

# Creating Products

Number of test cases: 36  
Created on: 15th October 2020  
Updated on: 21st April 2021

## Simple Product

### TC87 - Add simple product

A simple product is a physical item with a single SKU

Add product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

#### Test steps

1. Open Admin panel -> go to Catalog -> products ->
2. Tap 'Add Product'
3. Fill all mandatory fields (Product name, SKU, price)
4. Complete the Basic Settings
5. Open website -> find and open product X

#### Expected result

5.Product X is displayed on website

### TC300 - Checking all image types and their dimensions

#### Test steps

1. Open Admin panel -> go to Catalog -> products ->
2. Tap 'Add Product'
3. Fill all mandatory fields (Product name, SKU, price)
4. Try upload different file types and dimensions
5. Complete the Basic Settings
6. Tap 'Save'
7. Open website -> find and open product X -> Open Inspect Element -> Check dimensions

NOTES: Check this in all places where user can upload images

#### Expected result

7.Images are displayed and dimensions should be similar

#### Attached files

## Configurable Product

### TC88 - Add Configurable Product where use apply single price/color/image to all SKUs

Add Configurable Product where will use apply single price/color/image to all SKUs

Create product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

**Test steps**

1. Open Admin panel -> go to Catalog -> products ->
2. Tap arrow on 'Add Product' button -> select Configurable Product
3. Fill all mandatory fields (Product name, SKU, price)
4. Complete the Basic Settings
5. Scroll to Configurations -> Tap 'Create Configurations'
6. Select existing attributes (for example, color, size) -> Tap 'Next'
7. Select Options for each attribute (For example, select all)
8. Select 'Apply single set of images to all SKUs' -> Upload image
9. Select 'Apply single set of price to all SKUs' -> Enter price
10. Select 'Apply single quantity to each SKUs' -> enter quantity
11. Tap 'Newt' -> Tap 'Generate Products' -> Tap 'Save'
12. Open website -> Open configurable product X
13. Select different sizes and colors

**Expected result**

12. Configurable Product with size and color attributes is displayed
13. The same image and price for all colors and sizes

**TC89 - Add Configurable Product where use apply unique prices/colors/images by attribute to each SKU**

Add Configurable Product where will use apply unique prices/colors/images by attribute to each SKU

**Test steps**

1. Open Admin panel -> go to Catalog -> products ->
2. Tap arrow on 'Add Product' button -> select Configurable Product
3. Fill all mandatory fields (Product name, SKU, price)
4. Complete the Basic Settings
5. Scroll to Configurations -> Tap 'Create Configurations'
6. Select existing attributes (for example, color, size) -> Tap 'Next'
7. Select Options for each attribute (For example, select all)
8. Select 'Apply unique images by attribute to each SKU' -> Select attribute - color -> Upload images for each color
9. Select 'Apply unique prices by attribute to each SKU' -> Select attribute - color -> Enter prices for each color
10. Select 'Apply unique quantity by attribute to each SKU' -> Select attribute - size -> Enter quantity for each size
11. Tap 'New' -> Tap 'Generate Products' -> Tap 'Save'
12. Open website -> Open configurable product X
13. Select different sizes and colors

**Expected result**

12. Configurable Product with size and color attributes is displayed
13. Unique image and price for each product color

**TC90 - Delete/disable some product**

Change product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/edit/id/2631/set/4/key/a482972b578e9180953122a590ed7fdb2d020493896130a1363cc910b8c6023/type/configurable/store/0/back/edit/>

<http://scandipwamrev.indvp.com/test/9-configurable-product.html>

**Test steps**

1. Open Admin panel -> go to Catalog -> products -> Open Configurable Product X
2. Scroll to Configurations -> Delete product with size S and color Red
3. Disable product with size M and color Blue
4. Tap 'Save'
5. Open website -> Open product X -> Try select product with size S and color red
6. Try select product with size M and color Blue

