P R E M I U M S U R F A C E S

Q u a r t z

In Spain,
Bajo Tierra means
“Beneath the Earth”

P r e m i u m Q u a r t z S u r f a c e s

We believe
in bringing you the
Best from Beneath!

Adding a touch
of luxury to
living spaces.

In Spain, Bajo Tierra means “beneath the earth”. Gliding through the layers of earth, Bajo Tierra unearths the finest quality of quartz for you. We are a multinational company with stores spanning across the globe, UAE and Vietnam being the most recent expansion to it.

■ A BLEND OF NATURE AND CRAFTSMANSHIP

Combining impeccable craftsmanship, innovation, and the finest raw materials, Bajo Tierra brings to you premium natural quartz surfaces. Our products offer stunning elegance with unmatched durability that gives you years of flawless performance you'll love for life.

Our avant-garde production facility is armed with world-class machinery and state of the art finishing line of Breton. This allows us to excel in prefab countertops and jumbo-sized quartz that are not only extremely durable but are also highly aesthetic in design.

To ensure that we deliver the unparalleled transformative experience you deserve, our very capable engineers perform rigorous quality checks on all processes from procurement to delivery.

CALACATTA SERIES

The Calacatta series combines the beauty of nature with the superlative performance of Bajo Tierra Quartz. The rhythmic lines, and dramatic veins that predominate the patterns give each stone the natural appearance of the rare Calacatta quartz. These slabs are strong, low-maintenance and extremely durable.

CSR ACTIVITIES

Bajo Tierra
PREMIUM COFFEES

CLEAN WATER TO ALL AT ALL TIMES

We have built up over 500 drinking water stations across rural areas of our country. Our sole objective lies in provision of safe and potable drinking water in adequate quantity to all at all times and enhance the living standard in rural areas.

MORE ROOTS BENEATH THE GROUND

Mining takes a toll on the encompassing eco-framework. As responsible corporate citizens, we take adequate measures by limiting the contamination levels at our industrial facilities, and indemnify the act by planting & nurturing trees in the region and developing sprawling nurseries, gardens at various locations.

Quality is not an act,
it is a habit

- Aristotle
