

Some important notes

Architecture of our web application

Our mca website <https://igit-mca.vercel.app/> is built using 3 tier architecture principle. Everything i.e. client, server & database are hosted on cloud platform using **FREE** plans. So we have various limitations on it like **slow loading etc.** But we have tried our best to keep it running & error free as much as possible. If you get any issues or problem let us know. That way we can improve it.

You can write us at igitmcacommunity@gmail.com

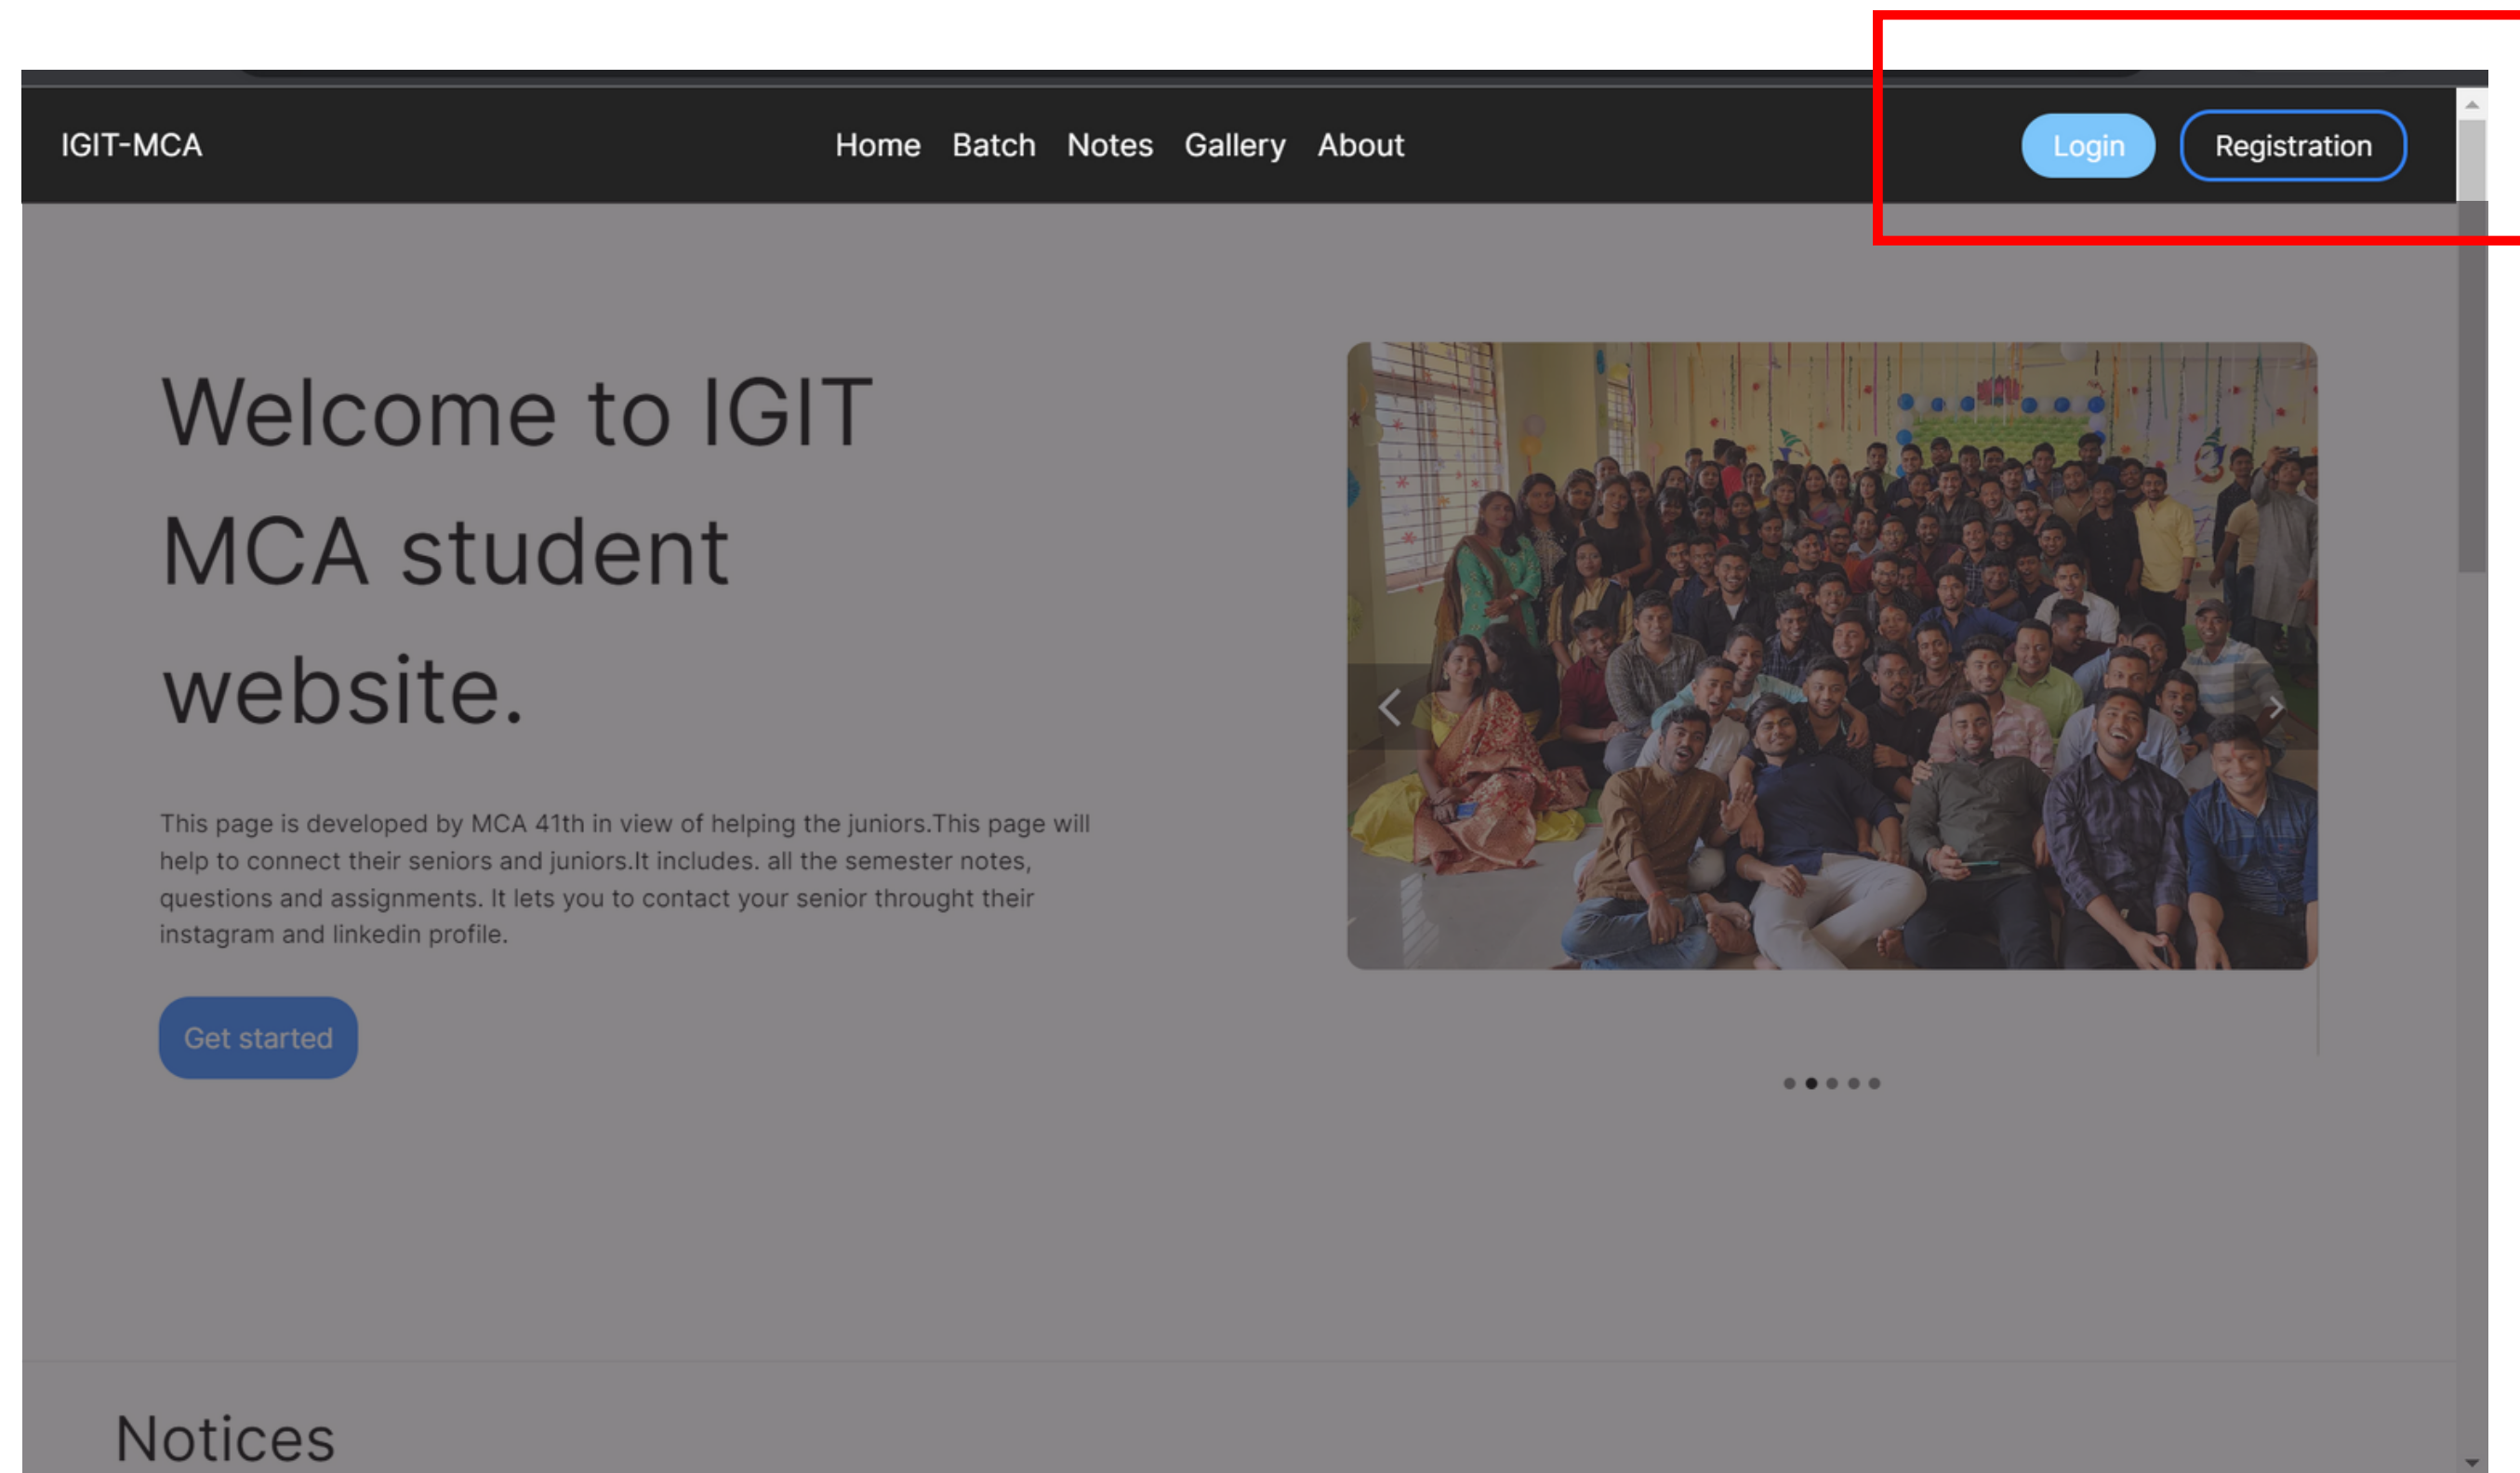

You can share your feedback & issues on this mail.

