INTRODUCTION TO THE ORGANIZATION OF THE CITY OF LOS ANGELES

The City of Los Angeles (City) was incorporated in 1850 under the provisions of a City Charter. The current Charter was approved by the electorate on June 8, 1999 and became effective on July 1, 2000. The City's organizational structure provides for a decentralized operation. For single audit purposes in accordance with the Uniform Guidance, the City reports as five separate entities to reflect this structure. These entities include: (1) General Government; (2) Department of Airports; (3) Harbor Department; (4) Department of Water and Power; and (5) Housing Authority of the City of Los Angeles. All five entities are responsible for arranging an annual financial audit. If they receive Federal assistance, they also arrange for single audits and submit the resulting reports to the Federal Audit Clearinghouse of the U.S. General Services Administration.

The General Government entity is under the control and management of the Mayor and City Council. Services provided by this entity are delineated in the City Charter and Administrative Code. The remaining four entities are independent of direct Mayor and City Council control and management.

The Department of Airports, Harbor Department, and Department of Water and Power are independent Charter departments headed by citizen commissions appointed by the Mayor and confirmed by the City Council. These departments have control of their own funds and revenue. They establish their own budgets, set their rates subject to City Council review and approval, sell revenue bonds, and have required audits performed.

The Housing Authority of the City of Los Angeles is an entity established as a result of Federal/State law provisions and is headed by a City commission.

The City prepares and issues an Annual Comprehensive Financial Report that contains the basic financial statements. The Annual Comprehensive Financial Report is prepared

in conformity with generally accepted accounting principles (GAAP) for State and local governments. For GAAP reporting purposes, the City's reporting entity includes three of the four independent entities. The Housing Authority is fiscally independent of the City and therefore excluded from the City's reporting entity.

The General Government's auditor performs financial and single audits of the General Government, while the financial and any required single audits of the other entities are performed by their respective auditors.

The City's Annual Comprehensive Financial Report (which includes the basic financial statements) and the Schedule of Expenditures of Federal Awards (SEFA) with required single audit reports for the fiscal year ended June 30, 2025, are issued as separate documents. Copies of both the Annual Comprehensive Financial Report and the SEFA, with the required single audit reports, are submitted to the Federal Audit Clearinghouse of the U.S. General Services Administration, and the State Controller.

The attachment provides summary information on each of the five Single Audit reporting entities of the City. A brief description of the functions of each of these entities is included.

Sincerely,

Independent Auditor’s Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Honorable Members of the City Council
City of Los Angeles, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Los Angeles, California (City), as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated January 29, 2026. Our report includes emphasis of matters paragraphs for the City’s adoption of Governmental Accounting Standards Board Statement No. 101, *Compensated Absences*, the estimate of overall financial impact of Palisades Fire, and the lawsuits filed against the City, DWP, and other entities as a result of the Palisades Fire. Our report includes a reference to other auditors who audited the financial statements of the following City departments/funds: Department of Airports (Airports); Department of Water and Power (DWP) Water System and Power System; Department of Harbor (Harbor); Los Angeles Fire and Police Pension System (Pensions); Los Angeles City Employees’ Retirement System (LACERS); and Water and Power Employees’ Retirement, Disability and Death Benefit Insurance Plans (DWP Plans) as described in our report on the City’s financial statements. The financial statements of the DWP Plans were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with the DWP Plans or the results of the other auditors testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors who audited the financial statements of Airports, DWP Water System and Power System, Harbor, Pensions, and LACERS.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control described in the accompanying schedule of findings and questioned costs as items 2025-001 and 2025-002 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor’s Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance, Supplementary Schedule of Expenditures of Federal Awards and State Awards Granted by California Department of Aging, and Community Services Block Grant Supplementary Schedules of Revenue and Expenditures

The Honorable Members of the City Council
City of Los Angeles, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Los Angeles, California’s (City), compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City’s major federal programs for the fiscal year ended June 30, 2025. The City’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City’s compliance with the compliance requirements referred to above.

