

Four-Real® A Tables  
Four® Stools & Bench

Hightower™

## FourReal®A Tables Four® Stools & Bench

It has become increasingly important to bring the outdoors inside in order to create healthy and happy commercial spaces. This collection answers that need by incorporating natural and biophilic details that contribute to a welcoming environment.

### **A New Frame of Mind**

FourReal®A is a unique and clever design suited for any size environment, capable of making single spaces multifunctional. Available in two heights, the "A" frame offers more than beautiful lines; humans naturally lower their voices when conversing with something overhead.

### Over and Above

The unique overhead frame of FourReal®A brings this table to life - quite literally. Utilize the optional Flower Box to add a biophilic element to a space, creating an oasis-like setting. The frame can also be used to hang pendant lighting in a fun and modern way.

### **Pull Up a Seat**

The perfect companions to the FourReal® A Table, the Four® Stools and Four® Bench exude a minimal appeal with just the right amount of warmth, thanks to the natural bentwood oak veneer seats.

Stools available in café or counter height. Bench available only in café height.

### **Collaborate or Congregate**

Whether utilized in an office setting or a lively hospitality space, this seating and table collection adds a modern touch of style and sophistication, making for an environment that is comfortable, memorable, and inspirational.

## Fun Features for Functional Spaces

Taking an all new approach to a traditional table, FourReal®A creates captivating spaces with its overhead frame. Bring warmth and life to any environment by incorporating these unique pieces.
