gov***

For technical assistance with Grants.gov, call the customer support hotline 24 hours per day, 7 days per week (except federal holidays) at (800) 518-4726 or e-mail at support@grants.gov.

b. ***Non-Disaster (ND) Grants***
For technical assistance with the ND Grants system, please contact the ND Grants Helpdesk at ndgrants@fema.dhs.gov or (800) 865-4076, Monday through Friday, 9:00 AM – 6:00 PM ET. User resources are available at Non-Disaster Grants Management System | FEMA.gov.

c. ***Payment and Reporting System (PARS)***
FEMA uses the Payment and Reporting System (PARS) for financial reporting, invoicing, and tracking payments. FEMA uses the Direct Deposit/Electronic Funds Transfer (DD/EFT) method of payment to recipients. To enroll in the DD/EFT, recipients must complete a Standard Form 1199A, Direct Deposit Form. If you have questions about the online system, please call the Customer Service Center at (866) 927-5646 or email ask-GMD@fema.dhs.gov.

H. Additional Information

GPD has developed the Preparedness Grants Manual to guide applicants and recipients of grant funding on how to manage their grants and other resources. Recipients seeking guidance on policies and procedures for managing preparedness grants should reference the Preparedness Grants Manual for further information. Examples of information contained in the Preparedness Grants Manual include:

- Actions to Address Noncompliance
- Audits
- Case Studies and Use of Grant-Funded Resources During Real-World Incident Operations
- Community Lifelines
- Conflicts of Interest in the Administration of Federal Awards and Subawards
- Disability Integration
- National Incident Management System
- Payment Information
- Period of Performance Extensions
- Procurement Integrity
- Record Retention
- Whole Community Preparedness
- Other Post-Award Requirements

1. Termination Provisions

FEMA may terminate a federal award in whole or in part for one of the following reasons. FEMA and the recipient must still comply with closeout requirements at 2 C.F.R. §§ 200.344-200.345 even if an award is terminated in whole or in part. To the extent that subawards are permitted under this NOFO, pass-through entities should refer to 2 C.F.R. § 200.340 for additional information on termination regarding subawards.

a. ***Noncompliance***
If a recipient fails to comply with the terms and conditions of a federal award, FEMA may terminate the award in whole or in part. If the noncompliance can be corrected, FEMA may first attempt to direct the recipient to correct the noncompliance. This may take the form of a

Compliance Notification. If the noncompliance cannot be corrected or the recipient is non-responsive, FEMA may proceed with a Remedy Notification, which could impose a remedy for noncompliance per 2 C.F.R. § 200.339, including termination. Any action to terminate based on noncompliance will follow the requirements of 2 C.F.R. §§ 200.341-200.342 as well as the requirement of 2 C.F.R. § 200.340(c) to report in FAPIIS the recipient's material failure to comply with the award terms and conditions. See also the section on Actions to Address Noncompliance in this NOFO or in the Preparedness Grants Manual.

b. ***With the Consent of the Recipient***
FEMA may also terminate an award in whole or in part with the consent of the recipient, in which case the parties must agree upon the termination conditions, including the effective date, and in the case of partial termination, the portion to be terminated.

c. ***Notification by the Recipient***
The recipient may terminate the award, in whole or in part, by sending written notification to FEMA setting forth the reasons for such termination, the effective date, and in the case of partial termination, the portion to be terminated. In the case of partial termination, FEMA may determine that a partially terminated award will not accomplish the purpose of the federal award, so FEMA may terminate the award in its entirety. If that occurs, FEMA will follow the requirements of 2 C.F.R. §§ 200.341-200.342 in deciding to fully terminate the award.

2. Program Evaluation
Recipients and subrecipients are encouraged to incorporate program evaluation activities from the outset of their program design and implementation to meaningfully document and measure their progress towards meeting an agency priority goal(s). Title I of the Foundations for Evidence-Based Policymaking Act of 2018 (Evidence Act), Pub. L. No. 115-435 (2019) urges federal awarding agencies and federal assistance recipients and subrecipients to use program evaluation as a critical tool to learn, to improve equitable delivery, and to elevate program service and delivery across the program lifecycle. Evaluation means "an assessment using systematic data collection and analysis of one or more programs, policies, and organizations intended to assess their effectiveness and efficiency." Evidence Act § 101 (codified at 5 U.S.C. § 311). Evaluation costs are allowable costs (either as direct or indirect), unless prohibited by statute or regulation.

In addition, recipients are required to participate in a DHS-led evaluation if selected, which may be carried out by a third-party on behalf of the Program Office or DHS. By accepting grant funds, recipients agree to participate in the evaluation, which may include analysis of individuals who benefit from the grant, and provide access to program operating personnel and participants, as specified by the evaluator(s) during the award.

3. Period of Performance Extensions
Extensions to the period of performance for this program are allowed. Extensions to the POP identified in the award will only be considered through formal, written requests to the recipient's FEMA Preparedness Officer and must contain specific and compelling justifications as to why an extension is required. Recipients are advised to coordinate with

the FEMA Preparedness Officer as needed when preparing an extension request. Please see the Preparedness Grants Manual for more information.

4. Financial Assistance Programs for Infrastructure

a. ***Build America, Buy America Act***

Recipients and subrecipients must comply with the Build America, Buy America Act (BABAA), which was enacted as part of the Infrastructure Investment and Jobs Act §§ 70901-70927, Pub. L. No. 117-58 (2021); and Executive Order 14005, Ensuring the Future is Made in All of America by All of America's Workers. See also OMB Memorandum M-22-11, Initial Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure.

None of the funds provided under this program may be used for a project for infrastructure unless the iron and steel, manufactured products, and construction materials used in that infrastructure are produced in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

To see whether a particular FEMA federal financial assistance program is considered an infrastructure program and thus required to include a Buy America preference, please see Programs and Definitions: Build America, Buy America Act | FEMA.gov and Build America, Buy America Act Frequently Asked Questions (FAQs) | FEMA.gov. Additional information is found in Buy America Preference in FEMA Financial Assistance Programs for Infrastructure, FEMA Interim Policy #207-22-0001.

b. ***Waivers***

When necessary, recipients (and subrecipients through their pass-through entity) may apply for, and FEMA may grant, a waiver from these requirements.

A waiver of the domestic content procurement preference may be granted by the agency awarding official if FEMA determines that:

- Applying the domestic content procurement preference would be inconsistent with the public interest.
- The types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality.
- The inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25%.

For FEMA awards, the process for requesting a waiver from the Buy America preference requirements can be found on FEMA's website at: "Buy America" Preference in FEMA Financial Assistance Programs for Infrastructure | FEMA.gov.

c. ***Definitions***

Construction materials: an article, material, or supply — other than an item primarily of iron or steel; a manufactured product; cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives — that is or consists primarily of non-ferrous metals, plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables), glass (including optic glass), lumber, paint, and drywall.

Domestic content procurement preference: Means all iron and steel used in the project are produced in the United States; the manufactured products used in the project are produced in the United States; or the construction materials used in the project are produced in the United States.

Federal financial assistance: Generally defined in 2 C.F.R. § 200.1 and includes all expenditures by a federal agency to a non-federal entity for an infrastructure project, except that it does not include expenditures for assistance authorities relating to major disasters or emergencies under sections 402, 403, 404, 406, 408, or 502 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act relating to a major disaster or emergency declared under section 401 or 501, respectively, or pre and post disaster or emergency response expenditures.

Infrastructure: Infrastructure projects which serve a public function, including at a minimum, the structures, facilities, and equipment for, in the United States, roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property; and structures, facilities, and equipment that generate, transport, and distribute energy.

Produced in the United States means the following for:

- Iron and steel: All manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
- Manufactured products: The product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.
- Construction Materials: All manufacturing processes for the construction material occurred in the United States.

Project: is any activity related to the construction, alteration, maintenance, or repair of infrastructure in the United States.

Federal Program Announcement

In February 2023, the U.S. Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA) issued the Fiscal Year (FY) 2023 Homeland Security Grant Program (HSGP), Notice of Funding Opportunity (NOFO) and the *FEMA Preparedness Grants Manual*.

Subrecipients must follow the programmatic requirements in the NOFO, FEMA Preparedness Grants Manual, and the applicable provisions of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards located in Title 2, Code of Federal Regulations (C.F.R.), Part 200.

Information Bulletins

DHS issues Information Bulletins (IBs) to provide updates, clarification, and new requirements throughout the life of the grant.

Grant Management Memoranda

Cal OES issues Grant Management Memoranda (GMMs) which provide additional information and requirements regarding HSGP funds.

Purpose of the California Supplement

The FY 2023 HSGP California Supplement to the NOFO (State Supplement) is intended to complement, rather than replace, the NOFO and the FEMA *Preparedness Grants Manual*. Applicants are highly encouraged to thoroughly read the NOFO and the Preparedness Grants Manual before referring to the State Supplement. The State Supplement will emphasize differences between the FY 2022 and FY 2023 HSGP and highlight additional California policies and requirements applicable to FY 2023 HSGP.

Eligible Subrecipients

Eligible Applicants, referred to as Subrecipients, include Counties/Operational Areas (OAs), Urban Areas (UAs), State Agencies (SAs), Departments, Commissions, and Boards who have or can obtain appropriate state Department of Finance budget authority for awarded funds, and federally recognized tribes located in California.

Tribal Allocations

The NOFO strongly encourages Cal OES to provide HSGP funds directly to tribes in California. To implement this requirement, a special Request for Proposal will be issued to California's federally recognized tribes. All Subrecipients are encouraged to coordinate with tribal governments to ensure that tribal needs are considered in their grant applications.

Subrecipient Allocations	FY 2023 HSGP Subrecipient final allocations are provided in Attachment A and reflect reductions to Subrecipients who did not submit minimum thresholds for National Priority Areas, including Subrecipients opting out of the award altogether, and increases to Subrecipients that are helping meet statewide minimum level National Priority Area requirements.
Supplanting	Grant funds must be used to supplement existing funds, not replace (supplant) funds that have been appropriated for the same purpose. Subrecipients may be required to provide supporting documentation that certifies a reduction in non-federal resources that occurred for reasons other than the receipt or expected receipt of federal funds. Supplanting will result in the disallowance of the activity associated with this improper use of federal grant funds.
Public/Private Organizations	Subrecipients may contract with other public or private organizations to perform eligible activities on approved HSGP projects.
Debarred/ Suspended Parties	Subrecipients must not make or permit any award (subaward or contract) at any tier, to any party, that is debarred, suspended, or otherwise excluded from, or ineligible for, participation in federal assistance programs. Subrecipients must obtain documentation of eligibility before making any subaward or contract using HSGP funds and must be prepared to present supporting documentation to monitors/auditors. Before entering into a Grant Subaward, the Subrecipient must notify Cal OES if it knows if any of the principals under the subaward fall under one or more of the four criteria listed at 2 C.F.R. § 180.335. The rule also applies to Subrecipients who pass through funding to other local entities.

Debarred/ Suspended Parties Cont.

If at any time after accepting a subaward, Subrecipients learn that any of its principals fall under one or more of the criteria listed at 2 C.F.R. § 180.335, immediate written notice must be provided to Cal OES and all grant activities halted until further instructions are received from Cal OES. The rule also applies to subawards passed through by Subrecipients to local entities.

Key Changes to the FY 2023 HSGP

National Priority Areas: There are six National Priority Areas (NPAs) for FY 2023. SHSP and UASI applicants must include one Investment Justification (IJ) for each NPA that has a minimum spend requirement, where applicable. For the NPAs with no minimum spend requirement, the Department of Homeland Security strongly encourages recipients to make investments in those areas as they are of critical national concern. For those NPAs that have an associated minimum spend, **all projects related to meeting the minimum spend for those NPAs must be included in the same IJ.**

The six NPAs, along with the relevant minimum spend requirement, are:

- Enhancing information and intelligence sharing and cooperation with federal agencies, including the Department of Homeland Security – 3% minimum;
- Enhancing the protection of soft targets/crowded places – 3% minimum;
- Enhancing cybersecurity – no minimum requirement;
- Enhancing community preparedness and resilience – 3% minimum;
- Combating domestic violent extremism – 3% minimum;
- Enhancing election security – **NEW:** 3% minimum.

Key Changes to the FY 2023 HSGP Cont.

Law Enforcement Terrorism Prevention Activities: Increased from 30% to 35% of the subaward.

Build America, Buy America Act (BABAA):

FY 2023 HSGP is subject to BABAA requirements. The BABAA requires all federal agencies, including FEMA, to ensure that no federal financial assistance for "infrastructure" projects is provided unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States. The BABAA requirements only apply to awards or funds obligated on or after January 2, 2023, and do not apply to awards or funds obligated during the waiver period from July 1, 2022, through January 1, 2023.

FY 2023 National Priorities

DHS/FEMA annually publishes the National Preparedness Report (NPR) to report national progress in building, sustaining, and delivering the core capabilities outlined in the goal of a secure and resilient nation. This analysis provides a national perspective on critical preparedness trends for whole community partners to use to inform program priorities, allocate resources, and communicate with stakeholders about issues of concern.

HSGP Subrecipients are required to prioritize grant funding to demonstrate how investments support closing capability gaps or sustaining capabilities identified in the Threat Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR) process.

DHS/FEMA continually assesses changes to the threat landscape to further the National Preparedness Goal (NPG) of a secure and resilient nation. The following are national priority areas for FY 2023, including the corresponding percentage of funds required in each area:

- Enhancing information and intelligence sharing and cooperation with federal agencies, including DHS – 3%;
- Enhancing the protection of soft targets/crowded places - 3%;
- Enhancing cybersecurity – no minimum;
- Enhancing community preparedness and resilience – 3%
- Combating domestic violent extremism through enhanced intelligence collection & analysis, training, and community resilience – 3%; and
- Enhancing election security – 3% minimum.

The NPA specifically addressing emerging threats has been removed, but activities in this category remain allowable expenses under other investment areas. Further, **applicants must spend a minimum of 30% of their SHSP and UASI awards across the six NPAs but have new flexibility on how that funding is allocated.** Although 15% is required in minimum spending across **five** NPAs, as noted above, the remaining 15% can be allocated across any of the six NPAs. Enhancing Cybersecurity NP does not require a minimum allocation.

FY 2023 National Priorities Cont.

National Priority projects will be reviewed for effectiveness by DHS/FEMA and must be deemed effective prior to the obligation or expenditure of funds.

Projects requiring additional information for DHS/FEMA to determine effectiveness of the project, or projects deemed ineffective, will have a hold placed on their subaward pending submission of requested information and DHS/FEMA approval. Once a project is approved by DHS/FEMA, modifications to the project have special restrictions regarding modifications as indicated below:

Modifications which do not change the project scope and do not decrease the overall project budget can be processed via regular modification request.

Modifications which change the project scope or decrease the overall project budget will require DHS/FEMA approval and must be requested on the National Priority Project Modification Form.

Effectiveness will be evaluated by DHS/FEMA, Cybersecurity and Infrastructure Security Agency, DHS Office of Intelligence and Analysis, DHS Center for Prevention Programs and Partnerships, and/or other DHS components, as appropriate. FEMA will determine whether the proposed approach is clear, logical, and reasonable to address the priority areas of interest and contribute to a culture of national preparedness, based on the following four factors:

- **Investment Strategy (40%):** Projects will be evaluated based on the quality and extent to which the strategy effectively demonstrates supporting the program objective of preventing, preparing for, protecting against, and responding to acts of terrorism, to meet its target capabilities, and otherwise reduce the overall risk to the high-risk urban area, the state, or the nation.

- **Budget (20%):** Projects will be evaluated based on the extent to which a budget plan for each investment demonstrates how grant expenditures maximize cost effectiveness.

FY 2023 National Priorities Cont.

- **Impact/Outcomes (40%):** Projects will be evaluated on how this investment helps the jurisdiction close capability gaps identified in its Stakeholder Preparedness Review and addresses NPs outlined in the FY 2023 NOFO. Further, projects will be evaluated on their identification and estimated improvement of core capability(ies), the associated standardized target(s) that align with their proposed investment, and the ways in which improvements are measured and/or evaluated.

- **Past Performance (additional consideration):** Projects will be evaluated based on the Subrecipient's demonstrated capability to execute the proposed investments. Under this factor, FEMA will consider the information provided by the Subrecipient and may also consider relevant information from other sources.

A detailed description of allowable investments for each NP is included in the FY 2023 HSGP NOFO (Section A).

National Campaigns and Programs

Whole Community Preparedness – Subrecipients should engage with the whole community to advance individual and community preparedness and to work as a nation to build and sustain resilience. In doing so, Subrecipients are encouraged to consider the needs of individuals with access and functional needs and limited English proficiency in the activities and projects funded by the grant.

Subrecipients should utilize established best practices for whole community inclusion and engage with stakeholders to advance individual and jurisdictional preparedness and resilience. Subrecipients are encouraged to consider the necessities of all Californians in the activities and projects funded by the grant, including children, seniors, individuals with disabilities or access and functional needs, individuals with diverse culture and language use, individuals with lower economic capacity, and other underserved populations.

National Campaigns and Programs Cont.

Active Shooter Preparedness – DHS developed a comprehensive Active Shooter Preparedness website, which strives to enhance national preparedness through a whole-community approach by providing the necessary products, tools, and resources to help all stakeholders prepare for and respond to an active shooter incident. Subrecipients are encouraged to review the referenced active shooter resources and evaluate their preparedness needs.

Soft Targets and Crowded Places – States, territories, UAs, and public and private sector partners are encouraged to identify security gaps and build capabilities that address security needs and challenges related to protecting locations or environments that are easily accessible to large numbers of people on a predictable or semi-predictable basis that have limited security or protective measures in place, including town centers, shopping malls, open-air venues, outside hard targets/venue perimeters, and other places of meeting and gathering. For more information, please see DHS's Hometown Security Program.

Community Lifelines – FEMA created Community Lifelines to reframe incident information and impacts using plain language and unity of effort to enable the integration of preparedness efforts, existing plans, and identifies unmet needs to better anticipate response requirements. Additional information may be found at the Community Lifelines Implementation Toolkit website.

Strategic Framework for Countering Terrorism and Targeted Violence – DHS adopted the DHS Strategic Framework for Countering Terrorism and Targeted Violence which explains how the department will use the tools and expertise that have protected and strengthened the country from foreign terrorist organizations to address the evolving challenges of today.

National Campaigns and Programs Cont.

Countering Violent Extremism (CVE) Training - Foreign terrorist groups and individual terrorist thought leaders recruit or inspire Westerners to carry out attacks against western and U.S. targets, including individuals living in communities with the U.S. via, but not limited to, print, video, and social media, as well as through personal interaction. But we also know that violent extremism is not a phenomenon restricted solely to one community and that any effort to counter violent extremism must be applicable to all ideologically motivated violence. Efforts to provide information and training regarding CVE should emphasize the strength of local communities' approach.

National Cybersecurity Review

The National Cybersecurity Review (NCSR) is a required assessment for all Subrecipients of State Homeland Security Program (SHSP) and Urban Areas Security Initiative (UASI) funding to be completed between October and February 2024.

The NCSR is a no-cost, anonymous, and annual self-assessment designed to measure gaps and capabilities of state, local, tribal, territorial, nonprofit, and private sector agencies' cybersecurity programs.

Additionally, FEMA recognizes that some subawards will not be issued until after the NCSR has closed. In these cases, Subrecipients will be required to complete the first available NCSR offered after the subaward has been issued by Cal OES.

The Chief Information Officer (CIO), Chief Information Security Officer (CISO), or equivalent should complete the NCSR. If there is no CIO or CISO, the most senior cybersecurity professional should complete the assessment. Additional information may be found in IB 439 and 429a.

NIMS Implementation

Prior to the allocation of any federal preparedness awards, Subrecipients must ensure and maintain the adoption and implementation of the National Incident Management System (NIMS).

Law Enforcement Terrorism Prevention Activities

At least 35% of the grant funding under SHSP and UASI must be dedicated to Law Enforcement Terrorism Prevention Activities (LETPA). This required LETPA allocation can be from SHSP, UASI, or both and may be met by funding projects in any combination of the six NPAs and any other investments.

Allowable expenditures can be found in the authorizing legislation, Preparedness Grants Manual, Information Bulletin (IB) No. 473 Supplemental Guidance for LETPA Expenditures, the National Prevention Framework, and National Protection Framework.

For an activity to be counted towards the LETPA requirement, it must have a law enforcement terrorism prevention nexus. If an activity is listed in the authorizing legislation or can be directly tied to a capability in the National Prevention Framework or shared capability in the National Protection Framework, then it is presumed to have law enforcement nexus and be a LETPA. For all other claimed activities, nexus to law enforcement and terrorism prevention must be clearly explained.

Refer to IB 485 - FY23 LETPA Supplemental Guidance to the NOFO for further direction on how to account for LETPA activities, best practices for submitting LETPA investments, and information on how to distinguish LETPA from other activities .

Management and Administration

The Management and Administration (M&A) allowance for Subrecipients is set at a maximum of 5% for FY 2023 HSGP.

Indirect Costs

Indirect costs are allowable under the FY 2023 HSGP Grant Award.

Subrecipients with an indirect cost rate approved by their cognizant federal agency may claim indirect costs based on the established rate. Indirect costs claimed must be calculated using the base approved in the indirect cost negotiation agreement. A copy of the approved negotiation agreement is required at the time of application.

Indirect Costs Cont.

Indirect costs are *in addition to* the M&A allowance and must be included in the Grant Award application as a "Project" and reflected in the FMFW on the Indirect Cost Tab if being claimed under the award.

Indirect costs must be claimed no more than once annually, and only at the end of the Subrecipient's fiscal year. An exception to this rule applies if there is a mid-year change to the approved indirect cost rate; in this case, costs incurred to date must be claimed. At that time, a Grant Subaward Modification reflecting the rate change must also be submitted to Cal OES, along with a copy of the new Indirect Cost Rate Agreement.

Organization Costs – Overtime

Operational overtime costs are allowable *for increased security measures at critical infrastructure sites* if associated with detecting, deterring, disrupting, and preventing acts of terrorism and other catastrophic events.

Pursuant to page A-4 of the *Preparedness Grants Manual*, all operational overtime requests must clearly explain how the request meets the criteria of one or more of the categories listed in *Table 2: Authorized Operational Overtime Categories*.

Requests must address the threat environment as it relates to the event or activity requiring operational overtime support and explains how the overtime activity is responsive to the threat.

Post-event operational overtime requests will only be considered on a case-by-case basis, where it is demonstrated exigent circumstances prevented submission of a request in advance of the event or activity. Requests for overtime costs must be submitted to Cal OES via Allowability Request Log (ARL) Form at the time of application, if the activity will occur within one year of the final application submission. All subsequent requests must be submitted at least 60 days in advance of the activity.

All operational overtime costs must be formally pre-approved in writing by DHS/FEMA.

Personnel Cap

Pursuant to 6 U.S.C. § 609(b), SHSP and UASI funds may be used for personnel costs, totaling up to 50 percent of each fund source. A Subrecipient may request this requirement be waived by DHS/FEMA, via Cal OES. Requests for personnel cap waivers must be submitted separately for each fund source in writing to the Program Representative on official letterhead, with the following information:

- Documentation explaining why the cap should be waived;
- Conditions under which the request is being submitted; and
- A budget **and** method of calculation of personnel costs both in percentages of the Grant Award **and** in total dollar amount (waivers must be calculated separately for SHSP and UASI, outlining salary, fringe benefits, and any M&A costs).

Subrecipient requests to exceed the personnel cap must be received by Cal OES at the time of application. Subaward modifications impacting the personnel cap will be reviewed on a case-by-case basis and may require the submittal of the above-mentioned information.

Please see IB 421b for more information on the waiver process.

Equipment Typing/ Identification and Use

Allowable HSGP equipment is listed on the FEMA Authorized Equipment List (AEL) website.

Subrecipients that allocate HSGP funds towards equipment are required to type and identify the capability associated with that equipment. The FEMA Resource Typing Library Tool (RTLT) can be used to help determine the type and capability.

Per FEMA policy, the purchase of weapons and weapon accessories are not allowed with HSGP funds. Special rules apply to pharmaceutical purchases, medical countermeasures, and critical emergency supplies; refer to page A-10 of the FEMA Preparedness Grants Manual for additional information.

Equipment Typing/ Identification and Use Cont.	Expenditures for general purpose equipment are allowable if they align to and support one or more core capabilities identified in the NPG, and in addition, are deployable/sharable through the Emergency Management Assistance Compact and allowable under 6 U.S.C. § 609. Refer to the NOFO and Preparedness Grants Manual for examples of allowable general-purpose equipment.
Equipment Maintenance/ Sustainment	Use of HSGP funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable as described in FEMA IBs 336 and 379, as well as Grant Programs Directorate (GPD) Policy FP-205-402-125-1.
Emergency Communications Projects	All Subrecipient emergency communications projects must comply with the SAFECOM Guidance on Emergency Communications Grants and describe in their FMFW how such activities align with the goals of the Statewide Communications Interoperability Plan.
Telecom Equipment and Services Prohibitions	Effective August 13, 2020, section 889(f)(2)-(3) of the John S. McCain National Defense Authorization Act for FY 2019 (NDAA) and 2 C.F.R. § 200.216, 200.471, and Appendix II to 2 C.F.R. Part 200 prohibit DHS/FEMA Recipients and Subrecipients (including their contractors and subcontractors) from using any FEMA funds under open or new awards for the following telecommunications equipment or services: 1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation, (or any subsidiary or affiliate of such entities); 2) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities); 3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

Telecom Equipment and Services Prohibitions Cont.

4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the People's Republic of China.

Additional guidance is available in FEMA Policy #405-143-1, Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services

Prohibited and Controlled Equipment

Effective May 25, 2022, Executive Order (EO) 14074, Advancing Effective, Accountable Policing and Criminal Justice Practices to Enhance Public Trust and Public Safety, Section 12(a) of EO 14074 directs the Department of Homeland Security (DHS) to review its grant programs and, consistent with applicable law, prohibits the use of grant funding to purchase certain types of military equipment by state, local, tribal, and territorial law enforcement agencies (LEAs).

For all awards issued on or after January 1, 2023, The policy directly prohibits certain types of equipment outright (prohibited equipment), whereas other types of equipment may be controlled, or LEAs are required to submit certifications prior to purchase.

Even if equipment is listed as controlled equipment and is not outright prohibited, that does not automatically make it allowable under a particular FEMA program. Recipients and Subrecipients should refer to applicable program guidance or contact your Program Representative to determine if a particular type of equipment is allowable under that program.

Additional information regarding Prohibited and Controlled Equipment is available on FEMA Policy 207-22-0002.

Small Unmanned Aircraft Systems

All requests to purchase Small Unmanned Aircraft Systems (SUAS) with FEMA grant funding must comply with FEMA Policy 207-22-0002 and include copies of the policies and procedures in place to safeguard individuals' privacy, civil rights, and civil liberties of the jurisdiction that will purchase, take title to, or otherwise use the SUAS equipment. The Authorized Equipment Listing for 03OE-07-SUAS details questions that must be included in the Aviation Request justification. Reference the Presidential Memorandum: Promoting Economic Competitiveness While Safeguarding Privacy, Civil Rights, and Civil Liberties in Domestic Use of Unmanned Aircraft Systems for additional information.

FEMA approval is required before a SUAS can be purchased with HSGP grants funds.

Emergency Operations Plans

Subrecipients should update their Emergency Operations Plan (EOP) at least once every two years to remain compliant with the Comprehensive Preparedness Guide 101 version 2.0.

Conflict of Interest

To eliminate and reduce the impact of conflicts of interest in the subaward process, Subrecipients and pass-through entities must follow their own policies and procedures regarding the elimination or reduction of conflicts of interest when making subawards. Subrecipients and pass-through entities are also required to follow any applicable federal, state, local, and tribal statutes or regulations governing conflicts of interest in the making of subawards.

Subrecipients must disclose to their Program Representative, in writing, any real or potential conflict of interest as defined by the federal, state, local, or tribal statutes or regulations, which may arise during the administration of the HSGP subaward within five days of learning of the conflict of interest.

Build America, Buy America Act (BABAA)

Under FEMA financial assistance programs, the BABAA requirements apply to:

- New awards made on or after January 2, 2023,
- New funding that FEMA obligates to existing awards or through renewal awards on or after January 2, 2023; and
- Infrastructure projects.

Funds provided under this program may not be used for a project for infrastructure unless the iron and steel, manufactured products, and construction materials used in that infrastructure are produced in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Additionally, the Buy America preference does not apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

When necessary, Subrecipients may apply for a waiver from these requirements. Additional information regarding the BABAA can be found on FEMA's website under Buy America Preference Buy America Preference.

FY 2023 Investments

The State prioritized the following investment strategies for the FY 2023 subawards:

1. Enhance Information and Intelligence Sharing and Cooperation with Federal Agencies, including DHS **(National Priority)**;
2. Enhance the Protection of Soft Targets/Crowded Places **(National Priority)**;
3. Enhance Cybersecurity **(National Priority)**;
4. Enhancing Community Preparedness and Resilience **(National Priority)**;
5. Combating Domestic Violent Extremism **(National Priority)**;
6. Strengthen Emergency Communications Capabilities Through Planning, Governance, Technology, and Equipment;
7. Enhance Medical and Public Health Preparedness;
8. Strengthen Information Sharing and Collaboration (non-Fusion Center);
9. Enhance Multi-Jurisdictional/Inter-Jurisdictional All-Hazards/Whole Community Incident Planning, Response & Recovery Capabilities;
10. Protect Critical Infrastructure and Key Resources (includes Food and Agriculture); and
11. Enhance Election Security **(National Priority).**

California Homeland Security Strategy Goals

The State prioritized the following California Homeland Security Strategy Goals for the FY 2023 subawards:

1. Enhance Information Collection, Analysis, and Sharing, in Support of Public Safety Operations Across California;
2. Protect Critical Infrastructure and Key Resources from All Threats and Hazards;
3. Strengthen Security and Preparedness Across Cyberspace;
4. Strengthen Communications Capabilities through Planning, Governance, Technology, and Equipment;
5. Enhance Community Preparedness;
6. Enhance Multi-Jurisdictional/Inter-Jurisdictional All-Hazards Incident Catastrophic Planning, Response, and Recovery Capabilities;
7. Improve Medical and Health Capabilities;
8. Enhance Incident Recovery Capabilities;
9. Strengthen Food and Agriculture Preparedness; and
10. Enhance Homeland Security Exercise, Evaluation, and Training Programs.

State Initiative Funding

For FY 2023, Cal OES shall retain 20% of the SHSP and 18.5% of the UASI funding for state initiatives.

"On Behalf Of"

Cal OES may, in conjunction with local approval authorities, designate funds "on behalf of" local entities who choose to decline or fail to utilize their subaward in a timely manner.

Public Alert and Warning

Cal OES encourages Subrecipients to consider the use of this funding to assist their jurisdiction's alignment with the State of California Alert and Warning Guidelines, developed pursuant to Senate Bill 833 of the 2018 Legislative Session.

Financial Management Forms Workbook

The FY 2023 Cal OES FMFW includes:

Grant Subaward Face Sheet – Use the Grant Subaward Face Sheet to apply for grant programs. The Grant Subaward Face Sheet must be signed and submitted in portrait format. An active UEI# (Formerly DUNS#) is required. UEI registration information is available sam.gov.

Authorized Body of 5 – Provide the contact information of Authorized Agents (AA), delegated via the Governing Body Resolution (GBR) or Signature Authorization Form, including staff related to grant activities. More than one person is recommended for designation as the AA; in the absence of an AA, an alternate AA can sign requests.

Project Ledger – The project ledger is used in the application process to submit funding information and is used for submitting cash requests, Grant Subaward Modifications, and assists with the completion of the Biannual Strategy Implementation Report (BSIR).

Planning Tab – Provides detailed information on grant-funded planning activities with a final product identified.

Organization Tab – Provides detailed information on grant-funded organizational activities.

Equipment Tab – Detailed information must be provided under the equipment description for all grant-funded equipment. AEL numbers must be included for all items of equipment. Always refer to the AEL for a list of allowable equipment and conditions, if any.

Training Tab – Provides detailed information on grant-funded training activities. All training activities must receive Cal OES approval prior to starting the event, including a Training Feedback number. The Training Request Form must be submitted and approved to obtain a Training Feedback number and should be submitted at **least** 30 days in advance.

Exercise TAB – Provides detailed information on grant-funded exercises.

M&A Tab – Provides information on grant-funded M&A activities.

Indirect Costs Tab – Provides information on indirect costs.

Financial Management Forms Workbook Cont.

Consultant-Contractor Tab – Provides detailed information on grant-funded consultants and contractors.

Authorized Agent Page – The AA Page must be submitted with the application, all cash requests, and Grant Subaward Modifications. The AA Page must include a valid signature on file with Cal OES and the date.

Subrecipient Grants Management Assessment

Per 2 C.F.R. § 200.332, Cal OES is required to evaluate the risk of non-compliance with federal statutes, regulations, and grant terms and conditions posed by each Subrecipient of pass-through funding. The Subrecipient Grants Management Assessment Form contains questions related to an organization's experience in the management of federal grant awards. It is used to determine and provide an appropriate level of technical assistance, training, and grant oversight to Subrecipients during the subaward. The questionnaire must be completed and returned with the grant application.

Application Attachments

Federal Funding Accountability and Transparency Act (FFATA) Financial Disclosure – Use the FFATA Financial Disclosure Form to provide the information required by the Federal Funding Accountability and Transparency Act of 2006.