**Expected result**

5. Product with these options is missing
6. Product with these options is missing

**Grouped Product****TC91 - Add grouped product**

Create product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

### Test steps

1. Open Admin panel -> go to Catalog -> products ->
2. Tap arrow on 'Add Product' button -> select Grouped Product
3. Fill all mandatory fields (Product name, SKU, price)
4. Complete the Basic Settings
5. Scroll down to Grouped Products -> Tap 'Add Products to Group'
6. Select Simple products A, B and C from the list
7. Tap 'Add Selected Products' -> Tap Save
8. Open website -> Open Grouped product X

### Expected result

8.Grouped product (where products A,B,C) is displayed

## Virtual Product

### TC92 - Add virtual product

Create product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

### Test steps

1. Open Admin panel -> go to Catalog -> products ->
2. Tap arrow on 'Add Product' button -> select Virtual Product
3. Fill all mandatory fields (Product name, SKU and price)
4. Complete the Basic Settings
5. Tap 'Save'
6. Open website -> Open virtual product X
7. Add product to Cart -> open cart page

### Expected result

- 6.Virtual product X is displayed on a website
- 7.Shipping step is missing

## Bundle Product

### TC93 - Ship Bundle Items

### Test steps

- 1.Open Admin panel -> go to Catalog -> products -> open Bundle product X
2. Scroll to Bundle Items
3. Select 'Together' in Ship Bundle Items
4. Tap 'Save'
5. Open website -> Open bundle product X -> Add it to cart
6. Proceed to checkout -> Check shipping cost.
7. Open Admin panel -> go to Catalog -> products -> open Bundle product X -> Select 'Seperately' in Ship Bundle Items
8. Open website -> Open bundle product X -> Add it to cart
9. Proceed to checkout -> Check shipping cost.

Note: Set 'Type' to 'Per Item' in delivery methods settings

### Expected result

- 6.When you set to ship together, user sees the flat rate.
- 9.When you set to ship separately, user sees the flat rate multiplied by the number of products in cart.

### TC104 - Option Title

### Test steps

1. Open Admin panel -> go to Catalog -> products -> Open Bundle product X
2. Scroll down to Bundle Items
3. Tap 'Add Option'
4. Enter 'Test title' in the option title field

5. Fill all mandatory fields (Option type, Add products, quantity)
6. Tap 'Save'
7. Open website -> open bundle product X
8. Open Admin panel -> go to Catalog -> products -> Open Bundle product X -> Enter 'NOT Test title' in the option title field
9. Open website -> open bundle product X

### Expected result

7. Option 'Test title' is displayed on the website
9. Option 'NOT Test title' is displayed on the website

## TC94 - Add Options with dropdown for Bundle Items

NOTE! Radio buttons and multiple select input type options are rendered as drop-down and checkbox correspondingly on the front-end.

Create product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

Product with dropdown (options: 3 x t-shirt + US\$4.00 and 2 x 28 Simple product + US\$200.00):

<http://scandipwamrev.indvp.com/default/28-bundle-product.html>

### Test steps

1. Open Admin panel -> go to Catalog -> products -> Open Bundle product X
2. Scroll down to Bundle Items
3. Tap 'Add Option'
4. Select option type 'Dropdown'
5. Fill all mandatory fields (Option title, Add products, quantity)
6. Tap 'Save'
7. Open website -> open bundle product X

### Expected result

7. Bundle product X with dropdown is displayed.

## TC95 - Add Options with checkbox for Bundle Items

NOTE! Radio buttons and multiple select input type options are rendered as drop-down and checkbox correspondingly on the front-end.

