

PREMIUM LEARNING FOR GRADES 6–10

Reimagining Education for a Smarter Future

India's most advanced learning ecosystem for Grades 6-10. Designed to replace passive learning with deeper understanding, stronger thinking, and measurable academic excellence.

Grades 6–10

Advanced learning ecosystem

Executive-level academic support for learners ready to excel.

Built for ambitious students and modern families

Structured learning, expert guidance, and a high-performance academic environment—crafted for results that matter.

Is Your Child Trapped in the "Educational Netflix" Era?

Today, most online coaching has become a one-way street. Students sit passively in massive batches, binge-watching pre-recorded lectures without active engagement. There is no real interaction, no personal attention, and no immediate doubt resolution.

The result? They memorize just enough to pass the next test, but go completely blank in the exam hall. By the time the monthly report card arrives, the damage is already done.

📌 It's time to drop the 1990s rote-learning model.

Welcome to Locus Learning Labs

We don't just broadcast information; we forge *conceptual steel*. We have reverse-engineered the learning process to build a highly interactive, accountable, and futuristic ecosystem designed strictly for the leaders of tomorrow.

Grade 6 to 10 School + Foundation

School curriculum excellence with advanced application

JEE & NEET Prep

Competitive foundation from day one

Olympiads

Global recognition programs

AI and Coding

Future tech integrated weekly

Our Unique Methodology

How We Bring Out The Best In Every Child

4-Step Activity Based Class

Concept Introduction – Understanding the "Why" behind topics

Interactive Activity – Hands-on learning to build intuition

Guided Solving – Solve problems together with experts

Independent Practice – Self-assessment via micro-tests

100% Analysis & Reporting

01

Submission – Daily upload of classwork & homework by student

02

Expert Checking – AI + manual correction

03

Gap Analysis – Identifying weak areas

04

Parent Report – Daily progress updates sent to parents on whatsapp

1:1 Mentorship & Care

01

Mentor Assignment – Dedicated IITian/expert mentor

02

Parent Connect – Scheduled calls for progress discussion

03

Remedial Classes – Extra sessions if performance drops

04

Career Counselling – Guidance on exams & career paths

Lecture Methodology:

- ▶ *We Don't Lecture. We Learn By Doing.*

We have eliminated passive binge-watching. Every single class at Locus Learning Labs is driven by our signature 4-Step Activity-Based Methodology. We ensure students understand the *why* before they memorize the *how*.

Concept Introduction

Breaking down complex physics, chemistry, and math into digestible, real-world logic.

Interactive Activity

Students engage with digital simulations and 3D models right on their screens to test the concept live.

Guided Solving

Our expert faculty solves advanced problems alongside the students, *building critical thinking* frameworks.

Independent Practice

Real-time quizzes to ensure 100% concept retention before the class even ends.

