BouMatic®

For the life of your dairy

XPEDIA™ 360EX

ULTIMATE

EXTERNAL ROTARY

XPEDIA 360EX

UNEQUALLED ROTARY PERFORMANCE

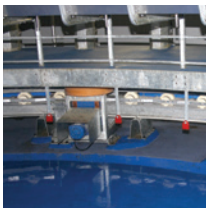

The Xpedia 360EX rotary parlour is specially designed for family dairy farms, enabling the dairy producer to milk on his own and to carry out a whole range of interactions with his herd. With 24 to 40 stalls, it is the ideal platform for herds with 80 to 250 cows.

Functional, comfortable and efficient

- **Easy and fluid cow traffic**
- **Designed for the milker's comfort -** Ergonomic operator positioning for enhanced comfort throughout all procedures.
- **Ultimate udder acces -** Milking from the rear in a 90° position with perfect milking cluster positioning.
- **Smart & efficient -** Touch screen within easy reach for complete platform and milking routine management. The **second turn option** allows you to customize your milking routines when needed.
- **Unclutterd design -** with completely integrated automation.
- **Durable raceway -** With a load capacity higher by 30% than that of traditional platforms & low consumption electrical drive system (0.75 kW).