Other Matter – Federal Expenditures Not Included in the Compliance Audit

The City's basic financial statements include the operations of the Department of Airports (Airports), the Department of Water and Power (DWP) Water System, and the Department of Harbor (Harbor), which expended \$198,294,000, \$32,046,000, and \$7,701,000, respectively, in federal awards, which are not included in the City's schedule of expenditures of federal awards for the fiscal year ended June 30, 2025. Our compliance audit, described in the Opinion for Each Major Federal Program, does not include the operations of Airports, DWP Water System, and Harbor because these departments engaged other auditors to perform an audit of compliance.

Responsibilities of Management for Compliance

The City's management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance, Supplementary Schedule of Expenditures of Federal Awards and State Awards Granted by California Department of Aging, and Community Services Block Grant Supplementary Schedules of Revenue and Expenditures

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We have issued our report thereon dated January 29, 2026, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards, supplementary schedule of expenditures of federal awards and state awards granted by California Department of Aging, and community services block grant supplementary schedules of revenue and expenditures (Schedules) are presented for purposes of additional analysis as required by the Uniform Guidance, the California Department of Aging, and the California Department of Community Services and Development, respectively, and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

CITY OF LOS ANGELES
Notes to Schedule of Expenditures of Federal Awards
Fiscal Year Ended June 30, 2025

1. Reporting Entity for Single Audit

The City of Los Angeles, California (City) has defined its single audit reporting entity for the purpose of this report, in accordance with Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), as:

"Those Departments and Offices over which the Mayor and the City Council have direct legislative, executive and budgetary control."

The Housing Authority of the City of Los Angeles is fiscally independent of the City and therefore excluded from the City's reporting entity under generally accepted accounting principles and, accordingly, from its Single Audit reporting entity.

For the purpose of the Schedule of Expenditures of Federal Awards, the reporting entity consists of the following City Departments and Offices:

Aging	Employee Relations Board
Animal Services	Office of Finance
Building and Safety	Fire
Cannabis Regulation	General Services
City Administrative Officer	Los Angeles Housing
City Attorney	Information Technology Agency
City Clerk	Library
City Ethics Commission	Mayor
Civil + Human Rights and Equity	Neighborhood Empowerment
Community Investment for Families	Personnel
Controller	City Planning
Los Angeles City Tourism	Police
Council	Public Accountability
Cultural Affairs	Public Works
Disability	Recreation and Parks
Economic and Workforce Development	Transportation
El Pueblo de Los Angeles	Youth Development
Emergency Management	Zoo

CITY OF LOS ANGELES
Notes to Schedule of Expenditures of Federal Awards (Continued)
Fiscal Year Ended June 30, 2025

2. Awards Received by Other City Departments and Entities

The federal award programs administered by the following City Departments and related organization are not included in the Schedule of Expenditures of Federal Awards but have separate independent single audits:

<u>Department/Agencies</u>	<u>Federal Single Audit Cognizant/Oversight Agencies</u>	<u>Auditors</u>
Airports	Department of Transportation	Baker Tilly US, LLP
Harbor	Department of Transportation	Baker Tilly US, LLP
Housing Authority of the City of Los Angeles	Department of Housing and Urban Development	Berman Hopkins Wright & Laham CPAs & Associates, LLP
Water and Power	Environmental Protection Agency (Water System)	KPMG LLP

3. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (SEFA) presents the activity of all federal award programs of the City Departments and Offices identified in Note 1. All federal awards from the federal government and pass-through agencies are included in the SEFA. The information in the SEFA is presented in accordance with the requirements of the Uniform Guidance.

4. Summary of Significant Accounting Policies

Expenditures reported on the SEFA are reported on the modified accrual basis of accounting, however, some amounts presented in this schedule are reported on a cash basis, as described in Note 10. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. Negative or credit amounts on the SEFA represent an adjustment for amounts reported as expenditures in the prior fiscal year.

The City has elected not to use the de minimis indirect cost rate allowed under the Uniform Guidance, which is ten (10) percent for awards prior to October 1, 2024 and fifteen (15) percent for awards on or after October 1, 2024.

5. Relationship to Federal Financial Reports

Amounts reported in the accompanying SEFA agree with the amounts reported in the related federal financial reports.