### Test steps

1. Open Admin panel -> go to Catalog -> products -> Open Bundle product X
2. Scroll down to Bundle Items
3. Tap 'Add Option'
4. Select option type 'Checkbox'
5. Fill all mandatory fields (Option title, Add products, quantity)
6. Tap 'Save'
7. Open website -> open bundle product X

### Expected result

7. Bundle product X with Checkbox is displayed

## TC105 - Required/Not required option

Create product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

Product:

Checkbox is mandatory

Dropdown Not mandatory

<http://scandipwamrev.indvp.com/default/28-bundle-product.html>

Product in Admin panel:

<https://scandipwamrev.indvp.com/admin/catalog/product/edit/id/2610/set/4/key/a482972b578e9180953122a590ed7fdbe2d020493896130a1363cc910b8c6023/type/bundle/store/0/back/edit/>

### Test steps

1. Open Admin panel -> go to Catalog -> products -> Open Bundle product X
2. Scroll down to Bundle Items
3. Tap 'Add Option'
4. Select 'Required' Checkbox
5. Select option type 'Checkbox' 5.Fill all mandatory fields (Option title, add products and etc)
6. Tap 'Save'
7. Open website -> open bundle product X -> Try to add the product to cart
8. Open Admin panel -> go to Catalog -> products -> Open Bundle product X -> Unselect 'Required' Checkbox -> Tap 'Save'
9. Open website -> open bundle product X -> Try to add the product to cart

**Expected result**

- 7. Error message appears
- 9. The product is added to the cart

**TC106 - Add/delete Products Options****Test steps**

1. Open Admin panel -> go to Catalog -> products -> Open or create Bundle product X Scroll down to Bundle Items
2. Tap 'Add option' -> fill all mandatory fields
3. Tap 'Add Products to Option'
4. Select simple products A, B, C and tap 'Add selected products' -> enter quantity
5. Tap 'Save'
6. Open website -> Open Bundle product X
7. Open Admin panel -> go to Catalog -> products -> Open Bundle product X -> Scroll down to Bundle Items -> Delete product B -> Tap 'Save'
8. Open website -> Open Bundle product X

**Expected result**

- 6. Bundle product is displayed. Option with product A, B, and C is displayed
- 7. Option with product A and C is displayed

**TC97 - Default Quantity**

Create product here:

<https://scandipwamrev.indvp.com/admin/catalog/product/index/key/de923de184e0d89f53c56c81852cb7b70a343d2b26a86040cee5e23a0c4ca457/>

Product:

Checkbox: 1 x 28 Simple product; 2 x My fav product;

Dropdown: 2 x 28 Simple product + US\$200.00; 3 x t-shirt + US\$4.00;

<http://scandipwamrev.indvp.com/default/28-bundle-product.html>

Product in Admin panel:

<https://scandipwamrev.indvp.com/admin/catalog/product/edit/id/2610/set/4/key/a482972b578e9180953122a590ed7fdbe2d020493896130a1363cc910b8c6023/type/bundle/store/0/back/edit/>

**Test steps**

1. Open Admin panel -> go to Catalog -> products -> Open or create Bundle product X
2. Scroll down to Bundle Items
3. Add option X with products A, B, and C
4. Enter Quantity (A -2, B-5, C-4)
5. Tap 'Save'
6. Open website -> Open Bundle product X
7. Open Admin panel -> go to Catalog -> products -> Open Bundle product X -> Scroll down to Bundle Items -> Change quantity (A -3, B-2, C-3)
8. Open website -> Open Bundle product X

**Expected result**

- 5. Bundle product with Option X:
- Before product A name '2x' is displayed
- Before product B name '5x' is displayed
- Before product C name '4x' is displayed
- 7. Bundle product with Option X:
- Before product A name '3x' is displayed
- Before product B name '2x' is displayed
- Before product C name '3x' is displayed

**TC98 - [Not supported not] User defined****TC96 - Change bundle option position****Test steps**

1. Open Admin panel -> go to Catalog -> products -> Open or create Bundle product X with two options
2. Scroll down to Bundle Items
3. Change order for options and for products in one option (Tap the Move icon at the beginning of the row and drag the item into position)
4. Tap 'Save'
5. Open website -> Open Bundle product X

**Expected result**

- 5. Bundle product X is displayed on the website
- New options and product orders are displayed

