EDGE

THE POLYGON LAUNCHPAD

Built on

WHAT IS MOONEDGE?

MoonEdge is the first decentralized launch pad fully dedicated to project launches on Matic (now Polygon).

Trustworthy

Complete project reviews of pre-IDO projects on MoonEdge

Transparent

Open and transparent communication with our community about MoonEdge projects

Fair

Fair-tiered system - guaranteed allocations for every member of the MoonEdge community

Supportive

Value-add services and support to projects on MoonEdge

OPPORTUNITY

Ethereum Network is rigorous, however:

- *Gas fees are skyrocketing*
- *Network is slowing daily*

Ethereum users are seeking a cheaper and faster solution. Alternative chains and Layer-2 solutions are growing in popularity.

Polygon Network (formerly Matic) is the leading Layer-2 Solution:

- *Incredibly low fees*
- *Highly decentralized*
- *Near instant transactions*

Polygon Network has exponentially grown in 2020 and 2021.

WHY MOONEDGE?

Leverages Polygon Network for inexpensive IDO participation and exciting Polygon Network project opportunities.

Complete project due diligence – ensures only top-tier projects are brought to our community, minimizing the chance of scams and rug-pulls.

Our experienced MoonEdge team provides value-add services that help projects reach their full potential.

Empowers the community by offering guaranteed opportunities and allocations – regardless of portfolio size.

Projects benefit from a wide community and adoption opportunities.

MoonEdge and their partners will offer a full support to the projects launching on our platform.

MoonEdge members benefit from exciting Polygon Network project opportunities.

HOW IT WORKS

MoonEdge uses a fair tiered system

Minimum holding requirement for each tier

Tiers dynamically adjust based on weighted pool size

Project allocations vary for each tier

Snapshot taken pre-launch to determine tier placement

MoonEdge launches offered in two-rounds:

ROUND 1 :

Each MoonEdge participant has a guaranteed allocation (based on tier) during a pre-determined timeframe.

ROUND 2:

Unsold tokens are reallocated based on tier-system and sold on FCFS (first-come, first-served) basis.

TOKEN UTILITY

IDO participation

- Fair-tiered System
- Guaranteed allocation for all tiers
- Strong hand incentive (e.g., chance for tier-upgrade)

Governance & Staking

- Voting on protocol updates to govern MoonEdge's future
- Choose projects to be hosted on MoonEdge
- Delegation of project reviewers

Staking rewards

- Rewards for providing liquidity
- More details later
