

ATSEP Qualification Shared

The ATSEP Qualification Shared Training course is designed to impart fundamental knowledge and skills in Human Factors, Safety Management, Health & Safety, Functional Safety and Information System Security in the CNS/ATM environment.

Introduction

The skyguide academy is certified as a training organization in accordance with the European Commission Regulations, and offers a wide range of ATM/ANS training products. The QLF SHR Training course content is in line with the EUROCONTROL Specifications for the ATSEP Initial Training and is compliant with the European Commission Regulation 'EU CR 2017/373'. The course is strongly focusing on the operational environment.

To fulfil the minimum training requirement defined by the EUROCONTROL Specification, each future ATSEP has to successfully pass the ATSEP Basic course, one stream out of the corresponding domain COM, NAV, SUR, DAT and the *Qualification Shared course*.

Attendees

The QLF SHR Training course is designed for ATSEP employees, technicians and engineers from ANSPs, the technical industry, Civil Aviation Authorities and National Supervisory Agencies, working on operational and safety related systems and equipment.

Pre-requisites

In order to successfully complete the course and pass the final exam, an adequate English level (KET and higher) and a technical background or education is required. The successful pass of the ATSEP Basic Training course is eligible.

ATSEP Qualification Shared

Method Classroom training using modern learning methods and tools, with practical exercises.

**Course Structure
and Design**

The course syllabus contains the QLF SHR training objectives that are common to all ATSEP Qualification Training Domains and consists of the following Subjects:

- Safety (SHR SAF)
- Health and Safety (SHR HAS)
- Human Factors (SHR HUF)
- Functional Safety (SHR FST)
- Information System Security (SHR ISS)

Duration

The ATSEP Qualification Shared course has a duration of 8 working days. There is an examination required at the end of the course.

Your Benefits

- EASA certified Training Organization
- Course according to European Regulations and EUROCONTROL Specification
- Academy with long-lasting experience in ATSEP Training and extensive technical expertise
- Practical skills, processes and tools for maximum implementation
- State-of-the-art training infrastructure