DAILY ACCOUNTABILITY

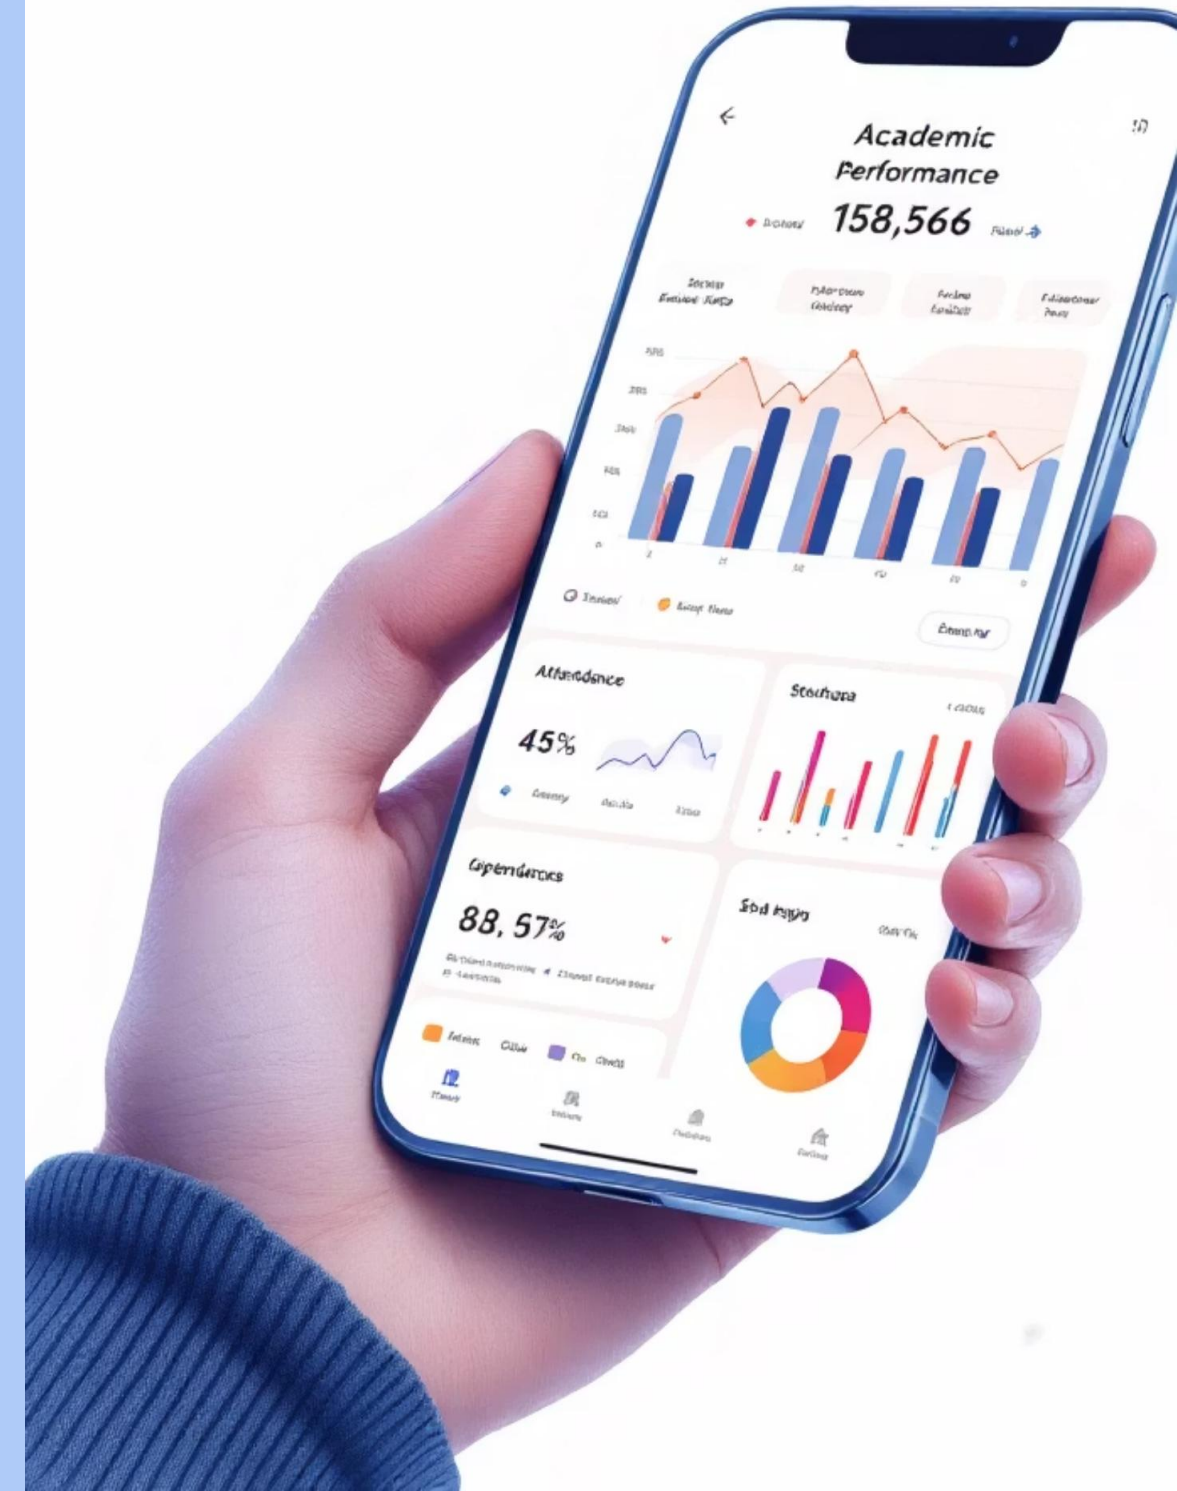

ELITE MENTORSHIP

100% Daily Accountability & Elite Mentorship

No More Waiting for Report Cards

With Locus, parents are never in the dark. Our system utilizes a mix of AI and expert manual grading to evaluate daily classwork and homework. You receive a precise, AI-analyzed gap report directly on your WhatsApp every single day.

