

Hightower™

Highs and Lows

Keep things interesting by incorporating a mix of high and low benches into your space. Story allows you to create a stadium seating environment without the built-in budget. When paired together, Story High provides a back or armrest for the Low Bench, enabling a user to perch on the High Bench while others sit on the Low if desired.

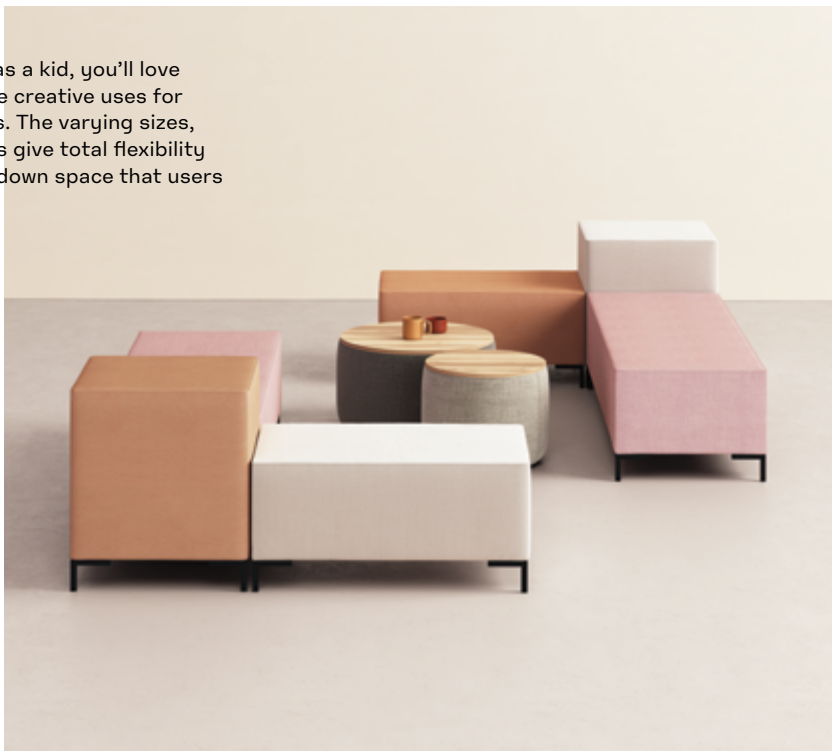

Story Modular Collection

Like any good story, the pieces of this series come together to create an interesting and inspiring composition. Whether utilized for a simple bench or to create a multi-level collaboration space, the Story Collection can help build out beautiful and functional areas for work or play.

Create Your Own Story

If you loved building blocks as a kid, you'll love Story. There is no limit to the creative uses for the multi-level bench options. The varying sizes, heights, and material options give total flexibility to create a lounge or touch-down space that users will flock to.

Add Some Flair

Sometimes, it's the little details that really make a space come alive. With its built-in cubbies, Story gives you the opportunity to stamp a space with personality. Incorporate plants, books, or other knick-knacks to kick up the style factor, while simultaneously adding a hard surface on top for that morning cup of joe.

You've Got the Power

Nothing halts productivity like a dead battery. Keep the momentum going with optional retractable power units, available in all models.

Choose from a wide range of striking powder coat colors to add the perfect finishing touch to all power face plates.
