

# NRv<sup>2</sup> LoFlo®

Protecting water networks

NRv<sup>2</sup> LoFlo is a simple solution to minimise 'time controlled' water waste by modulating flow rates.

- Low-cost solution to reduce per capita consumption
- No customer interaction, mounted between the meter and manifold
- Variable flow rates available to maximise customer satisfaction
- Facilitate whole site protection against backflow up to fluid Category 3
- Patented fitting meets all required standards and Reg 4 approved

All Groundbreaker products are made in accordance with, or to exceed statutory regulation and manufactured using low impact, 'green' methods where practical. Our aim is to assist the industry and provide water to the community while minimising the impact to the environment.

**Groundbreaker - helping the world towards Net Zero CO<sub>2</sub>!**

**Groundbreaker Systems water management products**
