standard myth is that the Luddites despised technological progress thoughtlessly simply because it was technological. There are reasons why this story has become standard fare and they are explained in detail by David Noble in his book *The Truth is Luddites did not dislike technological progress in and of itself they disliked it*. I love books title: **Progress Without People: New Technology, Unemployment, and the Message of Resistance: In Defense of Luddism** for the inspiration and giving the spirit to my full-day activity.
