

CYBER GENOME

My Mission is to teach skills in over 4 different fields of design, I am the perfect person to hire when it comes to a full fledged project.

I combine creative design with strategic thinking and smooth execution to produce beautiful and effective solutions. Specializing in UI/UX design, UX research, and original design strategy, I am dedicated to user-centered solutions that drive tangible results and align perfectly with your objectives. Partner with me to bring your vision to life through collaborative effort and a relentless focus on the results.

ABOUT

SKILLS ↘

UX Research

I conduct UX research to deeply understand user behaviors and needs, creating efficient, user-centered experiences.

UI/UX Design

Designing responsive, visually appealing, and functional websites and mobile apps created to unique needs.

User Testing

Testing designs with real users to ensure a smooth, efficient, and user-friendly experience.

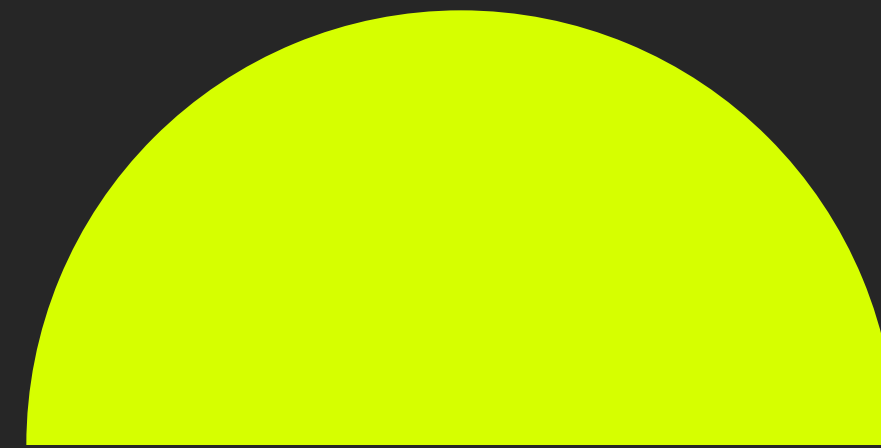

Prototyping

Creating interactive prototypes to visualize ideas, ensuring easy navigation and engaging interactions.

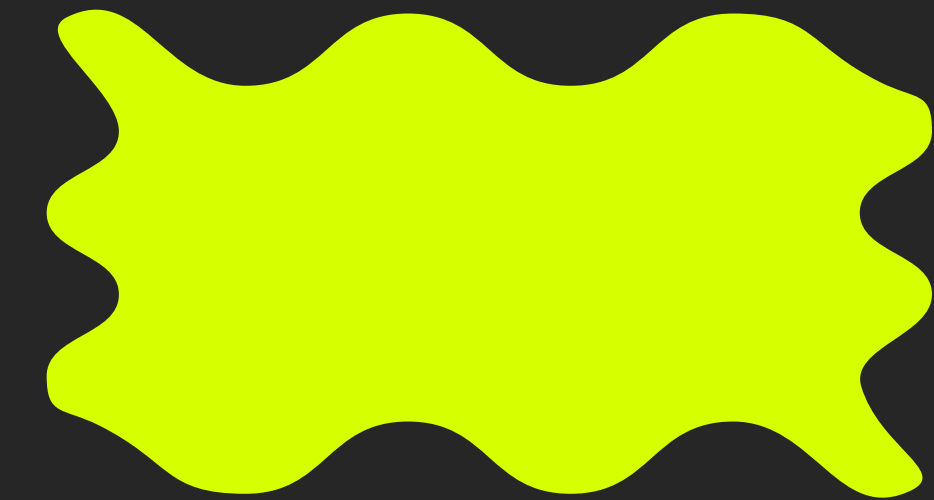

18+ Projects

web apps, mobile apps, AI applications

10+ Clients

all over the world

4+ UI Libraries

redux, react, python and more

SERVICES ↘

Web App Design

I design user-friendly web applications that enhance functionality and experience.

Mobile App Design

I create intuitive and engaging mobile and desktop app interfaces.

Branding

I build strong visual identities that make brands stand out.

UX Research & Testing

I analyze user behavior to refine and improve digital experiences.

Mockups and Visual Design

I provide polished design concepts that bring ideas to life.

Clickable Prototype

I develop interactive previews to test and validate designs before development.

