

WhatsApp Business Integration & Automation

Starting at Rs. 85,000

Turn WhatsApp into a scalable business communication system. This service sets up WhatsApp Business API, automates customer interactions, and connects WhatsApp to your internal systems and CRM.

Deliverables

- WhatsApp Business API setup and verification
- Phone number migration from legacy accounts
- Centralized multi-user inbox
- Automated replies and message flows
- AI chatbot for FAQs and lead qualification
- CRM integration (API-compatible)
- Automated lead tagging and routing
- Team handover and documentation
