# VISIBLE RISK MANAGEMENT

# Smart Dashboard

## ✓ Tracking and Monitoring

Effortlessly create, assign, and track responsibilities across departments, teams, and users, ensuring clear ownership and visibility.

## ✓ Automated workflow

Automate repetitive compliance tasks and reduce the administrative burden associated with compliance activities.

## ✓ Documents and records

Enjoy transparent audit records and easy retrieval capabilities that span compliance frameworks, policies, and risk assessments, all seamlessly linked to their corresponding regulatory requirements

## FAQ

### CAN I KEEP TRACK OF ASSESSMENTS?

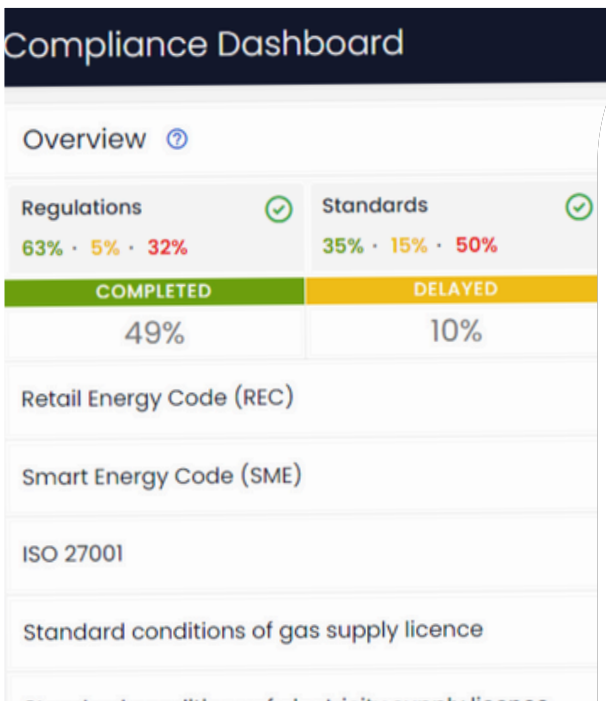

Streamline your annual assessments by conducting them centrally, eliminating the need for scattered communication and ensuring transparency for stakeholders year after year.

### WHAT RISK METHODOLOGY IS APPLIED?

The risk-based module is based around ISO27005 and allows you to compile a working risk log, allowing visibility to the significant risks.

### WHAT IS THE COST?

Our tailored system is designed exclusively for your company, with support team to assist you. The cost is based on the selected modules and the number of individuals you wish to include.
