

MEAGHER COUNTY STEWARDSHIP COUNCIL

Promoting Native Vegetation and Noxious Weed Awareness

COMMUNITY BOOTH

We had the privilege of participating in the Meagher County Farmers Market, where we focused on educating the community about the importance of native plant vegetation. Native plants play a crucial role in maintaining healthy ecosystems, providing habitat for local wildlife, and preventing soil erosion. Alongside this, we emphasized the need for identifying and removing noxious weeds, which can threaten both agricultural lands and natural landscapes. Our booth featured hands-on activities to help community members learn how to recognize and effectively manage invasive species, helping ensure that our local environment remains vibrant and sustainable.

Community Outreach and Initiatives

We participated in the Black Butte Copper STEM camp, a council mine tour, and sprayed weeds in Sheep Creek with our County Weed Advisor, Lee Zehntner!

Upcoming Events

October Council Meeting
OCTOBER 1, 2024

November Council Meeting
NOVEMBER 5, 2024

Open House - Master Plan
OCTOBER 24 AT 5:30 PM

How can you help?

LEARN MORE

Housing

INVENTORY AND MASTER PLAN

Over the next few weeks, volunteers will be conducting a housing inventory focused on identifying infill opportunities and gathering GIS data of properties within the City limits. This data will be entered into a GIS database for community use, helping us better understand available land and housing opportunities. Additionally, the county's housing grant will fund the creation of a master plan for the area. We are planning a community-wide meeting to discuss what this plan will look like.

River Conditions Tool

We're excited to announce that our River Conditions Tool is nearing completion and will soon be hosted on our website. This tool will provide real-time data on local river flows, water quality, and other critical factors, helping residents, landowners, and outdoor enthusiasts stay informed about the conditions of our waterways. The tool will be a valuable resource for anyone who relies on accurate, up-to-date information on river health and will support ongoing conservation efforts in our region. Stay tuned for the official launch!

The Meagher County Stewardship Council shepherds efforts to safeguard and enhance the natural resources, culture, and economic interests of Meagher County for the benefit of current and future generations.