## TC302 - Dynamic SKU

### Test steps

1. Open Admin panel -> go to Catalog -> products -> create Bundle product X
2. Select 'yes' in dynamic SKU field
3. Fill mandatory fields (add products, quantity and etc)
4. Tap 'Save'
5. Open website -> Open bundle product X
6. Select some option
7. Select another option
8. Add to cart -> complete order -> Scroll down to products list
9. Open Admin panel -> Sales -> Orders -> Open this order
10. Go to catalog -> Products -> create new product where Select 'no' in dynamic SKU field -> Tap 'Save'
11. Open website -> Open bundle product X -> Select some option -> Select another option
12. Add to cart -> Complete order
13. Open Admin panel -> Sales -> Orders -> Open this order -> Scroll down to products list

### Expected result

- 9.Product SKU is {bundle product SKU}-{option SKU}-{option SKU}  
 13.Product SKU is {bundle product SKU}

## TC303 - Dynamic Price

### Test steps

1. Open Admin panel -> go to Catalog -> products -> create Bundle product X
2. Select 'yes' in dynamic price field and leave Price blank
3. Fill mandatory fields (add products, quantity, options and etc)
4. Tap 'Save'
5. Open website -> Open bundle product X
6. Select some option
7. Select another option
8. Create new product Y
9. Select 'no' in dynamic price field
10. Enter price A in price field
11. Add products and set new prices for them
12. Fill mandatory fields (quantity, options and etc)
13. Tap 'Save'
14. Open website -> Open bundle product Y
15. Select some option
16. Select another option

### Expected result

- 5.Product price is X (X is missing if no one product aren't selected)  
 6.Product price is Y (X + dynamic product price)  
 7.Product price is Z (X + dynamic product 1 price + dynamic product 2 price)  
 14.Product price A is displayed  
 15.Product price is B (A + fixed product 1 price)  
 16.Product price is C (A + fixed product 1 price + fixed product 2 price)

## TC304 - Dynamic Weight

### Test steps

1. Open Admin panel -> go to Catalog -> products -> create Bundle product X
2. Select 'yes' in Dynamic Weight field and leave Weight blank.
3. Fill mandatory fields (add products, quantity, options and etc)
4. Tap 'Save'
5. Open website -> Open bundle product X
6. Select some option
7. Select another option

Notes: create bundle product Y and set NOT dynamic weight and check it (the same situation as dynamic price)

### Expected result

- 5.Product weight is X  
 6.Product weight is Y  
 7.Product weight is Z

## Downloadable Product

### TC377 - Title for link and simple

#### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information -> Enter 'Test' title for link and 'Test2' for sample title
4. Complete product creation
5. Open website -> Open Downloadable product
6. Open Admin panel -> go to Catalog -> Products -> Open this Downloadable Product
7. Change Title to 'Links' and 'Sample'
8. Save
9. Open website -> Open Downloadable product

#### Expected result

5. Title for link 'Test' and title for sample 'Test2' are displayed
9. Title for link 'Link' and title for sample 'Sample' are displayed

### TC378 - Links can be purchased separately

#### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Add two links
5. Select the Links can be purchased separately checkbox
6. Complete product creation
7. Open website -> Open Downloadable product -> Select one link -> Add product to cart
8. Open Admin panel -> go to Catalog -> Products -> Open this Downloadable Product
9. Unselect the Links can be purchased separately checkbox
10. Save
11. Open website -> Open Downloadable product

#### Expected result

7. Product is added to cart
11. User can't select one link (checkboxes are missing)

### TC379 - Link and Sample Titles

#### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Add link with 'Link1' title
5. Add sample with 'Sample1' title
6. Complete product creation
6. Open website -> Open Downloadable product
7. Open Admin panel -> go to Catalog -> Products -> Open this Downloadable Product
8. Change link title to 'Link2' and sample title to 'Sample2'
9. Save
10. Open website -> Open Downloadable product