Certification Regarding Lobbying – Use the Certification Regarding Lobbying Form to certify lobbying activities, as stipulated by the Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352.

Intelligence Analysts Certificates – Pursuant to the Preparedness Grants Manual, Cal OES must have certificates for completion of training for fusion center analytical personnel. Please provide copies of certificates for each intelligence analyst, if applicable.

UASI Footprint (UASIs Only) – The Urban Area Working Group (UAWG) establishes the 'footprint' of the UA. A map or list defining the footprint must be included with the application.

UAWG Member Roster (UASIs Only) – A list of all current UAWG members with positions or titles.

Indirect Cost Rate Agreement – If claiming indirect costs at a federally-approved rate, please provide a copy of the approved indirect cost rate agreement.

Standard Assurances

The Standard Assurances list the requirements to which the Subrecipients will be held accountable. All Applicants will be required to submit a signed, **original** of the FY 2023 Standard Assurances as part of their FY 2023 HSGP application. The required Standard Assurances can be found only in PDF format on the Cal OES website.

NOTE: Self-created Standard Assurances will not be accepted.

Operational Areas and Urban Areas

Governing Body Resolution – The GBR appoints AAs (identified by the individual's name or by a position title) to act on behalf of the governing body and the Applicant by executing any actions necessary for each application and subaward. All Applicants are required to submit a copy of an approved GBR with their grant application. Resolutions may be valid for up to three grant years given the following:

- The resolution identifies the applicable grant program (e.g., EMPG and/or HSGP);
- The resolution identifies the applicable grant years, (e.g., FY 2023, FY 2024, FY 2025; and
- Adheres to any necessary elements required by local protocols, rules, etc., if applicable.

Resolutions that only identify a single grant program will only be valid for that single program. Resolutions that do not identify applicable grant years will only be valid for the grant year in which the resolution was submitted.

Authorized Agent Information – For each person or position appointed by the governing body, identify the individual in the Authorized Body of 5 ledger of the FMFW.

All changes in AA and contact information must be provided to Cal OES in writing. If the GBR identifies the AA by name, a new Resolution is needed when changes are made. If the GBR identifies the AA by position and/or title, changes may be made by submitting a request on the entity's letterhead, signed by an existing AA. Cal OES will not accept signatures of an AA's designee, unless authorized by the GBR. A change to an AA's designee must be submitted on agency letterhead and signed by the AA, announcing the change to their designee.

Operational Areas Only

Approval Authority Body – OAs must appoint an Anti-Terrorism Approval Body (Approval Authority) to have final approval of the OA's application for HSGP funds. Each member of the Approval Authority must provide written agreement with the OA's application for HSGP funds. The Approval Authority shall consist of the following representatives, and additional voting members may be added by a simple majority vote of the following standing members:

- County Public Health Officer or designee responsible for Emergency Medical Services
- County Fire Chief or Chief of Fire Authority
- Municipal Fire Chief (selected by the OA Fire Chiefs)
- County Sheriff
- Chief of Police (selected by the OA Police Chiefs)

Urban Areas Only

Urban Area Working Groups – Membership in the UAWG must provide either direct or indirect representation for all relevant jurisdictions and response disciplines (including law enforcement, fire service, EMS, hospitals, public health, and emergency management) that comprise the defined UA. It also must be inclusive of local Citizen Corps Council and tribal representatives. The UAWG should also ensure the integration of local emergency management, public health, and health care systems into a coordinated sustained local capability to respond effectively to a mass casualty incident. Additional group composition criteria are found in the FEMA *Preparedness Grants Manual*.

Threat Hazard Identification and Risk Assessment – Subrecipients are required to submit a THIRA for all 32 core capabilities. Beginning in 2019, UAs are required to submit a THIRA every three years. An annual capability assessment will still be required.

Stakeholder Preparedness Review – The SPR is an annual grant requirement for all states, territories, and UAs. It is an annual capability assessment, which helps jurisdictions identify capability gaps and prioritize investment requirements to reach the targets set in their THIRA.

All fusion center investments must align to, and reference, specific performance areas of the assessment that the funding is intended to support.

Fusion Centers Only	Fusion Centers are also required to follow all Reporting and Administrative Metrics for California Fusion Centers, as set forth in the Governor's Homeland Security Advisor/Cal OES Director's letter dated March 16, 2016. These operational and administrative metrics set forth an integrated and coordinated approach for regular and proactive information and intelligence sharing between all fusion centers in the California State Threat Assessment System (STAS).
State Agencies and Tribes Only	State Agencies, and federally recognized tribes may submit the Signature Authorization Form in lieu of a GBR, signed by the most senior ranking official, such as the Secretary, Director, President, Chancellor, or Chairperson.

Application Submission

Subrecipients must submit an electronic copy of their completed FMFW to their Program Representative for review. After the application is approved, a completed copy of the FMFW, along with all other application components must be submitted, with official signatures, by the application due date. During the application process, if it is determined not all allocated funds can be expended by the end of the period of performance, please inform a Program Representative as soon as possible. The completed application should be received by Cal OES no later than the date provided in the FY 2023 HSGP Timeline, referenced as Attachment B.

Late or Incomplete Application

Late or incomplete applications may be denied. If an application is incomplete, the Program Representative may request additional information. Requests for late submission of applications must be made in writing to the Program Representative prior to the application due date. Cal OES has sole discretion to accept or reject a late or incomplete grant application.

HSGP Contact Information

All Subrecipient application materials, questions, comments, and correspondence should be directed to:

California Governor's Office of Emergency Services
ATTN: Grants Management (Building F)
Homeland Security Grants Unit
3650 Schriever Avenue
Mather, CA 95655

Darlene Arambula	(916) 845-8427
Christopher Camacho	(916) 845-8789
Laura Halverstadt	(916) 845-8899
Antoinette Johnson	(916) 845-8260
Jim Lane	(916) 845-8428
Tyrone Freeman	(916) 328-7750
Abigayle Tirapelle	(916) 845-8400

The Program Representative Regional Assignments Map is available at the Cal OES website under "Regional Assignments".

Subaward Approval

Subrecipients will receive a formal notification of award no later than 45 days after Cal OES accepts the federal grant award. The award letter must be signed, dated, and returned to Cal OES within 20 calendar days. Once the completed application, along with the signed award letter, is received and approved, reimbursement of eligible subaward expenditures may be requested using the Cal OES FMFW.

Payment Request Process

To request an advance or cash reimbursement of HSGP funds, Subrecipients must first complete a payment request using the Cal OES HSGP FMFW, returning it to the appropriate Program Representative. Subrecipients who fail to follow the workbook instructions may experience delays in processing the payment request.

Payments can only be made if the Subrecipient has an approved application.

Advances and Interest Earned on Advances

An Advance payment is a payment that is requested before Subrecipients have disbursed the funds for program purposes. Subrecipients may be paid an advance, provided they maintain a willingness and ability to maintain procedures to minimize the time elapsing between the receipt of funds and their disbursement. The timing and amount of advance payments must be as close as administratively feasible to the actual disbursements by the Subrecipient for project costs.

Federal rules require advances to be deposited in interest-bearing accounts. Interest earned amounts up to $500 per year may be retained by Subrecipients for administrative expenses; any additional interest earned on federal advance payments must be returned annually to Cal OES.

Semi-Annual Drawdown Requirements

All Subrecipients must report expenditures and request funds at least semi-annually throughout the period of performance. Semi-annual drawdowns should occur by March and October of each calendar year following final approval of the subaward application, except for the final cash request, which must be submitted within 20 calendar days after the end of the period of performance.

Modifications

Post-award budget and scope modifications must be requested using the Cal OES HSGP FMFW v1.23, signed by the Subrecipient's AA, and submitted to the Program Representative.

The Subrecipient may implement grant modification activities, and incur associated expenses, only after receiving written final approval of the modification from Cal OES.

Modifications Cont.

Subrecipients must provide a written justification with all modification requests. The justification may be included in the body of the e-mail transmitting the request, or in a document attached to the transmittal e-mail. Please reference GMM 2018-17 for additional information regarding modification requests.

Modifications to NP Projects have additional restrictions as indicated below:

Modifications which do not change the project scope and do not decrease the overall project budget can be processed via regular modification request.

Modifications which change the project scope or decrease the overall project budget will require DHS/FEMA approval and must be requested on the National Priority Project Modification Form.

Training Requirements

All grant-funded training activities must receive Cal OES approval prior to starting the training event. Cal OES shall allow Subrecipients to develop a "placeholder" for future training conferences when an agenda has not been established at the time Subrecipient applications are due. Please work with a Program Representative and the Training Branch to identify a possible "placeholder" for these types of training activities.

When seeking approval of non-DHS/FEMA developed courses, course materials must be submitted with the approval requests. Conditional approvals are not offered.

Subrecipients must complete a Training Request Form and submit it electronically to the Cal OES Training Branch to be approved with a Training Feedback Number before beginning any training activities. This includes project components like travel to, materials for, or attendance in training courses. Training Feedback Numbers should be obtained no later than 30 days before the first day of the training or related activities. Requests that are submitted with less than 30 days prior to the start of the training or activity are not guaranteed to be approved in time and run the risk of training being unallowable. Training Feedback numbers must

Training Requirements Cont.

be included on the FMFW Training Ledger to be considered for reimbursement.

For more information on this or other training-related inquiries, contact the Cal OES Training Branch at (916) 845-8745 or Training@CalOES.ca.gov.

Exercises, Improvement Plans, and After-Action Reporting

Subrecipients should engage stakeholders to identify long-term training and exercise priorities. These priorities should address capability targets and gaps identified through the THIRA and SPR process, real-world events, previous exercises, and national areas for improvement identified in the NPR.

Subrecipients must report on all exercises conducted with HSGP grant funds. An After-Action Report (AAR)/Improvement Plan (IP) or Summary Report (for Seminars and Workshops) must be completed and submitted to Cal OES within 90 days after exercise/seminars/workshops are conducted. It is acceptable to submit an *Exercise Summary Report for Seminars and Workshops* in lieu of a full AAR/IP.

Please e-mail AAR/IPs and Summary Reports to:

- hseep@fema.dhs.gov
- exercise@caloes.ca.gov
- christopher.camacho@caloes.ca.gov

For exercise-related issues and/or questions, please email the Cal OES Exercise Team at exercise@caloes.ca.gov.

Exercise costs will not be considered for reimbursement until an AAR/IP is received by Cal OES.

Procurement Standards and Written Procedures

Subrecipients must conduct procurement using documented local government procurement procedures, or the federal procurement standards found in 2 C.F.R. Part 200, whichever are more strict. Subrecipients must also have written conflict of interest policies governing the actions of its employees engaged in the selection, award and administration of contracts, including disciplinary actions for violations of such standards.

Procurement Thresholds

Effective June 20, 2018, the micro-purchase threshold was increased from $3,500 to $10,000 and the simplified acquisition threshold was increased from $150,000 to $250,000. These increases apply to all Subrecipient procurements executed on or after June 20, 2018.

Refer to IB 434 for additional information.

Procurement Documentation

Non-federal entities, other than states and territories, are required to maintain and retain records sufficient to detail the history of procurements, covering at least the rationale for the procurement method, contract type, contractor selection or rejection, and the basis for the contract price. For any cost to be allowable, it must be adequately documented. Examples of the types of documents that would meet this requirement include, but are not limited to:

- Solicitation documentation, such as requests for quotes, invitations for bids, or requests for proposals;
- Responses to solicitations, such as quotes, bids, or proposals;
- Pre-solicitation independent cost estimates and post-solicitation cost/price analyses on file for review by federal personnel, if applicable;
- Contract documents and amendments;
- Documents demonstrating inclusion of required contract provisions; and
- Other documents required by federal regulations applicable at the time the grant was awarded to the Subrecipient.

Noncompetitive Procurement

All noncompetitive procurements exceeding the simplified acquisition threshold requires Cal OES **prior** written approval to be eligible for reimbursement. This method of procurement must be approved by the local Purchasing Agent prior to submitting a request for Cal OES approval. A copy of the Purchasing Agent's approval must be included with the Cal OES Request for Noncompetitive Procurement Authorization form. Cal OES may request additional documentation that supports the procurement effort.

Noncompetitive Procurement Cont.	Cal OES will not reimburse for any noncompetitive procurement contracts for any HSGP terrorism-related training, regardless of the cost of the training. Exceptions to this policy may be approved in limited circumstances, e.g., related to a procurement effort that has resulted in inadequate competition. Please refer to GMM2017-01A and GMM2021-05 for additional guidance.
Performance Bond	Due to the risks associated with delays in vendor delivery of large equipment procurements, DHS/FEMA allows Subrecipients to obtain a "performance bond" for items that are paid for up front to ensure delivery of the equipment within the grant period of performance. Cal OES *requires* Subrecipients to obtain a performance bond when procuring any equipment item over $250,000, or for any vehicle, aircraft, or watercraft that requires full or partial payment **prior** to receiving the final product(s). Performance Bond Waivers may be granted on a case-by-case basis and must be submitted to Cal OES prior to procurement.
Environmental Planning and Historic Preservation (EHP)	DHS/FEMA is required to ensure all activities and programs that are funded by the agency comply with federal Environmental Planning and Historic Preservation (EHP) regulations. Subrecipients proposing projects or activities (including, but not limited to, training, exercises, the installation of equipment, and construction or renovation projects) that have the potential to impact the environment, or a historic structure must participate in the EHP screening process. EHP Screening Memos must include detailed project information, explain the goals and objectives of the proposed project, and include supporting documentation. DHS/FEMA may also require the Subrecipient to provide a confidential California Historical Resources Information System (CHRIS) report in addition to the EHP Screening Form. Determination on the necessity of a CHRIS report is based upon information disclosed on the form. Program Representatives will provide additional instructions should this report be required.

Environmental Planning and Historic Preservation (EHP) Cont.

EHP Screening Requests should be submitted to Cal OES as early as possible. All projects/activities triggering EHP must receive DHS/FEMA written approval prior to commencement of the funded activity.

Updated information may be referenced in the FEMA GPD EHP Policy Guidance.

Construction and Renovation

When applying for construction activity at the time of application, including communication towers, Subrecipients must submit evidence of approved zoning ordinances, architectural plans, any other locally required planning permits, and a notice of federal interest. Additionally, Subrecipients are required to submit an SF-424C Budget and Budget Detail that cites project costs. Communication tower construction requests also require evidence that the Federal Communications Commission's Section 106 review process was completed.

Subrecipients using funds for construction projects must comply with the Davis-Bacon Act. Subrecipients must ensure that their contractors or subcontractors for construction projects pay workers no less than the prevailing wages for laborers and mechanics employed on projects of a character like the contract work in the civil subdivision of the state in which the work is to be performed.

Project construction using SHSP and UASI funds may not exceed $1,000,000 or 15% of the grant subaward (for the purposes of limitations on funding levels, communications towers are not considered construction).

Written approval* for construction must be provided by DHS/FEMA *prior to* the use of any HSGP funds for construction or renovation. *No construction activities (including site preparation, utility installations, and any groundbreaking activities) or equipment installations on existing structures, may begin until the EHP review process is complete.

Inventory Control and Property Management

Subrecipients must use standardized resource management concepts for resource typing and credentialing, in addition to maintaining an inventory by which to facilitate the effective identification, dispatch, deployment, tracking, and recovery of resources.

Subrecipients must have an effective inventory management system, to include:

- Property records that document description, serial/ID number, fund source, title information, acquisition date, cost, federal cost share, location, use, condition, and ultimate disposition;
- A physical inventory conducted at least every two years;
- A control system to prevent loss, damage, and theft of grant purchased equipment and supplies; and
- Adequate maintenance procedures to keep the property in good condition.

Equipment Disposition

When original or replacement equipment acquired under the HSGP is no longer needed for program activities, the Subrecipient must contact the Program Representative to request disposition instructions. See 2 C.F.R. § 200.313(e).

Performance Reporting

Subrecipients must complete a BSIR each Winter and Summer using the DHS/FEMA Grants Reporting Tool (GRT) for the duration of the subaward period of performance or until all grant activities are completed and the subaward is formally closed by Cal OES. Failure to submit a BSIR could result in subaward reduction, suspension, or termination.

Access to the BSIR may be obtained through the GRT. To create a new account, please click the link that reads, "Register for an account" and follow the instructions provided. The Subrecipient will be required to ensure up-to-date project information is entered. The Project Ledger in the FMFW may assist with the BSIR data entry process. For additional assistance with the GRT, please contact your Program Representative.

Extension Requests

Extensions to the initial period of performance identified in the subaward will only be considered through formal, written requests to your Program Representative. Upon receipt of the extension request, Cal OES will:

1. Verify compliance with performance reporting requirements by confirming the Subrecipient has submitted all necessary performance reports;
2. Confirm the Subrecipient has provided sufficient justification for the request; and
3. If applicable, confirm the Subrecipient has demonstrated sufficient progress in past situations where an extension was authorized by Cal OES.

Extension requests will be granted only due to compelling legal, policy, or operational challenges, must be project-specific and will only be considered for the following reasons:

1. Contractual commitments with vendors that prevent completion of the project within the period of performance;
2. The project must undergo a complex environmental review which cannot be completed within this timeframe;
3. Projects are long-term by design and therefore, acceleration would compromise core programmatic goals; and
4. Where other special circumstances exist.

To be considered, extension requests must be received no later than 60 days prior to the end of the Subrecipient's period of performance and must contain specific and compelling justifications as to why an extension is required. All extension requests must address the following:

1. Grant program, fiscal year, and award number;
2. Reason for delay;
3. Current status of the activity/activities;
4. Approved period of performance termination date and new project completion date;
5. Amount of funds drawn down to date;
6. Remaining available funds, both federal and non-federal;

Extension Requests Cont.

7. Budget outlining how remaining federal and non-federal funds will be expended;
8. Plan for completion, including milestones and timeframes for each milestone and the position/person responsible for implementing the plan for completion; and
9. Certification the activity/activities will be completed within the extended period of performance without any modification to the original Project Scope.

General questions regarding extension requirements and the extension request form, should be directed to your Program Representative. For additional information, please see IB 379. Extension requests for personnel and salaries do not meet the requirements of IB 379 and will not be granted. Subrecipients are expected to complete all grant-funded personnel activities by the end of the subaward period of performance.

Progress Reports on Grant Extensions

All Subrecipients that receive Cal OES approval to extend their FY 2023 Grant Subaward period of performance may be required to submit progress reports indicating completed and future project milestones on all extended projects. Progress reports must be submitted electronically to the Subrecipient's Program Representative. Deadlines for the submission of progress reports will be established at the time of extension approval.

Monitoring

Cal OES Grants Monitoring actively monitors Subrecipients, through day-to-day communications, programmatic site visits, desk, and on-site compliance assessments. The purpose of the compliance assessment is to ensure Subrecipients are in compliance with applicable state and federal regulations, grant guidelines, and programmatic requirements.

Monitoring activities may include, but are not limited to:

- Verifying entries recorded on the FMFW categories are properly supported with source documentation;
- Eligibility of and support for expenditures, typically covering two to three years of data;
- Comparing actual Subrecipient activities to those approved in the grant application and subsequent

Monitoring Cont.

modifications, including the review of timesheets and invoices as applicable;
- Procurements and contracts;
- Ensuring equipment lists are properly maintained and physical inventories are conducted;
- Ensuring advances have been disbursed in accordance with applicable guidelines; and
- Confirming compliance with Standard Assurances; and
- Information provided on performance reports and payment requests

NOTE: It is the responsibility of all Subrecipients that pass down grant funds to other entities, to maintain and utilize a formal process to monitor the grant activities of their subawards. This requirement includes, but is not limited to, on-site verification of grant activities, as required. It is common for Subrecipients to receive findings in a programmatic site visit or compliance assessment, which require a Corrective Action Plan (CAP) to be submitted by Subrecipients. Those Subrecipients who fail to submit a CAP, as required, shall have a "hold" placed on any future reimbursements until the "finding" is resolved.

Failure to Submit Required Reports

Periodic reporting is required by the grant. Subrecipients who miss a single reporting deadline may receive a letter addressed to their Board of Supervisors informing them of the failure to report. County OAs and tribes who fail to report twice consecutively may have subsequent awards reduced by 10% until timely reporting is reestablished; UASIs may have a "hold" placed on any future reimbursements.

Suspension/ Termination

Cal OES may suspend or terminate grant funding, in whole or in part, or other measures may be imposed for any of the following reasons:

- Failure to submit required reports.
- Failure to expend funds in a timely manner consistent with the grant milestones, guidance, and assurances.
- Failure to comply with the requirements or statutory progress toward the goals or objectives of federal or state law.
- Failure to make satisfactory progress toward the goals or objectives set forth in the Subrecipient application.
- Failure to follow Grant Subaward requirements or Special Conditions.

Suspension/

Termination Cont.

- Proposing or implementing substantial plan changes to the extent that, if originally submitted, the application would not have been selected for funding.
- False certification in the application or document.
- Failure to adequately manage, monitor, or direct the grant funding activities of their Subrecipients.

Before taking action, Cal OES will provide the Subrecipient reasonable notice of intent to impose corrective measures and will make every effort to informally resolve the problem.

Closeout

Cal OES will close-out Subrecipient awards when it determines all applicable administrative actions and all required work of the federal award have been completed. Subawards will be closed after:

- All funds have been requested and reimbursed, or disencumbered;
- Receiving all applicable Subrecipient reports indicating all approved work has been completed, and all funds have been distributed;
- Completing a review to confirm the accuracy of reported information;
- Reconciling actual costs to subawards, modifications, and payments; and
- Verifying the Subrecipient has submitted a final BSIR showing all grant funds have been expended.

Records Retention

The records retention period is three years from the date of the Cal OES Grant Closeout letter, or until any pending litigation, claim, or audit started before the expiration of the three-year retention period has been resolved and final action is taken.

For indirect cost rate proposals, cost allocation plans, or other rate computation records, the start of the record retention period is dependent on whether the proposal, plan, or other

computation is required to be submitted to the federal government (or to the pass-through entity) for negotiation purposes. See 2 C.F.R. § 200.334(f).

In order for any cost to be allowable, it must be adequately documented per 2 C.F.R. § 200.403(g).

Records Retention Cont.

The Cal OES Grant Closeout Letter will notify the Subrecipient of the start of the records retention period for all programmatic and financial grant-related records.

If the State Administrative Agency's award remains open after the Subrecipient's submission of the final BSIR, Cal OES will complete any additional BSIR reporting required under the award on behalf of the Subrecipient.

Closed grants may still be monitored and audited. Failure to maintain all grant records for the required retention period could result in a reduction of grant funds, and an invoice to return costs associated with the unsupported activities.

If documents are retained longer than the required retention period, FEMA, the DHS Office of Inspector General, Government Accountability Office, and pass-through entity have the right to access these records as well. See 2 C.F.R. §§ 200.334, 200.336.

LOS ANGELES COUNTY/DEPARTMENT OF AUDITOR-CONTROLLER

SHARED SERVICES DIVISION

GRANT PAYMENT REQUEST

SECTION A: SUBMITTING YOUR REQUEST

Please submit Grant Payment Request Form along with **legible** supporting documents to:

Grants@auditor.lacounty.gov

In the event e-mail is not available, you can mail your Grant payment request to (please do **not** fax or send duplicates):

Department of Auditor-Controller
Shared Services Division / Attn: Grants Unit
320 W. Temple Street, Room 380
Los Angeles, CA 90012

1. Grant Name & Year:

SECTION B: SUB-RECIPIENT'S INFORMATION

1. Sub-recipient's Name: (reimbursement check will be made payable to a payee entered here)	**3.** Taxpayer ID #:	**4.** Contact's Name:
2. Mailing Address (please let us know where you want your check delivered, including attention line if necessary):		**4.** Contact's phone:
		4. Contact's e-mail:

SECTION C: DETAIL PAYMENT REQUEST INFORMATION

1. SOLUTION AREA (e.g. equipment, training, planning, exercise, organization)	2. PROJECT # (e.g. 011.22)	4. EHP required? (Environmental & Historic Preservation)		5. VENDOR'S INVOICE # (Maximum of 5 invoices)	6. PURCHASE METHOD (including Training)			7.CLAIM AMOUNT (indicate the amount per each line)
		No	Yes (attach State Approval)		If Competitive, indicate the # of bids.	Non-Competitive Bid	Sole Source	

COUNTY OF LOS ANGELES
DEPARTMENT OF AUDITOR-CONTROLLER / SHARED SERVICES DIVISION

INSTRUCTIONS TO COMPLETE THE GRANT PAYMENT REQUEST

Purpose of these instructions:

To assist sub-recipients in completing the Grant Payment Request. We appreciate your participation in this program, for questions or suggestions please use our e-mail below to contact us. **Please do not send these instructions to us, they are to be used for your guidance only.**

SECTION A: GENERAL INSTRUCTIONS FOR SUBMISSION OF GRANT PAYMENT REQUEST

In numeral **1** of this section, please enter the name and year of the grant program that you are submitting for payment. In addition, please help us expedite the process of your Homeland Security claims by:

- Completing the Grant payment request correctly and according to these instructions.
- Submitting your Grant payment request using our e-mail --> **Grants@auditor.lacounty.gov** (please do **not** fax documents).
- Sending your Grant payment request only once (we do not require original documents and duplicates will slow down our process).
- Using the checkboxes to ensure all the required supporting documents and files accompany your Grant payment request. Supporting documents are flagged for your convenience with a checkbox within the corresponding areas.
- Ensuring that all documents attached to your Grant payment requests are legible.
- Submitting Grant payment request timely. We do **not** guarantee the process of Grant payment requests that are submitted late or too close to the final due date. Reimbursable expenditures need to be charged within the performance period of the grant and submitted to us as soon as they are incurred.

SECTION B: SUB-RECIPIENT'S INFORMATION

The following numerals provide the instructions to fill in the corresponding numeral in the form:

1. Please enter the name of the agency requesting for payment. The name of the agency should be typed according to its signed agreement and as you need it to appear in the payee line of the reimbursement check.
2. Please enter the complete address (street number and name, city, zip code) and attention line where you will need to receive the reimbursement check. Please note that this is not necessary for L.A. County departments.
3. Please enter the tax ID of the governmental entity requesting payment. Please leave blank for L.A. County departments.
4. Please enter the information of the person that can assist us with detail claim questions.

SECTION C: DETAIL PAYMENT REQUEST INFORMATION:

In order to expedite your Grant payment request, in this area's grid, include a **maximum of five (5) invoices or reimbursements charges (one charge or one invoice per line)**. The invoices or charges need to share the same solution area, project #.

The following numerals provide the instructions to fill in the corresponding numeral in the form:

1. Enter the solution area corresponding to the claim. This information is found in the latest budget of the grant. Examples of solution areas are: equipment, training, planning or exercise.
2. Enter the project # corresponding to the claim. This information is found in the latest budget of the grant. An example of Item # is 17.020.
4. Check with an X under either yes or no according to the claim's Environmental & Historical Preservation (EHP) requirements from the State. EHP approval needs to be obtained from the State **prior** to the start of the project on certain equipment items (see AEL description) or training/exercise projects. Please attach the following:

   a) ☐ **State EHP Approval:** if required by the state for your claim.

SECTION C: (Continued)

5. If the expenditures that you are claiming were purchased thru a vendor or contractor, please enter the invoice # in the grid area. Please note that you are responsible for following acceptable purchasing policies and for documenting your procurement process. Additionally please include the following documentation with your claim:

a) ☐ **Copy of the invoice**: Please attach an invoice that provides sufficient information to be used as a cross reference with the items described in your grant line item and AEL #. When the invoice includes items that are not being claimed or that belong to different claims or grants, please circle and designate on the invoice the items that you are requesting for reimbursement. Each item circled must have a project #, a funding source, and a total. Purchase orders and price quotes will not be accepted in the place of the invoice.

b) ☐ **Copy of the purchase order**

c) ☐ **Print out of the corresponding AEL # (Authorized Equipment List number).** The AEL listing can be found at: https://www.fema.gov/grants/guidance-tools/authorized-equipment-list

d) ☐ **Proof of payment of the invoice:** The proof of payment for L.A. County Departments is the printout from e-CAPS showing that the check cleared the bank. The proof of payment for **other** than L.A. County Department is the corresponding copy of the bank's cleared check .

e) ☐ **Calculations for use tax paid:** When use tax is paid, clearly show the calculations of the use tax in the invoice included in your claim.

f) ☐ **Proof of payment of the use tax**: Please provide official documents which authenticate the remittance of the use tax to the state, the amount and the reference to the invoice being claimed.

g) ☐ **Federal Debarment Listing:** Please provide a screen print out of the queried Federal Debarment Listing at sam.gov/SAM/. The listing needs to be queried **prior** to the selection of the vendor.

6. If you are claiming services, supplies, training related costs, or any other type of items purchased thru a vendor or contractor or government agency, please indicate with an X the method that you used to acquire the items (do **not** leave blank or mark more than one). Please note that competitive bid, non-competitive bid or sole source are the only valid purchasing methods.

a) ☐ **Competitive Bid:** for projects that received more than one bid. Please indicate number of bids received (must be more than one).

b) ☐ **Non-Competitive Bid:** for single bid purchases of $250,000 or more (effective June 21, 2018) to a single vendor or a single project, please attach the approval from the State. The approval needs to be requested from the State **prior** to the start of the project.

c) ☐ **Sole Source:** for non-bid purchases of $250,000 or more effective (June 21, 2018) to a single vendor or a single project, please attach the approval from the State. The approval needs to be requested from the State **prior** to the start of the project.

7. Enter the amount of your claim after you verify that your budget is sufficient to cover your request. When the amount of the budget is not sufficient, please let your Program Coordinator know of the possible need for budget modification.

8. Enter the "Total Amount" by adding the subtotal claims included in each line.

SECTION D: SUB-RECIPIENT'S CERTIFICATION

The following numerals provide the instructions to fill in the corresponding numeral in the form:

1. Please read and check the box provided if you are an authorized signor.

2. Please read and check the box provided if you are an authorized signor.

3. Please sign the Grant payment request if you are an authorized signor of your agency.

4 & 5. When the authorized person is the same as the contact person in Section B you do not need to enter the authorized contact information. If the authorized person and the contact person in Section B are different, please enter all the fields in this area as requested.

ADDITIONAL ITEMS THAT YOU NEED TO ATTACH TO YOUR GRANT PAYMENT REQUEST:

For Equipment Claims:

a) ☐ **Equipment Inventory Listing (Print out & Excel File):** Please include both the printout of the listing and the corresponding excel file with your claim. The excel file is used to submit your claim with the state and the printout as backup document for audits. If there is no serial # for your equipment please assign a valid ID tag, or write "Consumable" (if it applies) or write N/A. please do NOT leave the corresponding space blank. *1 Please refer to the **Instructions to Equip Inty Tab for completion procedures of Equipment Inventory.**

Additionally, please enter the appropriate CBRNE Mission (Chemical, Biological, Radiological, Nuclear, or Explosive) in the column titled "Equipment Description & Quantity". This only applies to vehicles with AEL # 12VE-00-MISS (Vehicle Specialized Mission:CBRNE).

You need to inform us of any changes on the items above *1. This applies to each piece of equipment added in the Inventory Listing, including when the items are disposed and/or no longer useful. We will update the master inventory listing (per grant requirement) according to the information you give us. Please make sure that you include all the attachments that are necessary to provide us with the requested information.

For Training Claims:

a) ☐ **State Sole Source Approval:** If you are claiming training related costs thru a Non-Competitive Bid or Sole Source training provider, regardless the purchased amount, please attach the State's approval (effective December 03, 2018). The approval needs to be requested from the State prior to the start of the project.

b) ☐ **State-Sponsored Training Reporting Form (with the tracking request #):** Please add this form along with the Training Request Form Training Officer (POC), which you completed at the website, to the claim's backup documentation. All the backup documentation submitted for the training claim needs to agree with the training period and the detail description on the Training Reporting Form and the line item of the Grant. Training request #'s must be obtained from the State prior to the start of the project.

c) ☐ **Receipts and paid invoices:** please include the complete copy of the receipts and paid invoices with your claim for itemized costs such as air plane tickets, hotel stays, instructor's fees, workshop cost, facilities fees, consulting services, etc. Additionally, you will need to include the documents requested in numeral 5 under Section C.

If you are including **personnel cost** with your training claim, please add the following:

d) ☐ **Personnel List (Print out & Excel File):** Please include both the printout of the listing and the corresponding excel file with your claim. The excel file is used to submit your claim with the state and the printout as backup document for audits.

e) ☐ **Documents that certify completion of the training:** please attach supporting documents that show the class name, dates of training, # of hours of the training class, printed name and signature of individual taking the class and approval signature from supervisor or trainer (attach the information for backfilled positions also). Examples of documents that certify completion of training are:

- Attendance sheets (signed by employee and instructor)
- Sign in sheets (same as above)
- Signed training certificates

f) ☐ **Summary Listing of Charges:** Please use the **Training Summary Sheet** form provided in this claim packet that **clearly** shows the breakdown of the training charges per employee and that match the total claimed. This form includes the following: employee name, assignment, job title, date, salary, hours claimed, regular rate, overtime rate, employee benefits rate, claim amount per employee, clear calculations of amount claimed per employee and total (equal to the amount claimed).

