'Nanoscience can help meet health challenges'

VARANASI: Nano-science is having the potential to solve the problems faced by the society which includes health issues to environmental challenges among others said Prof Prabhakar Singh from department of Physics, IIT-BHU.

VARANASI: Nanoscience has the potential to solve health problems and environmental challenges facing the society, said Prof Prabhakar Singh from the department of physics at the IIT-BHU.

Addressing media persons ahead of International Conference on Functional Nano-materials (ICFNM-2019) that began on Friday, Prof Singh said the experts would discuss latest scientific and technological developments in nano-science, nanotechnology and biomaterial during the programme.

The four-day conference will conclude on February 25.

About 200 delegates are attending the conference which is being jointly organised by the department of physics (IIT-BHU), department of biosciences and bioengineering (IIT-Guwahati) and the Society for Interdisciplinary Research in Materials and Biology (SIRMB).
