Relevant Experience

Senior Full Stack Developer @ Newton Vision Corp

Mar 2022 – Present // Bogotá, CO

- Write modern, performant, and robust code for a diverse array of client and internal projects.
- Communicate and collaborate with multi-disciplinary teams of engineers, designers, producers, clients, and stakeholders on a daily basis.

Senior Full Stack Developer @ On Watch Us

Mar 2021 – Mar 2022 // Texas, US

- Developed and shipped a highly interactive web application using Flutter.
- Responsible for leading the team into creating an amazing cross-platform app to help our clients coordinate and communicate in a port ecosystem.
- Organize and interact with the clients solving issues, planning and estimating new features to add into the project.
- Helped solidify a brand direction to span across print, packaging, and web.

Senior Full Stack Developer @ Newton Vision Corp

Nov 2020 – Mar 2021 // Bogotá, CO

- Led entire project using React and AWS to create a delightful user experience for the client to easily keep track of their online accounting.
- Designed and implemented a legacy support to the client's old online accounting infrastructure using Quickbooks allowing them to keep using their old records.
- Interfaced with clients on a weekly basis, providing technological expertise and knowledge.

Quality Analyst Developer @ Newton Vision Corp

May 2020 – Nov 2020 // Bogotá, CO

- Implement a full testing suit using Cypress.js for an Angular app to ensure new and current features work as expected.
- Review and handle merge requests giving feedback when needed to developers following the style guides for the project.
- Worked closely with designers and management team to develop, document, and manage the conference's marketing website using Jekyll, Sass, and JavaScript and Angular.

Junior Front End Developer @ Rey Writer

Jan 2020 – May 2020 // Bogotá, CO

- Create from scratch a full solution for my client requesting a blog to post his stories to show to his followers.
- Implemented in Nextjs using styled components and apollo to create an amazing user experience for him and his followers.