Please ensure that the Training Summary Sheet is verified/approved by an authorized signatory, with printed name and title, and dated.

g) ☐ **Backup for the Benefits Rate:** If you are adding benefits to your claim, please make sure that you include the official calculation for the rate used.

h) ☐ **Timecards:** Include a printout of the corresponding timecards. Manual timecards need to indicate the # of hours charged per day to the grant, supervisor's signature, employee name and signature. Automatic system generated timecards need to be approved and include the name of the employee and hours charged per day to the grant.

i) ☐ **Explanation of timekeeping codes:** When the supporting documentation (timesheet, payroll register, etc.) includes timekeeping codes please provide a printout with the explanation of the usage as detailed as possible.

j) ☐ **Payroll register:** The payroll register needs to clearly support and explain the amount claimed per employee. It also needs to show the salary, hourly rate, employee benefits and overtime rate.

k) ☐ **Roster of backfilled positions:** When you are claiming overtime for a backfilled position, please attach the backfilled roster to your claim. The roster needs to include the name of the backfilling employees, a short description of duties performed, the corresponding employee whose duties were covered and the dates accordingly. Please make sure that the roster is signed and that you include documentation corresponding to the employee covered by the backfilling position.

For Planning Claims:

a) ☐ **Deliverable (or final product):** Please include with your claim the final product of the planning activity (deliverable) that was identified in the grant award.

b) ☐ **Signed Certificate of Completion:** The certificate of completion can be an e-mail confirming that the planning activity was completed.

c) ☐ **Invoices:** If your planning claim includes charges invoiced by vendors, please see requirements and documents you need to attach to your claim form under Section C (numeral 5 and numeral 6).

d) ☐ **Supporting Documentation for Personnel Cost:** When your planning claim includes personnel cost, please see d) to i) under Training Claim (supporting documents needed) and add to the documentation.

For Exercise Claims:

a) ☐ **Proof of State Approval of After Action Report (AAR):** In order for your AAR to be approved you have to submit it to the State using the ODP Portal (see link below), within 90 days after completion of the exercise. You need to notify the State when the AAR is uploaded so they can proceed with the approval process.

https://hseep.dhs.gov/DHS_SSO/

b) ☐ **Invoices:** If your exercise claim includes charges invoiced by vendors please see requirements and documents you need to attach to your claim form under Section C (numeral 5 and numeral 6).

c) ☐ **Supporting Documentation for Personnel Cost:** When your exercise claim includes personnel cost, please see d) to i) under Training Claim (supporting documents needed) and add to the documentation.

For Organization Claims: Please see above b) and c) under Exercise Claims

GRANT PROPERTY AND EQUIPMENT INVENTORY LISTING

GRANT NAME:
SUB-RECIPIENT: _____
DATE OF REPORT: _____

Grant Year	Project Number	AEL No.	Description of Property	Serial # or Other ID #	SAFECOM Consult (Yes/No/NA)	Source of Property (SHSP or EMPG Grant Program)	Department (Title Holder)	Vendor Name	Invoice Number	Acquisition		% of FED Participation	Location	Use & Condition (N=New, D=Deployed, O=Out of Service, L=Lost,	Disposition	
										Date	Cost				Date	Sale Price

Equipment Inventory Listing
Procedures for Completion

OBJECTIVE: To provide an equipment inventory listing that links the State Homeland Security Workbook, to the Equipment Ledger and to the Equipment Listing to simplify the tracking and accountability; and to eliminate duplication and confusion.

Field	Date Element	Procedure
(1)	Grant Name	SHSP or EMPG
(2)	Sub-Recipient	Name of your agency
(3)	Date of Report	Date report completed {1}
(4)	Grant Year	Grant Year of funds used to purchase equipment
(5)	Project #	Project Number (from Grant Workbook Project Sheets)
(7)	AEL No.	Authorized Equip Listing No (from Grant Workbook)
(8)	Description	Description of the equipment
(9)	Serial # or Other ID #	Serial # or Other identification # used
(10)	Safecom consult	Fill out either by Yes, No, or N/A
(11)	Source of Property	Funding source, i.e, SHSP, EMPG, etc.
(12)	Title Holder	Name of agency (City/Department)
(13)	Vendor Name	Name of the vendor
(14)	Invoice Number	Invoice number
(15)	Acquisition Date	Date equipment acquired
(16)	Acquisition Cost	Cost of the individual equipment item
(17)	% of Fed Part	Fed participation in the cost of equipment
(18)	Location	Location of equipment
(19)	Use & Condition	Use & condition {2}
(20)	Disposition data	Date of disposition
(21)	Sale Price	Sale price, If applicable, or N/A for not applicable

The Equipment Inventory Listing must be completed in its entirety to meet the objective of the form.

Note {1}: This date should be the date the physical inventory of equipment was taken and the results reconciled with the equipment records (at least once every two years).

{2} Indicate: N = New, D = Deployed, O = Out of Service, L = Lost & S = Stolen

8. Notes on Personnel Cost:

In general, costs associated with:

- Work performed under contract for a specific deliverable DOES NOT count against the personnel cap, however,
- Work performed under contract for an undefined period, such as for personnel costs supporting operational activities, including general planning, training or exercise activities DO count against the personnel cap; and
- Work performed by all non-contractor personnel, including for full- or part-time staff and operational overtime DO count against the personnel cap.

The following examples would not count towards the personnel cap:

- Vendor installation of a radio tower;
- Vendor training on new equipment purchased;
- Contractor hired to create an Emergency Operations Plan;
- Contractor hired to provide deliveries of ICS 400; and
- Contractor hired to assist with planning, training, evaluating, and reporting the effectiveness of a specific exercise.

The following examples would count towards the personnel cap:

- Contractor hired to be the State's WMD training instructor with no specific deliverables under contract;
- Contractor hired to facilitate unidentified number of exercises throughout the performance period;
- Contractor hired to be the part-time auditor of Homeland Security Grants throughout the year; and
- Contractor hired to be an intelligence analyst.

Subrecipient Monitoring Instrument

Subrecipient Monitoring Instrument

PROJECT TITLE

Los Angeles County State Homeland Security Program
Monitoring Reports

A. FINANCIAL REPORTING REQUIREMENTS

Objective

To determine that the Subrecipient implemented corrective action to address findings noted in its Single Audit that is related to the Homeland Security Grant.

Verification	Yes	No	Comment
1. Was a Single Audit completed for Grant Year 2014-15 and 2015-16?			
2. If yes, did the Subrecipient forward a copy to the Homeland Security Grant Administrator (HSGA) by March 30th of the year following the audit?			
3. Did the Single Audit(s) identify findings related to the Homeland Security Grant? If yes, please continue. If no, please mark N/A and continue to Section B.			
4. Did the Subrecipient develop a corrective action plan that addresses the finding(s)?			
5. Did the Subrecipient send a copy of a corrective action plan to the HSGA?			
6. Did the Subrecipient implement the corrective action plan?			

B. TRAINING

Objective

To determine that the Training expenditures were appropriately documented and that the activities aligned with the project' s goals and objectives. If the Training activities involved employees, determine if the Subrecipient appropriately documented the Training expenditures using employee timecards, sign-in sheets, and certificates of training. If the Training activities involved using consultants or contractors, determine if the Subrecipient followed the appropriate procurement procedures to hire the consultants or contractors. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Training expenditures? If yes, then continue. If no, continue to next section.			
2. Did the Subrecipient receive prior approval from the State either via email or other documentation and did it include the training course name and number?			
3. If the Training expenditures relate to the use of employees, did the Subrecipient appropriately document the Training expenditures using employee timecards, sign-in sheets and certificates of training?			
4. If Training expenditures relate to the use of consultants/contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
5. Did the Subrecipient accurately report the Training expenditures in their accounting records?			
6. For Projects with overtime expenditures for Training:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records?			

B. TRAINING (Continued)

Verification	Yes	No	Comments
7. For Projects with backfill expenditures for Training:			
a. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
b. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and sign-in sheets?			
c. Did the Subrecipient accurately report the expenditures in their accounting records?			
8. Were employee timecards utilized in Training activities signed and dated by the employee and direct supervisor?			
9. Were the Training expenditures consistent with the State approved grant award and/or post award modification(s)?			
10. Ensure the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports submitted by HSGA:			
a. If the Project prior Grant Year monitoring report finding was resolved, explain resolution, and indicate such in the current report as resolved.			
b. If the Project prior Grant Year report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

C. PLANNING

Objective

To determine that the Planning expenditures were appropriately documented and that the activities aligned with the project's goals and objectives. If the Planning activities involved employees, determine if the Subrecipient appropriately documented the Planning expenditures using employee timecards and sign-in sheets. If the Planning activities involved using consultants or contractors, determine if the Subrecipient followed the appropriate procurement policies. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Planning expenditures? If yes, continue. If no, continue to next section.			
2. Did the Subrecipient appropriately document the Planning expenditures providing copies of the support documentation that indicated the efforts made to produce the final product and a copy of the product produced?			
3. If Planning expenditures relate to the use of employees, did the Subrecipient use employee timecards and sign-in sheets?			
4. If Planning expenditures relate to the use of consultants/contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
5. Did the Subrecipient accurately report the Planning expenditures in their accounting records?			
6. For Projects with overtime expenditures for Planning:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			

C. PLANNING (Continued)

Verification	Yes	No	Comments
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records?			
7. For Projects with backfill expenditures for Planning:			
a. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
b. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and sign-in sheets?			
c. Did the Subrecipient accurately report the backfill expenditures in their accounting records?			
8. Were the employee timecards utilized in Planning activities signed and dated by the employee and direct supervisor?			
9. Were the Planning expenditures consistent with the State approved grant award and/or post award modification(s)?			
10. Ensure the Subrecipient corrected area of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports submitted to HSGA:			
a. If the project prior Grant Year monitoring report finding was resolved, explain resolution, and indicate such in the current report as resolved.			
b. If the project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

D. EQUIPMENT

Objective

To determine that the project Equipment expenditures are supported by invoices and that a listing of the Equipment/property is maintained by the Subrecipient. To determine that the purchases are aligned with the project's goals and objectives. Use Worksheets 2 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Equipment expenditures? If yes, continue. If no, continue to next section.			
2. Did the Subrecipient maintain invoices to support the Equipment expenditures?			
3. Did the Subrecipient follow proper procurement procedures to purchase the Equipment and were the items listed in the federal "Authorized Equipment List" and/or "Standardized Equipment List"?			
4. Did the Subrecipient accurately report the Equipment expenditures in their accounting records?			
5. Did the Subrecipient maintain an Equipment inventory that listed the following: a) Description of Equipment, b) Serial number or other identification number, c) AEL number, d) Fund/source/grant year, e) Title holder, f) 100 percent of federal participation. If no, then identify percentage, g) Acquisition date, h) Acquisition cost, i) Quantity, j) Equipment location, k) Use and condition of Equipment, l) Disposal date and sale price of the Equipment			
6. Did the Subrecipient conduct an inventory of Equipment purchased with Cal/OES grant funds at least once every two years?			

D. EQUIPMENT (Continued)

Verification	Yes	No	Comments
7. Was the Equipment physically inspected to ensure: a. The Equipment existed and agreed to inventory listing? b. The Equipment worked and adequately trained staff are available to operate the Equipment?			
8. Did the Subrecipient maintain Equipment in a secure location?			
9. For property other than Equipment, i.e. supplies, did the Subrecipient have controls and accountability to safeguard and ensure that the items are used and solely for authorized purposes?			
10. For Equipment disposal, if any: a. Was the disposition consistent with federal regulations? b. What is the status of the proceeds received from the disposal?			
11. Did the Subrecipient have a policy for damaged, destroyed, lost or stolen Equipment including but not limited to informing the Cal/OES, steps to replace the Equipment and an investigative process?			
12. Were the Equipment expenditures consistent with State approval grant award and/or post award modification(s)?			
13. Ensure the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports maintained by HSGA: a. If the project prior Grant Year monitoring report finding was resolved, explain resolution, and indicate such in the current report as resolved. b. If the project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

E. EXERCISE

Objective

To determine that the Exercise expenditures were appropriately documented and the activities align with project's goals and objectives. If the Exercise activities involved employees, determine if the Subrecipient appropriately documented the Exercise expenditures using timecards and sign-in sheets. If the Exercise activities involved using consultants or consultants, determine if the Subrecipient followed the appropriate procurement procedure. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Exercise expenditures? If yes, continue. If no, continue to next section.			
2. Did the Subrecipient receive prior approval from the State either via email or other documentation and did it include the Exercise course name and number?			
3. If the Exercise expenditures relate to the use of employees, did the Subrecipient appropriately document the Exercise expenditures using employee timecards, sign-in sheets, and certificates for Exercise?			
4. If the Exercise expenditures relate to the use of consultants/ contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
5. Did the Subrecipient accurately report the Exercise expenditures in their accounting records?			
6. For Projects with overtime expenditures for Exercise:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records?			
c. Did the Subrecipient accurately report the backfill expenditures in their accounting records?			
7. For Projects with backfill expenditures for Exercise:			
a. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
b. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and sign-in sheets?			

E. EXERCISE (Continued)

Verification	Yes	No	Comments
8. Were the employee timecards utilized in the Exercise activities signed and dated by the employee and direct supervisor?			
9. Were the Exercise expenditures consistent with the State approved grant award and/or post award modifications?			
10. Ensure the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports:			
a. If the Project prior Grant Year monitoring report finding was resolved, explain resolution and indicate such in the current report as resolved.			
b. If the Project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.			

F. ORGANIZATION

Objective

To determine that the Organization expenditures were appropriately documented and that the activities align with the project's goals and objectives. If the Organization activities involved employees, determine if the Subrecipient appropriately documented the Organization expenditures using employee timecards and sign-in sheets. If the Organization activities involved using consultants or contractors, determine if the Subrecipient followed the appropriate procurement policies. Use Worksheets 1 and 3 (See Attachment E – Subrecipient Monitoring Worksheets).

Verification	Yes	No	Comments
1. Did the Subrecipient receive funding for Organization expenditures? If so, continue. If no, continue to next section.			
2. If the Organization expenditures relate to the use of employees, did the Subrecipient document the expenditures using employee timecards, sign-in sheets, or with other support documentation that substantiated the expense?			
3. If the Organization expenditures relate to the use of consultants or contractors, did the Subrecipient follow proper procurement procedures to hire the consultants or contractors?			
4. Did the Subrecipient accurately report the Organization expenditures in their accounting records?			
5. For Projects with overtime expenditures for Organization:			
a. Did the Subrecipient maintain employee timecards to appropriately document the overtime expenditures?			
b. Did the Subrecipient accurately report the overtime expenditures in their accounting records.?			

F. ORGANIZATION (Continued)

Verification	Yes	No	Comments
6. For Projects with backfill expenditures for Organization:			
b. Does the Subrecipient have documentation that the backfill expenditures were approved by the State?			
c. Did the Subrecipient appropriately document the backfill expenditures using employee timecards and other payroll documentation?			
7. Were employee timecards utilized in Organization activities signed and dated by the employee and direct supervisor?			
8. Were the Organization expenditures consistent with the State approved grant award and/or post award modification(s)?			
9. Ensure that the Subrecipient corrected areas of noncompliance that remain outstanding and were reported as findings in prior Grant Year monitoring reports maintained by HSGA:			
a. If the Project prior Grant Year monitoring report finding was resolved, explain resolution and indicate such in the current report as resolved.			
b. If the Project prior Grant Year monitoring report finding is not resolved, indicate why it has not been resolved and what the Subrecipient is doing to resolve the prior year finding and indicate such in the current report.

Master Services Agreement

This Master Services Agreement (this "***Agreement***") is entered into by and between Flock Group Inc., a Delaware corporation, with a place of business at 1170 Howell Mill Road NW, Suite 210, Atlanta, GA 30318 ("***Flock***") and the City of Glendora, a municipal corporation, with a place of business at 150 South Glendora Avenue, Glendora, CA 91741 ("***Customer***") (each a "***Party***," and together, the "***Parties***"). This Agreement shall be effective on the date that both Parties have executed it ("***Effective Date***"). The Parties will sign an Order Form ("***Order Form***") which will describe the Flock Services (as defined below) to be performed and the period for performance, attached hereto as **Exhibit A**.

RECITALS

WHEREAS, Flock offers a software and hardware situational awareness solution through Flock's technology platform that upon detection is capable of capturing audio, video, image, and recording data and provide notifications to Customer ("***Notifications***");

WHEREAS, Customer desires access to the Flock Services (defined below) on existing devices, provided by Customer, or Flock provided Flock Hardware (as defined below) in order to create, view, search and archive Footage and receive Notifications, via the Flock Services; and

WHEREAS, Flock desires to provide Customer the Flock Services and any access thereto, subject to the terms and conditions of this Agreement, solely for Permitted Purpose (as defined below).

NOW THEREFORE, in consideration of the mutual promises and covenants set forth herein, the Parties agree as follows:

1. DEFINITIONS

Certain capitalized terms, not otherwise defined herein, have the meanings set forth or cross-referenced in this Section 1.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

1.1 "***Agreement***" means the order form (to be provided as Exhibit A, "Order Form"), together with the terms and conditions set forth herein, and any document therein incorporated by reference in Section 11.4.

1.2 "***Anonymized Data***" means Customer Data permanently stripped of identifying details and any potential personally identifiable information, by commercially available standards which irreversibly alters data in such a way that a data subject (i.e., individual person or entity) can no longer be identified directly or indirectly.

1.3 "***Authorized End User(s)***" means any individual employees, agents, or contractors of Customer accessing or using the Flock Services, under the rights granted to Customer pursuant to this Agreement.

1.4 "***Customer Data***" means the data, media, and content provided by Customer through the Flock Services. For the avoidance of doubt, the Customer Data will include the Footage.

1.5. "***Customer Hardware***" means the third-party camera owned or provided by Customer and any other physical elements that interact with the Embedded Software and the Web Interface to provide the Services.

1.6 "***Embedded Software***" means the Flock proprietary software and/or firmware integrated with or installed on the Flock Hardware or Customer Hardware.

1.7 "***Flock Hardware***" means the Flock device(s), which may include the pole, clamps, solar panel, installation components, and any other physical elements that interact with the Embedded Software and the Web Interface, to provide the Flock Services as specifically set forth in the applicable Order Form.

1.8 "***Flock IP***" means the Flock Services, the Embedded Software, and any intellectual property or proprietary information therein or otherwise provided to Customer and/or its Authorized End Users. Flock IP does not include Footage (as defined below).

1.9 "***Flock Services***" means the provision of Flock's software and hardware situational awareness solution, via the Web Interface, for automatic license plate detection, alerts, audio detection, searching image records, video and sharing Footage.

1.10 "***Footage***" means still images, video, audio, and other data captured by the Flock Hardware or Customer Hardware in the course of and provided via the Flock Services.

1.11 "***Integration Data***" means any distribution of data from a Customer requested third party integration.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

1.12"***Installation Services***" means the services provided by Flock for the installation of Flock Services.

1.13 "***Permitted Purpose***" means for legitimate public safety and/or business purpose, including but not limited to the awareness, prevention, and prosecution of crime; investigations; and prevention of commercial harm, to the extent permitted by law.

1.14 "***Retention Period***" means the time period that the Customer Data is stored within the cloud storage, as specified in the applicable Order Form. Flock deletes all Footage on a rolling thirty (30) day basis, except as otherwise stated on the Order Form. Customer shall be responsible for extracting, downloading and archiving Footage from the Flock Services on its own storage devices.

1.15 "***Web Interface***" means the website(s) or application(s) through which Customer and its Authorized End Users can access the Flock Services.

2. SERVICES AND SUPPORT

2.1 **Provision of Access.** Flock hereby grants to Customer a non-exclusive, non-transferable right to access the features and functions of the Flock Services via the Web Interface during the Term, solely for the Authorized End Users. The Footage will be available for Authorized End Users to access and download via the Web Interface for the Retention Period. Authorized End Users will be required to sign up for an account and select a password and username ("***User ID***"). Customer shall be responsible for all acts and omissions of Authorized End Users. Customer shall undertake reasonable efforts to make all Authorized End Users aware of all applicable provisions of this Agreement and shall cause Authorized End Users to comply with such provisions. Flock may use the services of one or more third parties to deliver any part of the Flock Services, (such as using a third party to host the Web Interface for cloud storage or a cell phone provider for wireless cellular coverage).

2.2 **Embedded Software License.** Flock grants Customer a limited, non-exclusive, non-transferable, non-sublicensable (except to the Authorized End Users), revocable right to use the Embedded Software as it pertains to Flock Services, solely as necessary for Customer to use the Flock Services.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

2.3 **Support Services.** Flock shall monitor the Flock Services, and any applicable device health, in order to improve performance and functionality. Flock will use commercially reasonable efforts to respond to requests for support within seventy-two (72) hours. Flock will provide Customer with reasonable technical and on-site support and maintenance services in-person, via phone or by email at support@flocksafety.com (such services collectively referred to as ***"Support Services"***).

2.4 **Updates to Platform.** Flock may make any updates to system or platform that it deems necessary or useful to (i) maintain or enhance the quality or delivery of Flock's products or services to its agencies, the competitive strength of, or market for, Flock's products or services, such platform or system's cost efficiency or performance, or (ii) to comply with applicable law. Parties understand that such updates are necessary from time to time and will not diminish the quality of the services or materially change any terms or conditions within this Agreement.

2.5 **Service Interruption.** Services may be interrupted in the event that: (a) Flock's provision of the Flock Services to Customer or any Authorized End User is prohibited by applicable law; (b) any third-party services required for Flock Services are interrupted; (c) if Flock Services are being used for malicious, unlawful, or otherwise unauthorized use; (d) there is a threat or attack on any of the Flock IP by a third party; or (e) scheduled or emergency maintenance ("***Service Interruption***"). Flock will make commercially reasonable efforts to provide written notice of any Service Interruption to Customer, to provide updates, and to resume providing access to Flock Services as soon as reasonably possible after the event giving rise to the Service Interruption is cured. Flock will have no liability for any damage, liabilities, losses (including any loss of data or profits), or any other consequences that Customer or any Authorized End User may incur as a result of a Service Interruption. To the extent that the Service Interruption is not caused by Customer's direct actions or by the actions of parties associated with the Customer, the time will be tolled by the duration of the Service Interruption (for any continuous suspension lasting at least one full day). For example, in the event of a Service Interruption lasting five (5) continuous days, Customer will receive a credit for five (5) free days at the end of the Term.

2.6 **Service Suspension.** Flock may temporarily suspend Customer's and any Authorized End User's access to any portion or all of the Flock IP or Flock Service if (a) there is a threat or attack on any of the Flock IP by Customer; (b) Customer's or any Authorized End User's use of the Flock IP disrupts or poses a security risk to the Flock IP or any other customer or vendor of

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Flock; (c) Customer or any Authorized End User is/are using the Flock IP for fraudulent or illegal activities; (d) Customer has violated any term of this provision, including, but not limited to, utilizing Flock Services for anything other than the Permitted Purpose; or (e) any unauthorized access to Flock Services through Customer's account ("***Service Suspension***"). Customer shall not be entitled to any remedy for the Service Suspension period, including any reimbursement, tolling, or credit. If the Service Suspension was not caused by Customer, the Term will be tolled by the duration of the Service Suspension.

2.7 **Hazardous Conditions.** Flock Services do not contemplate hazardous materials, or other hazardous conditions, including, without limit, asbestos, lead, or toxic or flammable substances. In the event any such hazardous materials are discovered in the designated locations in which Flock is to perform services under this Agreement, Flock shall have the right to cease work immediately.

3. CUSTOMER OBLIGATIONS

3.1 **Customer Obligations.** Flock will assist Customer Authorized End Users in the creation of a User ID. Authorized End Users agree to provide Flock with accurate, complete, and updated registration information. Authorized End Users may not select as their User ID, a name that they do not have the right to use, or any other name with the intent of impersonation. Customer and Authorized End Users may not transfer their account to anyone else without prior written permission of Flock. Authorized End Users shall not share their account username or password information and must protect the security of the username and password. Unless otherwise stated and defined in this Agreement, Customer shall not designate Authorized End Users for persons who are not officers, employees, or agents of Customer. Authorized End Users shall only use Customer-issued email addresses for the creation of their User ID. Customer is responsible for any Authorized End User activity associated with its account. Customer shall ensure that Customer provides Flock with up-to-date contact information at all times during the Term of this Agreement. Customer shall be responsible for obtaining and maintaining any equipment and ancillary services needed to connect to, access or otherwise use the Flock Services (e.g., laptops, internet connection, mobile devices, etc.). Customer shall (at its own expense) provide Flock with reasonable access and use of Customer facilities and Customer personnel in order to enable

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Flock to perform the Flock Services (such obligations of Customer are collectively defined as ***"Customer Obligations"***).

3.2 **Customer Representations and Warranties.** Customer represents, covenants, and warrants that Customer shall use Flock Services only in compliance with this Agreement and all applicable laws and regulations, including but not limited to any laws relating to the recording or sharing of data, video, photo, or audio content.

4. DATA USE AND LICENSING

4.1 **Customer Data.** As between Flock and Customer, all right, title and interest in the Customer Data, belong to and are retained solely by Customer. Customer hereby grants to Flock a limited, non-exclusive, royalty-free, irrevocable, worldwide license to use the Customer Data and perform all acts as may be necessary for Flock to provide the Flock Services to Customer. Flock does not own and shall not sell Customer Data.

4.2 **Customer Generated Data.** Flock may provide Customer with the opportunity to post, upload, display, publish, distribute, transmit, broadcast, or otherwise make available, messages, text, illustrations, files, images, graphics, photos, comments, sounds, music, videos, information, content, ratings, reviews, data, questions, suggestions, or other information or materials produced by Customer (**"*Customer Generated Data"***). Customer shall retain whatever legally cognizable right, title, and interest in Customer Generated Data. Customer understands and acknowledges that Flock has no obligation to monitor or enforce Customer's intellectual property rights of Customer Generated Data. Customer grants Flock a non-exclusive, irrevocable, worldwide, royalty-free, license to use the Customer Generated Data for the purpose of providing Flock Services. Flock does not own and shall not sell Customer Generated Data.

4.3 **Anonymized Data.** Flock shall have the right to collect, analyze, and anonymize Customer Data and Customer Generated Data to the extent such anonymization renders the data non-identifiable to create Anonymized Data to use and perform the Flock Services and related systems and technologies, including the training of machine learning algorithms. Customer hereby grants Flock a non-exclusive, worldwide, perpetual, royalty-free right to use and distribute such Anonymized Data to improve and enhance the Flock Services and for other development, diagnostic and corrective purposes, and other Flock offerings. Parties understand

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

that the aforementioned license is required for continuity of the Flock Services. Flock does not own and shall not sell Anonymized Data.

4.4 **Data Distribution**. Customer may, upon request, choose to integrate Flock Services with a third party to either distribute Integration Data or Customer Data (such third party, "***Recipient***"). Upon such request, Customer hereby grants to Flock a non-exclusive, non-transferable, royalty-free, perpetual license to access, share, view, record, duplicate, store, save, reproduce, modify, display, and distribute Customer Data and/or Integration Data, as required by the requested distribution. Customer acknowledges that such data may be viewed, recorded, duplicated, stored, saved, reproduced, modified, displayed, distributed, and retained by Recipient for a period longer than Flock's standard retention period and hereby provides consent to such retention period. Unless expressly listed in the Order Form, the provision, access, or use of any Application Programming Interfaces ("APIs") is not included under this Agreement. Any rights, licenses, or obligations related to APIs shall be governed solely by the terms set forth in the Order Form or a separate agreement between the parties.

5. CONFIDENTIALITY; DISCLOSURES

5.1 **Confidentiality.** To the extent required by any applicable public records request, each Party (the "***Receiving Party***") understands that the other Party (the "***Disclosing Party***") has disclosed or may disclose business, technical or financial information relating to the Disclosing Party's business (hereinafter referred to as "***Proprietary Information***" of the Disclosing Party). Proprietary Information of Flock includes non-public information provided by the Disclosing Party to the Receiving Party regarding features, functionality and performance of this Agreement. Proprietary Information of Customer includes non-public data provided by Customer to Flock or collected by Flock via Flock Services, which includes but is not limited to geolocation information and environmental data collected by sensors. The Receiving Party agrees: (i) to take the same security precautions to protect against disclosure or unauthorized use of such Proprietary Information that the Party takes with its own proprietary information, but in no event less than commercially reasonable precautions, and (ii) not to use (except in performance of the Flock Services or as otherwise permitted herein) or divulge to any third person any such Proprietary Information, unless otherwise required by law or compelled by a court of competent jurisdiction. The Disclosing Party agrees that the foregoing shall not apply

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

with respect to any information that the Receiving Party can document (a) is or becomes generally available to the public; or (b) was in its possession or known by it prior to receipt from the Disclosing Party; or (c) was rightfully disclosed to it without restriction by a third party; or (d) was independently developed without use of any Proprietary Information of the Disclosing Party. Nothing in this Agreement will prevent the Receiving Party from disclosing the Proprietary Information pursuant to any judicial or governmental order, provided that the Receiving Party gives the Disclosing Party reasonable prior notice of such disclosure to contest such order. At the termination of this Agreement, all Proprietary Information will be returned to the Disclosing Party, destroyed or erased (if recorded on an erasable storage medium), together with any copies thereof, when no longer needed for the purposes above, or upon request from the Disclosing Party, and in any case upon termination of the Agreement. Notwithstanding any termination, all confidentiality obligations of Proprietary Information that is trade secret shall continue in perpetuity or until such information is no longer trade secret.

5.2 **Usage Restrictions on Flock IP.** Flock and its licensors retain all right, title and interest in and to the Flock IP and its components, and Customer acknowledges that it neither owns nor acquires any additional rights in and to the foregoing not expressly granted by this Agreement. Customer further acknowledges that Flock retains the right to use the foregoing for any purpose in Flock's sole discretion. Customer and Authorized End Users shall not: (i) directly or indirectly, reverse engineer, decompile, disassemble, or otherwise attempt to discover, or recreate the source code, object code or underlying structure, ideas or algorithm of the Flock Services or any software provided hereunder; modify, translate, or create derivative works based on the Flock Services or any software provided hereunder, (ii) attempt to modify, alter, tamper with or repair any of the Flock IP, or attempt to create any derivative product from any of the foregoing; (iii) interfere or attempt to interfere in any manner with the functionality or proper working of any of the Flock IP; (iv) remove, obscure, or alter any notice of any intellectual property or proprietary right appearing on or contained within the Flock Services or Flock IP; (v) use the Flock Services for anything other than the Permitted Purpose; or (vi) assign, sublicense, sell, resell, lease, rent, or otherwise transfer, convey, pledge as security, or otherwise encumber, Customer's rights. There are no implied rights.

5.3 **Disclosure of Footage.** Subject to and during the Retention Period, Flock may access, use, preserve and/or disclose the Footage to law enforcement authorities, government officials, and/or

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

third parties, if legally required to do so or if Flock has a good faith belief that such access, use, preservation or disclosure is reasonably necessary to comply with a legal process, enforce this Agreement, or detect, prevent or otherwise address security, privacy, fraud or technical issues, or emergency situations.

6. PAYMENT OF FEES

6.1 **Billing and Payment of Fees**. Customer shall pay the fees set forth in the applicable Order Form based on the billing structure and payment terms as indicated in the Order Form. To the extent the Order Form is silent, Customer shall pay all invoices net thirty (30) days from the date of receipt. If Customer believes that Flock has billed Customer incorrectly, Customer must contact Flock no later than thirty (30) days after the closing date on the first invoice in which the error or problem appeared to receive an adjustment or credit. Customer acknowledges and agrees that a failure to contact Flock within this period will serve as a waiver of any claim. If any undisputed fee is more than thirty (30) days overdue, Flock may, without limiting its other rights and remedies, suspend delivery of its service until such undisputed invoice is paid in full. Flock shall provide at least thirty (30) days' prior written notice to Customer of the payment delinquency before exercising any suspension right.

6.2 **Notice of Changes to Fees.** In the event of any changes to fees, Flock shall provide Customer with sixty (60) days notice (email sufficient) prior to the end of the Initial Term or Renewal Term (as applicable). Any such changes to fees shall only impact subsequent Renewal Terms.

6.3 **Taxes.** To the extent Customer is not a tax exempt entity, Customer is responsible for all taxes, levies, or duties, excluding only taxes based on Flock's net income, imposed by taxing authorities associated with the order. If Flock has the legal obligation to pay or collect taxes, including amount subsequently assessed by a taxing authority, for which Customer is responsible, the appropriate amount shall be invoice to and paid by Customer unless Customer provides Flock a legally sufficient tax exemption certificate and Flock shall not charge Customer any taxes from which it is exempt. If any deduction or withholding is required by law, Customer shall notify Flock and shall pay Flock any additional amounts necessary to ensure that the net amount that Flock receives, after any deduction and withholding, equals the amount Flock would have received if no deduction or withholding had been required.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

7. TERM AND TERMINATION

7.1 **Term.** The "***Initial Term***" of this Agreement shall be for the period of time set forth on the Order Form (the "***Term***"). Unless otherwise indicated on the Order Form, the Term shall commence upon first installation of Flock Hardware, as applicable. Following the Term, unless otherwise indicated on the Order Form, this Agreement will automatically renew for successive renewal terms of the greater of one year or the length set forth on the Order Form (each, a "***Renewal Term***") unless either Party gives the other Party notice of non-renewal at least thirty (30) days prior to the end of the then-current term.

7.2 **Termination.** Upon termination or expiration of this Agreement, Flock will remove any applicable Flock Hardware at a commercially reasonable time period. In the event of any material breach of this Agreement, the non-breaching Party may terminate this Agreement prior to the end of the Term by giving thirty (30) days prior written notice to the breaching Party; provided, however, that this Agreement will not terminate if the breaching Party has cured the breach prior to the expiration of such thirty (30) day period ("***Cure Period***"). Either Party may terminate this Agreement (i) upon the institution by or against the other Party of insolvency, receivership or bankruptcy proceedings, (ii) upon the other Party's making an assignment for the benefit of creditors, or (iii) upon the other Party's dissolution or ceasing to do business. In the event of a material breach by Flock, and Flock is unable to cure within the Cure Period, Flock will refund Customer a pro-rata portion of the pre-paid fees for Flock Services not received due to such termination.