Low & High Fidelity Wireframes

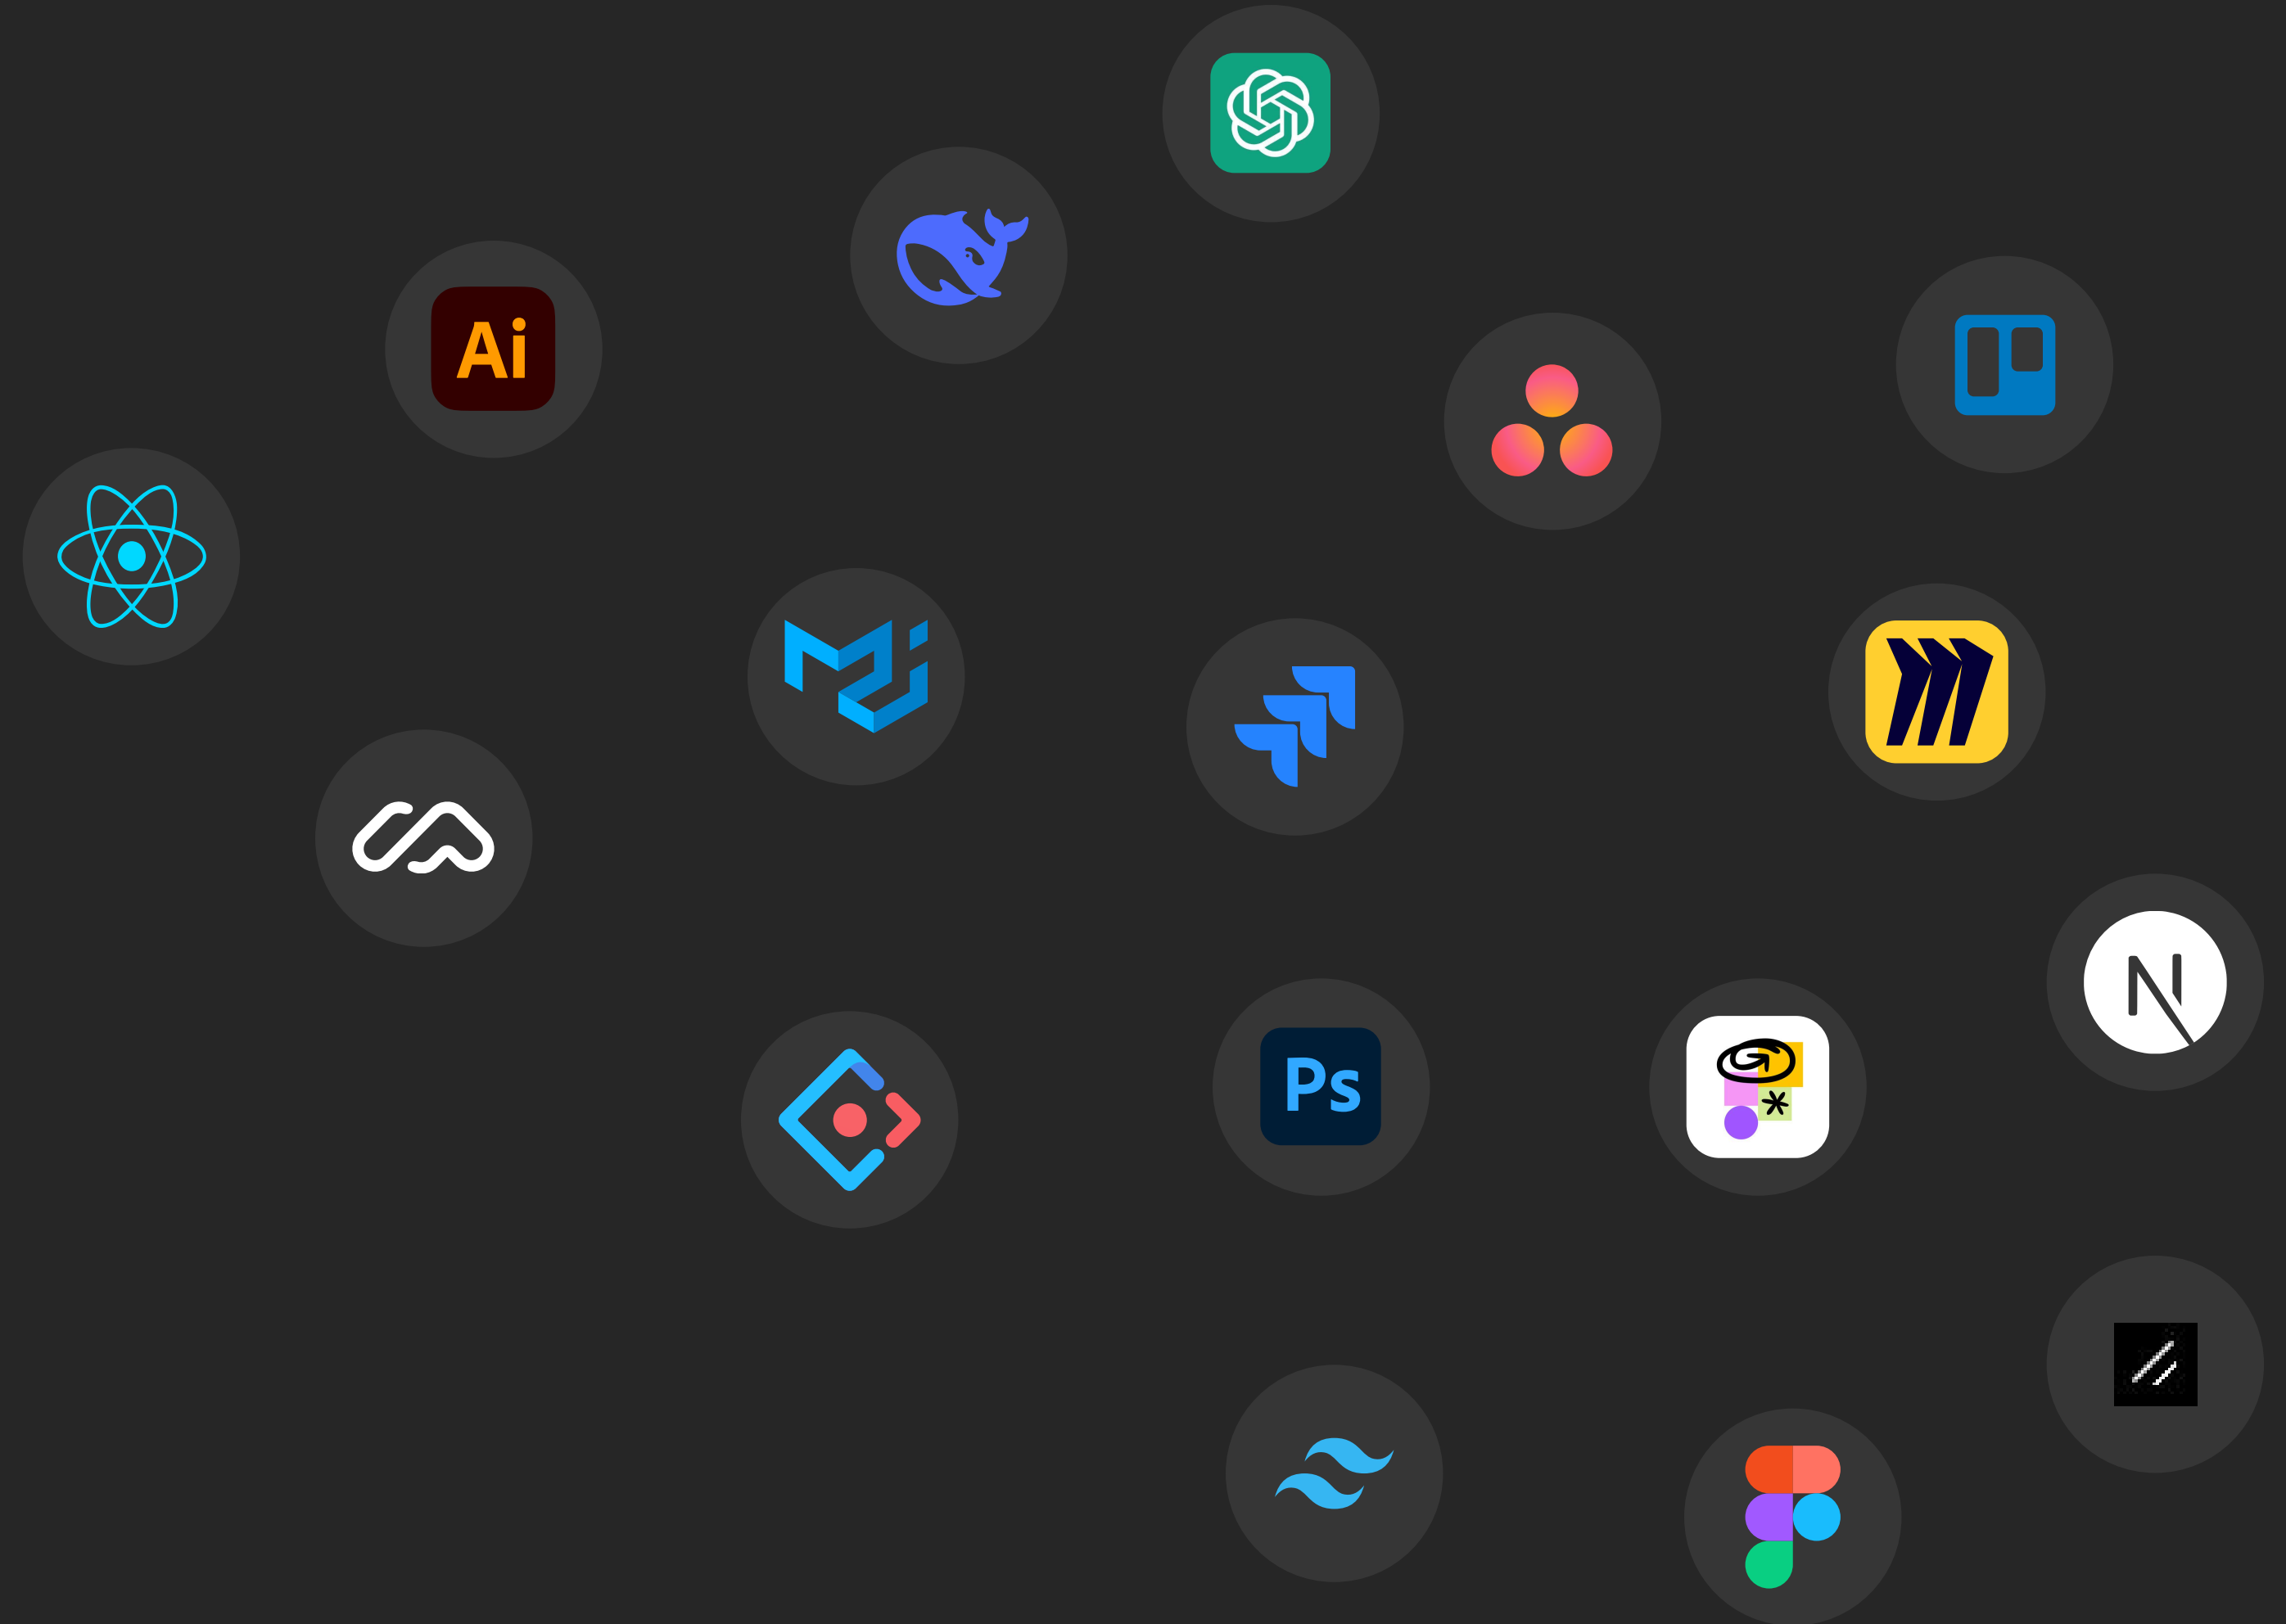

I structure layouts from basic sketches to detailed blueprints.

Information Architecture

I organize content effectively for easy navigation and usability.

