

# *HavEther Whitepaper*

*Decentralized Charitable System on  
Ethereum Blockchain Technology. Open  
Source. Community run and  
maintained*

## *ABSTRACT*

- *What is HavEther*

HavEther is a decentralized and fully transparent Charity Donation platform built on Ethereum Smart Contract, through which fundraisings of our token "HET" are organized, the majority of which is donated to charities, Homeless, orphanages, hospitals and other needies.

- You will Use the HET token as the main currency for transactions, thus allowing increased growth and scalability with instant transfers compared to traditional currency.

## *What is HavEther Token*

HavEther Token {HET} is a form of cryptocurrency based on the ERC20 Token Standard which will be used in the donating charities, on top of Ethereum Smart Contract to eliminate middlemen risk and allow fast secure payments to participants.

- The HET token will be used as the primary type of currency on the HavEther platform
- In the near future, based on our community grows we are going to migrate to our own blockchain to have more flexibility to implement features such as PoW, PoS, master nodes and more.

# INTRODUCTION

- Market Analysis and Opportunity

Charitable giving in 2016 jumped nearly 3 percent from 2015 to \$390 billion.

Giving from individuals alone amounted to \$282 billion, with the rest coming from estates, foundations and corporations.

Ethereum has a Market Cap of \$22.4 billion USD “at a current time”, with roughly \$1.2 billion worth of Ether exchanged every 24 hours period. Due to the increased adoption and strong foundation behind the project, it was natural for us to choose Ethereum as one of the pillars of our platform.

We see a huge opportunity in this market since we have the privilege of being the first ones to combine the cryptocurrency’s blockchain features with the latest technologies and best practices available, in a new platform, which will challenge the status quo.

A part of this will consist of our Machine Learning and Artificial Intelligence features which will have a big impact in the user-experience overall, making it more easy and reliable for them to use the platform and be active within the community.

The success stands in the main description of the platform: “People-oriented” – because it’s not about starting up a business, but about solving a problem; as long as people have problems, they will always search for better, faster and smarter ways to accomplish the related solutions.

## *OUR PRINCIPLES*

There are principles that we as a anon.. team constantly thrive to use them in our daily work, which are backed up by empirical evidence expressed by a comprehensive research from The Ecommerce Genome by Compass in their Startup Genome report[8], which looked at 650 internet startups. Thus, we believe the following principles are the reason of a productive mindset which will benefit the team and the work that we do overall:

1. Commitment to stay the course and stick with a chosen path
2. Willingness to adjust, but not constantly adjusting
3. Patience and persistence due to the timing mismatch of expectations and reality
4. Willingness to observe, listen and learn
5. Develop the right mentoring relationships
6. Leadership with general and domain specific business knowledge
7. Balance of technical and business knowledge, with necessary technical expertise in product development

## *OUR VISION*

Anonymous Team Vision is to create a world in which every time you give money to charity and good causes, you have total trust that your funds are going exactly where you want them to.

By giving absolute trust and confidence, we believe donors will choose to give more money to the causes they care about.

## *PROJECT ASPECT*

- ★ ANONYMITY Since the beginning of HavEther we choose to remain anonymous in the project.

This has helped the us focus on the main project and ensure steady growth.

We see the same in the original vision of bitcoin, anonymity was also part of its success.

Our goal is results that are tangible in blockchainize charitable.

- ★ DECENTRALIZED Many ERC20 tokens starting are used by businesses that are centralized entities.

The original vision of blockchain technology is to operate in a way that is peer to peer and not a part of any centralized hub.

The genius of this technology is that it runs and works apart from the control of any one individual.

- ★ OPEN SOURCE In keeping with the psyche of many projects in the crypto world we desire to be open source with everything that is developed.

From Wallet Apps to any donation applications. Everything will be open source after initial development This will allow for further innovation and for anyone to take part in improving HavEther Ecosystem.

## *DEVELOPMENT ROADMAP*

- **May 2018: Thinking**

In may 2018 i started thinking about how to eliminate middlemen risk in charitable system.