You will always know exactly where your child stands.

Guided by the Best in the Country

Dedicated 1:1 Performance Mentor

Every student is assigned a personal mentor from top-tier institutions, including alumni from IIT-BHU, IIT-Roorkee, and tech leaders from Google.

Strategic Academic Roadmap

Your mentor doesn't just teach; they strategize your child's entire academic and competitive journey, from board exams to Olympiads to JEE/NEET.

Bi-Weekly Personal Sessions

Exclusive one-on-one calls to review progress, adjust strategies, and keep your child on the path to excellence.

The 'Foundation Prime + AI' Curriculum

Exclusive batches for Grades 6, 7, 8, 9, and 10. The transition from middle to high school dictates a student's options for the next decade. Our year-long hybrid program goes far beyond the standard NCERT syllabus.

Science Mastery

Deep-dive into Physics, Chemistry, and Biology using interactive 3D models and real-world application.

Advanced Mathematics

Building extreme problem-solving speed and logical intuition for Board Exams and competitive foundations.

Logical Reasoning

Dedicated modules to build the critical thinking backbone required for NTSE, AMC, and global Olympiads.

JEE & NEET Foundation

Seamlessly integrating higher-order thinking skills (HOTS) so your child is ahead of the curve.

Generative AI & Future Tech

India's only ecosystem that integrates weekly coding, computer fundamentals, and practical AI application alongside core academics.

Program Structure & Deliverables

Everything your child needs to succeed, inside one premium ecosystem.

Course Details

- **Duration:** 1-Year Comprehensive Academic Program
- **Mode:** LIVE Interactive Classes via Locus Learning App

What's Included

- Daily Practice Problems (DPPs)
- Premium Study Material & Interactive Notes
- 24/7 AI Doubt Engine
- 1:1 Mentorship Sessions
- Weekly Micro-Tests & Monthly Grand Tests

From the Founder's Desk

A Vision for the Future

"As the lead 'Architect of Intelligence' at Locus, Abhishek Yadav (IIT BHU Alumni) combines engineering precision with a passion for future-ready education. He engineered the '4-Step Activity-Based' methodology to move beyond rote memorization, focusing instead on 'Forging Conceptual Steel.'

By integrating rigorous Maths & Science mastery with cutting-edge AI education, he ensures students not only dominate competitive exams but also possess the 'Unfair Advantage' needed to lead in a tech-driven world."

— **Abhishek Yadav** Founder & CEO, Locus Learning Labs

READY TO BRIDGE THE GAP? ADMISSIONS OPEN 2026-2027

Admissions for our Foundation Prime Batches are filling up fast. We strictly cap our enrollments to ensure every student receives dedicated attention.

Claim Your 100% FREE Mentorship Analysis

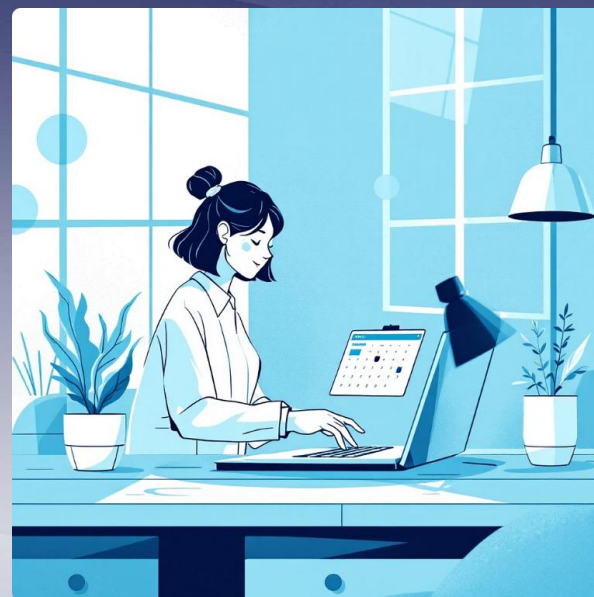

Talk to our senior academic mentors. We will conduct a detailed profile analysis of your child, check scholarship eligibility, and map out a customized study plan—completely free of charge.