6. Changes in Assistance Listing (AL) Numbers (No.)

AL Nos. 16.544, 21.003 and 97.090 are archived programs that are being retained to report expenditures incurred or to show outstanding loans of these programs.

7. Major Federal Programs

Under the risk-based approach to determine major programs under the Uniform Guidance, major programs of the City may have expenditures as low as \$750,000 if the program is considered to be of high risk. Level of risk is determined by the auditor's judgment and guidelines contained in the Uniform Guidance.

8. Outstanding Loans of Federal Funds

The following is a summary of outstanding loans at cost by AL No. as of June 30, 2025. The outstanding loan balances do not reflect an allowance for uncollectibles of \$803,183,000. The FY 2023-24 outstanding balance of AL No. 14.248 in the amount of \$47,182,000, for which the Federal Government imposed continuing compliance, was included in the total expenditures in the accompanying SEFA. There were no new loans issued during the year for AL No. 14.248.

9. Coronavirus Disease 2019 (COVID-19)

On March 13, 2020, a presidential emergency was declared for all states, tribes, territories, and the District of Columbia due to the ongoing Coronavirus Disease 2019 (COVID-19) pandemic. The declaration made federal disaster grant public assistance available through the Coronavirus Aid, Relief, and Economic Security (CARES) Act to the City and to the State of California to supplement the City's local recovery efforts. To assist in the efforts to respond to COVID-19, the City received significant fiscal stimulus in federal funds.

On April 22, 2020, the City received a CARES Act award of \$694,405,000 from the U.S. Department of the Treasury. The City is a prime recipient and received the direct payment under section 601(b) of the Social Security Act. The accompanying SEFA includes expenditures of CARES Act funds: AL No. 14.218 in the amount of \$1,660,000; AL No. 14.231 in the amount of \$1,731,000; AL No. 20.507 in the amount of \$141,000 that: a) were necessary expenditures incurred due to the public health emergency with respect to COVID-19; b) were accounted for in the revised budget most recently approved as of July 1, 2024; and were incurred during the period July 1, 2024 through June 30, 2025. The award's period of performance ends on September 30, 2024. The City reviewed the eligible CARES Act expenditures and reflected any FY 2023-24 expenditures adjustments in the FY 2024-25 Single Audit Report due to the complexity of the federal guidance on the CARES Act.

On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) and the Consolidated Appropriations Act (CAA), 2021 were signed into law, to supplement the funding received under CARES. The accompanying SEFA includes CRRSAA expenditures under AL No. 20.507 in the amount of \$17,250,000.

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law to deliver immediate and direct relief to individuals, families, states and local governments impacted by the COVID-19 pandemic. In May of 2021, the City received the first portion of funding from ARPA and the second tranche was received in June of 2022. The accompanying SEFA includes expenditures of ARPA funds: AL No. 21.027 in the amount of \$36,279,000; AL No. 20.507 in the amount of \$31,466,000 that: a) were necessary expenditures incurred due to the public health emergency with respect to COVID-19; and b) were incurred during the period July 1, 2024 through June 30, 2025. ARPA funding was also used for COVID-19 Emergency Rental Assistance Program (ERAP) and began distributions in July 2020. During FY 2024-25, the accompanying SEFA includes negative expenditures of ERAP funds in the amount of \$751,000 (AL No. 21.023) which represent an adjustment for amounts reported as expenditures in prior years.

10. Disaster Grants AL No. 97.036

On March 22, 2020, the President declared a major disaster for the State of California in relation to the coronavirus pandemic and issued FEMA-4482-DR. As a result of 4482-DR, the City is eligible for reimbursement of eligible expenditures through the Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program for emergency protective measures.

During the fiscal year ended June 30, 2025, the City received \$207,708,000 and reported this amount on the SEFA for FEMA-4482-DR under AL No. 97.036 on a cash basis. The City has submitted its last claims to FEMA for the COVID-19 response. The City anticipates receiving \$10,411,000 by the end of FY 2025-26 (which includes \$4,586,000 of management costs), and \$8,020,000 by the end of FY 2026-27.

