

Solar Panel Information

Company name: Sunova

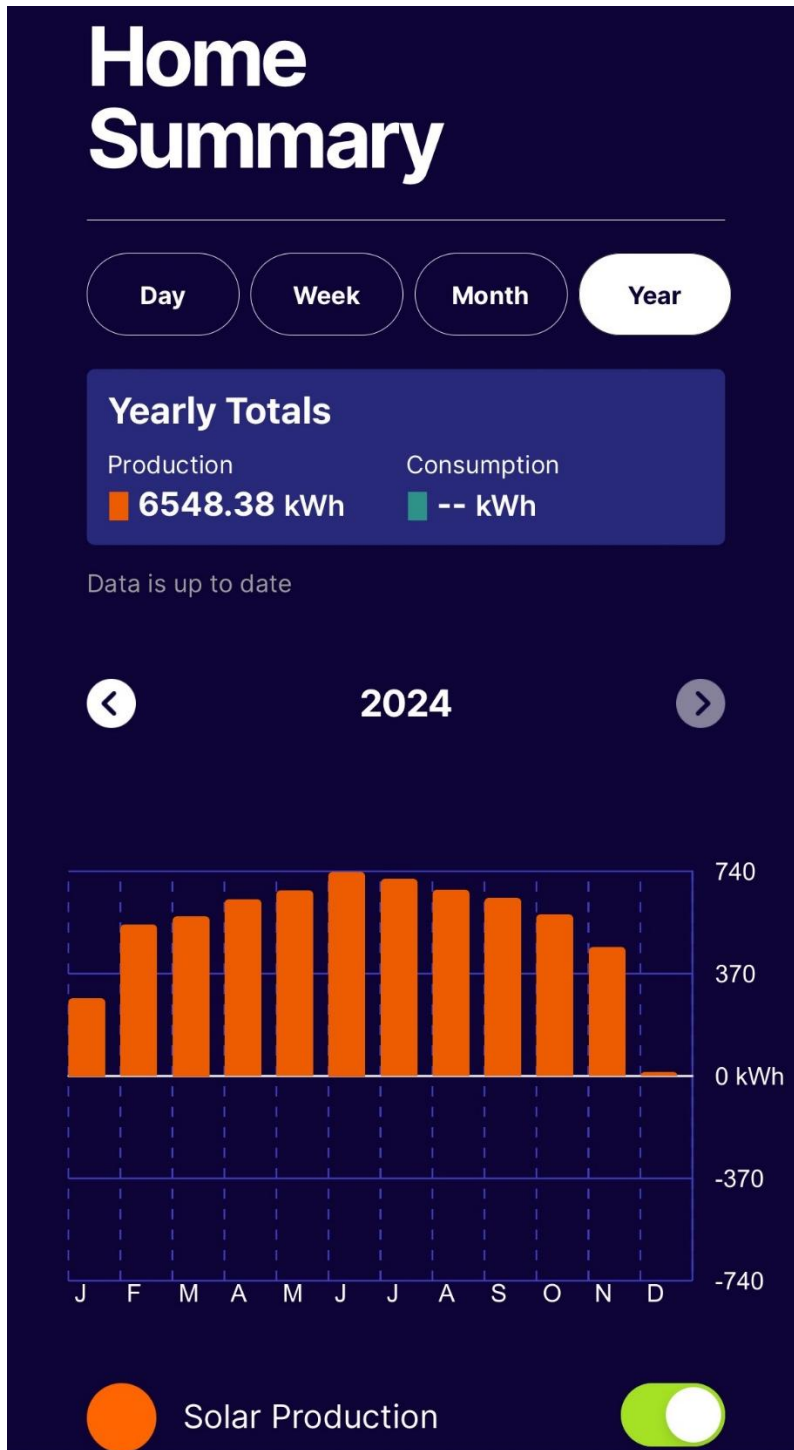

Monthly Lease Payment: \$110

Contract Terms - 25 years

Installed 2023

Notes: Most months a credit from NG, especially in the summer months when there is more sunlight.

2024 SUMMARY

YOUR SOLAR SYSTEM

You can't predict what you'll pay your utility provider, but you'll always know what you'll pay for solar with Sunnova.

Equipment

Panels	Hanwha Q Cells Q.PEAK DUO BLK ML-G10+ 400
Inverter	SolarEdge Technologies Inc. SE3800H-US000BE14 (Inverter)
Racking	EcoFasten Solar

System Details¹

Solar System Size	5.200 kW DC
Year-1 Estimated Production	6,593 kWh
Lifetime Estimated Production	155,301 kWh

Energy Mix Offset⁵

Total Electricity Usage Offset

Solar Power – 100%

Utility Power – 0%

Estimated Electricity Bill Offset

100%

Energy Plan Details

Energy Plan	Easy Plan™
Plan Type	Power Purchase Agreement (PPA)
Billing Option	Balanced
Agreement Term	25.00 Years

Payment Terms

Down Payment ² (due at signing)	\$0.00
Upfront Payment ³ (due prior to installation)	\$0.00
Solar Rate Escalator ⁴	2.90 %

Energy Rate

Solar kWh Rate⁶ - \$0.180

\$99.13

Estimated Average Monthly Energy Payment⁷

Monthly Solar Payment
\$98.89

Estimated Average Monthly Utility Bill
\$0.24

¹ Your solar system production will vary based on weather, shading and other factors.

² A down payment may not be applied if the customer is making an upfront payment for any amount of energy.

³ The upfront payment is due to Sunnova 30 days after you sign the customer agreement or 10 days prior to installation, whichever is first. The option of making an Upfront Payment is not available in all markets. Please consult your dealer for more details.

⁴ Solar rate increase (escalator) of 2.90 % will be applied annually after the first year.

⁵ The energy mix information is estimated. Your electricity usage may vary from month to month. The energy usage referenced herein is for discussion purposes only and should not be relied on.

⁶ If you made an upfront payment, this rate is the reduced solar rate you will pay in year 1, including the ACH discount.

⁷ The projected Sunnova monthly bill is an estimate based on your current monthly consumption of electricity and is subject to change. This estimate includes a 10% discount as an incentive for using ACH payment. If ACH is not selected, your monthly payment will be 10%/month higher.