7.3 **Survival**. The following Sections will survive termination: 1, 3, 5, 6, 7, 8.3, 8.4, 9, 10.1 and 11.6.

8. REMEDY FOR DEFECT; WARRANTY AND DISCLAIMER

8.1 **Manufacturer Defect.** Upon a malfunction or failure of Flock Hardware or Embedded Software (a **"*Defect***"), Customer must notify Flock's technical support team. In the event of a Defect, Flock shall make a commercially reasonable attempt to repair or replace the defective Flock Hardware at no additional cost to the Customer. Flock reserves the right, in its sole discretion, to repair or replace such Defect, provided that Flock shall conduct inspection or

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

testing within a commercially reasonable time, but no longer than seven (7) business days after Customer gives notice to Flock.

8.2 **Replacements.** In the event that Flock Hardware is lost, stolen, or damaged, Customer may request a replacement of Flock Hardware at a fee according to the reinstall fee schedule (https://www.flocksafety.com/reinstall-fee-schedule). In the event that Customer chooses not to replace lost, damaged, or stolen Flock Hardware, Customer understands and agrees that Flock is not liable for any resulting impact to Flock Service, nor shall Customer receive a refund for the lost, damaged, or stolen Flock Hardware.

8.3 **Warranty.** Flock shall use reasonable efforts consistent with prevailing industry standards to maintain the Flock Services in a manner which minimizes errors and interruptions in the Flock Services and shall perform the Installation Services in a professional and workmanlike manner. The Flock Services may be temporarily unavailable for scheduled maintenance or for unscheduled emergency maintenance, either by Flock or by third-party providers, or because of other causes beyond Flock's reasonable control, but Flock shall use reasonable efforts to provide advance notice in writing or by e-mail of any scheduled service disruption.

8.4 **Disclaimer.** THE REMEDY DESCRIBED IN SECTION 8.1 ABOVE IS CUSTOMER'S SOLE REMEDY, AND FLOCK'S SOLE LIABILITY, WITH RESPECT TO DEFECTS. FLOCK IS NOT LIABLE FOR ANY DAMAGES OR ISSUES ARISING FROM THIRD-PARTY DISTRIBUTIONS REQUESTED BY CUSTOMER. AFOREMENTIONED DISTRIBUTION IS AT CUSTOMER'S OWN RISK. FLOCK DOES NOT WARRANT THAT THE FLOCK SERVICES WILL BE UNINTERRUPTED OR ERROR FREE; NOR DOES IT MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM USE OF THE FLOCK SERVICES. EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, THE FLOCK SERVICES ARE PROVIDED "AS IS" AND FLOCK DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THIS DISCLAIMER ONLY APPLIES TO THE EXTENT ALLOWED BY THE GOVERNING LAW OF THE STATE MENTIONED IN SECTION 11.6.

8.5 **Insurance.** Flock will maintain commercial general liability policies to be provided as set forth in Exhibit B attached hereto.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

8.6 **Force Majeure.** Parties are not responsible or liable for any delays or failures in performance from any cause beyond their control, including, but not limited to acts of God, changes to law or regulations, embargoes, war, terrorist acts, pandemics (including the spread of variants), issues of national security, acts or omissions of third-party technology providers, riots, fires, earthquakes, floods, power blackouts, strikes, supply chain shortages of equipment or supplies, financial institution crisis, weather conditions or acts of hackers, internet service providers or any other third party acts or omissions.

9. LIMITATION OF LIABILITY; INDEMNITY

9.1 **Limitation of Liability.** NOTWITHSTANDING ANYTHING TO THE CONTRARY, FLOCK, ITS OFFICERS, AFFILIATES, REPRESENTATIVES, CONTRACTORS AND EMPLOYEES SHALL NOT BE RESPONSIBLE OR LIABLE WITH RESPECT TO ANY SUBJECT MATTER OF THIS AGREEMENT OR TERMS AND CONDITIONS RELATED THERETO UNDER ANY CONTRACT, NEGLIGENCE, STRICT LIABILITY, PRODUCT LIABILITY, OR OTHER THEORY: (A) FOR LOSS OF REVENUE, BUSINESS OR BUSINESS INTERRUPTION; (B) INCOMPLETE, CORRUPT, OR INACCURATE DATA; (C) COST OF PROCUREMENT OF SUBSTITUTE GOODS, SERVICES OR TECHNOLOGY; (D) FOR ANY INDIRECT, EXEMPLARY, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES; (E) FOR ANY MATTER BEYOND FLOCK'S ACTUAL KNOWLEDGE OR REASONABLE CONTROL INCLUDING REPEAT CRIMINAL ACTIVITY OR INABILITY TO CAPTURE FOOTAGE; OR (F) FOR ANY AMOUNTS THAT, TOGETHER WITH AMOUNTS ASSOCIATED WITH ALL OTHER CLAIMS, EXCEED TWO (2) TIMES THE FEES PAID AND/OR PAYABLE BY CUSTOMER TO FLOCK FOR THE SERVICES UNDER THIS AGREEMENT IN THE TWELVE (12) MONTHS PRIOR TO THE ACT OR OMISSION THAT GAVE RISE TO THE LIABILITY, IN EACH CASE, WHETHER OR NOT FLOCK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY OF SECTION ONLY APPLIES TO THE EXTENT ALLOWED BY THE GOVERNING LAW OF THE STATE REFERENCED IN SECTION 11.6. NOTWITHSTANDING ANYTHING TO THE CONTRARY, THE FOREGOING LIMITATIONS OF LIABILITY SHALL NOT APPLY (I)

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

IN THE EVENT OF GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, OR (II) INDEMNIFICATION OBLIGATIONS.

9.2 **Responsibility.** Each Party to this Agreement shall assume the responsibility and liability for the acts and omissions of its own employees, officers, or agents, in connection with the performance of their official duties under this Agreement. Each Party to this Agreement shall be liable for the torts of its own officers, agents, or employees.

9.3 **Flock Indemnity.** Flock shall indemnify and hold harmless Customer, its agents and employees, from liability of any kind, including claims, costs (including defense) and expenses, on account of: (i) any copyrighted material, patented or unpatented invention, articles, device or appliance manufactured or used in the performance of this Agreement; or (ii) any damage or injury to property or person directly caused by Flock's installation of Flock Hardware, except for where such damage or injury was caused solely by the negligence of the Customer or its agents, officers or employees; or (iii) the gross negligence or willful misconduct of Flock with respect to the Flock Services. Flock's performance of this indemnity obligation shall not exceed two (2) times the fees paid and/or payable for the services rendered under this Agreement in the preceding twelve (12) months.

10. INSTALLATION SERVICES AND OBLIGATIONS

10.1 **Ownership of Hardware**. Flock Hardware is owned and shall remain the exclusive property of Flock. Title to any Flock Hardware shall not pass to Customer upon execution of this Agreement, except as otherwise specifically set forth in this Agreement. Except as otherwise expressly stated in this Agreement, Customer is not permitted to remove, reposition, re-install, tamper with, alter, adjust or otherwise take possession or control of Flock Hardware. Customer agrees and understands that in the event Customer is found to engage in any of the foregoing restricted actions, all warranties herein shall be null and void, and this Agreement shall be subject to immediate termination for material breach by Customer. Customer shall not perform any acts which would interfere with the retention of title of the Flock Hardware by Flock. Should Customer default on any payment of the Flock Services, Flock may remove Flock Hardware at Flock's discretion. Such removal, if made by Flock, shall not be deemed a waiver of Flock's rights to any damages Flock may sustain as a result of Customer's default and Flock shall have the right to enforce any other legal remedy or right.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

10.2 **Deployment Plan**. Flock shall advise Customer on the location and positioning of the Flock Hardware for optimal product functionality, as conditions and locations allow. Flock will collaborate with Customer to design the strategic geographic mapping of the location(s) and implementation of Flock Hardware to create a deployment plan ("***Deployment Plan***"). In the event that Flock determines that Flock Hardware will not achieve optimal functionality at a designated location, Flock shall have final discretion to veto a specific location, and will provide alternative options to Customer.

10.3 **Changes to Deployment Plan.** After installation of Flock Hardware, any subsequent requested changes to the Deployment Plan, including, but not limited to, relocating, re-positioning, adjusting of the mounting, removing foliage, replacement, changes to heights of poles will incur a fee according to the reinstall fee schedule located at (https://www.flocksafety.com/reinstall-fee-schedule). Customer will receive prior notice and confirm approval of any such fees.

10.4 **Customer Installation Obligations**. Customer is responsible for any applicable supplementary cost as described in the Customer Implementation Guide, attached hereto as Exhibit C. Customer represents and warrants that it has, or shall lawfully obtain, all necessary right title and authority and hereby authorizes Flock to install the Flock Hardware at the designated locations and to make any necessary inspections or maintenance in connection with such installation.

10.5 **Flock's Obligations**. Installation of any Flock Hardware shall be installed in a professional manner within a commercially reasonable time from the Effective Date of this Agreement. Upon removal of Flock Hardware, Flock shall restore the location to its original condition, ordinary wear and tear excepted. Flock will continue to monitor the performance of Flock Hardware for the length of the Term. Flock may use a subcontractor or third party to perform certain obligations under this Agreement, provided that Flock's use of such subcontractor or third party shall not release Flock from any duty or liability to fulfill Flock's obligations under this Agreement.

11. MISCELLANEOUS

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

11.1 **Compliance with Laws.** Parties shall comply with all applicable local, state and federal laws, regulations, policies and ordinances and their associated record retention schedules, including responding to any subpoena request(s).

11.2 **Severability.** If any provision of this Agreement is found to be unenforceable or invalid, that provision will be limited or eliminated to the minimum extent necessary so that this Agreement will otherwise remain in full force and effect.

11.3 **Assignment.** This Agreement is not assignable, transferable or sublicensable by either Party, without prior consent. Notwithstanding the foregoing, either Party may assign this Agreement, without the other Party's consent, (i) to any parent, subsidiary, or affiliate entity with such Party, or (ii) to any purchaser of all or substantially all of such Party's assets or to any successor by way of merger, consolidation or similar transaction.

11.4 **Entire Agreement.** This Agreement, together with the Order Form(s), the reinstall fee schedule (https://www.flocksafety.com/reinstall-fee-schedule), and any attached exhibits are the complete and exclusive statement of the mutual understanding of the Parties and supersedes and cancels all previous or contemporaneous negotiations, discussions or agreements, whether written and oral, communications and other understandings relating to the subject matter of this Agreement. All waivers and modifications must be in a writing signed by both Parties, except as otherwise provided herein. None of Customer's purchase orders, authorizations or similar documents will alter the terms of this Agreement, and any such conflicting terms are expressly rejected. Any mutually agreed upon future purchase order is subject to these legal terms and does not alter the rights and obligations under this Agreement, except that future purchase orders may outline additional products, services, quantities and billing terms to be mutually accepted by Parties. In the event of any conflict of terms found in this Agreement or any other terms and conditions, the terms of this Agreement shall prevail. Customer agrees that Customer's purchase is neither contingent upon the delivery of any future functionality or features nor dependent upon any oral or written comments made by Flock with respect to future functionality or feature.

11.5 **Relationship.** No agency, partnership, joint venture, or employment is created as a result of this Agreement and Parties do not have any authority of any kind to bind each other in any respect whatsoever. Flock shall at all times be and act as an independent contractor to Customer.

11.6 **Governing Law; Venue.** This Agreement shall be governed by the laws of the state in which the Customer is located. The Parties hereto agree that venue would be proper in the

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

chosen courts of the State of which the Customer is located. The Parties agree that the United Nations Convention for the International Sale of Goods is excluded in its entirety from this Agreement.

11.7 **Special Terms.** Flock may offer certain special terms which are indicated in the Order Form and will become part of this Agreement, upon Customer's prior written consent and the mutual execution by authorized representatives ("***Special Terms***"). To the extent that any terms of this Agreement are inconsistent or conflict with the Special Terms, the Special Terms shall control.

11.8 **Publicity.** Upon prior written consent, Flock has the right to reference and use Customer's name and disclose the nature of the Flock Services in business and development and marketing efforts. Nothing contained in this Agreement shall be construed as conferring on any Party, any right to use the other Party's name as an endorsement of product/service.

11.9 **Feedback.** If Customer or Authorized End User provides any suggestions, ideas, enhancement requests, feedback, recommendations or other information relating to the subject matter hereunder, Customer or Authorized End User hereby assigns to Flock all right, title and interest (including intellectual property rights) with respect to or resulting from any of the foregoing.

11.10 **Export.** Customer may not remove or export from the United States or allow the export or re-export of the Flock IP or anything related thereto, or any direct product thereof in violation of any restrictions, laws or regulations of the United States Department of Commerce, the United States Department of Treasury Office of Foreign Assets Control, or any other United States or foreign Customer or authority. As defined in Federal Acquisition Regulation ("FAR"), section 2.101, the Flock Services, the Flock Hardware and Documentation are "commercial items" and according to the Department of Defense Federal Acquisition Regulation ("DFAR") section 252.2277014(a)(1) and are deemed to be "commercial computer software" and "commercial computer software documentation." Flock is compliant with FAR Section 889 and does not contract or do business with, use any equipment, system, or service that uses the enumerated banned Chinese telecommunication companies, equipment or services as a substantial or essential component of any system, or as critical technology as part of any Flock system. Consistent with DFAR section 227.7202 and FAR section 12.212, any use, modification, reproduction, release, performance, display, or disclosure of such commercial software or

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

commercial software documentation by the U.S. Government will be governed solely by the terms of this Agreement and will be prohibited except to the extent expressly permitted by the terms of this Agreement.

11.11 **Headings.** The headings are merely for organization and should not be construed as adding meaning to the Agreement or interpreting the associated sections.

11.12 **Authority.** Each of the below signers of this Agreement represent that they understand this Agreement and have the authority to sign on behalf of and bind the Parties they are representing upon the Effective Date. This Agreement shall be binding upon the heirs, executors, administrators, successors and assigns of the Parties.

11.13 **Conflict.** In the event there is a conflict between this Agreement and any applicable statement of work, or Customer purchase order, this Agreement controls unless explicitly stated otherwise.

11.14 **Notices.** All notices under this Agreement will be in writing and will be deemed to have been duly given when received, if personally delivered; when receipt is electronically confirmed, if transmitted by email; the day after it is sent, if sent for next day delivery by recognized overnight delivery service; and upon receipt to the address listed on the Order Form (or, if different, below), if sent by certified or registered mail, return receipt requested. All notices will be provided to the email or mailing address listed in the Order Form.

11.15 **Non-Appropriation.** Notwithstanding any other provision of this Agreement, all obligations of the Customer under this Agreement which require the expenditure of public funds are conditioned on the availability of said funds appropriated for that purpose. To the extent applicable, Customer shall have the right to terminate this Agreement for non-appropriation with thirty (30) days written notice without penalty or other cost.

11.16 **Counterpart**s. This Agreement may be executed in counterparts, each of which shall be deemed to be an original, and such counterparts shall constitute one and the same instrument. Each of the Parties intend to be bound by the signatures on any telecopied, .pdf or other electronically delivered document, and are aware that the other party will rely on the telecopied, .pdf or other electronically delivered signatures, and hereby waive any defenses to the enforcement of the terms of this Agreement based on the form of signature.

INSURANCE

Required Coverage. Flock shall procure and maintain for the duration of this Agreement insurance against claims for injuries to persons or damages to property that may arise from or in connection with the performance of the Flock Services under this Agreement and the results of that work by Flock or its agents, representatives, employees or subcontractors. Insurance shall be placed with insurers with a current A. M. Best rating of no less than "A" and "VII". Flock shall obtain and, during the term of this Agreement, shall maintain policies of professional liability (errors and omissions), automobile liability, and general liability insurance for insurable amounts of not less than the limits listed herein. The insurance policies shall provide that the policies shall remain in full force during the life of the Agreement. Flock shall procure and shall maintain during the life of this Agreement Worker's Compensation insurance as required by applicable State law for all Flock employees. For the avoidance of doubt, (i) all required insurance limits by Customer can be met through a combination of primary and excess/umbrella coverage, and (ii) Flock's Cyber and Professional Liability/Errors and Omissions insurance has a shared limit of Five Million Dollars (5,000,000) per incident and in the aggregate.

Types and Amounts Required. Flock shall maintain, at minimum, the following insurance coverage for the duration of this Agreement:

(i) **Commercial General Liability** insurance written on an occurrence basis with minimum limits of One Million Dollars ($1,000,000) per occurrence and Two Million Dollars ($2,000,000) in the aggregate for bodily injury, death, and property damage, including personal injury, contractual liability, independent contractors, broad-form property damage, and product and completed operations coverage;

(ii) **Workers Compensation** insurance in accordance with statutory limits;

(iii) **Professional Liability/Errors and Omissions** insurance with minimum limits of Five Million Dollars ($5,000,000) per occurrence and Five Million Dollars ($5,000,000) in the aggregate;

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

(iv) **Commercial Automobile Liability** insurance with a minimum combined single limit of One Million Dollars ($1,000,000) per occurrence for bodily injury, death, and property coverage, including owned and non-owned and hired automobile coverage; and

(v) **Cyber Liability** insurance written on an occurrence basis with minimum limits of Five Million Dollars ($5,000,000).

Implementation Timeline

This timeline provides general guidance and understanding of your installation process. While we typically complete installations 6-8 weeks after locations have been finalized, delays can occur as noted in the timeline below:

REVIEW LOCATIONS

Confirm Camera Locations With Your Sales Representative

FLOCK: Your sales representative will present several viable options for camera locations

CUSTOMER: Review Deployment Plan & approve camera locations

PLEASE NOTE: If Public Works is required to move forward, please obtain approval

FINALIZE LOCATIONS

Prepare For Finalized Camera Locations

FLOCK: Confirm Deployment Plane and signed agreement. Flock will move forward with next steps for locations that don't need permits (minimum 10 locations needed to move forward with partial installation)

CUSTOMER: Prepare the below items, as needed

- **If permits are required, begin application process**
- **If camera will be AC-powered, hire an electrician/street department**

STEP 1

Conduct On-site Survey & Place Flags

FLOCK: Flock technician conducts site survey to (1) evaluate/reconfirm solar or power access, (2) check line of sight to the road, and (3) evaluate/reconfirm cellular service in the area. When the technician deems the locations suitable, s/he will place a white flag at each spot

PLEASE NOTE: If the initially determined locations don't meet Flock standards, we will evaluate a new location, obtain customer approval, and redo a site survey. This may push timeline for installation

STEP 2

Call 811

FLOCK: Flock Safety will coordinate with Call 811 to mark each camera location for underground utilities within a 10-foot radius

PLEASE NOTE: Call 811 is a government service, so turnaround times may vary and is outside of Flock control

STEP 3

Schedule Installation

FLOCK: Flock will (1) ship any site specific material that the technician does not have locally (2) schedule the installation date

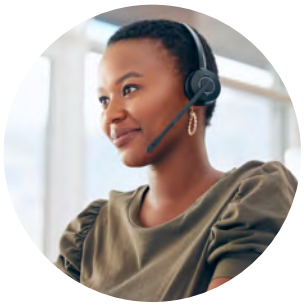
STEP 4

Install & Validate Cameras

FLOCK: After installation, your Onboarding Specialist will confirm that cameras are capturing footage well and functioning properly. They will then give you full access to the system along with helpful training resources

ONGOING – AS NEEDED

Finalize Any Installation Needs



FLOCK: While we typically complete installations within 4 weeks of finalizing locations, delays may occur due to external factors. In these instances, we will continue to work through this process until your cameras are fully installed and operational

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Flock Safety Team

Implementation Team	How They Will Support You
 **Project Manager**	Your **Project Manager** is your **primary contact during camera installation.** Your project manager will guide you through the entire installation process, keeping you apprised of all implementation updates as well as answering any questions you have during this time. They will ensure that all the cameras are on the ground and operating for at least 48 hours before transitioning you to your Customer Success Manager.
 **Field Operations Team**	• The Field Operations team is responsible for the physical installation and maintenance of cameras and associated equipment provided by Flock. This includes a large team of technicians, schedulers, and many others involved in ensuring the delivery of the product. • They take the technical plan you finalized with Product Implementation and work closely with other teams at Flock to make sure that the cameras are installed quickly and safely and in a way that maximizes the opportunity to solve crime at a specific location. • ***Note*:** For **all Installation questions or concerns**, please always direct them to your **Customer Success Manager** and not the technician.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Relationship Team	How They Will Support You
 **Customer Success Manager**	Your Customer Success Manager is your strategic partner for your lifetime as a Flock customer. While the cameras are getting installed, your CSM will help get your account set up and get all key users trained on the system. Post-Camera-Installation, your CSM will be your go-to for most account-related needs: You should reach out to them to: • Set up Account Training • Understand benefits of features • Learning best practices for getting relevant data • Identifying opportunities to expand the security network in your area • Provide feedback on your partnership with Flock
 **Flock Safety Support**	The Flock Safety Support team is committed to answering all your day-to-day questions as quickly as possible. **To get in touch with support**, simply email **support@flocksafety.com or call 866-901-1781 Mon-Fri 8am-8pm EST.** Support can help you: • Request camera maintenance • Troubleshoot online platform • Contract / Billing questions • Update account information • Camera Sharing questions • Quick “How to” questions in your Flock Account

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Outside Party	When They May Be Involved
Electrician/Street Department	If the Flock cameras need to be AC powered, you (customer) are responsible for providing an electrician to ensure power connectivity
Public Works (LE)	To weigh in on the use of public Rights of Way or property
Department of Transportation (DOT), City, or County agencies	If installation in your area requires permitting

PLEASE NOTE: On some occasions, third parties outside of Flock Safety may be (or need to be) involved in your implementation.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Implementation Service Briefs: Existing Infrastructure vs Standard vs Advanced

	Existing Infrastructure Install	Standard Install	Advanced Install
Pole	None	Flock	NCHRP 350 / MASH
Timeline	Short	Medium	Longest
Cost	Lowest	Mid	Highest

Existing Infrastructure Implementation

COST: $150 per camera (one time cost)

Included In Scope:

Once designated locations are approved by the customer, as part of the **Existing Infrastructure Implementation Service** Flock will perform the following:

- An in-person site survey to confirm the installation feasibility of a location (location assessment, solar assessment, visibility review, etc.)
  - Cameras need sufficient power. Since a solar panel is required per camera, it can prevent adequate solar power if two cameras and two solar panels are on a single pole (blocking visibility). Therefore if relying on solar power, only one camera can be installed per pole.
- Confirm that a location is safe for work by following State utility locating procedures.
- Each installation may include the following:
  - Installation of camera and solar panel or AC adapter box on a suitable existing pole

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

        - Types of existing infrastructure such as existing utility, light, and traffic signal poles.
        - Pole no higher than 8’-12’ (approval at Flock Safety’s discretion)
        - Flock will provide and mount an AC adapter unit that a qualified electrician can connect to AC power following our **electrical wiring requirements.** Flock is unable to make any AC connections or boreholes in any material other than dirt, grass, loose gravel (or other non-diggable material). Electrical work requiring a licensed electrician and associated costs, not included in the scope.
    - Access requiring up to a 14’ using an A-frame ladder
    - Standard MUTCD traffic control procedures performed by a Flock technician
- Obtain a business license to operate in the city and state of camera location

Out Of Scope:

By default, Flock does **not** include the following as part of the **Existing Infrastructure Implementation Service** but can provide a quote for sourcing at an additional cost:

- Mounting on mast arms (always require bucket truck and traffic control)
- Call 811 ‘Call-before-you-Dig’ system
- Installation of any poles including but not limited to
    - Standard, 12’ above grade **Flock breakaway pole**
    - NCHRP 350 or MASH approved pole (as may be required for locations in DOT right of way)
- A Bucket Truck for accessing horizontal/cross-beams and/or height above 14’
- Special equipment rentals for site access
- Site-specific engineered traffic plans
- Third-party provided traffic control
- State or city-specific specialty contractor licenses or unique attachment/ connection requirements
- Custom engineered drawings
- Electrical work requires a licensed electrician.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

    - Flock will provide and mount an AC adapter that a qualified electrician can connect to AC power but cannot make any AC connections or boreholes in any material other than dirt, grass, loose gravel (or other non-diggable material).
- Concrete cutting
- Private utility search for privately owned items not included in standard 811 procedures (communication, networking, sprinklers, etc.)
- Upgrades to power sources to ready them for Flock power (additional fuses, switches, breakers, etc.)
- Any fees or costs associated with filing for required city, county, or state permits
- Licensing or attachment agreements with asset / infrastructure owners
- Utility contracts and billing
- Customer requested relocations (see fee schedule)

Standard Implementation

COST: $650 per camera (one time cost)

Included In Scope:

Once designated locations are approved by the customer, as part of the **Standard Implementation Service** Flock will perform the following:

- An in-person site survey to confirm the installation feasibility of a location (location assessment, solar assessment, visibility review, etc.)
- Confirm that a location is safe for work by following state utility locating procedures. Work with local utilities to prevent service interruptions during the installation
    - Engage 811 'Call-before-you-Dig' system to receive legal dig date
    - Apply approved markings Coordinate with 811 regarding any necessary high-risk dig clearances or required vendor meets
- Each installation may include the following:
    - Installation of camera and solar panel with **standard, 12' above grade Flock breakaway pole**

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

    - Installation of camera and AC adapter that a qualified electrician can connect to AC power on a suitable existing pole, no higher than 8-12’ (approval at Flock Safety’s discretion)
        - Flock will provide and mount an AC adapter that a qualified electrician can connect to AC power following our **electrical wiring requirements**. Flock is unable to make any AC connections or boreholes in any material other than dirt, grass, loose gravel (or other non-diggable material). Electrical work requiring a licensed electrician and associated costs, not included in the scope.
    - Access requiring up to a 14’ A-frame ladder
    - Standard MUTCD traffic control procedures performed by a Flock technician
- Obtain a business license to operate in the City and State of camera location

Out Of Scope:

By default, Flock does **not** include the following as part of the Standard Implementation Service but can provide a quote for sourcing at an additional cost:

- Use and/or mounting to existing infrastructure.
- NCHRP 350 or MASH approved pole (as may be required for locations in DOT right of way)
- A Bucket Truck for accessing horizontal/cross-beams and/or height above 14’
- Special equipment rentals for site access
- Site-specific engineered traffic plans
- Third-party provided traffic control
- State or city-specific specialty contractor licenses
- Custom engineered drawings
- Electrical work requires a licensed electrician.
    - Flock will provide and mount an AC adapter that a qualified electrician can connect to AC power but cannot make any AC connections or boreholes in any material other than dirt, grass, loose gravel (or other non-diggable material).
- Concrete cutting
- Private utility search for privately owned items not included in standard 811 procedures (communication, networking, sprinklers, etc.)

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

- Upgrades to power sources to ready them for Flock power (additional fuses, switches, breakers, etc.)
- Any fees or costs associated with filing for required city, county, or state permits
- Licensing or attachment agreements with asset / infrastructure owners
- Utility contracts and billing
- Customer requested relocations (see fee schedule)

Advanced Implementation

COST: $1,900 per camera (one time cost)

Included In Scope:

Once Designated Locations are confirmed, as part of the **Advanced Implementation Service**, Flock will perform the following:

- An in-person site survey to confirm the installation feasibility of a location (location assessment, solar assessment, visibility review, etc.)
- Confirm that a location is safe for work by following State utility locating procedures. Work with local utilities to prevent service interruptions during the installation
  - Engage 811 'Call-before-you-Dig' system to receive legal dig date
  - Apply approved markings Coordinate with 811 regarding any necessary high-risk dig clearances or required vendor meets
- Each installation may include the following:
  - Installation of camera and solar panel on a suitable **NCHRP 350 or MASH** approved pole.
  - Installation of camera and AC adapter that a qualified electrician can connect to AC power.
    - Flock will provide and mount an AC adapter that a qualified electrician can connect to AC power following our electrical wiring requirements. Flock cannot make any AC connections or boreholes in any material other than dirt, grass, loose gravel (or other non-diggable material).

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Electrical work requiring a licensed electrician and associated costs, not included in the scope.

- Access requiring up to a 14’ A-frame ladder
- Standard MUTCD traffic control procedures performed by a Flock technician

- Obtain a business license to operate in the City and State of camera location

Out Of Scope:

By default, Flock does not include the following as part of the **Advanced Implementation Service** but can optionally provide a quote for sourcing (additional cost):

- Installation on **Standard, 12’ above grade Flock breakaway pole** or existing infrastructure.
- A Bucket Truck for accessing horizontal/cross-beams and/or height above 14’
- Special equipment rentals for site access
- Site-specific engineered traffic plans
- Third-party provided traffic control
- State or City-specific specialty contractor licenses
- Custom engineered drawings
- Electrical work requires a licensed electrician. Flock will provide and mount an AC adapter that a qualified electrician can connect to AC power but cannot make any AC connections or boreholes in any material other than dirt, grass, loose gravel (or other non-diggable material).
- Concrete cutting
- Private utility search for privately owned items not included in standard 811 procedures (communication, networking, sprinklers, etc.)
- Upgrades to power sources to ready them for Flock power (additional fuses, switches, breakers, etc.)
- Fees or costs associated with filing for required City, County, or State permits

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Things to Consider When Selecting Locations

Falcon Cameras

- Use Cases
  - Flock LPRs are designed to capture images of rear license plates aimed in the direction of traffic.
  - Flock LPRs are not designed to capture pedestrians, sidewalks, dumpsters, gates, other areas of non-vehicle traffic, intersections.
- Placement
  - They capture vehicles driving away from an intersection.
  - They cannot point into the middle of an intersection.
  - They should be placed after the intersection to prevent stop and go motion activation or “stop and go” traffic.
- Mounting
  - They can be mounted on existing utility, light, traffic signal poles, or 12 foot Flock poles.*
  - They should be mounted one per pole.** If using AC power, they can be mounted 2 per pole.
- They can be powered with solar panels or direct wire-in AC Power (no outlets).***
- They will require adequate cellular service using AT&T or T-Mobile to be able to process & send images.

* Permitting (or permission from pole owner) may be required to use existing infrastructure or install in specific areas, depending on local regulations & policies.

** Cameras need sufficient power. Since a solar panel is required per camera, it can prevent adequate solar power if two cameras and two solar panels are on a single pole (blocking visibility). Therefore if relying on solar power, only one camera can be installed per pole.

*** Flock does not provide Electrical services. Once installed, the agency or community must work with an electrician to wire the cameras. Electrician services should be completed within two days of installation to prevent the camera from dying.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Solar Panels

Solar panels need unobstructed southern-facing views.

Pole

If a location requires a "DOT Pole" (i.e., Advanced Pole, **not** Flock standard pole), the implementation cost will be $5,000/camera.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Customer Responsibilities: AC-Powered Cams

If the Flock cameras need to be AC-powered, the **customer is responsible** for acquiring an electrician and ensuring they connect the camera to power. **See steps 2 and 6 below**.

How to Get Started with a Powered Install

1. Create a Deployment Plan

Work with us to select the best location(s) for Flock Safety cameras and power sources

2. Acquire an Electric Quote

Contact an electrician to receive a quote to run 120volt AC power to the camera

3. Sign Flock Safety Agreement

Sign the Flock Safety purchase order to begin the installation of cameras

4. Conduct Site Survey

Flock will mark camera locations, locate underground utilities and mark if present

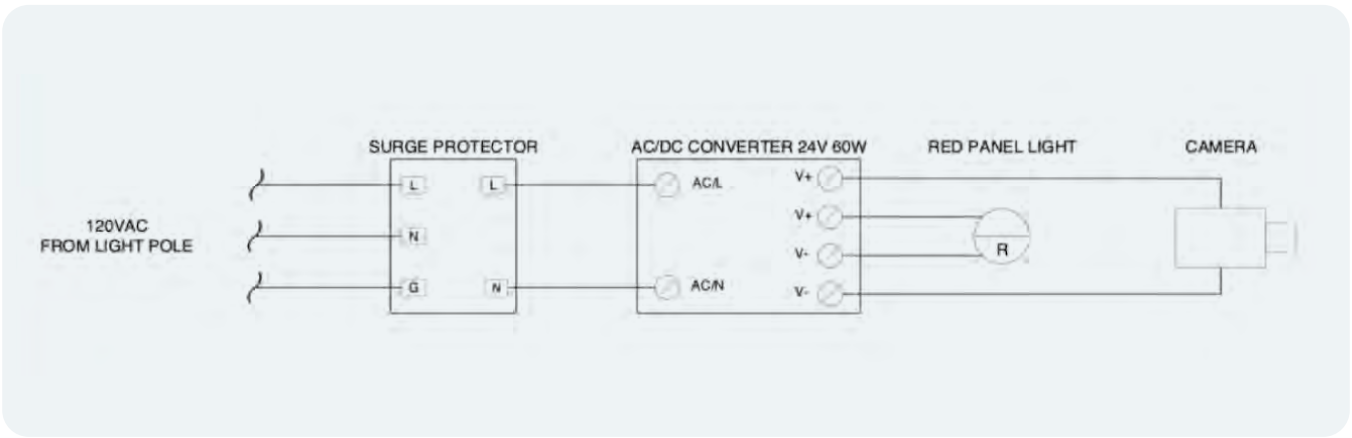
5. Install Camera

Flock will install the camera and AC power kit at the specified camera location

6. Connect Camera to Power

Notify the electrician that the camera is ready for the power connection installation

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38



Electrician Handout

Electrician Installation Steps

1. Run AC cable and conduit to the box according to NEC Article 300 and any applicable local codes. The gland accepts ½" conduit.
2. Open the box using hinges.
3. Connect AC Mains per wiring diagram below:
    a. Connect AC Neutral wire to the Surge Protector white Neutral wire using the open position on the lever nut.
    b. Connect AC Line wire to the Surge Protector black Line wire using the open position on the lever nut.
    c. Connect AC Ground wire to the Surge Protector green ground wire using the open position on the lever nut.
4. Verify that both the RED LED is lit on the front of the box
5. Close box and zip tie the box shut with the provided zip tie
6. While still on-site, call Flock, who will remotely verify that power is working correctly:

Southeast Region - (678) 562-8766
West-Region - (804) 607-9213
Central & NE Region - (470) 868-4027

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

FAQs about AC-Powered Flock Cameras

What voltage is supported?
The AC kit is designed to work with 120VAC Infrastructure by default. A 240VAC version is available on request.