While the City is still in the process of assessing the overall financial impact of the Los Angeles 2025 Wildfire, as of December 8, 2025 (most current estimate) the City estimates approximately \$227.0 million in costs to the City, which includes over \$144.0 million in damage or destruction to structures and equipment. These estimates are preliminary and are expected to change as the damage assessment and recovery efforts continue. The City expects to recover a significant portion of these costs from state and federal sources.

11. Water Infrastructure Finance and Innovation Act (WIFIA) Loans Payable

The City received funding through the WIFIA loan administered by the U.S. Environmental Protection Agency. As of June 30, 2025, outstanding principal balance of the loan was \$66,666,000. The City had not drawn against the loan as of June 30, 2024. The City's SEFA reflects a total of \$66,666,000 in federal expenditures under AL No. 66.958, of which \$32,185,000 represents costs incurred in prior fiscal years.

Section II – Financial Statement Findings

Reference Number: 2025-001
Type of Finding: Significant Deficiency

Criteria:

IT general controls (ITGCs) are foundational controls applied to information systems to support the reliability, integrity, and security of data and related processes. Effective ITGCs are essential to maintaining an adequate system of internal control over financial reporting, as they have a pervasive impact on the operation of application-level controls.

Condition:

We evaluated the design and implementation of ITGCs over three key financial reporting applications: the Financial Management System (FMS) (general ledger), Workday (payroll), and LATAX (taxes, licenses, fees, and permits).

As a result of our procedures, we identified five control deficiencies primarily related to Workday, which was newly implemented in June 2024. These matters have been communicated to the Information Technology Agency (ITA).

Due to the sensitive nature of these control deficiencies and the potential risk they pose to the City's information systems, detailed descriptions are not included in this report. Such details will be communicated separately in a confidential report to the City Council .

Cause and Effect or Potential Effect:

The identified deficiencies were influenced by a combination of factors, including staffing constraints, operational disruptions associated with the 2025 Los Angeles wildfires, and challenges inherent in implementing a new enterprise system.

As a result, there is an increased risk that payroll data may not be complete or accurate, which could lead to potential financial misstatements, as well as heightened exposure to compliance and operational risks.

Recommendation:

Recommendations to address the identified deficiencies will be communicated in a separate confidential report to the City Council.

Views of Responsible Officials:

The City's corrective action plan will be communicated in a separate confidential report to the City Council. The auditors will follow up on the City's implementation of its corrective action plan in the next audit.

Section II – Financial Statement Findings

Reference Number: 2025-002
Type of Finding: Significant Deficiency

Criteria:

Title 2 - Grants and Agreements. Subtitle A - Office of Management and Budget Guidance for Grants and Agreements. Chapter II - Office of Management and Budget Guidance. Part 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Subpart D - Post Federal Award Requirements. Standards for Financial and Program Management. §200.303 Internal controls (2 CFR 200.303):

The non-Federal entity must:

(a) Establish, document, and maintain effective internal control over the Federal award that provides reasonable assurance that the recipient or subrecipient is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should align with the guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller General of the United States or the “Internal Control-Integrated Framework” issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Title 2 - Grants and Agreements. Subtitle A - Office of Management and Budget Guidance for Grants and Agreements. Chapter II - Office of Management and Budget Guidance. Part 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Subpart F - Audit Requirements. §200.510 Financial statements (2 CFR 200.510):

(b) *Schedule of expenditures of Federal awards.* The auditee must also prepare a schedule of expenditures of Federal awards for the period covered by the auditee's financial statements. The schedule must include the total Federal awards expended as determined in accordance with § 200.502. The auditee may choose to provide information requested by Federal agencies or pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple Federal award years, the auditee may separately list the amount of Federal awards expended for each year of a Federal award. The schedule must:

(3) Provide total Federal awards expended for each individual Federal program and the Assistance Listings Number or other identifying number when the Assistance Listings information is not available. For a cluster of programs also provide the total for the cluster.