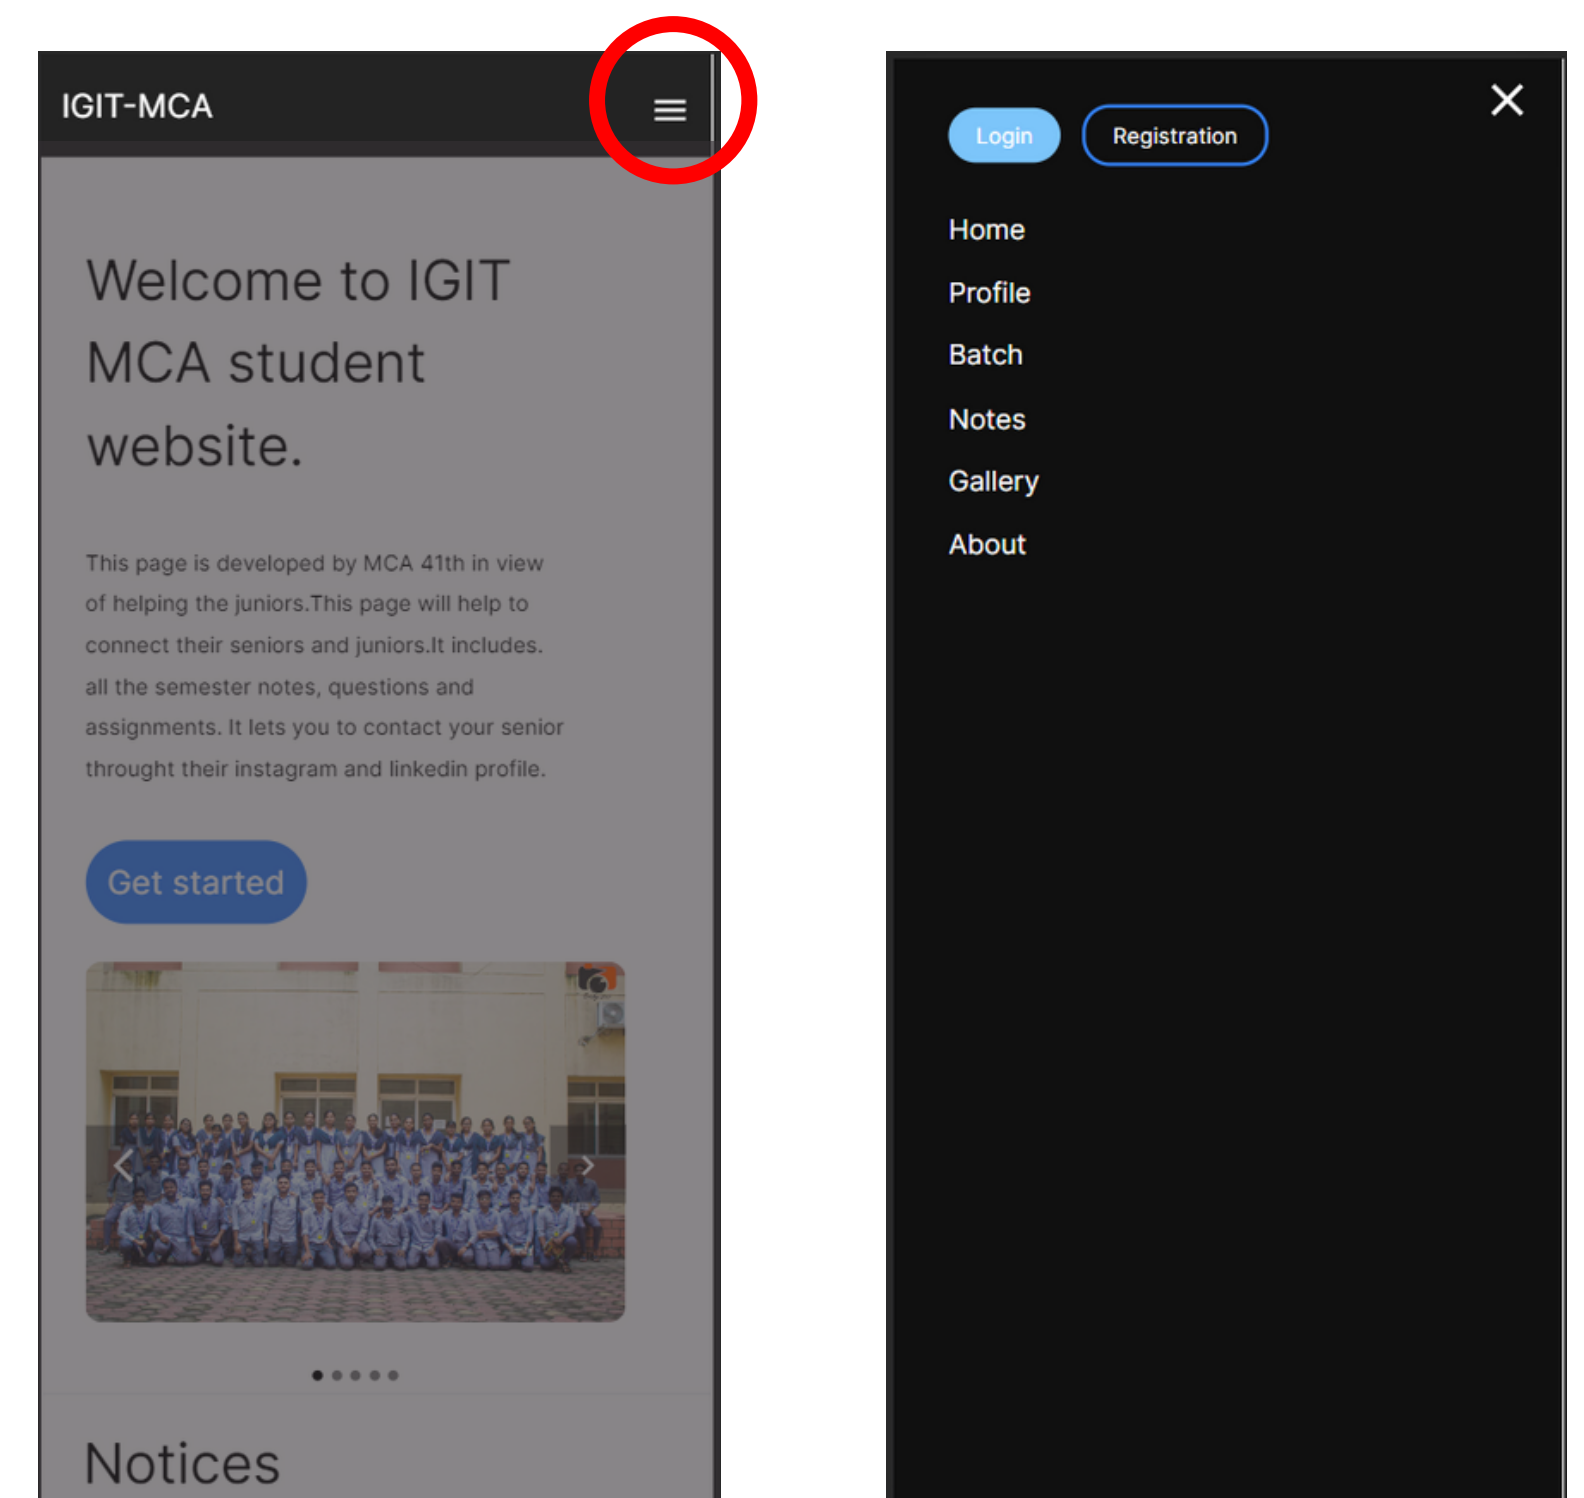

How to register?

Visit our website <https://igit-mca.vercel.app/> & follow the instruction below!

