

## Hightower

Kilo Islands is a human-centered bench system designed to meet the flexible requirements of daily use in modern contract environments. A series of small islands that work as individual modules or interlock with two optional upholstered backrests to create different, large formations to suit the needs of your space. The organic shapes and multiple options create warm, welcoming seating areas. Kilo Islands are accessible from all sides, creating a space to socialize or work collaboratively in a diverse and informal setting.

**MODELS:**

Retractable power module is an optional add-on with an associated up-charge. Visit our website for more information.