Condition:

The City of Los Angeles has a decentralized financial reporting process, which requires departments to provide specific financial information to the City Controller department in order to annually compile the Schedule of Expenditures of Federal Awards (SEFA). In its effort to accurately prepare the SEFA in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit

CITY OF LOS ANGELES, CALIFORNIA
Schedule of Findings and Questioned Costs (Continued)
Fiscal Year Ended June 30, 2025

Requirements for Federal Awards (Uniform Guidance), the City Controller requires departments to submit a SEFA package which includes checklist and questionnaire reviewed and approved by the responsible personnel.

The Los Angeles Housing Department overstated the expenditures for Emergency Solutions Grants Program (ALN 14.231) by \$2,290,000 for the fiscal year ended June 30, 2025. The amount represents expenditures for services incurred in fiscal year 2023 and 2024 and should have been reported in the fiscal year 2023 and 2024 SEFA.

This is a repeat finding of 2024-001; however, the program with the identified error for fiscal year 2025 is different than the prior year.

Cause and Effect or Potential Effect:

The Los Angeles Housing Department was aware of its responsibility, however, due to delayed submission of invoices by LAHSA, the department had limited information to accrual expenditures in the appropriate fiscal year. The expenditures were incurred by LAHSA during the period from July 1, 2023 through Sept 30, 2023; however, the reimbursement request was not submitted to LAHD until September 24, 2024. As a result, LAHD did not have sufficient information to identify or reasonably estimate these costs for accruals. Accordingly, the expenditures were recorded in FY2025 when they became known and measurable.

The Los Angeles Housing Department reported expenditures of \$6,460,000 was overstated by \$2,290,000 or 35%.

Recommendation:

The Los Angeles Housing Department should continue to evaluate existing processes and controls related to its ability to properly report federal expenditures to the SEFA package, which affords City Controller the ability to produce a SEFA pursuant to the Uniform Guidance.

Views of Responsible Officials and Corrective Action Plan:

The identified issue reflects a timing difference related to subrecipient reporting rather than a failure of internal controls over federal award management. LAHD maintains processes to review, validate, and approve subrecipient reimbursement requests before recording expenditure. In this instance, LAHD did not receive the subrecipient's request for reimbursement of expenditures incurred in prior fiscal year until September 24, 2024. Accordingly, LAHD recorded the expenditures in fiscal year 2025, when the information became available and determinable. The expenditures were valid, allowable, and properly supported under the program, and there was no impact on total program expenditures across periods. This issue is limited to the timing of recognition in the SEFA.

To further enhance financial reporting accuracy and strengthen coordination with subrecipients, LAHD will implement the following actions:

- Enhance Subrecipient Communication: Reimburse expectations with subrecipients regarding timely submission of reimbursement requests, particularly around fiscal year-end cutoff periods.
- Year-end Accrual Procedures: Implement additional procedures to evaluate potential unsubmitted expenditures from subrecipient at fiscal year-end, including outreach and estimation protocols where appropriate.
- Cutoff Review Controls: Strengthen review controls over SEFA preparation to include a

formal assessment of subsequent reimbursement requests that may relate to prior fiscal periods.

These enhancements are intended to improve cutoff precision while recognizing the inherent dependency on subrecipient reporting timelines.

FINANCIAL STATEMENT FINDINGS:

2014-001 Risk Assessment over Financial Reporting (Material Weakness)

1. Control Environment and Risk Assessment

Condition

The City does not have a comprehensive risk assessment process over external financial reporting.

Due to the risks associated with the decentralized nature of the City, in 2008, the City Controller identified and issued a report titled "Evaluation of Citywide Risk Management Functions" related to the lack of risk assessment within the City.

The report recommended that the City establish an organizational and governance structure for an enterprise risk management model (ERM). The report further recommended that the City be responsible for implementing a risk assessment framework similar to that mentioned in the Green Book.

As of fiscal year 2014, an ERM or risk assessment framework over external financial reporting has not yet been implemented.

Recommendation

We recommend that the City adopt a process for financial statement risk assessment to ensure that adequate controls over external financial reporting exist.

2. Control Activities and Monitoring

Condition

The City has not established a comprehensive assessment of risks over external financial reporting. In the absence of a risk assessment, the City has not identified the critical controls to ensure compliance with external financial reporting requirements nor have these critical controls been monitored on a regular basis.

