### Success stories of Lit the Light Career wing

**"Achieve your goal with true spirits"**

#### Success story of Sudarshan

Sudarshan

**Mr. Sudarshan** is a true achiever of goals amidst challenges. Right after graduation Sudarshan acquired a job that required working on the computer for more than 17 hours a day. He pulled on until 2017 when it took a toll on his retina, he had to give up his well-paid job and focus on retrieving his eyesight. He was initially perturbed about his condition but with encouragement from friends and family he was able to find a way out of the dark tunnel. He says it's a Himalayan effort to learn accounting through a process using Text Reader. He was enthusiastic to venture into the new world. He is indebted to **Lit the Light career wing** team as he was offered an **Accounting Consultant** job at **FINT solutions Pvt. Ltd.** through their continued support. He is extremely happy with his current working environment and the appreciation he receives from his team as a trend setter in this field of accounting in an MNC and his achievement would be march forward to lead the future generation with Visual Challenges.

#### Success story of Ashok Kumar

**Mr. Ashok Kumar** is an inspiration to lead and take control of life. He hails from a town village near Madurai and lost vision in an accident at the age of 8. He took Braille training for 2 years and completed his basic education in Madurai. He was supported by his grandmother who had economic challenges, but she managed to provide good education and secure home to him. He completed his graduation in English from Presidency college Chennai and Post-graduation from Pondicherry. He was identified and supported by the **Lit the Light career wing** as a self-motivated young communicator. His good knowledge in both English and Tamil writing along with excellent computer skills elevated his position as **a blogger, coding expert and a web designer**. He is appreciated as a quick learner, smart worker with excellent management skills. **Beehive Communication Club** recognized his talent and offered him a job in **Communications Department** where he confidently handles FAQ of students who wish to join the course and guide them register. His excellent academic background and quick access to computers are add on skills to his profession. He is extremely happy with his team who eagerly assist him when he has to fill in Google Sheets concerning payment of fees and other finance related forms. He is comfortable working on the laptop with various computer languages he learnt during the initial years to struggle to thrive in the world full of colours. His experiential learning through E-text and his confidence to win, is the formula for his success.
