

MEAGHER COUNTY STEWARDSHIP COUNCIL

Youth Willow Planting Event

7TH AND 8TH GRADE STUDENTS

With the goal of stabilizing stream banks, providing shade for fish populations, and reducing algae growth, our incredible partners—including White Sulphur Springs students, NRCS, Meagher County Conservation District, FWP, and MCSC—joined forces to make a difference. We planted 100 dormant willow cuttings with 25 junior high students from White Sulphur Springs. Special thanks to the Dupea Family for their generosity in providing the perfect planting location, and to DEQ for funding support.

Community Outreach and Initiatives

We participated in the Meagher County Community Expo, sat on a panel discussion for Leadership Montana Master Class, and went on the Black Butte Copper mine tour in June.

Housing

GRANTS RECEIVED

The Montana Department of Commerce announced that 37 Montana communities will share nearly \$1 million in grant funding to plan infrastructure projects that will create more affordable workforce housing in the state. The funding is provided by Commerce’s Montana Community Reinvestment (MCR) grant program. The City of White Sulphur Springs was awarded \$24,000 for updating subdivision regulations and an annexation plan, while Meagher County received \$30,000 for a housing master plan.

Bair Grant Recipient

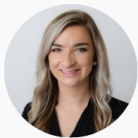

We are thrilled to announce that we have received a \$5,000 grant from The Charles M. Bair Family Trust. This funding will support the distribution of our upcoming documentary about White Sulphur Springs, which is set to be finalized in the Fall of 2024. We are excited to share the rich history and vibrant community of White Sulphur Springs with a wider audience, thanks to this support.

The Meagher County Stewardship Council shepherds efforts to safeguard and enhance the natural resources, culture, and economic interests of Meagher County for the benefit of current and future generations.