The City's current control activities, while necessary, emphasize risks primarily at the transaction level rather than at the external financial reporting level. The transaction level reporting and monitoring includes Demand Audit for payments, Funds and Appropriations for budgetary controls, and the Audit Division for departmental controls. As the City is decentralized, individual City departments' internal control processes are significantly relied upon for accurate external financial reporting.

CITY OF LOS ANGELES, CALIFORNIA
Summary Schedule of Prior Audit Findings (Continued)
Fiscal Year Ended June 30, 2025

The lack of controls over external financial reporting resulted in certain inconsistencies by various departments in the preparation of financial information used in preparing the City's basic financial statements included in its ACFR resulting in misstatements, such as misclassifications of financial statement elements, and misapplications of GAAP. As an example, the reversion worksheets prepared at the department level to reclassify expenditures initially recorded in the General Fund to the proper funds add an extra element of complexity to the financial reporting process. Since these reversion worksheets are based on both budgeted and actual expenditures, there is an increased risk that the consolidation process for external financial reporting may contain errors. This is further complicated by the City's multiple proprietary IT systems (PaySR, LATAX, and SMS) that interface with the City's Financial Management System (FMS), which is then summarized in a Microsoft Access database used by the Controller's Office to prepare the City's ACFR.

Recommendation

The City should design and implement a system of internal controls over external financial reporting. The system of internal controls should include: 1) implementation of a risk assessment over external financial reporting; 2) design and implementation of controls over critical risk areas identified; 3) monitoring of stated controls; and 4) periodic re-evaluations of risks and controls.

Current Year Management Response

The status of the non-responding departments (e.g., Mayor, City Attorney, several Council Offices) remains unchanged and the City Attorney's Office continues to opine that the City Charter prevents the Controller from conducting performance audits of programs situated in elected offices. Our Office is actively working with the Charter Reform Commission to clarify the language in the City Charter and remove any oversight barriers.

In addition, the results from the FY24-25 Citywide Internal Control Self-Assessment have been incorporated into the planning/risk assessment phases at the outset of each audit project. Audit teams are required to review departmental responses/risks from the self-assessment and determine whether those risks are relevant to the scope of the audit. As needed, areas of concern from the self-assessment are incorporated into development of audit objectives and testing methodology.

Current Status as of June 30, 2025

Partially implemented.

2024-001 SEFA Preparation (Significant Deficiency)

Condition

The City of Los Angeles has a decentralized financial reporting process, which requires departments to provide specific financial information to the City Controller department in order to annually compile the Schedule of Expenditures of Federal Awards (SEFA). In its effort to accurately prepare the SEFA in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), the City Controller requires departments to submit a SEFA package which includes checklist and questionnaire reviewed and approved by the responsible personnel. The Department of Transportation (DOT) overstated the expenditures for Federal Transit Cluster (ALN 20.507) by \$5,948,000 for the fiscal year ended June 30, 2024. The amount represents expenditures for services incurred in July 2025.

Recommendation

DOT should continue to evaluate existing processes and controls related to its ability to properly report federal expenditures to the SEFA package, which affords City Controller the ability to produce a SEFA pursuant to the Uniform Guidance.

Current Year Management Response

Department of Transportation has implemented corrective action #1, which involved hiring an accountant in October 2024. However, this employee departed the department on June 28, 2025. Additionally, corrective action plans for items #2, #3, and #4 have been implemented.

Current Status as of June 30, 2025

The finding was corrected for the department and program error identified in the fiscal year 2024 SEFA; however, we noted a similar finding for another program in fiscal year 2025. See current finding 2025-002.

Condition

We selected nine (9) subrecipients with active contracts during FY 20-21 and noted that LADOA did not perform on-site monitoring over the subrecipients federal funding during FY 20-21.

Recommendation

We recommend that LADOA evaluate resources and obstacles impeding the City's ability to perform subrecipient monitoring in accordance with its prescribed program and develop and implement solutions to comply with subrecipient monitoring requirements. LADOA should consider reorganizing staffing roles and responsibilities to create capacity, revising the monitoring program and outsourcing monitoring to independent contractors.