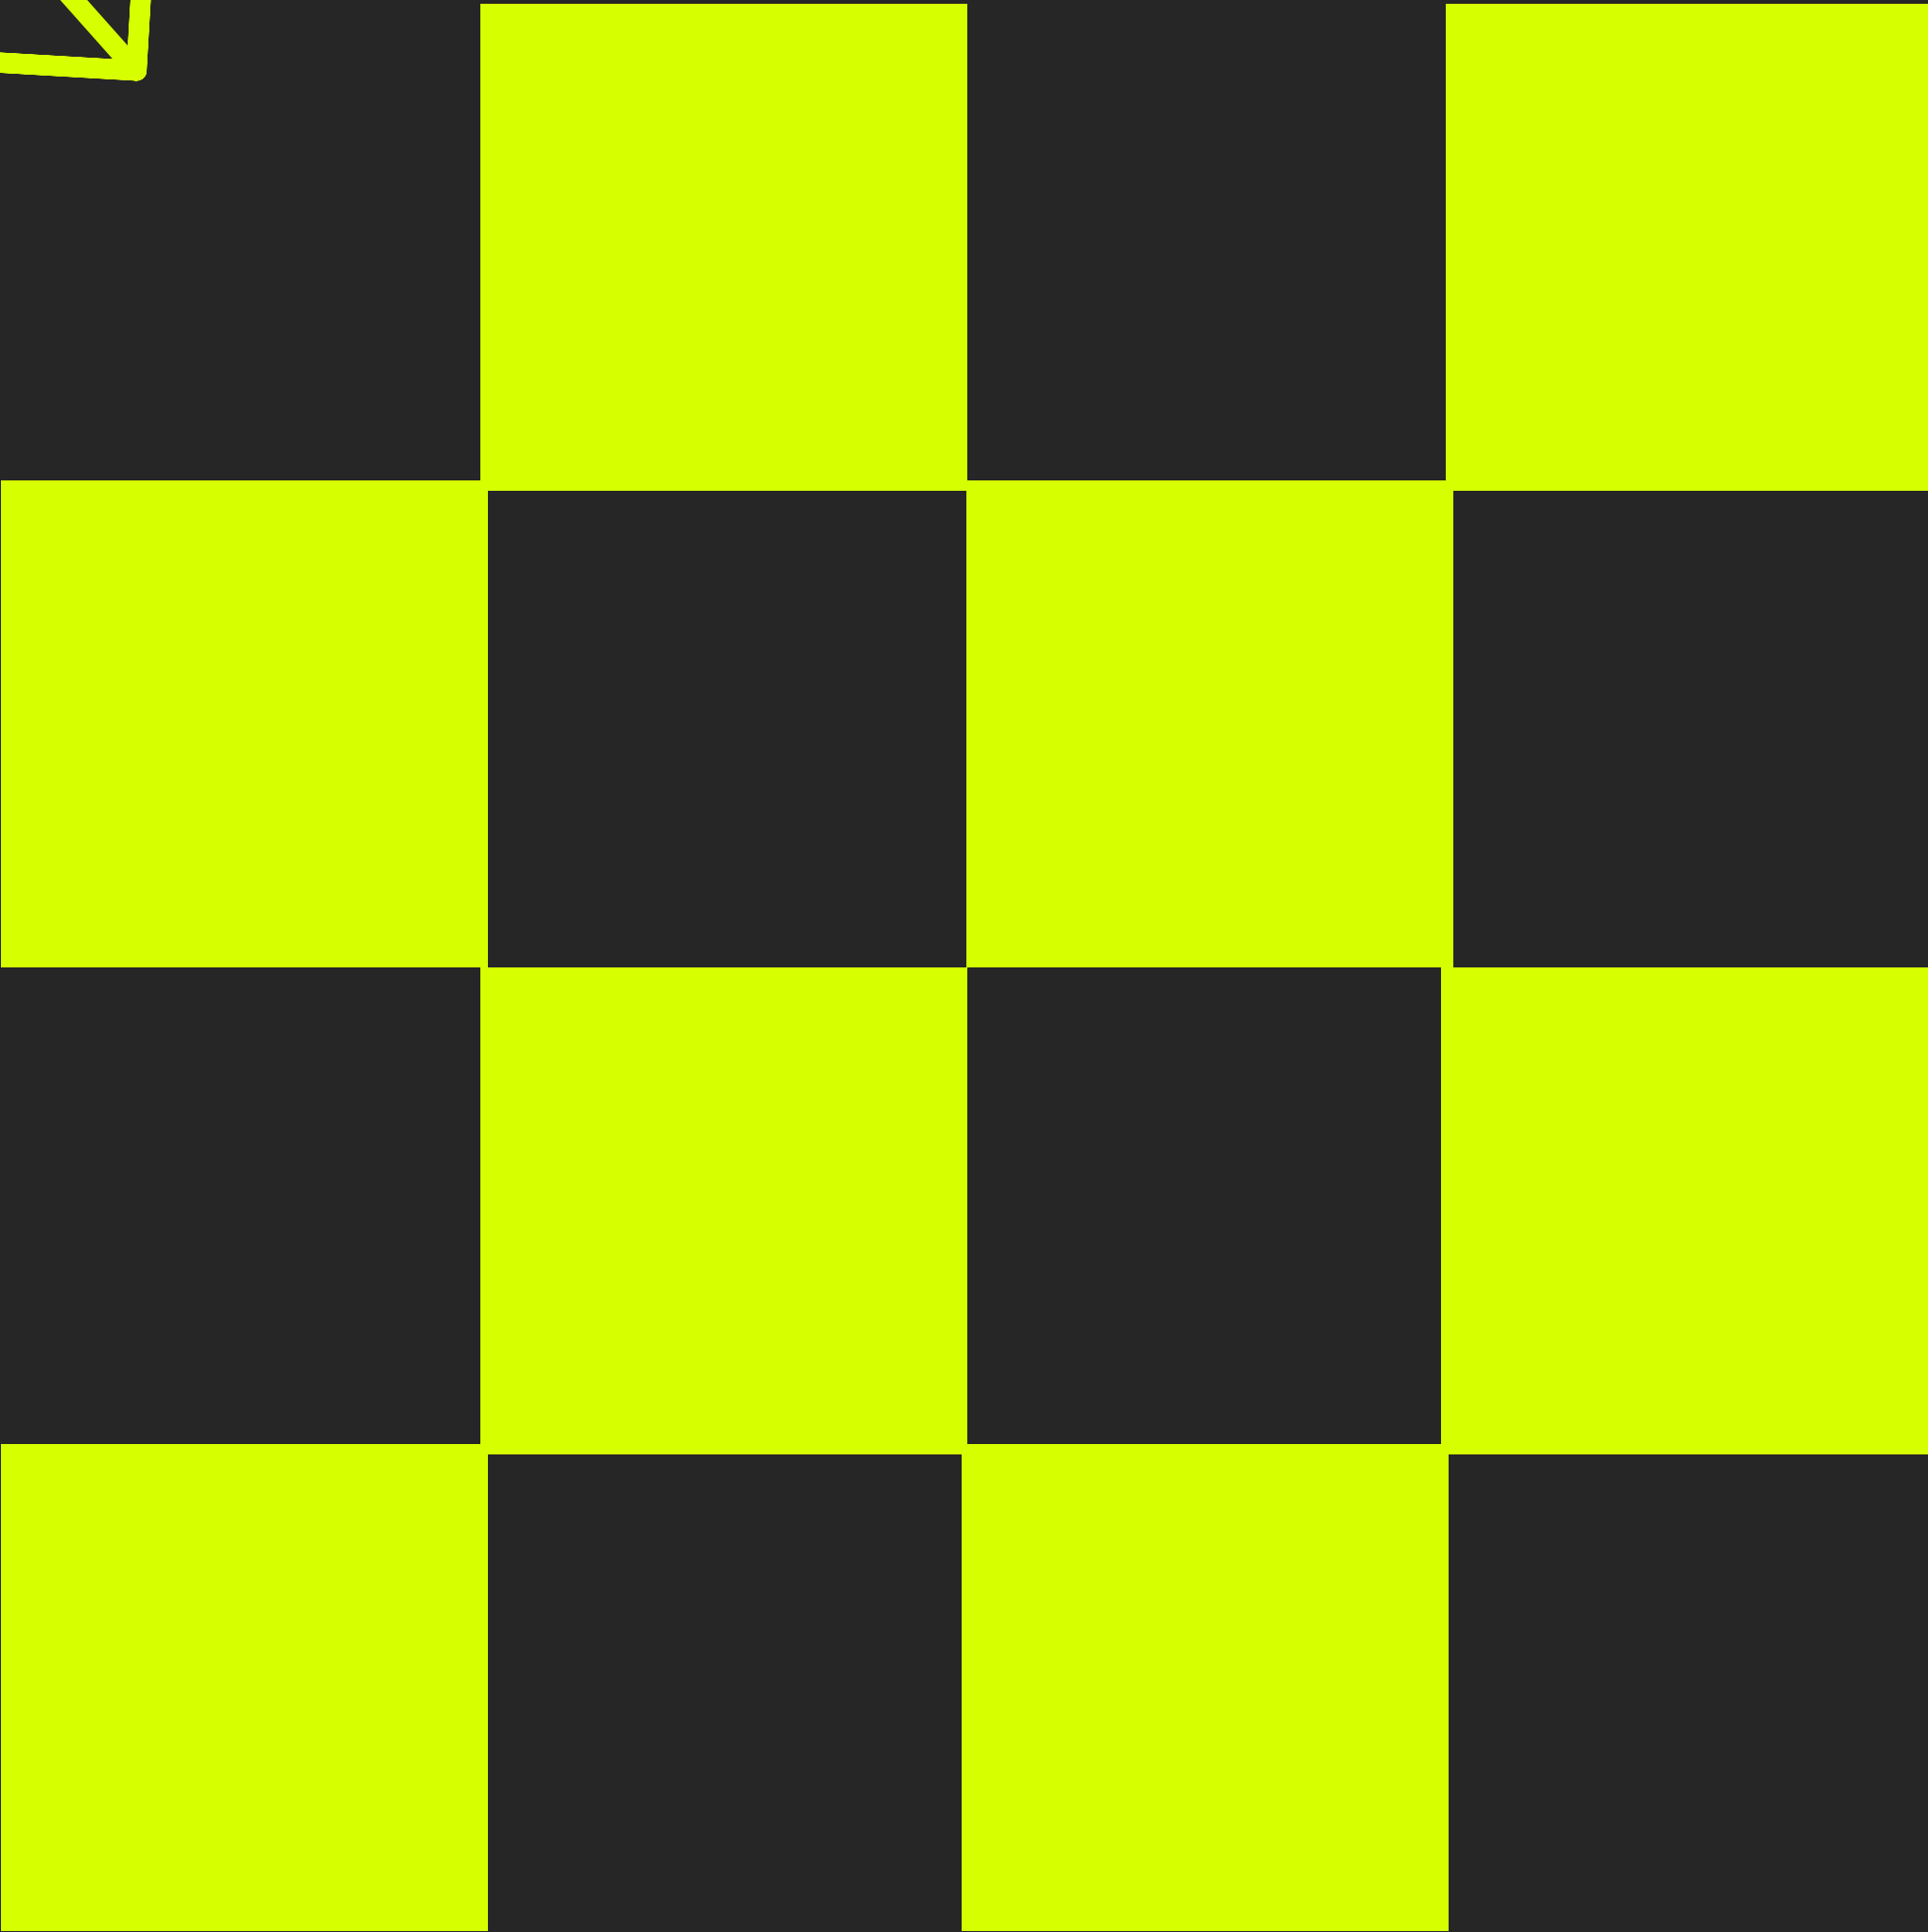

