

Hightower®

### **Gimbal Jr.**

It rocks, it rolls, it can even swivel – Gimbal Jr. is a unique multi-use chair that functions in many scenarios in the public space. A comfortable alternative to a meeting chair or a small-scale lounge option, Gimbal Jr. will quickly become a fan favorite in any environment.

**Rock it.**

No, really. With a subtle rocking motion and a base that allows you to sway from side to side, the Gimbal Jr. Rocker is a mini-me version of the original Gimbal Rocker.

**Roll it.**

We know that flexibility is critical to the modern public space. Pull up a Gimbal Jr. Wheeler for a breakout session and easily roll it wherever else a comfortable seat is needed throughout the day.

**Take it for a spin.**

With an option for a 360° swivel or 90° swivel with auto-return, Gimbal Jr. Swivel is another option that just makes sense. Incorporate multiple at a meeting table to make getting in and out a breeze, or utilize the auto-return function to keep a tidy look in a lounge area.

**Keep it in the family.**

The smaller cousin to Gimbal Highback and Lowback Rockers, Gimbal Jr. takes what is loved about these classic lounge chairs and brings it to a whole new category of seating. Fill your space with the Gimbal Family to see how movement can transform a space.

### Make a pivot.

Designed specifically for Gimbal Jr., available in left or right-side facing, and with a double-articulating motion, the Pivot Table takes Gimbal Jr. from a lounge or meeting seat to a personal work station. Available in a multitude of finish options, you have the tools to create a completely unique look.

\*Pivot Table not available with Rocker model.
