Summary

Entry-Level Developer

Hi there! I'm a second-year computer science student passionate about full-stack or front-end web development. As an entry-level developer, I'm excited to bring my skills and creativity to a team that values innovation and collaboration.

Skills

My skill set includes MongoDB, Express, React, Node.js, Prisma, Typescript, Tailwind CSS, Nextjs, and tRPC. In addition, I specialize in the MERN and T3 stacks and am always eager to learn new technologies and frameworks to enhance my coding abilities.

Experience

I've gained valuable experience through freelancing and personal projects, where I've tackled various challenges, from building scalable web applications to optimizing user interfaces for maximum usability. I enjoy working collaboratively and thrive in fast-paced environments, encouraging continuous learning and growth.

Professional Goal

I'm seeking opportunities to apply my skills and contribute to innovative projects in the web development industry. Let's discuss how I can help your team achieve its goals!