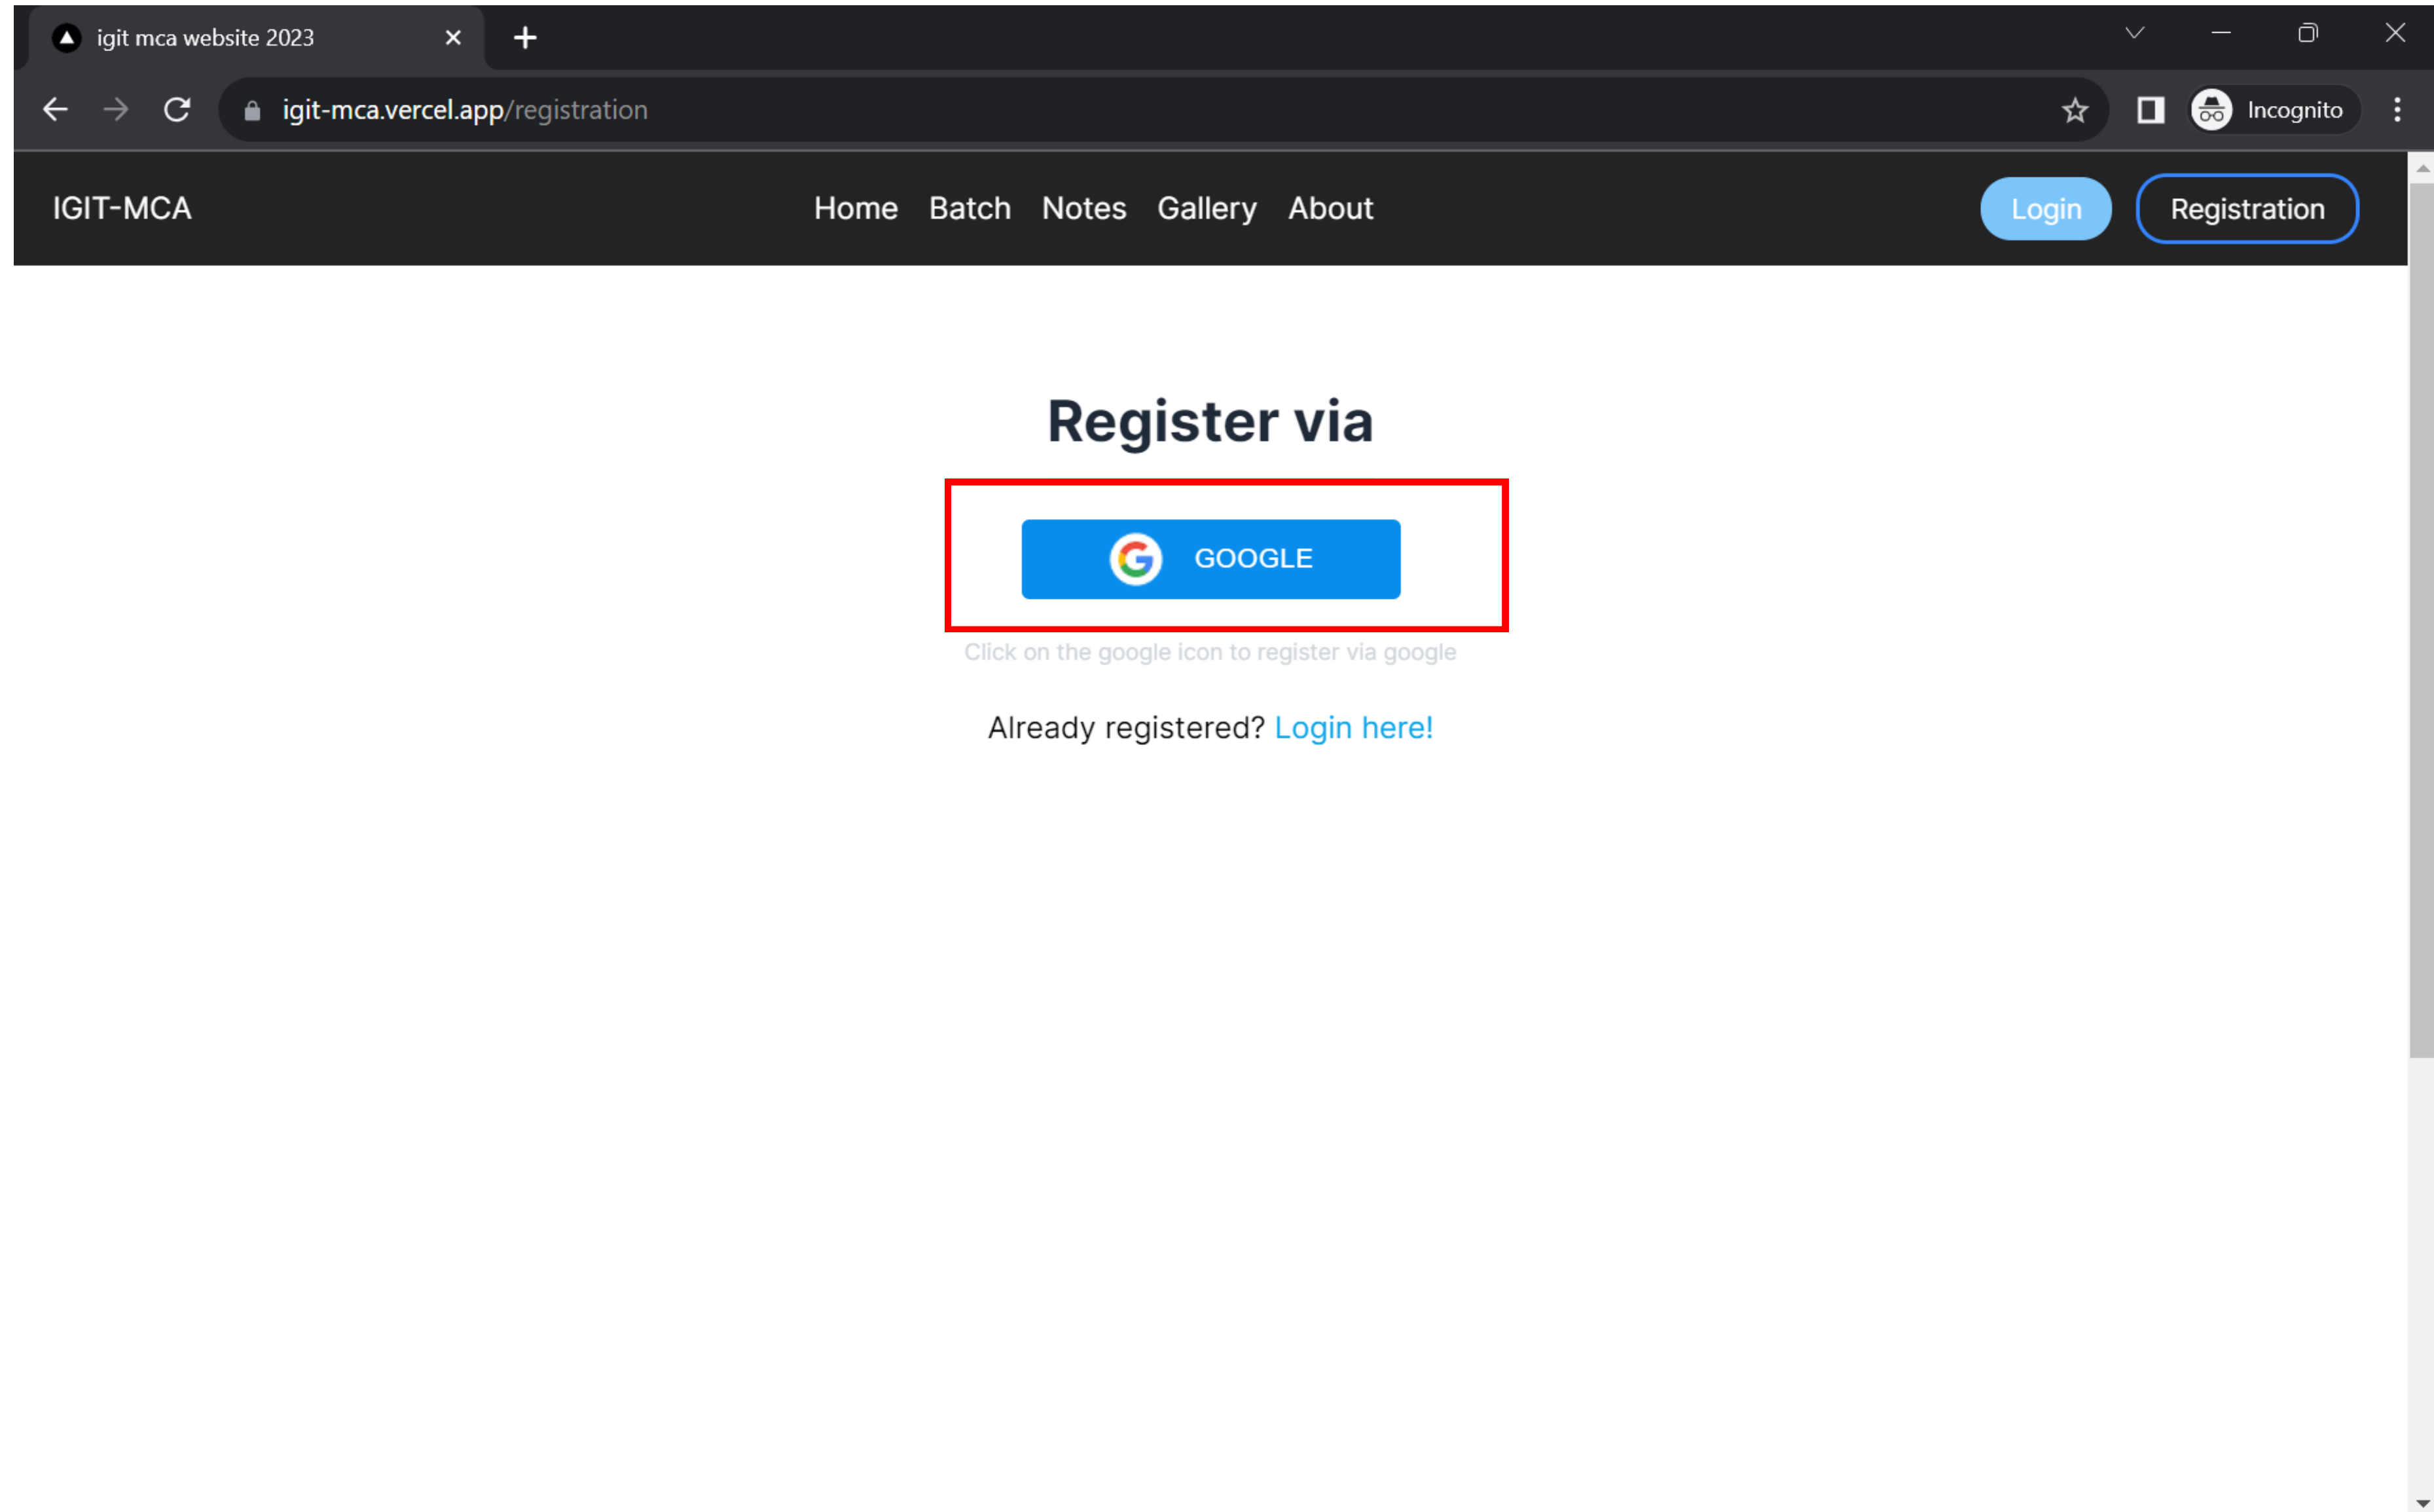

