Meter Asset Provider

## Why Meter Corp?

- **One stop solution**
- **Fair, flexible, bespoke terms**
- **Partnership approach**
- **Competitive rates**
- **Value added services**

As a long-established Meter Asset Provider (MAP) operating in the GB Gas & Electricity Meter Sector, we recognise the critical role that energy suppliers have in supporting their customers. This has shaped our flexible and collaborative approach to deploying Smart Metering assets whilst optimising efficiency, cost, and value.

We partner with Meter Equipment Managers (MEMs) to deliver an End to End service ensuring a safe, customer focused output at all touch points in the Customer Journey.

## Flexible Meter Funding

We offer fair, flexible and bespoke meter funding options to support your balance sheet

- Variable rates
- Fixed rates
- Hybrid of variable and fixed
- Contribution payments to support your operational costs

We procure and fund the full suite of metering assets

- Smart
- AMR
- Legacy
- Regulators and ancillary equipment

## End to End Provision

Our MEMs provide full GB coverage

- Data validation and campaign management
- Job attendance, commissioning and reporting
- Emergency and maintenance work

## Asset Tracking

With many years of proven expertise

- A robust asset tracking mechanism
- Capability to locate and track assets during their lifespan
- Resilient processes for reverse logistics, asset disposal, recycling

## The Smart Choice

We are customer-centric, partnership-driven, flexible and fair. Contact us to find out how we are reassuringly different.
