

Hightower™

Dry Shelving System

Minimal, functional, and endlessly customizable, the Dry Shelving System is a long-awaited answer to the need for a beautiful and high-quality shelving solution that serves multiple purposes in all environments.

Storage Meets Style

Rarely has shelving been a component of a space that can become a statement piece. Leave a lasting impression with the sleek and sophisticated design of Dry Shelving, available in 9 epoxy finish options.

The Perfect Fit

Available in 2 depths, 3 widths, 4 heights, and 9 finishes, there is a shelving solution to meet any need.

Our Slim models are ideal for traditional wall-anchored bookshelves and decorative styling, while our Deep models add additional storage and are better suited for spatial room division.

Make It Your Own

Optional accessories let Dry Shelves shine. Tuck away the mess with beautiful wood drawers and cabinets. Go mobile with the addition of casters. Add perforated metal panels to create dimensional interest. With so many options, it's easy to make Dry align with any brand.

Bring It to Life

Incorporate the Dry Planter box into a shelving composition to instantly add natural appeal. The box easily nests into any Slim shelving unit, giving you the freedom to customize your space with a range of plant life.

Building Connection

Turn a shelving unit into a workspace built for collaboration. The Dry Table collection was cleverly designed to connect at either or both ends to the Dry Shelving units, creating a space-defining solution that serves double duty in any environment.

A bevy of options in size, finish, and accessories ensures that the Dry Shelving System can fit into any space and provide a storage solution wherever needed.
