[Mobile library] 11 of 12 review helpful An original and groundbreaking approach to financial crises By Jorge Fernandez Baca While most economists are still puzzled by the most recent foreign exchange and banking crises such as the ones that took place last year in Argentina and Uruguay and some of them like Stiglitz are proposing reckless and ineffective solutions such as abolishing the IMF and most of the existing international age Many thanks to the

Harper who told me a lot about this Financial Crises, Liquidity, and the International Monetary System. Until I was interested to read it. **Financial Crises, Liquidity, and the International Monetary System** has meaningful and a valuable lesson.
