Mounting Hardware: French cleat and 5" x 5" x 10" brass box  
Materials: Machined brass, glass  
Bulbs: G4|12V|1.2W|2700K LED, dimmable, transformer provided

UL, cUL (120V) Certified

Inspiration

The Catch Box Sconce is a modular system of brass boxes and hand-blown glass. To create each piece, glass is blown directly onto the metal forms and left to slump with the weight of gravity as it cools. The resulting form exemplifies the organic nature of the material.