How much power does this consume?
Peak current draw is 1.5 A at 120VAC. The average power draw is roughly 30W in high traffic conditions but maybe lower when fewer vehicles are present.

Who is responsible for contracting the electrician?
The customer is responsible for contracting an electrician. We can help answer questions, but the customer is responsible for identifying and contracting an electrician.

Who is responsible for maintenance?
Flock will handle all maintenance related to Flock's camera and power equipment. However, any problems with the electrical supply are the customer's responsibility. The AC junction box has two lights to indicate the presence of power and make it easy for quick diagnosis if there is a problem related to the AC power source.

- If the camera indicates to Flock that there is a power supply problem, Flock will notify the customer and request that the customer verifies the lights on the AC junction box. If the AC Source light is illuminated, Flock will send a technician to investigate. If the AC source light is not illuminated, the customer should check any GFCI's or breakers in the supply circuit or call the electrician who installed the power supply.

How much does it cost?
Work required to bring AC power to each location will be different, so exact pricing is unavailable. Primary cost drivers include arrow boards and the distance from the camera location to the AC power source.

What information do I need to provide my electrician?
The Flock deployment plan and these work instructions should be sufficient to secure a quote. It will be helpful if you know the location of the existing power infrastructure before creating the deployment plan.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Can you plug it into my existing power outlet? The Flock AC power adapter does not use a standard outlet plug but must be directly wired into the power mains. While using outlet plugs may be convenient, they can easily be unplugged, presenting a tampering risk to this critical safety infrastructure.
The electrician can route power directly to the camera with a direct wire-in connection if an outlet is close to the camera.

How long does this process typically take?
The installation process typically takes 6-8 weeks. To accelerate the process, be sure to have the electrician perform his work shortly after the Flock technician finishes installing the camera.

What kind of electrician should I look for?
Any licensed electrician should perform this work, though we have found that those who advertise working with landscape lighting are most suited for this work.

What happens if the electrician damages the equipment?
The customer is responsible for contracting the electrician. Any liability associated with this work would be assumed by the customer. If any future work is required at this site due to the electrical infrastructure or the work performed by the electrician would be the responsibility of the customer.

When should the electrician perform his work?
Once Flock installs the camera, you will receive an email alert letting you know that this has been completed. After this, you will need to schedule the electrician to route power to the pole.

What if my electrician has questions about Flock's AC Kit?
You should share the **AC-Power Kit Details** packet with the electrician if they have questions.

What if the AC power is on a timer?
Sometimes the AC power will be on a timer (like used for exterior lighting). Flock requires that the AC power provided to the camera be constant. The source that the electrician uses must not be on a timing circuit.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Installation Service Brief Summary

Below outlines the statement of work for the Flock Camera Installation:

What Is Covered By Flock	What Is NOT Covered By Flock	Special Note
Flock Cameras & Online Platform	Traffic Control And Any Associated Costs	
Mounting Poles	*DOT Approved Pole Cost Electrician & Ongoing Electrical Costs	
AC Power Kit (As Needed)	Engineering Drawings	
Solar Panels (As Needed)	Relocation Fees	*Excluding Changes During Initial Installation*
Site Surveys And Call 811 Scheduling	Contractor Licensing Fees	
Installation Labor Costs	Permit Application Processing Fees	
Customer Support / Training	Specialist Mounting Equipment	*Including, But Not Limited To, **MASH Poles Or Adapters*
Cellular Data Coverage	Bucket Trucks	
Maintenance Fees *(Review Fees Sheet For More Details)*	Loss, Theft, Damage To Flock Equipment	
Data Storage For 30 Days	Camera Downtime Due To Power Outage	*Only Applicable For AC-Powered Cameras*
	***Field Technician Maintenance For **Falcon™ Flex**	

*If a location requires a "DOT pole" (i.e., not our standard), the implementation cost will be $5,000/camera; This cost is applicable for installations in GA, IL, SC, TN, and CA.

**MASH poles: Manual for Assessing Safety Hardware (MASH) presents uniform guidelines for crash testing permanent and temporary highway safety features and recommends evaluation criteria to assess test results

***If a camera is lost, stolen, or damaged, a replacement device can be purchased at a discounted price of $800

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

Permitting: Pre-Install Questionnaire

1. **Timeline**
   - In Flock Safety's experience, in-depth permitting requirements can **add 2+ months to the installation timeline.**
   - The SLA for permit document submission is within 15 days from contract signature date (contract Closed-Won)

2. **Right of Way**
   - Will any Flock Safety cameras be installed on the city, state, or power company-owned poles or in the city, county, or state Right of Way (RoW)?
     - What is the RoW buffer?
     - Will additional permits or written permission be required from third-party entities (such as DOT, power companies, public works, etc.)?
   - Will any cameras be installed on city-owned traffic signal poles (vertical mass)?
     - If yes, please provide heights/photos to determine if a bucket truck is needed for the installation.
       - Note: A bucket truck is required if the height exceeds 15 feet tall.

3. **AC Power vs. Solar**
   - If AC powered, is there a 120V power source available, and is there access to an electrician who can connect the existing wire to the Flock Safety powered **installation kit**?
   - If solar-powered, consider the size of the solar panel and potential to impact the visibility of DOT signs/signals:
     - Single Panel: 21.25" x 14" x 2" (Length x Width x Depth)
     - Double Panel: 21.25" x 28" x 2" (LxWxD)

4. **Traffic Control & Installation Methods**
   - **If a bucket truck is required**, this typically necessitates an entire lane to be blocked in the direction of travel. **Can you provide a patrol car escort, or will full traffic control be required?***

PLEASE NOTE: If traffic control is required, you may incur additional costs due to city/state requirements; Fees will be determined by quotes received.

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

- **If full traffic control is required (cones, arrow boards, etc.):**
  - Will standard plans suffice, or are custom plans needed? Custom plans can double the cost, while standard plans can be pulled from the Manual of Uniform Traffic Control Devices **(MUTCD)**.
  - Will a non-sealed copy of the traffic plan suffice? Or does the traffic plan need to be sealed and/or submitted by a professional engineer?
  - Are there state-specific special versions/variances that must be followed?
- **If a bucket truck is *not* required**, the shoulder or sidewalk should suffice and enable Flock Safety to proceed without traffic control systems in place.
  - Note: In some states (i.e., arrow boards), sidewalks may require signage. If signage is mandatory, Will your Public Works department be able to assist?

5. **Paperwork & Required Forms**
   - Flock Safety will need copies of paperwork to complete before proceeding (ex., business license applications, encroachment permit applications). We can save critical time by gathering these documents upfront. We appreciate your assistance in procuring these.

6. **Contacts**
   - If Flock Safety needs to interface directly with the departments, please share the contact information of the following departments:
     - Permitting
     - Public Works
     - Traffic Department

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

*Fee Schedule

After a deployment plan with Designated Locations and equipment has been agreed upon by both Flock and the Customer, any subsequent changes to the deployment plan ("Reinstalls") driven by a Customer's request will incur a fee per the table below.

What Services Incur Fees:

- Requested relocations post-approval by customer
- Relocations due to poor performance will be the responsibility of Flock
  - If a customer requests a location against the advisement of Flock, performance issues and any requested relocations will be the responsibility of the customer.
- Per the contract and absent a defect, in the event that Flock Hardware is lost, stolen, or damaged, Customer may request that Flock replace the Flock Hardware at a fee according to the then-current Reinstall policy **https://www.flocksafety.com/reinstall-fee-schedule**
- Misc billables for out of scope items for each implementation

Incurred Fees:

- Camera relocation
  - Existing infrastructure (non-AC powered) **$350**
  - Flock pole (non-AC powered) **$750**
  - Advanced pole (non-AC powered) **$5000**
- Replacements
  - Camera only as a result of vandalism, theft, or damage **$800**
  - Pole replacement only as a result of vandalism, theft, or damage
    - Flock pole **$500**
    - Advanced pole **$5000**
  - Full replacement as a result of vandalism, theft, or damage
    - Flock pole, camera, and solar (non-AC Powered) **$1300**
    - Advanced pole, camera, and solar (non-AC Powered) **$5800**

Docusign Envelope ID: 82186069-6997-409E-8B76-F64CDF1B3E38

- Trip charge **$350**
  - Examples:
    - Angle adjustment (elective)
    - Install additional Flock signage

All fees are per reinstall or required visit (in the case that a reinstall is attempted but not completed) and include labor and materials. If you have any questions, please email **support@flocksafety.com**.

Help Center

Our Help Center is filled with many resources to help you navigate through the online platform. Below you will find some common questions and their relevant help article:

How do I search camera footage?

How do I add a user?

How do I add a vehicle to my own Hot List?

How do I enable browser notifications for Hot List alerts?

How do I get text alerts for Hot List?

How do I request camera access from other nearby agencies?

How do I use the National Lookup to search for a plate?
(National Lookup - network of law enforcement agencies that have opted to allow their network of Flock cameras to be used for searches)

How do I reset my / another user's password?

Customer Support

You can reach our customer support team anytime by emailing **support@flocksafety.com**. They can help answer any "How-To" questions you may have.

2024 Sole Source Letter for Flock Safety® Public Safety Solutions

March 10, 2025

Glendora Police Department
150 Glendora Ave
Glendora, CA, 91741

Dear Mike Randazzo,

This letter serves to confirm that Flock Group Inc. d/b/a Flock Safety is the sole provider of our proprietary public safety technology solution specifically designed for use by law enforcement, communities, and private entities to increase safety and reduce crime. Flock Safety's unique system integrates hardware and cloud-based software to enable real-time data processing and secure data sharing capabilities that are unavailable through other providers.

As the sole developer and provider of this proprietary technology, Flock Safety retains exclusive rights to manufacture, license, and support the products and software we offer. Our solutions include cutting-edge features such as machine learning analytics, CJIS-compliant data storage, and a centralized system that facilitates collaboration across multiple jurisdictions, supporting a more robust and efficient public safety network. Specifically, Flock Safety provides the ability to access additional cameras from Flock customers, including: Glendora, West Covina, Arcadia, Pasadena, Pomona, at no additional cost.

No other vendor offers the specific combination of hardware and cloud-based features, CJIS-compliant data handling, or the national network capabilities that Flock Safety provides. For these reasons, Flock Safety is the only source available for these services.

Thank you,

Garrett Langley CEO, Flock Safety®

Flock Safety® ALPR Cameras

Flock Safety® is the sole manufacturer, developer, and distributor of Flock Safety Falcon®, Flock Safety Falcon® LR, Flock Safety Falcon® SR, Flock Safety Falcon® Flex, Flock Safety Sparrow®, and Flock Safety Wing® automated license plate recognition ("ALPR") cameras.

Flock Safety Falcon®

- Fixed, infrastructure-free license plate recognition ("LPR") cameras suitable for capturing two (2+) lanes of traffic simultaneously with a single camera from a vertical mass
- Includes Solar Falcon® option (next-gen platform standard range), which may cover up to three (3) lanes of traffic simultaneously

Flock Safety Falcon® LR

- Fixed, infrastructure-free long-range ("LR") LPR, suitable for capturing three (3+) lanes of traffic simultaneously with a single camera from a vertical mass
- Includes Solar Falcon® LR option (next-gen platform LR)

Flock Safety Falcon® SR

- Fixed, infrastructure-free short-range ("SR") LPR with solar power capability, suitable for wide angle capture (i.e., parking lots or garages)

Flock Safety Falcon® Flex

- Location-flexible, infrastructure-free self-installation LPR camera with solar power option
- Ties seamlessly into the Flock Safety® ecosystem with a small and lightweight camera
- Ability to read up to 30,000 license plates and vehicle attributes on a single battery charge

Flock Safety Sparrow® LPR

- Infrastructure- and maintenance-free LPR for 24/7 neighborhood security

Flock Safety Wing® LPR

- Integrates third-party LPR and video cameras into FlockOS® utilizing existing camera infrastructures

The Flock Safety® ALPR cameras listed above are the only Law Enforcement Grade ALPR cameras to offer the following combination of proprietary features:

- **Vehicle Fingerprint Technology®**
  - Patented proprietary machine vision to analyze vehicle license plate, state recognition, and vehicle attributes such as color, type, make and objects (roof rack, bumper stickers, etc.) based on image analytics (not car registration data)
  - Machine vision to capture and identify characteristics of vehicles with a paper license plate and vehicles with the absence of a license plate
  - Ability to "Save Search" based on description of vehicles using Flock's patented Vehicle Fingerprint Technology® without the need for a license plate, and set up alerts based on vehicle description

- Only LPR provider with “Visual Search,” which can transform digital images from any source into an investigative lead by finding matching vehicles based on the vehicle attributes in the uploaded photo

- **Integrated Cloud-Software & Hardware Platform**
  - Best in class ability to capture and process up to 30,000 vehicles per day with a single camera powered exclusively by solar power
  - Wireless deployment of solar powered license plate reading cameras with integrated cellular communication weighing less than 5lbs and able to be powered solely by a solar panel of 65W or less
  - Web based footage retrieval tool with filtering capabilities such as vehicle color, vehicle type, vehicle manufacturer, partial or full license plate, state of license plate, and object detection
  - Utilizes motion trigger to start and stop recording without the need for a reflective plate
  - Motion detection allows for unique vehicle cases such as bicycle capture, ATV, motorcycle, etc.
  - On device machine processing to limit LTE bandwidth consumption
  - All images and metadata is encrypted throughout its entire lifecycle from on-device to storage in Flock’s US-based CJIS-compliant cloud
  - Covert industrial design for minimizing visual pollution

- **Transparency & Ethical Product Design**
  - One-of-a-kind “Transparency Portal,” a public-facing dashboard that details the customer’s policies, as well as automatically updates metrics from the Flock Safety® system
  - Built-in integration with National Center for Missing & Exploited Children (“NCMEC”) to receive AMBER Alerts to find missing children
  - Privacy controls to enable certain vehicles to “opt-out” of being captured

- **Integrated Audio & Gunshot Detection**
  - Ability to pair with Flock Safety Raven® audio detection device, which has natively integrated audio detection capabilities utilizing machine learning to recognize audio signatures typical of crimes in progress (e.g., gunshots)

- **Live Video Integration**
  - Ability to apply computer vision to third-party cameras using the Flock Safety Wing® LPR, transforming them into evidence capture devices using the same Vehicle Fingerprint® technology offered on the Flock Safety Falcon® ALPR cameras
  - Flock Safety Wing® livestream integrates live stream traffic cameras, publicly or privately owned livestream security cameras into one cloud-based situational awareness dashboard to increase response time in mission-critical incidents
  - Manage various government intelligence including ALPR, livestream cameras, computer-aided dispatch (“CAD”), automatic vehicle location (“AVL”) on Flock Safety Wing® suite

- **Situational Awareness**
  - FlockOS® is the world's first and only public safety operating system compatible with Flock Safety® LPR video cameras, including Flock Safety Condor™ live streaming fixed and Flock Safety Condor™ pan-tilt-zoom ("PTZ") video cameras, and the Flock Safety Raven® audio detection device, while seamlessly integrating first and third-party data across video, LPR, and audio to deliver real-time intelligence and retroactive crime solving in a single-pane real-time crime center
  - Ability to enhance situational awareness capacity by layering all intelligence streams onto the FlockOS® ESRI-based map
  - FlockOS® features Flock Safety® unique Real-Time Routing feature that analyzes various data sources to determine where a suspect vehicle has been and its direction of travel, providing users with possible outcomes based on a confidence threshold

- **Warranty & Service**
  - Lifetime maintenance and support included in subscription price
  - Flock Safety® is the only fully integrated ALPR one-stop solution from production of the devices to delivery and installation
  - Performance monitoring software to predict potential failures, obstructions, tilts, and other critical or minor issues

- **Partnerships**
  - Flock Safety® is the only LPR provider to officially partner with Prepared911 to distribute 911 call audio and transcripts to law enforcement agencies
  - Through FlockOS®, Flock Safety® is the only LPR provider to officially partner with FirstTwo to enable clicking anywhere on a display map to display the relevant information from FirstTwo
  - Access to additional cameras purchased by Flock's HOA and private business partners, means an ever-increasing amount of cameras and data at no additional cost

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at https://www.axon.com/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

Re: Sole Source Letter for Axon Enterprise, Inc.'s Axon brand products and Axon Evidence (Evidence.com) Digital Evidence Management Solutions[1]

A sole source justification exists because the following goods and services required to satisfy the agency's needs are only manufactured and available for purchase from Axon Enterprise.

Axon Digital Evidence Solution Description

Axon Body 4 Video Camera (DVR)

- Improved, 160-degree field of view
- Upgraded sensor provides sharper, more detailed images
- 13-hour battery, even when using Axon Respond real-time services
- Bi-directional communications with Watch Me button allows wearers to request that a supervisor watch their livestream and provide guidance. (Requires Axon Respond)
- Configurable automatic activation capabilities
- Option of 4:3 or 16:9 aspect ratio
- Multiple mounting options available for a variety of needs, uniforms, and use cases
- Real-time support allows supervisor or dispatcher to view user locations on live maps, receive alerts, and view live streams. (Requires Axon Respond location services)
- Video Recall allows for recovery of footage up to 18 hours prior in the event a camera was not activated
- Fast-charge cable (20 percent in 30 minutes) with magnetic disconnect
- Optional point-of-view (Flex POV) camera module
- Up to 120-second buffering period to record footage before pressing the record button
- Simplified registration

Axon Body 3 Video Camera (DVR)

- Improved video quality with reduced motion blur and better low-light performance
- Multi-mic audio—four built-in microphones
- Wireless upload option
- Gunshot detection and alerts
- Streaming audio and video capability (requires the Axon Respond operations platform)
- "Find my camera" feature
- Verbal transcription with Axon Records
- End-to-end encryption
- Twelve-hour battery
- Up to 120-second buffering period to record footage before pressing record button

[1] Axon is also the sole developer and offeror of the Axon Evidence (Evidence.com) data management services. Axon Evidence is both a division of Axon and a data management product solution offered by Axon. Axon Evidence is not a separate corporate entity.

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Flex 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 0.1 lux
- Audio tones to alert user of usage
- Low SD, high SD, low HD, and high HD resolution (customizable by the agency)
- Up to 120-second buffering period to record footage before pressing record button
- Multiple mounting options using magnetic attachment: head, collar, shoulder, helmet, ball cap, car dash, and Oakley sunglass mounts available
- 120-degree diagonal field of view camera lens, 102-degree horizontal field of view, and 55-degree vertical field of view

Axon Flex 2 Controller

- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- Haptic notification available
- Tactical beveled button design for use in pocket
- Compatible with Axon Signal technology

Axon Air System

- Purpose-built solution for law enforcement UAV programs
- Supported applications on iOS and Android
- Automated tracking of pilot, aircraft, and flight logs
- Unlimited Storage of UAV data in Axon Evidence (Evidence.com)
- In application ingestion of data in Axon Evidence (Evidence.com)
- Axon Respond integration for live streaming and situational awareness

Axon Body 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 1 lux
- Audio tones and haptic (vibration) notification to alert user of usage
- Audio mute during event option
- Wi-Fi capability
- High, medium, and low quality recording available (customizable by the agency)
- Up to 2-minute buffering period to record footage before pressing record button
- Multiple mounting options using holster attachment: shirt, vest, belt, and dash mounts available
- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- 143-degree lens
- Includes Axon Signal technology

Axon Fleet 3 Camera

- High-definition Dual-View Camera with panoramic field of view, 12x zoom, and AI processing for automatic license plate reader (ALPR)
- High-definition Interior Camera with infrared illumination for back seat view in complete darkness
- Wireless Mic and Charging Base for capturing audio when outside of vehicle
- Fleet Hub with connectivity, global navigation satellite system (GNSS), secure solid-

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

state storage, and Signal inputs
- Automatic transition from Buffering to Event mode with configurable Signals
- Video Recall records last 24 hours of each camera in case camera not activated for an event
- Intuitive mobile data terminal app, Axon Dashboard, for controlling system, reviewing video, quick tagging, and more
- Ability to efficiently categorize, play back and share all video and audio alongside other digital files on Evidence.com
- Multi-cam playback, for reviewing up to four videos, including body-worn and in-car footage, at the same time
- Fully integrated with Evidence.com services and Axon devices
- Automatic time synchronization with all Axon Fleet and other Axon on-officer cameras allows for multi-camera playback on Evidence.com.
- Prioritized upload to Evidence.com of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM) and Signal Side Arm (SSA).
- Best-in-class install times, wireless updates and quick remote troubleshooting
- Optional Axon Respond live stream, alerts, and location updates for situational awareness
- Optional Axon ALPR hotlist alerts, plate read retention, and investigative search

Axon Fleet 2 Camera
- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with other Axon Fleet and Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Immediate upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM).
- Automatic transition from BUFFERING to EVENT mode in an emergency vehicle equipped with the Axon Signal Unit
- Decentralized system architecture without a central digital video recorder (DVR).
- Cameras that function independently and communicate wirelessly with the computer in the vehicle (MDT, MDC, MDU) for reviewing, tagging and uploading video.
- Wireless record alert based on Bluetooth communication from Axon Signal Vehicle when a configured input is enabled (e.g. emergency light, siren, weapon rack, etc.).
- Receives alerts from Axon Signal Sidearm.
- Plug-And-Play design allowing for cameras to be easily replaced and upgraded.
- Ability for an unlimited number of agency vehicles recording in the same vicinity with an Axon Fleet system to be automatically associated with one another when reviewing video in the video management platform. This feature is also supported across body cameras.

Axon Signal Vehicle Unit
- Communications device that can be installed in emergency vehicles.
- With emergency vehicle light bar activation, or other activation triggers, the Axon Signal Unit sends a signal. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the TASER X2 and X26P conducted electrical weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

Axon Signal Sidearm Sensor

- Can be installed on common duty holsters
- Drawing a service handgun from the holster sends a signal from the Axon Signal Sidearm sensor. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Interview Solution

- High-definition cameras and microphones for interview rooms
- Covert or overt camera installations
- Touch-screen user interface
- Motion-based activation
- Up to 7-minute pre- and post-event buffering period
- Full hardware and software integration
- Upload to Axon Evidence services
- Interview room files can be managed under the same case umbrella as files from Axon on-officer cameras and Axon Fleet cameras; i.e., Axon video of an arrest and interview room video are managed as part of the same case in Axon Evidence
- Dual integration of on-officer camera and interview room camera with Axon Evidence digital evidence solution

Axon Signal Technology

- Sends a broadcast of status that compatible devices recognize when certain status changes are detected
- Only compatible with TASER energy weapons and other Axon products

Axon Dock

- Automated docking station uploads to Axon Evidence services through Internet connection
- No computer necessary for secure upload to Axon Evidence
- Charges and uploads simultaneously
- The Axon Dock is tested and certified by TUV Rheinland to be in compliance with UL 60950-1: 2007 R10.14 and CAN/ CSA-C22.2 N0.60950-l-07+Al:2011+A2:2014 Information Technology Equipment safety standards.

Axon Evidence Digital Evidence Management System

- Software as a Service (SaaS) delivery model that allows agencies to manage and share digital evidence without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share digital evidence with other agencies or prosecutors without creating

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

copies or requiring the data to leave your agency's domain of control
- Controlled access to evidence based on pre-defined roles and permissions and pre-defined individuals
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Automated category-based evidence retention policies assists with efficient database management
- Deleted files are sent to a deletion que for 7 days, to help prevent unintentional deletion
- Stores and supports all major digital file types: .mpeg, .doc, .pdf, .jpeg, etc.
- Requires NO proprietary file formats
- Ability to upload files directly from the computer to Axon Evidence via an Internet browser
- Data Security: Robust Transport Layer Security (TLS) implementation for data in transit and 256-bit AES encryption for data in storage
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff
- Protection: With no on-site application, critical evidence stored in Axon Evidence is protected from local malware that may penetrate agency infrastructure
- Stability: Axon Enterprise is a publicly traded company with stable finances and funding, reducing concerns of loss of application support or commercial viability
- Application and data protected by a CJIS and ISO 27001 compliant information security program
- Dedicated information security department that protects Axon Evidence and data with security monitoring, centralized event log analysis and correlation, advanced threat and intrusion protection, and incident response capabilities
- Easily redact videos utilizing Redaction Studio within the system. With the optional Redaction Assistant add-on, leverage additional features that includes automated assistants of heads, license plates, and screens

Axon Evidence for Prosecutors
- All the benefits of the standard Axon Evidence services
- Ability to share information during the discovery process
- Standard licenses available for free to prosecutors working with agencies already using Axon Evidence services
- Unlimited storage for data collected by Axon cameras and Axon Capture

Axon Justice
- Productivity tool for prosecutors and defense attorneys
- Streamlined evidence management
- Purpose-built user interface based on prosecutors' and public defenders' workflow. Optimizes evidence collection, management and review functionalities, and disclosure capabilities

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Unlimited AI transcription of playable video and audio files
- Native image and PDF redaction software
- Ability to natively play a wide variety of 3rd party video codecs (CCTV) and extract file into an MP4
- Ability to obtain evidence directly from members of the community via secure web link
- Ability to collect digital evidence from LEAs not using axon products today via a trusted user or an ingestion portal
- Unlimited storage and data collected and shared by Axon partner agencies via Axon Evidence (Evidence.com)
- Available unlimited 3rd party data source storage plan
- Pro Licenses – all users have access to pro license features, including the Redaction Studio, Transcription Assistant, and Multi-Cam, and Reporting functionalities
- Transcription is Unlimited and automatic (i.e. all videos ingested into Axon Justice Premier are automatically transcribed)
- Discovery module designed to optimize all aspects of discovery management
- Chain of custody reports with extensive audit trail
- Free sharing with partners
- Customer-defined data retention policies

Axon Capture Application

- Free app for iOS and Android mobile devices
- Allows users to capture videos, audio recordings, and photos and upload these files to their Axon Evidence account from the field
- Allows adding metadata to these files, such as: Category, Title, Case ID, and GPS data

Axon Evidence Local Services

- On-premises data management platform
- Chain of custody reports with extensive audit trail
- Automated workflows, access control, storage, and retention
- Compatible with multiple file formats

Axon View Application

- Free app for iOS and Android mobile devices
- Allows user to view the camera feed from a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 camera in real-time
- Allows for playback of videos stored on a paired Axon Body, Axon Body 2, Axon Body 3, Axon Body 4, Axon Flex, or Axon Flex 2 system
- Allows adding meta-data to videos, such as: Category, Title, Case ID, and GPS data

Axon App

- Free application (app) for iOS and Android mobile devices
- Allows user access to key features of Axon Evidence, Axon Records, Axon Standards on the go
- Manage evidence missing ID & categories. Create and submit reports
- Initiate Community Requests

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Records

- Continuously improving automated report writing by leveraging AI and ML on officer recorded video, and audio from BWC, In-Car, Mobile App (Axon Capture), or other digital media
- Collaborative report writing through instantly synced workspaces allowing officers to delegate information gathering on scene
- Detectives can begin their investigations, and records clerks can update information exchanges on things like missing people or stolen property as a draft report exists
- Close integration with Axon Evidence sharing allows fast, efficient, digital, and secure sharing of records and cases to DAs and Prosecutors
- Robust APIs allow data to be easily ingested and pushed out to other systems—preventing data silos
- In-context search of master indexes (people, vehicles, locations, charges)—promoting efficient report writing through prefilling of existing data, which promotes clean and deduped data in the system
- Quick views for users to track calls for service and reports in draft, ready for review, kicked back for further information, or submitted to Records for archiving.
- Federal and State IBRS fields are captured and validated—ensuring the officer knows what fields to fill and what information needs to be captured
- Intuitive validation ensures officers know what information to submit without being burdened by understanding the mapping of NIBRS to state or local crime codes
- Ability to create custom forms and add custom fields to incident reports—allowing your agency to gather the information you find valuable
- Software as a Service (SaaS) delivery model that allows agencies to write, manage, and share digital incident reports without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Controlled access based on pre-defined users, groups, and permissions
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff

Axon Standards

- Internal affairs case management and use of force and professional standards reporting
- Can be deployed with and used alongside Axon Records, while ensuring Use-of-Force data remains safely silo'ed and permissioned
- Deep integration with Axon Evidence for efficient, digital, and secure sharing of records and cases
- Customizable information display, including custom forms
- Customizable workflows and user groups
- Automated alerts
- Data Store allowing custom summary reports and integration into 3rd-party analytic tools.
- Workflow analytics to provide SLA on throughputs
- Integration with the TASER 7 and TASER 10 energy weapons for automatically

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

pulling firing logs (alpha)

Axon Professional Services

- Dedicated implementation team
- Project management and deployment best practices aid
- Training and train-the-trainer sessions
- Integration services with other systems

Axon Auto-Transcribe

- Transcribes audio to text, producing a time-synchronized transcript of incidents
- Allows searches for keywords (e.g., names, and addresses)
- Embedded time stamps when critical details were said and events occurred
- Produce transcripts in substantially less time than with manual methods
- Pull direct quotes and witness statements directly into reports

Axon Support Engineer:

- Dedicated Axon Regional/Resident Support Engineer Services
- Quarterly onsite visits
- Solution and Process Guidance custom to your agency
- White-Glove RMA and TAP (if applicable) Service for devices
- Monthly Product Usage Analysis
- Resident Support Engineer also includes onsite product maintenance, troubleshooting, and beta testing assistance

Axon Fusus

- Integration with Axon Fusus for Axon Fleet cameras and body cameras for location and/or live streaming.
- Integration with Axon Signal Sidearm, TASER 7 and TASER 10 energy weapons for enhanced situational awareness.
- Integration with Axon Air, Skydio, and Dedrone systems.
- SaaS model reduces security and administration by local IT staff: no local installation
- Robust API and SDK allows data to be easily ingested and pushed out to other systems -- preventing data silos. Technology agnostic platform enables integration of a vast array of third-party technologies as required by the agency.
- Complete leveraging of Axon Evidence (Evidence.com) sharing to allow fast, efficient, digital and secure sharing of data to DAs and Prosecutors.
- Future versions/enhancements included with minimal down time and no need to purchase an upgrade to the latest version.
- Native integration with Axon Records.
- Reliability: Fault – and disaster – tolerant infrastructure in at least four redundant data centers in both the East and West regions of the United States.
- Security Testing: Independent security firms perform in- depth security and penetration testing.
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement.

SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Investigate

- Video analysis software
- Compatible with video from cell phones, on-officer cameras, in-car camera systems, social media, and other sources
- Oriented to investigators and prosecutors
- Integration with Axon Evidence services
- Automatically identify video file codecs, formats, hash values, and other metadata
- Automatically determine the required codec necessary to play a wide variety of video formats
- Play forwards/backwards and fast forward through almost any video file
- Scrub forwards/backwards through almost any video file
- Mark and auto export an unlimited number of tagged video frames
- Create subclips from any readable media
- Batch transcode files to standard file formats (including uncompressed, lossless h.264, wmv, and more)
- Add filters to transcode workflow (including resize, deinterlace, pad, crop, blur, concatenate, etc.)
- Provide enhancement capabilities, such as stabilization, brightness adjustments, and frame averaging
- Produce dynamic frame analysis spreadsheets to xml documents
- Validate results compared with hexadecimal analysis tools
- Build and share workflows with other users
- Transcode files directly to Avid Media Composer projects
- Identify duplicate files in any folder based on md5 hash
- Produce detailed written reports via interactive PDF with embedded video and image content within iNPUT-ACE
- Extract I-frames
- Decimate
- Canvas Editor (picture-in-picture)
- Add raw FFmpeg arguments
- Perform four types of macroblock analysis
  - 4x4 prediction removed
  - 8x8 prediction removed
  - Color coded block types
  - Quantization parameter evaluation
- Offered iNPUT-ACE Software (from Axon Enterprise)
- Variable frame rate (VFR) lightboard designed to accurately calculate time and vehicle speed from any video surveillance camera. This feature is designed to eliminate common errors that might occur during calculations based on frame rate.
- Camera match overlay tool that provides margin of error reports based on scanner, calibration, and resolution accuracy (e.g., a margin of error of +0.5 feet) for data collected from footage.

