paper Every billion dollars helps and hung it over my desk I had been creating software called NIPS and later LEADMiner and DARTTS which would be used by dozens of governments to target trade based money laundering TBML But I was wrong I should have written Every trillion dollars helps Governments take notice **Trade-Based Money Laundering: The Next Frontier in International Money Laundering Enforcement (Wiley and SAS Business Series)** is my first book that I read. This is a wonderful book's title: Trade-Based Money Laundering: The Next Frontier in International Money Laundering Enforcement (Wiley and SAS Business Series) I ever had. It makes a wonderful experience at the beginning when I get used to using my spare time to read books. You also have to feel this wonderful experience.
