Max Wattage: 14w

Materials: Machined brass, glass
Bulbs: 12V LED, G4, 1.2w, dimmable, 2700K, 110V or 220V transformer and plug provided

Inspiration

The Cherry Bomb collection, which debuted in 2014, was born of Lindsey's long-time obsession with the ephemerality of the spring-blossoming Japanese trees that line grand boulevards throughout the world. She has always been captivated by the achingly beautiful contrast between the short-lived whisper-pink flowers and the trees' dark gnarled limbs, which seem to have a profound story to tell.
