- English Professional.

Oral Level: Bilingual | Writing: Advanced.

- Spanish Native/ Bilingual.

SUMMARY

I'm 31 years old and currently working as a software developer at Cute Digital Media. Additionally, I undertake some personal projects that help me learn and stay motivated every day. In the field of software development, I enjoy both backend and frontend work and have often had to handle both parts of the solution. While I'm currently focused on JavaScript, TypeScript, and React, I have experience with various languages and frameworks like C#, Autoit, Angular and Astro. In my personal life, I enjoy watching sports, especially futbol, and spending time with my family.

SKILLS

- Web frontrend development.
- Mobile development Android and iOS.
- Backend development.
- Windows development.
- Cloud computing services, AWS, Heroku, Firebase, DigitalOcean, Firebase.
- Project managment.
- QA Testing.
- Source and Version Control: Git, Github
- API Design and Development.
- Teamwork and Collaboration.
- Programming Languages and frameworks: Typescript, Javascript, C#, Autoit, Node.js, React Native, React, Astro.
- Databases: MySQL, Postgresql, Firestore database, MongoDB,
- Linux, VPS Management, DNS Management and configuration.

ACOMPLISHMENTS

- Owned 3 restoration workshops in 2019.

- Developed the software MC-U Tool in Autoit for the professional repair of mobile devices reaching more than 500 active users.

- I serve as project manager for 4 companies of difrenetes purposes belonging to the Panamanian businesswoman Yoanka McPherson, these are: D'McPherson Editorial, MC Imprenta, D'McPherson Diseños and Cukbanía.

- Actually I'm developing React and React Native Apps for Cute Digital Media LLC, essentially focused in Pronyr TV Platform.