Current Year Management Response

The Los Angeles Department of Aging (LADOA) has been significantly understaffed over the past several years and, more acutely, during the fiscal year in which the audit was conducted. These vacancies limited the Program Management Division's (PMD) capacity to conduct on-site monitoring throughout Fiscal Year 2024–25.

The Department has prioritized filling these PMD roles, which are essential for the effective oversight of diverse program services. Now fully staffed, the Department is better positioned to meet State monitoring requirements. This full staffing also allows the PMD Supervisor to resume direct oversight and compliance strategy, tasks that were previously compromised by the Director's coverage of operational duties such as contract execution and invoicing.

Further, we feel optimistic that moving forward, the consolidation of LADOA, the Community Investment for Families Department (CIFD), Youth Development Department (YDD), and the Economic and Workforce Development Department (EWDD) will strengthen the administrative capacity of the newly formed Community Investment Department by streamlining and modernizing monitoring policies and procedures, standardizing compliance practices, and leveraging additional staff expertise and resources. This new department will revamp existing oversight processes, provide enhanced technical assistance to service providers, and implement cross-training for staff to ensure consistent application of federal, State, and local regulatory requirements. The development and implementation of new and updated policies and procedures will further support compliance with all applicable federal regulations, improve operational efficiency, and allow the PMD unit to focus more effectively on managing and monitoring senior service programs and providers.

CITY OF LOS ANGELES, CALIFORNIA
 Summary Schedule of Prior Audit Findings (Continued)
 Fiscal Year Ended June 30, 2025

The PMD unit will continue to oversee operations, enforce regulatory and contractual compliance, and update departmental monitoring guidelines. To ensure oversight remains consistent, efficient, and effective, we have established a schedule comprising on-site monitoring in the first quarter and desk reviews in the third quarter of the fiscal year. Additionally, formal technical assistance will be provided bi-annually, with informal support available to service providers throughout the year as needed. The table below outlines the proposed schedule, subject to adjustments based on availability and operational needs.

Recommendation

We recommend that EWDD review workflow priorities and evaluate resource needs to ensure all reports are submitted timely. When a report cannot be submitted by the due date, EWDD should contact its grantor, request an extension, and maintain a record of the correspondence and approval.

Current Year Management Response

CLAEWDD requested for another extension on August 21, 2024 because of technical issues we had at the time of submission and it was approved by DEO on the same day. However, on August 23, 2024, we were not able to submit all our closeouts because the WORKS system won't let us submit not until the latest Cash Fund Request is approved to final. We informed DEO about this and they acknowledged that they still have to approve the previous Cash Fund Requests from their end before we can submit our closeout reports. We continue to strive to submit closeout reports to the DEO on or before the due date for submission. If we won't be able to meet it due to unavoidable circumstances, then we will request again for another extension and will keep a proof of approved time extension.

 Summary Schedule of Prior Audit Findings (Continued)
 Fiscal Year Ended June 30, 2025

The PMD unit will continue to oversee operations, enforce regulatory and contractual compliance, and update departmental monitoring guidelines. To ensure oversight remains consistent, efficient, and effective, we have established a schedule comprising on-site monitoring in the first quarter and desk reviews in the third quarter of the fiscal year. Additionally, formal technical assistance will be provided bi-annually, with informal support available to service providers throughout the year as needed. The table below outlines the proposed schedule, subject to adjustments based on availability and operational needs.

Recommendation

We recommend that EWDD review workflow priorities and evaluate resource needs to ensure all reports are submitted timely. When a report cannot be submitted by the due date, EWDD should contact its grantor, request an extension, and maintain a record of the correspondence and approval.

Current Year Management Response

In our previous response, we mentioned the anticipated implementation/corrective action plan was started on May 2024 and we have been continuing this practice since then. One of the reasons why the reports were not submitted on time is that the cash refund request should be approved first to final status by DEO. Our reports were ready but we can only submit each one when the latest was already approved. Another reason is the delay in the submission and approval of budget. It took five months to have the budget were approved in the WORKS before we were able to submit our July to November 2024 reports.
