The Future of Cooking

BUILT-IN APPLIANCES

There are some people for whom 'second best' has no place, neither in their thinking, nor in their scheme of things.

For whom, there are no compromises in quality, comfort, aesthetics or safety. Who are in touch with the latest developments and trends. And who want to utilize the benefits of innovation.

These special people will go that extra mile to ensure that their lifestyle choices meet their standards.

Their homes reflect their personality. Their kitchens should be no different...

Bring on **CAPELLA**!

Chimneys

A Capella Chimney gives a luxurious ambience to the kitchen and is the answer for those of you who dream of the perfect designer kitchen! Outstanding workmanship has translated the futuristic designs into pieces of art, matched only by excellent engineering that gives you a range of top-end chimneys that define 'perfection'.

Crafted in Italy, which like India, has a tradition of aromatic cooking, Capella Chimneys come in a range that share certain characteristics: Super-efficient at their main purpose of eliminating smell, fumes and grime, they are equipped with safety features, work at low sound levels and give the kitchen a smart, plush look.

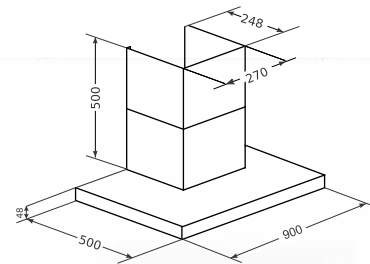

PDCA MOTOR LOW NOISE, LONG LIFE

A pressure die cast aluminium (PDCA) housing enhances the durability of the Italian motor and reduces the ambient noise.

Counter Hood - Downdraft

Capella counter hood is the epitome of intelligent thinking in kitchen design. Installed behind or alongside your hob, it glides up in to position, beyond the height of the pans to extract odours directly from the cooking area on the press of a button. With an ingenious under-counter installation, wall space is kept clear so that the view across the kitchen remain uncluttered.

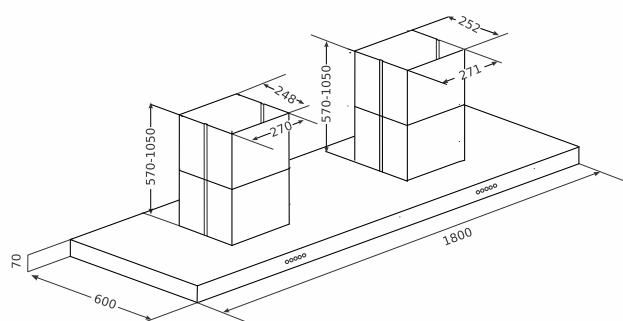

Capella counter hood features touch control technology and is super-efficient at it's purpose of eliminating smell, fumes and grime.

Cieling Hood - Cielo

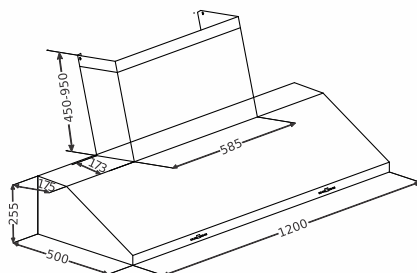

Well enclosed within the false ceiling, this revolutionary new form of chimney is truly unobtrusive and saves space too.

Using perimetric extraction system, it draws air in through narrow apertures around the full perimeter of the hood. It means higher air pressure, greater efficiency and less noise too.

The user-friendly remote places both power and lighting functions within easy reach. It also allows you to set the handy timer function, which automatically switches off the extractor after the set time, so when you leave your kitchen you know that any odours will be gone by the time you return.

Built-in Hobs (Induction)

Providing a flameless method of cooking, Capella induction hobs offer a whole range of benefits. They're hygienic, more energy-efficient, versatile, safer and easier to use. Heat is instant, and it's easy to control. The top surface remains cool, so you don't need to worry about accidentally touching a hot burner. Only the pan gets hot and there's no direct transfer of heat between the hob and the pan.

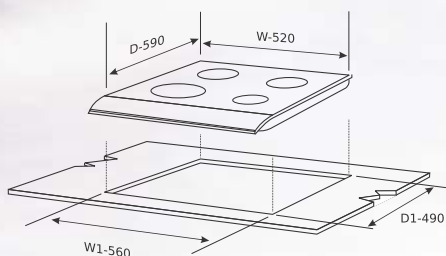

Capella Induction hobs are a real pleasure to work on, with features like touch controls, auto safety off, world's best German Schott glass and much more.