Draft One

- AI-powered report-writing assistant
- Audio from Axon body-worn camera (BWC) footage is uploaded over long-term evolution (LTE) and transcribed automatically so report drafts are available within five minutes of an incident ending, without having to dock camera (this feature requires

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Respond+)
- Create a single narrative from one or more body-worn camera recordings
- Supports audio from multiple devices, including 3rd party devices (anything that's playable on Axon Evidence)
- Integrates with Axon Records, allowing you to insert narratives into your report
- Multiple safeguards in place to ensure officers proofread and sign off on reports
- Security: all data processed in CJIS GovCloud environment (in US)
- Compatible with any 3rd-party RMS system
- No statistically significant levels of racial bias towards suspect's race
- Ability to include header and footer language to note when Draft One was used on a given report
- Ability to specify which incident types and level of charges can be used with Draft One
- Ability to warn or block users if they don't edit a certain percentage of words before submitting

Axon Customer Support
- Online and email-based support available 24/7
- Human phone-based support available Monday–Friday 7:00 AM–5:00 PM MST; support is located in Scottsdale, AZ, USA
- Library of webinars available 24/7
- Remote-location troubleshooting

Approval of the State Homeland Security Program (SHSP) Subrecipient Agreement for Grant Year 2023 with the County of Los Angeles, and Authorization to Enter into Agreements with Flock Group, Inc. and Axon Enterprise, Inc. for the Acquisition and Deployment of Additional Stationary and Mobile Automated License Plate Reader (ALPR) Systems.

POLICE

CITY COUNCIL MEETING

JUNE 24, 2025

MARC ARCHIBALD, SUPPORT SERVICES SUPERVISOR

EXECUTIVE SUMMARY

The State Homeland Security Grant Program (SHSGP) supports local efforts to enhance public safety and emergency preparedness. The City of Glendora has been awarded $100,000 in SHSGP funding to strengthen its public safety infrastructure.

Staff recommends using these funds to expand the City's Automated License Plate Reader (ALPR) system, which is eligible under the grant (03OE-01-ALPR). ALPR systems—fixed, portable, or vehicle-mounted—use imaging and character recognition technology to identify license plates, providing real-time alerts for stolen vehicles, wanted suspects, and missing persons.

EXECUTIVE SUMMARY

Since 2021, Glendora has partnered with Flock Safety to deploy ALPR cameras across the city. These systems have proven effective in preventing and solving crimes, enhancing law enforcement's efficiency and reach.

Expanding the Flock camera network with SHSGP funds will improve citywide coverage, support proactive policing, and maximize the return on this public safety investment.

LEGISLATIVE HISTORY

On May 25, 2021, the City Council approved entering into a two-year agreement to implement the ALPR systems in the City of Glendora.

On December 12, 2023, City Council approved entering into a Five-Year Master Services Agreement with Flock to continue use of Flock ALPR systems in the City.

On March 25, 2025, City Council approved using 2021 SHSGP funds for expansion of FLOCK. Due to federal delays in approving the Environmental and Historic Preservation (EHP) form for the ALPR project, staff proposed reallocating the $72,000 SHSGP grant to purchase mobile vehicle barriers instead of the ALPR cameras, which was presented in a separate agenda item.

DISCUSSION

The City of Glendora received $100,000 in SHSGP funding to enhance public safety. Staff recommends using the funds to expand the Flock ALPR camera network and add Axon Fleet 3 mobile ALPR to patrol vehicles. These systems help identify stolen vehicles, wanted suspects, and other threats in real time. Together, they enhance law enforcement's ability to prevent crime, improve response, and protect the community.

DISCUSSION

The Glendora Police Department has used Axon body-worn and in-car video systems since 2022. Our 18 patrol units are already equipped with Axon Fleet 3 hardware, which includes ALPR capability not yet activated. Enabling this feature would instantly add 18 mobile ALPR units, enhancing officer safety by providing real-time alerts for wanted, stolen, or missing person-related vehicles.

Axon allows secure data sharing with partner agencies under DOJ-compliant protocols, ensuring all searches are documented and justified. As the sole provider compatible with our current system, Axon offers a cost-effective leasing model covering activation, service, and support without added hardware costs.

FISCAL IMPACT

The proposed agreements will be funded using the Homeland Security Grant in Grant Fund 280. The increase in estimated revenues and the supplemental appropriation in the amount of $100,000 will cover two years of the agreement with Flock, including the implementation and subscription costs of $71,050 as well as 27 months of the $33,278.34 31-month agreement with Axon. The remaining 4 months of the agreement with Axon as well as any ongoing subscription costs to continue the expanded program with Flock and Axon will be considered during future budget processes as part of the Information Technology Fund 553 budget.

RECOMMENDATION

1. Approve the 2023 State Homeland Security Program Subrecipient Agreement with County of Los Angeles;
2. Approve a two-year agreement with Flock Group, Inc., for the use of eleven (11) additional automated license plate readers in the amount of $71,050;
3. Approve a 31-month agreement with Axon Enterprises, Inc., for the expansion of our existing Fleet 3 cameras, activating the existing automated license plate readers technology in eighteen (18) patrol vehicles in the amount of $33,278.94; and
4. Approve an increase in estimate revenues and a supplemental appropriation in the FY2024-25 Midcycle Budget from Grants Fund 280 in the amount of $100,000.

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Information Technology**	**DISTRICT(S):**	**Citywide**

SUBJECT: Authorize the transition of City Cellphone services from Verizon Wireless to T-Mobile

RECOMMENDATION

That the City Council:

1. Authorize the Information Technology to transition the City's cellphone service provider from Verizon Wireless to T-Mobile, utilizing already budgeted funds.

STRATEGIC FOCUS AREAS

Goal 2: Maintain Financial Stability and Sustainability (MFSS)
Goal 5: Improve and Maintain the City’s Infrastructure and Facilities (IMCIF)

EXECUTIVE SUMMARY

The City currently uses Verizon Wireless as its cellphone service provider for staff and public safety personnel. However, ongoing concerns with coverage and service reliability in several areas prompted an evaluation of alternative providers. After conducting a successful field test with a T-Mobile device, which demonstrated improved coverage and performance, staff recommends transitioning to T-Mobile. The change will be executed under the National Association to the State Procurement Officials (NASPO) ValuePoint contract, ensuring the City benefits from competitively bid government pricing.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

Not applicable.

DISCUSSION

The City currently utilizes Verizon Wireless as its primary cellphone service provider for staff across all departments, including public safety. Over the past several years, staff has experienced varying levels of service quality across different areas of the City, with particular concern regarding dropped calls and limited data connectivity in certain neighborhoods.

To evaluate alternatives, the City conducted a field test using a T-Mobile device issued to a police officer, who traveled throughout various neighborhoods and high-traffic zones, including residential areas, commercial corridors, and emergency response zones. The results of this test period indicated that T-Mobile service is not only reliable but in many cases providers stronger signal strength, faster data speeds, and better call clarity than Verizon, especially in previously identified trouble areas.

In addition to improved service quality, T-Mobile's proposed government pricing plan through NASPO ValuePoint contract offers substantial cost savings. Based on our current number of users and average usage, the transition is projected to save the City approximately $40,000 annually in cellphone service costs. These savings are achieved through lower per-line pricing, bundled data plans, and reduced equipment costs. Additionally, T-Mobile is offering a device buyback program as part of the transition. The City's existing Verizon devices will be eligible for trade-in credit, which can be used either to offset the cost of new equipment or to help pay off any remaining Verizon account balances. This buyback option further reduces the financial burden of transitioning providers.

To ensure a seamless and efficient changeover, T-Mobile has committed to providing on-site technical support. Their technicians will be scheduled to visit City facilities and departments to assist users with data transfers, activation of new devices, and training as needed. The primary device deployment and transition for general staff will occur over a two-day period, with additional time allocated for specialized coordination with Police Department units to minimize disruption to public safety operations.

This recommendation aligns with the City's broader goals of improving operational efficiency and reducing expenditures without compromising service quality. With reliable testing results and no disruption to essential communications, this transition represents a practical and fiscally responsible upgrade to our communications infrastructure.

FISCAL IMPACT

Sufficient appropriations are available in the FY2025-27 Adopted Two-Year Budget in the Information Technology Fund (553) account (55330150.57051).

The agreement was procured in accordance with Glendora Municipal Code Section 2.40.100 (c) (6) which provides for an exception to the City's competitive procurement process when cooperative purchasing is available and undertaken or when services can be obtained through federal, state and/or other public entity pricing contracts or price agreements. The National Association to the State Procurement Officials (NASPO) ValuePoint contract was competitively bid through the State of Utah and includes the State of California as a participating entity.

PARTICIPATING ADDENDUM #PA-2022-WDV-TMUS
UNDER THE
STATE OF UTAH COOPERATIVE CONTRACT #MA176
(NASPO VALUEPOINT WIRELESS DATA, VOICE, AND ACCESSORIES)

PARTICIPATING ENTITY: STATE OF CALIFORNIA

This Participating Addendum, including the attached Appendix A and Appendix A-1 (the "PA") is made on 1/26/2022 the "PA Effective Date"), between the State of California, California Department of Technology ("Participating Entity" or "State"), and T-Mobile USA, Inc. ("Contractor") (Participating Entity and Contractor are, at times, referred to individually as a "Party" or together as the "Parties").

Section 1. Recitals

1.1 The Contractor and the State of Utah, acting through its Department of Administration, Purchasing Division, individually and on behalf of the NASPO ValuePoint, a division of the National Association of State Procurement Officials ("NASPO"), are parties to the State of Utah Cooperative Contract #MA176 (NASPO ValuePoint Wireless Data, Voice, and Accessories) dated July 1, 2019, as amended (the "Master Agreement").

1.2 Participating Entity wants to participate in the Master Agreement pursuant to the terms and conditions of the PA.

1.3 The term of this PA begins on the PA Effective Date through May 22, 2025 with one (1), two-year option to extend remaining at the State's sole discretion. Notwithstanding the foregoing, the term of this PA will automatically terminate upon the termination or expiration of the Master Agreement.

Section 2. Agreement

In consideration of the recitals set forth in §1 above, which are hereby re-stated and agreed to by the Parties, and for valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the Parties, Participating Entity and the Contractor hereby agree to the terms and conditions of the PA. The Master Agreement and the PA, together with all valid Purchase Orders submitted to the Contractor by an Authorized Purchasing Entity, together constitute the

"CA Agreement". Unless otherwise defined, capitalized terms in the PA have the meanings ascribed to them in the Master Agreement.

Section 3. Authorized Purchasing Entities

The State hereby designates the following as Authorized Purchasing Entities under the CA Agreement: Local government entities defined as any city, county, city and county, district or other local governmental body empowered to expend public funds for the acquisition of goods. Additional qualifying entities include those that are either (i) entirely 100% tax supported, (ii) a local governmental entity with a Joint Powers Agreement (JPA), or (iii) a Federally recognized Indian Tribe. State agencies or other state entities are not Authorized Purchasing Entities. "Authorized Purchasing Entities" also may be referred to as "Purchasing Entities" for purposes of the CA Agreement.

Each Authorized Purchasing Entity placing an Order under this PA will be treated as if it was an individual customer. Except to the extent modified in this PA, each Authorized Purchasing Entity will be responsible for compliance with the terms and conditions of the Master Agreement. Each Authorized Purchasing Entity will be responsible for its own charges, fees and liabilities. Each Authorized Purchasing Entity will have the same rights to any indemnity or to recover any costs allowed in the Master Agreement for its purchases; and Contractor will apply the charges to each Authorized Purchasing Entity individually. Each Authorized Purchasing Entity agrees to the terms of this PA, including the disclosure of limited account information (including the name, address, email and phone number of each Authorized Purchasing Entity's authorized/designated purchasing agent(s)) as part of the contractual reporting requirements to NASPO ValuePoint and/or the Participating Entity, for purposes of monitoring the contract and calculating the administrative fee.

Section 4. Purchase Orders

Except as set forth herein, Purchase Orders must reference both Master Agreement #MA176 and the PA number to be valid. Upon acceptance of any such valid Purchase Order, the corresponding Authorized Purchasing Entities will be bound by the terms and conditions of the CA Agreement including, without limitation, the obligation to pay the Contractor for Services and related Products provided. Notwithstanding the foregoing, any Purchase Order submitted that does not properly reference the Master Agreement number and/or the PA may be accepted, at the Contractor's sole discretion, if the Contractor can reasonably ascertain that such Purchase Order was properly authorized and

intended for use with the PA. In such instances, the corresponding Purchase Order will be similarly valid and binding. The terms and conditions of the CA Agreement will not be modified or superseded by any terms and conditions in any Authorized Purchasing Entity-generated Purchase Order. Purchase Orders will have no force or effect other than to denote quantity, the products or services purchased, delivery destinations, requested delivery dates and any other information required by the CA Agreement.

Section 5 Primary Contacts

	Participating Entity (State): California Department of Technology	**Contractor:**
Name	Sandra Morales	David Bezzant
Title	Contract Manager	Vice President, T-Mobile for Government
Address	P.O.BOX 1810, MS 12 Rancho Cordova, CA 95741	c/o T-Mobile USA, Inc. 12920 SE 38th Street Bellevue, WA 98006
Telephone	(916)460-9809	(425) 383-4000
Email	TechnologyProcurements@state.ca.gov and Sandra.Morales@state.ca.gov	David.Bezzant@T-Mobile.com

Section 6. Notice of Administrative Fees

The following charges are being paid by the Contractor under this PA.

6.1 California Department of Technology Administrative Fee

Contract Fees to Participating Entity: The Contractor is being charged an Administrative Fee of 1.00% of all Authorized Purchasing Entities Total Wireless Spend, pursuant to the schedule of payments set forth in the Master Agreement. "Total Wireless Spend" for the Participating Entity's state will be calculated (with respect to Participating Entity state sales only) in the same manner as set forth in Section 6 of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) to the Master Agreement.

The Contractor shall submit a check payable to the California Department of Technology, Accounting, P.O. Box 1810, MS Y06, Rancho Cordova, CA 95741 for the calculated administrative fee. This fee shall be included as an adjustment to the Contractor's NASPO ValuePoint pricing and not invoiced or charged to the Authorized Purchasing Entities for the use of this PA.

Section 7. Authority

By signing below, the corresponding Party's representative represents that he or she is duly authorized by the Contractor or Participating Entity, as applicable, to execute the PA on behalf of the respective Party, and that the Contractor and Participating Entity agree to be bound by the provisions hereof. In addition, Participating Entity represents that it has received the requisite approvals from the applicable State authority and NASPO to participate in the Master Agreement.

Section 8. Entire Agreement

The Master Agreement and this PA set forth the entire agreement between the Parties with respect to its subject matter, and it supersedes all previous communications, representations or agreements, whether oral or written, with respect thereto.

IN WITNESS WHEREOF, the Parties have executed the PA as of the PA Effective Date.

Appendix A

1. General Provisions - Wireless Voice And Data Services

This PA shall automatically incorporate by reference the General Provisions - Wireless Voice and Data Services for NASPO Participating Addendum for Local Government, which can be found attached hereto as Appendix A-1.

2. Reporting

The Contractor shall provide the following management reports to the State Contract Administrator as reasonably requested. The reports shall reflect the agency's usage under the contract for the respective month/quarter. Reports shall be submitted in electronic format by email. Upon execution of the Purchase Order, the Authorized Purchasing Entities understand and agree that the Contractor may provide the State Customer Proprietary Network Information (CPNI) as part of Contractor's reporting obligations under the Contract for purposes of administering the Participating Addendum.

Listed below are the management reports that shall be provided:

a) Usage Report (quarterly):

The Contractor shall submit a Usage Report for the Total Wireless spend of all Authorized Purchasing Entities on a quarterly basis by the 45th day of the first month of the new quarter. This report shall be reviewed by the State Contract Administrator and shall correlate with the Administration Fee. The Usage Report shall contain the same fields as Attachment H (NASPO ValuePoint Cooperative Contract Detailed Sales Report) of the Contractor's Master Agreement.

b) Authorized Purchasing Entities Report (annually):

The Authorized Purchasing Entities Report shall be submitted to the State Contract Administrator annually by the 30th day of January. The report shall include the name of the Authorized Purchasing Entity, contact name, phone number and email address of the individual responsible for submitting purchase requests for each Authorized Purchasing Entity. This information will be used for the State Contract Administrator to communicate with the Authorized Purchasing Entity's regarding Contract expiration and transition options.

c) Custom Reports:

Authorized Purchasing Entities will have access to Contractor's order and support portal, which provides a variety of reporting tools, including account management reports, invoicing reports, order reports, and usage reports.

3. CONTRACTOR'S WEBSITE

The Contractor shall provide a website for Authorized Purchasing Entities to manage accounts, get product information, and to order Products and Services. The Contractor shall maintain, support and keep current a NASPO-specific contract website with current pricing, general contract information, and Contractor point of contact information.

4. LOCAL NUMBER PORTABILITY

Authorized Purchasing Entities may be able to transfer a Master Account User's Number to or from another provider with whom Contractor has a porting relationship in accordance with Contractor internal business policies.

5. OUT OF STOCK

The Contractor shall alert the Authorized Purchasing Entities at time of order, or within three (3) business days after order if a Product is out of stock or subject to backorder date for delivery. The Authorized Purchasing Entity has the option to cancel the Product and/or purchase another Product. Under no circumstances the Contractor will make unauthorized substitutions.

6. SHIPPED ORDERS

All deliveries shall be F.O.B. destination, freight pre-paid, with all transportation and handling charges paid by the Contractor.

7. ORDER ACKNOWLEDGEMENT

The Contractor shall provide the Authorized Purchasing Entities (via self-service in the Contractor's order and support portal) with an Order receipt acknowledgement within one (1) business day after receipt of Order. The Order receipt acknowledgement shall contain:

a) Product(s) and/or Service plan(s) purchased

b) Contractor order number

c) Customer name, as designated by the Authorized Purchasing Entity

d) Bill to address

e) Ship to address

8. SHIPMENT CONFIRMATION

The Contractor shall provide a shipment confirmation to the Authorized Purchasing Entity (via self-service in the Contractor's order and support portal) on the day the Order is shipped. Shipment confirmation shall include, at a minimum:

a) Phone number for new lines, if applicable

b) Electronic Serial Number (ESN), International Mobile Equipment Identity (IMEI), or Mobile Equipment Identifier (MEID), if applicable

c) Date shipped

d) Tracking number

9. DELIVERY SCHEDULES

Delivery for Orders placed against this CA Agreement shall be in accordance with the following:

a) Locations

Deliveries are to be made (statewide) to the location specified on the individual Purchase Order, which may include, but not limited to inside buildings, high-rise office buildings, and receiving docks.

b) Schedule

The Contractor shall make reasonable efforts to deliver in-stock Products within five (5) business days after order receipt acknowledgement.

10. PACKING SLIP INFORMATION

All shipped Orders shall include a packing slip (via self-service in the Contractor's order and support portal) with the following information:

a) Customer name, as designated by the Authorized Purchasing Entity
b) Ship-to address
c) Contractor Order number
d) Description of items

11. INVOICING

Invoice content will vary depending on the type of Service. Invoices shall include data as defined below for an Authorized Purchasing Entity to validate charges.

The Contractor's Invoice shall include, at a minimum:

a) Contractor name, address, and telephone number

b) Authorized Purchasing Entity Name
c) Invoice number
d) Invoice date
e) Account Number
f) Line-item description
g) Quantity purchased
h) Unit of measure
i) Unit Price
j) Total Non-recurring Charges (NRC)/Total One-Time Charges
k) Total Recurring Charges (MRC)/Total Monthly Recurring Charges
l) State sales and/or use tax
m) Total Adjustments
n) Total Charges

The Authorized Purchasing Entity's obligation to make payment pursuant to the contract is subject to services completed and signed off by the Authorized Purchasing Entity and the availability of appropriation funds. Receipt of a Purchase Order under this Participating Addendum is proof of funds for that order.

12. WARRANTY

Equipment is covered by the manufacturer's consumer warranty that will be passed through to the Customer. The Contractor shall provide manufacturer's warranty information (terms and conditions, provider, etc.) to the Customer with all Equipment at the time of delivery. The Contractor shall work with the Customer to facilitate Equipment replacement.

13. DAMAGED, DEFECTIVE AND ITEMS SHIPPED IN ERROR

The Contractor shall provide credit and/or replacement for freight-damaged or defective Products within 48 hours after notification by the Authorized Purchasing Entity at no charge. This also includes incorrect Products shipped or an order entry error by the Contractor's customer service representative. The Contractor cannot require the Authorized Purchasing Entity to deal directly with the manufacturer. Additionally, the Contractor shall provide the Authorized Purchasing Entities with a prepaid and self-addressed container suitable for the return of the Products. Authorized Purchasing Entities shall not be assessed restocking fees or any other fees for items trialed and then returned as unacceptable for any reason.

14. ACTIVATIONS/TERMINATIONS/SUSPENSIONS AND ACCOUNT CHANGES

a) Existing Equipment: The Contractor shall activate or suspend Service or make account changes on existing Product(s) and complete requested plan changes within 48 hours of notification by the Authorized Purchasing Entity. The Contractor shall provide the appropriate Authorized Purchasing Entity with an account change or suspension confirmation within 24 hours of a change or suspension request.
b) New Equipment: The Contractor shall allow for Service activation on new equipment promptly following delivery of equipment, excluding activations involving number portability.
c) Emergency Service Activation: In the event of emergency, i.e. State declaration of emergency during a disaster, the Contractor shall (subject to any force majeure rights available to Contractor) make commercially reasonable efforts to activate Products within 24 hours or less after request.
d) Temporary Suspension and Reactivation: The Contractor shall suspend or reactivate lines within 48 hours of request. During periods of suspension, the line must not incur any charges and the wireless number must not change, provided that the suspension period does not exceed 90 consecutive calendar days or 180 total days in any year.

15. SERVICE PLAN CHANGES

There shall be no change fees or service plan term extensions when a subscriber changes service plans, unless expressly provided otherwise within the terms and conditions of the service plan(s).

16. PRODUCT RECALL

Authorized Purchasing Entities will be notified if a Master Agreement Product is affected by a product recall. The Contractor will provide notification and instructions on how to return or replace the Product.

17. ACCEPTANCE TESTING PERIOD

Inspection and acceptance will be in accordance with Section 15 of Attachment A (NASPO ValuePoint Master Agreement Terms and Conditions) to the Master Agreement.

APPENDIX A-1

GENERAL PROVISIONS – WIRELESS VOICE AND DATA SERVICES

FOR

NASPO PARTICIPATING ADDENDUM FOR LOCAL GOVERNMENT

Revised 12/14/2021

1. DEFINITIONS

The following terms shall be given the meaning shown below.

"Application Program" means a computer program intended to be executed for the purpose of performing useful work for the user of the information being processed. Application programs are developed or otherwise acquired by the user of the Hardware/Software system, but they may be supplied by the Contractor.

"Authorized Purchasing Entities" means any Local government entities defined as any city, county, city and county, district or other local governmental body empowered to expend public funds for the acquisition of goods. Additional qualifying entities include those that are either entirely 100% tax supported, a local governmental entity with a Joint Powers Agreement (JPA), or a federally recognized Indian Tribe.

State agencies or other state entities are not Authorized Purchasing Entities.

"Commercial Software" means Software developed or regularly used that: (i) has been sold, leased, or licensed to the general public; (ii) has been offered for sale, lease, or license to the general public; (iii) has not been offered, sold, leased, or licensed to the public but will be available for commercial sale, lease, or license in time to satisfy the delivery requirements of this Contract; or (iv) satisfies a criterion expressed in (i), (ii), or (iii) above and would require only minor modifications to meet the requirements of this Contract.

"CA Agreement" or "Contract" means the Master Agreement and the PA, together with all valid Purchase Orders submitted to the Contractor by an Authorized Purchasing Entity.

"Contractor" means the business entity with whom the State enters into this Contract. Contractor shall be synonymous with "supplier", "vendor" or other similar term.

"Deliverables" means Equipment (including Cellular Equipment) Services, Software, Information Technology, Telecommunications, Hardware, Documentation and other items (e.g. reports) to be delivered pursuant to this Contract, including any such items furnished incident to the provision of Services.

"Documentation" means manuals and other printed materials necessary or useful to the Authorized Purchasing Entities in its use or maintenance of the Equipment or Software provided hereunder. Manuals and other printed materials customized for the Authorized Purchasing Entities hereunder constitute Work Product if such materials are required by the Purchase Order.

"Equipment" is an all-inclusive term which refers either to individual machines or to a complete data processing system including its Hardware and Operating Software (if any), and Cellular Equipment.

"Equipment Failure" is a malfunction in the Equipment, excluding all external factors, which prevents the accomplishment of the Equipment's intended function(s). If microcode or Operating Software residing in the Equipment is necessary for the proper operation of the Equipment, a failure of such microcode or Operating Software which prevents the accomplishment of the Equipment's intended functions shall be deemed to be an Equipment Failure.

"Hardware" usually refers to computer Equipment and is contrasted with Software. See also equipment.

"Information Technology" includes, but is not limited to, all electronic technology systems and Services, automated information handling, System design and analysis, conversion of data, computer programming, information storage and retrieval, Telecommunications which include voice, video, and data communications, requisite System controls, simulation, electronic commerce and all related interactions between people and Machines.

"Maintenance" includes: (i) remedial maintenance performed by the Contractor or manufacturer as a of a result of Services, Equipment or Software failure, and which is performed as required, i.e. on an unscheduled basis; or (ii) maintenance performed on a scheduled basis by the Contractor or manufacturer and is designed to keep the Equipment and/or Software in proper operating condition.

"Master Agreement" means the Contractor's State of Utah Cooperative Contract (NASPO ValuePoint Wireless Data, Voice, and Accessories), and any amendments thereto.

"Operating Software" means those routines, whether or not identified as Program Products, that reside in the Equipment and are required for the Equipment to perform its intended function(s), and which interface the operator, other Contractor-supplied programs, and user programs to the Equipment.

"Participating Addendum" or "PA" means the Participating Addendum under the NASPO ValuePoint Wireless Communication Services and Equipment to which these General Provisions are attached and into which these General Provisions are incorporated.

"Purchase Order" has the meaning given to it in the Master Agreement.

"Services" means any and all Services, including cellular Services required to be performed by the Contractor pursuant to Contract.

"Software" means an all-inclusive term which refers to any computer programs, routines, or subroutines supplied by the Contractor, including operating software, Programming Aids, Application Programs, and Program Products.

"Software Failure" means a malfunction in the Contractor-supplied Software, other than Operating Software, which prevents the accomplishment of work, even though the Equipment (including its Operating Software) may still be capable of operating properly. For Operating Software failure, see definition of Equipment Failure.

"State" means the government of the State of California, its employees and authorized representatives, including without limitation any department, agency, or other unit of the government of the State of California.

"System" means the complete collection of Hardware, Software and Services as described in this Contract, integrated and functioning together, and performing in accordance with this Contract.

"Telecommunications" means to include all Hardware, Software and Service components involved in the secure, efficient and reliable delivery of analog and digital data streams to and/or from government 'end systems'. Examples of the components that comprise a Telecommunications System are communications links, routers, switches, multiplexers, transmitters, repeaters, and firewalls. The end systems which are interconnected via a telecommunications system include discrete hardware and software elements that accept analog or digital data streams for storage, processing or conversion to an end user. Examples of end systems are servers, telephones, video displays, and handheld computing devices.

"Telecommunications Service" means the providing, allowing, facilitating, or generating of any form of Telecommunication through the use of a Telecommunications device over a Telecommunications system.

"Telecommunications System" means systems, Services or components that: (i) Do not create data except for use by the Telecommunications system or systems used to monitor or manage the Telecommunications system. (ii) Do not store data except transiently for purposes related to network routing, performance optimization or error recovery. (iii) Do not delete or modify data except for purposes related to the reliability, efficiency and security of the Telecommunications Service.

2. PURPOSE

These General Provisions-Wireless Voice and Data Services are part of the Participating Addendum ("PA") entered into between the State and the Contractor.

3. PARTICIPATING ADDENDUM EFFECTIVE DATE

The PA (including this Appendix A-1) signed by the Contractor shall not become effective until signed by the Department of Technology ("PA Effective Date").

4. IRREVOCABLE OFFER

From the date that the Contractor executes the PA ("Signing Date") until such time as the State executes the PA (but in no event beyond 90 days after the Signing Date), and as such process is further described herein, the PA constitutes the irrevocable, firm offer by the Contractor to provide the Services to the Authorized Purchasing Entities for the charges in accordance with the PA. The PA shall not be binding or of any legal force or effect on the State until the authorized execution of the PA by the California Department of Technology, as provided in Section 3 (Participating Addendum Effective Date).

5. COMPLETE INTEGRATION

The PA, including any documents incorporated herein by express reference (including the Master Agreement referenced in the PA), is intended to be a complete integration and there are no prior, contemporaneous, different, or additional agreements pertaining to the subject matter of the PA.

6. SEVERABLITY/SURVIVAL CLAUSE

If any provision of the PA is found to be illegal or unenforceable, such term or provision shall be deemed stricken and the remainder of the PA shall remain in full force and effect.

7. INDEPENDENT CONTRACTOR

The Contractor and the agents and employees of the Contractor, in the performance of the PA, shall act in an independent capacity and not as officers or employees or agents of the State or any Authorized Purchasing Entities.

8. APPLICABLE LAW

a) The PA shall be governed by and interpreted in accordance with the laws of the State of California; venue of any action brought with regard to this PA shall be in Sacramento County, Sacramento, California. Each party irrevocably submits to the sole and exclusive jurisdiction of the courts in Sacramento County, Sacramento California. To the extent Services in the PA are subject to the jurisdiction of the

California Public Utilities Commission (CPUC), the CPUC shall have jurisdiction over the PA, and the PA and related Services may be subject to modification from time to time as the CPUC may so order in the exercise of their lawful jurisdiction. The United Nations Convention on Contracts for the International Sale of Equipment shall not apply to the PA.

b) The Contractor, in conducting its business as required by the PA, shall comply with the Communications Act of 1934, as amended (including, but not limited to, the Telecommunications Act of 1996 and subsequent Acts), and as interpreted and applied by the applicable regulatory authorities and courts and any applicable rules, regulations and decisions of the Federal Communications Commission (FCC) and the CPUC.

9. COMPLIANCE WITH STATUTES AND REGULATIONS

a) The State, Authorized Purchasing Entities and the Contractor warrant and certify that in the performance of the PA, they will comply with all applicable statutes, rules, regulations and orders of the United States and the State of California. The Contractor agrees to indemnify the State and Authorized Purchasing Entities against any loss, cost, damage or liability by reason of the Contractor's violation of this provision.

b) The State and Authorized Purchasing Entities will notify the Contractor of any such claim in writing and tender the defense thereof within a reasonable time; and

c) The Contractor will have sole control of the defense of any action on such claim and all negotiations for its settlement or compromise; provided that: (i) when substantial principles of government or public law are involved, when litigation might create precedent affecting future State and Authorized Purchasing Entities operations or liability, or when involvement of the State and Authorized Purchasing Entities is otherwise mandated by law, the State and Authorized Purchasing Entities may participate in such action at their own expense with respect to attorneys' fees and costs (but not liability); (ii) where a settlement would impose liability on the State and Authorized Purchasing Entities, affect principles of California government or public law, or impact the authority of the State and Authorized Purchasing Entities, the Department of Technology shall have the right to approve or disapprove any settlement or compromise, which approval will not unreasonably be withheld or delayed; and (iii) the State and Authorized Purchasing Entities will reasonably cooperate in the defense and in any related settlement negotiations.

d) To the extent that the PA falls within the scope of Government Code section 11135, the Contractor hereby agrees to respond to and resolve any complaint brought against the Contractor pursuant to this section.

e) In the event that any term or action required in the PA requires a regulatory filing, the Contractor shall make such filing and such action and/or term shall, to the extent applicable, be made effective pursuant to the rules of the FCC and/or the CPUC. To the extent applicable, the Contractor shall make the appropriate FCC filing in a timely manner with the rates being effective consistent with FCC requirements.

f) In addition to the foregoing, the Contractor shall, after execution of the PA, make all necessary regulatory filings.

10. CONTRACTOR'S POWER AND AUTHORITY

a) The Contractor warrants that it has full power and authority to grant the rights herein granted and will hold the State and Authorized Purchasing Entities harmless from and against any loss, cost, liability, and expense (including reasonable attorney fees) arising out of any breach of this warranty. Further, the Contractor avers that it will not enter into any arrangement with any third party which might abridge any rights of the State and Authorized Purchasing Entities under the PA.

b) The State and Authorized Purchasing Entities will notify the Contractor of any such claim in writing and tender the defense thereof within a reasonable time; and

c) The Contractor will have sole control of the defense of any action on such claim and all negotiations for its settlement or compromise; provided that (i) when substantial principles of government or public law are involved, when litigation might create precedent affecting future State and Authorized Purchasing Entities operations or liability, or when involvement of the State and Authorized Purchasing Entities is otherwise mandated by law, the State and Authorized Purchasing Entities may participate in such action at their own expense with respect to attorneys' fees and costs (but not liability); (ii) where a settlement would impose liability on the State and Authorized Purchasing Entities, affect principles of California government or public law, or impact the authority of the State and Authorized Purchasing Entities, the Department of Technology will have the right to approve or disapprove any settlement or compromise, which approval will not unreasonably be withheld or delayed; and (iii) the State and Authorized Purchasing Entities will reasonably cooperate in the defense and in any related settlement negotiations.

11. ASSIGNMENT

The PA shall not be assignable by the Contractor in whole or in part without the written consent of the State. The State's consent shall not be unreasonably withheld or delayed. For the purpose of this paragraph, the State will not unreasonably prohibit the Contractor from freely assigning its right to payment, provided that Contractor remains responsible for its obligations hereunder.

