

BUSINESS PROFILE

Introduction

The purpose of creating this business profile is to provide our customers with a glance of our experience, past and current projects and to expand on what we can do to support your business.

RHISCOM is specialist in the development of Software and Technology for points of sale, we have highly qualified and certified personnel in the development of applications for the Retail industry, agro-exporters, banking and service companies.

RHISCOM solutions are framed in the different strategies of the companies and interact with the different areas such as: Finance, Commercial, Computing, Comptroller, Operations, etc. RHISCOM currently maintains alliances with world and regional companies (TOSHIBA, CDA, IBM, Navita, Bizerba, Hobart, Eldat, INVATRON, Retail Plus, Beta Solution, among others) to grant and transfer to its customers products and services with international support. For us it is very important to learn about your opinion, if you have any questions about the information provided by this document, we would appreciate your comments to marketing@rhiscom.cl. Waiting for the information to be of interest.

Regards, Marco Antonio Ribó Colella President RHISCOM

(03)

We are a company specialized in retail technology and consultancy in business process automation. We have the knowledge, trajectory and focus that your company requires from a strategic and committed business partner.

We have been operating for 16 years, our specialization is in the area of systems and applications development for multiple areas. Our main objectives are:

To use technology for the benefit of our customers,

To be the market leader in the countries that we operate.

Our technological definition is the use of business standards, open and modern technologies in order to help our clients to maximize investments.

RHISCOM currently has offices in Chile, Peru, Costa Rica, Colombia, Mexico and the United States. With a team of professionals focused on the industry. Our management team is young but experienced at the same time.

We have a portfolio of products and projects ranging from monitoring solutions, task-management, consulting, implementations, loyalty cards, promotional systems, Gift Card and corporate solutions, and transactional systems for payment authorizations.

We have the necessary skills and competencies to support our customers in their projects.

Areas of expertise

The main areas of specialization of RHISCOM are:

- Software Manufacturing
- Automated Testing Solutions
- Engineering services
- Development and Integration of Software and Hardware Solutions
- Support and Operational Services
- Consulting
- Marketing of POS Systems, Servers and Fiscal Printers

Strengths

Among the main Strengths of the company highlights the experience and knowledge of the industry:

- Qualified and certified personnel with more than 20 years of experience.
- Work and development in multiplatforms.
- Capacity of Innovation.
- To have the most comprehensive laboratories in Latin America.
- Investment of 13% of sales in development and research.
- Willingness to take on challenges.
- Services with extended hours and coverage.

Vision

To be a leader in solutions for the Retail industry, surpassing expectations of our clients and encouraging the professional and human development of the RHISCOM family

Values

Loyalty, proactivity, honesty, respect, creativity, integrity.

Mission

Serve the Americas Retail industry with high quality solutions for our clients' service points, incorporating innovation, avant-garde technology, specialization and business knowledge.

RHISCOM works efficiently in different niches of the Retail industry. We have the knowledge and experience to manage solutions, tools and projects in large and small chain stores, in niches of the industry such as:

- Grocery: Hypermarkets, Supermarkets, Express and Hybrids.
- Wholesalers, Category killer, Warehouse Club.
- Convenience stores.
- Pharmacies and Drugstores.
- Fast Food chains and Franchises.
- Department stores.
- Specialty and Home Stores

Engineering and Development

RHISCOM solutions are framed in multiple different strategies for their clients such as: Growth, Consolidation, Cost Reduction and Cross Competitions, allowing interaction with the different areas of the company (Finance, Commercial, Comptroller, Operations and Others).

RHISCOM must provide satisfactory results in the different areas mentioned above. Some of the RHISCOM tools that contribute to these objectives or strategies are:

- Software to complement Customer Loyalty programs.
- Point of Sale Promotions Systems.
- Monitoring Systems for the automated and centralized management of stores.
- Applications for receiving and approving online payments such as Transbank (Bank Credit Cards and Redcompra), Checks (Orsan, DICOM, etc.) and Associated Stores (DIN, Ripley, Hites, Johnson's).
- Software tools for the use of mobile terminals, based on Radio Frequency (RF) technologies, such as line break applications, assisted sales, inventory taking, merchandise returns, etc.
- Applications of credit card management of the retailer.
- Administration and control systems for: Inventory, Parking, Balances, Strapping, etc.

Milestones of the Company

- Creation of RHISCOM.
- Implementation of development outsourcing service and technical support for clients such as: SUPERMERCADOS COFRIMA and SANTA ISABEL.

1999

• Development and implementation of the first solution in Chile to make sales and transactions with credit and debit cards from the POS. 100% solution via TCP-IP, more than 60% of sales in Chile with credit and debit cards are made through this solution.
