### Focus Screens

Focus is a textile space divider, flexible to shape every need. Designed by Swedish design studio Zilenzio, the feather-light and foldable construction of the floor screen makes it easy to move when you need to create a new configuration in a flexible office while the table screen creates a personal zone in public spaces. From a floor-length to a table-top, choose the size and shape that best fits your focus.

The screens surface is composed entirely of fabric. The inside is filled with hard strips with a seam in between that creates an elegant appearance. Quilted and foldable for freer design and easy storage, the Focus screen is a lightweight baffle that creates a more focused workplace.
