BouMatic®
For the life of your dairy

HiFlo™ Evolution

THE EVOLUTION OF PULSATION

HiFlo Evolution

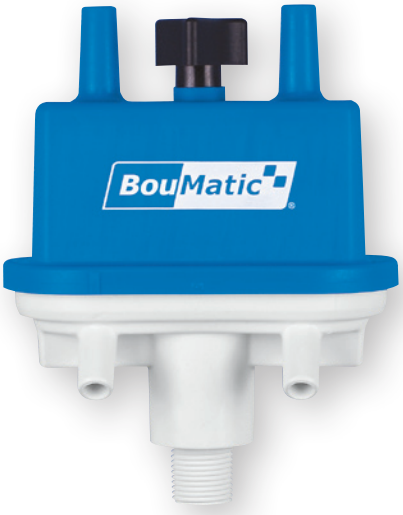

THE EVOLUTION OF PULSATION

The HiFlo Evolution is the ultimate in durability and simplicity. Made up of only eight different parts, it is easy to install and easy to clean.

The HiFlo Evolution is designed to save you time and money while delivering perfect and reliable pulsation.

Durable, reliable and easy to maintain

- **Unique patented design –** built to be efficient and offering reliable operation and complete milking.
- **Highest quality components and materials –** for a high level of durability and ruggedness.
- **Easy installation –** no stallcock needed, easily connects and disconnects to the vacuum line.
- **Easy maintenance –** Minimal parts and simple design make it easy to maintain; no tools erquired to take apart and reassemble.
- **Wiring harnesses –** To further improve installation and eliminate potential wiring errors.
- **Fully encapulsated solenoid coil –** Electrical contacts are protected and water tight.
