IIT (BHU) PARTNERS IN SPACE MISSION 'SULIS'

SULIS is a UK-led solar science mission, designed to answer cutting edge science about solar space weather candidates. The

mission consists of a small satellite and will carefully monitor solar storms using state-of-the-art space technology and back end instruments. SULIS is led by Dr Eamon Scullion of Northumbria University and Dr Abhishek Kumar Srivastava from the Department of Physics, IIT(BHU) will work as one of its Academic Partner to contribute in the science and related developments of SULIS. IIT (BHU) will also contribute for the cutting-edge research cooperation between UK and India in the advanced technology, resource building, skilled manpower and novel science will constitute significant global impact on the solar science and space weather studies.
