

## Hightower

No matter the size of the office, work surfaces should never feel cramped. Imagine all the possibilities when Linden tables become part of the space. Our modern take on the traditional Parsons table, Linden leverages minimal components to deliver a table that is simple yet striking, roomy, and expressive. Linden is available in 3 heights accommodating meetings and individual work. Linden can be specified in Ash or Walnut finish, or in White laminate. Linden plays well with our Jaxson stool, now available in a counter height to measure up perfectly with all versions of Linden.

**MODELS:**

Maximum variables per layout: 3 tables | 2 substrates | 1 powder coat. Visit our website for more information.