#### Expected result

6. Link title 'Link1' and Sample title 'Sample1' are displayed
10. Link title 'Link2' and Sample title 'Sample2' are displayed

### TC380 - Link Price

#### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information

4. Enter for one link price \$5, for another \$2
5. Complete product creation
6. Open website -> Open Downloadable product
7. Select the first link
8. Select the second link
9. Open Admin panel -> go to Catalog -> Products -> Open this Downloadable Product
10. Change link price to \$10 and \$7
11. Save
12. Open website -> Open Downloadable product
13. Select the first link
14. Select the second link

### Expected result

- 6.The first link costs \$5, the second link costs \$2
- 7.Product price = default product price + \$5
- 8.Product price = default product price + \$5 + \$2
- 12.The first link costs \$10, the second link costs \$5
- 7.Product price = default product price + \$10
- 8.Product price = default product price + \$10 + \$5

## TC381 - Upload file in links

### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Select Upload file in File
5. Upload file X in File field
6. Complete product creation
7. Open website -> Open Downloadable product -> Add product to cart -> Log in -> Complete order -> Open my account -> Open my downloadable -> Click on link file
8. Open Admin panel -> go to Catalog -> Products -> Open this product -> Upload another file Y-> Save
9. Open website -> Open Downloadable product -> Add product to cart -> Log in -> Complete order -> Open my account -> Open my downloadable -> Click on link file

### Expected result

- 7.File X opens
- 9.File Y opens

## TC382 - URL in links

### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Select URL in File
5. Enter X URL in File field
6. Complete product creation
7. Open website -> Open Downloadable product -> Add product to cart -> Log in -> Complete order -> Open my account -> Open My downloadable -> Click on URL title
8. Open Admin panel -> go to Catalog -> Products -> Open this product -> Upload another URL Y-> Save
9. Open website -> Open Downloadable product -> Add product to cart -> Log in -> Complete order -> Open my account -> Open my downloadable -> Click on URL title

### Expected result

- 8.URL X opens
- 9.URL Y opens

## TC383 - Shareable

### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Select Shareable to Yes
5. Complete product creation

6. Open website -> Log in -> Open Downloadable product -> Add product to cart -> Complete order -> Open My account -> Open My downloadable -> Open URL/file
7. Copy URL -> Open this link in new browser
8. Open Admin panel -> go to Catalog -> Products -> Open this Downloadable Product -> Select Shareable to No -> Save
9. Open website -> Open Downloadable product -> Log in -> Add product to cart -> Complete order -> Open My account -> Open My downloadable -> Open URL/file
10. Copy URL -> Open this link in new browser
11. Log in with another account

### Expected result

- 7.File opens
- 10.Log in page opens
- 12.Error message appears

## TC384 - Max. Downloads

### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Enter 1 in Max. Downloads field
5. Complete product creation
6. Open website -> Open Downloadable product -> Log in -> Add product to cart -> Log in -> Complete order -> Open my account -> Open My downloadable
7. Open file
8. Return to my downloadable page
9. Open Admin panel -> go to Catalog -> Products -> Open this Downloadable Product
10. Select Unlimited checkbox -> Save
11. Repeat 6-8 steps

### Expected result

- 6.Remaining Downloads are 1
- 8.Remaining Downloads are 0. Link is missing
- 11.Remaining Downloads are unlimited

## TC385 - Upload file is samples

### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Select Upload file in File
5. Upload file X in File field
6. Complete product creation
7. Open website -> Open Downloadable product -> Click on Sample
8. Open Admin panel -> go to Catalog -> Products -> Open this product -> Select Upload file in File -> Upload file Y in File field -> Save
9. Open website -> Open Downloadable product -> Click on Sample

