### Phase II - Lockdown Groceries support to Differently abled families

All our volunteering efforts continue to uphold the safety guidelines as instructed by the government and we ensure proper social distancing and hygiene protection while distributing the groceries.

We thank all our donors, well-wishers, and volunteers for their amazing support. Their contributions and efforts are much appreciated.

We owe a special mention to Genesys CSR team's sponsorship during this vulnerable situation. A special applaud to the Majestic Exports for their 150 grocery kits sponsorship in the Tirupur area. We would also like to appreciate the immense support the TN police department has been giving to our initiative and are extremely grateful for their continued support and service. They have provided an amazing service by collecting grocery kits and delivering it to every nook and corner to the affected families in this hour of need.

So far, we have been able to distribute groceries worth about INR 9.1 lakhs. This would not be possible without all your support and contribution. We expect your continued support to help reach more affected families and help them get through this unreasonable pandemic.
