

Naviam Cloud+

More power, more tools, more value.

A leading EAM platform offering unmatched **reliability, security, and support**. Fully managed and highly available, it lets you **focus on operations—not infrastructure**.

Includes powerful tools for users and admins to streamline processes, boost efficiency, and save time:

- **Simplified Work Management:** Faster, easier creation and tracking of work orders.
- **Field Operations:** Smarter inspections, forms, and offline support.
- **Purchasing & Asset Handling:** Streamlined procurement, rentals, and repairs.
- **User-Friendly Attachments & UI:** Easier document handling and interface enhancements.
- **Admin & Workflow Efficiency:** Improved user control, automation, and visibility.

Choose the right level of Naviam Cloud+—customised to fit your operations:

Starter: For small-scale systems

Premier: For most common Maximo solutions

Enterprise: For large-scale, regulated systems

Maximo 7.6 End-of-Support

IBM Maximo 7.6.x is nearing end of support:

Base support ends:

September 30, 2025

Extended support ends:

September 30, 2026

EZMaxMobile by Naviam

For customers who need deep functionality and advanced customisation.

Unlock the full power of IBM Maximo on the go with EZMaxMobile—a feature-rich mobile solution designed for complex environments and tailored workflows.

Full-spectrum mobile access to Maximo functionality

Highly customisable to fit unique operational needs

Lightning-fast offline database downloads for field efficiency

Robust support for both online and offline modes

Fingertip by Naviam

For customers seeking flexibility with minimal customisation.

Fingertip is the smart choice for organisations that value fast deployment, streamlined configuration, and seamless Maximo integration—without the extra overhead.

Configuration-driven and fully integrated within Maximo

Efficient delta-sync ensures fast, lightweight data updates

Flexible mobile forms for dynamic field operations

No middleware or additional infrastructure required

Naviam Operations, Data & Reporting

Naviam Planner

Efficient maintenance scheduling.

- Drag & Drop Scheduling
- Workload Visibility
- Flexible & Configurable (Optional if space permits) Optimise Labor Allocation

Naviam Request

Manage service requests.

- Effortless Request Submission
- Task Tracking
- Reduce Admin Overload (Optional if space permits) Enhanced Communication

Naviam Vendor

Manage external vendors.

- Self-Service Vendor Portal
- Real-Time Work Order Updates
- Improved Visibility & Compliance

Naviam DataStudio

Effortless data management.

- Reduce Data Load Times & Cost
- Real-Time Validation
- No Data Stored Outside Maximo

Naviam GIS Solutions

Enhance spatial intelligence. Optimised for Maximo, ArcGIS, and more. User-friendly and configurable.

Naviam GIS PowerSync

A scalable solution that unifies data across platforms with real-time sync, reducing manual entry and inefficiency.

Naviam GIS MapEngine

Enterprise ArcGIS mapping for Maximo—fast, interactive visuals that boost performance, usability, and decision-making.

Naviam GIS Workflows

Connects ArcGIS and Maximo with no-code automation, real-time data processing, and REST API integration.

Naviam GIS Aerial Inspection

Tablet app for aerial patrols with real-time ArcGIS integration, offline use, and seamless Maximo workflow updates.

Training and post-deployment support available across all solutions.

WHO WE ARE

Naviam is the **world's largest and most experienced IBM Maximo solution provider**—helping clients navigate and streamline their asset management journey.

Formed by uniting seven leading EAM firms, Naviam supports hundreds of global customers with cloud solutions, mobile tools, and GIS-enabled technologies. With a relentless focus on innovation and customer success, we empower organisations to drive performance and long-term value.

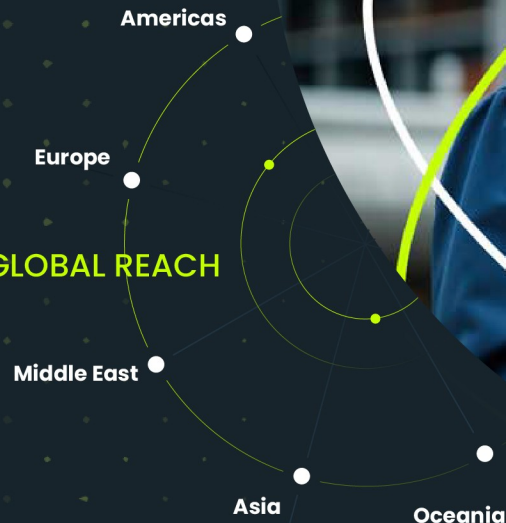

WHY NAVIAM

- 1 Trusted by **hundreds of customers** across **multiple continents**
- 2 Backed by **350+ global team members** in **12 countries**
- 3 Managing **thousands of Maximo instances daily** across various industries
- 4 **Expert-Led** – The most recognised EAM experts, with dozens of certified experts
- 5 **Solution-Focused** – The most comprehensive portfolio of EAM solutions, tailored to every stage of the asset lifecycle
- 6 **Client-Driven** – Decades of trusted relationships dedicated to your operational excellence

OUR LEGACY BRANDS

GLOBAL REACH

We deliver **secure, scalable, and highly available solutions** across the world—globally connected, locally focused.