### Expected result

- 7.File X opens
- 9.File Y opens

## TC403 - URL in samples

### Test steps

1. Open Admin panel -> go to Catalog -> Products -> Create Downloadable Product
2. Complete the required settings
3. Open Downloadable Information
4. Select URL in File
5. Enter URL X in File field
6. Complete product creation
7. Open website -> Open Downloadable product -> Click on Sample
7. Open Admin panel -> go to Catalog -> Products -> Open this product -> Enter URL Y -> Save
8. Open website -> Open Downloadable product -> Click on Sample

### Expected result

- 7.URL X opens
- 9.URL Y opens

## TC386 - Order Item Status to Enable Downloads

### Test steps

1. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options
2. Set Order Item Status to Enable Downloads to Pending
3. Save -> clear cash
4. Open website -> Log in -> Open Downloadable product -> Add to cart -> Complete order (Status Pending)
5. Open My downloadable in my account -> Download file
6. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options -> Set Order Item Status to Enable Downloads to Invoiced -> Save -> Clear cash
7. Open website -> Log in -> Open Downloadable product -> Add to cart -> Complete result
8. Open My downloadable in my account
9. Change status to Invoiced in the Admin panel
10. Open My downloadable in my account -> Download file

### Expected result

5. File is displayed, file is downloaded
8. File is missing
10. File is displayed, file is downloaded

## TC387 - [Not supported not] Default Maximum Number of Downloads

### Test steps

1. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options
2. Set 1 to Default Maximum Number of Downloads
3. Save -> clear cash
4. Open website -> Open Downloadable product -> Buy it -> Download file
5. Download file again
6. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options -> Set 10 to Default Maximum Number of Downloads -> Save -> Clear cash
7. Download file

### Expected result

4. File is downloaded
5. Can't download file
7. File is downloaded

## TC388 - [Not supported not] Shareable (Downloadable Product Options)

### Test steps

1. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options
2. Set Shareable to Yes
3. Save -> clear cash
4. Open website -> Open Downloadable product -> Buy it -> Download file
5. Send download link to friend
6. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options -> Set Shareable to No -> Save -> Clear cash
7. Send download link to friend

### Expected result

5. Download link is sent to others. Friend can open this link
7. Friend can't open this link. Need to log into customers' accounts to access download links.

## TC389 - Default Sample and Link Titles

### Test steps

1. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options
2. Enter the default text that you want to use for download links (LINK)
3. Enter the heading that you want to appear above the selection of samples (SAMPLE)
4. Save -> clear cash
5. Go to content -> Products -> Create downloadable products -> Scroll down to Downloadable Information
6. Repeat 1-5 steps but change title for link and sample

### Expected result

5. Default text for downloadable link 'LINK' is displayed and Default text of samples 'SAMPLE' is displayed
6. New titles are displayed

## TC390 - [Not supported not] Opens Links in New Window

### Test steps

1. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options
2. Set Opens Links in New Window to Yes
3. Save -> clear cash
4. Open website -> Open Downloadable product -> Open Sample link
5. Buy product -> Open downloadable link
6. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options -> Set Opens Links in New Window to No -> Save -> Clear cash
7. Open website -> Open Downloadable product -> Open Sample link
8. Buy product -> Open downloadable link

### Expected result

4. Link opens in new window
5. Link opens in new window
7. Link opens in the same window
8. Link opens in the same window

## TC391 - Use Content Disposition

### Test steps

1. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options
2. Set Use Content Disposition to Attachment
3. Save -> clear cash
4. Open website -> Open Downloadable product -> Add to cart -> Log in -> Complete order -> Open my account -> Open My downloadable -> Click on link title
5. Open Admin panel -> go to Stores -> Configuration -> Catalog -> Catalog -> Downloadable Product Options -> Set Use Content Disposition to Inline -> Save -> Clear cash
6. Open website -> Open Downloadable product -> Add to cart -> Log in -> Complete order -> Open my account -> Open My downloadable -> Click on link title

### Expected result

5. Delivers the download link as an attachment
8. Delivers the download link as a link on a web page

## TC392 - [Not supported not] Disable Guest Checkout if Cart Contains Downloadable Items
