

KRYOLAN
PROFESSIONAL MAKE-UP

Information Sheet about the Provision of Safety Data Sheets

Manufacturer: KRYOLAN GmbH
Papierstraße 10
13409 Berlin, Germany

Product: AIR STREAM MAKE-UP

Customer: Kryolan UK

Date: 02.03.2020

The requirements for creating safety data sheets are regulated in Article 31 of the European EC Regulation No. 1907/2006 of the European Parliament and Council of 18 December 2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), in the creation of a European agency for chemical substances, the amendment of the EC Directive 1999/45 and suspension of the EEC Regulation No. 793/93 of the Council, the EC Regulation No. 1488/94 of the Commission, the EEC Directive 76/769 of the Council as well as the Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC of the Commission.

Moreover according to German and European law, cosmetic substances are exempted from the obligation of labelling and provision of safety data sheets according to German hazardous material law (Article 2 (6) (b) of the REACH Regulation of 18 December 2006 (ABl. L 396/1 of 30 December 2006), last amended on 15 March 2011, ABl. L 69/7 of 16 March 2011).

In place of the safety data sheets, the group information sheets on cosmetic substances are available from the IKW (*Industrieverband Körperpflege- und Waschmittel e.V.* / German Cosmetic, Toiletry, Perfumery and Detergent Association) along with its sister associations FCIO (Austria) and SKW (Switzerland). The desired group information sheets are constantly being updated and can be downloaded as PDF files at:

<http://gmb.ikw.org>

The above cited materials, preparations, and products are exempted from the obligation of providing safety data sheets.
