**Constructivism** was an [artistic](#) and [architectural](#) philosophy that originated in [Russia](#) beginning in 1919 and was a rejection of the idea of autonomous art. The movement was in favour of art as a practice for social purposes. Constructivism had a great effect on modern art movements of the 20th century, influencing major trends such as the [Bauhaus](#) and [De Stijl](#) movements. Its influence was pervasive, with major impacts upon architecture, [graphic design](#), [industrial design](#), theatre, film, dance, fashion and to some extent music.
