

ARTAS SDDS SASS-C

**Deploy
Tailor
Maintain
Tune**

Supporting your surveillance processes
ARTAS, the ATM Surveillance Tracker and Server is a EUROCONTROL software product. It is maintained and operationally supported by CAMOS, the Centralised ARTAS Maintenance and Operational Support unit.

42 Solutions supports the processes of installation, configuration, monitoring and tuning of ARTAS incl. SASS-C and SDDS. ARTAS tuning is done by 42 Solutions.

ARTAS is the standard in surveillance in Europe and deployed by more than 30 civil ANSPs and military centres.

Surveillance sensors

Integrating your sensors:

- Radar
- ADS-B and C
- WAM
- Mode-S