Desktop mode

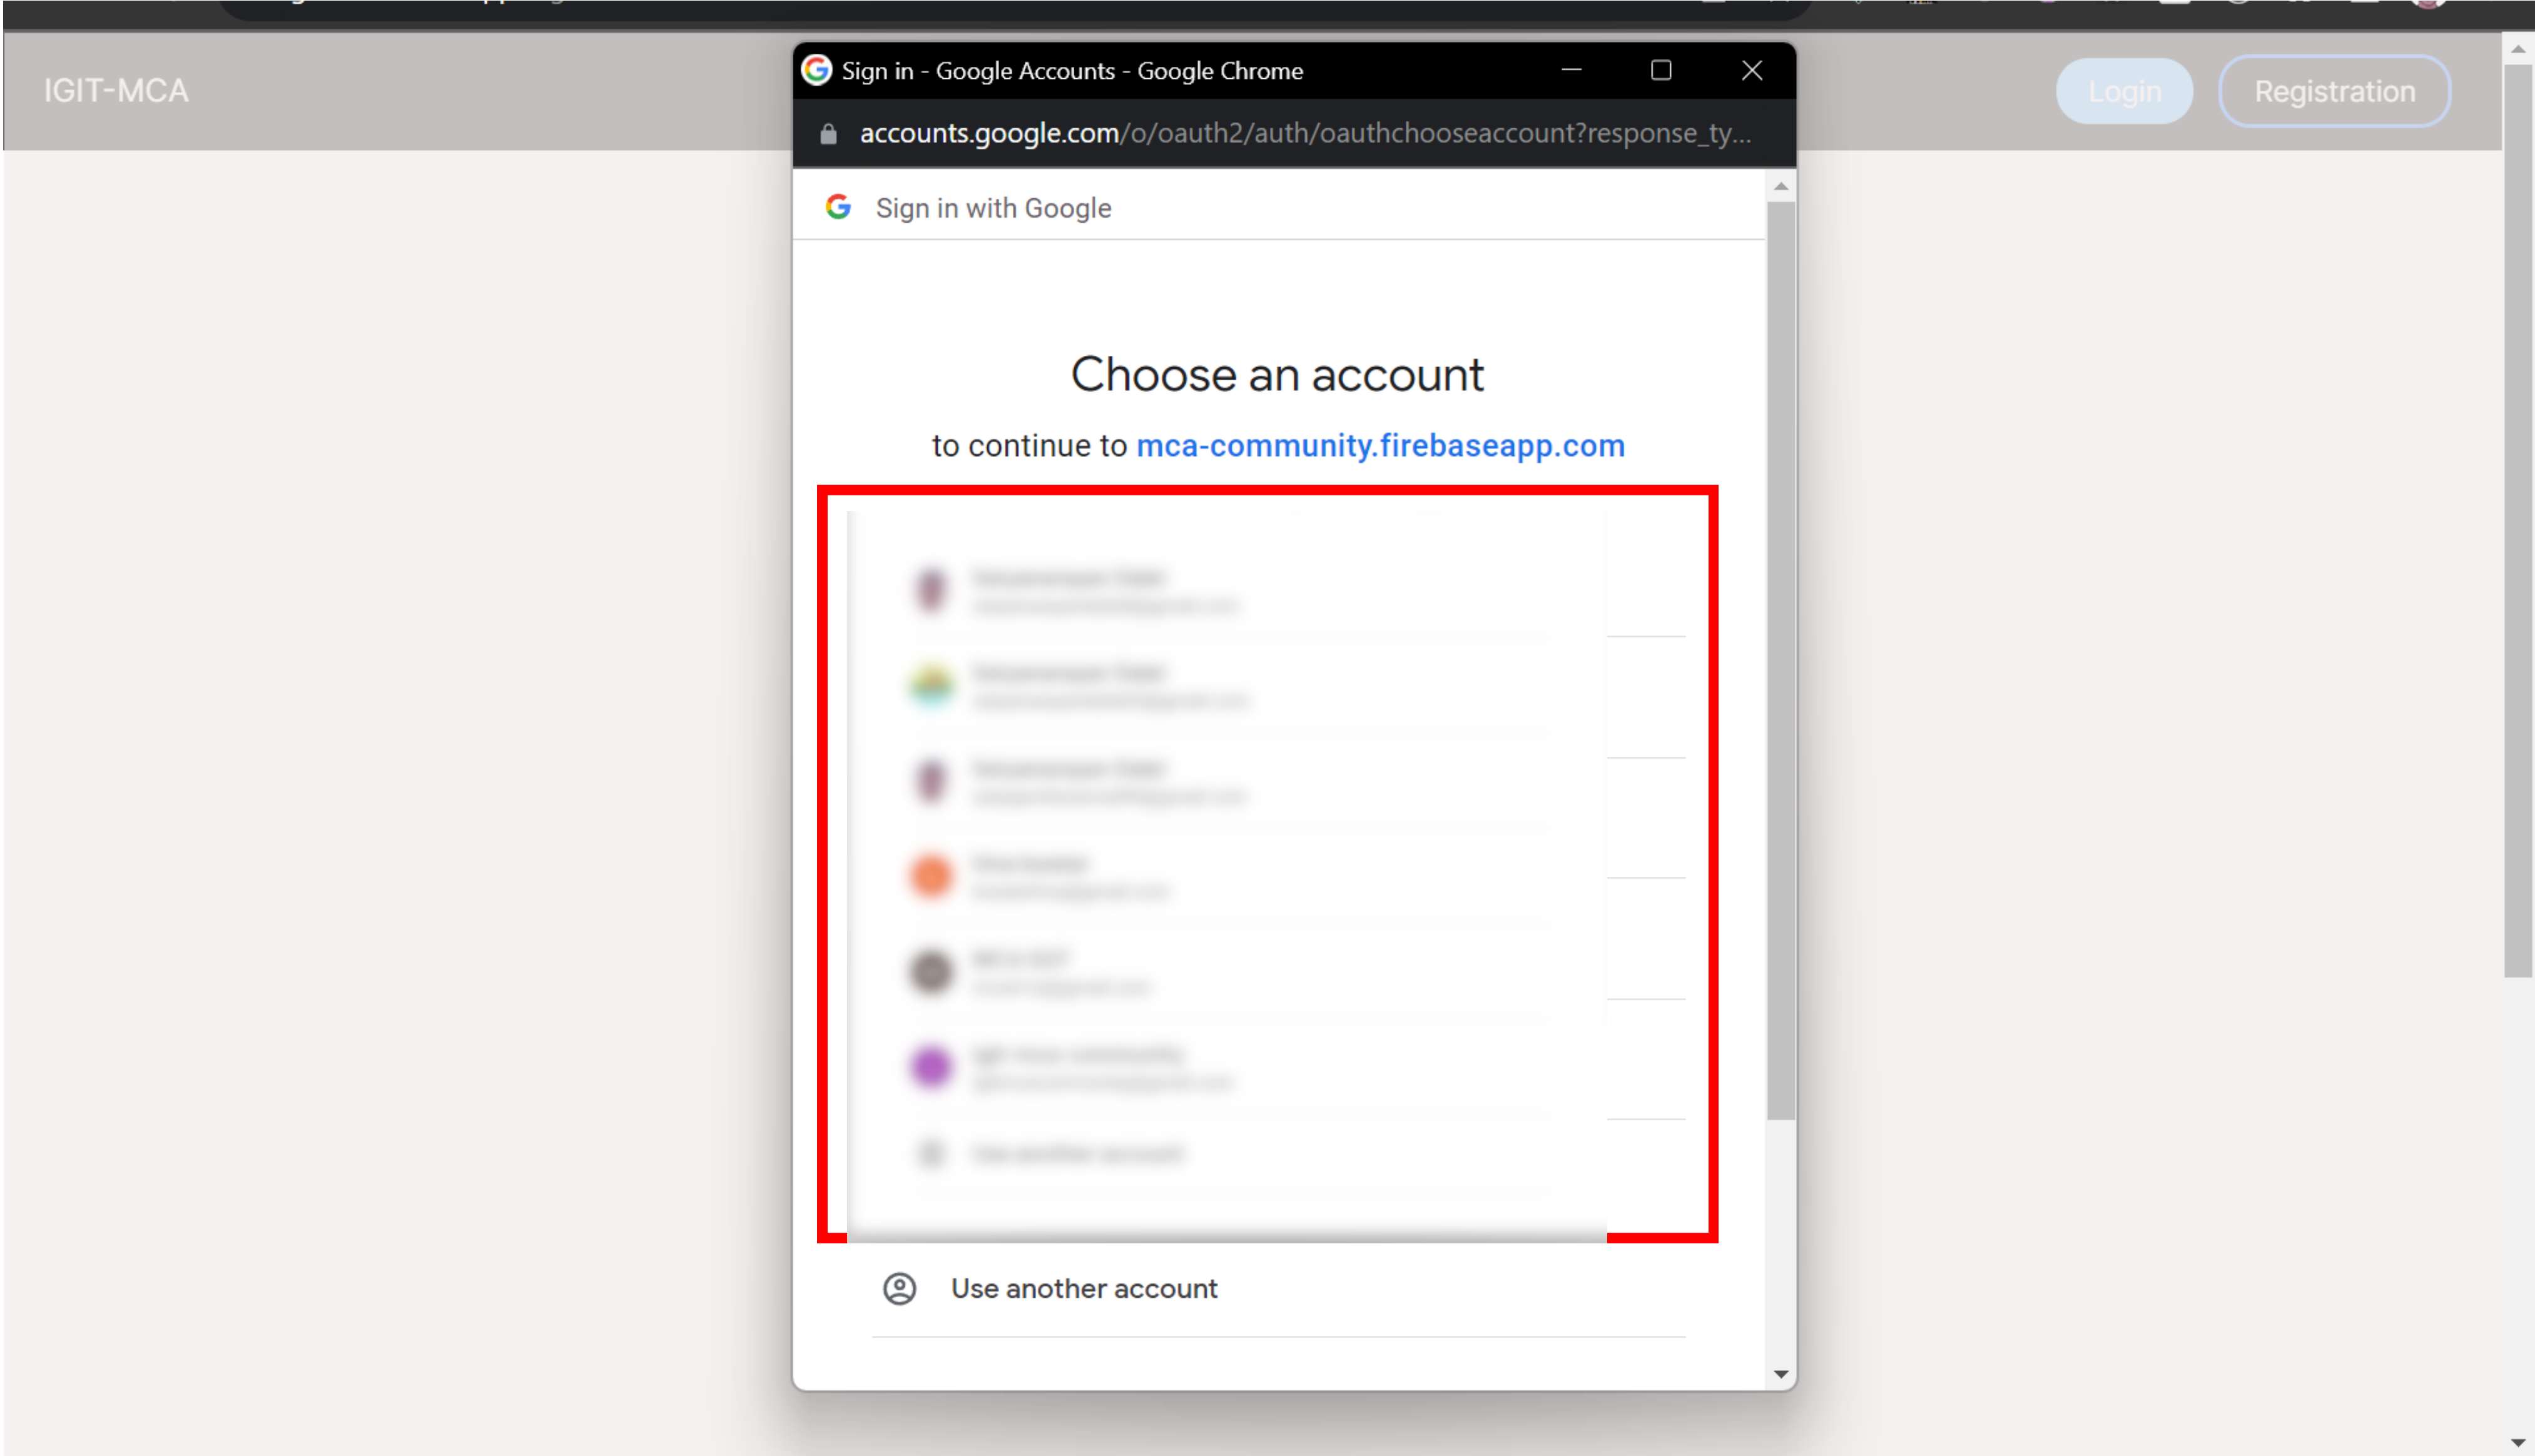

mobile mode

Click on Google

Select your email id

Fill out the details & click register