12. WAIVER OF RIGHTS

Any action (other than an express written waiver) or inaction by the State and Authorized Purchasing Entities or the failure of the State and Authorized Purchasing Entities on any occasion, to enforce any right or provision of the PA, shall not be construed to be a waiver by the State of its rights hereunder and shall not prevent the State and Authorized Purchasing Entities from enforcing such provision or right on any future occasion. The rights and remedies of the State and Authorized Purchasing Entities herein are cumulative and are in addition to any other rights or remedies that the State and Authorized Purchasing Entities may have at law or in equity.

13. ORDER OF PRECEDENCE

In the event of any inconsistency between the articles, attachments, specifications or provisions which constitute the CA Agreement, the following order of precedence shall apply:

1) The PA including the General Provisions - Wireless Voice and Data Services.
2) The NASPO Master Agreement (Master Agreement), and any attachments thereto.
3) Purchase Order and related ordering documents such as Work Authorizations (subject to Section 4 of the PA).

14. SUBSTITUTIONS

Substitution of Deliverables may not be tendered without five (5) days advance written consent of the Authorized Purchasing Entities. The Contractor shall not use any specification in lieu of those contained in the PA without written consent of the Authorized Purchasing Entities.

15. SERVICE INTERRUPTIONS

The Contractor's liability for Service interruptions, if any, shall be limited to credit out of allowances provided for in the Master Agreement.

16. ENHANCEMENT OF CELLULAR SERVICE

The Authorized Purchasing Entities must obtain the Contractor's prior approval (which Contractor may withhold in its sole discretion) and written agreement before they may install, deploy or use any regeneration equipment or similar mechanism (for example, a repeater) to originate, amplify, enhance, retransmit or regenerate Cellular Service.

17. SAFETY AND ACCIDENT PREVENTION

In performing work on Authorized Purchasing Entities premises, the Contractor shall conform to any specific safety requirements required by law or regulation. The Contractor may consider any additional precautions as reasonably requested by the Authorized Purchasing Entities for safety and accident prevention purposes.

18. INSURANCE

The Contractor shall maintain all commercial general liability insurance, workers' compensation insurance and any other insurance required under the Master Agreement.

19. TERMINATION FOR THE CONVENIENCE OF THE STATE

a) The State may terminate this Contract for convenience if the Deputy Director, Department of Technology, Statewide Technology Procurement, or designee, determines that a termination is in the State's interest. The Deputy Director, Department of Technology, Statewide Technology Procurement, or designee, shall terminate by delivering to the Contractor a Notice of Termination specifying the extent of termination and the effective date thereof, such date not to be earlier than thirty (30) days from the date the notice is delivered.

b) After receipt of a Notice of Termination, and except as directed by the State, the Contractor shall immediately proceed with the following obligations, as applicable, regardless of any delay in determining or adjusting any amounts due under this clause. The Contractor shall:

   i. Stop work as specified in the Notice of Termination (except as required by any Disentanglement/Migration-Out Services).

   ii. Place no further subcontracts for materials, Services, or facilities, except as necessary to complete the continuing portion of the Contract.

   iii. Terminate all subcontracts to the extent they relate to the work terminated.

   iv. Settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts.

c) After termination, the Contractor shall submit a final termination settlement proposal to the State in the form and with the information prescribed by the State. The Contractor shall submit the proposal promptly, but no later than ninety (90) days after the effective date of termination, unless a different time is provided in the Notice of Termination.

d) The Contractor and the State may agree upon the whole or any part of the amount to be paid as requested under subsection c) above.

e) Unless otherwise specified, upon the termination for convenience, the State shall have no obligation to pay the Contractor any amount other than in accordance with the terms of the this Contract the agreed upon price for Deliverables accepted by the State, adjusted for any savings on freight and other charges plus any unrecovered amortized capital costs originally identified in writing by the Contractor and approved in advance by the State, calculated using Generally Accepted Accounting Principles.

20. TERMINATION FOR DEFAULT

Unless otherwise specified in the Contract:

a) The State may, subject to the clause titled "Force Majeure", by written notice of default to the Contractor, terminate this Contract in whole or in part if the Contractor fails to:

   i. Deliver the Deliverables or perform the Services within the time specified in the Contract or any amendment thereto;

   ii. Make progress, so that the lack of progress endangers performance of this Contract; or

   iii. Perform any of the material provisions of this Contract.

b) The State's right to terminate this Contract under subsection a) above, may be exercised if the failure constitutes a material breach of this Contract and if the Contractor does not cure such failure within the time frame stated in the State's cure notice, which in no event will be less than thirty (30) days.

c) If, after termination, it is determined by a final decision that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the State.

d) Both parties, State and the Contractor, upon any termination for default, have a duty to mitigate the damages suffered by it.

e) The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this Contract, and are subject to the clause titled "Limitation of Liability".

21. RIGHTS AND REMEDIES FOR DEFAULT

a) In the event any Deliverables furnished or Services provided by the Contractor in the performance of the PA should fail to conform to the requirements herein, the Authorized Purchasing Entities may reject the same, and it shall become the duty of the Contractor to reclaim and remove the Deliverables promptly, including by providing the Authorized Purchasing Entities with appropriate instructions for returning the Equipment, or to correct the performance of the Services, without expense to the Authorized Purchasing Entities, and promptly replace or re-perform all such rejected Deliverables or Services, as applicable, with others conforming to the Contract.

b) In addition to any other rights and remedies, the Authorized Purchasing Entities may require the Contractor, at the Contractor's expense, to ship Deliverables via air freight or expedited routing to avoid or minimize actual or potential delay if the delay is the fault of the Contractor.

c) In the event of the termination of the Contract, either in whole or in part, by reason of default or breach by the Contractor, any direct damages sustained by the Authorized Purchasing Entities in procuring any items which the Contractor agreed to supply shall be borne and paid for by the Contractor.

d) The Authorized Purchasing Entities reserves the right to offset the reasonable cost of all direct damages caused to the Authorized Purchasing Entities against any outstanding invoices or amounts owed to the Contractor or to make a claim against the Contractor therefore.

22. LIMITATION OF LIABILITY

a) Except as may be otherwise approved by the California Department of Technology, Chief Technology Officer or designee, and subject to subsection b) below, the Contractor's liability for damages to the State for any cause whatsoever, and regardless of the form of action, whether in contract or in tort, shall be limited to the Purchase Price. For purposes of this subsection a), "Purchase Price" will mean the aggregate PA price; except that, with respect to a Contract under which multiple Purchase Orders will be issued (e.g., a Master Agreement or Multiple Award Schedule contract), "Purchase Price" will mean the total price of the Purchase Order for the Deliverable(s) or Service(s) that gave rise to the loss,

such that the Contractor will have a separate limitation of liability for each Purchase Order.

b) The foregoing limitation of liability shall not apply (i) to any liability under the Section 9 (Compliance with Statutes and Regulations) (ii) to liability under Section 38 (Patent, Copyright, and Trade Secret Indemnity) or to any other liability (including without limitation indemnification obligations) for infringement of third party intellectual property rights; (iii) to claims covered by any specific provision herein calling for liquidated damages; (iv) to claims arising under provisions herein calling for indemnification for third party claims against the State or Authorized Purchasing Entities for bodily injury to persons or damage to real or tangible personal property caused by the Contractor's negligence or willful misconduct; (v) to costs or attorney's fees that the State or Authorized Purchasing Entities becomes entitled to recover as a prevailing party in any action, or (vi) to direct costs of mitigation, remediation and/or notification obligations resulting from any data breach.

c) Nothing herein shall be construed to waive or limit the State's sovereign immunity or any other immunity from suit provided by law.

d) In no event will either the Contractor or the State or Authorized Purchasing Entities be liable for consequential, incidental, indirect, special, or punitive damages, even if notification has been given as to the possibility of such damages, except (i) to the extent that the Contractor's liability for such damages is specifically set forth in the Purchase Order or (ii) to the extent that the Contractor's liability for such damages arises out of subsection b)(i), b)(ii), or b)(iv) above.

23. STATEMENT OF ECONOMIC INTERESTS

As applicable, consultants can be categorized as a public official for purposes of adherence to Conflict of Interest laws and the filing of a Statement of Economic Interests (Form 700). As such, upon award and prior to beginning work, and on an annual basis, the consultant's staff and/or subcontractors (as applicable) engaged in performing the Services described in the PA are required to complete and submit a Form 700 to the State of California. To acquire an exemption from this requirement, consultant must submit a request to the Department of Technology, Statewide Technology Procurement explaining the basis for the request and the staff or subcontractor staff to be excluded on that basis. Form 700 and instructions can be accessed at the California Fair Political Practices Commission website, http://www.fppc.ca.gov.

24. ACCESS TO FACILITIES/FACILITIES ACCESS POLICIES

a) The Authorized Purchasing Entities acknowledge that the Contractor or its employees and/or subcontractors (collectively the "Contractor Personnel") may work closely with the Authorized Purchasing Entities to implement and perform the Services by working on the premises of participating Authorized Purchasing Entities.

b) The Authorized Purchasing Entities will ensure that Contractor Personnel have access to Authorized Purchasing Entities' Locations as reasonably necessary for the Contractor to provide the Services for which the Contractor is responsible.

c) Contractor Personnel will coordinate with the Authorized Purchasing Entities as necessary to obtain access to Authorized Purchasing Entities' Locations to perform the Services, or to perform other obligations as contained herein.

d) If, as part of Authorized Purchasing Entities' agency or standard policies and procedures regarding the Contractors working onsite, Authorized Purchasing Entities may require Contractor Personnel to comply with the Authorized Purchasing Entities standard access policies, prior to placing an order, that requires access to Authorized Purchasing Entities' Locations ("Standard Access Agreements"), the Authorized Purchasing Entities will: (i) provide a copy of or an URL link to such Standard Access Agreements to the Contractor in advance of placing any order that requires access to the Authorized Purchasing Entities' Locations, or (ii) copies or references to Standard Access Agreements already executed by the Contractor that apply, if any, with a statement that those are still applicable to Contractor Personnel.

25. USE AND ADVERTISING USE OF DATA

The Contractor or its third party providers are not authorized to use, sell, resell, package or repackage or publicly display any information deemed by the Authorized Purchasing Entities as confidential, sensitive or personal information pursuant to the PA language or Authorized Purchasing Entities data without written express approval of the Authorized Purchasing Entities. This restriction includes key word searching or data mining of Authorized Purchasing Entities data.

26. CONTRACTOR'S LIABILITY FOR INJURY TO PERSONS OR DAMAGE TO PROPERTY

a) Except to the extent arising out of an Authorized Purchasing Entities Representative's (as defined below) own negligence, the Contractor shall be liable for damages arising out of injury to the person and/or damage to the property of the Authorized Purchasing Entities, employees of the Authorized

Purchasing Entities, persons designated by the Authorized Purchasing Entities for training, or any other person(s) other than agents or employees of the Contractor, designated by the Authorized Purchasing Entities for any purpose, prior to, during, or subsequent to delivery, installation, acceptance, and use of the Deliverables either at the Contractor's site or at the Authorized Purchasing Entities' place of business, provided that the injury or damage was caused by the fault, negligence, or willful misconduct of the Contractor.

The Contractor shall not be liable for damages solely arising out of or caused by an alteration or an Attachment not made or installed by the Contractor, or for damage to alterations or Attachments that may result from the normal operation and maintenance of the Deliverables provided by the Contractor during the Contract.

b) The Contractor shall not be liable for damages solely arising out of or caused by an alteration or an Attachment not made or installed by the Contractor, or for damage to alterations or Attachments that may result from the normal operation and maintenance of the Deliverables provided by the Contractor during the Contract.

27. INDEMNIFICATION

The Contractor agrees to indemnify, defend and hold harmless the State and Authorized Purchasing Entities, its officers, agents and employees from any and all third party claims, costs (including without limitation reasonable attorneys' fees), and losses due to the injury or death of any individual, or the loss or damage to any real or tangible personal property, to the extent resulting from the willful misconduct or negligent acts or omissions of the Contractor or any of its affiliates, agents, subcontractors, employees, suppliers, or laborers furnishing or supplying work, Deliverables, Services, materials, or supplies in connection with the performance of this Contract. Such defense and payment will be conditional upon the following:

a) The State and Authorized Purchasing Entities will notify the Contractor of any such claim in writing and tender the defense thereof within a reasonable time (but no delay or failure to so notify the Contractor shall relieve it of its obligations under the PA except to the extent that Contractor has suffered actual prejudice by such delay or failure); and

b) The Contractor will have sole control of the defense of any action on such claim and all negotiations for its settlement or compromise; provided that (i) when substantial principles of government or public law are involved, when litigation

might create precedent affecting future State and Authorized Purchasing Entities operations or liability, or when involvement of the State and Authorized Purchasing Entities is otherwise mandated by law, the State and Authorized Purchasing Entities may participate in such action at its own expense with respect to attorneys' fees and costs (but not liability); (ii) where a settlement would impose liability on the State and Authorized Purchasing Entities, affect principles of California government or public law, or impact the authority of the State and Authorized Purchasing Entities, the California Department of Technology shall have the right to approve or disapprove any settlement or compromise, which approval will not unreasonably be withheld or delayed; and (iii) the State and Authorized Purchasing Entities will reasonably cooperate in the defense and in any related settlement negotiations.

28. SERVICE TAXES, FEES, SURCHARGES, AND SURCREDITS

a) The Authorized Purchasing Entities shall be subject to Service taxes, fees, surcharges, and surcredits that are mandated by the government of the State of California (including the CPUC), and the federal government (including the FCC), as applicable. The Authorized Purchasing Entities shall be subject to Service taxes, fees, surcharges and surcredits mandated by the State and federal governments, and also as mandated by California local government jurisdictions and political subdivisions, as applicable. Mandates in effect at the time of award and as hereafter mandated may be recovered from Authorized Purchasing Entities of the applicable Service.

b) The Authorized Purchasing Entities reserves the right to verify, and if necessary, challenge the Contractor and the applicable regulatory authority, the application by the Contractor of Service taxes, fees, surcharges, and surcredits referred to in subsection a) above. Should the Authorized Purchasing Entities consider the application of such items to be inappropriate, the Authorized Purchasing Entities and the Contractor shall meet and confer regarding the applicability of such items. If thereafter a dispute exists regarding the proper application of such items, the parties may resolve such disputes in accordance with Section 40, Disputes. Either party may seek guidance or clarification from the applicable regulatory authority regarding the appropriate application of such items. If the application of such items is deemed inappropriate by the regulatory authority, the Contractor shall cease and/or revise the application of such items and, if appropriate, issue retroactive credits to the impacted Authorized Purchasing Entities.

c) All charges under the PA are exclusive of applicable federal, state and local sales, use, excise, utility, and gross receipt taxes, other similar tax-like charges and surcharges. The Authorized Purchasing Entities will provide the Contractor the tax exemption certificates that comply with the requirements of the Internal Revenue Code and Regulations (i.e., see Internal Revenue Regulations section 49.4253-11 and IRS Publication 510 or their current equivalent versions). The Contractor agrees to exempt all Entities from federal excise taxes and E-9-1-1 taxes, all as applicable, promptly after the date the Contractor receives a duly authorized and valid exemption certificate. The Contractor agrees, for the purpose of federal exemption, that the State will act as the authorized agent for the PA in submitting exemption requests on behalf of all Authorized Purchasing Entities.

   The Contractor shall be authorized to include as a separate line item a charge for reimbursement of sales tax or use tax expense that is incurred with respect to a sale of handsets, accessories, or other tangible property to Authorized Purchasing Entities, and the Authorized Purchasing Entities shall pay such sales tax or use tax reimbursement charge to the Contractor.

29. NEWLY MANUFACTURED EQUIPMENT

Except where requested by the Authorized Purchasing Entity or when Equipment is provided as a warranty replacement, all Equipment furnished under the PA shall be newly manufactured Equipment or certified as new and warranted as new by the manufacturer; used or reconditioned Equipment is prohibited, unless otherwise specified.

30. PARTICIPATING ADDENDUM MODIFICATION

a) No amendment or variation of the terms of the PA shall be valid unless made in writing, signed by the parties and approved as required. No oral understanding or agreement not incorporated in the PA is binding on any of the parties.

b) Any change to the Contractor's name will require a PA amendment. The State, upon notification and receipt of legal documentation indicating the name change from the Contractor, will process the required amendment, assuming no other change has been made to the business entity.

31. NEWS RELEASES

Any news releases, endorsements, advertising, and social media content pertaining to the PA shall not be made without prior written approval of the California Department of Technology and the applicable Authorized Purchasing Entity.

32. SOFTWARE LICENSE

Unless otherwise specified in the Purchase Order, the Contractor hereby grants to the Authorized Purchasing Entities and the Authorized Purchasing Entities accepts from the Contractor, subject to the terms and conditions of this Contract, a royalty-free, non-exclusive right to the use of Software Products in this Contract. The Authorized Purchasing Entities may use the Software Products only in connection with the use of the Service and according to the licensing terms specified in the Contract. Acceptance of the Software (including any click-to-accept (Click Wrap) third party Commercial Software/EULAs associated with Services sold under this Contract) will be governed by the terms and conditions of this Contract.

33. PROTECTION OF CONTRACTOR FURNISHED PROPRIETARY SOFTWARE AND OTHER PROPRIETARY DATA

a) The Authorized Purchasing Entities agree that all material appropriately marked or identified in writing as proprietary, and furnished by the Contractor hereunder are provided for the Authorized Purchasing Entities exclusive use for the purposes of the PA only. All such proprietary data shall remain the property of the Contractor. The Authorized Purchasing Entities agree to take all reasonable steps to insure that such proprietary data are not disclosed to others, without prior written consent of the Contractor, subject to the California Public Records Act.

b) The Authorized Purchasing Entities will insure, prior to disposing of any Contractor furnished media, that any licensed materials contained thereon have been erased or otherwise destroyed.

c) The Authorized Purchasing Entities agree that they will take appropriate action by instruction, agreement or otherwise with its employees or other persons permitted access to the Contractor furnished licensed software and other proprietary data to satisfy its obligations in the PA with respect to use, copying, modification, protection and security of proprietary software and other proprietary data.

34. FUTURE RELEASES

Unless otherwise specifically provided in the Purchase Order, if improved versions, e.g., patches, bug fixes, updates or releases, of any Software Product are developed by the Contractor, and are made available to other licensees, they will be made available to the Authorized Purchasing Entities at no additional cost. If the Contractor offers new versions or upgrades to the Software Product, they shall be made available to the Authorized Purchasing Entities at the Authorized Purchasing Entities option at a price no greater than the Master Agreement price plus a price increase proportionate to the

increase from the list price of the original version to that of the new version, if any. If the Software Product has no list price, such price increase will be proportionate to the increase in average price from the original to the new version, if any, as estimated by the Contractor in good faith.

35. ENCRYPTION & AUTHORIZATION KEYS

Upon initiation of Service, the Contractor, where applicable, shall provide all encryption and authorization keys required by the Authorized Purchasing Entities to operate or access the Software Products, Services or Equipment.

36. PATENT, COPYRIGHT AND TRADE SECRET INDEMNITY

a) The Contractor will indemnify, defend, and hold harmless the State and Authorized Purchasing Entities, its officers, agents and employees, from any and all third party claims, costs (including without limitation reasonable attorneys' fees), and losses for infringement or violation of any U.S. Intellectual Property Right by any product, equipment or service provided hereunder. With respect to claims arising from Equipment or Software manufactured by a third party and sold by the Contractor, pursuant to this Contract, the Contractor will pass through to the State and Authorized Purchasing Entities such indemnity rights as it receives from such third party ("Third Party Obligation") and will cooperate in enforcing them; provided that if the third party manufacturer fails to honor the Third Party Obligation, the Contractor will provide the State and Authorized Purchasing Entities with indemnity protection equal to that called for by the Third Party Obligation, but in no event greater than that called for in the first sentence of this section. The provisions of the preceding sentence apply only to third party Equipment or Software sold as a distinct unit and accepted by the State and Authorized Purchasing Entities. Unless a Third Party Obligation provides otherwise, the defense and payment obligations set forth in this subsection will be conditional upon the following:

   i. The State and Authorized Purchasing Entities will notify the Contractor of any such claim in writing and tender the defense thereof within a reasonable time; and

   ii. The Contractor will have sole control of the defense of any action on such claim and all negotiations for its settlement or compromise; provided that: (a) when substantial principles of government or public law are involved, when litigation might create precedent affecting future State and Authorized Purchasing Entities operations or liability, or when involvement of the State and Authorized Purchasing Entities is otherwise mandated by law, the State and Authorized

Purchasing Entities may participate in such action at its own expense with respect to attorneys' fees and costs (but not liability); (b) where a settlement would impose liability on the State and Authorized Purchasing Entities, affect principles of California government or public law, or impact the authority of the State and Authorized Purchasing Entities, the California Department of Technology will have the right to approve or disapprove any settlement or compromise, which approval will not unreasonably be withheld or delayed; and (c)the State and Authorized Purchasing Entities will reasonably cooperate in the defense and in any related settlement negotiations.

b) Should the Deliverables (including any Software or Equipment) or Cellular Service, or the operation thereof, become, or in the Contractor's opinion are likely to become, the subject of a claim of infringement or violation of a U.S. Intellectual Property Right, the State and Authorized Purchasing Entities shall permit the Contractor, at its option and expense either (i) to procure for the State and Authorized Purchasing Entities the right to continue using the Deliverables or Cellular Service (ii) to replace or modify the same so that they become non-infringing or (iii) discontinue Cellular Service to the infringing lines and refund any amounts prepaid by the State and Authorized Purchasing Entities for such Service for the period after the State and Authorized Purchasing Entities cease use of the Deliverables or Cellular Service. If none of these options can reasonably be taken, or if the use of such Deliverables or Service by the State and Authorized Purchasing Entities shall be prevented by injunction, the Contractor agrees to take back such Deliverables and make every reasonable effort to assist the State and Authorized Purchasing Entities in procuring substitute Deliverables. If in the reasonable, good faith opinion of the State and Authorized Purchasing Entities, the return of such infringing Deliverables makes the retention of other Deliverables or the use of Services acquired from the Contractor under the PA impractical, the State and Authorized Purchasing Entities shall then have the option of terminating such PAs or applicable Purchase Order thereof, without penalty or termination charge. The Contractor agrees to take back such Deliverables and refund any sums the State and Authorized Purchasing Entities has paid the Contractor less any reasonable amount for use or damage.

c) The Contractor shall have no liability to the State and Authorized Purchasing Entities under any provision of this clause with respect to any claim of patent, copyright or trade secret infringement which is based upon:

i. The combination or utilization of Cellular Service furnished hereunder with Equipment, Software, or devices not provided or made available by the Contractor; or,

ii. The operation of Equipment furnished by the Contractor under the control of any operating software other than, or in addition to, the current version of Contractor or manufacturer-supplied operating software; or

iii. The unauthorized modification by or on behalf of the State and Authorized Purchasing Entities of the Equipment or Software furnished hereunder; or

iv. Any illegal or unauthorized use of the Cellular Service; or

v. The Authorized Purchasing Entities continuance of an infringing activity after being notified thereof; or

vi. Any negligent or willful act or omission by or attributable to the Authorized Purchasing Entities.

d) The Contractor certifies that it has appropriate systems and controls in place to ensure that Authorized Purchasing Entities funds will not be used in the performance of the PA for the acquisition, operation, or maintenance of Software or Equipment in violation of U.S Intellectual Property laws.

37. EXAMINATION AND AUDIT

Unless otherwise specified in the Purchase Order:

a) Without limiting any examination or audit rights, or other rights of the State and Authorized Purchasing Entities set forth in the Contract, the Contractor agrees that the State and Authorized Purchasing Entities, or its designated representative, shall have the right, to audit, review and copy any records and supporting documentation pertaining to performance of and invoicing under this Contract. The Contractor agrees to maintain such records for possible audit for a minimum of four (4) years after final payment and five (5) years for Federal Universal Service Fund ("E-rate") funded projects, unless a longer period of records retention is stipulated or required by law. The Contractor agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees or others who might reasonably have information related to such records. The State and Authorized Purchasing Entities agrees to take all reasonable steps to ensure that such information is not disclosed to third parties, subject to the California Public Records Act or other lawful process (e.g. in response to a subpoena).

b) For avoidance of doubt, audits may include those conducted by personnel of the State and Authorized Purchasing Entities, or its designated representative, in performance of PA oversight responsibilities in reviewing invoices, monthly fiscal management and/or other required reports, as well as the application of Service taxes, fees, surcharges and surcredits on invoices.

c) Subject to the Disputes clause, if an audit reveals that the Contractor has overcharged the State and Authorized Purchasing Entities for Service(s) during the period to which the audit relates, then the Contractor shall promptly refund such overcharges to the State and Authorized Purchasing Entities as appropriate, and, if the amount of the overcharge (offset by any undercharges revealed by such audit) is more than five percent (5%) of the Contractor's charges to the State and Authorized Purchasing Entities for such Service(s) for such period, the reasonable cost of such audit (including any imputed costs of State and Authorized Purchasing Entities for audits performed by the State and Authorized Purchasing Entities itself) shall be borne by the Contractor.

d) If any audit reveals an inadequacy or insufficiency of the Contractor's performance, including performance in connection with any security obligations of the Contractor as set forth in this Contract, the Contractor shall promptly develop and provide to the State and Authorized Purchasing Entities, for approval, a reasonable and detailed corrective action plan and promptly thereafter implement such plan in accordance with its terms. In addition, the cost of such audit, and subsequent related audits or audit activity, shall be borne by the Contractor in the event that: (i) the State and Authorized Purchasing Entities specifically identifies a particular deficiency with respect to the Contractor's performance of any particular Service; and (ii) The Contractor either denies or fails to cure such identified deficiency within thirty (30) calendar days. Further, the Contractor agrees to include an equivalent right of the State and Authorized Purchasing Entities to audit records and interview staff in any subcontract related to performance of and invoicing under this Contract.

e) Notwithstanding anything to the contrary in this section, the State and Authorized Purchasing Entities or any auditing body or its designated representative, agrees that it will not exercise the audit rights described in this section more than once per calendar year, however, any follow-up reviews or other investigations related to an audit initiated under this section may be conducted at any time and upon reasonable notice.

f) Where the Contractor conducts an internal audit of the Contractor's performance under the PA which shows any significant failures by the Contractor to meet its obligations hereunder, the Contractor shall provide to the State and Authorized Purchasing Entities a written summary describing in reasonable detail such findings of such internal audit. If the Contractor determines at any time that it has overcharged any Authorized Purchasing Entities, then the Contractor shall promptly provide to the applicable Authorized Purchasing Entities a credit equal to the amount of such overcharge plus interest from the date of the Contractor's receipt of such overcharge at a rate which is consistent with the rate provided in the California Prompt Payment Act, Government Code section 927 et seq.

g) The Contractor agrees that (i) the State or its designees will have the right to obtain, copy and review all billing records of public or local government entities purchasing under this PA; and (ii) the State and Authorized Purchasing Entities may forward audit results showing call rate discrepancies to the CPUC.

38. CONTINUING STANDARDS OF PERFORMANCE FOR CONTRACTOR SERVICES

Unless otherwise specified in the Purchase Order:

a) Applicability:

The Contractor agrees that subsequent to completion of the successful performance period and acceptance of the Services by the Authorized Purchasing Entities, the Contractor will comply with the availability and/or performance requirements and criteria established in the PA throughout the full PA Term, including any extensions.

b) Causes and Effects of Contractor Service Malfunctions:

i. The Authorized Purchasing Entities recognize that Equipment failures do occur, and that software is not infallible. Moreover, the Authorized Purchasing Entities concedes that conditions external to Equipment may cause it to fail, particularly environmental conditions, that are outside the Equipment design operating parameters. The Authorized Purchasing Entities agree, therefore, that unsatisfactory Contractor Service performance which is outside the control of the Contractor will not be considered in a determination of the level of performance.

ii. In the event the Contractor's Service failure or unsatisfactory performance is a result of factors external to the PA, the Contractor agrees to make appropriate recommendations to the Authorized Purchasing Entities in order that such

external factors may be corrected to preclude future problems of a similar nature. Within five (5) business days after such failure occurs, the Contractor shall meet and confer with the Authorized Purchasing Entities regarding appropriate next steps, which may include preparation, for the Authorized Purchasing Entities review, comment and approval, of a milestone-based action plan making such recommendations and corrections described in the preceding sentence.

iii. In the event that the precise cause of a failure cannot be readily determined, both the Authorized Purchasing Entities and the Contractor shall continue to research the situation until the probable cause has been identified or until agreement is reached that the probable cause cannot be identified. Within five (5) business days after such failure occurs (or such other timeframe specified in the solicitation), the Contractor shall meet and confer with the Authorized Purchasing Entities regarding appropriate next steps, which may include preparation, for the Authorized Purchasing Entities review, comment and approval, of a milestone-based action plan for researching the probable cause of the failure.

c) Levels of Performance Required

The Contractor shall perform the Deliverables or Services at the levels of quality, completeness, accuracy, timeliness, responsiveness and efficiency that are consistent with the accepted industry standards or Service Level Agreements applicable to the performance of such Deliverables and the Services or, if higher, the levels of the same received by the Authorized Purchasing Entities prior to the Effective Date and as set out in applicable Service performance exhibits or the Purchase Order, agreed upon by the parties and incorporated into the Contract. Without limiting the foregoing or other obligations of the Contractor, for those Deliverables, requirements, and Services for which the Purchase Order specifies a particular Service level, the Contractor shall provide all Deliverables, requirements, and Services at levels at least in accordance with such Service levels.

d) Remedies for Unacceptable Levels of Performance

The remedies provided in this section shall be in addition to any remedies regarding Warranty. If a Contractor Deliverable, requirement, or Service does not meet the minimum level of performance as set forth in the Purchase Order, the remedy or process for correction set forth in the Purchase Order will be followed by the parties. If the specific Deliverable or Service has no remedy or process for

correction set forth in the Purchase Order, Authorized Purchasing Entities shall promptly notify the Contractor in writing of such unacceptable performance and the impact on the Authorized Purchasing Entities, and the Contractor shall promptly initiate action to remedy the unsatisfactory performance. The Contractor shall, at its option, take one or more of the following actions to correct the situation:

i. Provide on-site Contractor personnel for analysis of the problem;

ii. Replace the faulty Equipment, Deliverable or Service;

iii. Provide substitute Equipment, Deliverable or Service satisfactory to the Authorized Purchasing Entities;

iv. Modify the Equipment, Deliverable or Service; or

v. Take any other action with which the Authorized Purchasing Entities concurs.

If the Contractor fails to correct an unacceptable level of performance with respect to any Equipment, Deliverable, or Service to the requirements of the PA during the thirty (30) calendar days following receipt of written notice from the Authorized Purchasing Entities (or such other timeframe specified in the Contract), the Authorized Purchasing Entities and the Contractor can mutually agree to extend the time to a specified date. If the Contractor fails to correct the situation to the satisfaction of the Authorized Purchasing Entities by the end of the specified time period, then, without limiting any other remedy specified in the Contract, the Authorized Purchasing Entities may (i) secure replacement Equipment, Deliverables or Services with the Contractor responsible for payment of Costs to Cover, and/or (ii) terminate that portion of the Purchasing Order relating to the deficient equipment, Deliverable, Requirement, or Service. The above-described remedies are not intended to constrain either party from any other action mutually agreed to by the Contractor and the Authorized Purchasing Entities as being more appropriate or to limit any of the Authorized Purchasing Entities other rights and remedies under this Contract, at law or in equity, including the exercise of Section 46 (Set-Off Rights).

e) Replacement or Substitution of Equipment by the Contractor

If the Contractor, in an attempt to improve the level of performance, replaces or substitutes Equipment or Service that meets all of the PA requirements, such replacement or substitution shall be at no cost to the Authorized Purchasing Entities.

f) Review of Performance

The Contractor's performance will be periodically evaluated in accordance with the Service levels for each Service delivered throughout the term of this Contract. In accordance with the California Government Code, the Contractor performance evaluation will be completed within the guidelines of the State Administrative Manual.

39. AVAILABILITY

a) If at any time after award of this Contract, the Contractor becomes unable to provide any part of its contracted Services, the Contractor must, within ten (10) Business Days, notify the Authorized Purchasing Entities in writing to seek a potential resolution, and if appropriate, propose a replacement of those Services which it can no longer provide. The replacement must be at no cost to the Authorized Purchasing Entities, and shall be materially equivalent to or exceed the proposed Service which was previously offered and accepted by the Authorized Purchasing Entities in the Contractor's Final Bid or awarded Contract.

b) The Authorized Purchasing Entities reserve the sole right to determine if the proposed replacement is acceptable. An inability to provide a Mandatory requirement may be grounds for PA termination in whole or in part.