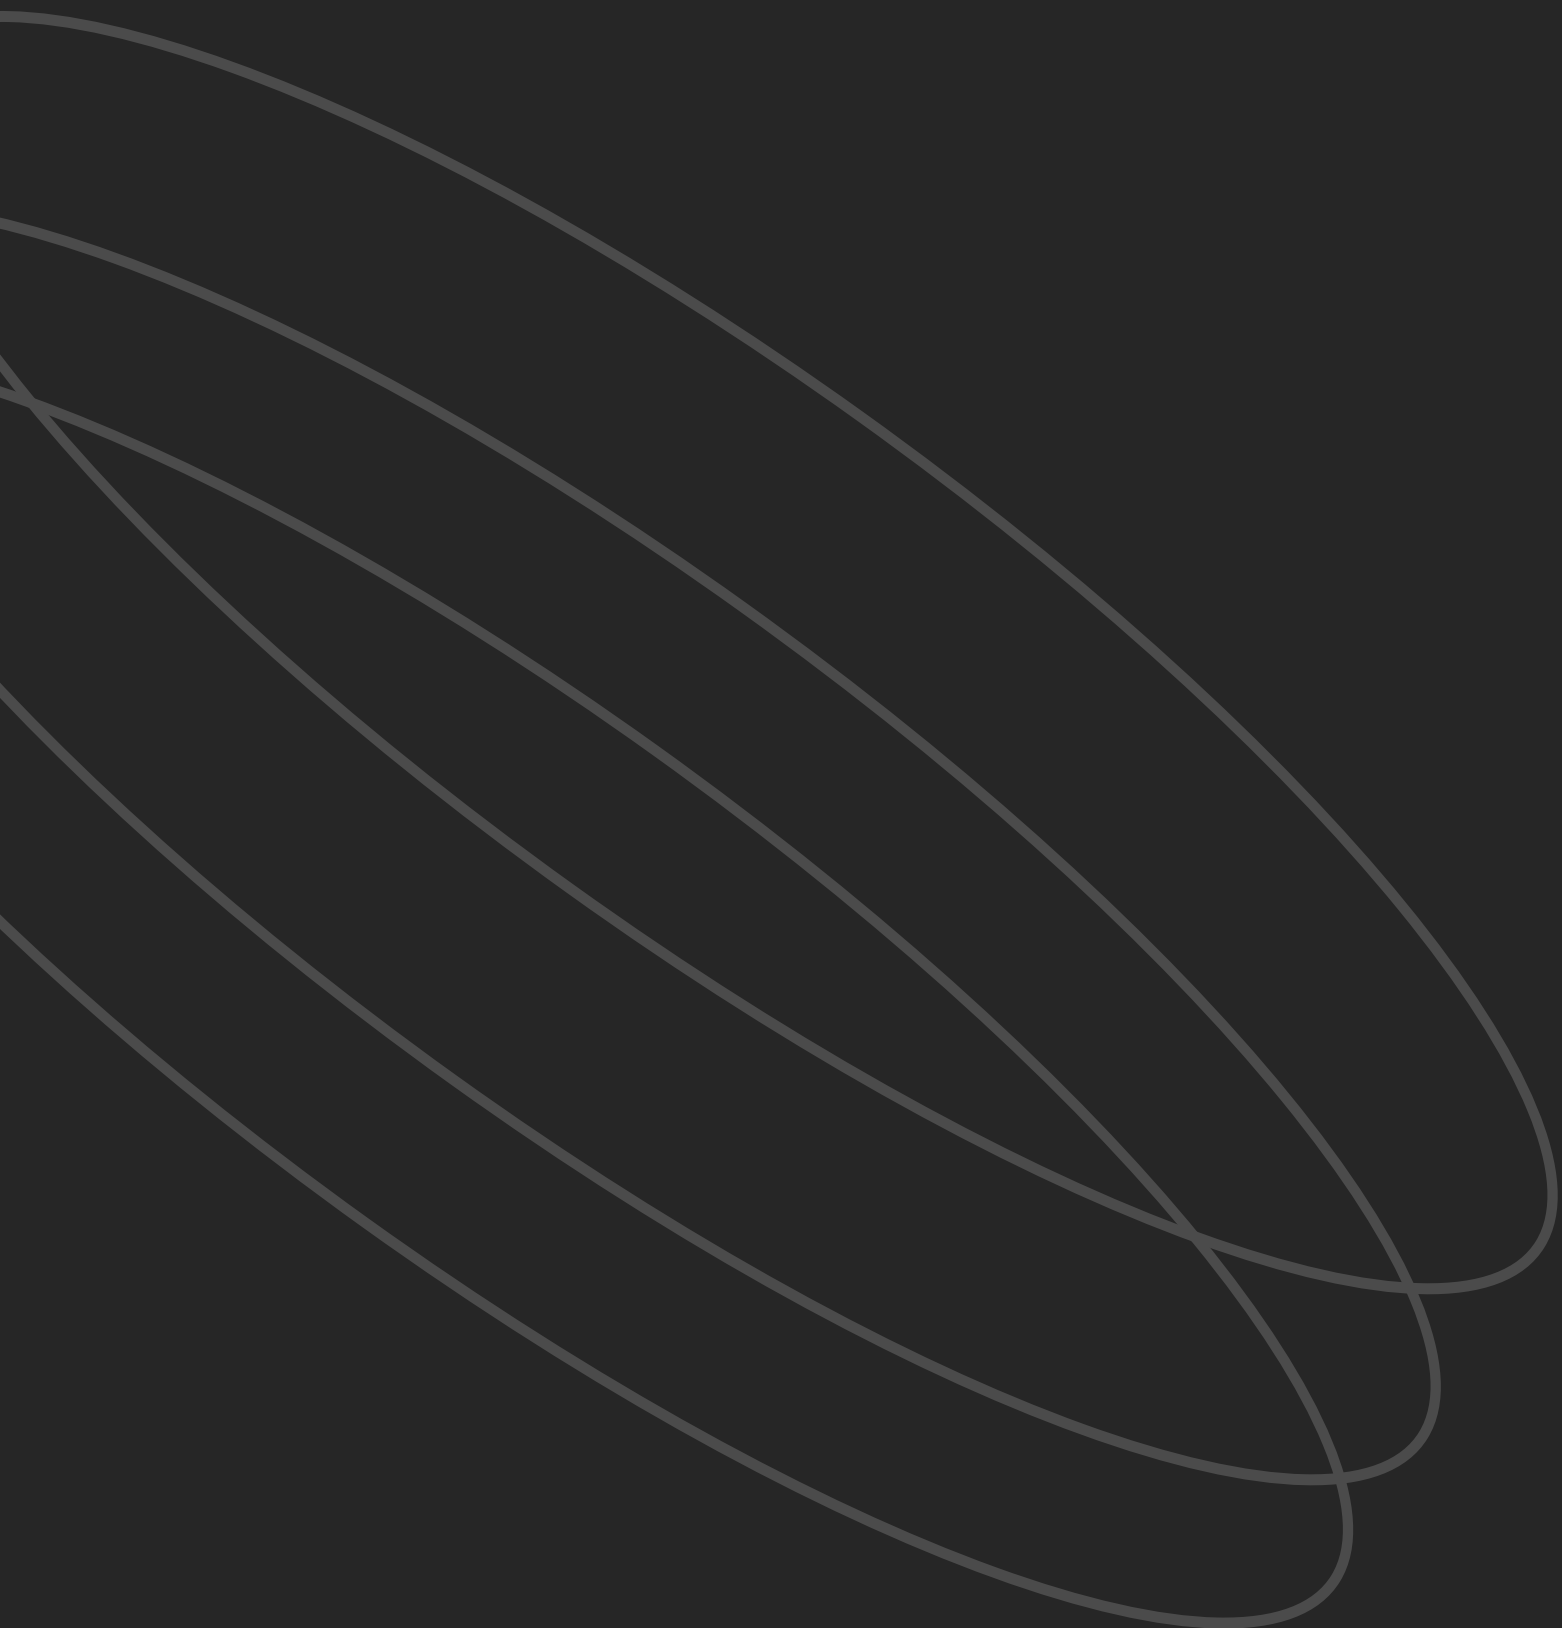

Landing Page Designs

I design high-converting pages that capture attention and drive action.