- **July 2018: Found The Solution**

In July 2018 i discovered that to use blockchain as an alternative to centralize system.

- **Sep. 2018: Core Development**

i registered the domain name (Havether.org) and build token site and create the token and also Bitcointalk Announcement, and also started the token sale.

- **Oct. 2018: Exchange Listing**

the token sale ended and started to list our token our targeted direct paid exchange.

- **Dec. 2018: Testing The Platform**

Start the private testing of the alpha-version and continue the development of the beta.

- **Jan. 2019: Main Platform Ready**

Everything is ready the platform will start functioning and continue serving the charities.

## *THE PROBLEM*

Charitable giving and volunteering is susceptible to rise in times of uncertainty; spurred by natural disasters, human tragedies, and divisive political turbulence. In inspiring displays of human resilience, we turn these negative events into positive outcomes, fueling the healing and growth of our society at large.

Unfortunately for the organizations that make these positive changes possible, however, this irregular pattern of “peaks and valleys” in donations and volunteer efforts are, by their nature, difficult or impossible to predict. Without regular, ongoing, predictable income, it’s difficult to plan ahead. We want to give the most noble organizations in our culture the space and the capital.

## *OUR SOLUTION*

HavEther is a decentralized charity platform that aims to make donations with Cryptocurrencies regular and manageable.

The platform allows users to donate small amounts of token to causes they care about in under 60 seconds. Users can set their accounts anonymously to donate Cryptocurrencies.

possible causes: education and arts, the environment, homelessness and poverty, equality, health and relief, and violence and bullying.

## **OUR GOAL IS ONLY \$80,000**

*The main reason behind issuing this token is to let's complete the project and start supporting the earlier needy that's why we issue small supply(100k) and we will airdrop almost 40%.*

## **TOKEN CREATION STRUCTURE**

- **Information:**

**Coins supported for contribution:** Bitcoin, Ethereum, BitcoinCash,

**- HavEther Token Private Sale event will begin on Sep. 20, 2018, and end on October 23, 2018.**

- **Enjoyment for our contributors:**

*Best on our mission we targeted x10 for our early contributors and x4 to our late contributors.*

- Listing Price on Exchange: \$10
- Private Sale Price: \$1
- Public Sale Price: \$2.5

- ◆ **Token Structure:**

- ◆ Token Name: HavEther Token
- ◆ Token Ticker: HET
- ◆ Token Total Supply: 100,000

◆ **Token Distribution Structure:**

◆ Private Sale: 30,000 (30%)

◆ Public Sale: 20,000 (20%)

◆ Airdrop: 40,000 (40%)

◆ Anonymously Team: 5,000 (5%)

◆ And 5,000 (5%) for earlier needies

And Unsold Token will be added to earlier needies.

## *HOW TO PURCHASE*

You can purchase (HET) Token With BTC, BCH, and ETH only and you will pay directly to bellow Addresses.

**BTC: 1Cc9XvtGSmvH1bApK3PUXPHQ9L798tZsGf**

**BCH: qpl57yxr77jxhjaeuctwq48487jvk5py2gpvkehlpl**

**ETH: 0x4739d1036bD091b65612D482e9085Ba4769a5D98**

After making a payment equivalent to token you want buy then send email to HavEther@gmail.com or instant response telegram @HavEtherAdmin

Additional Information: - You can store your coins HavEtherToken (HET) in any compatible erc20 wallet:

- Metamask
- MyEtherWallet
- Trust Wallet

## *FUNDS ALLOCATION*

- ❖ Direct Paid Exchange Listing: 45%
- ❖ Technology Development: 30%
- ❖ Branding & Marketing: 20%
- ❖ Advertisement: 5%

## HavEther Team

*In The Psyche Of "Satoshi Nakamoto" The HavEther Founders Ha Chosen To Stayed Anonymously.*

*That the vision of Decentralization*

*OUR AIM IS TO MAKE EVERY ONE FREE FROM  
POVERTY BY DONATING OUR NEEDIES!!!*