40. DISPUTES

Unless otherwise specified in the Contract:

a) The parties shall deal in good faith and attempt to resolve potential disputes informally.

b) If the dispute persists, the Contractor shall submit to the Authorized Purchasing Entities' Director or designee a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to or involving this PA. The Contractor's written demand shall be fully supported by factual information, and if such demand involves a cost adjustment to the applicable Purchase Order, the Contractor shall include with the demand a written statement signed by an authorized person indicating that the demand is made in good faith, that the supporting data are accurate and complete and that the amount requested accurately reflects the Purchase Order adjustment for which the Contractor believes the Authorized Purchasing Entities are liable. The Authorized Purchasing Entities' Director or designee shall have thirty (30) days after receipt of the Contractor's written demand invoking this Section 42 (Disputes) to render a written decision. If a written decision is not rendered within thirty (30) days after

receipt of the Contractor's demand, it shall be deemed a decision adverse to the Contractor's contention.

c) If the Contractor is not satisfied with the decision of the Authorized Purchasing Entities' Director or designee, the Contractor may appeal the decision, in writing, within fifteen (15) days of its issuance (or the expiration of the thirty (30) day period in the event no decision is rendered by the Authorized Purchasing Entities, to the Department of Technology, Statewide Technology Procurement Deputy Director or designee, who shall have thirty (30) days to render a final decision. If the Contractor does not appeal the decision of the Authorized Purchasing Entities' Director or designee, the decision shall be conclusive and binding regarding the dispute and the Contractor shall be barred from commencing an action in court.

d) Pending the final resolution of any dispute arising under, related to or involving this PA, the Contractor agrees to diligently proceed with the performance of the applicable Purchase Order.

e) Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Department of Technology Statewide Technology Procurement Deputy Director or designee if an appeal was made. If Department of Technology Statewide Technology Procurement Deputy Director or designee fails to render a final decision within thirty (30) days after receipt of the Contractor's appeal for a final decision, it shall be deemed a final decision adverse to the Contractor's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless the Contractor commences an action in a court of competent jurisdiction to contest such decision within ninety (90) days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.

41. STOP WORK

a) The Authorized Purchasing Entities may, at any time, by written Stop Work Order to the Contractor, require the Contractor to stop all, or any part, of the work called for by the applicable Purchase Order for a period of forty-five (45) days after the Stop Work Order is delivered to Contractor, and for any further period to which the parties may agree. The Stop Work Order shall be specifically identified as such and shall indicate it is issued under this clause. Upon receipt of the Stop Work Order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the Stop Work Order during the period of work stoppage. Within a period of forty-five

(45) days after a Stop Work Order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Authorized Purchasing Entities shall either: (i) Cancel the Stop Work Order; or (ii) Terminate the work covered by the Stop Work Order as provided for in the termination for default or the termination for convenience clause of the PA.

b) If a Stop Work Order issued under this clause is canceled or the period of the Stop Work Order or any extension thereof expires, the Contractor shall resume work. The Authorized Purchasing Entities shall make an equitable adjustment in the delivery schedule, the Purchase Order price, or both, and the Purchase Order shall be modified, in writing, accordingly, if: (i) The Stop Work Order results in an increase in the time required, or in the Contractor's cost properly allocable to the performance of any part of this Contract; and (ii) The Contractor asserts its right to an equitable adjustment within sixty (60) days after the end of the period of work stoppage; provided, that if the Authorized Purchasing Entities decides the facts justify the action, the Authorized Purchasing Entities may receive and act upon a proposal submitted at any time before final payment under this Contract.

c) If a Stop Work Order is not canceled and the work covered by the Stop Work Order is terminated in accordance with the provision entitled Termination for the Convenience of the State, the State shall allow reasonable costs resulting from the Stop Work Order in arriving at the termination settlement.

d) The State and Authorized Purchasing Entities shall not be liable to the Contractor for loss of profits because of a Stop Work Order issued under this clause.

42. COVENANT AGAINST GRATUITIES

The Contractor represents and warrants to the State that no gratuities (in the form of entertainment, gifts or otherwise) were offered or given by the Contractor, or any agent or representative of the Contractor, to any officer or employee of the State with a view toward securing the PA or securing favorable treatment with respect to any determinations concerning the performance of the PA. For breach or violation of this representation and warranty, the State shall have the right to terminate the PA, either in whole or in part. The rights and remedies of the State provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or equity.

43. ASSIGNMENT OF ANTITRUST ACTIONS

Pursuant to Government Code sections 4552, 4553, and 4554, the following provisions are incorporated herein:

a) In submitting a bid to the State, the supplier offers and agrees that if the bid is accepted, it will assign to the State all rights, title, and interest in and to all causes of action it may have under section 4 of the Clayton Act (15 U.S.C. 15) or under the Cartwright Act (Chapter 2, commencing with section 16700, or Part 2 of Division 7 of the Business and Professions Code), arising from purchases of Equipment, material and other items, or Services by the supplier of sale to the State pursuant to the solicitation. Such assignment shall be made and become effective at the time the State tenders final payment to the supplier.

b) If the State receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under this chapter, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the State any portion of the recovery, including treble damages, attributable to overcharges that were paid by the assignor but were not paid by the State as part of the bid price, less the expenses incurred in obtaining that portion of the recovery.

c) Upon demand in writing by the assignor, the assignee shall, within one year from such demand, reassign the cause of action assigned under this part if the assignor has been or may have been injured by the violation of law for which the cause of action arose and (i) The assignee has not been injured thereby, or (ii) The assignee declines to file a court action for the cause of action.

44. RECYCLING

The Contractor shall certify in writing under penalty of perjury, the minimum, if not exact, percentage of post-consumer material as defined in the Public Contract Code section 12200 -12209, in products, materials, Equipment, or supplies offered or sold to the State that fall under any of the statutory categories regardless of whether the product meets the requirements of section 12209.

The certification shall be provided by the Contractor, even if the product or good contains no postconsumer recycled material, and even if the postconsumer content is unknown. With respect to printer or duplication cartridges that comply with the requirements of section 12156(e), the certification required by this subsection shall specify that the cartridges so comply (Public Contract Code section 12205(b)(2)). A state agency contracting officer may waive the certification requirements if the percentage of postconsumer material in the products, materials, Equipment, or supplies can be verified in a written advertisement, including, but not limited to, a product label, a catalog, or a manufacturer or vendor Internet web site. The Contractor is to use, to the

maximum extent economically feasible in the performance of the PA work, recycled content products (Public Contract Code section 12203(d)).

45. CHILD SUPPORT COMPLIANCE ACT

For any PA in excess of $100,000, the Contractor acknowledges in accordance with Public Contract Code section 7110, that:

a) The Contractor recognizes the importance of child and family support obligations and shall fully comply with all applicable State and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and

b) The Contractor, to the best of its knowledge is fully complying with the earnings assignment orders of all employees and is providing the names of all new employees to the New Hire Registry maintained by the California Employment Development Department.

46. SET-OFF RIGHTS

Notwithstanding anything to the contrary in this Contract, and in addition to the other rights of the State and/or the applicable Authorized Purchasing Entities hereunder with respect to disputing invoices or withholding amounts, the State and/or the Authorized Purchasing Entities, in its sole discretion, may set off against any and all amounts otherwise payable to the Contractor pursuant to any of the provisions of this Contract: (i) any and all amounts claimed by the State and/or the Authorized Purchasing Entities in good faith to be owed by the Contractor to the State and/or the Authorized Purchasing Entities to any of the provisions of this Contract; and (ii) any and all amounts that the State and/or Authorized Purchasing Entities believes in good faith that it does not owe to the Contractor pursuant to any of the provisions of this Contract. Within twenty (20) calendar days after any such set-off by the State and/or applicable Authorized Purchasing Entities, the State and/or applicable Authorized Purchasing Entities shall provide the Contractor with a written accounting of such set-off, a written statement of the reasons therefore, and a reasonable opportunity to meet and discuss the claimed set-off. In the event the Contractor does not agree with the set-off applied, the Contractor or Authorized Purchasing Entities may contact the State to seek equitable resolution or exercise its rights under applicable law.

47. CONTRACTOR PERSONNEL

a) When the Contractor needs access to Authorized Purchasing Entities' premises to perform the required Services under this Contract, the Contractor personnel shall perform their duties during Authorized Purchasing Entities' regular work days and normal work hours, except as may be specifically agreed to otherwise by the Authorized Purchasing Entities and the Contractor.

b) The Authorized Purchasing Entities reserve the right to disapprove the continuing assignment of the Contractor personnel working on Authorized Purchasing Entities' premises. If the Authorized Purchasing Entities exercise this right, and the Contractor cannot immediately replace the disapproved personnel, the Authorized Purchasing Entities agree to an equitable adjustment in schedule or other terms that may be affected hereby.

c) The Contractor will make every effort consistent with sound business practices to honor the specific, commercially reasonable request of the Authorized Purchasing Entities with regard to assignment of its employees; however, subject to the above paragraph and the paragraph below, the Contractor reserves the sole right to determine the assignment of its employees. If a Contractor employee is unable to perform due to illness, resignation, or other factors beyond the Contractor's control, the Contractor will make reasonable effort to provide suitable substitute personnel.

   The Contractor represents that the individuals designated as PA Contact in the PA are, and promises that any subsequent PA Contact shall be, experienced professionals, possessing the appropriate knowledge, skills, and expertise to perform properly their assigned duties. The Contractor may transfer or terminate PA Contact at any time in the event the needs of the Contractor's business support a transfer, or the individual is eligible for a promotion or other positive type of employment opportunity, or the individual's personal life experience requires a transfer, or the individual's employment is terminated for "good cause" (which term, as used in this Contract, means cause for termination, including a lay-off, as determined in accordance with the Contractor's employment policies, consistently applied). The Contractor shall exercise every reasonable effort to notify the State prior to the transfer of PA Contact to another position within the Contractor's organization, including upon any such replacement or reassignment if the function being performed by the individual being replaced or reassigned is eliminated from the Services. If any of the PA Contact is reassigned, becomes incapacitated, or ceases to be employed by the Contractor, and therefore

becomes unable to perform the functions or responsibilities assigned to such person, the Contractor shall promptly replace such person with another person at least as well qualified to perform such functions and responsibilities as the person being replaced.

The parties acknowledge that qualifications include a mix of experience and education and that equally qualified individuals may have different mixes thereof. The Contractor shall cause its subcontractors to comply with this provision with respect to any of individuals of such subcontractors that are designated as PA Contact.

48. CONTRACTOR BUSINESS RELATIONSHIP RESPONSIBILITY

The Contractor shall cooperate in good faith with the State and Authorized Purchasing Entities and the other contractors as necessary, including participation in any advisory forum established by the State and Authorized Purchasing Entities and the establishment of business processes that facilitate the orderly Transition, Migration, and Transfer of Authorized Purchasing Entities to other said Services and the implementation of any other ongoing provisioning support for Services.

49. PROVISIONING OF DELIVERABLES AND SERVICES

The Authorized Purchasing Entities may order Deliverables and Services under the PA by issuing the appropriate Purchase Order. The Contractor will not commence provisioning Deliverables or Services for a given Authorized Purchasing Entities until the Contractor receives a complete, signed, accepted, and accurate order form.

50. NEED FOR CONTRACTOR SERVICES DUE TO EMERGENCY

Unless otherwise specified in the Purchase Order, an emergency is defined in Public Contract Code Section 1102: "Emergency," as used in this code, means a sudden, unexpected occurrence that poses a clear and imminent danger, requiring immediate action to prevent or mitigate the loss or impairment of life, health, property, or essential public Services.

a) The Contractor shall make reasonable effort to assist the Authorized Purchasing Entities in procuring use of the Contractor Services consistent with that provided under the PA to meet emergencies. The price for such compatible Services shall be reasonably set by the Contractor and, to the extent possible, shall be no greater than the PA rates set forth in the PA.

b) The Authorized Purchasing Entities, at its option, may accept or reject the use of emergency equipment.

51. NON-EXCLUSIVE AGREEMENT

Nothing in the PA shall be construed as a requirements contract or interpreted as preventing the Authorized Purchasing Entities from obtaining, consistent with Authorized Purchasing Entities policy, any portion, component, subset or all of the Services offered under the terms and conditions of the PA, or any other Services (analogous, similar, comparable or otherwise) from third parties, or providing the same to itself. Nor shall anything in the PA be construed or interpreted as limiting the Authorized Purchasing Entities right or ability during the Term of the PA to increase or decrease its demand for Services hereunder. To the extent the Authorized Purchasing Entities, consistent with Authorized Purchasing Entities policy, obtains from third parties, or provides to itself, replacement Services for any of the Services hereunder, the amount to be paid to the Contractor by the Authorized Purchasing Entities will be for Products and Services delivered and for the remaining Products and Services.

52. CHARGES

Unless otherwise specified in the Purchase Order (or rate plan thereunder):

The Contractor agrees that the Authorized Purchasing Entities are not subject to any minimum monthly usage charges for any Services contracted under this Contract.

a) The Contractor agrees that Services not identified in the PA may not be provided nor charged to the Authorized Purchasing Entities pursuant to the PA, but that the Contractor may use the invoicing process of the PA so as to allow for invoicing of Services not related to the PA, provided that such items are clearly identified as not related to the PA and the Contractor otherwise complies with the requirements in the PA related to invoicing.

b) The Contractor agrees that charges not identified in the PA may not be assessed to the Authorized Purchasing Entities in accordance with subsection a).

c) Invoices for all contracted Services shall not be subject to late payment charges prior to the Purchase Order defined due date.

53. CONTRACTOR COMMITMENTS AND REPRESENTATIONS

Any written commitment by a duly authorized representative of the Contractor within the scope of the PA shall be binding upon the Contractor. Failure of the Contractor to fulfill any such commitment shall render the Contractor liable for performance deficiency charges or other damages due to the Authorized Purchasing Entities as set forth herein. Such written commitments include but are not limited to:

a) Any warranty or representation expressly made by the Contractor as to Deliverables, Service, equipment or software performance, total System performance, or other physical design or functioning characteristics of a Machine or software System.

b) Any warranty or representation expressly made by the Contractor concerning the characteristics of the items described in (a) above, made in any publication, drawings, or specifications accompanying or referred to in the PA.

c) Any written notification of or affirmation or representation as to the above which is made by the Contractor in or during the course of negotiations and which is incorporated into a formal amendment to the PA .

54. SERVICE TO PUBLIC ENTITIES AND LOCAL GOVERNMENT AGENCIES

In accordance with Government Code Section 11541, the Contractor agrees to provide Service to all Authorized Purchasing Entities in the State pursuant to the PA and hereby acknowledges that the State is not responsible for payment, Deliverables, requirements or services rendered these entities. The Contractor agrees that it shall have no recourse against the State for any act or omission of the Authorized Purchasing Entities, which arises from the Contractor furnishing Equipment or Services pursuant to the PA. The Contractor understands and acknowledges that under the PA the State neither promises nor guarantees any minimum amount of revenue for the Contractor or minimum amount of Deliverables, requirements, or Services to be purchased.

55. SERVICE COSTS

The Contractor's list of Service and product descriptions accepted by the Authorized Purchasing Entities shall correlate the Service to the associated PA rates as applicable under the PA. All Service costs will include all monthly recurring and usage charges, volume discounts, and non-recurring charges as applicable. Listed pricing will include all elements necessary to configure an instance of working Service including activation, delivery, and training. Any no-cost items will be clearly identified and any Service elements without associated pricing will be considered no charge items.

56. FEDERAL UNIVERSAL SERVICE FUND

Federal Grant programs are available to schools and libraries under the Universal Service Fund. This program, also referred to as E-rate funding, provides support to schools and libraries in accessing telecommunications Services. To the extent such programs are applicable to the Services under the PA, as determined by the Authorized Purchasing Entities, or required by law, the Contractor agrees to:

a) Provide PA Services to public entities qualified for Universal Service Fund Support;

b) Be certified as a Universal Service Administrative Company (USAC);

c) Meet Federal requirements for timeliness and accuracy in processing E-rate and other USAC program request and invoicing; and

57. EXISTING EQUIPMENT & TITLE TO EQUIPMENT

a) The Contractor agrees to reasonably accommodate Authorized Purchasing Entities and utilize existing equipment. The Contractor's proposed Services shall reasonably accommodate the use of such existing Authorized Purchasing Entities' equipment.

Title to equipment, accessories, and devices provided under the PA shall not vest in the State, unless such items are purchased by the State. All devices and accessories furnished by the Contractor hereunder, except those purchased by the Authorized Purchasing Entities, shall accompany the equipment when returned to the Contractor.

58. UNLAWFUL USE

Authorized Purchasing Entities will not use any Service for any unlawful purpose. Without limiting any other remedy specified in the PA, the Contractor reserves the right to take any action it deems necessary to prevent unlawful use and to control fraudulent use. Such actions by the Contractor may include, but are not limited to, blocking certain traffic, refusing to accept calling card, collect calling and or third number calls, or discontinuing provision of Service to the End-User or canceling the End-User's account.

59. DISENTANGLEMENT (MIGRATION-OUT)

a) Term Migration-Out shall be synonymous with Disentanglement. The Migration-Out shall begin on the earlier of the following dates, as applicable, the "Migration-Out Commencement Date": (1) as elected by the State, up to sixty (60) calendar days prior to the end of the PA Term that the State has not elected to extend pursuant Section 3 (PA Effective Date) or has already extended fully as permitted under this section; or (2) the date a Notice of Termination is delivered pursuant to Section 19 (Termination for the Convenience of the State) or Section 20 (Termination for Default); or (3) the Authorized Purchasing Entities' election pursuant to Section 54, Non-Exclusive Agreement, to obtain any portion, component, subset or all of the Services offered under the terms and conditions of the PA, or any other Services (analogous, similar, comparable or otherwise) from third parties, including other

Contractors, or to provide the same to itself. The Contractor shall provide Migration-Out Services until it has completed the obligations of this Section.

The Contractor's obligation to continue to provide the affected Services shall continue until the earlier of (i) completion of a migration to a new Service provider as provided in this Section, or (ii) eighteen (18) months after the effective date of any termination or expiration. During Migration-Out, the Contractor shall continue to provide Service(s) in a manner consistent with the Contractor's provision and performance of such Service(s) during the period such Service(s) were provided to the Authorized Purchasing Entities hereunder.

b) Subject to the performance by the Authorized Purchasing Entities and any subsequent provider of similar Services, the Contractor shall cooperate fully with the Authorized Purchasing Entities and third parties and shall take all actions requested by the Authorized Purchasing Entities or as necessary to accomplish a smooth, complete conversion of responsibility for the Services being terminated from the Contractor to the Authorized Purchasing Entities, or to any replacement provider designated by the Authorized Purchasing Entities (a "Migration-Out"), with no material interruption of, or adverse impact on, the Authorized Purchasing Entities in any way, including on the Services. In the event the Authorized Purchasing Entities elects to terminate any Service (but not all Services in the aggregate) pursuant to the terms hereof, the Contractor shall perform its Migration-Out obligations hereunder to the extent applicable to the Service or Services being terminated. The Contractor's obligations hereunder regarding the collection and payment to the California Department of Technology of administrative fees shall continue throughout Migration-Out.

c) If the Authorized Purchasing Entities determines that the Contractor has not complied, or is unlikely to comply, with Migration-Out requirements identified in the Migration-Out Plan, and such non-compliance was a direct result of the Contractor, Subcontractor or supplier, and not due to any third party or situations outside the control of the Contractor, as determined by the Authorized Purchasing Entities, the Authorized Purchasing Entities may give written notice to the Contractor of non-compliance. After such notice, the Contractor shall provide to the Authorized Purchasing Entities all necessary additional Contractor personnel to accelerate performance as may be required or necessary to timely achieve compliance or, if the Contractor has already failed to comply, achieve compliance within a re-adjusted time frame established by the Authorized

Purchasing Entities. The Contractor shall have seven (7) calendar days, or longer if agreed to by the Authorized Purchasing Entities in writing, to achieve compliance.

For each material Migration-Out requirement not completed after the notice of non-compliance period, the Authorized Purchasing Entities shall be entitled to invoice the Contractor for up to $2,000 per day for each material deficiency, not to exceed $10,000 per day for all deficiencies until the Contractor is in material compliance with the requirements of the Migration-Out Plan. The Contractor may exercise its dispute rights under Section 42 (Disputes), in the event that the Contractor disagrees with the Authorized Purchasing Entities application of this Section; however, pending final resolution of any dispute, the Contractor shall diligently proceed without disruption or delay with the performance of the Migration-Out Plan.

All Migration-Out Services performed by the Contractor during the conversion shall be performed by the Contractor at no additional cost to the Authorized Purchasing Entities beyond what the Authorized Purchasing Entities would pay for the Services.

The Contractor shall provide to the Authorized Purchasing Entities all their data and documentation and other information reasonably requested by the Authorized Purchasing Entities in connection with the conversion that is sufficient to enable the Authorized Purchasing Entities, or another reasonably competent Service provider, to fully assume the provision of any terminated Services. Except as the Contractor is otherwise required to retain such data under the PA or by law, the Contractor shall destroy all copies of Customer data not turned over to the Authorized Purchasing Entities.

The Contractor shall export all artifacts and data to the requesting Customer. The Authorized Purchasing Entities reserves the right to define export data formats, storage media type, locations to which data is to be delivered, and other special criteria deemed necessary for successful Migration-Out.

d) To the extent applicable to the Services provided by the Contractor hereunder, the Contractor shall provide to the Authorized Purchasing Entities as complete and accurate an inventory as is reasonably practicable and such other information regarding such items as the Authorized Purchasing Entities reasonably requests and is necessary for Migration-Out of Services.

60. SUBCONTRACTORS

As prime vendor, Contractor is responsible for overall service performance and requires the ability to manage its subcontractors as necessary to fulfill the overall service performance if and when a subcontractor is required.

As additional clarification, Contractor does not consider local exchange carriers to be Contractor's subcontractors and will not be responsible for the actions or inactions of access providers. In addition, Contractor does not consider subcontractor requirements set forth in this PA to be applicable to any agreements, subcontracts or other business arrangements between Contractor and its affiliates, roaming partners, suppliers, subcontractors or any third-parties relating to the provision of any Products or Services purchased or used by a customer (collectively, "General Supply & Support Agreements") where such General Supply and Support Agreements were entered into for the purpose of providing Products and Services to Contractor's customers generally (as opposed to specifically for the applicable Authorized Purchasing Entity).

61. SECURITY AND POLICIES

Unless otherwise specified in the PA or Purchase Order:

At all times during the Term, in addition to any other requirements in the PA, at all times during the Term, the Contractor shall provide all Services, use all resources related thereto, and use, operate, support, and maintain any systems, in an appropriately secure and commercially reasonable manner ("**Security Policies**").

The Contractor shall at all times take all reasonably necessary and appropriate action with regard to the prevention, detection, and elimination, by all appropriate means, of fraud, abuse, and other inappropriate or unauthorized access to and use of systems and the networks involved with the provision or receipt of Services, including the implementation and deployment network management and maintenance applications and tools, the use of appropriate encryption technologies, and other security-related Services. In addition, with respect to the premises of the State and Authorized Purchasing Entities, all Contractor personnel (including personnel of any subcontractors) shall be subject to, and shall at all times conform to, all of the State or Authorized Purchasing Entities' policies, procedures, rules, and requirements regarding the protection of premises, materials, equipment, and personnel, as the State or Authorized Purchasing Entities shall provide (in writing or electronically) in advance to the Contractor. The Contractor shall, and shall cause the Contractor personnel and subcontractors to, fully comply with and abide by all such Security Policies provided in advance to the Contractor at all times during the Term. Any violation or disregard of such Security Policies

by an individual shall be cause for denial of access of such individual to the State or Authorized Purchasing Entities' property. The Contractor shall exercise due care and diligence to prevent any injury to person or damage to property while on the State or Authorized Purchasing Entities' premises. The operation of the Contractor vehicles or private vehicles of the Contractor personnel on the State or Authorized Purchasing Entities' property shall conform to posted and other regulations and safe driving practices. Vehicular accidents on the State or Authorized Purchasing Entities' property and involving the Contractor personnel shall be reported promptly to the appropriate State or Authorized Purchasing Entities' personnel. The Contractor shall, and shall cause the Contractor personnel and subcontractors, to not exceed (or attempt to exceed) the level of authorized access, if any, to any networks, computer or electronic data storage systems of the State or Authorized Purchasing Entities' that may be granted during the Term for purposes only of performing the Services hereunder.

62. ELECTRONIC WASTE RECYCLING ACT OF 2003

The Contractor certifies that it complies with the applicable requirements of the Electronic Waste Recycling Act of 2003, Chapter 8.5, Part 3 of Division 30, commencing with Section 42460 of the Public Resources Code. The Contractor shall maintain documentation and provide reasonable access to its records and documents that evidence compliance.

63. USE TAX COLLECTION

In accordance with PCC Section 10295.1, the Contractor certifies that it complies with the requirements of Section 7101 of the Revenue and Taxation Code. The Contractor further certifies that it will immediately advise the State and Authorized Purchasing Entities of any change in its retailer's seller's permit or certification of registration or applicable affiliate's seller's permit or certificate of registration as described in subdivision (a) of PCC Section 10295.1.

64. EXPATRIATE CORPORATIONS

The Contractor hereby declares that it is not an expatriate corporation or subsidiary of an expatriate corporation within the meaning of PCC Sections 10286 and 10286.1, and is eligible to contract with the State and Authorized Purchasing Entities.

65. DOMESTIC PARTNERS

For contracts over $100,000, the Contractor certifies that the Contractor is in compliance with Public Contract Code Section 10295.3.

66. PRIORITY HIRING

For contracts including Services in excess of $200,000, the Contractor shall give priority consideration in filling vacancies in positions funded by the contract to qualified recipients of aid under Welfare and Institutions Code Section 11200 in accordance with Public Contract Code Section 10353.

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Public Works**	**DISTRICT(S):**	**Citywide**

SUBJECT: **Approve expenditure in the amount of $86,113.70 for the replacement of the engine in Water Division vehicle No. 304, Kenworth T880 Vactor hydro-excavator**

RECOMMENDATION

That the City Council:

1. Approve the expenditure of $86,113.70 for the replacement of the engine in Water Division Vehicle No. 304 (Kenworth T880 Vactor hydro-excavator).

STRATEGIC FOCUS AREAS

Goal 2: Maintain Financial Stability and Sustainability (MFSS)

EXECUTIVE SUMMARY

Water Division Vehicle No. 304 (Kenworth T880 Vactor hydro-excavator) is exhibiting mechanical failure and in need of repairs. This specialized truck is critical to the Water Division's ability to perform emergency and routine water main and service line repairs, as it allows crews to safely and efficiently excavate around buried utilities using hydro-excavation. The critical repairs are necessary to prevent extended downtime and ensure continued reliable operations for water system repairs. The total cost of the repair is $86,113.70. Sufficient appropriations are available in the FY 2024-25 Adopted Midcycle Budget.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

In accordance with Glendora Municipal Code Section 2.40.100(C)(5), the formal procurement process is not required when procuring services for the replacement of parts or repairs to City vehicles or other motorized fleet-related equipment.

DISCUSSION

Water Division Vehicle No. 304 (Kenworth T880 Vactor hydro-excavator) is a specialized piece of equipment that combines a powerful vacuum system with a high-pressure water system to excavate soil safely in order to expose underground pipes. It is critical to water system maintenance and emergency repairs, especially for water main breaks and leaks.

While the odometer indicates only 15,487 miles driven, the engine's working hours are equivalent to approximately 265,000 miles due to the vehicle's frequent extended stationary operation during field work. Typically, the Vactor operates in place for four or more hours per water leak repair.

The engine is currently experiencing high crankcase pressure**,** a failure mode common to this model, which led to Cummins, the engine maker, discontinuing this engine line. Without replacement, the equipment faces a risk of unscheduled downtime that would significantly impact water division operations.

Replacing the engine at this time will preserve operational reliability and avoid costly emergency repairs or extended service interruptions.

FISCAL IMPACT

The Internal Services Fund for Fleet Management (Fund 554) is used for maintaining the fleet and purchasing vehicle replacements. Sufficient appropriations are available in the FY 2024-25 Adopted Mid-Cycle Budget, a midyear appropriation of $100,000 was approved by City Council on February 25, 2025, in account 55470530-72375.

STAFF REPORT

TO:	**Mayor and Council Members**	**DATE:**	**June 24, 2025**
FROM:	**Community Development**	**DISTRICT(S):**	**Citywide**

SUBJECT: **Approval of Amendment No. 3 to the Agreement for Contractual Services between CSG Consultants, Inc. and the City of Glendora Dated July 13, 2021 for Building Plan Review and Inspection Services**

RECOMMENDATION

That the City Council:

1. Approve an Amendment No. 3 to the Contract Services Agreement with CSG Consultants, Inc., extending the contract term by one year and increasing the contract amount by $385,000; and
2. Authorize the City Manager to execute the agreement.

STRATEGIC FOCUS AREAS

Not Applicable

EXECUTIVE SUMMARY

The Building Division, a core component of the City's operations, is responsible for reviewing construction plans, issuing building permits, and conducting inspections to ensure compliance with applicable codes and regulations. To support these services and maintain timely permit processing, the City contracts with CSG Consultants, Inc. (CSG) for as-needed building plan review and inspection services. CSG currently handles a significant portion of the City's building plan review workload and provides essential support during staffing vacancies. The original agreement with CSG was approved in July 2021 for a two-year term. Amendment No. 1 extended the contract through July 2024, followed by Amendment No. 2 through July 2025. The proposed Amendment No. 3 would extend the agreement for an additional year, through June 2026, and increase the contract amount by $385,000.

LEGISLATIVE HISTORY / PREVIOUS ACTIONS

- July 13, 2021 – City Council approved a two-year professional services agreement with CSG Consultants, Inc. for as-needed building plan review and inspection services.
- July 11, 2023 – Council approved Amendment No. 1, extending the contract term through July 2024.
- August 27, 2024 – Council approved Amendment No. 2, extending the contract term through July 2025.

DISCUSSION

Since 2014, the Building Division has successfully utilized CSG's services. Over the years, the division has also worked with other providers offering similar services, allowing for a comprehensive comparison of service quality and cost. CSG has emerged as a preferred provider of supplemental building services for the division, demonstrating a thorough understanding of the division's review and inspection procedures.

The proposed one-year extension will cover plan review services through June 2026. The contract will also cover building inspection services on an as-needed basis.

FISCAL IMPACT

Sufficient appropriations are available in the Adopted FY2025-27 Two-Year Budget under account 10160410-59100. The cost of the contract plan review services is offset by fees collected at the time of plan submission.

ENVIRONMENTAL DETERMINATION

This item is not a project under the California Environmental Quality Act (CEQA).

AMENDMENT NO. 3

TO CONTRACT SERVICES AGREEMENT

THIS THIRD AMENDMENT TO CONTRACT SERVICES AGREEMENT ("Amendment") by and between the **CITY OF GLENDORA**, a general law city & municipal corporation ("City"), and **CSG CONSULTANTS, INC.,** a California corporation ("Consultant"), is effective as of the _____ day of _____, 2025.

RECITALS

A. City and Consultant entered into that certain Contract Services Agreement, dated July 13, 2021, which was subsequently amended pursuant to that certain Amendment No. 1, dated July 11, 2023, and that certain Amendment No. 2, dated August 27, 2024 (collectively, the "Agreement"), whereby Consultant agreed to provide plan review and building inspection services. Initially capitalized terms used but not defined herein shall have the meaning set forth in the Agreement.

B. City and Consultant now desire to amend the Agreement to increase the Contract Sum and extend the Term of the Agreement.

TERMS

1. **Contract Changes**. The Agreement is amended as provided herein. Deleted text is indicated in ~~strikethrough~~ and added text in ***bold italics***.

> "2.1 Contract Sum. Subject to any limitations set forth in this Agreement, City agrees to pay Consultant the amounts specified in the "Schedule of Compensation" attached hereto as Exhibit "C" and incorporated herein by this reference. The total compensation, including reimbursement for actual expenses, shall not exceed ~~**$1,000,000 (One Million Dollars)**~~ ***$1,385,000 (One Million Three Hundred Eighty-Five Thousand Dollars)*** (the "Contract Sum"), unless additional compensation is approved pursuant to Section 1.9."
>
> "3.4 Term. Unless earlier terminated in accordance with Article 7 of this Agreement, this Agreement shall continue in full force and effect until completion of the services but not exceeding ~~four (4)~~ ***five (5)*** calendar years from the date hereof."

2. **Continuing Effect of Agreement.** Except as amended by this Amendment, the provisions of the Agreement shall remain unchanged and in full force and effect. From and after the date of this Amendment, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement, as amended by this Amendment to the Agreement.

3. **Affirmation of Agreement; Warranty Re Absence of Defaults.** City and Consultant each ratify and reaffirm each and every one of the respective rights and obligations arising under the Agreement. Each party represents and warrants to the other that there have been

Docusign Envelope ID: 42C32F85-9E36-4FAC-B55A-F355567F88D8

no written or oral modifications to the Agreement other than as provided herein. Each party represents and warrants to the other that the Agreement is currently an effective, valid, and binding obligation.

Consultant represents and warrants to City that, as of the date of this Amendment City is not in default of any material term of the Agreement and that there have been no events that, with the passing of time or the giving of notice, or both, would constitute a material default under the Agreement.

City represents and warrants to Consultant that, as of the date of this Amendment, Consultant is not in default of any material term of the Agreement and that there have been no events that, with the passing of time or the giving of notice, or both, would constitute a material default under the Agreement.

4. **Adequate Consideration.** The parties hereto irrevocably stipulate and agree that they have each received adequate and independent consideration for the performance of the obligations they have undertaken pursuant to this Amendment.

5. **Authority**. The persons executing this Amendment on behalf of the parties hereto warrant that (i) such party is duly organized and existing, (ii) they are duly authorized to execute and deliver this Amendment on behalf of said party, (iii) by so executing this Amendment, such party is formally bound to the provisions of this Amendment, and (iv) the entering into this Amendment does not violate any provision of any other agreement to which said party is bound.

6. **Counterparts**. This Amendment may be executed in counterparts, each of which shall be deemed to be an original, and such counterparts shall constitute one and the same instrument. Each of the parties intend to be bound by the signatures on any telecopied, .pdf or other electronically delivered document, and are aware that the other party will rely on the telecopied, .pdf or other electronically delivered signatures, and hereby waive any defenses to the enforcement of the terms of this Amendment based on the form of signature.