TECH STACK

PROJECTS ↘

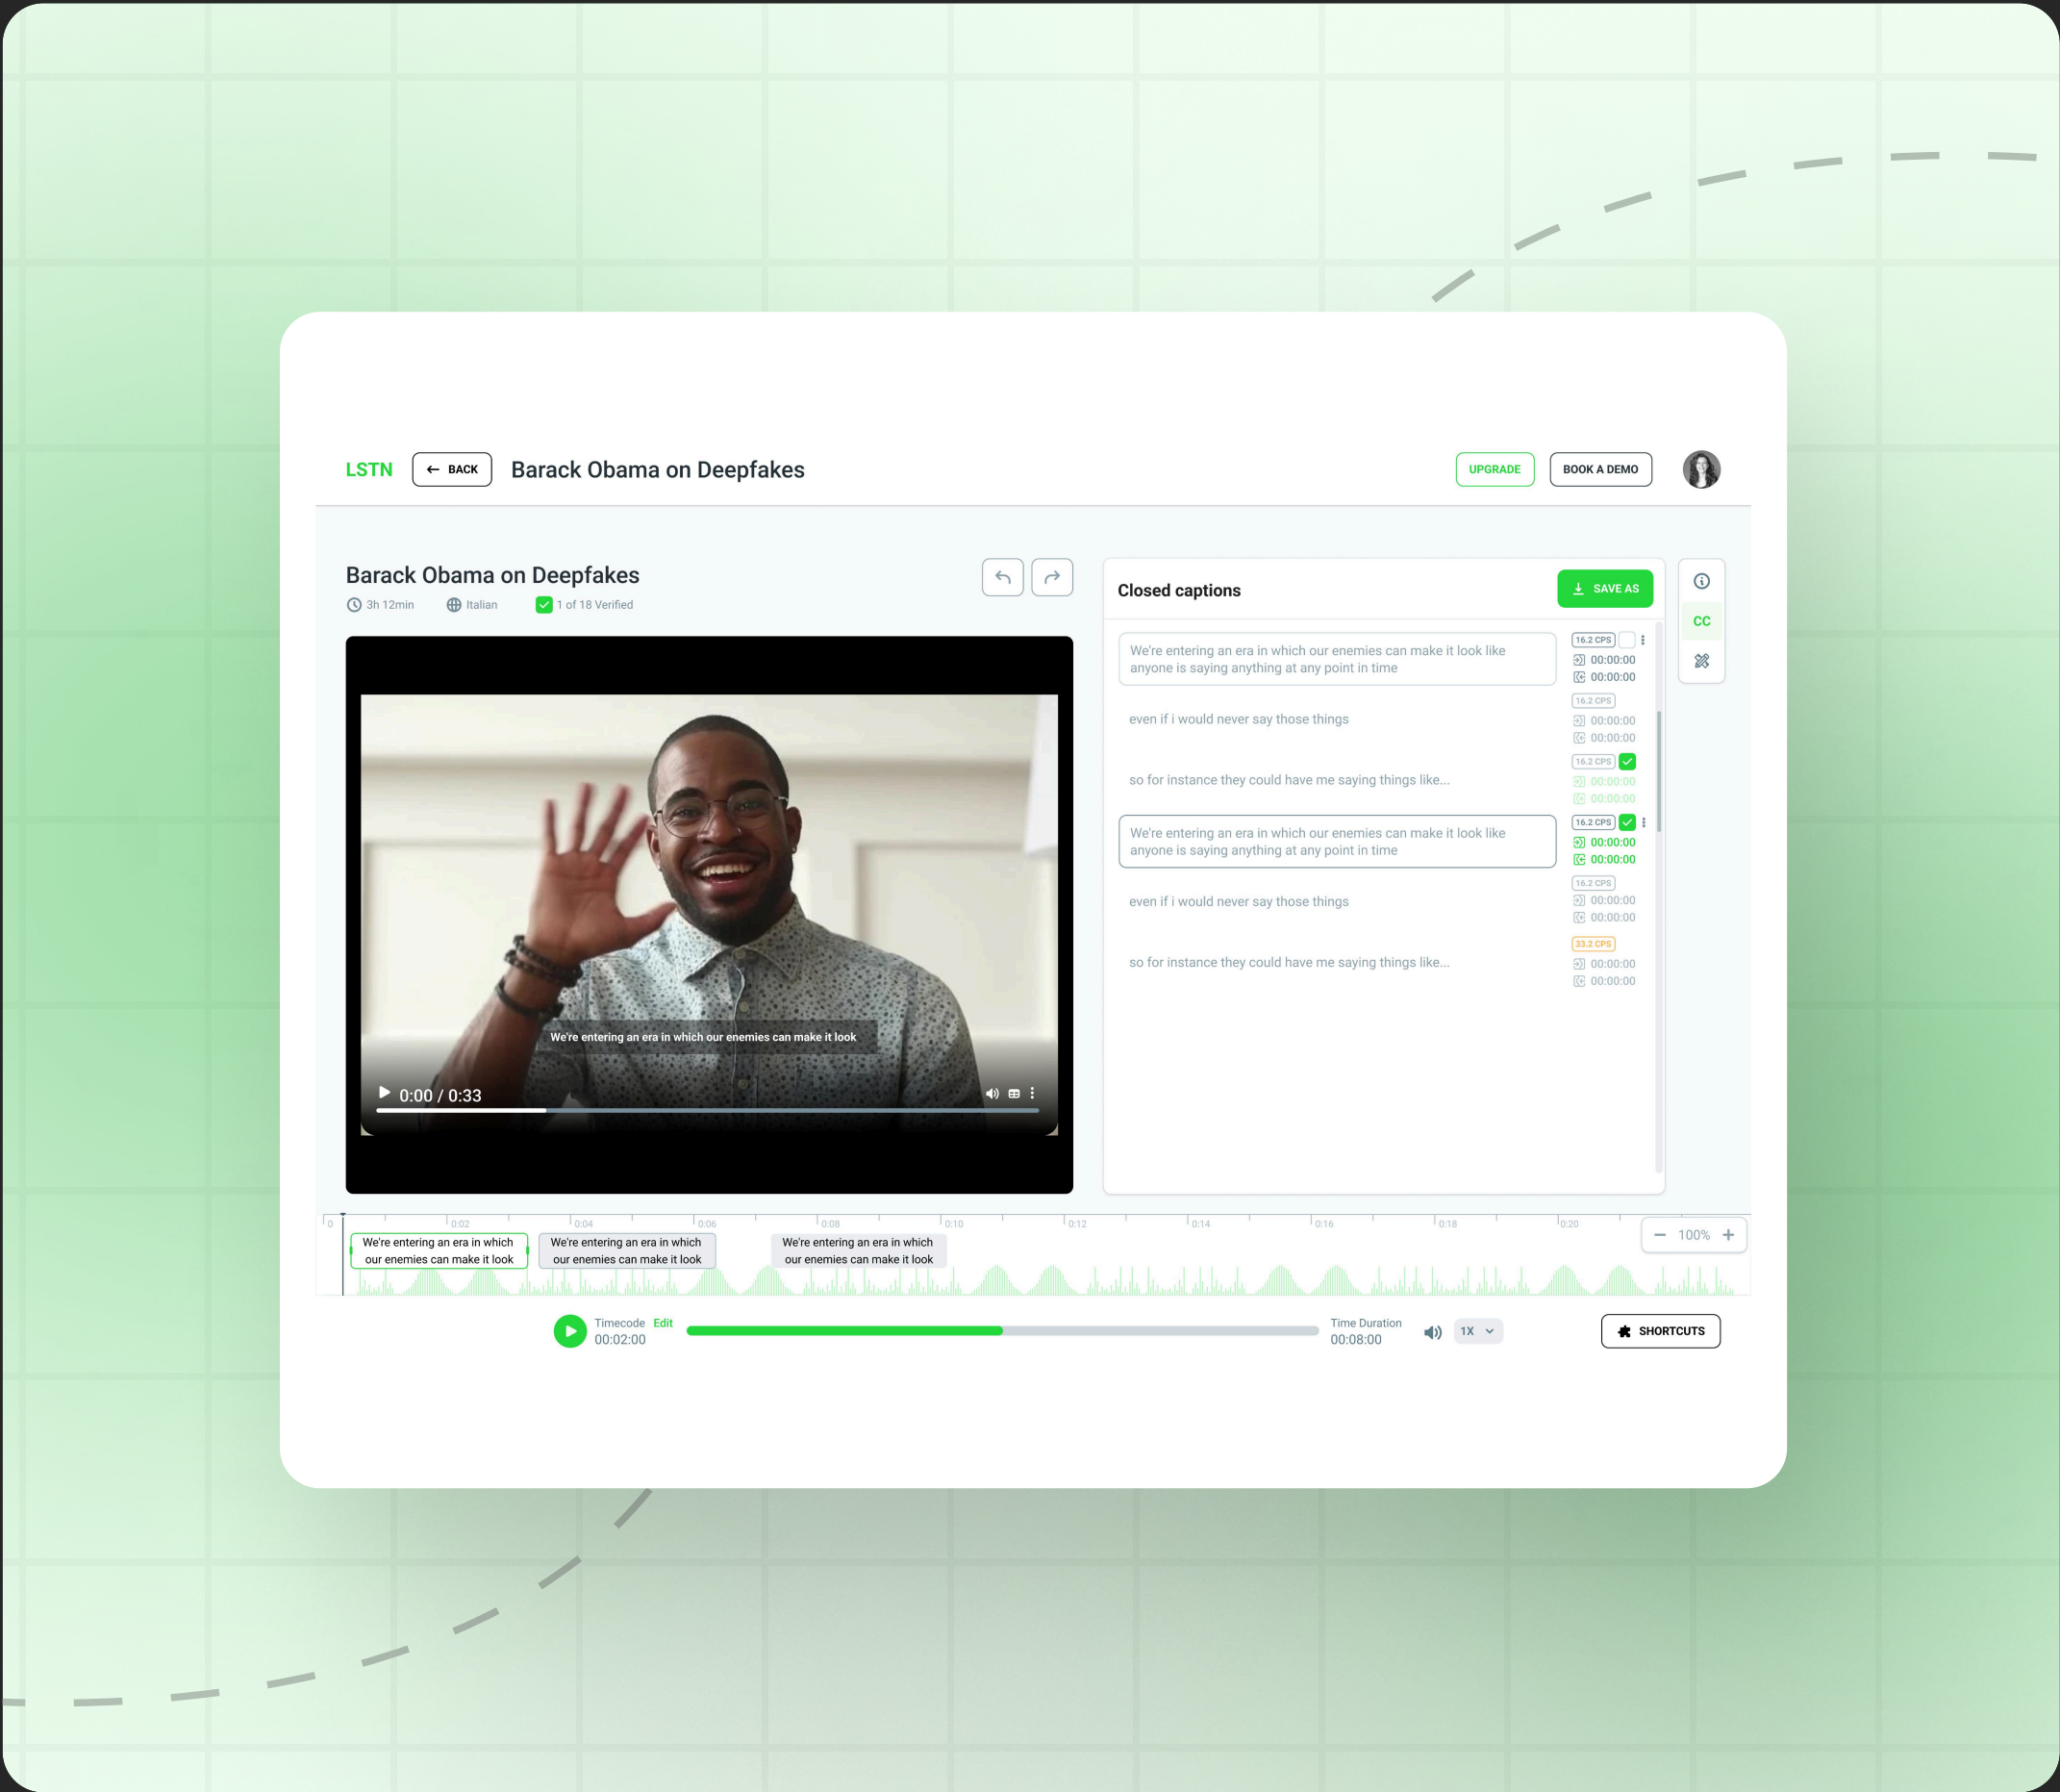

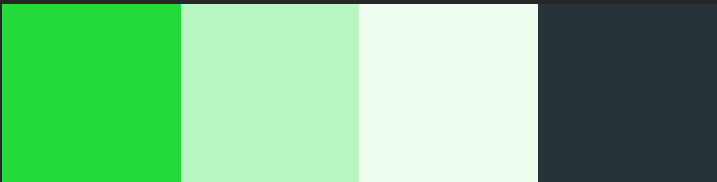

LSTN AI

LSTN.ai offers fast, AI-powered transcription and captions, making audio and video content easily searchable and accessible.
