## **ABOUT ACCAS**

ACCAS IS A BRAND THAT PRODUCING YOU DISPOSABLE PREMIUM PACKAGING PRODUCTS SUCH AS PAPER CUPS, PAPER SALAD BOWLS, PAPER DRINK STRAWS, CUPS AND CONTAINERS LIDS, PAPER CUP SLEEVES.

In our journey that we started in the beginning of 2017 in a production facility of 500 square meters with a monthly production capacity of 40 tons, we are happy to reach a production capacity of 400 tons per month, with the move to a new production facility of 10,000 square meters in 2021. In the production process we manage interactively, we act in line with the expectations, demands and feedback of our customers and develop innovative solutions.

In light of innovative approaches and technological developments, we expand our product range daily and produce precise solutions for industrial demands in our 10.000 m2 production facility. We have a mechanical production network that can respond to all disposable food packaging demands; especially paper cups, paper salad bowls, paper straws and food containers.

Our machine park, which we are expanding day by day, enables us to follow the latest technologies closely and also inspires us to develop our innovative approaches. Our fully automatic high-speed machines, which provide high technology, enable us to meet all kinds of food packaging demands in the fastest, most effective and efficient way.

At ACCAS, we care about transparency and trust at every stage of the production process. Thus, we share the entire process with our customers, from the production process to raw material supply and other processes of production and present the production stages that we carry out in the light of transparency and sustainable principles.

## Our Vision

In the food packaging industry; being a leading, respected, and strong brand that adopts sustainable principles with its professional, trained and talented team, that cares about the values related to human health and the environment, that closely follows the latest technologies and meets the requirements of the sector with high standard production tools.

## **Our Mission**

In line with the needs, requirements, and demands of the industry, to be a manufacturer that closely follows innovative developments with its R&D that improves itself day by day and adds value to the sector at home and abroad by considering international standards in food packaging production.

## **Our Values:**

Our values are the most important, stable and unique aspects of our corporate culture. They are the most basic aspects of all our activities, working culture, production approaches and existence principle.

capacity, all our processes proceed with optimum

#### HYGIENIC PRODUCTION FACILITY

A standardized product quality management system has been implemented in all production facilities. Ensuring the highest level of hygiene in the production facility, personnel, equipment and raw materials are our core values.

### MODERN TECHNOGICAL PRODUCTION

Today our factory is one of the most modern and hygienic production facilities for the production of disposable food packaging. We have equipment consisting of high-technology machines that can produce 150 pieces per minute.

#### **PALLETIZING - STORAGE**

The products must reach their destination unharmed. Our products reach their destination flawlessly with our Euro-pallet packing system, which is supported by gussets and reinforced withtight stretching during the packaging and palletizing phase with thick-weight boxes.

Metsa Board, which has an internationally respected

position for paper supply.

## **OUR PRINTING LINE**

We use water-based paints that are odorless and harmless to health. We cooperate with SUN CHEMICAL, a company with high-quality efficiency internationally, for paint supply.

#### **AUTOMATED PACKAGING**

The packaging, which is the complementary seal of perfect packaging, must be hygienic as well. Aware of this responsibility, we complete all packaging 100% automatically, with highly hygienic conditions, without human touch, andwe carry out rigorous and proven controls.

#### SHIPPING AND DELIVERY

The superior innovation, global demand and efficient business model we have achieved in a short period are the latest logistics. High-quality logistics support helps to ensure the timely and reliable delivery of products to the customer's warehouse.
