### Overview

LS Hub iSubmit is a streamlined submission, management & tracking life settlement platform designed specifically for financial professionals and independent distribution organizations.

### Uses

LS Hub iSubmit makes the process easy to start, track & manage life settlement. By pioneering life settlement electronic application and hierarchy management tools, LS Hub iSubmit is the first platform designed for independent distribution organizations.

### Financial Planners

When addressing senior clients who no longer need, want or can afford their existing life insurance, life settlement provides a valuable option.

### CPA's

Realizing life insurance is an asset, like a house or car, is important when considering clients finances.

### Attorneys

When clients or managed trusts have life insurance, they may be open to selling, life settlement provides an excellent opportunity to make high referral fees.
